ENSTAR GROUP LIMITED

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2009 and December 31, 2008

(Expressed in thousands of U.S. Dollars, except per share amounts)

(unaudited)

1. BASIS OF PREPARATION AND CONSOLIDATION

Our condensed consolidated financial statements have not been audited. These statements have been prepared in accordance with U.S. Generally Accepted Accounting Principles (U.S. GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, these financial statements reflect all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of our financial position and results of operations as at the end of and for the periods presented. Results of operations for subsidiaries acquired are included from the dates of their acquisition by the Company. Intercompany transactions are eliminated on consolidation. The results of operations for any interim period are not necessarily indicative of the results for a full year. All significant inter-company accounts and transactions have been eliminated. In these notes, the terms we, us, our, or the Company refer to Enstar Group Limited and its direct and indirect subsidiaries. The following information is unaudited and should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2008.

Adoption of New Accounting Standards

The term FAS used in these notes refers to Statements of Financial Accounting Standards issued by the United States Financial Accounting Standards Board (FASB).

In June 2009, the Financial Accounting Standards Board (FASB) established the Accounting Standards Codification (the Codification) as the source of authoritative U.S. GAAP for non-governmental entities, in addition to guidance issued by the Securities and Exchange Commission (SEC). The Codification supersedes all then-existing, non-SEC accounting and reporting standards and reorganizes existing U.S. GAAP into authoritative accounting topics and sub-topics. The Company adopted the Codification as of September 30, 2009, and it impacted the Company's disclosures by eliminating all references to pre-Codification standards.

The Company adopted the revised guidance, issued by FASB on the accounting for business combinations, effective January 1, 2009. The revised guidance retains the fundamental requirements from previous guidance that the acquisition method of accounting be used for all business combinations and for an acquirer to be identified for each business combination. The revised guidance requires an acquirer to recognize the assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree at the acquisition date, measured at their fair values as of that date. The revised guidance also requires the Company to recognize acquisition-related costs separately from the acquisition, recognize assets acquired and liabilities assumed arising from contractual contingencies at their acquisition-date fair values and recognize goodwill as the excess of the consideration transferred plus the fair value of any noncontrolling interest in the acquiree at the acquisition date over the fair values of the identifiable net assets acquired. The adoption of the revised guidance did not have a material impact on the consolidated financial statements.

The Company adopted the new guidance issued by FASB on the accounting for noncontrolling interests, effective January 1, 2009. The new guidance clarifies that a noncontrolling interest in a subsidiary is an ownership interest that

should be reported as equity in the consolidated financial statements. The new guidance requires consolidated net income to be reported at the amounts that include the amounts attributable to both the parent and the noncontrolling interest. The new guidance also establishes a method of accounting for changes in a parent's ownership interest in a subsidiary that results in deconsolidation. The presentation and disclosure of the new guidance have been applied retrospectively for all periods presented. The adoption of the new guidance resulted in reclassification of noncontrolling interest in the amounts of \$257.6 million and \$256.0 million to shareholders' equity as at September 30, 2009 and December 31, 2008, respectively.

ENSTAR GROUP LIMITED

**NOTES TO THE UNAUDITED CONDENSED
CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

1. BASIS OF PREPARATION AND CONSOLIDATION (cont d)

The Company adopted new guidance issued by FASB on the disclosures about derivative instruments and hedging activities, effective January 1, 2009. The new guidance expands the disclosure requirements and requires the reporting entity to provide enhanced disclosures about the objectives and strategies for using derivative instruments, quantitative disclosures about fair values and amounts of gains and losses on derivative contracts, and credit-risk related contingent features in derivative agreements. The adoption of the new guidance did not have a material impact on the consolidated financial statements.

The Company adopted the new guidance issued by FASB on determining fair value when the volume and level of activity for an asset or liability have significantly decreased and identifying transactions that are not orderly, effective April 1, 2009. The new guidance provides additional guidance on: (1) estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to the normal market activity for the asset or liability, and (2) identifying transactions that are not orderly. The new guidance has been applied prospectively; retrospective application was not permitted. The adoption of the new guidance did not have a material impact on the consolidated financial statements.

The Company adopted the new guidance issued by FASB for the accounting for other-than-temporary impairments (OTTI), effective April 1, 2009. The new guidance provides new guidance on the recognition and presentation of OTTI for available-for-sale and held-to-maturity fixed maturities (equities are excluded). An impaired security is not recognized as an impairment if management does not intend to sell the impaired security and it is more likely than not it will not be required to sell the security before the recovery of its amortized cost basis. If management concludes a security is other-than-temporarily impaired, the new guidance requires that the difference between the fair value and the amortized cost of the security be presented as an OTTI charge in the consolidated statements of earnings, with an offset for any noncredit-related loss component of the OTTI charge to be recognized in other comprehensive income. Accordingly, only the credit loss component of the OTTI amount will have an impact on the Company's earnings. The new guidance also requires extensive new interim and annual disclosure for both fixed maturities and equities to provide further disaggregated information, as well as information about how the credit loss component of the OTTI charge was determined, and requires a roll forward of such amount for each reporting period. The adoption of the new guidance did not have a material impact on the consolidated financial statements.

The Company adopted the new guidance issued by FASB for the interim disclosures about fair value of financial instruments, effective April 1, 2009. The new guidance extends the disclosure requirements about fair value of financial instruments to interim financial statements and requires those disclosures in summarized financial information at interim reporting periods. The adoption of the new guidance did not have a material impact on the consolidated financial statements. To facilitate period-to-period comparisons, certain amounts in the 2008 consolidation financial statements have been reclassified to conform to the 2009 presentation. Such reclassifications had no effect on the Company's consolidated net income.

The Company adopted the revised guidance issued by FASB for recognizing and measuring pre-acquisition contingencies in a business combination, effective April 1, 2009. The revised guidance amends the prior guidance by requiring that assets acquired or liabilities assumed in a business combination that arise from contingencies be recognized at fair value only if fair value can be reasonably estimated; otherwise the asset or liability should generally

be recognized at reasonable estimate of the amount of loss. The revised guidance removes the requirement to disclose an estimate of the range of outcomes of recognized contingencies at the acquisition date. The adoption of the revised guidance did not have a material impact on the consolidated financial statements.

The Company adopted the new guidance issued by FASB for the accounting for subsequent events, effective June 30, 2009. The new guidance, establishes general standards of accounting for and disclosure of events that

Table of Contents**ENSTAR GROUP LIMITED****NOTES TO THE UNAUDITED CONDENSED
CONSOLIDATED FINANCIAL STATEMENTS (Continued)****1. BASIS OF PREPARATION AND CONSOLIDATION (cont d)**

occur after the balance sheet date but before the financial statements are issued or are available to be issued. The new guidance provides guidance on the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements and the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. The adoption of the new guidance did not have a material impact on the consolidated financial statements. The Company evaluated subsequent events through the date the accompanying financial statements were issued, which was November 6, 2009.

Recently Issued Accounting Standards Not Yet Adopted

In June 2009, the FASB issued the revised guidance for the consolidation of variable interest entities. The revised guidance requires an entity to perform an analysis to determine whether the entity's variable interest or interests give it a controlling financial interest in a variable interest entity. It determines whether a reporting entity is required to consolidate another entity based on, among other things, the other entity's purpose and design and the reporting entity's ability to direct the activities of the other entity that most significantly impact the other entity's economic performance. The revised guidance is effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period, and for interim and annual reporting periods thereafter. The Company is currently evaluating the impact of adopting this revised guidance on the consolidated financial statements.

The Company has determined that all other recently issued accounting pronouncements will not have a material impact on its consolidated financial statements, or do not apply to its operations.

5. INVESTMENTS (cont d)

Other Investments

At September 30, 2009 and December 31, 2008, the Company had \$76.4 million and \$60.2 million, respectively, of other investments recorded in limited partnerships, limited liability companies and equity funds. These other investments represented 2.2% and 1.7% of total investments and cash and cash equivalents at September 30, 2009 and December 31, 2008, respectively. All of the Company's investments in limited partnerships and limited liability companies that are categorized as other investments are subject to restrictions on redemptions and sales that are determined by the governing documents and limit the Company's ability to liquidate these investments in the short term. Due to a lag in the valuations reported by the managers, the Company records changes in the investment value with up to a three-month lag. These investments are accounted for under the equity method. As at September 30, 2009 and December 31, 2008, the Company had unfunded capital commitments relating to its other investments of \$101.2 million and \$108.0 million, respectively. As at September 30, 2009 and December 31, 2008, the Company had 93.2% and 90.6%, respectively, of other investments with a related party.

Other-Than-Temporary Impairment Process

Upon the adoption of the new guidance on investments in debt and equity securities, effective April 1, 2009, the Company changed its quarterly process for assessing whether declines in the fair value of its fixed maturity investments, both available-for-sale and held-to-maturity, represented impairments that are other-than-temporary. The process now includes reviewing each fixed maturity investment that is impaired and determining: (1) if the Company has the intent to sell the fixed maturity investment or (2) if it is more likely than not that the Company will be required to sell the fixed maturity investment before its anticipated recovery; and (3) assessing whether a credit loss exists, that is, where the Company expects that the present value of the cash flows expected to be collected from the fixed maturity investment are less than the amortized cost basis of the investment.

The Company had no planned sales of its fixed maturity investments classified as available-for-sale or held-to-maturity as at September 30, 2009. In assessing whether it is more likely than not that the Company will be required to sell a fixed maturity investment before its anticipated recovery, the Company considers various factors including its future cash flow requirements, legal and regulatory requirements, the level of its cash, cash equivalents, short term investments and fixed maturity investments available for sale in an unrealized gain position, and other relevant factors. For the three months ended September 30, 2009, the Company did not recognize any other-than-temporary impairments due to required sales.

In evaluating credit losses, the Company considers a variety of factors in the assessment of a fixed maturity investment including: (1) the time period during which there has been a significant decline below cost; (2) the extent of the decline below cost and par; (3) the potential for the fixed maturity investment to recover in value; (4) an analysis of the financial condition of the issuer; (5) the rating of the issuer; and (6) failure of the issuer of the fixed maturity investment to make scheduled interest or principal payments.

Based on the factors described above, the Company determined that, as at September 30, 2009, a credit loss existed for one fixed maturity investment. The Company did not consider an evaluation of future cash-flows necessary for this

fixed maturity investment. The impairment of \$0.6 million was recognized in earnings.

As a result of the execution of these agreements, the accounting treatment for share-based awards under the Company's employee share plan changed from book value to fair value. The determination of the share-award expenses was based on the fair-market value per share of EGI common stock as of the grant date and is recognized over the vesting period.

Compensation costs of \$0.1 million and \$0.4 million relating to the issuance of share-awards to employees of the Company in 2004 and 2005 have been recognized in the Company's statement of earnings for the three and nine months ended September 30, 2008, respectively, as compared to \$Nil for both the three and nine month periods ended September 30, 2009.

10. SEGMENT INFORMATION

The determination of reportable segments is based on how senior management monitors the Company's operations. The Company measures the results of its operations under two major business categories: consulting and reinsurance.

The Company's consulting segment comprises the operations and financial results of those subsidiaries that provide management and consulting services, forensic claims inspections services and reinsurance collection services to third-party clients, as well as to the Company's reinsurance segment, in return for management fees. The Company provides consulting and management services through its subsidiaries located in the United States, Bermuda and Europe to large multinational company clients with insurance and reinsurance companies and portfolios in run-off relating to risks spanning the globe. As a result, extracting and quantifying revenues attributable to certain geographic locations would be impracticable given the global nature of the business.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders
of Enstar Group Limited

We have reviewed the accompanying condensed consolidated balance sheet of Enstar Group Limited and subsidiaries (the Company) as of September 30, 2009, and the related condensed consolidated statements of earnings and comprehensive income for the three-month and nine-month periods ended September 30, 2009 and 2008, and changes in shareholders' equity and cash flows for the nine-month periods ended September 30, 2009 and 2008. These interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to such condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Enstar Group Limited and subsidiaries as of December 31, 2008 and the related consolidated statements of earnings, comprehensive income, changes in shareholders' equity, and cash flows for the year then ended prior to the retrospective adjustment to give effect to revised presentation and disclosure requirements related to noncontrolling interests in consolidated subsidiaries (not presented herein); and in our report dated March 4, 2009, we expressed an unqualified opinion on those consolidated financial statements. We have also audited the adjustments that were applied to retrospectively adjust the December 31, 2008 consolidated financial statements of Enstar Group Limited and subsidiaries (not presented herein). In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2008 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Business Overview

Enstar Group Limited, or Enstar, was formed in August 2001 under the laws of Bermuda to acquire and manage insurance and reinsurance companies in run-off, and to provide management, consulting and other services to the insurance and reinsurance industry.

Since our formation we have acquired a number of insurance and reinsurance companies and are now administering those businesses in run-off. We derive our net earnings from the ownership and management of these companies primarily by settling insurance and reinsurance claims below the recorded loss reserves and from returns on the portfolio of investments retained to pay future claims. In addition, we have formed other businesses that provide management and consultancy services, claims inspection services and reinsurance collection services to our affiliates and third-party clients for both fixed and success-based fees.

Recent Transactions

On November 2, 2009, we, through our wholly-owned subsidiary, Nordic Run-Off Limited, entered into a definitive agreement for the purchase of Forsakringsaktiebolaget Assuransinvest MF, or Assuransinvest, for a purchase price of SEK 78.8 million (approximately \$11.1 million). Assuransinvest is a Swedish domiciled reinsurer that is in run-off. The purchase price is expected to be funded from available cash on hand. Completion of the transaction is conditioned on, among other things, regulatory approval and satisfaction of various customary closing conditions. The transaction is expected to close in the first quarter of 2010.

On October 15, 2009, we, through our wholly-owned subsidiary, Marlon Insurance Company Limited, completed the previously announced acquisition of Copenhagen Reinsurance Company Ltd., or Copenhagen Re, from Alm. Brand Forsikring A/S for a total purchase price of DKK149.2 million (approximately \$30.0 million). Copenhagen Re is a Norwegian domiciled reinsurer that is in run-off. The acquisition was funded from available cash on hand.

On September 30, 2009, we, through our indirect subsidiary, Knapton Holdings Limited, entered into a definitive agreement for the purchase of British Engine Insurance Limited, or British Engine, from RSA Insurance Group plc for a total purchase price of GBP 28.0 million (approximately \$45.5 million). British Engine is a U.K. domiciled reinsurer that is in run-off. The purchase price of approximately \$45.5 million is expected to be financed in part by a bank loan facility to be finalized before closing and from available cash on hand. Completion of the transaction is conditioned on, among other things, regulatory approval and satisfaction of various customary closing conditions. We expect the transaction to close in the fourth quarter of 2009.

On January 31, 2009, we, through our indirect subsidiary, Sun Gulf Holdings Inc., completed the acquisition of all of the outstanding capital stock of Constellation Reinsurance Company Limited, or Constellation, for a total purchase price of approximately \$2.5 million. Constellation is a New York domiciled reinsurer that is in run-off. The acquisition was funded from available cash on hand.

We own 50.1% of Shelbourne Group Limited, which in turn owns 100% of Shelbourne Syndicate Services Limited, the Managing Agency for Lloyd's Syndicate 2008, a syndicate approved by Lloyd's of London on December 16, 2007 to undertake Reinsurance to Close or RITC transactions (the transferring of liabilities from one Lloyd's Syndicate to another) with Lloyd's syndicates in run-off. In February 2009, Lloyd's Syndicate 2008 entered into a RITC agreement with a Lloyd's syndicate with total gross insurance reserves of approximately \$67.0 million. JCF FPK I L.P., or JCF FPK, a joint investment program between J.C. Flowers II L.P., or the Flowers Fund, and Fox-Pitt Kelton Cochran Caronia Waller (USA) LLC, or FPK, owns 25% of Shelbourne Group Limited.

Comparison of the Three Months Ended September 30, 2009 and 2008

We reported consolidated net earnings (loss), before net (earnings) loss attributable to noncontrolling interest, of approximately \$45.5 million for the three months ended September 30, 2009 as compared to approximately \$(42.0) million for the same period in 2008. The increase in earnings of approximately \$87.5 million was primarily attributable to the following:

- (i) An increase in investment income (inclusive of realized gains/(losses)) of \$20.9 million primarily as a result of the reduction in the writedowns in fair value of our private equity portfolio classified as other investments of \$28.1 million, partially offset by lower investment income reflecting the impact of lower global short-term and intermediate interest rates.

Table of Contents

- (ii) A movement in foreign exchange earnings from a loss of \$25.1 million for the three months ended September 30, 2008 to a gain of \$7.2 million for the three months ended September 30, 2009. This increase of \$32.3 million arose primarily as a result of holding surplus net foreign currency assets at a time when the U.S. dollar was depreciating against the majority of currencies.
- (iii) Reduced interest expense of \$3.7 million due primarily to lower interest rates on outstanding term loan facility agreements.
- (iv) An increased net reduction in loss and loss adjustment expense liabilities of \$39.1 million.
- (v) Reduced consulting fees of \$3.1 million due primarily to decreased incentive fees earned from third-party arrangements.
- (vi) A reduction in income taxes of \$7.8 million due to lower tax liabilities recorded on the results of our taxable subsidiaries; partially offset by
- (vii) An increase in salary and general and administrative costs of \$13.1 million due primarily to increased salary costs related to our discretionary bonus plan as a result of increased net earnings in the period.

We recorded noncontrolling interest in net (earnings) loss of \$(10.5) million and \$5.6 million for the three months ended September 30, 2009 and 2008, respectively. The increase for the three months ended September 30, 2009 in noncontrolling interest was due primarily to: (1) an increase in net earnings for the three months ended September 30, 2009 as compared to the same period in 2008; and (2) an increase in the number of subsidiary companies for which there exists a noncontrolling interest. Accordingly, net earnings attributable to Enstar Group Limited increased from a loss of approximately \$36.4 million for the three months ended September 30, 2008 to earnings of approximately \$35.0 million for the three months ended September 30, 2009.

Reinsurance	(8,099)	(7,922)	(177)

We earned consulting fees of approximately \$4.1 million and \$7.4 million for the three months ended September 30, 2009 and 2008, respectively. The decrease in consulting fees for the period primarily related to decreased incentive fees earned from third-party agreements.

Internal management fees of \$8.1 million and \$7.9 million were paid in the three months ended September 30, 2009 and 2008, respectively, by our reinsurance companies to our consulting companies. The increase in internal fees paid to the consulting segment was due primarily to increased fees paid from companies we acquired in the fourth quarter 2008 partially offset by a decrease in fees paid by our reinsurance companies in respect of internal collection and audit

services.

Net investment income for the three months ended September 30, 2009 increased by \$17.8 million to \$24.6 million, as compared to \$6.8 million for the same period in 2008. The increase was primarily attributable to the following:

- (i) Movement of \$28.1 million in the fair value of our investments in New NIB Partners LP, the Flowers Fund, Affirmative Investment LLC and GSC European Mezzanine Fund II, LP from a writedown of \$24.3 million for the three months ended September 30, 2008 to an appreciation of \$3.8 million for the three months ended September 30, 2009; partially offset by
- (ii) Lower investment income from fixed maturities and cash and cash equivalents, reflecting the impact of lower global short-term and intermediate interest rates the average U.S. Federal Funds Rate has decreased from 2.00% for the three months ended September 30, 2008 to 0.25% for the three months ended September 30, 2009.
- (iii) Decrease in the Australian dollar and British pound quarterly average foreign exchange rates to the U.S. dollar.

The average return on our cash and fixed maturities investments for the three months ended September 30, 2009 was 2.35%, as compared to the average return of 5.1% for the three months ended September 30, 2008. The average Standard & Poor's credit rating of our fixed income investments at September 30, 2009 was AA.

Net realized gains for the three months ended September 30, 2009 and 2008 were \$2.9 million and \$(0.2) million, respectively, with the increase relating primarily to the mark to market gains in the value of our equity portfolio.

Net Reduction in Loss and Loss Adjustment Expense Liabilities:

The following table shows the components of the movement in the net increase in loss and loss adjustment expense liabilities for the three months ended September 30, 2009 and 2008.

	Three Months Ended September 30, 2009 2008 (in thousands of U.S. dollars)	
Net Losses Paid	\$ (50,756)	\$ (36,366)
Net Change in Case Reserves	91,540	26,468

Amortization of Fair Value Adjustments	(12,008)	(14,155)
Net Reduction in Loss and Loss Adjustment Expense Liabilities	\$ 42,558	\$ 3,469

The net reduction in loss and loss adjustment expense liabilities for the three months ended September 30, 2009 and 2008 was \$42.6 million and \$3.5 million, respectively.

The net reduction in loss and loss adjustment expense liabilities for the three months ended September 30, 2009 of \$42.6 million was attributable to a reduction in estimates of net ultimate losses of \$44.7 million and a reduction in provisions of unallocated loss adjustment expense liabilities, or ULAE, of \$9.8 million, relating to 2009 run-off activity, partially offset by the amortization, over the estimated payout period, of fair value adjustments of \$12.0 million relating to companies acquired.

The reduction in estimates of net ultimate losses of \$44.7 million primarily related to the following:

- (i) A reduction in net ultimate losses of \$23.8 million in two of our insurance entities whereby previously advised net case and loss adjustment expense, or LAE, reserves of \$18.6 million were settled without

Table of Contents

payment. The application of our reserving methodologies to the reduced case and LAE reserves resulted in a reduction in net incurred but not reported, or IBNR, reserves of \$5.2 million.

- (ii) During the three months ended September 30, 2009, we culminated historic case reserve reviews for eight of our insurance and reinsurance subsidiaries for which no updated advices had been received for a number of years. This review confirmed the redundancy of approximately 4,000 advised case reserves with an aggregate value of \$16.6 million.
- (iii) A reduction in net ultimate losses of \$5.4 million in another of our insurance entities that completed, during September 2009, a Solvent Scheme of Arrangement relating to its U.K. liabilities. A Solvent Scheme of Arrangement is an arrangement between a company and its creditors whereby the company, by making a one-time full and final settlement of its liabilities to policyholders, is able to achieve financial certainty and finality. During the three months ended September 30, 2009, the entity in question settled its remaining U.K. net case reserves of \$1.5 million, net IBNR reserves of \$3.1 million and net reinsurance recoverables for the net receipt of \$0.8 million.

The table below provides a reconciliation of the beginning and ending reserves for losses and loss adjustment expenses for the three months ended September 30, 2009 and September 30, 2008. Losses incurred and paid are reflected net of reinsurance recoverables.

The increase in salaries and benefits was primarily attributable to:

- (i) An increase in the discretionary bonus expense for the three months ended September 30, 2009 of \$9.7 million.
- (ii) Increased staff costs due to an increase in average staff numbers from 250 for the three months ended September 30, 2008 to 287 as at September 30, 2009; partially offset by

- (iii) A reduction in the average British pound exchange rate to U.S. dollars for the three months ended September 30, 2008 and 2009 from approximately 1.895 to 1.641, respectively. Of our total headcount as at September 30, 2009 and September 30, 2008, approximately 67% and 64%, respectively, had their salaries paid in British pounds.

Expenses relating to our discretionary bonus plan will be variable and dependent on our overall profitability.

General and administrative expenses attributable to the reinsurance segment increased by \$1.0 million during the three months ended September 30, 2009, as compared to the three months ended September 30, 2008. For the three months ended September 30, 2009 as compared to the same period in 2008, we had increased professional fees due primarily to legal fees incurred in respect to issues around the ongoing lawsuit described in Part II Other Information Item 1. Legal Proceedings of this filing.

Interest expense of \$4.3 million and \$7.9 million was recorded for the three months ended September 30, 2009 and 2008, respectively. The decrease in interest expense was primarily attributable to the combination of:

- (i) A reduction in the principal balance on the outstanding loan relating to the acquisition of AMP Limited's Australian-based closed reinsurance and insurance operations, or Gordian.

- (ii) A reduction in the Australian LIBOR interest rate on the term facility agreement of our wholly-owned subsidiary, Cumberland Holdings Limited, which partially funded the Gordian acquisition, or the Cumberland Loan Facility, between September 30, 2008 and September 30, 2009.
- (iii) A reduction in the average Australian dollar exchange rate to U.S. dollars from approximately 0.89 for the three months ended September 30, 2008 to approximately 0.83 for the three months ended September 30, 2009, respectively; partially offset by
- (iv) Interest costs associated with the term facilities agreement in connection with the, Unionamerica Holdings Limited acquisition, or the Unionamerica Facilities Agreement, which we entered into in December 2008.

Reinsurance	7,253	(24,144)	31,397

We recorded a foreign exchange gain of \$7.2 million for the three months ended September 30, 2009, as compared to a foreign exchange loss of \$25.1 million for the same period in 2008. For the three months ended September 30, 2009, the foreign exchange gain arose primarily as a result of the matching of our non-U.S. dollar assets and liabilities at a time when the U.S. dollar has been depreciating against most major currencies along with realized foreign exchange gains earned on the maturity of non-U.S. dollar available-for-sale securities, partially offset by foreign exchange losses arising as a result of the holding of surplus U.S. dollar assets in one of our subsidiaries whose functional currency is Australian dollars at a time when the U.S. dollar has been depreciating against the U.S. dollar. Unrealized foreign exchange gains (losses) on our non-U.S. dollar available-for-sale securities held by us as at September 30, 2009 are recorded through accumulated other comprehensive income.

In addition to the foreign exchange losses recorded in our consolidated statement of earnings for the three-month period ended September 30, 2009, we recorded in our condensed consolidated statement of comprehensive income currency translation adjustment gains, net of noncontrolling interest, for the three months ended September 30, 2009 of \$20.7 million, as compared to losses of \$14.2 million for the same period in 2008. For the three months ended September 30, 2009, the currency translation adjustment gains arose primarily as a result of translation adjustment gains of \$21.2 million relating to Gordian, whose functional currency is Australian Dollars, partially offset by translation adjustment losses of \$0.5 million relating to our consulting subsidiaries whose functional currency is British pounds.

The table below provides a summary of foreign exchange related losses recorded in earnings and in accumulated other comprehensive income for the three months ended September 30, 2008:

Losses on currency translation adjustment	(31,905)
Total Gordian foreign exchange loss recorded through other accumulated other comprehensive income	\$ (12,898)
Combined decrease in shareholders' equity	\$ (18,868)

Combining the impact of foreign exchange losses recorded through earnings and through accumulated other comprehensive income resulted in a decrease in our total shareholders' equity of \$18.9 million in the three months ended September 30, 2008, which was attributable to: (1) net foreign exchange movements relating to broadly matched non-Australian dollar assets and liabilities amounting to \$1.4 million; (2) Gordian's surplus Australian dollar assets, which resulted in a \$15.6 million unrealized foreign exchange loss; and (3) other foreign currency losses of \$1.9 million.

a) Treatment of broadly matched non-Australian dollar assets and liabilities:

The functional currency of Gordian is the Australian dollar. As a result, Gordian may be exposed to foreign currency exchange risk relating to its non-Australian dollar net assets, primarily being U.S. dollars. We currently do not use foreign currency hedges to manage our foreign currency exchange risk. We manage our exposure to foreign currency exchange risk by broadly matching our non-Australian dollar denominated assets against our non-Australian dollar denominated liabilities. This matching process is carried out quarterly in arrears and therefore any mismatches occurring in the period may give rise to foreign exchange gains and losses.

For the quarter ended September 30, 2008, we had broadly matched Gordian's U.S. dollar assets with its U.S. dollar liabilities. As shown in the table below, the net foreign exchange impact on Gordian for the quarter ended September 30, 2008 was a \$1.4 million decrease to our total shareholders' equity:

	Three Months Ended September 30, 2008 (in thousands of U.S. dollars)
Losses arising on U.S. dollar denominated liabilities	\$ (20,387)
Gains arising on U.S. dollar denominated investments classified as available-for-sale	19,007

Combined decrease in shareholders' equity	\$	(1,380)
---	----	---------

The investments that we hold in our Australian subsidiary have been designated as available-for-sale. In accordance with the guidance, any unrealized gains or losses on available-for-sale investments (including foreign exchange gains and losses) are included as part of accumulated other comprehensive income within shareholders' equity.

As a result, the foreign exchange losses on U.S. denominated liabilities of \$20.4 million for the three months ended September 30, 2008 were recorded in earnings and the associated foreign exchange gains on U.S. dollar denominated investments classified as available-for-sale of \$19.0 million were recorded in accumulated other comprehensive income, a separate component of shareholders' equity.

Table of Contents*b) Gordian's surplus Australian dollar assets*

Australian regulations require that Gordian retain a level of surplus assets in Australian dollars. At September 30, 2008, the surplus assets of Gordian, net of the Cumberland Facility, amounted to approximately AU\$268.0 million, of which approximately AU\$159.5 million was held in U.S. dollars with the balance was held in Australian dollars.

We have concluded that under the guidance for foreign currency matters, the functional currency of Gordian is Australian dollars. As a result, we are required to: (1) record any Australian dollar gains or losses recognized by Gordian relating to its holding of surplus U.S. dollar assets through earnings; and (2) we are required to record any U.S. dollar gains or losses on the translation of the net Australian dollar assets of Gordian through accumulated other comprehensive income. The result of this treatment is as follows:

	Three Months Ended September 30, 2008 (in thousands of U.S. dollars)	
Gains arising on surplus U.S. dollar denominated short-term investments	\$	16,325
Losses on currency translation adjustment		(31,905)
Combined decrease in shareholders' equity	\$	(15,580)

The decrease to our total shareholders' equity of \$15.6 million for the three months ended September 30, 2008 was primarily attributable to the translation of surplus Australian dollar net assets of approximately AU\$108.5 million held by Gordian, which the Australian regulators require us to maintain in Australian dollars.

Surplus British Pounds

For the quarter ended September 30, 2008, we had a foreign exchange loss of approximately \$15.2 million, which was primarily the result of our holding surplus British pounds relating to cash collateral required to support British pound denominated letters of credit required by U.K. regulators at a time when the British pound exchange rate to the U.S. dollar decreased from approximately 1.993 as at June 30, 2008 to approximately 1.781 as at September 30, 2008. Since letters of credit are in excess of the British pound liabilities held by our subsidiaries, the subsidiary companies were unable to match the surplus assets against liabilities during the quarter, resulting in the foreign exchange loss.

-------	------------	-------------	----------

We recorded income tax expense of \$2.7 million and \$10.4 million for the three months ended September 30, 2009 and 2008, respectively. The decrease in income tax expense of \$7.8 million between 2008 and 2009 related primarily to decreased taxes incurred by Gordian of \$11.2 million, partially offset by increased taxes payable by our U.S. and U.K. operations on their earnings in the period. Gordian operates in a tax paying jurisdiction and pays taxes based on its Australian GAAP determined net earnings, which can differ materially from its reported U.S. GAAP net earnings.

We recorded net (earnings) loss attributable to noncontrolling interest of \$(10.5) million and \$5.6 million for the three months ended September 30, 2009 and 2008, respectively. The increase for the three months ended September 30, 2009 in noncontrolling interest was due primarily to an increase in the number of subsidiary companies for which there exists a noncontrolling interest and an increase and in earnings for those same companies.

Comparison of the Nine Months Ended September 30, 2009 and 2008

We reported consolidated net earnings (loss), before extraordinary item and net earnings attributable to noncontrolling interest, of approximately \$75.6 million for the nine months ended September 30, 2009 as compared to approximately \$(44.7) million for the same period in 2008. The increase in earnings of approximately \$120.3 million was primarily attributable to the following:

- (i) An increase in investment income (inclusive of realized gains (losses)) of \$34.0 million primarily as a result of the change in the writedowns in fair value of our private equity portfolio classified as other investments of \$49.1 million, partially offset by lower investment income reflecting the impact of lower global short-term and intermediate interest rates.
- (ii) A movement in foreign exchange from a loss of \$18.8 million for the nine months ended September 30, 2008 to a gain of \$7.2 million for the nine months ended September 30, 2009. This increase of \$26.0 million arose primarily as a result of holding surplus foreign currency assets at a time when the U.S. dollar had been declining against the majority of currencies.
- (iii) Reduced interest expense of \$5.0 million due primarily to lower interest rates on outstanding term loan facility agreements.
- (iv) An increased net reduction in loss and loss adjustment expense liabilities of \$58.3 million.
- (v) A reduction in income taxes of \$11.4 million due to lower tax liabilities recorded on the results of our taxable subsidiaries; partially offset by
- (vi) An increase in salary and general and administrative costs of \$9.5 million due primarily to increased salary costs related to our discretionary bonus plan as a result of increased net earnings in the period and to an increased number of employees.

Edgar Filing: Enstar Group LTD - Form 10-Q

We recorded noncontrolling interest in earnings of \$20.3 million and \$19.2 million for the nine months ended September 30, 2009 and 2008, respectively. Net (loss) earnings attributable to Enstar Group Limited increased from approximately \$(13.6) million for the nine months ended September 30, 2008 to approximately \$55.3 million for the nine months ended September 30, 2009.

We earned consulting fees of approximately \$11.6 million and \$17.0 million for the nine months ended September 30, 2009 and 2008, respectively. The decrease in consulting fees primarily related to decreased management and incentive fees earned from third-party agreements.

Internal management fees of \$24.3 million and \$24.2 million were paid in the nine months ended September 30, 2009 and 2008, respectively, by our reinsurance companies to our consulting companies.

Net investment income for the nine months ended September 30, 2009 increased by \$31.8 million to \$60.4 million, as compared to \$28.7 million for the same period in 2008. The increase was primarily attributable to the combination of the following items:

- (i) Movement in changes in fair value of our private equity investments classified as other investments from a writedown of \$47.0 million for the nine months ended September 30, 2008 to an appreciation of \$2.1 million for the nine months ended September 30, 2009; partially offset by
- (ii) Lower investment income from fixed maturities and cash and cash equivalents, reflecting the impact of lower global short-term and intermediate interest rates – the average U.S. Federal Funds Rate has decreased from an average of 2.45% for the nine months ended September 30, 2008 to an average of 0.25% for the nine months ended September 30, 2009.

The average return on our cash and fixed maturities investments for the nine months ended September 30, 2009 was 2.03%, as compared to the average return of 4.16% for the nine months ended September 30, 2008. The average Standard & Poor's credit rating of our fixed income investments at September 30, 2009 was AA.

Net realized gains (losses) for the nine months ended September 30, 2009 and 2008 were \$2.0 million and \$(0.3) million, respectively. The increase was due primarily to mark to market gains earned during 2009 on our equity portfolios.

Net Reduction in Loss and Loss Adjustment Expense Liabilities:

The following table shows the components of the movement in the net reduction in loss and loss adjustment expense liabilities for the nine months ended September 30, 2009 and 2008.

	Nine Months Ended September 30,	
	2009	2008
(in thousands of U.S. dollars)		
Net Losses Paid	\$ (130,577)	\$ (293,857)
Net Change in Case Reserves	133,742	65,911
Net Change in IBNR	89,137	255,778
Reduction in Estimates of Net Ultimate Losses	92,302	27,832
Reduction in Provisions for Bad Debts	9,714	
Reduction in Provisions of Unallocated Loss Adjustment Expense Liabilities	29,370	32,924
Amortization of Fair Value Adjustments	(44,756)	(32,489)
Net Reduction in Loss and Loss Adjustment Expense Liabilities	\$ 86,630	\$ 28,267

The net reduction in loss and loss adjustment expense liabilities for the nine months ended September 30, 2009 of \$86.6 million was attributable to a reduction in estimates of net ultimate losses of \$92.3 million, a reduction in aggregate provisions for bad debts of \$9.7 million and a reduction in provisions of unallocated loss adjustment expense liabilities of \$29.4 million, relating to 2009 run-off activity, partially offset by the amortization, over the estimated payout period, of fair value adjustments relating to companies acquired amounting to \$44.8 million.

The reduction in estimates of net ultimate losses of \$92.3 million primarily related to the following:

- (i) A reduction in estimates of loss reserves in one of our subsidiaries of \$25.2 million following the commutation of one of our largest ten assumed and ceded exposures at less than case and LAE reserves.
- (ii) A reduction in estimates of net ultimate losses of \$13.0 million in one of our subsidiaries as a result of net favorable incurred loss development for the six months ended June 30, 2009 of \$2.6 million and reductions in IBNR reserves of \$10.4 million. The net favorable incurred loss development of \$2.6 million, whereby net advised case and LAE reserves of \$6.6 million were settled for net paid losses of \$4.0 million, arose from the settlement of losses during the period below carried reserves.

Table of Contents

The net reduction in the estimate of the subsidiary's IBNR loss and loss adjustment expense liabilities of \$10.4 million was the result of the application of our reserving methodologies to the reduced case and LAE reserves following the subsidiary's semi-annual actuarial review of reserves, which are required by local regulation.

- (iii) A reduction in net ultimate losses of \$23.8 million in two of our insurance entities whereby previously advised net case and LAE reserves of \$18.6 million were settled without payment. The application of our reserving methodologies to the reduced case and LAE reserves resulted in a reduction in net IBNR reserves of \$5.2 million.
- (iv) During the three months ended September 30, 2009, we culminated historic case reserve reviews for eight of our insurance and reinsurance subsidiaries for which no updated advices had been received for a number of years. This review confirmed the redundancy of approximately 4,000 advised case reserves with an aggregate value of \$16.6 million.
- (v) A reduction in net ultimate losses of \$14.1 million in another of our insurance entities that completed, during September 2009, a Solvent Scheme of Arrangement relating to its U.K. liabilities. During the nine months ended September 30, 2009, the entity in question settled its remaining U.K. net case reserves of \$8.4 million, net IBNR reserves of \$10.4 million and net reinsurance recoverables for the net payment of \$4.7 million.

The reduction in estimates of net ultimate losses of \$27.8 million for the nine months ended September 30, 2008 was primarily attributable to the reduction in the three months ended June 30, 2008 of estimates of net ultimate losses of \$25.5 million related to one of our subsidiaries and comprised net favorable incurred loss development of \$12.1 million and related reductions in IBNR reserves of \$13.4 million. The net favorable incurred loss development of \$12.1 million, whereby net advised case and LAE reserves of \$21.2 million were settled for net paid losses of \$9.1 million, arose from the settlement of non-commuted losses during the period below carried reserves and approximately three commutations of assumed and ceded exposures at less than case and LAE reserves. The net reduction in the estimate of the subsidiary's IBNR loss and loss adjustment expense liabilities of \$13.4 million was a result of an independent actuarial review and the application of our reserving methodologies to the reduced case and LAE reserves. During the nine months ended September 30, 2008, another of our reinsurance subsidiaries commuted its largest exposure, which was fully reinsured by a single reinsurer with an AA- rating from Standard & Poor's. The subsidiary paid net claims of \$221.2 million and reduced net IBNR loss reserves by the same amount.

The table below provides a reconciliation of the beginning and ending reserves for losses and loss adjustment expenses for the nine months ended September 30, 2009 and September 30, 2008. Losses incurred and paid are reflected net of reinsurance recoverables.

Salaries and benefits, which include expenses relating to our discretionary bonus and employee share plans, were \$41.3 million and \$31.3 million for the three months ended September 30, 2009 and 2008, respectively.

The increase in salaries and benefits was primarily attributable to:

- (i) An increase in the discretionary bonus expense for the nine months ended September 30, 2009 of \$9.8 million.
- (ii) Increased staff costs due to an increase in average staff numbers from 245 for the nine months ended September 30, 2008 to 287 for the nine months ended September 30, 2009; partially offset by
- (iii) A reduction in the average British pound exchange rate from approximately 1.948 to 1.544 for the nine months ended September 30, 2008 and 2009, respectively. Of our total headcount as at September 30, 2009 and September 30, 2008, approximately 67% and 65% had their salaries paid in British pounds.

Expenses relating to our discretionary bonus plan will be variable and are dependent on our overall profitability.

General and administrative expenses attributable to the reinsurance segment decreased by \$1.4 million during the nine months ended September 30, 2009, as compared to the nine months ended September 30, 2008. For the nine months ended September 30, 2008, we incurred approximately \$5.1 million of bank loan structure fees in respect of acquisitions we completed during that period. For the nine months ended September 30, 2009 we did not incur any similar fees. In addition, expenses were lower as a result of a reduction in the British pound exchange rate, in which a

large portion of our costs are denominated. The reduced expenses were partially offset by increased costs associated with increased professional fees due in part to legal fees incurred in respect to issues around the ongoing lawsuit described in Part II Other Information Item 1. Legal Proceedings of this filing.

Table of Contents

Interest expense of \$13.9 million and \$18.9 million was recorded for the nine months ended September 30, 2009 and 2008, respectively. The decrease in interest expense was primarily attributable to the combination of:

- (i) A reduction in the principal balance on the Cumberland Loan Facility.
- (ii) A reduction in the Australian LIBOR interest rate on the Cumberland Loan Facility between September 30, 2008 and September 30, 2009.
- (iii) A reduction in the average Australian dollar exchange rate to U.S. dollars from approximately 0.91 for the nine months ended September 30, 2008 to approximately 0.754 for the nine months ended September 30, 2009; partially offset by
- (iv) Interest costs associated with the Unionamerica Facilities Agreement, which we entered into in December 2008.

Reinsurance	6,892	(18,249)	25,141
Total	\$ 7,177	\$ (18,787)	\$ 25,964

We recorded a foreign exchange gain of \$7.2 million for the nine months ended September 30, 2009, as compared to a foreign exchange loss of \$18.8 million for the same period in 2008. For the nine months ended September 30, 2009, the foreign exchange gain arose primarily as a result of holding surplus British pounds relating primarily to cash collateral requirements to support British pound denominated letters of credit required by U.K. regulators, partially offset by the combination of realized foreign exchange losses on currency translations and foreign exchange losses arising as a result of the holding of surplus U.S. dollar assets in one of our subsidiaries whose functional currency is Australian dollars at a time when the U.S. dollar has been depreciating against the Australian dollar.

We recorded a foreign exchange loss of \$18.8 million for the nine-month period ended September 30, 2008. For the nine months ended September 30, 2008, the primary reasons for the reduction in foreign exchange gains were predominantly the same as for the reduction for the three months ended September 30, 2008, as described above in *Comparison of Three Months Ended September 30, 2009 and 2008 Foreign Exchange Gain/(Loss)*.

In addition to the foreign exchange gains recorded in our consolidated statement of earnings for the nine months ended September 30, 2009, we recorded in our condensed consolidated statement of comprehensive income currency translation adjustment gains (losses), net of noncontrolling interest, of \$46.3 million as compared to \$(9.6) million for the same period in 2008. For the nine months ended September 30, 2009, the currency translation adjustment gains related primarily to Gordian. As the functional currency of Gordian is Australian dollars, we are required to record any U.S. dollar gains or losses on the translation of the net Australian dollar assets of Gordian through accumulated other comprehensive income.

We recorded income tax expense of \$2.0 million and \$13.4 million for the nine months ended September 30, 2009 and 2008, respectively. Income tax (expense)/recovery of \$(2.4) million and \$3.2 million were recorded in the consulting segment for the nine months ended September 30, 2009 and 2008, respectively. The variance between the two periods was primarily attributable to our recording of tax recoveries on net losses incurred by our U.S. operations for the nine months ended September 30, 2008 for which, in 2009, we are now recording a tax expense.

Income tax recovery/(expense) of \$0.4 million and \$(16.6) million were recorded in the reinsurance segment for the nine months ended September 30, 2009 and 2008, respectively. During the period ended September 30, 2009 and 2008, we booked a reduction in benefits relating to the expiration of various applicable statutes of limitations on certain previously recorded uncertain tax liabilities. The benefit recorded for the nine months ended September 30, 2009 and 2008 was \$1.5 million and \$3.3 million, respectively. These benefits were partially offset by net income tax expense related to those subsidiaries operating in taxable jurisdictions of \$1.1 million and \$19.9 million, respectively. The reduction in tax expense related primarily to Gordian whose tax expense for the nine months ended September 30, 2009 was \$1.4 million as compared to \$19.3 million for the same period in 2008. Gordian operates in a tax paying jurisdiction and pays taxes based on its Australian GAAP determined net earnings, which may differ materially from its reported U.S. GAAP net earnings.

Negative goodwill of \$nil million and \$50.3 million was recorded for the nine months ended September 30, 2009 and 2008, respectively. For the nine months ended September 30, 2008, the negative goodwill of \$50.3 million was earned in connection with our acquisition of Gordian and represents the excess of the cumulative fair value of net assets acquired of \$455.7 million over the cost of \$405.4 million. This excess was, in accordance with the guidance for business combinations, recognized as an extraordinary gain in 2008. The negative goodwill arose primarily as a result of the income earned by Gordian between the date of the balance sheet on which the agreed purchase price was based, September 30, 2007, and the date the acquisition closed, March 5, 2008.

The increase for the nine months ended September 30, 2009, excluding the noncontrolling interest in negative goodwill of \$15.1 million relating to the Gordian acquisition, related primarily to the increase in net earnings for the period for those entities who have noncontrolling interests.

Liquidity and Capital Resources

On August 25, 2009, our wholly-owned subsidiary, Cumberland Holdings Limited, or Cumberland, distributed AU\$106.8 million (approximately \$89.4 million) of which AU\$53.4 million (approximately \$44.7 million) went towards repayment of the outstanding principal of the Cumberland Loan Facility. The remaining balance of AU\$53.4 million (approximately \$44.7 million) was distributed to the voting and non-voting equity participants of Cumberland. As at September 30, 2009, the outstanding loan balance related to the Cumberland Loan Facility was AU\$95.2 million (approximately \$84.1 million).

Subsequent to September 30, 2009, on October 10, 2009, Cumberland distributed an additional AU\$43.0 million (approximately \$39.0 million) of which AU\$21.5 million (approximately \$19.5 million) went towards repayment of the outstanding principal of the Cumberland Loan Facility. The remaining balance of AU\$21.5 million (approximately \$19.5 million) was distributed to the voting and non-voting equity participants of Cumberland.

Other than these repayments, there have been no material changes to our liquidity position or capital resource requirements since December 31, 2008. For more information refer to Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources included in Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2008, filed with the SEC on March 5, 2009.

On December 30, 2008, in connection with the Unionamerica Holdings Limited acquisition, Royston Run-off Limited, or Royston, borrowed the full amount of \$184.6 million available under a term facilities agreement, or the Unionamerica Facilities Agreement, with National Australia Bank Limited, or NABL. Of that amount, Royston borrowed \$152.6 million under Facility A and \$32.0 million under Facility B. The loans are secured by a lien covering all of the assets of Royston. We provided a guarantee of all of Royston's obligations under the facilities agreement. The Facility A portion is repayable within three years from October 3, 2008, the date of the Unionamerica Facilities Agreement. The Facility B portion is repayable within four years from the date of the Unionamerica Facilities Agreement. The Flowers Fund has a 30% non-voting equity interest in Royston Holdings Ltd., the direct parent company of Royston.

On August 4, 2009, Royston entered into an amendment and restatement of the Unionamerica Facilities Agreement pursuant to which: (1) NABL's participation in the original \$184.6 million facility was reduced from 100% to 50%, with Barclays Bank PLC providing the remaining 50%; (2) the guarantee provided by us of all of the obligations of Royston under the Unionamerica Facilities Agreement was terminated; and (3) the interest rate on the Facility A portion was reduced from LIBOR plus 3.50% to LIBOR plus 2.75% and the interest rate on the Facility B portion was reduced from LIBOR plus 4.00% to LIBOR plus 3.25%.

With respect to the nine-month periods ended September 30, 2009 and 2008, net cash provided by our operating activities was \$24.3 million and \$276.4 million, respectively. The decrease in cash flows was primarily attributable to:

- (i) A decrease of \$195.4 million in net movement of trading securities for the nine months ended September 30, 2009.
- (ii) A decrease in the net assets assumed on retroactive reinsurance contracts during the nine months ended September 30, 2009. During the nine months ended September 30, 2009 and September 30, 2008, we entered into one and four RITC transactions with Lloyd's syndicates, respectively. As a result of entering into these RITC agreements for the nine months ended September 30, 2009 and September 30, 2008, net liabilities of \$8.3 million and \$353.0 million, respectively, were included as part of operating activities.

- (iii) A movement in share of net (gain) loss from other investments from a loss of \$48.4 million to a gain of \$2.3 million.

This decrease was partially offset by an increase for the nine months ended September 30, 2009 in net earnings, before extraordinary gain, of \$120.3 million. Due to the nature of our operating activities managing insurance and reinsurance companies in run-off it is not unexpected to have significant swings in net cash provided by our operating activities.

Table of Contents

Net cash (used in) provided by investing activities for the nine-month periods ended September 30, 2009 and 2008 was \$(522.5) million and \$133.0 million, respectively. The decrease in the cash flows was primarily due to an increase in net purchases of held-to-maturity securities and a reduction in net cash acquired on acquisitions, which was partially offset by an increase in cash provided by the sales and maturities of available-for-sale securities. During the nine months ended September 30, 2009, we reduced our cash position through the purchase of short-term investments and fixed maturities classified as held-to-maturity. This reallocation out of cash and into held-to-maturity investments was intended to enhance the yield on our cash and investment balances held.

Net cash (used in) provided by financing activities for the nine month periods ended September 30, 2009 and 2008 was \$(128.2) million and \$472.2 million, respectively. The decrease in cash flows (for the nine months ended September 30, 2009 as compared to the nine months ended September 30, 2008 was primarily attributable to a decrease in bank borrowings, a decrease in proceeds from issuance of ordinary shares and a decrease in net capital contributed by noncontrolling interest shareholders relating to acquisitions completed.

There have been no other material changes in our commitments or contingencies since December 31, 2008. Refer to Item 7 included in our Annual Report on Form 10-K for the year ended December 31, 2008.

Cautionary Statement Regarding Forward-Looking Statements

This quarterly report contains statements that constitute forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act, with respect to our financial condition, results of operations, business strategies, operating efficiencies, competitive positions, growth opportunities, plans and objectives of our management, as well as the markets for our ordinary shares and the insurance and reinsurance sectors in general. Statements that include words such as estimate, project, plan, intend, expect, anticipate, believe, would, should, could, seek, and similar statements of a future or forward-looking nature identify forward-looking statements for purposes of the federal securities laws or otherwise. All forward-looking statements are necessarily estimates or expectations, and not statements of historical fact, reflecting the best judgment of our management and involve a number of risks and uncertainties that could cause actual results to differ materially from those suggested by the forward-looking statements. These forward-looking statements should, therefore, be considered in light of various important factors, including those set forth in and incorporated by reference in this quarterly report.

Factors that could cause actual results to differ materially from those suggested by the forward-looking statements include:

risks associated with implementing our business strategies and initiatives;

the adequacy of our loss reserves and the need to adjust such reserves as claims develop over time;

risks relating to the availability and collectability of our reinsurance;

changes in economic conditions, including interest rates, inflation, currency exchange rates, equity markets and credit conditions including current market conditions and the instability in the global credit markets, which could affect our investment portfolio, our ability to finance future acquisitions and our profitability;

losses due to foreign currency exchange rate fluctuations;

tax, regulatory or legal restrictions or limitations applicable to us or the insurance and reinsurance business generally;

increased competitive pressures, including the consolidation and increased globalization of reinsurance providers;

emerging claim and coverage issues;

lengthy and unpredictable litigation affecting assessment of losses and/or coverage issues;

loss of key personnel;

changes in our plans, strategies, objectives, expectations or intentions, which may happen at any time at management's discretion;

operational risks, including system or human failures;

risks that we may require additional capital in the future which may not be available or may be available only on unfavorable terms;

the risk that ongoing or future industry regulatory developments will disrupt our business, or mandate changes in industry practices in ways that increase our costs, decrease our revenues or require us to alter aspects of the way we do business;

changes in Bermuda law or regulation or the political stability of Bermuda;

changes in tax laws or regulations applicable to us or our subsidiaries, or the risk that we or one of our non-U.S. subsidiaries become subject to significant, or significantly increased, income taxes in the United States or elsewhere; and

changes in accounting policies or practices.

Table of Contents

The factors listed above should be not construed as exhaustive and should be read in conjunction with the other cautionary statements and Risk Factors that are included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008, filed with the SEC on March 5, 2009, as well as in the materials filed and to be filed with the SEC. We undertake no obligation to publicly update or review any forward looking statement, whether as a result of new information, future developments or otherwise.

Item 3. QUANTITATIVE AND QUALITATIVE INFORMATION ABOUT MARKET RISK

There have been no material changes in our market risk exposures since December 31, 2008. For more information refer to Quantitative and Qualitative Disclosures about Market Risk included in Item 7A of our Annual Report on Form 10-K for the year ended December 31, 2008 filed with the SEC on March 5, 2009.

Item 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management performed an evaluation, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of September 30, 2009. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective to ensure that information that we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC and is accumulated and communicated to management, including our principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Controls

Our management has performed an evaluation, with the participation of our Chief Executive Officer and our Chief Financial Officer, of changes in our internal control over financial reporting that occurred during the three months ended September 30, 2009. Based upon that evaluation there were no changes in our internal control over financial reporting that occurred during the three months ended September 30, 2009 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION****Item 1. LEGAL PROCEEDINGS**

We are, from time to time, involved in various legal proceedings in the ordinary course of business, including litigation regarding claims. We do not believe that the resolution of any currently pending legal proceedings, either individually or taken as a whole, will have a material adverse effect on our business, results of operations or financial condition. Nevertheless, we cannot assure you that lawsuits, arbitrations or other litigation will not have a material adverse effect on our business, financial condition or results of operations. We anticipate that, similar to the rest of the insurance and reinsurance industry, we will continue to be subject to litigation and arbitration proceedings in the ordinary course of business, including litigation generally related to the scope of coverage with respect to asbestos and environmental claims. There can be no assurance that any such future litigation will not have a material adverse effect on our business, financial condition or results of operations.

In April 2008, we, Enstar US, Inc., or Enstar US, Dukes Place Limited and certain affiliates of Dukes Place, or, collectively, Dukes Place, were named as defendants in a lawsuit filed in the United States District Court for the Southern District of New York by National Indemnity Company, or NICO, an indirect subsidiary of Berkshire Hathaway. The complaint alleges, among other things, that Dukes Place, we and Enstar US: (i) interfered with the rights of NICO as reinsurer under reinsurance agreements entered into between NICO and each of Stonewall and Seaton, two Rhode Island domiciled insurers that are indirect subsidiaries of Dukes Place, and (ii) breached certain duties owed to NICO under management agreements between Enstar US and each of Stonewall and Seaton. The suit was filed shortly after Virginia Holdings Ltd., our indirect subsidiary, or Virginia, completed a hearing before the Rhode Island Department of Business Regulation as part of Virginia's application to buy a 44.4% interest in the insurers from Dukes Place. Virginia completed that acquisition on June 13, 2008. The suit does not seek a stated amount of damages. On July 23, 2008, we and Enstar US filed a motion to dismiss Count I (relating to breach of fiduciary duty), Count III (relating to breach of contract) and Count V (relating to inducing breach of contract), in each case for failure to state a claim upon which relief can be granted. Subsequently, the parties entered into a Stipulation and Order filed with the Court on October 7, 2008, by which (i) NICO agreed to dismiss Count V of its Complaint with prejudice, (ii) the defendants agreed to withdraw their motion to dismiss Counts I and III without prejudice, reserving all of their rights and defenses to challenge these claims on the merits, and (iii) NICO agreed to extend the defendants' time to file an answer and counterclaim. On November 5, 2008, we, Enstar US and Dukes Place filed an answer to NICO's complaint and Dukes Place asserted certain counterclaims against NICO. On January 12, 2009, NICO filed a motion to dismiss certain of the counterclaims, along with a motion for summary judgment addressed to the counterclaims. We, Enstar US and Dukes Place filed papers in opposition to NICO's motion on February 23, 2009, and NICO filed reply briefs in support of its motion on March 23, 2009. In a letter dated July 1, 2009, the parties requested a stay of the proceedings, which was granted by the Court by Order dated August 26, 2009. We, Enstar US and Dukes Place are currently in discussions with NICO regarding a potential settlement of all claims and counterclaims. Our management believes the suit will not have a material impact on us or our subsidiaries.

Item 1A. RISK FACTORS
