#### About Issuer Credit Ratings

An issuer credit rating reflects the assigning rating agency's opinion of the issuer's creditworthiness (i.e., the issuer's ability to pay on its obligations when they become due). It is not the rating of any RBS product issued by RBS Group, RBS plc or RBS NV.

An issuer credit rating has no bearing on how much you may be entitled to be paid on an RBS product or what your return on investment may be. Your return on investment will depend on the terms of the particular RBS product that you buy and how that product performs.

An issuer credit rating does not enhance the performance or potential return on any RBS product. If a product or its underlying asset underperforms, your investment may result in a loss, which may be significant, regardless of RBS' issuer credit ratings.
