Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of the

Merck Puerto Rico Employee Savings and Security Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Merck Puerto Rico Employee Savings and Security Plan (the Plan) at December 31, 2008 and 2007, and the changes in net assets available for benefits for the year ended December 31, 2008 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plans management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2008 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Merck Puerto Rico Employee Savings and Security Plan Notes to Financial Statements December 31, 2008 and 2007

1. Description of the Plan

The following description of the Merck Puerto Rico Employee Savings and Security Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan s provisions.

General

The Plan is a profit sharing plan designed to provide an opportunity for employees of Merck Sharp & Dohme Quimica de Puerto Rico, Ltd., Merck Sharp & Dohme de Puerto Rico Inc., Merck Puerto Rico Holdings Inc. and Merck Sharp & Dohme (IA) Corp. Puerto Rico Branch (the Companies) to become stockholders of Merck & Co., Inc. (Merck) and to encourage them to save on a regular basis by setting aside part of their earnings. Regular full-time and part-time employees of the Companies, as defined in the Plan document, who have completed at least one year of employment and are not covered by a collective bargaining agreement, are eligible to enroll in the Plan.

Participants direct the investment of their contributions into any mutual fund investment option as well as Merck common stock. During 2008, the Plan offered 17 registered investment companies (mutual funds), a common/collective trust, and two separately managed accounts.

The Plan is administered in part by the Employee Benefits Committee appointed by the President of the Companies and in part by management committees appointed by the Compensation and Benefits Committee of the Board of Directors of Merck. All costs of administering the Plan are borne by the Companies.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute from 2% up to 15% of their base pay, provided that pre-tax contributions shall not exceed 10% of base compensation or \$8,000. In addition, the Companies match 50% of pre-tax and after-tax contributions up to 5% of each participant s base compensation applicable to the pay period in which the contribution is being made. Company matching contributions are invested according to a participant s elections.

Participant Accounts

Each participant s account is credited with the participant s contribution, the Companies matching contribution, and an allocation of Plan earnings. The allocation is based on participants account balances, as defined in the Plan document.

Vesting

Participants are immediately vested in their contributions, all Companies matching contributions, plus actual earnings thereon.

4

Table of Contents

Merck Puerto Rico Employee Savings and Security Plan Notes to Financial Statements December 31, 2008 and 2007 Participant Loans

Participants may borrow from their account balances with interest charged at prime rate plus 1%. Loan terms range from one to five years or up to thirty years for the purchase of a primary residence.

The minimum loan is \$500 and the maximum loan is the lesser of (i) \$50,000 less the highest outstanding loan balance during the one year period prior to the new loan application date, or (ii) 50% of the participant s account balance less any current outstanding loan balance.

Payment of Benefits

Participants are entitled to receive automatic, voluntary, in-service (which include hardship withdrawals), or mandatory distributions as provided in the applicable Plan provisions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting. Certain amounts in the prior year financial statements have been reclassified to conform to the current presentation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Management believes that these estimates are adequate. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

All investments are recorded at fair value in the accompanying financial statements. In September 2006, the Financial Accounting Standards Board (FASB) issued Statement No. 157, *Fair Value Measurements* (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair value, and expands the disclosures on fair value measurements. The Plans adoption of FAS 157, which was effective on January 1, 2008, did not have a material impact on the Plans Statement of Net Assets Available for Benefits or Statement of Changes in Net Assets Available for Benefits. For information related to the Plans valuation methodologies under FAS 157, see Note 3 of the financial statements.

Purchases and sales of securities are recorded on a trade-date basis. Other receivables consist of proceeds receivable for investment securities sold with a settlement date after year end, in a separately managed account. Other payables represent amounts due for investment securities purchased with a settlement date after year end and accrued management expenses, in a separately managed account. Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned.

5

Table of Contents

Merck Puerto Rico Employee Savings and Security Plan Notes to Financial Statements December 31, 2008 and 2007 Contributions

Employee and Companies matching contributions are recorded in the period in which the Companies make the payroll deductions from the participants earnings.

Payment of Benefits

Benefits are recorded when paid.

Transfer of Assets to/from Other Plans

Companies employees or retirees may elect to transfer their savings to other plans qualified by the Puerto Rico Treasury Department (the PRTD) or by the U.S. Internal Revenue Service (the IRS). Newly hired employees are allowed to transfer their savings from former employer plans to the Plan.

Risks and Uncertainties

The Plan provides for various investment options in investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

3. Fair Value Measurements

On January 1, 2008, the Company adopted FAS 157. In October 2008, the FASB issued FSP 157-3, which clarifies the application of FAS 157 in a market that is not active. FAS 157 defines fair value as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. FAS 157 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. FAS 157 describes three levels of inputs that may be used to measure fair value:

- Level 1 Quoted prices in active markets for identical assets or liabilities. The Plan s Level 1 assets primarily include registered investment companies (mutual funds) and common stocks.
- Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. The Plan s Level 2 assets primarily include investments in common/collective trusts.
- Level 3 Unobservable inputs that are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation. The Plan s Level 3 assets include participant loans.

6

Merck Puerto Rico Employee Savings and Security Plan

Notes to Financial Statements

December 31, 2008 and 2007

If the inputs used to measure the financial assets and liabilities fall within more than one level described above, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument. Within the Plan, investments are recorded at fair value, as follows:

Registered Investment Companies (Mutual Funds)

Registered investment companies (mutual funds) are valued at their respective net asset values. The net asset values are typically determined by the fund at the close of regular trading on the New York Stock Exchange.

Common/Collective Trusts

The common/collective trusts are valued at their respective net asset values. The fair value of investments in the common/collective trusts are determined by their trustee.

Common Stocks

Common stocks, for which market quotations are readily available, are generally valued at the last reported sale price on their principal exchange on valuation date, or official close price for certain markets. If no sales are reported for that day, investments are valued at the more recent of (i) the last published sale price or (ii) the mean between the last reported bid and asked prices for long positions, or at fair value as determined in good faith by the trustee and the Company.

Participant Loans

Participant loans are valued at amortized cost, which approximates fair value.

Investments Measured at Fair Value

Investments measured at fair value are summarized below:

			Year Ende	d December			
			3	1,		Year Ended	December 31,
			20	800		20	007

stocks	563,388	563,388			563,388	1,023,368	1,023,368

Edgar Filing: MERCK & CO INC - Form 11-K

Total investments \$30,687,505 \$29,235,807 \$1,451,698 \$ \$30,687,505 \$48,195,085 \$48,195,085

Participant loans \$2,037,119 \$ \$ \$2,037,119 \$2,037,119 \$1,953,190 \$1,953,190

Merck Puerto Rico Employee Savings and Security Plan Notes to Financial Statements December 31, 2008 and 2007

Level 3 Valuation Techniques:

Financial assets are considered Level 3 when their fair values are determined using pricing models, discounted cash flow methodologies or similar techniques and at least one significant model assumption or input is unobservable. Level 3 financial assets also include certain investment securities for which there is limited market activity such that the determination of fair value requires significant judgment or estimation. The Plan s Level 3 investment securities at December 31, 2008 include participant loans. These securities were valued at amortized cost, which approximates fair value.

The table below provides a summary of the changes in fair value, including net transfers in and/or out, of all financial assets measured at fair value using significant unobservable inputs (Level 3):

		Year Ended I	December 31, 2008	
			Loan	
		Net	withdrawals,	
			Principal	
	Beginning	Transfers	repayments,	Ending
		In to (Out		
	Balance	of)	Interest,	Balance
		Level 3		
	January 1	(1)	Net	December 31
Participant loans	\$1,953,190	\$	\$ 83,929	\$2,037,119
Total	\$1,953,190	\$	\$ 83,929	\$2,037,119

(1) Transfers in and out of Level 3 are deemed to occur at the beginning of the quarter in which the transaction takes place.

4. Investments

The following presents investments that represent 5% or more of the Plan s net assets as of year-end:

	December 31,		
	2008	2007	
Merck common stock	\$ 15,041,650	\$ 26,795,182	
Fidelity Institutional Money Market Portfolio	3,346,700	3,263,321	
Columbia Acorn Fund, Class Z	1,908,346	2,806,232	
American Funds EuroPacific Growth Fund, Class A	1,705,870	2,731,718	
T. Rowe Price Blue Chip Growth Fund	1,575,019	2,795,281	

\$ 23,577,585

\$38,391,734

8

Table of Contents

Merck Puerto Rico Employee Savings and Security Plan Notes to Financial Statements December 31, 2008 and 2007

During 2008, the Plan s investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by \$20,488,028 as follows:

	2008
Registered investment companies (mutual funds)	\$ (6,326,621)
Common/collective trusts	(839,124)
Merck common stock	(12,930,783)
Other common stocks	(391,500)

\$ (20,488,028)

5. Related Party Transactions

Certain Plan investments are shares of registered investment companies (mutual funds) managed by Fidelity Management Trust Company (Fidelity). Fidelity is the record keeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The total market value of investments in the registered investment companies (mutual funds) managed by Fidelity was \$7,018,258 and \$8,846,606 at December 31, 2008, and December 31, 2007, respectively.

Merck also is a party-in-interest to the Plan under the definition provided in Section 3(14) of ERISA. Therefore, Plan transactions of Merck common stock qualify as party-in-interest transactions. The total market value of investments in the Merck common stock was \$15,041,650 and \$26,795,182 at December 31, 2008, and December 31, 2007, respectively.

6. Plan Termination

Although they have not expressed any intent to do so, the Companies have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, each participant thereby affected would receive the entire value of his or her account as though he or she had retired as of the date of such termination.

7. Tax Status

The Plan obtained a tax determination letter from the PRTD dated February 18, 1998, indicating that it had been designed in accordance with applicable sections of the Puerto Rico Internal Revenue Code of 1994 (PRIRC) and is, therefore, exempt from Puerto Rico income taxes. On August 20, 2003, the Plan obtained a tax determination letter from the Internal Revenue Service indicating it has been designed in accordance with applicable sections of the Internal Revenue Code (IRC). However, the Plan has been amended since the receipt of the determination letter. The Plan sponsor and legal counsel believe that the Plan is designed and currently operates in compliance with the PRIRC and IRC. Therefore, no provision for income taxes has been made.
