  - Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

**Item 8.01. Other Events.**

NCI Building System, Inc. (the Company) is filing this Current Report on Form 8-K (this Report) to reflect certain required accounting adjustments described below with respect to the financial information contained in the Company's Annual Report on Form 10-K for the fiscal year ended November 1, 2009 (the 2009 Form 10-K) filed on December 23, 2009. Neither this Report nor the Exhibits hereto reflect any events occurring after December 22, 2009, or modify or update the disclosures in the 2009 Form 10-K that may have been affected by subsequent events, except as disclosed in Note 27 to our consolidated financial statements. Accordingly, this Report should be read in conjunction with the 2009 Form 10-K and the Company's filings made with the Securities and Exchange Commission subsequent to the filing of the 2009 Form 10-K (including the first quarter of fiscal 2010 Form 10-Q), and any amendments to those filings.

As previously disclosed in the 2009 Form 10-K, in May 2008 the Financial Accounting Standards Board issued guidance that has been codified under ASC Topic 470-20, *Debt with Conversion and Other Options* (ASC 470-20), which clarifies the accounting for convertible debt instruments that may be settled in cash (including partial cash settlement) upon conversion. ASC 470-20 requires issuers to account separately for the liability and equity components of instruments in a manner that reflects the issuer's economic interest cost. ASC 470-20 requires bifurcation of a component of the debt, classification of that component in equity and the accretion of the resulting discount on the debt to be recognized as part of interest expense in the issuer's consolidated statement of operations. ASC 470-20 is effective for the Company as of November 2, 2009 and early adoption was not permitted. However, once adopted, ASC 470-20 requires retrospective application to the terms of instruments as they existed for all periods presented. The adoption of ASC 470-20 affects the accounting for the Company's 2.125% Convertible Notes issued in 2004 and due in 2024. The retrospective application of this guidance affects fiscal years 2005 through 2009. In October 2009, the Company completed an exchange offer to acquire \$180 million aggregate principal amount of the Convertible Notes. On December 29, 2009, we redeemed the remaining \$58,750 principal amount of the Convertible Notes outstanding after the closing of the exchange offer. Therefore, the Company will not have additional prospective interest expense after December 29, 2009.

Additionally, in June 2008, the FASB issued guidance that has been codified under ASC Subtopic 260-10, *Earnings per Share* (ASC 260-10). This pronouncement provides that unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents are participating securities and, therefore, should be included in computing earnings per share using the two-class method. All prior period earnings per share data have been adjusted retrospectively to conform with the provisions of this pronouncement.

On March 5, 2010, the Company filed an amendment to its Certificate of Incorporation to effect a reverse stock split of its common stock (the Reverse Stock Split) at an exchange ratio of 1-for-5. As such, we have retrospectively adjusted basic and diluted earnings per share, common stock, stock options, common stock equivalents and prices per share information for the reverse stock split in all periods presented.

The Company has adjusted in Exhibits 99.1 to this Report certain financial information contained in the 2009 Form 10-K to reflect the Company's retrospective application of ASC 470-20 and ASC 260-10.
