Evaluation of the Merged Company for Capital Stock Increase Purposes

- 5.1. The Capital Stock increase at CVRD, to be carried out in light of the Merger of Shares, in accordance with the terms of Clause Six below, shall be performed based on the report dated March 14, 2006, prepared by Banco Merrill Lynch de Investimentos S.A., established in the City of São Paulo, State of São Paulo, at Av. Brigadeiro Faria Lima 3400, 18th floor, enrolled with the Brazilian Legal Entities Taxpayers Roll of the Ministry of Finance (CNPJ/MF) under the number 62.073.200/0001-21 (**Merrill Lynch**), in accordance with Exhibit I of this present Protocol. As a result, were considered the closing rates for the trading sessions during the period from October 26, 2005 to January 23, 2006, including these dates, and the result was an average rate of R\$ 3.52311 for each preferred share issued by Caemi, being attributed for the totality of shares of the Merged

Company the amount of R\$ 13,809,698,679.97 (thirteen billion, eight hundred and nine million, six hundred and ninety-eight thousand, six hundred and seventy-nine *reais* and ninety seven cents).

Evaluation of the Merged Company and of the Merging Company for Substitution Rate Determination

Purposes

- 5.2. The substitution rate of preferred shares issued by Caemi for Class A shares issued by CVRD shall be performed based on the market value of such shares, in accordance with their average rating at Bovespa.

- 5.3. In light of the high rates of liquidity and dispersion presented by the preferred shares issued by CVRD and by Caemi, both listed in the Bovespa Index, in which such shares hold, respectively, the third and the sixth places among the most negotiated shares at Bovespa, according to the theoretical portfolio of such index for the period from January to April 2006, the managers of the Companies understand that the substitution rate of the preferred shares issued by Caemi to be merged to the shareholder's equity of CVRD with new shares issued by CVRD, must be set up based on their respective market values, as established by Article 11 of CVM Instruction 319/99. This criteria is, in accordance with the opinion of the managers of the Companies, what ensures equal treatment to their shareholders, due to the fact that it reflects the value attributed by the market to the shares of the Merging Company and of the Merged Company.

- 5.4. The managers of the Companies understand that the closing average of the 90 (ninety) days that preceded the first press release related to the transaction referred to in item 3.1 of Clause Three above, which presents an adequate sample of the current market value of such shares and, at the same time, eliminates eventual distortion caused by the volatility and special conditions of the market. Therefore, were considered the closing rates for the trading sessions during the period from October 26, 2005 to January 23, 2006, including this date, being obtained the average rate of R\$ 85.61640 for each Class A preferred share issued by CVRD and R\$3.52311 for each the preferred share

5.6. In compliance with the provisions contained in Article 264 of the Brazilian Corporations Law, the evaluations of the shareholder's equity to market value as to what regards CVRD and Caemi, aiming the withdraw right value calculation mentioned in Clause Eight below, were carried out by ACAL Consultoria e Auditoria S/S (**ACAL**), an evaluations specialized company, with head office at Av. Rio Branco, 181 1st floor, Centro, in the City of Rio de Janeiro, RJ, registered at the Regional Accountants Council of the State of Rio de Janeiro under number 1.144, and enrolled with the Brazilian Legal Entities Taxpayers Roll of the Ministry of Finance (CNPJ/MF) under the number 28.005.734/0001-82, as per the technical reports that constitute Exhibit III and IV of this present Protocol. The results of the evaluations performed by ACAL are described in the table below:

established in Article 230 of the Brazilian Corporations Law. 8.3. Considering items 5.2 and 5.6 above, the withdrawal rights shall be based upon book value of the shares stated in the financial statements, dated December 31, 2005 (date of the last CVRD published financial statement), according to which one outstanding share is R\$ 20,89 (twenty reais and eighty-nine cents) worthy.
