NOTICE OF ANNUAL MEETING OF STOCKHOLDERS
June 8, 2010

To the Stockholders of Century Aluminum Company:

We invite you to attend our 2010 Annual Meeting of Stockholders on June 8, 2010, at 8:30 a.m., local time, at our executive offices located at 2511 Garden Road, Building A, Suite 200, Monterey, California. At the meeting, we will:

- Elect four Class II directors, each for a term of three years, and one Class I director, for a
1. term of two years, to our Board;
Ratify the appointment of Deloitte & Touche LLP as our independent registered public
 2. accounting firm for the fiscal year ending December 31, 2010; and
Transact any other business that may properly come before the meeting or at any
 3. adjournments or postponements of the meeting.

You may vote at the meeting if you owned our common stock at the close of business on April 12, 2010. Please note, there are three ways that you can vote before the meeting — by telephone, by the Internet or by mailing the proxy card.

By Order of the Board
of Directors,

William J. Leatherberry
Executive Vice
President, General
Counsel and Secretary

Monterey, California
April 21, 2010

YOUR VOTE IS IMPORTANT

If you do not plan to attend the 2010 Annual Meeting, or if you do plan to attend but wish to vote by proxy, please follow the instructions in the Notice of Internet Availability of Proxy Materials to vote by the Internet or to request a paper copy of the proxy materials and a proxy card. You may also vote by telephone.

PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS
June 8, 2010

Our Board of Directors is soliciting proxies for the 2010 Annual Meeting of Stockholders of Century Aluminum Company, which we refer to as "Century" or the "Company". This proxy statement contains information about the items you will vote on at the Annual Meeting. Further information and instructions on how to vote online, or in the alternative, request a paper copy of these proxy materials and a proxy card will be as set forth in the Notice of Internet Availability of Proxy Materials as described below.

IMPORTANT NOTICE REGARDING THE AVAILABILITY OF PROXY MATERIALS FOR
THE ANNUAL MEETING OF SHAREHOLDERS TO BE HELD ON JUNE 8, 2010

We are pleased this year to take advantage of the Securities and Exchange Commission ("SEC") rules that permits companies to furnish proxy materials to shareholders over the Internet. On or about April 28, 2010, we will begin mailing a Notice of Internet Availability of Proxy Materials ("Notice"). The Notice contains instructions on how to vote online, or in the alternative, request a paper copy of the proxy materials and a proxy card. By furnishing a Notice and access to our proxy materials by the Internet, we are lowering the costs and reducing the environmental impact of our annual meeting. If you received a Notice by mail, you will not receive a paper copy of the proxy materials unless you request such materials by following the instructions contained on the Notice. Your vote is important no matter the extent of your holdings.

QUESTIONS AND ANSWERS

Q. When and where is the Annual Meeting of Stockholders being held?

A. The 2010 Annual Meeting is being held on June 8, 2010 at 8:30 a.m. local time, at our principal executive offices which are located at 2511 Garden Road, Building A, Suite 200, Monterey, California 93940.

Q. Who is entitled to vote and how many votes do I have?

A. You may vote at the 2010 Annual Meeting if you owned shares of our common stock at the close of business on April 12, 2010. Each stockholder is entitled to one vote for each share of common stock held.

Q. How many shares are available to vote in the Annual Meeting?

A. On April 12, 2010, the record date for the meeting, there were 92,660,357 shares of Century common stock outstanding.

Q. What constitutes a quorum for the meeting?

A. The holders of a majority of the outstanding shares of Century's common stock will constitute a quorum for the transaction of business at the 2010 Annual Meeting. Only shares of Century common stock that are present at the Annual Meeting, either in person or represented by proxy (including shares that the holder abstains from voting or does not vote with respect to one or more of the matters present for stockholder approval), will be counted for purposes of determining whether a quorum exists at the meeting.

Q. How do I vote?

A. There are four ways that you can vote your shares. Please choose only one of the following methods:

Internet. The website for voting is <http://www.ProxyVote.com>. To vote on the Internet, please follow the instruction provided in the Notice and have the Notice available when accessing the Internet. The voting system is available 24 hours a day, seven days a week, until 11:59 p.m. Eastern Time on Monday, June 7, 2010.

Telephone. If you are located in the United States or Canada, you can vote your shares by calling 1-800-690-6903. This is a toll-free number available 24 hours a day, seven days a week, until 11:59 p.m. Eastern Time on Monday, June 7, 2010. Please have your Notice available and follow the voice prompts to vote your shares.

Mail. To vote by mail, please follow the instructions on your Notice to request a paper copy of the proxy card and proxy materials, mark, sign and date your proxy card and return it in the postage-paid envelope provided with the proxy materials. If you mail your proxy card, we must receive it before 10:00 a.m. Eastern Time on Monday, June 7, 2010.

In Person. If you are the stockholder of record, you may vote by attending the Annual Meeting on Tuesday, June 8, 2010 at 8:30 a.m. local time, at our executive offices located at 2511 Garden Road, Building A, Suite 200, Monterey, California. If your shares are held in "street name," you can vote in person at the Annual Meeting if you obtain a legal proxy from your bank or broker. Please contact your bank or broker for information.

Q. What is the difference between holding shares as a stockholder of record and as a beneficial owner?

A. Most of our shareholders hold their shares through a stock broker, bank or other nominee rather than directly in their own name. As summarized below, there are some differences between shares held of record and those owned beneficially.

Stockholder of Record. If your shares are registered directly in your name with our transfer agent, Computershare Investor Services LLC, you are considered the stockholder of record of those shares. As the stockholder of record, you have the right to grant your voting proxy directly to us or to vote in person at the Annual Meeting.

Beneficial Owner. If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial owner of shares held in "street name." The Notice is being forwarded to you by your broker or nominee, who is considered to be the stockholder of record for those shares. As the beneficial owner, you have the right to direct your broker, bank or nominee on how to vote. Your broker or nominee has enclosed a voting instruction card for you to use in directing your broker or nominee as to how to vote your shares. As a beneficial holder, you are invited to attend the Annual Meeting; however, because you are not the stockholder of record, you may not vote these shares in person at the Annual Meeting unless you obtain a signed proxy from the record holder giving you the right to vote the shares.

Q. How do I vote my shares that are held in a Century 401(k) plan?

A. If you participate in one of Century's 401(k) plans, you must provide the trustee of the 401(k) plan with your voting instructions in advance of the meeting. You may do this by returning your voting instructions to the tabulator by mail, or submitting them by telephone or electronically, using the Internet. You cannot vote your shares in person at the Annual Meeting; the trustee is the only one that can directly vote your shares. The trustee will vote your shares as you have instructed. If the trustee does not receive your instructions, your shares generally will be voted in proportion to the way the other plan participants voted. To allow sufficient time for voting by the trustee, your voting instructions must be received before June 4, 2010.

Q. May I change my vote?

A. Yes. If you are the stockholder of record, you may revoke a proxy or change your voting instructions by:

delivering a written notice of revocation or later-dated proxy to our Secretary at or before the taking of the vote at the Annual Meeting;

changing your vote instructions via the Internet up to 11:59 p.m. Eastern Time on June 7, 2010 (the day before the 2010 Annual Meeting); or

voting in person at the Annual Meeting.

If you hold your shares in one of Century's 401(k) plans, notify the plan trustee through the tabulator in writing prior to June 4, 2010, that your voting instructions are revoked or should be changed.

If your shares are held in "street name," you must follow the specific instructions provided to you to change or revoke any instructions that you may have already provided to your bank, broker or other nominee.

Q. Why am I being asked to elect five directors?

A. Our Board of Directors has determined it to be in the best interests of Century and its shareholders to expand the Board from nine to eleven members. As such, you are being asked to re-elect Messrs. Fontaine, Jones and O'Brien and to elect Messrs. Glasenberg and Michelmore to fill the newly created seats.

Q. Why am I being asked to elect some directors for a three-year term and other directors for a two-year term?

A. As our Board is divided into three classes, we are spreading directors across the classes of directors. As such, you are being asked to elect Messrs. Glasenberg, Jones, Michelmore and O'Brien as Class II Directors to serve three-year terms and Mr. Fontaine as a Class I Director to serve a two-year term. Following the 2010 Annual General Meeting, Class I will consist of four directors, Class II will consist of four directors and Class III will consist of three directors.

Q. Why am I not being asked to approve the Tax Benefit Preservation Plan?

A. Following discussion with Glencore International AG, our largest shareholder, the Board determined not to include the Tax Benefit Preservation Plan on the agenda for the 2010 Annual Meeting. If not previously approved by Century's stockholders, the Tax Benefit Preservation Plan will expire in accordance with its terms on September 29, 2010.

Q. What are the voting requirements to elect the directors and to approve each of the proposals discussed in this proxy statement?

A. Directors are elected by a plurality of votes, which means that the five nominees that receive the highest number of votes will be elected as directors, even if a nominee does not receive a majority of the votes cast. The other items submitted to stockholders for a vote at the meeting require the affirmative vote of a majority of the votes cast.

Your shares will be voted in accordance with your instructions. Abstentions will be treated as shares that are present and entitled to vote for purposes of determining a quorum for a matter, but will not be counted as a vote in favor of such matter. Accordingly, an abstention from voting on a matter will not be counted for the purposes of electing directors and will have the same effect as a vote against other matters.

Q. Why is it so important that I vote this year?

A. Under recent amendments to SEC and New York Stock Exchange rules, if you own shares in "street name" through a broker and do not instruct your broker how to vote, your broker may not vote your shares on proposals determined to be "non-routine." Of the proposals included in this proxy statement, the proposal to ratify the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2010 is considered to be "routine". The election of directors is considered to be a "non-routine" matter. Therefore, if you do not provide your bank, broker or other nominee holding your shares in "street name" with voting instructions, those shares will count for quorum purposes, but will not be counted as shares present and entitled to vote on the election of directors. Therefore, it is important that you provide voting instructions to your broker.

Q. What is "householding"?

A. In addition to furnishing proxy materials over the Internet, the Company takes advantage of the SEC's "householding" rules to reduce the delivery cost of materials. Under such rules, only one Notice or, if paper copies are requested, only one Proxy Statement, Annual Report and Form 10-K are delivered to multiple shareholders sharing an address unless the Company has received contrary instructions from one or more of the shareholders. If a shareholder

sharing an address wishes to receive a separate Notice or copy of the proxy materials, he or she may so request by contacting Broadridge Householding Department by phone at 1-800-542-1061 or by mail to Broadridge Householding Department, 51 Mercedes Way, Edgewood, New York 11717. A separate copy will be promptly provided following receipt of a shareholder's request, and such shareholder will receive separate materials in the future. Any shareholder currently sharing an address with another shareholder but nonetheless receiving separate copies of the materials may request delivery of a single copy in the future by contacting Broadridge Householding Department at the number or address shown above.

PROPOSAL NO. 1: ELECTION OF DIRECTORS

Our Board of Directors is divided into three classes: Class I, Class II and Class III. Except as described below, directors in each class are elected to serve for three-year terms, with each class standing for election in successive years. Four Class II Directors will be elected at the 2010 Annual Meeting to serve a three-year term that will expire at the 2013 Annual Meeting. In addition, one Class I Director will be elected at the 2010 Annual Meeting to serve a two-year term that will expire at the 2012 Annual Meeting.

The persons named as proxies intend to vote for the election of each of the nominees listed below unless you indicate on the proxy card that your vote should be withheld from any or all of the nominees. If any nominee declines or is unable to serve, the persons named as proxies will use their best judgment in voting for any available nominee. Each of the nominees named below has indicated their willingness to serve if elected and the Board of Directors has no reason to believe that any of the nominees will not be available to serve.

In addition to meeting the minimum qualifications set out by the Board of Directors, each of the nominees also brings a strong and unique background and set of skills to the Board, giving the Board, as a whole, competence and experience in a wide variety of areas, including board service, corporate governance, compensation, executive management, finance, mining, operations, manufacturing, marketing, government, law, international business and health, safety, environmental and social responsibility.

Set forth below is background information, including the qualifications, attributes or skills that led the Board of Directors to conclude that such person should be nominated to serve as a member of the Board of Directors, for each of the nominees for election as well as the standing members of our Board whose terms expire in 2011 and 2012. All nominees other than Messrs. Glasenberg and Michelmores are currently directors of Century.

Mr. Jones has over 40 years of experience in the metals and mining industries, including both underground and open pit mining, smelting and refining of multiple base and precious metals. Mr. Jones has executive level experience including serving as President and Chief Executive Officer of Hudson Bay Mining and Smelting, President and Chief Operating Officer of Inco Limited and his current position as interim Chief Executive Officer of Iamgold, and brings extensive operational experience and perspective to the Board's deliberations. Mr. Jones also has extensive experience as a director of public companies and his time as Chairman of Iamgold Corporation's and Century's Compensation Committees and as a member of various other audit, corporate governance, environmental, health and safety and other board committees adds substantial governance and compensation expertise to the Board. In addition as a dual-citizen of Canada and the United Kingdom and having lived and worked in a number of different countries, Mr. Jones provides international perspective and diversity to the Board.

Ivan Glasenberg	<p>53 Chief Executive Officer of Glencore International AG since January 2002 and Director since June 2001; Director of United Company RUSAL plc since March 2007; Director of Xstrata AG since February 2002; and Director of Minara Resources Ltd. since December 2000.</p>
-----------------	---

Mr. Glasenberg was designated for nomination to our Board of Directors by Glencore International AG, or Glencore, our largest shareholder, in accordance with a support agreement, dated April 7, 2010 (the "Support Agreement"). For a further description of the Support Agreement see "Corporate Governance and other Board Matters - Governance and Nominating Committee". Prior to Mr. Glasenberg's nomination,

our Governance and Nominating Committee considered Glencore's input as our largest shareholder and following review of Mr. Glasenberg's credentials, determined that Mr. Glasenberg would add valuable expertise in the metals and mining industry by virtue of his experience as Chief Executive Officer of Glencore and his director positions with Xstrata AG and Minara. As Chief Executive Officer of Glencore, Mr. Glasenberg provides extensive experience in all stages of aluminum production from alumina production to aluminum refining, production and marketing. In addition, as an Australian citizen and a resident of Switzerland, Mr. Glasenberg provides international perspective and diversity to the Board.

Name and Age*	57	Business Experience and Principal Occupation or Employment During Past 5 Years; Other Directorships	Director Since
Andrew Michelmore		Chief Executive Officer of Minerals and Metals Group since June 2009; Chief Executive Officer and Managing Director of OZ Minerals LTD from June 2008 to June 2009; Chief Executive Officer and Managing Director of Zinifex Limited from February 2008 to June 2008; Chief Executive Officer of EN+ Group from January 2006 to September 2007; Chief Executive Officer and Managing Director of WMC Resources from February 1993 to June 2005; Director of RUSAL from February 2006 to March 2007; Director of United Company RUSAL plc from March 2007 to September 2007; Chairman of the Jean Hailes Foundation since 1996; and Chairman of Ormond College Council since 2003.	

Mr. Michelmore was identified to our Board of Directors by Glencore. Our Governance and Nominating Committee considered Glencore's input as our largest shareholder and following review of Mr. Michelmore's credentials, determined that Mr. Michelmore would add valuable expertise to the Board in the metals and mining industry by virtue of his experience as Chief Executive Officer of Minerals and Metals Group and previous experience as Chief Executive Officer of Zinifex, Oz Minerals, EN+ Group and WMC Resources. Mr. Michelmore also adds valuable international engineering and business experience to the Board by virtue of his positions as a Fellow of the Institution of Chemical Engineers, the Institution of Engineers Australia and the Australian Academy of Technological Sciences and Engineering and a member of the Minerals Council of Australia and the Business Council of Australia. In addition as an Australian citizen and having lived and worked in a number of different countries, Mr. Michelmore provides

international diversity and perspective to the Board.

Class I Director to Serve a Two-Year Term to Expire in 2012

Name and Age*	Business Experience and Principal Occupation or Employment During Past 5 Years; Other Director Since Directorships
John C. Fontaine 78	Our Lead Director from 2005 to 2008; Of 1996 Counsel, to the law firm of Hughes Hubbard & Reed LLP since January 2000 and Partner from July 1997 to December 1999; Chairman of the Samuel H. Kress Foundation from 1994 to 2006; Trustee of the National Gallery of Art from 2003 to 2007 and Chairman of the Board of Trustees from 2006 to 2007.

During his tenure as our Lead Director and almost 15 years as a member of the Board, Mr. Fontaine has acquired a depth of experience in the aluminum industry. The Board benefits greatly from Mr. Fontaine's many years of experience counseling boards and senior management regarding corporate governance, compliance, disclosure, international business conduct and other relevant issues as a partner in the New York law firm of Hughes, Hubbard & Reed. In addition, Mr. Fontaine has in the past served as a director of two New York Stock Exchange listed companies and as a senior officer of Knight Ridder, Inc., including as its President until his retirement from the Company in 1997. In addition, in his time as a director of Century Aluminum, Mr. Fontaine has served as chairman of its Audit and Compensation committees and served on the Governance and Nominating Committee adding valuable familiarity with a full range of corporate and board functions.

Under the terms of the Standstill and Governance Agreement, Glencore may submit to our board one Class I nominee to stand for election to our board of directors. Inclusion of such nominee is subject to the consent of a majority of the members of our Governance and Nominating Committee, subject to the reasonable exercise of the fiduciary duties of such members. Our Governance and Nominating Committee has determined that Mr. Strothotte adds valuable expertise in the metals and mining industry through his positions as Chairman of Glencore and Xstrata AG. As Chairman and a former Chief Executive Officer of Glencore, Mr. Strothotte also provides extensive experience in all stages of aluminum production from alumina production to aluminum refining, production and marketing. In addition, as a German citizen, Mr. Strothotte provides international perspective and</p>	1996

diversity to the Board.

Corporate Governance and Other Board Matters

Our Board of Directors presently consists of 9 directors and following the 2010 Annual Meeting will consist of 11 directors. The Board, which is responsible for supervision of the overall affairs of Century, establishes corporate policies, sets strategic direction, and oversees management, which is responsible for Century's day-to-day operations. The Board met 16 times during 2009.

To assist it in carrying out its duties, the Board has established various standing committees. Each standing committee of the Board and its members are listed in the table below. The Board designates the members of each committee and the committee chair annually, based on the recommendations of the Governance and Nominating Committee. The Board has adopted written charters for each of its committees, which are available in the Investors section of our website, www.centuryaluminum.com, under the tab "Corporate Governance." During 2009, overall attendance at Board and committee meetings was 99%. Each director attended at least 87% of all meetings of the Board and each Board committee on which such director served. We encourage, but do not require, the attendance of Board members at our Annual Meetings. Eight of our directors attended in person or by telephone the 2009 Annual Meeting held on May 27, 2009.

Board Leadership Structure

The Board of Directors selects the Chairman of the Board in the manner and upon the criteria that it deems best for the Company at the time of selection. The Board of Directors does not have a prescribed policy on whether the roles of the Chairman and Chief Executive Officer should be separate or combined, but recognizes the value to the Company of the separation of these positions and thereby enabling an independent director to serve as Chairman. The Board will continue to evaluate whether this leadership structure is in the best interests of the stockholders on a regular basis.

Our Chairman, Mr. O'Brien, presides over each Board meeting and independent directors meeting. The Chairman serves as liaison between the Chief Executive Officer and the other directors, approves meeting agendas and schedules and notifies other members of the Board of Directors regarding any significant concerns of stockholders or interested parties of which he becomes aware. The Chairman presides at stockholders meetings and provides advice and counsel to the Chief Executive Officer.

Board Oversight of Risk Management

The Board of Directors is engaged in company-wide risk management oversight. The Board of Directors relies upon the Chief Executive Officer, Chief Financial Officer and General Counsel to supervise the day-to-day risk management and bring to the Board's attention the most material risks to the Company. Each of the Chief Executive Officer, Chief Financial Officer and General Counsel provide reports directly to the Board of Directors and certain Board Committees, as appropriate. The Directors may also from time to time rely on the advice of our outside advisors and auditors provided they have a reasonable basis for such reliance.

The Board of Directors also delegates certain oversight responsibilities to its Board Committees. For a description of the functions of the various Board Committees, see "Board Committees and Meetings" below. The full Board considers strategic risks and opportunities and regularly receives detailed reports from the committees regarding risk oversight in their areas of responsibility. For example, while the primary responsibility for financial and other reporting, internal controls, compliance with laws and regulations, and ethics rests with the management of the Company, the Audit Committee provides risk oversight with respect to the Company's financial statements, the Company's compliance with legal and regulatory requirements and corporate policies and controls, the independent auditor's selection, retention, qualifications, objectivity and independence, and the performance of the Company's internal audit function. The Governance and Nominating Committee considers risks related to succession planning and oversees the appropriate allocation of responsibility for risk oversight among the committees of the Board. The Health, Safety and Sustainability Committee provides oversight of risks relating to Century's policies and management systems with respect to health, safety and sustainability matters. See "Compensation Committee" for a discussion of the Board of Directors' consideration of compensation-related risks.

Independent Directors

The Board has determined that Jarl Berntzen, Robert E. Fishman, John C. Fontaine, Peter C. Jones, John P. O'Brien, Jack E. Thompson and Catherine Manning are independent directors under the criteria established by NASDAQ. The Board also currently expects that, if elected, Mr. Micheltore will be determined to be an independent director. Our independent directors are scheduled to meet in executive session without the presence of management no fewer than two times each year. The independent directors met 14 times in 2009.

Audit Committee

The Audit Committee:

oversees the financial reporting process for which management is responsible;
appoints and oversees the engagement of the independent auditors for audit and non-audit services;
monitors the independence of the independent auditors;
reviews and approves all audit and non-audit services and fees;
reviews the scope and results of the audit with the independent auditors;
reviews the scope and results of internal audit procedures with our internal auditors;
evaluates and discusses with the independent auditors and management the effectiveness of our system of internal accounting controls and assessment of fraud risk;
appoints and oversees the engagement of the Company's internal audit function, including internal audit plan and results;
reviews current and pending material litigation with management;
conducts or directs investigations of any allegations of material violations of securities laws, fiduciary duties or similar allegations;
reviews and oversees the Company's risk management assessment and procedures;
reviews and approves related party transactions pursuant to our Statement of Company Policy Regarding Related Party Transactions; and
makes inquiries into other matters within the scope of its duties.

During 2009, the members of the Audit Committee were Messrs. Berntzen, Fishman, O'Brien, Jones and Ms. Manning. Each member of the Audit Committee is "independent," as required under applicable NASDAQ listing standards and Rule 10A-3 under the Securities Exchange Act of 1934, as amended, or the Exchange Act. In addition, the Board has determined that Messrs. Berntzen and O'Brien and Ms. Manning are "audit committee financial experts" within the meaning set forth in regulations of the Securities and Exchange Commission. Ms. Manning has served as Chair of the Audit Committee since January 1, 2009. In 2009, the Audit Committee held 5 meetings.

Compensation Committee

The Compensation Committee reviews and establishes the compensation for our executive officers and has oversight responsibility for administering and awarding grants under our 1996 Stock Incentive Plan, as amended, which we refer to as the 1996 Plan. Each member of the Compensation Committee is an independent director as required under applicable NASDAQ listing standards. During 2009, the members of the Compensation Committee were Messrs. Fontaine, O'Brien, Thompson and Jones. Mr. Jones has served as Chair of the Compensation Committee since January 1, 2008. The Compensation Committee held 13 meetings in 2009.

The Compensation Committee reviews the relationship between our risk management policies and practices and the incentive compensation we provide to our named executives to confirm that our incentive compensation does not encourage unnecessary and excessive risks. The Compensation Committee also reviews the relationship between risk management policies and practices, corporate strategy and senior executive compensation. Our compensation programs are discretionary, balanced and focused on the long term. Under this structure, management can achieve the highest amount of compensation through consistent superior performance over extended periods of time. This incentivizes management to manage the Company for the long term and to avoid excessive risk-taking in the short term. Goals and objectives reflect a balanced mix of quantitative and qualitative performance measures to avoid excessive weight on a single performance measure and the elements of compensation are similarly balanced among cash, time-vested performance share units (which do not contain any performance based vesting requirements), shares of Century stock and stock options. With limited exceptions, the Compensation Committee retains absolute discretion to modify or eliminate any incentive awards if the Committee determines such actions are warranted. For the foregoing reasons, among others, our Compensation Committee has determined that it is not reasonably likely that Century's compensation and benefit plans would have a material adverse effect on Century.

Governance and Nominating Committee

The Governance and Nominating Committee is responsible for:

- evaluating the size and composition of the Board;
- identifying, recruiting and recommending candidates for election to the Board and its committees;
- overseeing corporate governance matters; and
- reviewing and making periodic recommendations concerning our corporate governance policies and procedures.

The Governance and Nominating Committee solicits recommendations for potential Board candidates from a variety of sources, including directors, officers, other individuals with whom the Governance and Nominating Committee members are familiar, through its own research, and third-party research. The Governance and Nominating Committee will also consider nominees recommended by stockholders who submit such recommendations in writing to our Corporate Secretary. The qualifications and standards the Governance and Nominating Committee will apply in evaluating any recommendations for nomination to the Board include, but are not limited to:

- significant business or public company experience;
- a willingness and ability to make a sufficient time commitment to Century's affairs to perform effectively the duties of a director, including regular attendance at Board and committee meetings;
- skills in finance, international business and knowledge about Century's business or industries;
- personal qualities of leadership, character, judgment and integrity; and
- requirements relating to composition of the Board under applicable law and listing standards.

The Governance and Nominating Committee also strongly considers diversity when evaluating any recommendations for nomination to the Board. The Governance and Nominating Committee takes into consideration each potential nominee's diverse attributes and variety of experiences and viewpoints but does not make decisions to include or exclude a potential nominee solely or largely based on race, ethnicity, gender, national origin or sexual orientation. While the Board does not have a formal policy with respect to diversity, the Governance and Nominating Committee believes that diversity is an important aspect in Board construction. In selecting a director nominee, the Governance and Nominating Committee focuses on skills, education, experience and qualities that would complement the existing Board, recognizing our diverse global business structure. Reflecting this diversity, our Board consists of male and female directors of multiple ethnicities who are citizens of 7 different nations. Our directors come from diverse business backgrounds including industrial, non-profit and governmental.

During 2009, the members of the Governance and Nominating Committee were Messrs. Berntzen, Fishman, Fontaine and Thompson. Each member of the Governance and Nominating Committee is "independent" as required under applicable NASDAQ listing standards. Mr. Thompson has served as the Chairman of the Governance and Nominating Committee since March 2006. In 2009, the Governance and Nominating Committee held 4 meetings.

The Governance and Nominating Committee recommended to the Board that Messrs. O'Brien, Jones, Glasenberg and Michelmore be nominees for election as Class II Directors and Mr. Fontaine as a Class I Director at the 2010 Annual Meeting. Prior to such recommendation, members of the Governance and Nominating Committee, along with Mr. O'Brien and members of management, engaged in discussions with Glencore regarding potential nominees to stand for election at the 2010 Annual Meeting. Following such discussions, and at the suggestion of Glencore, the Governance and Nominating Committee reviewed Messrs. Glasenberg and Michelmore as potential candidates, and determined to recommend both Messrs. Glasenberg and Michelmore to be nominees for election to the Board. After considering the recommendations of the Governance and Nominating Committee, our Board approved the slate of director nominees to stand for election at the 2010 Annual Meeting.

Following the foregoing, on April 6, 2010, Century entered into the Support Agreement with Glencore and certain of its affiliates pursuant to which Century and Glencore agreed, among other things, on the nominees of the Board to stand for election at the 2010 Annual Meeting and that, for so long as both Messrs. Glasenberg and Michelmore are Class II nominees to the Board for the 2010 Annual Meeting, Glencore will vote in favor of the election of each of the Board's nominees at the 2010 Annual Meeting. The Support Agreement also provides that if Mr. Glasenberg should cease to be a nominee of the Board to stand for election at the 2010 Annual Meeting, or, if elected, should cease to be a member of the Board for any reason prior to the 2013 Annual Meeting, then Glencore shall be entitled to designate a substitute (for the same term and class) reasonably acceptable to Century to replace Mr. Glasenberg.

Health, Safety and Sustainability Committee

The Health, Safety and Sustainability Committee (the “HSS Committee”) was formed in 2008 to assist the Board with regard to oversight of Century’s policies and management systems with respect to health, safety and sustainability matters. Specifically, the HSS Committee is responsible for the regular review of Century’s health, safety and sustainability policies and related practices, assessments, performance, compliance and reporting. The HSS Committee must meet at least twice a year and provide recommendations to the Board. During 2009, the members of the HSS Committee were Messrs. Fishman, Jones and Thompson and Ms. Manning. Mr. Fishman has served as the Chairman of the HSS Committee since March 2008. The HSS Committee held 5 meetings in 2009.

Stockholder Communications with the Board of Directors

Stockholders may communicate with the Board or any individual director(s) by sending a written communication in an envelope addressed to the Board or the appropriate director(s) in care of our Corporate Secretary at the address for our principal executive offices located on the cover page of this proxy statement.

Code of Ethics

We have adopted a code of ethics that applies to all employees. A copy of the code of ethics is available on our Internet website at www.centuryaluminum.com and a copy will be mailed to any person, without charge, upon written request addressed to: Corporate Secretary, Century Aluminum Company, 2511 Garden Road, Bldg. A, Suite 200, Monterey, California 93940.

We intend to disclose any amendments to or waivers of our code of ethics on behalf of our Chief Executive Officer, Chief Financial Officer, Controller, and persons performing similar functions, on our website at the Internet website address set forth above.

Directors’ Compensation

Directors who are full-time salaried employees of Century are not compensated for their service on the Board. The Board’s general policy is that compensation for non-employee directors should be a mix of cash and equity-based compensation. Effective December 1, 2008, the Board determined that non-employee, non-independent Board members will receive compensation only in cash. This change affords the Company the ability to avoid indirectly increasing the beneficial ownership of any stockholder at whose direction a member of our Board serves. The Compensation Committee evaluates the appropriate level and form of compensation for non-employee directors at least annually and recommends changes to the Board when appropriate. The Board reviews the committee’s recommendations and determines the amount of director compensation.

Equity Awards, Meeting Fees and Retainers. In 2009, each independent director continuing in office after the 2009 Annual Meeting of stockholders received an annual grant of time-based performance share units valued at \$75,000. These time-based performance share units vest 100% on the one year anniversary of the grant date. The shares were granted on the business day following the 2009 Annual Meeting based on the average closing price of Century’s common stock for the 60 trading days preceding the grant date. Vesting of time-based performance share unit awards are subject to acceleration under certain circumstances pursuant to the terms of an award agreement.

During 2009, non-employee directors (other than the Chairman and Mr. Strothotte, who waived his right to receive compensation) received an annual retainer of \$45,000 for their services. The Chairman of the Board received an annual retainer of \$110,000. The Chairs of the Audit and Compensation Committees each received an additional \$10,000 and the Chairs of the Governance and Nominating and Health, Safety and Sustainability Committees each received an additional \$5,000 annual retainer. In addition, each non-employee director received a fee of \$2,000 for

each Board or Board committee meeting attended. The Chair of the Audit Committee received an additional \$1,000 per Audit Committee meeting attended.

The equity awards, meeting fees and retainers above, were set in 2008 based on a competitive assessment of director pay practices among the peer companies used for our executive compensation benchmarking. In 2009, the Compensation Committee reviewed Century's director pay practices and determined to leave them unchanged for 2009.

Expense Reimbursement. All directors were reimbursed for their travel and other expenses incurred in attending Board and Board committee meetings, other than Mr. Strothotte, who waived his right to receive expense reimbursement.

The following table sets forth the compensation paid to each director in 2009.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our directors and executive officers, and persons owning more than 10% of a registered class of our equity securities, to file with the Securities and Exchange Commission reports of ownership and changes in ownership of our equity securities. These same persons are also required to furnish us with copies of all such forms. Based solely on a review of the copies of the forms furnished to us and written representations that no Form 5 filings were required, we believe that, with respect to the 2009 fiscal year, all required Section 16(a) filings were timely made, other than a Form 4 filed late by Glencore with respect to the conversion of certain of their Series A Preferred shares into Common shares on June 30, 2009.

CERTAIN RELATIONSHIPS AND RELATED PERSON TRANSACTIONS

Related Person Transaction Policy

We have a written policy and written procedures for the review, approval and monitoring of transactions involving Century or its subsidiaries and “related persons.” For the purposes of the policy, “related persons” include executive officers, directors and director nominees and their immediate family members, and stockholders owning five percent or greater of our outstanding stock and their family members. Certain transactions are to be approved by the independent directors acting as a separate body. A copy of our Related Person Transaction Policy is available in the Investor section of our website, www.centuryaluminum.com, under the tab “Corporate Governance.”

Our Related Person Transaction Policy is administered by the Audit Committee and applies to all related person transactions entered into after its adoption. This policy applies, subject to certain specific exclusions, to any transaction, arrangement or relationship or any series of similar transactions, arrangements or relationships in which Century or any of its subsidiaries was or is to be a participant and where any related person had or will have a direct or indirect interest. Transactions involving less than \$50,000 are not subject to review and approval under the policy. In addition, the policy defines certain ordinary course transactions with Glencore that are not material and not subject to review and approval under the policy, although those transactions are otherwise reviewed and approved by our Audit Committee. Pursuant to the policy, the Audit Committee is responsible for reviewing qualifying related person transactions. However, all transactions with Glencore for new long-term supply agreements are subject to review under the policy and any other transaction the Audit Committee Chair determines is material is reviewed by the independent directors, acting as a separate body of our Board of Directors. Based on its consideration of all relevant facts and circumstances, whether the transaction is on terms that are fair and reasonable to Century and whether the transaction is in the business interests of Century, the Audit Committee or independent directors, as the case may be, will decide whether or not to approve or ratify such transaction. If a related person transaction is submitted to the Audit Committee after the commencement of the transaction, the Audit Committee or independent directors, as the case may be, will evaluate all options available, including the ratification, rescission or termination of such transaction.

Recent Related Party Transactions with Glencore

Approval of Transactions with Glencore

During 2009, all transactions with Glencore, subject to our approval policy described above, were approved by the Audit Committee or by a special committee comprised solely of independent directors.

Hedging with Glencore

In September and October 2009, we entered into primary aluminum put option contracts with respect to an aggregate of 73,000 metric tons with Glencore that settle monthly from October 2009 through December 2010 based on LME prices. In March 2010, we entered into additional primary aluminum put option contracts with respect to an aggregate of 27,000 metric tons with Glencore that settle monthly from January 2011 through December 2011 based on LME prices. We paid a cash premium to enter into these contracts. We determined the fair value of the put options using a Black Scholes pricing model with inputs obtained from an independent source and account for the put options as derivative financial instruments with gains and losses in the fair value of the contracts recorded on the consolidated statements of operations in net losses on forward contracts.

Purchases from Glencore

We purchased alumina from Glencore on both a spot and long-term contract basis. We believe that all of the alumina purchased under these contracts was purchased at prices which approximated market prices. We have also purchased alumina from Glencore on a spot basis. We determined the market price for the spot alumina we purchased based on a survey of suppliers at the time that had the ability to deliver spot alumina on the specified terms. Based on this survey, we believe that all of the spot alumina purchased from Glencore was purchased at prices that approximated market prices.

In 2009, we purchased primary aluminum from Glencore on a spot basis. We believe that the primary aluminum purchased was purchased at prices which approximated market prices.

We signed a long-term agreement to buy alumina from Glencore in April 2008. Glencore has agreed to supply us with 290,000 metric tons of alumina in 2010, 365,000 metric tons in 2011, 450,000 metric tons in 2012, 450,000 metric tons in 2013, and 730,000 metric tons in 2014. The alumina price will be indexed to the LME price of primary aluminum.

On April 21, 2009, we agreed with Glencore to amend two alumina purchase agreements, dated April 14, 2008 and April 26, 2006, respectively (collectively, the "Amendments"). The Amendments reduce the amount of alumina Glencore will supply to Century from 330,000 metric tons to 110,368 metric tons in 2009 and from 290,000 metric tons to 229,632 metric tons in 2010, for an overall alumina supply reduction of 280,000 metric tons.

Sales to Glencore

We sold primary aluminum and alumina to Glencore on both a spot and long-term contract basis.

We sold primary aluminum under our long-term sales contracts with Glencore at prices based on the LME price for primary aluminum, as adjusted to reflect the Midwest Premium (a premium typically added for deliveries of aluminum within the U.S.). In addition, we received tolling fees from Glencore under tolling contracts that provide for delivery of primary aluminum produced at Grundartangi. The fee paid by Glencore under these tolling contracts is based on the LME price for primary aluminum, as adjusted to reflect the reduced European Union import duty paid on Icelandic primary aluminum. We believe that all of the transactions with Glencore under these contracts were at

market prices.

We have a long-term contract to sell Glencore 20,400 mtpy of primary aluminum, at a variable price based on the LME, adjusted by a negotiated U.S. Midwest market premium with a cap and floor as applied to the current U.S. Midwest Premium. In addition, we entered into a one-year contract through December 31, 2010, to sell Glencore all U.S. produced primary aluminum, less existing sales agreements and high-purity metal sales. Glencore has agreed to purchase a minimum of 24,000 metric tons under this agreement. The term of the contract may be extended for one year upon mutual agreement.

17

Other Transactions with Glencore

We are party to separate ten-year and seven-year LME-based alumina tolling agreements with Glencore, for 90,000 and 40,000 metric tons of capacity per year, respectively, at Grundartangi, which run through 2016 and 2014, respectively. Glencore assigned 50% of its tolling rights under the ten-year agreement to Hydro Aluminum AS for the period 2007 to 2010.

In connection with our February 2009 public stock offering, Glencore purchased 13,242,250 shares of common stock in the February 2009 offering. As of December 31, 2009, we believe that Glencore beneficially owned, through its common stock, approximately 39.1% of our issued and outstanding common stock and, through its ownership of common and preferred stock, an overall 44.1% economic ownership of Century.

Certain Business Relationships

During 2009, we retained the law firm of Jones Day to provide legal services. Ms. Manning's spouse is a partner of the Jones Day firm and managing partner of one of its U.S. offices. We paid \$2,886,000 in fees to the Jones Day firm for this work. We believe that all services were provided by the Jones Day firm at market rates and terms and on an arms-length basis. Mr. Willy R. Strothotte, a director, is Chairman of the Board of Directors of Glencore and served as its Chief Executive Officer from 1993 through 2001. Mr. Ivan Glasenberg, a director nominee of the Board for the 2010 Annual Meeting, is Chief Executive Officer of Glencore.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Introduction

Our Compensation Committee (“Committee”) is a standing committee of our Board of Directors. The Committee reviews and establishes the compensation for our executive officers and is responsible for administering and awarding grants of equity awards under our 1996 Stock Incentive Plan, which we refer to as the 1996 Plan.

The Committee periodically reviews and modifies Century’s compensation and benefit programs, and the principles and philosophies on which these programs are based. Key matters addressed by the Committee with respect to 2009 compensation include the following:

- Reviewed the Company’s 2009 benchmarking practices in light of the extraordinary challenges facing Century in 2009 and determined that a one-time increase was warranted in the targeted total compensation for named executive officers for 2009 to increase from around the midpoint of compensation at comparable companies to around the 75th percentile to reflect those extraordinary challenges;

- Provided for a larger percentage of compensation through equity;

- Set performance goals for the Company’s Annual Incentive Plan and set award opportunities for the named executive officers;

- Set award opportunities for the Company’s Long-Term Incentive Plan and replaced the cash portion of that Plan for named executive officers with a new Long-Term Transformational Incentive Plan; and

- Provided incentives for management to reduce costs and preserve strategic investment opportunities.

Our Philosophy on Executive Compensation

Our compensation programs are designed to enable Century and its subsidiaries to provide competitive compensation packages that attract, retain and motivate talented executives and managers. The Committee and management believe that our compensation programs must therefore remain flexible to afford the Committee and management discretion in making awards that account for both individual and corporate performance.

Our compensation programs are structured as a balanced portfolio using multiple elements to deliver the total package (base salary, annual incentive awards, long-term incentive awards, and retirement benefits). In 2009, an important objective of our compensation philosophy was the Company’s desire to retain flexibility to preserve liquidity and conserve cash, if needed, and to provide appropriate incentives to achieve Company objectives in a difficult operating environment. In addition, the Committee retains discretion to make adjustments necessary to balance the overall performance of Century and the individual performance of our executive officers and to pay for performance by aligning management’s and stockholders’ interests in the enhancement of stockholder value.

The sizes of previous equity-based grants and current equity holdings do not affect future grants and are not considered by the Committee when making long-term incentive award decisions. The Committee does, however, consider the combination of the major compensation and benefit offerings; for example, the long-term incentive award for our Chief Executive Officer is determined, in part, after accounting for the competitiveness of his Enhanced Supplemental Retirement Income Benefit Plan benefit (which is described below). The Committee generally applies its compensation philosophy and policies consistently in determining the compensation of each of our senior executives, while being mindful of individual differences such as experience, level of responsibility, potential contributions to future growth opportunities and individual performance, as well as the practical implications of arms-length negotiations at the time each executive is hired or promoted. Our Chief Executive Officer's base for each compensation component is greater in amount than for the other named executive officers due to his position as the top executive officer of the Company. Market pay levels for top executives are in general significantly higher than the pay levels for other executives, as indicated by the survey data and peer group data utilized by the Committee and described below.

Addressing the Extraordinary Challenges Facing Management in 2009

The overall volatile nature of the financial markets and the fall in aluminum prices in 2008 and 2009 presented Century's management with extraordinary dual challenges of operating the Company while at the same time responding to issues and problems caused by severe contractions in the global economy. Given Century's drastically altered operating environment in 2009, which featured curtailment of U.S. operations and a curtailment of further Iceland smelter development, the Committee decided to augment past compensation structures with respect to 2009 compensation to reflect this extraordinary operating environment.

In recent years, total compensation for the Company's senior executives has been targeted by the Committee in the range of the midpoint of compensation at comparable companies. The Committee concluded that, given the nature of the challenges facing management in 2009, it was appropriate, in order to retain and motivate the named executive officers, to set targeted total compensation of the named executive officers for 2009 around the 75th percentile of market, assuming success in meeting or surpassing criteria under Century's various incentive plans, which are discussed below. However, keeping in mind the volatile nature of the aluminum industry and the uncertain world economy, the Committee continued and continues to retain discretion to modify or eliminate any incentive awards if the Committee determines such actions are warranted in 2009 or in the future.

In addition, Century retained Houlihan Lokey, an investment bank, in 2009 to advise the Company with respect to possible restructuring alternatives for Century's operations. In connection with this analysis and advice and the corresponding advice of the Company's outside counsel and the Committee's outside compensation consultant, the Committee revised the Company's plans as follows:

cash-settled goal-based performance units that were granted in April 2009 (as discussed below) were replaced by a longer-term incentive plan that emphasizes domestic cost savings and actions that preserve our Helguvik development options; and an executive severance plan was adopted to provide severance protection to select employees not otherwise covered by such protection, as described in more detail below.

Our Process for Executive Compensation

We review market pay and performance levels, with the help of consultants, on a regular basis. We evaluate Company performance against our plans and budgets, pay and performance levels at comparable companies and in the context of the broader economy. The Committee retains final discretion in determining annual incentive awards and the vesting of performance share units. In general, the Committee will make its final determination of both annual incentive awards and awards earned based on long-term performance in the first quarter following the end of the performance period.

The Committee maintains an annual agenda to help ensure that it discharges its duties in a thoughtful and timely manner. Each meeting has a primary purpose, e.g., reviewing market benchmarking, finalizing incentive awards, approving salary adjustments and new incentive plan terms, reviewing market trends or completing a self-assessment. Other matters may be added to the agenda. As a general practice, the Committee makes significant decisions over multiple meetings: discussing conceptual matters, reviewing preliminary recommendations, and reviewing final recommendations before acting.

The Committee dedicated significant time and attention to management compensation in 2009, including holding 13 regular and special meetings and considered whether one-time changes to Century's compensation structure were appropriate for 2009.

As discussed above, in mid- 2009, Company management retained Houlihan Lokey LLP, an investment bank, to assist with potential restructuring alternatives for the Company. As part of this process, Houlihan Lokey proposed compensation strategies in support of a strategic restructuring of the Company. Management directed Houlihan Lokey to discuss the matter with the Chair of the Committee and also with the Chairman of the Board. The Committee asked Towers Watson (formerly Towers Perrin) to evaluate the competitive and overall compensation structure implications of implementing the compensation strategies suggested by Houlihan Lokey.

The Committee met in June, July, September and October 2009 to consider the Houlihan Lokey suggestions and the Towers Watson reports and analyses. In some cases, directors other than those serving on the Committee were also present. As this action was part of the Company's integrated strategic restructuring plan, the Committee believed it was appropriate to invite all Directors to these meeting. Towers Watson and Houlihan Lokey also participated in portions of these meetings at the invitation of the Committee.

Benchmarking Executive Compensation

Our philosophy emphasizes competitive objectives for executive pay. We prefer a flexible range to a single point to provide the Committee the discretion needed to discharge its duties, while being mindful of individual differences such as tenure and performance, as well as the practical implications of pay, on occasion, being the product of an arms-length negotiation at the time an executive is hired or promoted. Elements of compensation that are benchmarked, separately - and in total - include base salary, annual incentive, long-term incentive, and retirement benefits. However, due in part to the Company's goal of cash conservation, the Company did not increase the base salaries of the named executive officers during 2009, other than due to promotions.

Our incentive plans are designed to allow the Committee the discretion to reward outstanding performance significantly above the targeted range in the case of outstanding performance; conversely, when performance is below expectations, our plans are designed to deliver compensation that is below the targeted range and to allow the Committee the discretion to reduce or eliminate certain compensation elements. In addition, where management's performance and Century's performance differ, in the Committee's view due to market forces or otherwise, our plans are flexible enough to allow the Committee discretion in the form of compensation delivered. To address the additional challenges and tasks faced by management in 2009 (See "Our Philosophy on Executive Compensation—Addressing the Extraordinary Challenges Facing Management in 2009"), the Committee designed the 2009 compensation program to provide Century's officers total compensation (including annual base salaries, annual incentive compensation, long-term incentive compensation and retirement benefits) that, assuming success in meeting or surpassing criteria under the Company's various incentive plans, was positioned, on average, around the 75th percentile of the compensation ranges for similarly situated officers at the surveyed companies.

With respect to the named executive officers, we primarily focus on the practices of a group of comparably-sized, asset-intensive, metals and other industrial companies. We chose these parameters, and ultimately the companies noted below, to permit pay to be evaluated in a context that considers businesses with similar exposure to economic forces and business cycles. The composition of this group is reviewed regularly, and at least annually, and the group is refined to ensure its relevance in light of Century's position, as well as mergers, acquisitions, growth, etc. among the companies.

During 2009, the Committee revisited the makeup of this peer group in light of the Company's changing circumstances. The Committee considered whether the Company should now compare itself with smaller companies. The Committee noted that several companies in the current peer group had been similarly affected by the financial crisis. In addition, the Committee considered that as the world economy improves and the Company is able to increase revenues and expand production, that the Company will likewise expand. The Committee also believed that the executive skills required for both achieving a turnaround and running a larger company in the future remain comparable with those of executives at a larger company. Based on the foregoing, the Committee determined to continue to consider and review the Company's 2008 peer group (referred to below as our "traditional peer group") and also formulate and monitor a new alternative peer group (referred to below as our "alternative peer group") with revenues closer to those of the Company at present time. The table below identifies the companies that have been included in both groups during 2009.

In addition to evaluating the total cash compensation (salary and annual incentive awards) and total compensation (salary, annual incentive awards, long-term incentive awards and retirement benefits) of the peer companies, we compare the pay of our executives, including the named executive officers, to the summary results of a survey-based analysis. This secondary approach is useful because it provides a broader market assessment (i.e., includes more than 30 companies). It allows us to benchmark more than five executives, and it allows us to tailor our benchmarking based on the roles and responsibilities of our executive officers. For our additional evaluations, we use compensation for companies participating in Towers Watson's Executive Compensation Data Bank, a proprietary survey, within the materials and industrials sectors. Company size generally is accounted for by regression or by limiting the size of the companies considered to under \$3 billion in revenue. The Committee evaluated the traditional and alternative peer data and the survey data independently and as a composite, but there is no algorithm that dictates pay at a precise level in comparison to these various data points.

Role of the Chief Executive Officer

As part of its review and determination of Century's compensation objectives, philosophy, programs and decisions, the Committee works with and receives advice and recommendations from our CEO (other than with respect to his own compensation). The Committee's charter formalizes the working relationship with our CEO and includes the following actions to be taken by the CEO:

- working with the Committee in its decisions regarding the approval of all general compensation plans and policies, including pension, savings, incentive and equity-based plans;
- consulting on the corporate and individual goals and objectives relevant to the compensation of the CEO;
- reviewing and determining the respective corporate and individual goals and objectives for the other named executive officers relevant to their compensation;
- providing the Committee an evaluation of the performance of the other named executive officers in light of their respective corporate and individual goals and objectives; and
- recommending to the Committee the compensation levels of the other named executive officers.

The Committee considers the recommendations of our CEO, together with the review by our compensation consultant in making independent determinations regarding executive compensation. For 2009 compensation, the CEO did not recommend his level of compensation to the Committee, although he gave a presentation to the Committee which provided an evaluation of his performance and the Company's performance.

Our CEO attends all Committee meetings, other than those portions that are held in executive session and he is not present during deliberations or when voting on matters involving his compensation. As appropriate, the Committee follows an executive session by reconvening with our CEO present.

Role of Compensation Committee Consultants

The Committee uses the services of a compensation consultant. The Committee has engaged Towers Watson to advise the Committee in connection with designing and implementing the Company's executive compensation programs, including with respect to compensation philosophy, objectives, annual and long-term plan designs, and market pay levels. The decision to retain Towers Watson with respect to the foregoing was made in the Committee's sole discretion. With the Committee's prior and ongoing approval, Towers Watson also conducted a limited amount of compensation consulting projects for management in 2009 for which the Company incurred fees of less than \$120,000. The Committee is apprised of any and all projects for which management engages Towers Watson and monitors their status at each meeting as part of its effort to ensure that it receives objective advice from the Committee's consultant.

As discussed above, during 2009, the Committee also received reports from Houlihan Lokey, the Company's investment banking advisor, and Houlihan Lokey's outside counsel relating to compensation plans intended to complement and support the Company's restructuring process. Houlihan Lokey was retained by Company management to provide investment banking advice regarding restructuring alternatives available to the Company. The advice and recommendations of Houlihan Lokey and its outside counsel were reviewed and implemented on an independent basis by the Committee and Towers Watson.

Overview of Compensation Elements

The list below summarizes the general elements and characteristics of our executive compensation programs. Detailed narratives of these compensation elements are provided in a later section.

Base salary: Base salary is determined by our philosophy, the position (skills, duties, responsibilities, etc.), market pay levels and trends, individual performance, prior salary and in recent years, the goal of cash conservation.

Annual incentive awards: Variable compensation is payable in cash (or, in the discretion of the Committee shares or stock options) following the fiscal year the pay is earned; payment is based on the Committee's review of achievement of pre-set operating goals and a portion of the incentive is generally dependent on a subjective review of individual performance and contributions to our overall strategic successes. The Committee retains the discretion to wholly disregard or modify any or all pre-set operating goals as it deems appropriate.

Long-term incentives: Variable compensation based on sustained performance success; historically based on the Committee's assessment of operating performance and strategic achievements and settled in cash, time-vested performance units and stock options. The 2009 long-term incentives include a new long-term transformational incentive plan element which replaces previous operating goals and individual performance measures with incentives to reduce costs in domestic operations and preserve the Company's Helgøvik smelter development options. Awards under this new plan will be settled in cash, or, in the discretion of the Committee, shares of Company stock.

Retirement benefits: Tax qualified defined benefit and defined contribution plans apply to salaried employees of our U.S. companies who meet eligibility requirements. In addition, our nonqualified defined benefit plan provides a select group of participants with benefits above the level permitted under a qualified plan.

Compensation Program Details

Base Salary

The Committee typically reviews the salaries of our named executive officers annually (in the fourth quarter or early the following year). In addition, the Committee may review the salaries of our named executive officers in connection with a promotion or other change in responsibility.

In 2009, salaries of our named executive officers were frozen at 2008 levels, other than the promotion-based adjustments for Mr. Leatherberry, who received a salary increase in connection with his promotion to Senior Vice President, General Counsel and Assistant Secretary in April 2009.

At the Committee's meeting in December 2009, the Committee, based on its review of competitive pay practices, the current financial situation of the Company (including the objective of cash conservation), the recommendation of the CEO with respect to the other executive officers, and in its own judgment, authorized modest cost of living base salary increases, effective January 1, 2010, of 2.3% in the case of Mr. Kruger, 2.1% for Mr. Hale, 2.4% for Mr. Bless and 1.3% for Mr. Schneider. In addition, Mr. Leatherberry received a 16.3% increase in base pay due to his promotion to Executive Vice President, General Counsel and Secretary.

Annual Incentive Awards

Under our annual incentive plan, executives (including the named executive officers) are eligible to receive an award, which has historically been paid in cash, but, in order to conserve the Company's cash reserves, may be paid in cash, shares or stock options, at the discretion of the Committee in 2009.

The annual incentive plan is designed to allow compensation based on short-term (annual) individual performance, preservation of future value and strategic investments and operating results. Historically, the Committee had assigned different weights to annual incentive plan elements, including the various operating measures, for each named executive officer. In 2009, the Committee received a recommendation from the Company's Chief Executive Officer that the Company use uniform weighting for all executives participating in the 2009 annual incentive plan to reflect the integrated nature of the Company's senior leadership team. In light of this suggestion, the Committee decided that performance measure weighting with regard to all 2009 annual incentive plan goals would be identical for all 2009 annual incentive plan participants.

The achievement of certain performance metrics described in the table below determines 35% of the award at target in the aggregate. The Committee reviews and approves the performance metrics and target levels of performance annually. The Committee set targets that it believes are challenging but reasonably attainable. Payouts may be above or below target depending on performance above or below the targeted levels based on a straight line interpolation.

Operating Result	Description	Percentage of Aggregate Award if Target		Achievement

Conversion cost	The cost of converting alumina into aluminum is a key factor in the profitability of our business. This	15%	We consider the conversion cost targets to be confidential, and disclosure of those targets would cause	Management exceeded the target for conversion costs in 2009, which resulted in a 26.3% payout for this factor.

	performance target is intended to incentivize management to meet specific conversion cost targets.		competitive harm to Century. For example, our competitors may be able to use this data to predict our pricing strategies or our ability to match certain prices. The Committee set conversion cost targets that it believed to be challenging but reasonably attainable.
Safety	Improving the safety of our workplaces has long been a goal of Century and we have accordingly provided incentives to management for improving our safety statistics. The 2009 safety target was based on a weighted average (based on total headcount) total recordable case incidence rate at our Grundartangi and Hawesville facilities.	10%	The 2009 safety target was to achieve a weighted average (based on total headcount) total recordable case incidence rate of 3.23 at our Grundartangi and Hawesville facilities. The total recordable case incidence rate at our Grundartangi and Hawesville facilities in 2009 was 2.41, which exceeded the target for this factor and resulted in a 17.5% payout.
Restructuring Costs	Curtailing unprofitable production to reduce our operating costs was an important goal with respect to our restructuring efforts in 2009. Accordingly, we set targets to incentivize management to (a) reduce curtailment costs with respect to the curtailment of our Ravenswood operations and (b) lower the net cash cost per metric ton of smelter grade alumina at our former	10% (5% each for each of the (a) Ravenswood curtailment cost target and (b) Gramercy alumina production cost target.)	The 2009 Ravenswood cash curtailment cost target was set at \$40.4 million (excluding gains and losses on spot alumina sales). The 2009 Gramercy alumina production cost target was set at \$299 net cash cost per metric ton of smelter grade alumina produced. Curtailment costs at Ravenswood in 2009 were \$33.3 million, which exceeded the target for this factor. However, in its discretion, the Committee chose to only grant the target payout of 5.0% due to the influence of outside factors, such as the extension of federal unemployment benefits, in reducing curtailment costs. target. The payout

The Committee's subjective evaluation of two elements (which elements do not have quantitative targets) determines 65% of the incentive at target:

Creation of future value and strategic investments; and
 Discretionary/Individual: recognize individual contributions to operating, financial, and strategic success.

This evaluation is intended to be completely discretionary and subjective, but for purposes of illustration, some of the objectives which were reviewed by the Committee included, among other factors, none of which are individually weighted, management's improvement of the Company's liquidity through public and private debt and equity transactions, the divestiture of the Company's Gramercy and St. Ann operations, attainment of certain tax refunds and analysis and preservation of certain strategic alternatives, including with respect to our Helguvik operations.

Following the Committee's subjective evaluation and based on achievement of certain operating results described above, the Committee set the total payout level for the 2009 annual incentive plan at a payout level of 110% of the targeted annual incentive award opportunity for each of the named executive officers. Target annual incentive award opportunities for our named executive officers in 2009 were based on a percentage of salary: Mr. Kruger 80%; Mr. Bless 70%; Mr. Hale 70%; Mr. Leatherberry 60%; and Mr. Schneider 60%.

For 2009, the Committee retained the right to reduce individual bonus payments in its discretion, but did not exercise that right. Accordingly, under the 2009 Annual Incentive Plan formula, the target bonuses with respect to and actual bonuses paid to our named executive officers for 2009 were as follows:

Name	Target Non-Equity Incentive Compensation pursuant to the 2009 Annual Incentive Plan	Actual Non-Equity Incentive Compensation Paid pursuant to the 2009 Annual Incentive Plan
Logan W. Kruger	\$684,000	\$752,000
Wayne R. Hale	\$330,400	\$363,000
Michael A. Bless	\$295,000	\$325,000
William J. Leatherberry	\$186,000	\$205,000
Steve Schneider	\$163,200	\$180,000

Long-Term Incentive Awards

Due to changing economic conditions and resulting changes to Company objectives, we reviewed and updated our long-term incentive program (the "LTIP") in 2009, as applicable to our named executive officers, to reflect such changed conditions and objectives. This process included input from Towers Watson and considerable discussion during the course of five Committee meetings held in March, April and May. During such discussions, the Committee decided to refine the long-term incentive plan as summarized below.

In response to the changing economic conditions and Company objectives, the awards granted in May 2009 reflected a rebalancing of the weighting of the existing incentive plans to manage cash and equity usage; specifically, we:

- Reduced the value allocated to time-vesting performance share units from 50% to 33%;
- Vesting of the time-vesting performance share units was reduced from three-year cliff to a two-year cliff to enhance retention during the tumultuous period;

Reduced the value allocated to cash-settled goal-based performance units from 50% to 33%;
Performance period was shortened to one year, and the award was payable based on the Committee's assessment of achievements versus the goals and targets discussed above with respect to the annual incentive plan;

Allocated the remaining long-term incentive plan value (33%) to stock options that cliff vest July 1, 2011.

Following the implementation of the changes to the LTIP discussed above, the Committee continued to consider further changes to the program based on continued review of the Company's long-term objectives. In the second half of the year, the Committee, having studied the Company's restructuring and strategic plans, replaced the cash-settled goal-based performance unit component described above with a special cash incentive plan (the Long-Term Transformation Incentive Plan) designed to reward success against domestic and Icelandic performance objectives that reflected the Company's long-term transformative goals as discussed below.

Long-Term Transformational Incentive Plan

The 2009-2011 Long-Term Transformational Incentive Plan (the "LTTIP") replaced the cash-settled goal-based performance units that were granted in May 2009 (as discussed above). The LTTIP is designed to align management incentives and rewards more fully with the transformative restructuring changes to the Company's goals in response to the global economic crisis. At a November 2009 meeting, the Committee approved the LTTIP which has the following attributes and elements and for which each of the named executive officers and select other executive are eligible:

A total target award pool of \$8 million, comprised of:

A maximum \$4 million U.S. Bonus Pool based on the Committee's assessment of the achievement of certain reduced costs associated with restructuring domestic operations. Due to the more urgent aspect of these activities, payment opportunities were designed to be frontloaded; and

A \$4 million Iceland Bonus Pool based on the Committee's subjective evaluation of the achievement of preservation and enhancement of the Helguvik smelter development options during the transitional period. Payment opportunities with respect to the Iceland Bonus Pool were intended to be spread more evenly over the three year period with slightly higher payments possible in year two;

The entire \$8 million pool is intended to be paid in cash, but may be paid partially or entirely in shares, options and cash at the Committee's discretion;

The bonus pools will be paid out in three annual installments in 2010, 2011, and 2012; and

All named executive officers and select other executives will participate in the LTTIP and will not participate in the cash portion of the 2009-2010 LTIP.

The 2009-2011 LTTIP awards were made to participants as a percentage of the total bonus pool. The allocations for each named executive officer are as follows (the remaining percentages of each bonus pool are allocated to participants who were not named executive officers):

	Aggregate U.S. Bonus Pool Award		Targeted Payout in 2009		Aggregate Iceland Bonus Pool Award		Targeted Payout in 2009	
Logan W. Kruger	25	%	12.5	%	25	%	7.5	%
Wayne R. Hale	17	%	8.5	%	12	%	3.6	%
Michael A. Bless	17	%	8.5	%	12	%	3.6	%
William J. Leatherberry	17	%	8.5	%	12	%	3.6	%
Steve Schneider	5	%	2.5	%	6	%	1.8	%

*All percentages set forth above are percentages of the 2009-2011 aggregate applicable bonus pool.

The projected possible payouts under the U.S. Bonus Pool are targeted at 50% in 2009, 40% in 2010 and the remaining 10% in 2011. For the Iceland Bonus Pool, projected possible payouts are targeted at 30% in 2009, 40% in 2010 and 30% in 2011.

Total payments will depend, subject to the discretion of the Committee, on the total size of the bonus pool. The size of the U.S. Bonus Pool will be determined at the discretion of the Committee with reference to the potential costs to execute domestic curtailment, restructuring and possible divestment activities, primarily at the Company's Mt. Holly, Hawesville, Ravenswood and Gramercy St. Ann operations, subject to a cap of \$4.0 million. Individual cost savings targets are specific to individual commercial arrangements and other activities at each facility; however, the bonus pool is determined with reference to aggregate cost savings. We consider these cost savings targets, both individually and in the aggregate, to be confidential, and disclosure of those targets would cause competitive harm to Century. For example, certain cost saving targets relate to the modification of the Company's existing commercial agreements, the disclosure of which would compromise the Company's ability to negotiate these agreements, or similar agreements, in the future. The targets were set by the Committee as a reflection of the probable likelihood that estimated costs could be reduced as a result of management efforts. The Committee set targets that it believed to be challenging but reasonably attainable. However, the Committee retains the right to make changes to the bonus pool, allocations and any other aspect of this plan in the exercise of its sole discretion.

The Iceland Bonus Pool is targeted at \$4 million, subject to adjustment in the discretion of the Committee, based on its subjective review of management's preservation of the Company's Helguvik smelter development options in Iceland. This review is intended to be completely discretionary and subjective, but for purposes of illustration, some of the objectives which may be reviewed by the Committee, none of which are individually weighted, include among other things:

- Securing power, transmission and other required contractual commitments;
- Exploration of strategic restructuring and other development opportunities;
- Safety; and
- Maintaining engineering and construction activities to preserve the option to develop this project, including reengineering the project into multiple phases.

In 2009, the Committee determined that management had achieved the U.S. Bonus Pool 2009 targets at 100% and that a payout of 75% of the targeted 2009 payout amounts for the Icelandic Bonus Pool was warranted. The targeted and actual bonuses paid to our named executive officers under the LTTIP for 2009 were as follows:

Name	Target 2009 Bonus under U.S. Bonus Pool	Actual 2009 Bonus under U.S. Bonus Pool	Target 2009 Bonus under Iceland Bonus Pool	Actual 2009 Bonus under U.S. Bonus Pool	Total 2009 Bonus Under LTTIP
Logan W. Kruger	\$ 500,000	\$ 500,000	\$ 300,000	\$ 225,000	\$ 725,000
Wayne R. Hale	\$ 340,000	\$ 340,000	\$ 144,000	\$ 108,000	\$ 448,000
Michael A. Bless	\$ 340,000	\$ 340,000	\$ 144,000	\$ 108,000	\$ 448,000

Stock Options

As discussed above, stock options were used in connection with the 2009 LTIP award in response to economic turbulence and limited visibility into the future and limited goal-setting. In addition, option grants are made on a case-by-case basis to executive officers in connection with hiring awards and to recognize promotions. It has been the Committee's practice to approve all option grants at Committee meetings. For initial option grants to our executives made in connection with their employment by Century, the Committee approves the options at the time it approves the executive's overall compensation arrangement and the terms of his or her employment agreement, if any.

Retirement Benefits

The Century Aluminum 401(k) Plan is a tax-qualified retirement savings plan pursuant to which our U.S. based salaried employees, including our named executive officers, are able to contribute a percentage, up to the limits prescribed by the Internal Revenue Service, of their annual compensation on a pre-tax basis. Historically, the Company matched 100% of the first 3% of pay that is contributed to the savings plan and 50% of the next 2% of pay contributed, and all matched contributions are fully vested on contribution. Effective January 1, 2009, Century indefinitely suspended the company match due to market conditions.

We also maintain a non-contributory defined benefit pension plan for our U.S. based salaried employees who meet certain eligibility requirements, which we refer to as our Qualified Plan. We have also adopted a Supplemental Retirement Income Benefit Plan, or "SERP." The SERP provides selected senior executive officers with an additional retirement benefit equal to the amount that would normally be paid under our Qualified Plan if there were no limitations under Sections 415 and 401(a)(17) of the Internal Revenue Code of 1986, as amended (the "Code"). Final average monthly compensation for purposes of calculating the supplemental benefit will be based on the greater of (a) projected final annual compensation, assuming specified annual increases until retirement age, or (b) the average of the highest three years' annual compensation over the last 10 years of employment. The SERP is an unfunded Century obligation. Each named executive officer was eligible to participate in these benefits in 2009.

On selective occasions we have also provided enhanced retirement benefits, in the form of an “Enhanced SERP”, which is designed to enhance the total retirement income level, when, due to the executive’s age and potential years of service at normal retirement age, benefits under the Qualified Plan and the SERP are projected to be less than a specified percentage of the executive’s estimated final average annual compensation. In developing the hiring package that induced Mr. Kruger to join Century, we agreed to include him in the Enhanced SERP. Although certain former Century officers are also the beneficiaries of Enhanced SERPs, Mr. Kruger is the only named executive officer currently participating in the Enhanced SERP. If Mr. Kruger remains employed by Century for a period of 10 years he will be fully vested in his Enhanced SERP benefit. When fully vested, Mr. Kruger’s Enhanced SERP benefit will be approximately 50% of his final average annual compensation.

We have designed these retirement benefits to be competitive with industry standards to attract and retain talented executive and management level personnel. Benefits triggered by retirement are valued and described below under the caption “Executive Compensation-Pension Benefits Table” and “Executive Compensation-Potential Payments upon Termination or Change of Control.”

Policies & Other Technical Considerations

Stock ownership guidelines

We maintain stock ownership guidelines for our executives and nonemployee directors. We adopted them to further underscore our belief that management’s interests should be aligned with those of the stockholders.

The guidelines for Century’s officers and directors are summarized in the table below. The guidelines are based on a fixed number of shares, which was finalized after giving consideration to the value of the fixed share guidelines as a percent of pay (salary for executives and cash retainer for nonemployee directors). The guidelines of peers and, on a broader basis, industry practices were considered in developing this policy.

Category	Share Guideline
Chief Executive Officer	50,000
Executive Vice Presidents	16,000
Senior Vice Presidents	6,000
Vice Presidents	2,000
Nonemployee, independent directors	3,000

Non-employee, non-independent directors are not subject to these guidelines, although they are urged to follow them.

Officers and nonemployee directors have five years from the later of the date of hire or the effective date of the guidelines (December 1, 2008) to meet these ownership guidelines. Officers who are subsequently promoted to a higher category of participant level will have five years from the date of promotion to achieve their increased share guideline.

Clawback

We maintain an Incentive Compensation Recoupment Policy. Under this policy, our Board will, to the extent permitted by applicable law, in all appropriate cases, require reimbursement of any bonus or incentive compensation paid to an employee after January 1, 2008, cause the cancellation of restricted or deferred stock awards and outstanding stock options, and seek reimbursement of any gains realized on the exercise of stock options attributable to such awards, if and to the extent that: (a) the amount of incentive compensation was calculated based upon the achievement of certain financial results that were subsequently reduced due to a restatement, (b) our Board or an appropriate committee determines that the employee engaged in any fraud or misconduct which caused or contributed to the need for the restatement, and (c) the amount of the bonus or incentive compensation that would have been awarded to the employee had the financial results been properly reported would have been lower than the amount actually awarded.

Timing of Equity Awards

Generally, the Committee makes incentive pay decisions at regularly scheduled Committee and board meetings. The Committee may also make compensation determinations at other times during the year for newly-hired executives or in connection with the promotion of existing employees. The Committee does not time any form of compensation award, including equity-based awards, to coincide with the release of material non-public information.

Income Tax Consequences

Section 162(m) of the Code generally disallows a tax deduction by Century for annual compensation in excess of \$1 million paid to certain executive officers; however, compensation above \$1 million is deductible if such compensation is “performance based” and meets other criteria as specified under Section 162(m) of the Code.

The Committee agrees with the premise of pay for performance, and it has considered the impact of Section 162(m) on the design of our compensation programs. But the nature of our business, not the least of which is the impact of metal prices on our results, limits the ability to pre-determine meaningful goals without substantial subsequent discretionary adjustments. The Committee believes that such discretion is necessary and would not be available as a compensation management tool if incentive payments were to be “performance based” as defined and required under Section 162(m). Accordingly, it is not the Committee’s goal for all compensation to be deductible by us under Section 162(m).

The Committee will continue to consider and weigh the potential loss of expense deductions against its need for discretion in designing programs for the named executive officers. The Committee does not expect the loss of any such deductions to have a significant impact on Century.

Employment Agreements

Historically it has been our practice to enter into employment agreements with officers at the executive vice president level and above. The terms of these agreements, including base salary, initial equity grants, minimum guaranteed bonuses, participation in Century benefit plans and other benefits, are approved by the Committee. The amounts and types of such compensation are negotiated terms with each officer. When reviewing and negotiating these terms, the Committee is provided with market data by its compensation consultants and considers practices of peer companies and, if applicable, compensation earned and/or forfeited by the officer at a previous employer.

We have employment agreements with Messrs. Kruger, Hale and Bless which were not materially amended during 2009. In connection with his promotion to Executive Vice President, General Counsel and Secretary in 2009, the Company entered into an employment agreement with Mr. Leatherberry. The employment agreement for Mr. Leatherberry was based on a new form prepared by outside counsel based on a review of market practices conducted by Towers Watson. Key differences in this form of employment agreement are that it provides for 2.5 years of severance (versus the 3 years covered in present agreements) and provides a window for reopening the employment agreement every two years, subject to the right of the executive to elect severance if changes are material. The material provisions of the employment agreements are described below under the caption “Summary Compensation Table – Narrative to Summary Compensation Table and Grant of Plan Based Awards Table – Employment Agreements.”

Post-Termination Compensation and Benefits

Other Post-Termination Benefits

Selected senior executive officers may also receive benefits triggered by death, disability or termination without cause. Century has designed these benefits to be competitive with industry standards to attract and retain talented

executive and management level personnel. Benefits triggered by death, disability and termination without cause are valued and described below under the caption “Executive Compensation-Potential Payments upon Termination or Change of Control.”

It is Century’s policy that accelerated benefits for executive officers should not be triggered in circumstances where the executive is terminated for cause or resigns voluntarily.

Change in Control

Our policy is to provide change in control protection to our named executive officers based on competitive practice in the industry. Change in control provisions are contained in various named executive officer employment agreements, long-term compensation agreements, retirement plans and severance protection agreements. We believe change in control protection is particularly appropriate for executives who are unlikely to be retained in comparable positions by the acquiring entity upon a change in control. In addition, change in control protections are designed to maximize stockholder value by creating incentives for named executive officers to explore strategic transactions and work to bring such transactions to fruition if appropriate. Our 1996 Plan and Severance Protection Agreements and employment agreements are each intended to provide for certain employee protections in the event of a change in control. These arrangements are intended to attract and retain qualified executives that could have other job alternatives that may appear to them to be less risky absent these arrangements, particularly given the significant level of acquisition activity in the primary aluminum and minerals sectors.

Under our 1996 Plan, in the event of a change in control, any options and performance shares outstanding upon the date of such change in control will have their vesting accelerated as of the date of such change in control which is referred to as a “single trigger” provision. These provisions are also generally included in our employment agreements with certain named executive officers. We believe these change of control arrangements, the value of which are influenced significantly by the value obtained in a change of control transaction, effectively create incentives for our executive officers to build stockholder value and to obtain the highest value possible should we be acquired in the future, despite the risk of losing employment and potentially not having the opportunity to participate in future equity awards which comprise a significant component of each executive’s compensation. As the value of these awards will be significantly influenced by the change in control and these awards will likely lose much of their purpose with respect to the combined entity, we believe it is more appropriate for these awards to accelerate immediately upon a change in control.

Our Severance Protection Agreements are “double trigger,” meaning that payment of severance benefits is not awarded upon a change in control unless the executive’s employment is terminated involuntarily (other than for cause) within 36 months following the transaction. We believe this structure strikes a balance between the incentives and the executive hiring and retention effects described above, without providing these benefits to executives who continue to enjoy employment with an acquiring company in the event of a change of control transaction. We also believe this structure is more attractive to potential acquiring companies, who may place significant value on retaining members of our executive management and who may perceive this goal to be undermined if executives receive significant acceleration payments in connection with such a transaction and are no longer required to continue employment to earn these payments.

See “Potential Payments upon Termination or Change of Control—Severance Compensation Arrangements” for additional discussion of the severance compensation agreements of our named executive officers.

Involuntary Severance

The need for severance arrangements beyond the Company’s Severance Protection Agreement was noted by the Committee when it considered retention issues in 2009. In order to manage retention issues in a restructuring environment, the Committee approved an Executive Severance Plan during 2009. The general concept of this Plan was addressed by Houlihan Lokey as part of its restructuring strategic advice. The terms of the Executive Severance Plan were developed by the Committee with input from Towers Watson. As the Executive Severance Plan does not apply to employees who have an Employment Agreement, our only named executive officer who is a participant in the Executive Severance Plan is Mr. Schneider. The key terms of the Executive Severance Plan and benefits triggered by a change in control or involuntary severance are valued and described below under the caption “Executive Compensation – Potential Payments upon Termination or Change of Control.”

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis set forth in this proxy statement with Century management and based on such review and discussions, the Compensation Committee recommended to Century's Board of Directors that the Compensation Discussion and Analysis be included in Century's 2009 Annual Report on Form 10-K and this proxy statement.

Respectfully Submitted,

Peter C. Jones (Chair)

Narrative to the Summary Compensation Table and Grants of Plan-Based Awards Table

Employment Agreements

We have employment agreements with Mr. Logan W. Kruger, our President and CEO; Mr. Wayne R. Hale, our EVP and COO; Mr. Michael A. Bless, our EVP and CFO and Mr. William J. Leatherberry, our EVP, General Counsel and Secretary. The agreements of Messrs. Kruger, Hale and Bless provide for automatic extensions on each January 1 for an additional one-year period unless timely notice of termination is delivered by a party pursuant to the terms of the employment agreement. Effective January 1, 2010, each of these agreements was so extended to December 31, 2012. The initial term of Mr. Leatherberry's employment agreement ends on December 31, 2011, and shall automatically be extended for an additional two year period on January 1, 2012, and on every other anniversary thereafter, for an additional two year term, unless timely notice of termination is delivered by a party pursuant to the terms of the employment agreement. These agreements provide that Messrs. Kruger's, Hale's, Bless's base salaries shall not be reduced below the executives' prior year's base salary and that Messrs. Kruger's, Hale's, Bless's and Leatherberry's salaries shall be subject to increase from time to time at the discretion of the Compensation Committee. These agreements also provide that these executive officers are eligible to participate in our incentive compensation plans, subject to the discretion of the Compensation Committee and they are also eligible for stock option grants and performance share awards under the 1996 Plan and participation in the SERP.

Our employment agreements with Messrs. Kruger, Hale and Bless each provide that upon termination of employment for any reason other than voluntary resignation without cause, death, disability or “for cause”, the terminated executive will be entitled to receive termination payments equal to 100% of his base salary and bonus (based on the highest annual bonus payment within the prior three years) for the remainder of the term of the agreement (with a minimum of one year’s salary plus bonus). If the executive is terminated as a result of the executive’s disability, the payments due to the executive will be reduced by any payments he receives under our disability plans. Also, any termination payments under the employment agreements may not be duplicated under the severance compensation agreements described below under “Executive Compensation-Potential Payments upon Termination or Change of Control.” Any amounts payable to each officer by reason of his termination of employment that are determined to constitute payments of “non-qualified deferred compensation” as that term is used for purposes of 409A, shall be payable, together with interest thereon, on the first business day following the six-month anniversary of his termination of employment.

Our employment agreement with Mr. Leatherberry provides that upon termination of employment for any reason other than voluntary resignation without cause, death, disability or “for cause”, Mr. Leatherberry will be entitled to receive (a) lump sum termination payment equal to 250% of his base salary, (b) 250% of the greater of (i) his target annual bonus on his termination date and (ii) his target annual bonus for the most recently completed fiscal year and (c) the sum of (i) his pro-rated target annual bonus for the period prior to his termination and (ii) his pro-rated target long-term cash incentive compensation award (assuming achievement at target level of performance goals for the performance period) for the period prior to his termination.

Post Employment Compensation

Pension Benefits

As discussed above under the heading "Retirement Benefits," we maintain both the Qualified Plan and the SERP as retirement plans for our U.S. based salaried employees. The Qualified Plan provides lifetime annual benefits starting at age 62 equal to 12 multiplied by the greater of: (i) 1.5% of final average monthly compensation multiplied by years of credited service (up to 40 years), or (ii) \$22.25 multiplied by years of credited service (up to 40 years), less the total monthly vested benefit payable as a life annuity at age 62 under predecessor plans which we acquired. We determine final average monthly compensation under the qualified plans as the highest monthly average for 36 consecutive months in the 120-month period ending on the last day of the calendar month completed at or prior to a termination of service. Participants' pension rights vest after a five-year period of service, or earlier if the participant has reached the age of 62. An early retirement benefit (actuarially reduced beginning at age 55) and a disability benefit are also available. The compensation covered by the plan includes all compensation, subject to certain exclusions, before any reduction for 401(k) contributions, subject to the maximum limits under the Code.

The SERP provides selected senior executives with supplemental benefits in addition to those benefits they are entitled to receive under the Qualified Plan. More information about the SERP can be found under the heading "Retirement Benefits."

The following table sets forth the present value of accumulated benefits payable to each of the named executive officers, including the number of years of service credited to each such named executive officer, under the Qualified Plan and the SERP, determined using interest rate and mortality rate assumptions consistent with those used in our consolidated financial statements.

Potential Payments upon Termination or Change of Control

The following table sets forth the amount of compensation payable to each of our named executive officers upon termination of such executive's employment. The amount of compensation payable to each named executive officer following: termination following a change of control, involuntary termination for cause, involuntary termination not-for-cause, death, disability, retirement and voluntary resignation is shown. The amounts shown assume that such termination was effective as of December 31, 2009, and thus includes amounts earned through such time and are estimates of the amounts that would be paid out to the executives on their termination. The actual amount to be paid can only be determined at the time of such executive's termination.

- (a) Amount will not be paid to named executive as a lump sum. Rather, the amount represents the actuarial calculated present value of benefits that will be received upon obtaining normal retirement age (62).
- (b) Amount will not be paid to named executive as a lump sum. Rather, amount represents the actuarial calculated present value of benefits that will be paid to a surviving spouse as an annuity upon the named executive's death.
- (c) Based on the highest bonus of the most recent preceding 5 years.
- (d) Represents the value of outstanding performance shares for the 2008-2010 and 2009-2010 Plan periods. Time Vested Performance Share Units which will vest immediately due to disability or death. Value is based on our December 31, 2009 closing stock price.
- (e) Named executive officer will continue to participate in our 2008-2010 LTIP Performance Unit program. Final award determination will be made by the Compensation Committee in 2011. Performance Units are valued at \$1 per unit.
- (f) Represents the lump sum payment of the actuarial equivalent of the difference between the retirement benefit the named executive is actually entitled to receive under our qualified pension plan and a "recalculated" retirement benefit that includes additional three full years of credited service. In addition, the named executive is entitled to retirement benefits when obtaining normal retirement age.
- (g) Represents the value of outstanding stock options granted to the named executive officer under the 1996 Plan. Value is determined only for options in the money by calculating the difference between the strike price and the December 31, 2009 closing stock price.
- (h) Represents the value of unvested service (time) based performance share units granted to the named executive officer. Upon death or disability the unvested units will continue to vest over the contractual term. Upon termination following a change in control, unvested units will immediately vest and named executive shall have the right to require the company to purchase, for cash, the stock awarded at the fair market value. The value presented is based on our December 31, 2009 closing stock price.
- (i) Represents the value of Performance Units at 100% of target award, under our 2008-2010 LTIP Performance Unit Program that will vest immediately under a change in control. Performance Units are value at \$1 per unit.
- (j) Represents the present value of accrued SERP benefits as of December 31, 2009 with an additional 36 months service credit as specified in the named executive officer's severance protection agreement.
- (k) Based on 2009 target bonus under the Annual Incentive Plan.

Severance Compensation Arrangements

As discussed under the heading “Post-Termination Compensation and Benefits,” we have entered into severance compensation agreements with each of Messrs. Kruger, Hale, Bless and Leatherberry. The agreements generally provide that if within 36 months after we experience a change in control the executive’s employment is terminated either (i) by us for other than cause or disability, or (ii) by such executive for good reason, then such executive will receive a lump sum payment equal to three times for Messrs. Kruger, Hale and Bless, and two times for Mr. Leatherberry, the aggregate of the highest base salary and the highest bonus received by such executive in any of the most recent five years. Also, upon a change in control, the exercisability of stock options and the vesting of performance shares held by such executives will be accelerated assuming that all performance targets were achieved at the 100% level. The agreements also provide that we will continue to provide benefits to each executive for a period of three years for Messrs. Kruger, Hale and Bless and two years for Mr. Leatherberry, after the date of his termination. In addition, the executive will be credited for pension purposes, a period of two to three years, as the case may be, beyond the termination date, at that executive’s highest base salary and highest bonus level, and Century will pay to the executive in a single lump sum the difference between the actuarial equivalent of (a) what the executive would have been entitled to under our retirement plans and (b) what he is entitled to taking into account the terms of the severance compensation agreement, assuming the executive is 100% vested in the increased benefit under the retirement plans. The agreements are for a set period of time, but are subject to automatic one-year extensions on each January 1, unless the executive’s employment is terminated prior to a change in control.

Any amounts payable to each officer by reason of his termination of employment that are determined to constitute payments of “nonqualified deferred compensation,” as that term is used for purposes of 409A, shall be payable, together with interest thereon, on the first business day of the seventh month following his termination of employment; and, for our officers that have employment agreements, require that the executive receive any severance at the same time and in the same form as required under the executive’s employment agreement in lieu of single lump sum severance payments under certain circumstances and added a covenant on the part of the executive to maintain the confidentiality of information the executive received in the course of his employment.

The Code imposes certain excise taxes on, and limits the deductibility of, certain compensatory payments made by a corporation to or for the benefit of certain individuals if such payments are contingent upon certain changes in the ownership or effective control of the corporation or the ownership of a substantial portion of the assets of the corporation, provided that such payments to the individual have an aggregate present value in excess of three times the individual’s annualized includible compensation for the base period, as defined in the Code. The severance compensation agreements provide for additional payments to the executives in order to fully offset any excise taxes payable by an executive as a result of the payments and benefits provided in the agreements. All benefits afforded the named executive officers under the severance compensation agreements are included in the amounts set forth in the “Potential Payments upon Termination or Change of Control” table above.

AUDIT COMMITTEE REPORT

The following report of the Audit Committee shall not be deemed to be “soliciting material” or to be “filed” with the Securities and Exchange Commission, nor shall this information be incorporated by reference into any future filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, each as amended, except to the extent that Century specifically incorporates it by reference into a filing.

During 2009, our Audit Committee was comprised of Messrs. Robert E. Fishman, Ph.D., Jarl Berntzen, John P. O’Brien, Peter C. Jones and Ms. Catherine Z. Manning. All members of the Audit Committee are independent directors, as that term is defined under NASDAQ listing standards. The Audit Committee operates under a written charter adopted by the Board. In accordance with its charter, the Audit Committee assists the Board in fulfilling its responsibility for oversight of the quality and integrity of the accounting, auditing and financial reporting practices of Century.

The Audit Committee’s job is one of oversight. Century’s management is responsible for the preparation of Century’s financial statements and the independent auditors are responsible for auditing those financial statements. The Audit Committee and the Board recognize that management (including the internal audit staff) and the independent auditors have more resources and time, and more detailed knowledge and information regarding Century’s accounting, auditing, internal control and financial reporting practices than the Audit Committee does; accordingly, the Audit Committee’s oversight role does not include providing any expert or special assurance as to the financial statements and other financial information provided by Century to its stockholders and others.

In discharging its oversight responsibility as to the audit process, the Audit Committee obtained from the independent auditors a formal written statement describing all relationships between the auditors and Century that might bear on the auditors’ independence, consistent with “Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees,” discussed with the auditors any relationships that may impact their objectivity and independence, including the performance of non-audit services, and satisfied itself as to the auditors’ independence. The Audit Committee also discussed with management, the internal auditors and the independent auditors, the quality and adequacy of Century’s internal controls, the processes for assessing and monitoring risk, and the internal audit function’s organization, responsibilities, budget and staffing. The Audit Committee reviewed with both the independent and the internal auditors their audit plans, audit scope, and identification of audit risks. The Audit Committee has the authority to obtain advice from outside legal, accounting or other advisors as the Audit Committee deems necessary to carry out its duties and receives appropriate funding, as determined by the Audit Committee, from Century for such advice and assistance.

The Audit Committee met with and discussed with the independent auditors all matters required to be discussed under generally accepted auditing standards, including those described in “Statement on Auditing Standards No. 61, Communication with Audit Committees,” and, with and without management present, reviewed and discussed the results of the independent auditors’ examination of the financial statements. The Audit Committee also discussed the quality and adequacy of Century’s internal controls and the results of the internal audit examinations.

The Audit Committee reviewed and discussed with management and the independent auditors the interim financial information contained in each quarterly earnings announcement in 2009 prior to its public release and the audited financial statements of Century as of and for the year ended December 31, 2009.

Based on the above mentioned review and discussions with management and the independent auditors, the Audit Committee recommended to the Board that Century’s audited financial statements be included in its Annual Report on Form 10-K for the year ended December 31, 2009, for filing with the Securities and Exchange Commission. The Audit Committee also recommended the reappointment, subject to stockholder approval, of the independent auditors

and the Board concurred in such recommendation. All audit and non-audit fees incurred in 2009 were pre-approved by the Audit Committee.

Respectfully Submitted,

The Audit Committee

Jarl Berntzen Robert E. Fishman John P. O'Brien Peter C. Jones Catherine Z. Manning
(Chair)

**PROPOSAL NO. 2: RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED
PUBLIC ACCOUNTING FIRM**

The Board of Directors, on the recommendation of the Audit Committee, has appointed Deloitte & Touche LLP to act as our independent registered public accounting firm for the current fiscal year, subject to the ratification of such appointment by the affirmative vote of the holders of a majority of shares of common stock present in person or by proxy and entitled to vote at the Annual Meeting. If no direction is given to the contrary, all proxies received by the Board of Directors will be voted “FOR” ratification of the appointment of Deloitte & Touche LLP as our independent auditors for the current fiscal year.

In addition to performing the audit of our consolidated financial statements, Deloitte & Touche LLP provided various other services for us during the last two years. The aggregate fees billed for the last two years for each of the following categories of services are set forth below:

	2009	2008
Audit Fees	\$ 1,531,000	\$ 1,802,000
Audit – Related Fees	246,000	172,000
Tax Fees	44,000	57,000
All Other Fees	430,000	318,000
Total Fees	\$ 2,294,000	\$ 2,349,000

Audit Fees. Audit Fees include professional services rendered in connection with the audit of our consolidated financial statements, audit of the effectiveness of our internal control over financial reporting, reviews of the consolidated financial statements included in our Quarterly Reports on Form 10-Q, consultation on accounting matters, and review of documents filed with the Securities and Exchange Commission.

Audit-Related Fees. Audit-Related Fees include audits of our employee benefit plans and consultation on accounting matters.

Tax Fees. Tax Fees include the preparation of federal and state tax returns, and consultation related to tax planning, tax advice, tax compliance, and acquisitions.

All Other Fees. All Other Fees include services provided for due diligence and registration statements.

All services rendered by Deloitte & Touche LLP are pre-approved by the Audit Committee in accordance with the Committee’s pre-approval procedures. Under those procedures, the terms and fees of annual audit services, and changes thereto, must be approved by the Audit Committee. The Audit Committee also pre-approves the scope of audit-related, tax and other non-audit services that may be performed by our independent auditors during the fiscal year, subject to dollar limitations set by the Committee. The foregoing pre-approval procedures are subject to the de minimis exceptions for non-audit services described in Section 10A(i)(1)(B) of the Exchange Act which are approved by the Audit Committee prior to completion of the audit

Representatives of Deloitte & Touche LLP are not expected to be present at the Annual Meeting, but will have the opportunity to make a statement if they desire to do so, and will be available should any matter arise requiring their presence.

The Board of Directors recommends that the stockholders vote “FOR” ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for the current fiscal year.

OTHER MATTERS

As of the date of this proxy statement, the Board of Directors does not know of any other matters which may come before the Annual Meeting, nor have we received notice of any matter by the deadline prescribed by Rule 14a-4(c) under the Exchange Act. If any other matters properly come before the meeting, the accompanying proxy confers discretionary authority with respect to any such matters, and the persons named in the accompanying proxy intend to vote in accordance with their best judgment on such matters. All expenses in connection with the solicitation of proxies will be borne by us. In addition to this solicitation, officers, directors and regular employees of Century, without any additional compensation, may solicit proxies by mail, telephone or personal contact. Morrow & Co., Inc. has been retained to assist in the solicitation of proxies for a fee of \$4,000 plus reasonable out-of-pocket expenses. We will, upon request, reimburse brokerage houses and other nominees for their reasonable expenses in sending proxy materials to their principals.

STOCKHOLDER PROPOSALS

Stockholder proposals for inclusion in the proxy materials for the Annual Meeting in 2011 should be addressed to our Corporate Secretary, 2511 Garden Road, Building A, Suite 200, Monterey, California 93940, and must be received no later than January 6, 2011. In addition, our restated by-laws currently require that for business to be properly brought before an Annual Meeting by a stockholder, regardless of whether included in our proxy statement, the stockholder must give written notice of his or her intention to propose such business to our Corporate Secretary, which notice must be delivered to, or mailed and received at, our principal executive offices not less than forty-five (45) days prior to the date on which we first mailed our proxy materials for the prior year's Annual Meeting (which cut-off date will be March 14, 2011 in the case of the 2011 Annual Meeting). Such notice must set forth as to each matter the stockholder proposes to bring before the Annual Meeting: (i) a brief description of the business desired to be brought before the meeting and the reasons for conducting such business at the meeting, (ii) the name and address of the stockholder proposing such business, (iii) the class and number of shares which are beneficially owned by the stockholder, and (iv) any material interest of the stockholder in such proposal. The restated by-laws further provide that the chairman of the Annual Meeting may refuse to permit any business to be brought before an Annual Meeting that does not comply with the foregoing procedures.

By Order of the
Board of Directors,

William J.
Leatherberry
Executive Vice
President, General
Counsel and
Secretary

Monterey, California
April 21, 2010

We will provide without charge to each person solicited hereby, upon the written request of any such person, a copy of our Annual Report on Form 10-K for the fiscal year ended December 31, 2009, as filed with the Securities

and Exchange Commission (without exhibits). Requests should be made to Office of the General Counsel, 2511 Garden Road, Building A, Suite 200, Monterey, California 93940.
