RBS Holdings N.V. Form FWP October 09, 2012

Filed pursuant to Rule 433. Registration Statement Nos. 333-179685 and 333-179685-01.

RBS Exchange Traded Notes

RBS US Mid Cap Trendpilot[] ETN (TRNM)

The RBS US Mid Cap Trendpilot[] Exchange Traded Notes ("RBS ETNs") are unsecured and senior obligations of The Royal Bank of Scotland N.V. ("RBS NV"), and are fully and unconditionally guaranteed by RBS Holdings N.V. ("RBS Holdings"). Any payments on the RBS ETNs when they become due at maturity or upon early repurchase or redemption are dependent on the ability of RBS NV and RBS Holdings to pay, and are also subject to market risk.

RBS US Mid Cap Trendpilot[] ETNs track the RBS US Mid Cap Trendpilot[] Index (USD) which provides:

Trend-following exposure using an objective and transparent methodology to either the S and P MidCap 400([R]) Total Return Index or the Cash Rate; Mid Cap Exposure in positive trending markets by tracking the S and P MidCap 400([R]) Total Return Index, the level of which incorporates the reinvestment of any cash dividends paid on its component securities. The RBS ETNs do not pay interest or dividends; and Cash Rate Exposure in negative trending markets by tracking a hypothetical investment in 3-month U.S. Treasury bills as of the most recent weekly auction.

Illustration of the Trendpilot([]) Index Methodology

A positive trend is established: The Index will track the Benchmark Index

If the closing level of the Benchmark Index is at or above its 200-Index business day simple moving average for []ve consecut business days

A negative trend is established:
The Index will track the Cash Rate
If the closing level of the Benchmark Ind
historical 200-Index business day simple
average for []ve consecutive Index busine
A negative trend is established

Hypothetical Benchmark Index Level

A positive trend is established

Hypothetical Benchmark Index

Time

The above graph illustrates the operation of the Trendpilot[] Index Methodology. It does not re[]ect any actual performance of the Benchmark Index

or the Index, and is not an indication of how either index may perform in the future. The hypothetical illustration above also does not include any fees, transaction costs or expenses.

If neither of the above conditions is satis[]ed, the trend of the Benchmark Index will be the same as the trend of the Benchmark Index on the immediately preceeding Index business day. The Index will implement any trend reversal at the open of trading on the second Index business day immediately following the Index business day on which the Benchmark Index trend switches from positive to negative or from negative to positive, as the case may be.

(1)Benchmark Index Dividend Yield means the sum of the gross dividends paid on the securities comprising the Benchmark Index (which is a total return index) over the prior 12 months ending 9/30/2012 divided by the closing level of the price return version of the Benchmark Index as of 9/30/2012.

Not FDIC Insured. May Lose Value.

(1) The table above does not re[]ect any Trendpilot[] Index performance. The Trendpilot[] Index performance is not the same as the S and P MidCap 400([R]) Index performance. The Trendpilot[] Index may underperform the S and P MidCap 400([R]) Index over various time periods, and may track the Cash Rate for extended periods of time in a low interest rate envionment. CERTAIN RISK CONSIDERATIONS: The RBS ETNs involve risks not associated with an investment in conventional debt securities, including a possible loss of some or all of your investment. The level of the Index must increase by an amount $\operatorname{suf}[]\operatorname{cient}$ to offset the aggregate investor fee applicable to the RBS ETNs in order for you to receive at least the principal amount of your investment back at maturity or upon early repurchase or redemption. The Index may underperform the Benchmark Index, and is expected to perform poorly in volatile markets. Even though the RBS ETNs are listed on the NYSE Arca, a trading market may not develop and the liquidity of the RBS ETNs may be limited and/or vary over time, as RBS plc is not required to maintain any listing of the RBS ETNs. The RBS ETNs are not principal protected and do not pay interest. Any payment on the

RBS ETNs is subject to the ability of RBS plc, as the issuer, and RBS Group plc, as the guarantor, to pay their respective obligations when they become due. You should carefully consider whether the RBS ETNs are suited to your particular circumstances before you decide to purchase them. We urge you to consult with your investment, legal, accounting, tax and other advisors with respect to any investment in the RBS ETNs.

The RBS ETNs are not suitable for all investors. You should carefully read the relevant pricing supplement and prospectus, including the more detailed explanation of the risks involved in any investment in the RBS ETNs as described in the "Risk Factors" section of the pricing supplement, before investing.

IMPORTANT INFORMATION: The Royal Bank of Scotland N.V. (RBS NV) and RBS Holdings N.V. (RBS Holdings) have []led a registration statement (including a prospectus) with the U.S. Securities and Exchange Commission (SEC) for the offering of RBS ETNs to which this communication relates. Before you invest in any RBS ETNs, you should read the prospectus in the registration statement and other documents that have been []led with the SEC for more complete information about RBS NV and RBS Holdings, and the offering. You may get these documents for free by visiting EDGAR on the SEC's web site at www.sec.gov. Alternatively, RBS NV, RBS Securities Inc. (RBSSI) or any dealer participating in the relevant offering will arrange to send you the prospectus and the pricing supplement at no charge if you request it by calling 1-855-RBS-ETPS (toll-free).
