GEORGIA BANCSHARES, INC. AND SUBSIDIARY

NOTE 1 BASIS OF PRESENTATION

The accompanying consolidated financial statements have been prepared in accordance with the requirements for interim financial statements and, accordingly, they are condensed and omit disclosures, which would substantially duplicate those contained in the most recent annual report to shareholders. The financial statements as of September 30, 2003 and for the interim periods ended September 30, 2003 and 2002 are unaudited and, in the opinion of management, include all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation. The financial information as of December 31, 2002 has been derived from the audited financial statements as of that date. For further information, refer to the financial statements and the notes included in Georgia Bancshares, Inc. 2002 Annual Report.

NOTE 2 CRITICAL ACCOUNTING POLICIES

We have adopted various accounting policies which govern the application of accounting principles generally accepted in the United States in the preparation of our financial statements. Our significant accounting policies are described in the footnotes to the consolidated financial statements at December 31, 2002 as filed on our annual report on Form 10-KSB.

Certain accounting policies involve significant judgments and assumptions by us which have a material impact on the carrying value of certain assets and liabilities. We consider these accounting policies to be critical accounting policies. The judgments and assumptions we use are based on historical experience and other factors, which we believe to be reasonable under the circumstances. Because of the nature of the judgments and assumptions we make, actual results could differ from these judgments and estimates which could have a material impact on our carrying values of assets and liabilities and our results of operations.

We believe the allowance for loan losses is a critical accounting policy that requires the most significant judgments and estimates used in preparation of our consolidated financial statements. We have developed policies and procedures for evaluating the overall quality of our credit portfolio and the timely identification of potential credit problems. The loan portfolio is periodically reviewed to evaluate the outstanding loans and to measure both the performance of the portfolio and the adequacy of the allowance for loan losses. We have established an allowance for loan losses through a provision for loan losses charged to expense on our statement of operations.

NOTE 3 OFF-BALANCE SHEET RISK

Through the operations of our bank, we have made contractual commitments to extend credit in the ordinary course of our business activities. These commitments are legally binding agreements to lend money to our customers at predetermined interest rates for a specified period of time. We evaluate each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by us upon extension of credit, is based on our credit evaluation of the borrower. Collateral varies but may include accounts receivable, inventory, property, plant and equipment, commercial and residential real estate.

GEORGIA BANCSHARES, INC. AND SUBSIDIARY
NOTE 4 COMPREHENSIVE INCOME

Comprehensive income includes net income and other comprehensive income, which is defined as non-owner related transactions in equity. The following table sets forth the amounts of other comprehensive income included in equity along with the related tax effect for the nine month periods ended September 30, 2003 and 2002.

	<u>Pre-tax Amount</u>	<u>(Expense) Benefit</u>	<u>Net-of-tax Amount</u>
For the Nine Months Ended September 30, 2003:			
Unrealized gains (losses) on securities:			
Unrealized holding gains (losses) arising during the period	\$ (739,227)	\$ 251,337	\$ (487,890)
Plus: reclassification adjustment for gains (losses) realized in net income	-	-	-
	<u>(739,227)</u>	<u>251,337</u>	<u>(487,890)</u>
Net unrealized gains (losses) on securities	(739,227)	251,337	(487,890)
Other comprehensive income	<u>\$ (739,227)</u>	<u>\$ 251,337</u>	<u>\$ (487,890)</u>
	<u>Pre-tax Amount</u>	<u>(Expense) Benefit</u>	<u>Net-of-tax Amount</u>
For the Nine Months Ended September 30, 2002:			
Unrealized gains (losses) on securities:			
Unrealized holding gains (losses) arising during the period	\$ 661,083	\$ (221,465)	\$ 439,618
Plus: reclassification adjustment for gains (losses) realized in net income	-	-	-
	<u>661,083</u>	<u>(221,465)</u>	<u>439,618</u>
Net unrealized gains (losses) on securities	661,083	(221,465)	439,618
Other comprehensive income	<u>\$ 661,083</u>	<u>\$ (221,465)</u>	<u>\$ 439,618</u>

Accumulated other comprehensive income consists solely of the unrealized gain on securities available for sale, net of the deferred tax effects.

GEORGIA BANCSHARES, INC. AND SUBSIDIARY
NOTE 5 EARNINGS PER SHARE

Net income per share basic is computed by dividing net income by the weighted average number of common shares outstanding. Net income per share diluted is computed by dividing net income by the weighted average number of common shares outstanding and dilutive common share equivalents using the treasury stock method. Dilutive common share equivalents include common shares issuable upon exercise of outstanding stock options.

<u>Three Months Ended September 30,</u>	
<u>2003</u>	<u>2002</u>
<u> </u>	<u> </u>

Three Months Ended

GEORGIA BANCSHARES, INC. AND SUBSIDIARY **Item 2. Management's Discussion and Analysis or Plan of Operation**

This Report contains statements which constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and the Securities Exchange Act of 1934. These statements are based on many assumptions and estimates and are not guarantees of future performance. Our actual results may differ materially from those projected in any forward-looking statements, as they will depend on many factors about which we are unsure, including many factors which are beyond our control. The words may, would, could, will, expect, anticipate, believe, intend, plan, and estimate, as well as similar expressions, are meant to identify such forward-looking statements. Potential risks and uncertainties include, but are not limited to:

- o significant increases in competitive pressure in the banking and financial services industries;
- o changes in the interest rate environment which could reduce anticipated or actual margins;
- o changes in political conditions or the legislative or regulatory environment;
- o the level of allowance for loan loss;
- o the rate of delinquencies and amounts of charge-offs;
- o the rates of loan growth;
- o adverse changes in asset quality and resulting credit risk-related losses and expenses;
- o general economic conditions, either nationally or regionally and especially in our primary service area, becoming less favorable than expected resulting in, among other things, a deterioration in credit quality;
- o changes occurring in business conditions and inflation;
- o changes in technology;
- o changes in monetary and tax policies;
- o changes in the securities markets; and
- o other risks and uncertainties detailed from time to time in our filings with the Securities and Exchange Commission.

Results of Operations

Net Interest Income

For the three months ended September 30, 2003, net interest income increased \$340,944, or 25.5%, to \$1,680,360 as compared to \$1,339,416 for the same period in 2002. Interest income from loans, including fees, increased \$299,378, or 13.4%, to \$2,531,831 at September 30, 2003, as compared to \$2,232,453 at September 30, 2002. This increase in net interest income is a direct result of the combination of an increase in the outstanding balances of net loans, which increased from \$125,750,137 at December 31, 2002, to \$137,760,357 at September 30, 2003, and a decrease in the average interest cost of deposits and other interest bearing liabilities. Income on investment securities, however, declined \$124,502, or 32.9%, to \$254,230 for the three months ended September 30, 2003 as compared to \$378,732 at September 30, 2002. This decrease was primarily attributable to heavy prepayments on higher yielding mortgage backed securities that occurred during early 2003. Interest expense for the three months ended September 30, 2003 was \$1,121,565, as compared to \$1,281,221 for the same period in 2002.

For the nine months ended September 30, 2003, net interest income increased \$1,370,359, or 40.6%, to \$4,746,315 as compared to \$3,375,956 for the same period in 2002. Interest income from loans, including fees, increased \$1,505,292, or 26.0%, to \$7,289,759 at September 30, 2003, as compared to \$5,784,467 at September 30, 2002. Income on investment securities, however, declined \$207,626, or 19.2%, to \$875,514 for the nine months ended September 30, 2003 as compared to \$1,083,140 at September 30, 2002. Interest expense for the nine months ended September 30, 2003 was \$3,461,141, as compared to \$3,532,209 for the same period in 2002.

GEORGIA BANCSHARES, INC. AND SUBSIDIARY
Item 2. Management's Discussion and Analysis or Plan of Operation (continued)

Provision and Allowance for Loan Losses

The provision for loan losses is the charge to operating earnings that management believes is necessary to maintain the allowance for possible loan losses at an adequate level. For the three months ended September 30, 2003, the provision charged to expense was \$18,000 as compared to \$291,733 for the same period in 2002. For the nine months ended September 30, 2003, the provision charged to expense was \$168,000 as compared to \$599,150 for the same period in 2002. The decrease in the provision charged to expense during each of these periods reflected the reduction in the rate of growth of our loan portfolio over the comparable periods. The total loan loss allowance as a percentage of gross loans changed only slightly, as it represented 1.46% of gross loans at September 30, 2003 and 1.48% at December 31, 2002. There are risks inherent in making all loans, including risks with respect to the period of time over which loans may be repaid, risks resulting from changes in economic and industry conditions, risks inherent in dealing with individual borrowers, and, in the case of a collateralized loan, risks resulting from uncertainties about the future value of the collateral. We maintain an allowance for loan losses based on, among other things, historical experience, an evaluation of economic conditions, and regular reviews of delinquencies and loan portfolio quality. During 2002 we increased our loan loss allowance substantially because of our concern over economic conditions and the rate of growth of our loan portfolio. Our judgment about the adequacy of the allowance is based upon a number of assumptions about future events, which we believe to be reasonable, but which may not prove to be accurate. We consider our loss history, the practices of other financial institutions in regard to loan loss allowances, general economic conditions nationally and within our market area, business conditions within each segment of the markets that we lend to and possible loss exposures on specific loans that we have identified for special scrutiny.

In addition, regulatory agencies, as an integral part of their examination processes, periodically review our allowance for loan losses for adequacy. Our losses will undoubtedly vary from our estimates, and there is a possibility that charge offs in future periods could exceed the allowance for loan losses as estimated at any given point in time or that substantial additional increases in the allowance for loan losses could be required. Additions to the allowance for loan losses could result in a decrease of our net income and, possibly, our capital.

Non-interest Income

Noninterest income for the three months ended September 30, 2003 was \$90,100, a decrease of \$65,926 from \$156,026 during the comparable period in 2002. This decrease was primarily attributable to less income from security transactions in the two periods. Income from security transactions decreased \$86,818 from \$94,481 in 2002 to \$7,663 in 2003. Security transactions consist of gains or losses from the sale of securities held for sale. We sell securities from time to time in order to adjust the mix of our investment portfolio or, on rare occasions, to provide liquidity for ongoing operations. However, the service charge income component of non-interest income increased \$18,942 to \$61,162 as compared to \$42,220 for the same period in 2002. This increase was due to an increase in consumer deposit accounts over the two periods.

Noninterest income for the nine months ended September 30, 2003 was \$300,034, a decrease of \$54,054 from \$354,088 during the comparable period in 2002. Income from security transactions decreased \$92,651 from \$178,348 in 2002 to \$85,697 in 2003. Service charge income increased \$32,970 from \$127,039 in 2002 to \$160,009 in 2003, primarily due to the growth in the number of deposit accounts.

GEORGIA BANCSHARES, INC. AND SUBSIDIARY
Item 2. Management's Discussion and Analysis or Plan of Operation (continued)

Non-Interest Expense

Edgar Filing: GEORGIA BANCSHARES INC// - Form 10QSB

Total non-interest expense for the three months ended September 30, 2003 was \$1,198,902, or 34.0% higher than the \$894,856 for the three months ended September 30, 2002. The largest increase was in personnel costs, which increased from \$558,896 at September 30, 2002 to \$664,444, or an increase of 18.9%. The increase is attributable to the hiring of staff for new offices located in Fayetteville and Tyrone, Georgia, and staff for our Peachtree City office, who were hired during the fourth quarter of 2002. Occupancy expense increased to \$139,114 from \$85,966. This increase is attributable to the opening of the Peachtree City office. Data processing costs rose to \$107,232 from \$75,594, for an increase of \$31,638, or 41.9%, over the comparable period from a year ago. Other operating expenses increased to \$252,902 from \$148,519, an increase of \$104,383, or 70.3%, over the same period in 2002. Other operating expenses include office supplies, telephone service, postage expense, credit related expenses such as credit reports and filing fees, FDIC insurance premiums and business insurance premiums. This increase is attributable to our growth during the past twelve months. This growth is evidenced by the fact that total assets increased from \$169,596,858 at September 30, 2002, to \$171,618,514 at December 31, 2002, to \$191,263,849 at September 30, 2003.

Total non-interest expense for the nine months ended September 30, 2003 was \$3,371,306, or 38.4% higher than the \$2,436,089, for the nine months ended September 30, 2002. The largest increase was in personnel costs, which increased from \$1,436,089 at September 30, 2002 to \$1,859,920, or an increase of 29.5%. Occupancy expense increased to \$401,264 from \$251,330. Data processing costs rose to \$333,349 from \$226,990 for an increase of \$106,359, or 46.9%, over the comparable period from a year ago. Other operating expenses increased to \$659,830 from \$435,776, an increase of \$224,054, or 51.4%, over the same period in 2002.

Income Taxes

The income tax provision for the three months ended September 30, 2003 was \$187,000 as compared to \$102,774 for the same period in 2002, and \$520,000 for the nine months ended September 30, 2003 as compared to \$176,432 for the same period in 2002. These increases in provisions for income taxes resulted from increased income before taxes.

Net Income

The combination of the above factors resulted in net income for the three months ended September 30, 2003 of \$366,558 as compared to \$206,079 for the same period in 2002, an increase of \$160,479, or 77.9%. For the nine months ended September 30, 2003, net income was \$987,043 as compared to \$518,373, an increase of \$468,670, or 90.4%.

Assets and Liabilities

During the first nine months of 2003, total assets increased \$19,645,335, or 11.4%, to \$191,263,849 as compared to \$171,618,574 at December 31, 2002. The primary sources of growth in assets were net loans, which increased \$12,010,220 from December 31, 2002 to September 30, 2003, and federal funds sold, which increased from zero to \$7,253,000 during the first nine months of 2003. This increase in federal funds sold is a result of rapid prepayments on our investments in mortgage-backed securities, the sale of a large block of securities, the proceeds of which were being held as overnight funds until they could be profitably redeployed into loans and other investments and growth in deposits resulting from expansion of our retail branch network. Investment securities have increased by \$1,245,335 over the balances reflected in the December 31, 2002 financial statements. Total deposits increased \$26,286,862, or 18.4%, to \$168,845,662 from the December 31, 2002 amount of \$142,558,800. At September 30, 2003, securities sold under agreements to repurchase had decreased to \$445,018 from \$3,230,560, a decrease of \$2,785,542, or 86.2%. These agreements are for our commercial sweep accounts for corporate customers and are not FDIC insured. In order to fund loan growth and provide liquidity for daily operating needs, we occasionally utilize advances from the Federal Home Loan Bank of Atlanta. At December 31, 2002 and at September 30, 2003, we had \$2,000,000 outstanding in FHLB advances. In addition, \$4,200,000 in federal funds purchased were outstanding at December 31, 2002, but were repaid during 2003. Federal funds purchased are overnight borrowings from other commercial banks and are used to provide short term liquidity. These short-term borrowings were repaid from cash generated from deposit growth.

Investment Securities

Edgar Filing: GEORGIA BANCSHARES INC// - Form 10QSB

Investment securities increased from \$34,809,311 at December 31, 2002 to \$36,054,646 at September 30, 2003. Although the overall value of investment securities changed very little since the beginning of 2003 (\$1,245,335 or a 3.6% increase), market conditions have required changes in the mix of securities within the portfolio. The recent refinancing boom among homeowners has caused high rates of repayments on our higher coupon mortgage backed securities. These prepayments have also caused many of our mortgage backed security balances to decrease rapidly, resulting in small balances on many of our securities. We sold these securities and intend to reinvest the funds in higher yielding loans, or in lower coupon rate mortgage backed securities that will provide more stable cash flows. Generally, our purpose in purchasing mortgage backed securities is that they provide good income yields as well as a consistent cash flow from the monthly mortgage payments. These cash flows are then reinvested in new loans or additional purchases of mortgage backed securities, depending on loan demand and market conditions. This also allows us to regularly invest at current market rates. While we do invest in traditional government agency securities on occasion, recent market conditions have resulted in historically low yields on those securities and we have chosen to maximize our yields by investing in other segments of the market. We also allocate a portion of our investment portfolio to tax-free securities and we have increased our purchases of tax-free securities during the last nine months. When we purchase tax-free securities we typically give priority to the purchase of tax-free municipal securities issued by municipalities domiciled in the State of Georgia, although we do purchase securities from other states when we deem it beneficial. It is generally our policy to designate our marketable investment securities as available-for-sale and all securities were so designated at September 30, 2003.

Loans

Net loans increased \$12,010,220, or 9.6%, from December 31, 2002 to September 30, 2003. As shown below, the main component of growth in the loan portfolio was real estate mortgage loans, which increased 31.4%, or \$14,828,852. This increase was partially offset by a decrease of \$5,810,138, or 8.4%, in real estate construction loans. Generally, we do not make and retain first mortgages on 1-4 family real estate. Our typical real estate-mortgage loan is on commercial real estate. Balances within the major loans receivable categories as of September 30, 2003 and December 31, 2002 are as follows:

	<u>September 30, 2003</u>	<u>December 31, 2002</u>
Real estate - construction	\$ 63,189,862	\$ 69,000,000
Real estate - mortgage	62,090,852	47,262,000
Commercial and industrial	11,367,819	8,841,000
Consumer and other	3,150,346	2,536,443
	<u>139,798,879</u>	<u>127,639,443</u>
Gross loans outstanding, end of period	\$ 139,798,879	\$ 127,639,443

Risk Elements in the Loan Portfolio

The following is a summary of risk elements in the loan portfolio:

	<u>September 30, 2003</u>	<u>December 31, 2002</u>
Loans:	\$ 0	\$ 13,857
Accruing loans more than 90 days past due	\$ -	\$ -
Loans identified by the internal review mechanism:		
Criticized	\$ 11,295	\$ 17,046
Classified	\$ 2,545,754	\$ 2,151,230

Item 2. Management's Discussion and Analysis or Plan of Operation (continued)

The following table sets forth certain information with respect to our allowance for loan losses and the composition of charge-offs and recoveries for the year ended December 31, 2002 and the nine months ended September 30, 2003.

Allowance for Loan Losses

	December 31, 2002	September 30 2003
Average loans outstanding	\$ 108,145,858	\$ 134,469,668
Gross loans outstanding at period end	\$ 127,639,443	\$ 139,798,879
Total non-performing loans	\$ 13,857	\$ 0
Beginning balance of allowance	\$ 1,114,411	\$ 1,889,306
Loans charged off:		
Real estate-construction	(1,655)	(0)
Real estate mortgage	(24,743)	(0)
Commercial and industrial	(56,190)	(17,519)
Consumer and other	(29,199)	(3,165)
Total loans charged off	(111,787)	(20,684)
Recoveries:		
Real estate-construction	\$ 0	\$ 0
Real estate-mortgage	0	0
Commercial and industrial	0	0
Consumer and other	1,682	1,900
Total recoveries	\$ 1,682	\$ 1,900
Net loans charged off	\$ (110,105)	\$ (18,784)
Provision for loan losses for the period	885,000	168,000
Balance at period end	\$ 1,889,306	\$ 2,038,522
Allowance as a percentage of loans outstanding	1.48%	1.46%
Non-performing loans as a percentage of allowance	.73%	.00%
Ratio of net charge-offs to average gross loans outstanding during the period	.10%	.02%

Deposits

At September 30, 2003, total deposits were \$168,845,662, an increase of \$26,286,862, or 18.4%, from December 31, 2002. The largest increase was in other time deposits. At September 30, 2003, certificates of deposit included brokered deposits totaling \$21,224,000. We have found that the cost of using brokered deposits is reasonable in comparison to the cost of obtaining traditional local deposits. For this reason, we anticipate continuing to utilize brokered deposits as a funding source, however, our business plan places a strong emphasis on local deposit growth. In order to build local core deposits, we believe that we need to provide convenience to both retail and consumer depositors in our market area. We believe this convenience can best be provided through a series of branch banks providing attractive deposit products, located in growth areas. Toward this end, we opened the supermarket branch in the Kroger store in Towne Center south of Fayetteville in June 2003 and we opened our new full-service branch in Tyrone, Georgia in August 2003.

	<u>168,845,662</u>	<u>142,558,800</u>
	\$	\$

Advances from the Federal Home Loan Bank

As of September 30, 2003 and December 31, 2002, we had \$2,000,000 in advances from the Federal Home Loan Bank outstanding. We borrow from the Federal Home Loan Bank from time to time. We use these borrowings as a source of liquidity and to fund loans when appropriate. Borrowings are under a blanket lien agreement that we have executed with the Federal Home Loan Bank of Atlanta. Under this agreement, we assign the proceeds of loan repayments and payoffs to the Federal Home Loan Bank of Atlanta as collateral against future advances. This arrangement will provide greater access to borrowings if the need for such borrowings arises in the future.

Liquidity

Liquidity is the ability to meet current and future obligations through liquidation or maturity of existing assets or the acquisition of additional liabilities. Cash and federal funds sold are our primary sources of asset liquidity. We generate cash and federal funds sold from scheduled maturities of loans and investments on the asset side and through pricing policies on the liability side for interest-bearing deposit accounts and borrowings from the Federal Home Loan Bank. The level of liquidity is measured by the loan-to-total funds ratio, which was at 81.62% at September 30, 2003 and 84.0% at December 31, 2002.

Securities available-for-sale, which totaled \$36,054,646 at September 30, 2003, serve as a secondary source of liquidity. We also have lines of credit available with correspondent banks to purchase federal funds for periods from one to seven days. At September 30, 2003, unused fed funds lines of credit totaled \$9,400,000.

When we deem it necessary and prudent we access deposit markets other than the local market for sources of funds. These funds include brokered deposits and deposits generated from internet sources.

Capital Resources

Total shareholders equity increased from \$18,265,577 at December 31, 2002 to \$18,771,644 at September 30, 2003. The increase is due to net income for the nine months ending September 30, 2003 of \$987,043, an after tax decrease of \$487,890 in the fair value of securities available-for-sale, and net proceeds from the exercise of stock options by employees of \$6,914.

The Federal Reserve Board and bank regulatory agencies require bank holding companies and financial institutions to maintain capital at adequate levels based on a percentage of assets and off-balance sheet exposures, adjusted for risk-weights ranging from 0% to 100%. Under the risk-based standard, capital is classified into two tiers. Tier 1 capital consists of common shareholders equity, excluding the unrealized gain (loss) on available-for-sale securities, minus certain intangible assets. Tier 2 capital consists of the general reserve for loan losses subject to certain limitations. An institutions qualifying capital base for purposes of its risk-based capital ratio consists of the sum of its Tier 1 and Tier 2 capital. The regulatory minimum requirements are 4% for Tier 1 and 8% for total risk-based capital.

Banks and bank holding companies are also required to maintain capital at a minimum level based on total assets, which is known as the leverage ratio. The minimum requirement for the leverage ratio is 3%, but all but the highest rated institutions are required to maintain ratios 100 to 200 basis point above the minimum. Both the company and the bank exceeded their minimum regulatory capital ratios as of September 30, 2003.

GEORGIA BANCSHARES, INC. AND SUBSIDIARY
Item 2. Management's Discussion and Analysis or Plan of Operation (Continued)

The following table summarizes our risk-based capital at September 30, 2003:

Edgar Filing: GEORGIA BANCSHARES INC// - Form 10QSB

Shareholders' equity	\$ 18,771,644
Less: unrealized gain (loss) on available-for-sale securities	(132,140)
Less: intangibles	0

Tier 1 capital	\$ 18,903,784
Plus: allowance for loan losses (1)	1,976,250

Total capital	\$ 20,880,034

Risk-weighted assets	\$ 158,100,000

Total average assets for the quarter ended September 30, 2003	\$ 186,281,000

Risk based capital ratios	
Tier 1 capital (to risk-weighted assets)	11.96%
Total capital (to risk-weighted assets)	13.21%
Tier 1 capital (to total average assets)	10.15%
(1) limited to 1.25% of risk-weighted assets	

Regulatory Matters

From time to time, various bills are introduced in the United States Congress with respect to the regulation of financial institutions. Certain of these proposals, if adopted, could significantly change the regulation of banks and the financial services industry. We cannot predict whether any of these proposals will be adopted or, if adopted, how these proposals would affect us.

Item 3. Controls and Procedures

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures as defined in Exchange Act Rule 13a-15(e). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our current disclosure controls and procedures are effective as of September 30, 2003.

The design of any system of controls and procedures is based in part upon certain assumptions about the likelihood of future events. There can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.

GEORGIA BANCSHARES, INC. AND SUBSIDIARY

PART II OTHER INFORMATION

Item 1. Legal Proceedings

On April 19, 2001, shareholders of the bank approved the reorganization of the bank into a holding company structure pursuant to that certain Reorganization Agreement and Plan of Share Exchange dated March 10, 2001. Upon consummation of the reorganization on May 18, 2001, 2,080,078 shares of common stock of the bank were exchanged for 2,080,078 shares of common stock of the company. Pursuant to Section 14-2-1302 of the Georgia Business Corporation Code, a record shareholder of a corporation is entitled to dissent from, and obtain payment of the fair value of his shares in the event of certain corporate actions, including the consummation of a plan of share exchange. Cede & Co., the record holder of the remaining originally issued 68,359 shares of the bank's common stock, dissented from the bank's reorganization into a holding company structure. The bank has an obligation to purchase this dissenting shareholder's shares for fair value as of May 18, 2001. The bank has determined through the aid of an appraiser that these shares were worth \$5.40 per share as of May 18, 2001. The dissenting shareholder, however, claimed that the shares were worth \$12.93 per share. The numbers of shares and prices per share have been adjusted to reflect a 5 for 4 stock split declared by the board of directors on August 16, 2001, September 19, 2002, and August 20, 2003. To resolve this matter in accordance with Section 14-2-1330 of the Georgia Business Corporation Code, the bank filed a Petition for Determination of Fair Value of

Edgar Filing: GEORGIA BANCSHARES INC// - Form 10QSB

Shares against Cede & Co. in the Superior Court of Fayette County, State of Georgia on September 14, 2001. Fayette Mortgage Company and Edgar E. Chapman, Jr. Individual Retirement Account have subsequently replaced Cede & Co. as the real shareholders in interest. The parties have concluded discovery and are waiting for the case to be scheduled for the trial. Following adjudication by the court, the bank will be obligated to purchase the dissenting shareholder's shares for the judicially determined fair market value.

Item 2. Changes in Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security Holders

None.

Item 5. Other Information
