First Quarter Trading Statement 2005

Basel, Switzerland, 26 April 2005

Sales in the first quarter of 2005 increased by 24% to \$2.85 billion, benefiting from the contribution of US Seeds acquisitions and the alignment of sales closer to consumption. At constant exchange rates (CER) sales rose 19%.

In Crop Protection, sales were 4% higher (CER) driven by early demand in NAFTA and a good underlying performance in Asia Pacific, notably Japan. In Europe, a late start to the season led to slightly lower sales. In Latin America, a strong finish to the season in Argentina offset lower sales in Brazil in comparison with a very strong first quarter in 2004.

Growth was particularly robust in fungicides. Insecticides also performed well in all regions. In herbicides, lower sales in Europe offset growth in NAFTA. Professional Products once again grew strongly, driven by the continued success of Seed Treatment.

Seeds sales increased 70% (CER). Excluding the effect of acquisitions, sales rose 15% (CER). Underlying growth was strong in Field Crops in both NAFTA and Europe. Sales of Vegetables and Flowers were slightly lower, notably in Europe, due to the late start to the season.

For the full year 2005, the company remains committed to deliver high teens growth in earnings per share*.
