Item 2.05. Costs Associated with Exit or Disposal Activities.

On January 14, 2010, Cadence Design Systems, Inc. (Cadence) commenced a restructuring plan. Upon completion of the restructuring plan, Cadence expects to achieve annual operating expense savings of approximately \$19 million, through a combination of workforce and other expense reductions.

Cadence expects to eliminate approximately 120 full-time positions. Cadence expects to record a restructuring charge of approximately \$11 million to \$15 million pre-tax, approximately \$10 million to \$12 million of which will be recorded in the fourth quarter of 2009. Substantially all of the restructuring charge is for employee-related costs and costs related to facilities reduction that will result in future cash expenditures. Because of varying regulations in the jurisdictions and countries in which Cadence operates, these workforce reductions will be realized over a period of time and are expected to be completed by the end of fiscal 2010.

Cadence expects that substantially all of the estimated restructuring plan-related annual operating expense savings will be offset by increased costs in connection with developing and enhancing its product technologies.

The statements above include forward-looking statements based upon current expectations or beliefs, as well as a number of preliminary assumptions about future events that are subject to factors and uncertainties that could cause actual results to differ materially from those described in these forward-looking statements. As such, readers are cautioned not to put undue reliance on these forward-looking statements, which are subject to a number of risks, uncertainties and other factors, including, among others, those that we have identified in our most recent Annual Report on Form 10-K for the year ended January 3, 2009 and Quarterly Report on Form 10-Q for the period ended October 3, 2009.

SIGNATURES
