To the shareholders of Alkermes, Inc.:

You are cordially invited to attend a special meeting of the shareholders of Alkermes, Inc., which is referred to as Alkermes, to be held on September 8, 2011 at 10 a.m. Eastern Daylight Time, at our principal executive offices, located at 852 Winter Street, Waltham, Massachusetts. Only shareholders who held shares of Alkermes common stock at the close of business on August 1, 2011 will be entitled to vote at the special meeting and at any adjournments and postponements thereof.

As previously announced, on May 9, 2011 Alkermes entered into a Business Combination Agreement and Plan of Merger, which is referred to as the merger agreement, with Elan Corporation, plc, which is referred to as Elan, Antler Science Two Limited (which has been re-registered as a public limited company, Antler Science Two plc), which is referred to as New Alkermes, and certain other parties, under which the business of Alkermes will be combined with the global drug delivery technologies business of Elan, which is referred to as EDT, in a cash and stock transaction that was valued at approximately \$960 million at the time of announcement. The businesses will be combined under New Alkermes, a new holding company incorporated in Ireland that will be renamed Alkermes plc, at or prior to the completion of the business combination. To facilitate the business combination, EDT is being carved-out of Elan and will be held under New Alkermes. Following this reorganization and pursuant to the merger agreement, a wholly-owned indirect subsidiary of New Alkermes will merge with and into Alkermes, with Alkermes surviving as a wholly-owned indirect subsidiary of New Alkermes. A complete copy of the merger agreement is attached as Annex A to this proxy statement/prospectus.

As consideration for the business combination, Alkermes will pay Elan \$500 million in cash, subject to certain adjustments, and a subsidiary of Elan that is organized in Ireland will receive and retain 31,900,000 New Alkermes ordinary shares, representing approximately 25% of the outstanding voting securities of New Alkermes immediately following the consummation of the merger. At the effective time, (i) each share of Alkermes common stock then issued and outstanding and all associated rights will be canceled and automatically converted into and become the right to receive one ordinary share of New Alkermes; (ii) all currently issued and outstanding options to purchase Alkermes common stock granted under any stock option plan will be converted into options to purchase, on substantially the same terms and conditions, the same number of New Alkermes ordinary shares at the same exercise price; and (iii) all currently issued and outstanding awards of Alkermes common stock will be converted into awards of the same number of New Alkermes ordinary shares on substantially the same terms and conditions. As a result, upon consummation of the merger and the issuance of the New Alkermes ordinary shares in exchange for the canceled shares of Alkermes common stock, the former shareholders of Alkermes will own approximately 75% of the outstanding voting securities of New Alkermes. The exchange of Alkermes shares for New Alkermes ordinary shares will be a taxable transaction for Alkermes shareholders. The New Alkermes ordinary shares are expected to be listed on the NASDAQ under the symbol ALKS.

Alkermes is holding a special meeting of its shareholders in order to obtain the shareholder approval necessary to consummate the business combination and the merger. At the special meeting, holders of Alkermes common stock who are entitled to vote will be asked to adopt the merger agreement and thereby approve the transactions contemplated by the merger agreement, including the business combination. The completion of the business combination is subject to the satisfaction or waiver of certain other conditions set forth in the merger agreement and described in the accompanying proxy statement/prospectus. You are also being asked to approve a proposal to create distributable reserves for New Alkermes, which are required under Irish law in order for New Alkermes to make distributions and pay dividends and to repurchase or redeem shares in the future. Approval of this proposal is not a condition to the completion of the business combination. More information about Alkermes, Elan, New Alkermes, EDT and the proposed business combination and merger is contained in this proxy statement/prospectus. **The board**

urges all Alkermes shareholders to read this proxy statement/prospectus and the documents included with this proxy statement/prospectus, including the Annexes, or incorporated by reference in this proxy statement/prospectus carefully and in their entirety. In particular, the board urges you to read carefully *Risk Factors* beginning on page 14 of this proxy statement/prospectus.

After careful consideration, the Alkermes board of directors has approved and declared advisable the merger agreement and the business combination, and has determined that the merger agreement and the business combination are fair to and in the best interests of Alkermes and its shareholders. **The board of directors of Alkermes recommends that you vote FOR the adoption of the merger agreement and FOR the other proposals described in this proxy statement/prospectus. Your vote is very important.** The affirmative vote of a majority of the votes cast by the holders of shares of Alkermes common stock outstanding and entitled to vote is required for the adoption of the merger agreement. Approval of the separate proposal to create distributable reserves also requires the affirmative vote of a majority of the votes cast by the holders of shares of Alkermes common stock outstanding and entitled to vote; however, whether or not this proposal is approved will have no impact on the completion of the business combination. Abstentions, failures to vote and broker non-votes will have no effect on these proposals. Whether or not you plan to attend the special meeting, please vote as soon as possible by following the instructions in this proxy statement/prospectus to make sure that your shares are represented.

On behalf of the Alkermes board of directors, thank you for your consideration and continued support.

Very truly yours,

Richard F. Pops
Chairman, President and CEO
Alkermes, Inc.

**NOTICE OF SPECIAL MEETING OF SHAREHOLDERS
TO BE HELD SEPTEMBER 8, 2011**

To the shareholders of Alkermes, Inc.:

A special meeting of the shareholders of Alkermes, Inc., a Pennsylvania corporation, will be held on September 8, 2011 at 10 a.m. Eastern Daylight Time, at our principal executive offices, located at 852 Winter Street, Waltham, Massachusetts for the following purposes:

1. To consider and vote upon a proposal to adopt the Business Combination Agreement and Plan of Merger, dated as of May 9, 2011, by and among Alkermes, Elan, New Alkermes and certain other parties;
2. To consider and vote upon a proposal to approve the creation of distributable reserves of New Alkermes which are required under Irish law in order to allow New Alkermes to make distributions and to pay dividends and repurchase or redeem shares following completion of the business combination; and
3. To vote upon a proposal to adjourn the special meeting of Alkermes shareholders if necessary or appropriate, including for the purpose of permitting further solicitation of proxies if there are not sufficient votes at the time of the Alkermes special meeting to adopt the merger agreement.

The above matters are more fully described in this proxy statement/prospectus, which also includes, as Annex A, the complete text of the merger agreement. Only shareholders of record at the close of business on August 1, 2011 are entitled to vote at the special meeting and at any adjournments and postponements thereof. Our stock transfer books will remain open between the record date and the date of the special meeting. A list of shareholders entitled to vote at the special meeting will be available for inspection at the special meeting. **We urge you to read carefully this proxy statement/prospectus in its entirety including the Annexes and the documents incorporated by reference in this proxy statement/prospectus. In particular, we urge you to read carefully *Risk Factors* beginning on page 14 of this proxy statement/prospectus.**

Your proxy is being solicited by the board of directors of Alkermes. After careful consideration, we have approved and declared advisable the merger agreement and the business combination, and have determined that the merger agreement and the transactions contemplated by the merger agreement, including the business combination, are fair to and in the best interests of Alkermes and its shareholders.

We recommend that you vote FOR the adoption of the merger agreement, FOR the distributable reserves proposal and FOR the adjournment proposal. Your vote is very important.

The affirmative vote of a majority of the votes cast by the holders of shares of Alkermes common stock outstanding and entitled to vote is required for the adoption of the merger agreement. Approval of the separate proposal to create distributable reserves also requires the affirmative vote of a majority of the votes cast by the holders of shares of Alkermes common stock outstanding and entitled to vote. The distributable reserves proposal is not a condition to the completion of the business combination and whether or not it is approved will have no impact on the completion of the business combination. **Whether or not you attend the special meeting in person, to ensure your**

representation at the special meeting, please submit your proxy as described in this proxy statement/prospectus.

You may submit your proxy (1) over the Internet, (2) by telephone or (3) by signing, dating and returning the enclosed proxy card promptly in the accompanying envelope. Should you receive more than one proxy because your shares are registered in different names and addresses, each proxy should be submitted to ensure that all your shares will be voted. If you submit your proxy and then decide to attend the special meeting to vote your shares in person, you may still do so. Your proxy is revocable in accordance with the procedures set forth in this proxy statement/prospectus. If you hold your shares in the name of a bank, broker or other nominee, you should follow the instructions provided by your bank, broker or other nominee when instructing them on how to vote your shares or when changing those instructions. **If you do not instruct your bank, broker or other nominee, your bank, broker or other nominee will not have the discretion to vote your shares without your instructions.**

The prompt return of your proxy card, or your prompt voting by telephone or over the Internet, will assist us in preparing for the special meeting.

By Order of the Board of Directors,

Richard F. Pops

QUESTIONS AND ANSWERS ABOUT THE PROPOSED TRANSACTIONS

The following are answers to some of the questions you may have as an Alkermes shareholder. These questions and answers only highlight some of the information contained in this proxy statement/prospectus. They may not contain all the information that is important to you. You should read carefully this entire proxy statement/prospectus, including the Annexes and the documents incorporated by reference into this proxy statement/prospectus, to understand fully the proposed transactions and the voting procedures for the special meeting of Alkermes shareholders. All references in this proxy statement/prospectus to Alkermes refer to Alkermes, Inc., a Pennsylvania corporation; all references in this proxy statement/prospectus to Elan refer to Elan Corporation, plc, a public limited company incorporated in Ireland; all references in this proxy statement/prospectus to New Alkermes refer to Antler Science Two plc, a public limited company incorporated in Ireland that was converted from a private limited company formerly known as Antler Science Two Limited and which will be renamed Alkermes plc at or prior to the completion of the business combination as described in this proxy statement/prospectus; all references in this proxy statement/prospectus to EDT refer to the global drug delivery technologies business of Elan; all references to the merger agreement refer to the Business Combination Agreement and Plan of Merger, dated as of May 9, 2011, by and among Elan, New Alkermes, Elan Science Four Limited, EDT Pharma Holdings Limited, EDT US Holdco Inc., Antler Acquisition Corp. and Alkermes, a copy of which is included as Annex A to this proxy statement/prospectus; and all references to the business combination refer to the totality of transactions contemplated by the merger agreement, including the reorganization and the merger described in this proxy statement/prospectus. Unless otherwise indicated, all references to dollars or \$ in this proxy statement/prospectus are references to U.S. dollars.

Q: Why am I receiving this proxy statement/prospectus?

A: Alkermes has entered into the merger agreement that is described in this proxy statement/prospectus providing for the business combination described in this document. The merger, which is one of the essential elements of the business combination, may only be completed if Alkermes shareholders adopt the merger agreement and thereby approve the business combination.

This document and the enclosed materials describe the business combination and provide information as to how to grant a proxy or vote your shares by mail, telephone or over the Internet.

Your vote is very important.

Alkermes encourages you to submit your proxy or vote your shares by mail, telephone or Internet as soon as possible.

Q: What are the proposals on which I am being asked to vote?

A: You are being asked to vote to adopt the merger agreement and thereby approve the business combination. In addition, you are being asked to approve the distributable reserves proposal to facilitate the creation of distributable reserves through a reduction of New Alkermes share premium account. You are also being asked to vote to approve a proposal to adjourn the special meeting if necessary or appropriate, including if more time is needed to solicit proxies.

Q: What is the business combination?

A:

Pursuant to the merger agreement, EDT is being carved-out of Elan and reorganized under New Alkermes. This transaction is sometimes referred to in this proxy statement/prospectus as the reorganization. Following the reorganization, Antler Acquisition Corp., which is referred to in this proxy statement/prospectus as Merger Sub, will merge with and into Alkermes, with Alkermes surviving as a wholly-owned indirect subsidiary of New Alkermes. This transaction is sometimes referred to in this proxy statement/prospectus as the merger. Additionally, Alkermes will, subject to certain conditions, transfer all of its rights with respect to certain intellectual property and related contractual rights to an Irish subsidiary of New Alkermes. This transaction is sometimes referred to in this proxy statement/prospectus as the IP Transfer. Taken together, these transactions constitute the business combination.

Table of Contents

Q: What are the reasons for the business combination?

A: Alkermes believes that the business combination will create a larger, faster-growing biopharmaceutical company that is immediately and sustainably profitable on a cash earnings basis with a diversified portfolio of commercial products, including five key products with long patent lives, and with expertise in developing treatments for central nervous system diseases. New Alkermes will have deep scientific, development and manufacturing capabilities, which will provide competitive advantages in the creation of innovative biopharmaceutical products for itself and its partners.

Q: Why am I being asked to approve the distributable reserves proposal?

A: Under Irish law, dividends may only be paid (and share repurchases must generally be funded) out of distributable reserves, which New Alkermes will not have immediately following the completion of the merger. Please see *Creation of Distributable Reserves of New Alkermes*. Common shareholders of Alkermes are also being asked at the special meeting to approve the creation of distributable reserves of New Alkermes (through the reduction of the share premium account of New Alkermes), in order to permit New Alkermes to be able to pay dividends (and repurchase or redeem shares) after the merger (though it is not currently intended that Alkermes will pay dividends or repurchase or redeem shares immediately after the merger). The approval of the distributable reserves proposal is not a condition to the consummation of the merger. Accordingly, if common shareholders of Alkermes approve the merger but do not approve the distributable reserves proposal, and the merger is consummated, New Alkermes may not have sufficient distributable reserves to pay dividends (or to repurchase or redeem shares) following the merger. In addition, the creation of distributable reserves requires the approval of the Irish High Court. Although New Alkermes is not aware of any reason why the Irish High Court would not approve the creation of distributable reserves, the issuance of the required order is a matter for the discretion of the Irish High Court and there is no guarantee that such approval will be obtained. Please see *Risk Factors* and *Creation of Distributable Reserves of New Alkermes*.

Q: What is the position of the Alkermes board of directors regarding the proposals being put to a vote at the Alkermes special meeting?

A: The Alkermes board of directors approved the merger agreement and business combination, and determined that the merger agreement and the business combination are fair to and in the best interests of Alkermes and its shareholders. The Alkermes board of directors recommends that Alkermes shareholders vote **FOR** the proposal to adopt the merger agreement, **FOR** the proposal to create distributable reserves of New Alkermes, and **FOR** the proposal to adjourn the special meeting if necessary or appropriate, including to permit further solicitation of proxies.

Q: What will the Alkermes shareholders receive as consideration in the merger?

A: If the proposed transactions are consummated, each share of Alkermes common stock issued and outstanding immediately prior to the merger will be canceled and automatically converted into one New Alkermes ordinary share. The one-for-one conversion ratio is fixed, and, as a result, the number of New Alkermes ordinary shares received by the Alkermes shareholders in the merger will not fluctuate up or down based on the market price of a share of Alkermes common stock prior to the merger. It is expected that the New Alkermes ordinary shares will be registered with the Securities and Exchange Commission and listed on NASDAQ. Following the merger, Alkermes common stock will be delisted from NASDAQ.

Q:

What percentage of the ordinary shares of New Alkermes will the Alkermes shareholders own following the proposed transactions?

- A: The New Alkermes ordinary shares that will be received by the former Alkermes shareholders in the merger will represent approximately 75% of the New Alkermes ordinary shares outstanding immediately after the merger.

Table of Contents

Q: What percentage of New Alkermes ordinary shares will be owned by Elan following the proposed transactions?

A: Immediately prior to the merger, Elan Science Three Limited, a subsidiary of Elan, which is sometimes referred to in this proxy statement/prospectus as the Elan Shareholder, will beneficially hold all of the then issued share capital of New Alkermes (consisting of 31,900,007 New Alkermes ordinary shares and 40,000 shares of 1.00 each, referred to in this proxy statement/prospectus as the Euro Share Capital), subject to the terms of a shareholder's agreement to be entered into upon completion of the merger among Elan, the Elan Shareholder and New Alkermes, which is referred to in this proxy statement/prospectus as the shareholder's agreement. Immediately following the merger, Elan will indirectly hold approximately 25% of New Alkermes ordinary shares.

Q: Is Elan receiving any other consideration in connection with the proposed transactions?

A: In addition to the New Alkermes ordinary shares, Alkermes will pay Elan \$500 million in cash, subject to certain adjustments, as additional consideration for its contribution of EDT to New Alkermes.

Q: How are Alkermes stock options and equity awards treated in the merger?

A: At the time the merger takes effect, all currently issued and outstanding options to purchase Alkermes common stock granted under any stock option plan will be converted into options to purchase, on substantially the same terms and conditions, the same number of New Alkermes ordinary shares at the same exercise price. In addition, all currently issued and outstanding awards of Alkermes common stock will be converted into awards, on substantially the same terms and conditions, of the same number of New Alkermes ordinary shares.

Q: Will appraisal rights be available for dissenting shareholders?

A: No. Holders of Alkermes common stock do not have appraisal or dissenters' rights with respect to the merger or the other transactions described in this proxy statement/prospectus.

Q: What is the IP Transfer transaction?

A: Alkermes will, subject to certain conditions, transfer all of its rights with respect to the intellectual property and related contractual rights related specifically to *Bydureon*[™] (exenatide for extended-release injectable suspension) to an Irish subsidiary of New Alkermes in exchange for \$202.1 million in the form of an interest-bearing note. *Bydureon* is a trademark of Amylin Pharmaceuticals, Inc.

Q: When is the business combination expected to be completed?

A: As of the date of this proxy statement/prospectus, the business combination is expected to be completed in the third quarter of 2011. However, no assurance can be provided as to when or if the business combination will occur. The required vote of Alkermes shareholders to adopt the merger agreement at the special meeting, as well as the necessary regulatory consents and approvals, must first be obtained and certain other conditions specified in the merger agreement must be satisfied or, to the extent permissible, waived.

Q: What are the material U.S. federal income tax consequences of the merger to U.S. holders of Alkermes common stock?

- A: While not entirely free from doubt, New Alkermes believes that the receipt of the New Alkermes ordinary shares for shares of Alkermes common stock by U.S. holders (as defined below) pursuant to the merger should be a taxable transaction for U.S. federal income tax purposes. In general, under such treatment, a U.S. holder will recognize capital gain or loss equal to the difference between the holder's adjusted tax basis in the shares of the Alkermes common stock surrendered in the exchange, and the fair market value of the New Alkermes ordinary shares received as consideration in the merger. A U.S. holder's adjusted basis in the shares of Alkermes common stock generally should equal such holder's purchase price for such shares of Alkermes common stock, as adjusted to take into account stock dividends, stock splits or similar transactions. It is possible that the U.S. Internal Revenue Service, which is referred to in this proxy statement/prospectus as the IRS, could assert an alternative characterization of the merger that would

prevent a U.S. holder from recognizing a taxable loss on the exchange of Alkermes common stock for New Alkermes ordinary shares pursuant to the merger. However, a U.S. holder would be required to recognize any taxable gain on the exchange in all circumstances. Alkermes recommends that U.S. holders consult their own tax advisers as to the particular tax consequences of the merger, including the effect of U.S. federal, state and local tax laws or foreign tax laws. See *Certain Tax Consequences of the Merger* for a more detailed description of the U.S. federal income tax consequences of the merger.

Q: What will be the relationship between Alkermes and New Alkermes after the proposed transactions?

A: After the proposed transactions, Alkermes will be an indirect wholly-owned subsidiary of New Alkermes and its financial statements will be included in New Alkermes consolidated financial statements. It is expected that the New Alkermes ordinary shares will be listed and traded on NASDAQ under the symbol **ALKS**, the same NASDAQ trading symbol currently used for Alkermes common stock.

Q: When and where will the special meeting be held?

A: Alkermes will hold a special meeting of shareholders at 10 a.m. Eastern Daylight Time on September 8, 2011 at its principal executive offices located at 852 Winter Street, Waltham, Massachusetts.

Q: What vote is required to adopt the merger agreement?

A: The adoption of the merger agreement requires the affirmative vote of a majority of the votes cast by holders of shares of Alkermes common stock outstanding at the record date and entitled to vote, assuming a quorum is present at the special meeting. Consequently, as long as a quorum is present, a failure to vote, an abstention from voting or a broker non-vote will have no effect on the proposal to adopt the merger agreement and approve the business combination.

Q: Who is entitled to vote?

A: Alkermes shareholders of record as of the close of business on August 1, 2011 are entitled to receive notice of and to vote at the Alkermes special meeting and any adjournments and postponements thereof.

Q: How do I vote?

A: If you are an Alkermes shareholder of record, you may vote your shares at the Alkermes special meeting in one of the following ways:

by mailing your completed and signed proxy card in the enclosed return envelope;

by voting by telephone or over the Internet as instructed on the enclosed proxy card; or

by attending the Alkermes special meeting and voting in person.

If you hold your shares through a bank, broker or other nominee, you should follow the instructions provided by your bank, broker or other nominee instructing them on how to vote your shares.

Q: If my shares are held in street name by my bank, broker or other nominee will my bank, broker or other nominee, vote my shares for me?

A: Only if you provide your bank, broker or other nominee with instructions on how to vote your shares. Therefore, you should instruct your bank, broker or other nominee to vote your shares, by following the directions your bank, broker or other nominee provides. If you do not instruct your bank, broker or other nominee, your bank, broker or other nominee will generally not have the discretion to vote your shares.

Q: How many votes do I have?

A: You are entitled to one vote for each share of Alkermes common stock that you owned as of the close of business on the Alkermes record date. As of the close of business on the Alkermes record date, an aggregate of 97,618,711 shares of Alkermes common stock were outstanding and will be entitled to vote at the special meeting.

Table of Contents

Q: What constitutes a quorum?

A: A quorum of the special meeting of the Alkermes shareholders consists of the presence, in person or by proxy, of shareholders entitled to cast at least a majority of the votes which all shareholders of Alkermes are entitled to vote on a particular matter on the record date. In addition to shares present in person and voting at the special meeting, Alkermes intends to count the following shares as present at the special meeting for the purpose of determining a quorum:

shares of common stock present in person at the special meeting but not voting or abstaining on any matter;

shares of common stock represented by a proxy on which the shareholder has not directed a vote or abstained on any matter; and

shares of common stock represented by proxies that are voted on any issue other than a procedural motion.

Q: Should I send in my stock certificates now?

A: No. Alkermes shareholders should keep their existing stock certificates at this time. After the proposed business combination is completed, you will receive written instructions for exchanging your Alkermes stock certificates for New Alkermes ordinary shares.

Q: What do I need to do now?

A: After carefully reading and considering the information contained in this proxy statement/prospectus, including the Annexes and the documents incorporated by reference, please fill out and sign the proxy card, and then mail your completed and signed proxy card in the enclosed prepaid envelope as soon as possible so that your shares of Alkermes common stock may be voted at the special meeting, or you may follow the instructions on the proxy card and vote your shares of Alkermes common stock by telephone or over the Internet. Your proxy card or your telephone or Internet directions will instruct the persons identified as your proxy to vote your shares at the Alkermes special meeting as directed by you.

If you sign and send in your proxy card and do not indicate how you want to vote, your proxy will be voted FOR each of the proposals.

If you hold your shares of Alkermes common stock through a bank, broker or other nominee, you should follow the instructions provided by your bank, broker or other nominee when instructing them on how to vote your shares of Alkermes common stock. If you do not instruct your bank, broker or other nominee how to vote your shares of Alkermes common stock, your bank, broker or other nominee will generally not vote your Alkermes shares, such failure to vote being referred to as a broker non-vote, which will have no effect on the proposal to adopt the merger agreement.

Q: May I change my vote after I have mailed my signed proxy card or voted by telephone or over the Internet?

A: Yes, you may change your vote at any time before your proxy is voted at the special meeting. You can do this in one of four ways:

timely deliver a valid later-dated proxy by mail;

before the meeting, provide written notice that you have revoked your proxy to Alkermes secretary, at the following address:

Alkermes, Inc.
852 Winter Street
Waltham, MA 02451-1420
Attention: Kathryn L. Biberstein, Corporate Secretary

submit revised voting instructions by telephone or over the Internet by following the instructions set forth on the proxy card; or

Table of Contents

attend the special meeting and vote in person. Simply attending the meeting, however, will not revoke your proxy or change your voting instructions; you must vote by ballot at the meeting to change your vote.

If you have instructed a bank, broker or other nominee to vote your shares, you must follow directions received from your bank, broker or other nominee to change your vote or revoke your proxy.

Q: Who can help answer my questions?

A: If you have any questions about the proposed transactions, need assistance in voting your shares, or if you need additional copies of this proxy statement/prospectus or the enclosed proxy card, you should contact:

Antler Acquisition Corp.

800 Gateway Boulevard

(650) 877-0900

Merger Sub is a Pennsylvania corporation that was formed on April 29, 2011 for the purpose of effecting the merger. Following completion of the reorganization, Merger Sub will be an indirect wholly-owned subsidiary of New Alkermes. In the merger, Merger Sub will be merged with and into Alkermes, with Alkermes surviving as an indirect wholly-owned subsidiary of New Alkermes.

The Business Combination (Page 35)

In contemplation of the merger agreement, Alkermes and Elan agreed to create New Alkermes, a newly formed private limited company incorporated in Ireland which has since been converted into a public limited company, for the purpose of combining EDT with Alkermes. To facilitate the business combination, EDT is being carved-out of Elan and reorganized under New Alkermes.

Following the reorganization, Merger Sub, which will be an indirect wholly-owned subsidiary of New Alkermes, will merge with and into Alkermes, with Alkermes surviving as a wholly-owned indirect subsidiary of New Alkermes.

Immediately prior to the effective time, the Elan Shareholder, will beneficially hold all of the then-issued share capital of New Alkermes (consisting of 31,900,007 ordinary shares and the Euro Share Capital). and (iii) all currently issued and outstanding awards of Alkermes common stock will be converted into awards of the same number on substantially the same terms and conditions of New Alkermes ordinary shares. As a result, upon consummation of the merger and the issuance of the New Alkermes ordinary shares in exchange for the canceled shares of Alkermes common stock, the former shareholders of Alkermes will own approximately 75% of New Alkermes, and the Elan Shareholder will beneficially own the remaining approximately 25% of New Alkermes subject to the terms of the shareholder's agreement.

Alkermes will, subject to certain conditions, transfer all of its rights with respect to the intellectual property and related contractual rights related specifically to *Bydureon* (exenatide extended-release for injectable suspension) to an Irish subsidiary of New Alkermes in exchange for \$202.1 million in the form of an interest-bearing note.

As an additional payment for the contribution of EDT, Alkermes will pay Elan \$500 million in cash, subject to certain net cash and working capital adjustments, up to \$450 million of which will be financed through bank debt and the remainder of which will come from Alkermes' cash reserves. Alkermes has obtained a commitment, subject to customary conditions, from Morgan Stanley Senior Funding, Inc., which is referred to in this proxy statement/prospectus as MSSF, HSBC Securities (USA) Inc., which is referred to in this proxy statement/prospectus as HSBC Securities, and HSBC Bank USA, N.A., which is referred to in this proxy statement/prospectus as HSBC Bank, and together with HSBC Securities, as HSBC, to provide \$450 million in term loan financing as described under the caption *Financing Relating to the Business Combination* beginning on page 53 of this proxy statement/prospectus.

It is expected that the New Alkermes ordinary shares will be registered with the Securities and Exchange Commission, which is referred to in this proxy statement/prospectus as the SEC, and listed on NASDAQ. At or prior to the completion of the business combination, New Alkermes will be renamed Alkermes plc.

The merger will be completed only after the satisfaction or waiver of the conditions to the completion of the merger discussed below.

The merger agreement is attached as Annex A to this proxy statement/prospectus. Alkermes encourages you to read carefully the merger agreement in its entirety, as it is the legal document that governs the business combination.

Post-Merger Management (Page 138)

The merger agreement provides that, upon completion of the business combination, New Alkermes will initially have a board of directors composed of eight members, all of whom are currently directors of Alkermes. Elan will have the right, under the shareholder's agreement to be entered into upon the completion of the merger, for so long as Elan directly or indirectly owns at least 10% of the New Alkermes ordinary shares, to designate one additional member of the board of directors of New Alkermes. Upon completion of the business combination, the executive officers of Alkermes will serve as executive officers of New Alkermes and continue to manage the operations of the combined business. In addition, Shane Cooke, currently Executive Vice President of Elan and the head of EDT, will become president of New Alkermes. See, *Executive Officers of New Alkermes* beginning on page 142 of this proxy statement/prospectus and *Other Related Agreements* *Shareholder's Agreement* beginning on page 93 of this proxy statement/prospectus for further information.

Alkermes Reasons for the Merger (Page 43)

In reaching its conclusion to approve the business combination, the Alkermes board of directors reviewed a significant amount of information and considered a number of factors in its deliberations and concluded that the business combination is likely to result in significant strategic and financial benefits to New Alkermes, which would accrue to Alkermes shareholders, as shareholders of New Alkermes, and in particular believes that:

combining Alkermes and EDT will create a larger, faster-growing biopharmaceutical company that is immediately and sustainably profitable on a cash earnings basis with growing revenues in excess of \$450 million and growing adjusted earnings before interest, tax, depreciation, amortization, share-based compensation expense and other non-recurring items, which are referred to in this proxy statement/prospectus as adjusted EBITDA margins;

New Alkermes will have a diversified portfolio of products including five key products with long patent lives: *Ampyra*®, *Vivitrol*, *Bydureon*, *Risperdal Consta* and *Invega*® *Sustenna*®;

New Alkermes will be a leader in the development of medicines for the treatment of central nervous system diseases with an established track record of successful innovation. It will have a powerful combination of commercial stage products and new pipeline candidates developed in collaboration with major pharmaceutical companies and for its own account;

New Alkermes will have deep scientific, development and manufacturing capabilities which will provide competitive advantages in the creation of innovative biopharmaceutical products for itself and its partners;

New Alkermes will have the scale, diversification and technical and manufacturing capabilities to accelerate the ongoing business transition from a provider of drug delivery technologies and services to a developer of proprietary innovative pharmaceutical products; and

New Alkermes will have enhanced financial resources to invest in its proprietary drug candidates, pursue additional growth opportunities and reduce its cost of capital.

See also the factors listed in *The Business Combination* *Alkermes Reasons for the Business Combination and Recommendation of Alkermes Board of Directors*, beginning on page 43 of this proxy statement/prospectus.

Alkermes Board Recommendation (Page 43)

The board of directors of Alkermes has determined that the merger agreement and the business combination are fair to, and in the best interests of, Alkermes and its shareholders and has adopted a resolution approving, adopting and declaring advisable the merger agreement and directing that the merger agreement be submitted to a vote of the shareholders of Alkermes. The board of directors of Alkermes recommends that the Alkermes shareholders vote **FOR** the proposal to adopt the merger agreement, **FOR** the proposal to create distributable reserves of New Alkermes and **FOR** the proposal to adjourn the special meeting if necessary or appropriate, including for the purpose of permitting further solicitation of proxies.

Opinion of Alkermes Financial Adviser (Page 46)

At the meeting of Alkermes board of directors on May 8, 2011, Morgan Stanley, & Co. LLC, which was formerly known as Morgan Stanley & Co. Incorporated and which is referred to in this proxy statement/prospectus as Morgan Stanley, rendered its oral opinion, subsequently confirmed in writing, that as of May 8, 2011 and based on and subject to the various assumptions, considerations, qualifications and limitations set forth in the written opinion, the consideration to be paid by Alkermes pursuant to the merger agreement was fair from a financial point of view to Alkermes.

The full text of the written opinion of Morgan Stanley, dated as of May 8, 2011, is attached to this proxy statement/prospectus as Annex B. The opinion sets forth, among other things, the assumptions made, procedures followed, matters considered and limitations on the scope of the review undertaken by Morgan Stanley in rendering its opinion. Alkermes encourages you to read the entire opinion carefully and in its entirety.

Morgan Stanley's opinion is directed to Alkermes board of directors and addresses only the fairness from a financial point of view to Alkermes of the consideration to be paid by Alkermes pursuant to the merger agreement, as of the date of the opinion. It does not address any other aspects of the transactions, or in any manner address the prices at which the New Alkermes ordinary shares will trade at any time, including following consummation of the transactions, and does not constitute a recommendation to any holder of Alkermes common stock as to how to vote at any shareholder's meeting held in connection with the business combination or whether to take any other action with respect to the business combination. For a more complete description of Morgan Stanley's opinion, see *The Business Combination Opinion of Alkermes Financial Adviser* beginning on page 46 of this proxy statement/prospectus. See also Annex B to this proxy statement/prospectus.

The Special Meeting of Alkermes Shareholders (Page 31)

Date, Time, & Place of the Alkermes Special Meeting

Alkermes will hold a special meeting of shareholders on September 8, 2011 at 10 a.m. Eastern Daylight Time, at its principal executive offices located at 852 Winter Street, Waltham, Massachusetts.

Proposals

At the special meeting, Alkermes shareholders will vote upon proposals to:

adopt the merger agreement;

create distributable reserves of New Alkermes; and

adjourn the special meeting to a later date or dates if necessary or appropriate, including for the purpose of permitting the further solicitation of proxies.

Record Date; Outstanding Shares; Shares Entitled to Vote

Only holders of Alkermes common stock at the close of business on August 1, 2011, the record date for the Alkermes special meeting, will be entitled to notice of, and to vote at, the Alkermes special meeting or any adjournments or postponements thereof. On the record date, there were 97,618,711 shares of Alkermes common stock outstanding.

Each outstanding Alkermes share of common stock is entitled to one vote on each proposal and any other matter properly coming before the Alkermes special meeting.

Stock Ownership and Voting by Alkermes Directors and Officers

As of the record date, the Alkermes directors and executive officers had the right to vote approximately 1,882,108 shares of the then-outstanding Alkermes voting stock at the special meeting, representing approximately 1.93% of the Alkermes common stock then outstanding and entitled to vote at the meeting. It is expected that the Alkermes directors and executive officers will vote FOR the proposal to adopt the merger

Table of Contents

agreement, **FOR** the proposal to create distributable reserves of New Alkermes and **FOR** the proposal to adjourn the special meeting if necessary or appropriate, including for the purpose of permitting further solicitation of proxies, although none of them has entered into any agreement requiring them to do so.

Vote Required

The affirmative vote of a majority of the votes cast by the holders of shares of Alkermes common stock outstanding and entitled to vote is required for the adoption of the merger agreement, assuming a quorum is present. Approval of the separate proposal to create distributable reserves also requires the affirmative vote of a majority of the votes cast by the holders of shares of Alkermes common stock outstanding and entitled to vote, assuming a quorum is present; however, the distributable reserves proposal is not a condition to the completion of the business combination and whether or not this proposal is approved will have no impact on the completion of the business combination. Abstentions, failures to vote and broker non-votes will have no effect on the merger agreement proposal or the separate distributable reserves proposal.

The board of directors of Alkermes recommends that you vote **FOR** the proposal to adopt the merger agreement and **FOR** the proposal to create distributable reserves of New Alkermes.

The adoption of the proposal to permit the proxies to adjourn the special meeting to a later date or dates if necessary or appropriate, including for the purpose of permitting further solicitation of additional proxies, requires the affirmative vote of a majority of the votes cast by the holders of shares of Alkermes common stock outstanding and entitled to vote on the proposal, regardless of whether a quorum is present. As a result, abstentions, failures to vote and broker non-votes will have no effect on this proposal.

The board of directors of Alkermes recommends that you vote **FOR** the proposal to adjourn the special meeting to a later date or dates if necessary or appropriate, including to permit further solicitation of proxies.

Interests of Certain Persons in the Transactions (Page 55)

In considering the recommendation of the board of directors of Alkermes, you should be aware that certain directors and officers of Alkermes may have interests in the proposed transactions that are different from, or in addition to, your interests as a shareholder of Alkermes generally and which may create potential conflicts of interest. The board of directors of Alkermes was aware of these interests and considered them when they adopted the merger agreement and approved the business combination.

Management

Except as described below, no member of Alkermes management will receive additional compensation or acceleration or payment of existing compensation on the basis of the proposed transactions. Immediately prior to the effective time, certain current Alkermes senior executive officers are expected to be appointed senior executive officers of New Alkermes. Other current Alkermes officers may be employed by New Alkermes. Their positions at New Alkermes will entitle these individuals to compensation and equity awards from New Alkermes. Following the completion of the business combination, options to purchase Alkermes common stock currently owned by Alkermes executive officers will be assumed by New Alkermes and converted into options to purchase ordinary shares of New Alkermes. Stock awards in the form of Alkermes common stock currently owned by Alkermes executive officers will be assumed by New Alkermes and converted into a right to receive New Alkermes ordinary shares. In determining performance pay for Mr. Pops for fiscal year 2011 under Alkermes fiscal year 2011 performance pay plan, the compensation committee of Alkermes board of directors took into account its assessment of Mr. Pops performance against corporate objectives and, in this context, focused on, among other factors, the role he played in securing the business combination. In

addition, in determining performance pay for Mr. Pops, Mr. Frates, Mr. Landine, Ms. Biberstein, Dr. Ehrich and Mr. Pugh for performance during fiscal year 2012, the compensation committee will consider individual and company performance against company objectives, one of which includes completing the acquisition of EDT and developing and beginning to implement an integration plan.

Table of Contents

Directors

The following eight current directors of Alkermes are expected to become directors of New Alkermes in connection with the business combination if the proposed transactions are consummated: David W. Anstice, Floyd E. Bloom, Robert A. Breyer, Wendy L. Dixon, Geraldine A. Henwood, Paul J. Mitchell, Richard F. Pops and Mark B. Skaletsky. As directors of New Alkermes, these individuals will be entitled to compensation and equity awards from New Alkermes.

Indemnification

Alkermes has entered into indemnification agreements with its directors and executive officers. Under the terms of the indemnification agreement, Alkermes will indemnify each director or executive officer to the fullest extent permitted by law for expenses actually and reasonably incurred by the director or executive officer in relation to claims, brought against such director or executive officer, that arise from actions taken while acting as a director or executive officer of Alkermes, except to the extent that such indemnification is prohibited by applicable law or would be duplicative of amounts otherwise actually provided to such director or executive officer in relation to such claims. Alkermes will advance the expenses of such director or executive officer in connection with his or her defense. Each director or executive officer undertakes to the fullest extent required by law to repay all amounts advanced if it is ultimately determined that he or she is not entitled to be indemnified by Alkermes.

Certain Tax Consequences of the Merger (Page 61)

While not entirely free from doubt, New Alkermes believes that the receipt of the New Alkermes ordinary shares for shares of Alkermes common stock by U.S. holders (as defined below) pursuant to the merger should be a taxable transaction for U.S. federal income tax purposes. In general, under such treatment, a U.S. holder will recognize capital gain or loss equal to the difference between the holder's adjusted tax basis in the shares of the Alkermes common stock surrendered in the exchange, and the fair market value of the New Alkermes ordinary shares received as consideration in the merger. A U.S. holder's adjusted basis in the shares of Alkermes common stock generally should equal such holder's purchase price for such shares of Alkermes common stock, as adjusted to take into account stock dividends, stock splits, or similar transactions. It is possible that the IRS could assert an alternative characterization of the merger that would prevent a U.S. holder from recognizing a taxable loss on the exchange of Alkermes common stock for New Alkermes ordinary shares pursuant to the merger. However, a U.S. holder would be required to recognize any taxable gain on the exchange in all circumstances. Alkermes recommends that U.S. holders consult their own tax advisers as to the particular tax consequences of the merger, including the effect of U.S. federal, state and local tax laws or foreign tax laws. See *Certain Tax Consequences of the Merger*, beginning on page 61 of this proxy statement/prospectus for a more detailed description of the U.S. federal income tax consequences of the merger.

No Dissenters' Rights (Page 71)

Under the Pennsylvania Business Corporation Law of 1998, which is sometimes referred to in this proxy statement/prospectus as the PBCL, holders of Alkermes common stock do not have appraisal or dissenters' rights with respect to the merger or the other transactions described in this proxy statement/prospectus.

Regulatory Approvals Required (Page 60)

United States Antitrust

Under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, which is sometimes referred to in this proxy statement/prospectus as the HSR Act, and the rules and regulations promulgated thereunder by the U.S. Federal

Trade Commission, or the FTC, the business combination cannot be consummated until notifications have been given and certain information has been furnished to the FTC and the Antitrust Division of the U.S. Department of Justice, or the Antitrust Division, and specified waiting period requirements have been satisfied. On May 20, 2011, each of Alkermes and EDT filed a Pre-Merger

Table of Contents

Notification and Report Form pursuant to the HSR Act with the Antitrust Division and the FTC. The waiting period under the HSR Act expired at 11:59 p.m. Eastern Daylight Time on June 20, 2011. Although the waiting period has expired, at any time before the effective time of the proposed transactions, the FTC, the Antitrust Division or others could take action under the antitrust laws with respect to the proposed transactions, including seeking to enjoin the proposed transactions or to require the divestiture of certain assets of Alkermes or EDT. There can be no assurance that a challenge to the proposed transactions on antitrust grounds will not be made or, if such a challenge is made, that it would not be successful.

Listing of New Alkermes Ordinary Shares on NASDAQ (Page 71)

New Alkermes ordinary shares are currently not traded or quoted on a stock exchange or quotation system. New Alkermes expects that, following the business combination, New Alkermes ordinary shares will be listed for trading on NASDAQ under the symbol ALKS.

Conditions to the Completion of the Merger (Page 87)

The completion of the merger and the business combination is subject to the satisfaction (or waiver, to the extent permitted) of all of the following conditions on or prior to the closing date of the merger:

the adoption of the merger agreement by Alkermes shareholders;

the absence of any law, order or injunction enacted, issued or promulgated by any court or governmental authority that is in effect and has the effect of making the merger illegal or otherwise prohibits consummation of the merger or the business combination;

the expiration or termination of the waiting period applicable to the merger under the HSR Act and the filing or receipt of all other governmental authorizations required to be made or obtained by Alkermes, Elan or any of their subsidiaries to consummate the business combination, other than those the failure of which to make or obtain would not, individually or in the aggregate, be reasonably likely to have a Business Material Adverse Effect (as defined in the merger agreement);

the authorization for listing on NASDAQ of the New Alkermes ordinary shares to be issued in the merger, subject to official notice of issuance;

the effectiveness of the registration statement of which this proxy statement/prospectus is a part, the absence of a stop order issued by the SEC, suspending the effectiveness of that registration statement and the absence of any proceedings initiated for that purpose by the SEC;

the validation and filing with the Irish Companies Registration Office of all Irish financial assistance issues arising in respect of the reorganization as contemplated by the merger agreement in accordance with Section 60 of the Irish Companies Act 1963;

the re-registration of New Alkermes as a public limited company in accordance with the provisions of the Irish Companies (Amendment) Act 1983 and the delivery of a certificate of incorporation on re-registration from the Irish Companies Registration Office;

the material accuracy of the representations and warranties made by Alkermes and Elan and material compliance by Alkermes and Elan with their respective obligations under the merger agreement;

the completion of the reorganization;

material compliance by Elan and certain of its subsidiaries with their respective obligations under the merger agreement;

material compliance by Alkermes with its obligations under the merger agreement;

the absence of indebtedness of New Alkermes and the New Alkermes Group Entities (as defined in the merger agreement) as of the closing date of the business combination (other than Elan reorganization indebtedness and indebtedness in respect of the transfer by Alkermes of certain intellectual property as described in this proxy statement/prospectus);

the absence of any material difference between the audited financial statements delivered by Elan to Alkermes under the merger agreement from the historical financial statements of EDT specified in the merger agreement, other than in respect of the different accounting standards under which they were prepared and any applicable agreed adjustments;

the delivery of all the certificates, instruments, agreements and other documents as specified in the merger agreement; and

the absence of any change in law with respect to Section 7874 of Internal Revenue Code of 1986, as amended, which is referred to in this proxy statement/prospectus as the Code, or official interpretation thereof, that, in the opinion of Cleary Gottlieb Steen & Hamilton LLP, which is referred to in this proxy statement/prospectus as Cleary Gottlieb, (or other nationally recognized tax counsel), would materially increase the risk that New Alkermes would be treated as a United States domestic corporation for United States federal tax purposes.

Termination of the Merger Agreement (Page 91)

The merger agreement may be terminated at any time prior to the completion of the proposed transactions in any of the following ways:

by mutual written consent of Alkermes and Elan;

by either Alkermes or Elan if:

the business combination has not been consummated by November 5, 2011; provided, that this right to terminate the merger agreement is not available to any party that has breached its obligations under the merger agreement in a manner that has caused or resulted in the failure of the business combination to have been consummated by such date;

any law, order or injunction that permanently restrains, enjoins or otherwise prohibits the merger or the other transactions contemplated by the merger agreement shall have become final and nonappealable; or

the vote of the Alkermes shareholders on the adoption of the merger agreement has been held but the required vote was not obtained;

by Alkermes if:

Elan breaches its representations and warranties, covenants or other agreements contained in the merger agreement such that the relevant closing condition is not satisfied and the breach cannot be cured or, if curable, is not cured within 20 calendar days after Alkermes gives written notice to Elan of the breach or failure to perform;

by Elan if:

prior to the Alkermes shareholders meeting, the Alkermes board of directors withdraws or modifies in any manner adverse to Elan its recommendation that the shareholders of Alkermes approve the merger or has resolved to take any such action; or

Alkermes breaches its representations and warranties, covenants or other agreements contained in the merger agreement such that the relevant closing condition is not satisfied and the breach cannot be cured or, if curable, is not cured within 20 calendar days after Elan gives written notice to Alkermes of the breach or failure to perform.

Pursuant to the merger agreement, each of Alkermes and Elan has agreed to pay the other party a termination fee of \$25 million under certain specified circumstances. See *The Business Combination Agreement and Plan of Merger Termination Fee* beginning on page 92 of this proxy statement/prospectus.

Shareholder s Agreement (Page 93)

At the closing of the business combination, Elan, the Elan Shareholder and New Alkermes will enter into the shareholder s agreement, which will provide certain terms and conditions concerning the New Alkermes ordinary shares to be owned by the Elan Shareholder as and from the closing of the business combination, which is referred to in this proxy statement/prospectus as the closing.

Under the terms of the shareholder s agreement, the Elan Shareholder may designate one person for election to the New Alkermes board until Elan beneficially owns ordinary shares representing less than 10% of the outstanding voting securities of New Alkermes. Any person the Elan Shareholder designates for election to the New Alkermes board must satisfy certain requirements, including, among other things, that he or she be a resident of Ireland for so long as such shareholder designee serves as a director and qualifies as an independent director under applicable provisions of the Securities Exchange Act of 1934, which is referred to in this proxy statement/prospectus as the Exchange Act, and under applicable NASDAQ rules and regulations.

For at least one year following the closing, the Elan Shareholder will be obligated to vote on all matters in accordance with the recommendation of the New Alkermes board of directors. Thereafter, the Elan Shareholder will remain obligated to vote in accordance with the board s recommendation for so long as Elan beneficially owns more than 15% of the outstanding voting securities of New Alkermes or the 30-day weighted average trading price of New Alkermes ordinary shares is at least \$7.595.

Under the terms of the shareholder s agreement, Elan will be subject to a standstill provision for the longer of ten years from consummation of the merger and three years from the time the Elan Shareholder ceases to hold more than 10% of the outstanding voting securities of New Alkermes. The standstill restrictions will generally prevent Elan from acquiring any additional New Alkermes voting securities and from taking a number of actions that might result in Elan exerting influence or control over New Alkermes. The standstill restrictions will terminate early on certain events, including a decision by New Alkermes to recommend or engage in a transaction that would result in a change of control of New Alkermes.

Elan and the Elan Shareholder will be subject to certain restrictions on their ability to transfer New Alkermes ordinary shares without New Alkermes consent. For six months following the closing, Elan and the Elan Shareholder will be subject to a lock-up and following that lock-up may make an initial transfer of up to 40.75% (approximately 13 million ordinary shares) of their total stake in New Alkermes in a marketed registered underwritten offering. After this initial offering, Elan and the Elan Shareholder may only transfer a further 31.5% (approximately 10 million ordinary shares) of their initial total stake in New Alkermes in another marketed registered underwritten offering. Thereafter, Elan will be subject to certain limitations as to the size of any transfer and the nature of the transferee in connection with directly negotiated transfers.

Under the shareholder s agreement, New Alkermes will grant Elan certain customary registration rights, including demand (including shelf) and piggyback registration rights with respect to transfers of ordinary shares. The registration rights will terminate four months after Elan s ownership of New Alkermes voting securities falls below 10% of the outstanding New Alkermes voting securities or sooner in certain circumstances.

The form of the shareholder s agreement to be entered into in connection with the closing is attached as Annex C to this proxy statement/prospectus. For further information on the terms of the shareholder s agreement, see *Other Related Agreements Shareholder s Agreement* beginning on page 93 of this proxy statement/prospectus.

Financing Relating to the Business Combination (Page 54)

Alkermes has received a financing commitment from MSSF and HSBC, subject to customary conditions, for a proposed \$310 million senior secured first-lien term loan facility, which is referred to in this proxy statement/prospectus as the First-Lien Term Loan Facility, and a \$140 million senior secured second-lien term loan facility, which is referred to in this proxy statement/prospectus as the Second-Lien Term Loan facility, and together with the First-Lien Term Loan Facility, as the Term Loan Facilities. The committed financing, in

Table of Contents

addition to existing cash balances, will be used to fund the cash portion of the payment made in connection with the business combination and to pay transaction fees and expenses.

For a full description of the financing relating to the business combination, see *The Business Combination Financing Relating to the Business Combination* beginning on page 54 of this proxy statement/prospectus.

Accounting Treatment of the Merger (Page 61)

The business combination of EDT with Alkermes will be accounted for using the acquisition method of accounting for business combinations under accounting principles generally accepted in the United States, which are referred to as U.S. GAAP in this proxy statement/prospectus, with Alkermes treated as the accounting acquirer, which means that the assets and liabilities of EDT will be recorded, as of the completion of the merger, at their fair values and added to those of Alkermes. See *Risk Factors* beginning on page 14 of this proxy statement/prospectus.

Comparison of the Rights of Holders of Alkermes Common Stock and New Alkermes Ordinary Shares (Page 157)

As a result of the merger, the holders of Alkermes common stock will become holders of New Alkermes ordinary shares and their rights will be governed by Irish law and the memorandum and articles of association of New Alkermes instead of the PBCL and Alkermes articles of incorporation and bylaws. The current memorandum and articles of association of New Alkermes will be amended and restated as of the completion of the merger in substantially the form as set forth in Annex E to this proxy statement/prospectus. Following the merger, former Alkermes shareholders may have different rights as New Alkermes shareholders than they had as Alkermes shareholders. For a summary of the material differences between the rights of Alkermes shareholders and New Alkermes shareholders, see *Description of New Alkermes Ordinary Shares* beginning on page 144 of this proxy statement/prospectus and *Comparison of the Rights of Holders of Alkermes Common Stock and New Alkermes Ordinary Shares* beginning on page 157 of this proxy statement/prospectus.

RISK FACTORS

In deciding whether to vote for the adoption of the merger agreement, you should consider carefully the following risk factors in addition to the other information contained in or incorporated by reference into this proxy statement/prospectus, including the matters addressed under the caption Cautionary Statement Regarding Forward-Looking Statements. You should also read and consider the risks associated with the business of Alkermes and the risks associated with the business of EDT because these risks will also affect New Alkermes. The risks associated with the business of Alkermes can be found in the Alkermes Annual Report on Form 10-K for the fiscal year ended March 31, 2011, as amended, and in the Alkermes Quarterly Report on Form 10-Q for the period ended June 30, 2011, which are incorporated by reference into this proxy statement/prospectus. See Where You Can Find More Information. The risks associated with the business of EDT are described under the caption Risk Factors Risks Related to EDT.

Risks Related to New Alkermes

The combination of the businesses currently conducted by Alkermes and EDT will create numerous risks and uncertainties which could adversely affect New Alkermes operating results.

Strategic transactions like the business combination of EDT with Alkermes create numerous uncertainties and risks. EDT will transition from being a part of Elan to being a part of New Alkermes, and Alkermes will migrate from being a standalone Pennsylvania company to being part of a combined company organized in Ireland. This combination will entail many changes, including the integration of EDT and its personnel with those of Alkermes and changes in systems and employee benefit plans. These transition activities are complex, and New Alkermes may encounter unexpected difficulties or incur unexpected costs, including:

the diversion of management's attention to integration matters;

difficulties in achieving anticipated cost savings, synergies, business opportunities and growth prospects from combining the business of EDT with that of Alkermes;

difficulties in the integration of operations and systems;

difficulties in the assimilation of employees;

difficulties in replacing the support functions currently provided by Elan to EDT;

challenges in keeping existing customers and obtaining new customers;

challenges in attracting and retaining key personnel; and

deterioration of general industry and business conditions.

If any of these factors limits New Alkermes' ability to integrate the operations of Alkermes with those of EDT successfully or on a timely basis, the expectations of future results of operations, including certain cost savings and synergies expected to result from the business combination, might not be met. As a result, New Alkermes may not be able to realize the expected benefits that it seeks to achieve from the business combination. In addition, New Alkermes may be required to spend additional time or money on integration that otherwise would be spent on the

development and expansion of its business.

In addition, the market price of New Alkermes ordinary shares may decline following the business combination if the integration of Alkermes and EDT is unsuccessful, takes longer than expected or fails to achieve financial benefits to the extent anticipated by financial analysts or investors, or the effect of the business combination on the financial results of the combined company is otherwise not consistent with the expectations of financial analysts or investors.

The price of New Alkermes ordinary shares is expected to be highly volatile, and the market price of the ordinary shares may drop following the closing.

The realization of any of the risks described in these risk factors or other unforeseen risks could have a dramatic and adverse effect on the market price of New Alkermes ordinary shares following the closing.

Table of Contents

Additionally, market prices for securities of biotechnology and pharmaceutical companies, including Alkermes, have historically been very volatile. The market for these securities has from time to time experienced significant price and volume fluctuations for reasons that were unrelated to the operating performance of any one company. In particular, and in addition to circumstances described elsewhere under these risk factors, the following risk factors may adversely affect the market price of New Alkermes ordinary shares:

non-approval, set-backs or delays in the development or manufacture of New Alkermes product candidates and success of New Alkermes research and development programs;

public concern as to the safety of drugs developed by New Alkermes or others;

announcements of issuances of ordinary shares or acquisitions by New Alkermes;

uncertainties relating to possible sales of ordinary shares held by the Elan Shareholder;

failure, limitation or delay in the commercialization of products by New Alkermes or its corporate collaborators;

the announcement and timing of new product introductions by New Alkermes or others;

material public announcements;

events related to New Alkermes products or those of its competitors, including the withdrawal or suspension of products from the market;

availability and level of third party reimbursement;

political developments or proposed legislation in the pharmaceutical or healthcare industry;

economic or other external factors, disaster or crisis;

currency exchange controls or fluctuations in the relative values of currencies;

termination or delay of development program(s) by New Alkermes corporate partners;

announcements and timing of technological innovations or new therapeutic products or methods by New Alkermes or others;

changes in patent legislation or adverse changes to patent law;

changes in or loss of any key members of management;

failure to meet New Alkermes financial expectations or changes in opinions of analysts who follow New Alkermes stock; or

general market conditions.

New Alkermes future results will suffer if it does not effectively manage its expanded operations.

The size of the combined company's business will be significantly larger than the size of each of Alkermes' and EDT's businesses today. New Alkermes' future success depends, in part, upon its ability to manage this expanded business, which will pose substantial challenges for management, including challenges related to the management and monitoring of new operations and associated increased costs and complexity.

Adverse credit and financial market conditions may exacerbate certain risks affecting New Alkermes' business.

The successful commercialization of New Alkermes' products will be dependent, in large part, on reimbursement from government health administration authorities and private health insurers. As a result of adverse credit and financial market conditions, these organizations may be unable to satisfy their reimbursement obligations or may delay payment. In addition, federal, state and foreign health authorities may reduce reimbursements (including Medicare and Medicaid in the United States) or payments, and private insurers may increase their scrutiny of claims. A reduction in the availability or extent of reimbursement could

Table of Contents

negatively affect New Alkermes' product sales and revenue. Customers may also reduce spending during times of economic uncertainty.

In addition, New Alkermes will rely on third parties for several important aspects of its business. New Alkermes will depend upon collaborators for both manufacturing and royalty revenues and the clinical development of collaboration products. It may use third party contract research organizations for many of its clinical trials and it will rely upon several single source providers of raw materials and contract manufacturers for the manufacture of certain products and product candidates. Due to the recent tightening of global credit and the volatility in the financial markets, there may be a disruption or delay in the performance of New Alkermes' third party contractors, suppliers or collaborators. If such third parties are unable to satisfy their commitments to New Alkermes, its business will be adversely affected.

If goodwill or other intangible assets that New Alkermes records in connection with the merger become impaired, the combined company could have to take significant charges against earnings.

In connection with the accounting for the merger, New Alkermes expects to record a significant amount of goodwill and other intangible assets. Under U.S. GAAP, the combined company must assess, at least annually and potentially more frequently, whether the value of goodwill and other indefinite-lived intangible assets has been impaired. Amortizing intangible assets will be assessed for impairment in the event of an impairment indicator. Any reduction or impairment of the value of goodwill or other intangible assets will result in a charge against earnings, which could materially adversely affect the combined company's results of operations and shareholders' equity in future periods.

New Alkermes' actual financial position and results of operations may differ materially from the unaudited pro forma financial data included in this document.

The pro forma financial data contained in this proxy statement/prospectus are presented for illustrative purposes only and may not be an indication of what New Alkermes' financial condition or results of operations would have been had the business combination been completed on the dates indicated. The pro forma financial data have been derived from the audited and unaudited historical financial statements of Alkermes and EDT and certain adjustments and assumptions have been made regarding the combined company after giving effect to the business combination. The information upon which these adjustments and assumptions have been made is preliminary, and these kinds of adjustments and assumptions are difficult to make with complete accuracy. For example, the pro forma financial data do not reflect all costs that are expected to be incurred by New Alkermes in connection with the business combination. In addition, the pro forma financial data are based on a preliminary purchase price allocation, and the actual allocation of the purchase price will be performed only after the completion of the business combination. Accordingly, the actual financial condition and results of operations of the combined company following the business combination may not be consistent with, or evident from, this pro forma financial data.

In addition, the assumptions used in preparing the pro forma financial information may not prove to be accurate, and other factors may affect New Alkermes' financial condition or results of operations following the closing. Any potential decline in New Alkermes' financial condition or results of operations may cause significant variations in the share price of New Alkermes. See *Unaudited Pro Forma Financial Data*.

Following the merger, New Alkermes will have significantly less cash on hand than Alkermes currently has.

In connection with the business combination, Alkermes will pay at least \$50 million out of its existing cash reserves to Elan as part of the cash payment for the contribution of EDT to New Alkermes. In addition, Alkermes will pay substantial costs and expenses associated with the transactions. As a result, New Alkermes will, following the merger, have significantly less cash on hand than Alkermes currently has, which could adversely affect New Alkermes' ability to grow and perform.

Table of Contents

New Alkermes' level of indebtedness following consummation of the business combination could adversely affect its business and limit its ability to plan for or respond to changes in its business.

Pursuant to the merger agreement, Alkermes will pay Elan \$500 million in cash, subject to certain net cash and working capital adjustments, as partial payment for the contribution of the EDT business. Alkermes has obtained a commitment, subject to customary conditions, from MSSF and HSBC to provide up to \$450 million in term loan financing, which is referred to in this proxy statement/prospectus as the commitment letter, a copy of which is filed as an exhibit to the registration statement of which this proxy statement/prospectus is a part. New Alkermes' level of indebtedness following consummation of the business combination could adversely affect its business by, among other things:

requiring New Alkermes to dedicate a substantial portion of its cash flow from operations to payments on its indebtedness, thereby reducing the availability of its cash flow for other purposes, including business development efforts and research and development;

limiting New Alkermes' flexibility in planning for, or reacting to, changes in its business and the industry in which it operates, thereby placing it at a competitive disadvantage compared to its competitors that may have less debt;

limiting New Alkermes' ability to take advantage of significant business opportunities, such as acquisition opportunities; and

increasing New Alkermes' vulnerability to adverse economic and industry conditions.

In the event the financing contemplated by the commitment letter received by Alkermes is not available, other financing may be available only on less favorable terms or may not be available on acceptable terms, in a timely manner or at all.

If New Alkermes is unable to comply with restrictions in the proposed financing package, the indebtedness thereunder could be accelerated.

The credit facilities and loan agreement contemplated by the commitment letter received by Alkermes for the financing in connection with the business combination will impose restrictive covenants on New Alkermes and require certain payments of principal and interest over time. A failure to comply with these restrictions or to make these payments could lead to an event of default that could result in an acceleration of the indebtedness. New Alkermes cannot make any assurances that its future operating results will be sufficient to ensure compliance with the covenants in its agreements or to remedy any such default. In the event of an acceleration of this indebtedness, New Alkermes may not have or be able to obtain sufficient funds to make any accelerated payments. Please see the section of this proxy statement/prospectus entitled *The Business Combination - Financing Relating to the Business Combination* for more information about the financing package envisaged by the commitment letter and the restrictions contained therein and the payments required thereby.

New Alkermes' effective tax rate may increase following the closing.

While the blended effective tax rate on any net income earned by New Alkermes that cannot be offset by its tax attributes, if any, is expected to be lower than the effective tax rate currently applicable to any net income earned by Alkermes that cannot be offset by its tax attributes, if any, there is uncertainty regarding the tax policies of the jurisdictions where New Alkermes will operate, and New Alkermes' effective tax rate may increase and any such increase may be material. Additionally, the tax laws of any jurisdiction in which New Alkermes will operate could

change in the future, and such changes could cause a material change in New Alkermes' effective tax rate.

Table of Contents

The merger may limit New Alkermes' ability to use its tax attributes to offset taxable income, if any, generated from the merger and ancillary transactions.

For U.S. federal income tax purposes, a corporation is generally considered tax resident in the place of its incorporation. Because New Alkermes is incorporated in Ireland, it should be deemed an Irish corporation under these general rules. However, Section 7874 of the Code generally provides that a corporation organized outside the United States which acquires substantially all of the assets of a corporation organized in the United States will be treated as a U.S. corporation (and, therefore, a U.S. tax resident) for U.S. federal income tax purposes if shareholders of the acquired U.S. corporation own at least 80 percent (of either the voting power or the value) of the stock of the acquiring foreign corporation after the acquisition by reason of holding stock in the domestic corporation, and the expanded affiliated group (as defined in Section 7874) that includes the acquiring corporation does not have substantial business activities in the country in which it is organized.

In addition, Section 7874 provides that if a corporation organized outside the United States acquires substantially all of the assets of a corporation organized in the United States, the taxable income of the U.S. corporation during the period beginning on the date the first assets are acquired as part of the acquisition, through the date which is ten years after the last date assets are acquired as part of the acquisition, shall be no less than the income or gain recognized by reason of the transfer during such period or by reason of a license of property by the expatriated entity after such acquisition to a foreign affiliate during such period, which is referred to as the inversion gain in this proxy statement/prospectus, if shareholders of the acquired U.S. corporation own at least 60 percent (of either the voting power or the value) of the stock of the acquiring foreign corporation after the acquisition by reason of holding stock in the domestic corporation, and the expanded affiliated group of the acquiring corporation does not have substantial business activities in the country in which it is organized. Alkermes intends to transfer certain intellectual property to an Irish subsidiary of New Alkermes in the IP Transfer, as discussed in *Questions and Answers About the Proposed Transactions*, and it is expected that Alkermes has sufficient net operating loss carryforwards available to offset any taxable income generated from this IP Transfer. If this rule was to apply to the merger, among other things, Alkermes would not be able to use any of the approximately \$274 million of net operating loss carryforwards that it had as of March 31, 2011, to offset any taxable income generated as part of the merger or as a result of the IP Transfer described in detail under *Certain Tax Consequences of the Merger*. Alkermes does not believe that either of these limitations should apply as a result of the merger. However, the IRS could assert a contrary position, in which case, New Alkermes could become involved in tax controversy with the IRS regarding possible additional U.S. tax liability. If New Alkermes is unsuccessful in resolving any such tax controversy in its favor, New Alkermes could be liable for significantly greater U.S. federal income tax than New Alkermes anticipates being liable for through the merger and the reorganization, including as a result of the IP Transfer, which would place further demands on its cash needs. For further information on this matter see *Certain Tax Consequences of the Merger*.

New Alkermes may not have sufficient distributable reserves to pay dividends or repurchase or redeem shares following completion of the proposed transactions even if considered appropriate by the New Alkermes board. New Alkermes can provide no assurance that Irish High Court approval of the creation of distributable reserves will be forthcoming.

If New Alkermes determines to pay dividends in the future, it may be unable to do so under Irish law. Under Irish law, dividends may only be paid and share repurchases and redemptions must generally be funded only out of distributable reserves, which New Alkermes will not have immediately following the closing. The creation of distributable reserves requires the approval of the Irish High Court. New Alkermes is not aware of any reason why the Irish High Court would not approve the creation of distributable reserves, however, the issuance of the required order is a matter for the discretion of the Irish High Court and there is no guarantee that such approval will be obtained. Approval of the creation of distributable reserves by the Irish High Court may also take substantially longer than New Alkermes anticipates.

Table of Contents

New Alkermes does not expect to pay dividends for the foreseeable future, and you must rely on increases in the trading prices of the New Alkermes ordinary shares for returns on your investment.

Alkermes has never paid cash dividends on its common stock. New Alkermes does not expect to pay dividends in the immediate future. New Alkermes anticipates that it will retain all earnings, if any, to support its operations and its proprietary drug development programs. Any future determination as to the payment of dividends will, subject to Irish legal requirements, be at the sole discretion of the New Alkermes board of directors and will depend on New Alkermes' financial condition, results of operations, capital requirements and other factors the board of directors deems relevant. Holders of New Alkermes ordinary shares must rely on increases in the trading price of their shares for returns on their investment in the foreseeable future.

To the extent the board of directors does determine to declare a dividend, dividends paid in respect of New Alkermes ordinary shares will generally not be subject to Irish income tax where the beneficial owner of these dividends is exempt from dividend withholding tax, unless the beneficial owner of the dividend is resident or ordinarily resident in Ireland for Irish tax purposes or the shareholder holds shares in connection with a trade carried on by such shareholder in Ireland through a branch or agency.

As a result of different shareholder voting requirements in Ireland relative to Pennsylvania, New Alkermes will have less flexibility with respect to certain aspects of capital management than Alkermes currently has.

Under Pennsylvania law, Alkermes' directors may issue, without shareholder approval, any common shares authorized by its articles of incorporation that are not already issued. In addition, under NASDAQ Rule 5635, a company listed on NASDAQ is required to obtain shareholder approval prior to the issuance of common stock, among other things, (a) in connection with the acquisition of the stock or assets of another company if 20% or more of the common stock of the issuer outstanding before such issuance would be issued in connection with such acquisition transaction; and (b) in connection with a transaction other than a public offering involving the sale or issuance by the issuer of common stock (or securities convertible into or exercisable for common stock) equal to 20% or more of the common stock or 20% or more of the voting power outstanding before the issuance for less than the greater of book or market value of the stock.

Under Irish law, the authorized share capital of New Alkermes can be increased by an ordinary resolution of its shareholders and the directors may issue new ordinary or preferred shares up to a maximum amount equal to the authorized but unissued share capital, without shareholder approval, once authorized to do so by the articles of association of New Alkermes or by an ordinary resolution of the New Alkermes shareholders. Additionally, subject to specified exceptions, Irish law grants statutory preemption rights to existing shareholders to subscribe for new issuances of shares for cash, but allows shareholders to authorize the waiver of the statutory preemption rights by way of special resolution with respect to any particular allotment of shares. Accordingly, New Alkermes' articles of association contain, as permitted by Irish company law, a provision authorizing the board to issue new shares for cash without offering preemption rights. The authorization of the directors to issue shares and the authorization of the waiver of the statutory preemption rights must both be renewed by the shareholders at least every five years, and Alkermes cannot provide any assurance that these authorizations will always be approved, which could limit New Alkermes' ability to issue equity and thereby adversely affect the holders of New Alkermes securities. While Alkermes does not believe that the differences between Pennsylvania law and Irish law relating to New Alkermes capital management will have an adverse effect on New Alkermes, situations may arise where the flexibility Alkermes now has under Pennsylvania law would have provided benefits to New Alkermes shareholders that will not be available under Irish law. See *Comparison of the Rights of Holders of Alkermes Common Stock and New Alkermes Ordinary Shares*.

Table of Contents

As a result of different shareholder voting requirements in Ireland relative to Pennsylvania, New Alkermes will have less flexibility with respect to its ability to amend its organizational documents than Alkermes currently has.

Under Pennsylvania law and Alkermes' current bylaws and articles of incorporation, Alkermes' bylaws may be altered, amended or repealed and new bylaws may be adopted (i) at any annual, regular or special meeting of the board of directors by a majority vote of all the directors in office, so long as the board action does not limit indemnification rights, increase the liability of directors or change the manner or vote required to make such alteration, or (ii) by a majority of the votes cast at any annual, regular or special meeting of shareholders. Irish law requires a special resolution of 75% of the shareholder votes cast at a general meeting for any amendment to the memorandum and articles of association of New Alkermes. As a result of this Irish law requirement, situations may arise where the flexibility Alkermes now has under Pennsylvania law would have provided benefits to New Alkermes shareholders that will not be available in Ireland. See *Comparison of the Rights of Holders of Alkermes Common Stock and New Alkermes Ordinary Shares*.

After the completion of the business combination, attempted takeovers of New Alkermes will be subject to the Irish Takeover Rules and subject to review by the Irish Takeover Panel.

Pennsylvania's anti-takeover statutes and laws regarding directors' fiduciary duties give the board of directors broad latitude to defend against unwanted takeover proposals. Following the closing, New Alkermes will become subject to the Irish Takeover Rules, under which the board of directors of New Alkermes will not be permitted to take any action which might frustrate an offer for New Alkermes ordinary shares once the board of directors has received an approach which may lead to an offer or has reason to believe an offer is imminent. Further, it could be more difficult for New Alkermes to obtain shareholder approval for a merger or negotiated transaction after the closing of the business combination because the shareholder approval requirements for certain types of transactions differ, and in some cases are greater, under Irish law than under Pennsylvania law.

Following the completion of the business combination, a future transfer of New Alkermes ordinary shares may be subject to Irish stamp duty.

In certain circumstances, the transfer of shares in an Irish incorporated company will be subject to Irish stamp duty which is a legal obligation of the buyer. This duty is currently charged at the rate of 1.0% of the higher of the price paid and the market value of the shares acquired. However, transfers of book-entry interests in a Depositary Trust Company, which is referred to in this proxy statement/prospectus as DTC, representing New Alkermes ordinary shares should not be subject to Irish stamp duty. Accordingly, transfers by shareholders who hold their New Alkermes ordinary shares beneficially through brokers which in turn hold those shares through DTC, should not be subject to Irish stamp duty on transfers to holders who also hold through DTC. This exemption is available because New Alkermes ordinary shares will be traded on a recognized stock exchange in the United States.

In relation to any transfer of New Alkermes ordinary shares that is subject to Irish stamp duty, New Alkermes' articles of association allow New Alkermes, in its absolute discretion, to create an instrument of transfer and pay (or procure the payment of) any stamp duty payable by a buyer or otherwise require an instrument of transfer to be executed to effect a transfer. In the event of any such payment, New Alkermes is (on behalf of itself or its affiliates) entitled to (i) seek reimbursement from the buyer or seller (at its discretion), (ii) set-off the amount of the stamp duty against future dividends payable to the buyer or seller (at its discretion), and (iii) claim a first and permanent lien against the New Alkermes ordinary shares on which it has paid stamp duty. New Alkermes' lien shall extend to all dividends paid on those shares.

Dividends paid by New Alkermes may be subject to Irish dividend withholding tax.

In certain circumstances, as an Irish tax resident company, New Alkermes will be required to deduct Irish dividend withholding tax (currently at the rate of 20%) from dividends paid to its shareholders. Shareholders that are resident in the United States, European Union member states (other than Ireland) or other countries

with which Ireland has signed a tax treaty (whether the treaty has been ratified or not) generally should not be subject to Irish withholding tax so long as the shareholder has provided its broker, for onward transmission to New Alkermes qualifying intermediary (or other designated agent) (in the case of shares held beneficially), or New Alkermes or its transfer agent (in the case of shares held directly), with all the necessary documentation prior to payment of the dividend. However, some shareholders may be subject to withholding tax, which could adversely affect the price of New Alkermes ordinary shares.

As a result of the business combination, New Alkermes will incur additional direct and indirect costs.

New Alkermes will incur additional costs and expenses in connection with and as a result of the business combination. These costs and expenses include professional fees to comply with Irish corporate and tax laws and financial reporting requirements, costs and expenses incurred in connection with holding a majority of the meetings of the New Alkermes board of directors and certain executive management meetings in Ireland, as well as any additional costs New Alkermes may incur going forward as a result of its new corporate structure. There can be no assurance that these costs will not exceed the costs historically borne by Alkermes and those allocated to EDT in the carve out financials.

Risks Related to EDT

EDT is exposed to the risk of intensifying competition.

EDT is aware of other pharmaceutical companies that are developing competing technologies, which could significantly damage its current portfolio of technologies. For example, there is a range of technology approaches to address poorly water soluble drugs including nanoparticles, cyclodextrins, lipid based self emulsifying drug delivery systems, dendrimers, micelles, among others, which could limit the potential success of EDT's NanoCrystal technology, and its growth prospects could be materially impaired. In addition, there are many competing technologies to EDT's OCR technology, some of which are owned by large pharmaceutical companies with drug delivery divisions and other smaller drug delivery specific companies. EDT's business, financial condition, results of operations and prospects may be materially adversely affected by its failure to maintain its competitive position with respect to its proprietary technologies.

Pharmaceutical technologies and products are subject to rapid and significant technological change. EDT expects its competitors to develop new technologies, products and processes that may be more effective than those EDT develops. As a result, EDT products and product candidates may become uncompetitive or obsolete before it recovers expenses incurred in connection with their development or realizes revenues from any commercialized product.

The pharmaceutical industry is characterized by intensive research, development and commercialization efforts and rapid technological change. The success of EDT's business strategy depends to a significant extent on its ability to reformulate existing drugs, and to develop these drugs into new product candidates on a cost-effective basis. Research and discoveries by EDT's competitors may render some or all of EDT's product candidates uncompetitive or obsolete. Furthermore, unforeseen problems may develop with technologies or applications EDT uses in its development programs, and EDT may be unable to address these challenges successfully. This could result in its inability to develop commercially feasible products, which could have a material adverse effect on EDT's business, financial condition, results of operations and prospects. See *The Business of EDT - Competition*.

Strategic decisions of collaborators, wholesalers and distributors may adversely affect EDT's revenues.

EDT's product revenue may be adversely affected, in part, by the strategic decisions of its collaborators, wholesalers and distributors. In the event that EDT's collaborators, wholesalers or distributors decide to decrease sales of a product

by, for example, shifting their sales emphasis to a different form of the product (not employing EDT's technology) or to a new product for the same or a similar indication, EDT's revenues in respect of the relevant product would decline.

Table of Contents

For example, *TriCor*® 145 tablets are manufactured by Fournier Laboratories using EDT's *NanoCrystal* technology. Royalties on sales of *TriCor* 145 equaled approximately \$54.5 million for the year ended December 31, 2010, being 59.6% of EDT's royalty revenues and 19.9% of EDT's total revenues in that year. *TriCor* 145, a cholesterol lowering product containing the compound fenofibrate, is currently marketed by Abbott Laboratories in the United States and Solvay S.A. in territories outside of the United States. Abbott launched a new generation fenofibrate product, which does not incorporate any of EDT's technologies. Abbott's new product has had and will continue to have a material adverse effect on EDT's *TriCor* 145 revenues.

In addition, a significant part of EDT's current business involves granting licenses for the use of drug delivery technologies EDT has developed to large pharmaceutical companies in return for the payment of an ongoing royalty. There is a risk that large pharmaceutical companies will determine that in-house development and production of drug delivery technologies would be more cost efficient and would provide a greater scope for the development of their own new products. In this event, such companies may not enter into new licenses with EDT or seek to terminate their existing license agreements with EDT, which would have a material adverse effect on EDT's revenues.

EDT's inability to compete with such companies in terms of scale and resources may have a material adverse effect on its business, financial condition, results of operations and prospects.

EDT depends on the success of its existing arrangements with its collaborators.

There are a number of risks associated with EDT's business strategy, which depends on third parties for marketing and sale of products. In many cases, EDT has relatively limited control or ability to influence the marketing efforts and commercial diligence of the collaborator on whom EDT relies to sell the product. As a consequence, EDT is largely dependent on the actions of these third parties to generate its revenues and if they are not effective in their efforts, EDT's revenue streams could be materially adversely affected. EDT has had in the past challenging relationships with client companies where, for a variety of reasons that were not related to EDT, little or no product was sold on the market and EDT had very limited remedies to address this situation.

Some of EDT's collaborators are small companies that depend on venture capital funding to progress their product candidates to later stage development and commercialization. There is a risk that these companies may not be in a position to attract sufficient investment to sustain their development efforts and/or that they may be taken over by other entities with different priorities and motivations. In many cases, EDT has little or no control or input in these circumstances.

Furthermore, EDT's collaborators may fail to fulfill their responsibilities or may seek to renegotiate or terminate their relationships with EDT, for example, as a result of unsatisfactory clinical results. A collaborator may experience financial or other difficulties unrelated to its arrangement with EDT, or may merge with or be acquired by another company, each of which could adversely affect its ability to perform its obligations under the license agreement with EDT. Similarly, a collaborator may fail to manage its inventory levels successfully, which could increase the volatility of its operating results. Alternatively, EDT's relationship with a collaborator may be adversely affected, for example, if EDT develops a proprietary product that competes directly with products that EDT currently supplies to such collaborator. Moreover, in most instances, EDT's collaborators may terminate their relationships with EDT on limited notice and without penalty or if they reasonably determine that the product does not justify continued development or commercialization.

If events such as these materialize, there is a risk that EDT's collaborators or marketing collaborators could discontinue sales of EDT's products, fail to satisfy their obligations under their agreements with EDT or seek alternative or additional suppliers for the same or similar products. If any of the above factors were to arise, this could have a

material adverse effect on EDT's business, financial condition, results of operation and prospects.

Table of Contents

If EDT is not successful in establishing and maintaining additional license arrangements, its growth prospects will be materially harmed.

An element of EDT's business strategy is to establish license arrangements with third parties to develop particular products or to accelerate the development of some of its early-stage product candidates. The process of establishing new relationships is difficult, time-consuming and involves significant uncertainty. EDT faces, and will continue to face, significant competition in seeking appropriate collaborators. If EDT is unable to establish and maintain license arrangements on acceptable terms, EDT may have to delay or discontinue further development of one or more of its product candidates, seek regulatory approval or undertake commercialization activities at its own expense or find alternative sources of funding. This could have a material adverse effect on EDT's business, financial condition, results of operations and prospects.

Any difficulties with, or interruptions to, manufacturing could delay the output of products and harm EDT's relationships with its collaborators.

EDT conducts its scale-up and commercial manufacturing activities at its facilities in Gainesville, Georgia, in the United States, and Athlone, Ireland. Due to regulatory and technical requirements, EDT has limited ability to shift production among its facilities or to outsource any part of EDT's manufacturing to third parties. Damage to any of EDT's manufacturing facilities caused by human error, physical or electronic security breaches, power loss or other failures or circumstances beyond its control, including acts of God, fire, explosion, flood, war, insurrection or civil disorder, acts of, or authorized by, any government, terrorism, accident, labor trouble or shortage, or inability to obtain material, equipment or transportation, could interrupt or delay EDT's manufacturing or other operations.

Any interruption in manufacturing or challenges relating to the scale-up of the manufacturing process to commercial quantities, whether due to EDT's failure to comply with regulatory requirements, limitations in manufacturing capacity, EDT's own limitations or arising from factors outside EDT's control, could result in delays in meeting contractual obligations and could damage EDT's relationships with EDT's collaborators including the loss of manufacturing and supply rights.

EDT is reliant in certain cases on third parties to manufacture products.

Where the manufacturing rights to the products in which EDT's technologies are applied are granted to or retained by its third party licensee or approved sub-licensee, EDT has no control over the manufacturing, supply or distribution of the product, and, accordingly, EDT is dependent upon these third parties to carry out those functions. Any failure on the part of such third parties to perform such functions, or to do so using commercially reasonable efforts, may have a material adverse effect on EDT's business, financial condition, results of operations and prospects.

EDT is dependent on third parties for the supply of key raw materials.

EDT is reliant on third parties to manufacture key raw materials to enable it to develop, manufacture and supply products, including currently marketed products and products currently in development.

There is a risk that if any key third parties were to cease manufacturing or supplying key raw materials, or fail to produce these on commercially reasonable terms, this could have a material adverse effect on EDT's business, financial condition, result of operations and prospects.

EDT is exposed to credit risk on accounts receivable from EDT's collaborators.

EDT sells its pharmaceutical products to EDT's collaborators through contracts that are not secured by collateral or other security and therefore bears the risk that its collaborators are unable to pay amounts due to EDT thereunder. EDT may not be able to limit its potential loss of revenues if a significant number of collaborators are unable to pay amounts owed to EDT.

Table of Contents

EDT may be unable to obtain, register, maintain or protect its intellectual property rights.

EDT's ability to compete effectively with other companies will depend in part on its ability to obtain and maintain patent and/or trademark protection for certain of EDT's products, product candidates, technologies and developing technologies, to preserve EDT's trade secrets, defend and enforce EDT's rights against infringement and operate without infringing the proprietary or intellectual property rights of third parties.

The primary U.S. patent covering the *NanoCrystal* technology expired in 2011. The related primary patent in Europe has been declared invalid. Primary patents covering *NanoCrystal* technology in the rest of the world, which is referred to as the ROW in this proxy statement/prospectus, expire in some countries in 2012. EDT has additional patents and patent applications relating to other aspects of EDT's *NanoCrystal* technology in the United States and the ROW that are independent of the primary patent and which will continue for several years beyond the expiration of this base patent. EDT may nonetheless face competition from other pharmaceutical companies and/or generic manufacturers as various patents in the *NanoCrystal* portfolio expire. This could adversely affect EDT's ability to exploit the *NanoCrystal* technology and/or the sales of currently marketed products employing the *NanoCrystal* technology, which could have a material adverse effect on EDT's business, financial condition, results of operations and prospects.

No assurance can be given that any patents based on pending patent applications or any future patent applications will be issued, that the scope of any patent protection will exclude competitors or provide EDT with competitive advantages, that any of the patents that have been or may be issued to EDT will be held valid if subsequently challenged or that others will not claim rights in the patents and other proprietary rights held by EDT.

In addition, the development of new technologies or pharmaceutical products incorporating EDT's technologies may take a number of years, and there can be no assurance that any patents which may be granted in respect of such technologies or products will not have expired or be due to expire by the time such products are commercialized. Furthermore, there can be no assurance that EDT's competitors have not developed or will not develop similar technologies or products, duplicate any EDT's technologies or products or design around any of EDT's existing or future patents.

If EDT is unable to protect its intellectual property rights, or EDT infringes on the rights of other parties, then its revenues and potential revenues may be materially reduced.

Although EDT believes that it makes reasonable efforts to protect EDT's intellectual property rights and to ensure that its proprietary technology does not infringe the rights of other parties, EDT cannot ascertain the existence of all potentially conflicting claims. Therefore, there is a risk that third parties may make claims of infringement against EDT's product or technologies. In addition, third parties may be able to obtain patents that prevent the sale of EDT's products or require EDT to obtain a license and pay significant fees or royalties in order to continue selling EDT's products.

There has been, and EDT expects there will continue to be, significant litigation in the pharmaceutical industry regarding patents and other intellectual property rights. Litigation and other proceedings concerning patents and other intellectual property rights in which EDT is involved have been and will continue to be protracted and expensive and could be distracting to EDT's management. EDT's competitors may sue it or its collaborators as a means of delaying the introduction of products. Any litigation, including any interference proceedings to determine priority of inventions, oppositions to patents or litigation against EDT's licensors, may be costly and time consuming and could adversely affect EDT. In addition, litigation has been and may be instituted to determine the validity, scope or non-infringement of patent rights claimed by third parties to be pertinent to the manufacturing, use or sale of EDT's or their products. The outcome of any such litigation could adversely affect the validity and scope of EDT's patents or other intellectual property rights, hinder, delay or prevent the marketing and sale of EDT's products and cost EDT

substantial sums of money.

Table of Contents

EDT may have to enforce its intellectual property rights against third parties who infringe those rights.

EDT may have to enforce its intellectual property rights against third parties who infringe its patents and other intellectual property or challenge patent or trademark applications that might have an impact on its intellectual property. Such proceedings are typically protracted with no certainty of success and are likely to involve significant costs and management time. EDT is involved in a number of Paragraph IV litigations (see below), all of which are costly and time consuming.

If EDT's technologies or products and product candidates are claimed under other existing patents or are otherwise claimed to be protected by third party proprietary rights, EDT may be subject to infringement actions. Since patent applications are generally not published until 18 months after filing, EDT also cannot be certain that others did not first file applications for inventions covered by its pending patent applications, nor can EDT be certain that it will not infringe any patents that may be issued to others on such unpublished applications.

If EDT is required to defend charges of patent infringement or to protect its own proprietary rights against third parties, substantial costs and significant management time and effort could be incurred regardless of whether EDT is successful. Such proceedings are typically protracted with no certainty of success. An adverse outcome could subject EDT to significant liabilities and potential indemnification obligations to third parties, and force EDT to curtail or cease the use of certain intellectual property, the development of certain technologies or product candidates and the sale of certain products. In addition, the loss of certain intellectual property rights by EDT's collaborators could have a consequential effect on its revenues. This could have a material adverse effect on EDT's business, financial condition, results of operations and prospects.

EDT and its product collaborators are pursuing a number of Paragraph IV lawsuits with generic manufacturers that, if unsuccessful, could result in generic competitors to EDT's or its collaborators' marketed products and a potential reduction in product revenue.

EDT and/or its product collaborators are involved in various sets of patent infringement litigations (also known as Paragraph IV litigations in the United States) in Canada, France and the United States. These actions and litigation could be costly and time consuming to defend and may not be successful.

In the United States, putative generics of innovator drug products (including products in which the innovation comprises a new drug delivery method for an existing product, such as the drug delivery market occupied by EDT) may file Abbreviated New Drug Applications, which are referred to in this proxy statement/prospectus as ANDAs, and, in doing so, they are not required to include preclinical and clinical data to establish the safety and effectiveness of their drug. Instead, they would rely on such data provided in the innovator drug New Drug Application, which is referred to in this proxy statement/prospectus as an NDA. However, to benefit from this less costly abbreviated procedure, the ANDA applicant must demonstrate that its drug is generic or bioequivalent to the innovator drug, and, to the extent that patents protecting the innovator drug are listed in the Orange Book, the ANDA applicant must write to the innovator NDA holder and the patent holder (to the extent that the Orange Book-listed patents are not owned by the innovator NDA holder) certifying that its product either does not infringe the innovator's and, if applicable, the patent holder's patents and/or that the relevant patents are invalid. The innovator and the patent holder may sue the ANDA applicant within 45 days of receiving the certification and, if they do so, the Food and Drug Administration, which is referred to in this proxy statement/prospectus as the FDA, may not approve the ANDA for 30 months from the date of certification unless, at some point before the expiry of those 30 months, a court makes a final decision in the ANDA applicant's favor.

EDT is involved in a number of Paragraph IV litigations and similar suits outside of the United States in respect of six different products (*TriCor* (registered trademark of Fournier Industrie et Sante (S.A.S.)), *Focalin XR*®, *Avinza*®,

Zanaflex® (registered trademark of Acorda Therapeutics, Inc.), *Rapamune*® (registered trademark of Wyeth LLC) and *Luvox CR*® (registered trademark of Abbott Products, Inc.) either as plaintiff or as an interested party (where the suit is being brought in the name of one of EDT's collaborators). EDT has recently received a Paragraph IV certification with respect to *Megace*® ES.

Table of Contents

If EDT is unsuccessful in these and other similar suits, EDT or its collaborators' products may be subject to generic competition, its manufacturing revenue and royalties could be materially and adversely affected and generic manufacturers may be entitled to market generic products that compete with EDT's or its collaborators' marketed products which may result in a loss of product revenue and could have a material adverse effect on EDT's business, financial condition, results of operations and prospects.

Risks Related to the Proposed Transactions

Alkermes and Elan must obtain required approvals and governmental and regulatory consents to consummate the business combination, which, if delayed, not granted or granted with unacceptable conditions, may jeopardize or delay the consummation of these transactions, result in additional expenditures of money and resources and/or reduce the anticipated benefits of the business combination.

The business combination is subject to customary closing conditions. These closing conditions include, among others, the receipt of required approvals of Alkermes shareholders, the effectiveness of the registration statement and the expiration or termination of the waiting period under the HSR Act.

The governmental agencies from which the parties will seek certain of these approvals have broad discretion in administering the governing regulations. As a condition to their approval of the business combination, agencies may impose requirements, limitations or costs or require divestitures or place restrictions on the conduct of New Alkermes business after the closing. These requirements, limitations, costs, divestitures or restrictions could jeopardize or delay the consummation of the business combination or may reduce the anticipated benefits of the business combination. Further, no assurance can be given that the required shareholder approval will be obtained or that the required closing conditions will be satisfied, and, if all required consents and approvals are obtained and the closing conditions are satisfied, no assurance can be given as to the terms, conditions and timing of the approvals. If Alkermes and Elan agree to any material requirements, limitations, costs, divestitures or restrictions in order to obtain any approvals required to consummate the business combination, these requirements, limitations, costs, divestitures or restrictions could adversely affect New Alkermes' ability to integrate Alkermes' operations with EDT operations or reduce the anticipated benefits of the business combination. This could result in a failure to consummate these transactions or have a material adverse effect on New Alkermes' business and results of operations.

Failure to consummate the business combination could negatively impact the stock price and the future business and financial results of Alkermes and/or Elan.

If the business combination is not consummated, the ongoing businesses of Alkermes and/or Elan may be adversely affected and, without realizing any of the benefits of having consummated the merger, Alkermes and/or Elan will be subject to a number of risks, including the following:

Alkermes may be required to pay to Elan or Elan may be required to pay to Alkermes a termination fee of \$25 million if the business combination and merger are not consummated under certain circumstances, as described in the merger agreement and summarized under the caption *The Business Combination Agreement and Plan of Merger – Termination of the Merger Agreement* ;

Alkermes and/or Elan will be required to pay certain costs relating to the proposed business combination, including legal, accounting, filing and possible other fees and mailing, financial printing and other expenses in connection with the transactions whether or not the business combination is consummated; or

matters relating to the business combination (including integration planning) may require substantial commitments of time and resources by Alkermes management and EDT management, which could otherwise have been devoted to other opportunities that may have been beneficial to Elan, EDT, Alkermes or New Alkermes, as the case may be.

Alkermes and/or Elan also could be subject to litigation related to any failure to consummate the business combination or merger or related to any enforcement proceeding commenced against Alkermes and/or Elan to perform their respective obligations under the merger agreement. If the business combination is not

Table of Contents

consummated, these risks may materialize and may adversely affect Alkermes and/or Elan's business, financial results and stock price.

New Alkermes may fail to realize benefits estimated as a result of the business combination.

The success of the combination of the businesses of Alkermes and EDT will depend, in part, on New Alkermes' ability to realize the anticipated synergies, business opportunities and growth prospects from combining the businesses. New Alkermes may never realize these anticipated synergies, business opportunities and growth prospects. Integrating operations will be complex and will require significant efforts and expenditures. Employees might leave or be terminated because of the merger. New Alkermes' management might have its attention diverted while trying to integrate operations and corporate and administrative infrastructures. Assumptions underlying estimates of expected cost savings may be inaccurate and general industry and business conditions might deteriorate. If any of these factors limit New Alkermes' ability to integrate the operations of Alkermes with those of EDT successfully or on a timely basis, the expectations of future results of operations, including certain cost savings and synergies expected to result from the business combination, might not be met.

Alkermes' and EDT's business relationships, including customer relationships, may be subject to disruption due to uncertainty associated with the business combination.

Parties with which Alkermes and EDT currently do business or may do business in the future, including customers and suppliers, may experience uncertainty associated with the business combination, including with respect to current or future business relationships with Alkermes, EDT or New Alkermes. As a result, Alkermes' and EDT's business relationships may be subject to disruptions if customers, suppliers and others attempt to negotiate changes in existing business relationships or consider entering into business relationships with parties other than Alkermes or EDT. For example, many of EDT's customers and collaborators have contractual consent rights or termination rights that may be triggered by a change of control of EDT. In addition, the contract manufacturing business of New Alkermes could be impaired if existing or potential customers of Alkermes or EDT determine not to continue or initiate contract manufacturing relationships with New Alkermes. These disruptions could have an adverse effect on the businesses, financial condition, results of operations or prospects of New Alkermes following the closing. The adverse effect of such disruptions could be exacerbated by a delay in the consummation of the business combination and merger or termination of the merger agreement.

Loss of key personnel could lead to loss of customers and a decline in revenues, adversely affect the progress of pipeline products or otherwise adversely affect the operations of Alkermes, EDT and New Alkermes.

Current and prospective employees of Alkermes and EDT might experience uncertainty about their future roles with New Alkermes following completion of the business combination, which might adversely affect Alkermes', EDT's and New Alkermes' ability to retain key managers and other employees. In particular, the closure of EDT's King of Prussia facility, which has been a principal center for EDT's *Nanocrystal* technology platform, could adversely affect the development of pipeline products using such technology. Although EDT believes it has put in place sufficient plans, including transitioning the roles of employees at this location, to mitigate this risk, there is no assurance that the closure will not adversely affect the development of products using this technology. In addition, competition for qualified personnel in the biotechnology industry may be very intense. The success of New Alkermes after the completion of the business combination will depend, in part, upon its ability to retain key employees. See *The Business Combination - Interests of Certain Persons in the Transactions*. If Alkermes or EDT loses key personnel or New Alkermes is unable to attract, retain and motivate qualified individuals or the associated costs to New Alkermes increase significantly, Alkermes' business and New Alkermes' business could be adversely affected.

Table of Contents

Alkermes may waive one or more of the conditions to the merger without resoliciting shareholder approval.

Alkermes may determine to waive, in whole or in part, one or more of the conditions to its obligations to complete the merger, to the extent permitted by applicable laws. Alkermes board of directors will evaluate the materiality of any such waiver and its effect on Alkermes shareholders in light of the facts and circumstances at the time to determine whether amendment of this proxy statement/prospectus and resolicitation of proxies is required or warranted. In some cases, if Alkermes board of directors determines that such a waiver is warranted but that such waiver or its effect on Alkermes shareholders is not sufficiently material to warrant resolicitation of proxies, Alkermes has the discretion to complete the merger without seeking further shareholder approval. Any determination whether to waive any condition to the merger or as to resoliciting shareholder approval or amending this proxy statement/prospectus as a result of a waiver will be made by the Alkermes board of directors at the time of such waiver based on the facts and circumstances as they exist at that time.

Alkermes directors and executive officers have interests in the business combination in addition to those of shareholders.

In considering the recommendations of the Alkermes board of directors with respect to the merger agreement, you should be aware that some Alkermes directors and executive officers have financial and other interests in the proposed transactions in addition to interests they might have as shareholders. See *The Business Combination Interests of Certain Persons in the Transactions*. In particular, members of Alkermes board of directors and executive officers will become directors and executive officers of New Alkermes. You should consider these interests in connection with your vote on the related proposal.

The presence of a significant shareholder may affect the ability of a third party to acquire control of New Alkermes.

Elan will beneficially own approximately 25% of the outstanding New Alkermes ordinary shares immediately following the closing. These shares will be subject to the terms of the shareholder's agreement. See *Other Related Agreements Shareholder's Agreement*. The shareholder's agreement will generally entitle the Elan Shareholder to appoint one independent director to the New Alkermes board of directors so long as Elan continues to hold at least 10% of the outstanding voting securities of New Alkermes. Although this director will not constitute a majority of the board of directors, he or she may exercise influence over the decisions of the board.

Having the Elan Shareholder as a significant shareholder of New Alkermes may have the effect of making it more difficult for a third party to acquire, or of discouraging a third party from seeking to acquire, a majority of the outstanding New Alkermes ordinary shares in a public takeover offer (whether by means of a voluntary bid or scheme of arrangement), or control of the New Alkermes board of directors through a proxy solicitation. In that regard, Elan and its affiliates will be obligated pursuant to the shareholder's agreement not to tender any New Alkermes ordinary shares in any tender or exchange offer that the board of directors recommends that the New Alkermes shareholders reject.

For at least one year following the closing, the shareholder's agreement will obligate the Elan Shareholder to vote on all matters in accordance with the recommendation of the New Alkermes board of directors. Thereafter, the Elan Shareholder will remain obligated to vote in accordance with the board's recommendation for so long as Elan beneficially owns more than 15% of the outstanding voting securities of New Alkermes or the 30-day volume weighted average trading price of New Alkermes ordinary shares is at least \$7.595.

Existing Alkermes shareholders will own a smaller share of New Alkermes following completion of the merger.

Following completion of the merger, Alkermes shareholders will own the same number of shares of New Alkermes that they owned in Alkermes immediately before the closing. Each New Alkermes ordinary share,

Table of Contents

however, will represent a smaller ownership percentage of a significantly larger company. Alkermes shareholders, who currently own 100% of the outstanding Alkermes common stock, will, immediately following the merger, own approximately 75% of the total outstanding New Alkermes ordinary shares, with the Elan Shareholder owning the remaining approximately 25%.

The New Alkermes ordinary shares to be received by Alkermes shareholders in connection with the merger will have different rights from the shares of Alkermes common stock.

Upon consummation of the merger, Alkermes shareholders will become New Alkermes shareholders and their rights as shareholders will be governed by New Alkermes memorandum and articles of association. The rights associated with Alkermes common stock are different from the rights associated with New Alkermes ordinary shares. See

Comparison of the Rights of Holders of Alkermes Common Stock and New Alkermes Ordinary Shares.

Until the completion of the business combination or the termination of the merger agreement in accordance with its terms, Alkermes and/or Elan are prohibited from entering into certain transactions that might otherwise be beneficial to Alkermes and/or Elan or their respective shareholders.

During the period that the merger agreement is in effect, other than with Elan's written consent, Alkermes is prohibited from, and other than with Alkermes' written consent, Elan is prohibited from making any acquisition that would be reasonably likely to prevent the merger from occurring prior to November 5, 2011. During the period the merger agreement is in effect, except as permitted by certain limited exceptions in the merger agreement or required by their fiduciary duties and subject to the other requirements of the merger agreement, (i) Alkermes may not, among other things, solicit, participate in any discussion or negotiations, provide information to any third party or enter into any agreement providing for the acquisition of Alkermes, (ii) Elan may not, among other things, solicit, participate in any discussion or negotiations, provide information to any third party or enter into any agreement providing for the acquisition of EDT, and (iii) the Alkermes board of directors may not withdraw or adversely modify its recommendation of approval by the Alkermes shareholders of adoption of the merger agreement. The foregoing prohibitions could have the effect of delaying other strategic transactions and may, in some cases, make it impossible to pursue other strategic transactions that are available only for a limited time.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This proxy statement/prospectus and the documents incorporated into it by reference contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, which is referred to in this proxy statement/prospectus as the Securities Act, and Section 21E of the Exchange Act that involve risks and uncertainties. All statements, trend analyses and other information contained herein about the markets for the services and products of New Alkermes, Alkermes and EDT and trends in revenue, as well as other statements identified by the use of forward-looking terminology, including anticipate, believe, plan, estimate, expect, goal and intend, or the use of these terms or other similar expressions, constitute forward-looking statements. These forward-looking statements are based on estimates reflecting the best judgment of the senior management of Alkermes and EDT. These forward-looking statements involve a number of risks and uncertainties that could cause actual results to differ materially from those suggested by the forward-looking statements. Forward-looking statements should therefore be considered in light of various important factors, including those set forth in this proxy statement/prospectus. Important factors that could cause actual results to differ materially from estimates or projections contained in the forward-looking statements include the following:

the timing of the completion of the merger;

the failure of the Alkermes shareholders to approve the adoption of the merger agreement;

the possibility that the businesses of Alkermes and EDT may suffer as a result of the uncertainty surrounding the business combination;

the failure to obtain and retain expected synergies from the proposed business combination;

rates of success in executing, managing and integrating key acquisitions and transactions, including the proposed business combination;

the ability to achieve business plans for the combined company;

the ability to manage and maintain key collaboration agreements;

the conditions to the completion of the proposed business combination may not be satisfied;

Voting Your Shares

Alkermes shareholders may vote in person at the special meeting or by proxy. Alkermes recommends that you submit your proxy even if you plan to attend the special meeting. If you vote by proxy, you may change your vote, among other ways, if you attend and vote at the special meeting.

If you own stock in your own name, you are considered, with respect to those shares, the shareholder of record. If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial owner of shares held in street name.

If you are a shareholder of record you may use the enclosed proxy card(s) to tell the persons named as proxies how to vote your shares. If you properly complete, sign and date your proxy card(s), your shares will be voted in accordance with your instructions. The named proxies will vote all shares at the meeting for which proxies have been properly submitted and not revoked. If you sign and return your proxy card(s) but do not mark your card(s) to tell the proxies how to vote, your shares will be voted **FOR** the proposals to adopt the merger agreement, to create distributable reserves of New Alkermes and to adjourn the special meeting.

Alkermes shareholders may also vote over the Internet at www.envisionreports.com/alks or by telephone at 1-800-652-8683. Voting instructions are printed on the proxy card or voting information form you received. Either method of submitting a proxy will enable your shares to be represented and voted at the special meeting.

Voting Shares Held in Street Name

If your shares are held in an account through a broker, bank or other nominee, you must instruct the broker, bank or other nominee how to vote your shares by following the instructions that the broker, bank or other nominee provides you along with this proxy statement/prospectus. If you do not provide voting instructions to your broker, your shares will not be voted on any proposal on which your broker does not have discretionary authority to vote. This is referred to in this proxy statement/prospectus and in general as a broker non-vote. In these cases, the broker, bank or other nominee will not be able to vote your shares on those matters for which specific authorization is required; if the

broker, bank or other nominee votes on a matter other than a procedural matter, your shares will be treated as present at the special meeting for purposes of determining the presence of a quorum. Brokers do not have discretionary authority to vote on the proposal to adopt the merger agreement.

THE BUSINESS COMBINATION

The Reorganization of EDT

EDT operates as a business unit of Elan with its principal assets held by various Elan legal entities predominantly located in Ireland.

Prior to the effective time of the merger, and in accordance with the merger agreement, Elan, certain of its subsidiaries and New Alkermes will carry out a reorganization that carves out the assets and legal entities that comprise the EDT business and repositions them under New Alkermes. The reorganization will consist of a series of asset transfers, share transfers and other inter-company transfers following which the EDT business will be contained in its own corporate structure under New Alkermes, which, prior to the effective time of the merger, will be an indirect subsidiary of Elan. As of the date of this proxy statement/prospectus certain steps in respect of the reorganization have already been completed.

The reorganization will result in (i) the Elan Shareholder beneficially owning 31,900,007 New Alkermes ordinary shares and the Euro Share Capital, which will constitute all of the then-issued share capital of New Alkermes and (ii) New Alkermes owning, indirectly, the equity interests in the companies that carry out the EDT business, and (with certain identified exceptions and additions), owning all of the right, title and interest to the EDT business.

The Merger

Following the reorganization, Merger Sub, which will be an indirect wholly-owned subsidiary of New Alkermes, will merge with and into Alkermes, with Alkermes as the surviving corporation and a wholly-owned indirect subsidiary of New Alkermes. At the effective time, (i) each share of Alkermes common stock then issued and outstanding and all associated rights will be canceled and automatically converted into and become the right to receive one ordinary share of New Alkermes; (ii) all currently issued and outstanding options to purchase Alkermes common stock granted under any stock option plan will be converted into options to purchase, on substantially the same terms and conditions, the same number of New Alkermes ordinary shares at the same exercise price; and (iii) all currently issued and outstanding awards of Alkermes common stock will be converted into awards of the same number of New Alkermes ordinary shares on substantially the same terms and conditions. As a result, upon consummation of the merger and the issuance of the New Alkermes ordinary shares in exchange for the canceled shares of Alkermes common stock, the former shareholders of Alkermes will own approximately 75% of New Alkermes and the Elan Shareholder will beneficially own the remaining approximately 25% of New Alkermes, subject to the terms of the shareholder's agreement.

Present at the meeting were representatives of Alkermes senior management, representatives of Morgan Stanley and a representative of Cleary Gottlieb. Prior to the meeting, the members of the Alkermes board of directors had been provided with a summary of the merger agreement and shareholder s agreement and copies of the most recent drafts thereof, preliminary tax memoranda from Alkermes legal and tax advisers, and a memoranda detailing the duties of directors in considering the business combination, as prepared by Cleary Gottlieb. Following substantial discussion of these and other matters, Morgan Stanley presented to the Alkermes board of directors their preliminary analysis of the fairness of the price to be paid by Alkermes for EDT. The Morgan Stanley representatives provided an overview of the key transaction terms, a review, based on management forecasts and assumptions, of key operating assumptions for EDT, financial forecasts for EDT, and potential transaction synergies, a valuation of EDT using various methodologies, the pro forma business and financial profile of the combined business, and an intrinsic value analysis of the combined business. then reviewed the materials provided to the Alkermes board of directors at the prior day's meeting, discussed with the Alkermes board of directors its financial analysis of the proposed business combination, and delivered its oral opinion to the Alkermes board of directors, which opinion was confirmed in writing to the effect that on May 8, 2011 and based upon

and subject to the various assumptions, considerations, qualifications and limitations set forth in the written opinion (see *The Business Combination Opinion of Alkermes Financial Adviser*) the consideration to be paid by Alkermes pursuant to the merger agreement was fair from a financial point of view to Alkermes (Morgan Stanley's opinion is attached as Annex B to this proxy statement/prospectus). The Alkermes board of directors generally discussed the materials provided to them regarding the proposed business combination by Alkermes management and Alkermes advisers and indicated that those materials were thorough, complete and allowed them to undertake a sound decision-making process regarding the proposed business combination. The members of the Alkermes board of directors present at the meeting then approved the merger agreement, the form of the shareholder's agreement and the business combination, and the commitment letter and related documents. The Alkermes board members present at the meeting determined that the merger agreement, the form of shareholder's agreement and the business combination are advisable and in the best interests of Alkermes and its shareholders and authorized the appropriate officers of Alkermes to finalize, execute and deliver the merger agreement, the commitment letter, the fee letter and the ancillary agreements.

On May 9, 2011, the Elan board of directors convened a special meeting and determined that the business combination and the transactions contemplated by the merger agreement are in the best interests of Elan and approved the merger agreement and its execution for and on behalf of Elan.

In the morning of May 9, 2011, all agreements were finalized and the merger agreement was executed by and among Elan, New Alkermes, Elan Science Four Limited, EDT Pharma Holdings Limited, EDT US Holdco Inc., Antler Acquisition Corp., and Alkermes, the commitment letter and fee letter were executed by and among Alkermes, MSS and HSBC and other relevant documents were executed between Alkermes and Elan. Prior to the opening of trading on NASDAQ, Alkermes and Elan issued a joint press release announcing the business combination.

Alkermes Reasons for the Business Combination and Recommendation of Alkermes Board of Directors

The Alkermes board of directors has determined that the terms of the merger agreement are in the best interests of Alkermes and its shareholders. The Alkermes board of directors consulted with its management as well as its legal counsel and financial advisers in reaching its decision to approve, adopt and declare advisable the merger agreement and the business combination (including the merger and the reorganization) and recommends to the Alkermes shareholders that they vote **FOR** adoption of the merger agreement.

In reaching its conclusion to approve the merger agreement and the business combination, the Alkermes board of directors reviewed a significant amount of information and considered a number of factors in its deliberations and concluded that the business combination is likely to result in significant strategic and financial benefits to New Alkermes, which would accrue to Alkermes shareholders, as shareholders of New Alkermes, and in particular believes that:

combining Alkermes and EDT will create a larger, faster growing biopharmaceutical company that is immediately and sustainably profitable on a cash earnings basis with growing revenues in excess of \$450 million and growing margins of adjusted EBITDA;

New Alkermes will have a diversified portfolio of products including five key products with long patent lives: *Ampyra*, *Vivitrol*, *Bydureon*, *Risperdal Consta* and *Invega Sustenna*;

New Alkermes will be a leader in the development of medicines for the treatment of central nervous system diseases with an established track record of successful innovation. It will have a powerful combination of commercial stage products and new pipeline candidates developed in collaboration with major pharmaceutical companies and for its own account;

New Alkermes will have deep scientific, development and manufacturing capabilities which will provide competitive advantages in the creation of innovative biopharmaceutical products for itself and its partners;

Table of Contents

New Alkermes will have the scale, diversification and technical and manufacturing capabilities to accelerate the ongoing business transition from a provider of drug delivery technologies and services to a developer of proprietary innovative pharmaceutical products; and

New Alkermes will have enhanced financial resources to invest in its proprietary drug candidates, pursue additional growth opportunities and reduce its cost of capital.

These beliefs are based in part on the following factors that the Alkermes board of directors considered:

the anticipated market capitalization, strong balance sheet, free cash flow, liquidity and capital structure of New Alkermes;

the significant value represented by the expected increased cash flow and earnings improvement of New Alkermes;

that Alkermes' and EDT's intellectual property portfolios, product lines and geographic scopes are generally complementary, and do not present areas of significant overlap, and that in particular, New Alkermes will receive royalties from two important long-acting injectable antipsychotic drugs, *Risperdal Consta* and *Invega Sustenna*;

that New Alkermes will have manufacturing facilities with unique and complementary capabilities to manufacture complex drug formulations in Athlone, Ireland, Gainesville, Georgia and Wilmington, Ohio;

that, subject to certain limited exceptions, Elan is prohibited from soliciting, participating in any discussion or negotiations, providing information to any third party or entering into any agreement providing for the acquisition of New Alkermes;

the limited number and nature of the conditions to Elan's obligation to complete the business combination;

that Elan must pay Alkermes a termination fee of \$25 million if the merger agreement is terminated under circumstances specified in the merger agreement, as described in the section entitled *The Business Combination Agreement and Plan of Merger – Termination Fee* ;

the fact that any New Alkermes ordinary shares issued to the Alkermes shareholders as a result of the merger will be registered on Form S-4 and will be unrestricted for the Alkermes shareholders;

the fact that the business combination is subject to the adoption of the merger agreement by the Alkermes shareholders;

the likelihood that the business combination will be completed on a timely basis;

its knowledge of the Alkermes business, operations, financial condition, earnings, strategy and future prospects;

its knowledge of the EDT business, operations, financial condition, earnings, strategy and future prospects and the results of Alkermes' due diligence review of EDT;

the financial statements of EDT;

the likelihood that Alkermes would be able to obtain the necessary financing given the financing commitments from the commitment parties;

the current and prospective competitive climate in the industry in which Alkermes and EDT operate, including the potential for further consolidation;

the tax benefits to New Alkermes as an Irish tax resident and incorporated corporation, the benefits of which would accrue to Alkermes shareholders, as shareholders of New Alkermes;

the presentation and the financial analyses of Morgan Stanley and its opinion that, as of May 8, 2011, and based upon the various assumptions, considerations, qualifications and limitations set forth in its

Table of Contents

written opinion, the consideration to be paid by Alkermes pursuant to the merger agreement was fair from a financial point of view to Alkermes, in each case as more fully described in the section entitled *The Business Combination Opinion of Alkermes Financial Adviser* ;

its consideration with its legal and financial advisers of alternatives to the business combination, the ability, and extent to which it might be able, to increase the value of Alkermes for its shareholders through these alternatives and the timing and likelihood of effecting any alternative;

the current and prospective economic environment and increasing competitive burdens and constraints facing Alkermes;

Elan's agreement to limit its competitive activities for three years after the completion of the business combination; and

the terms of the shareholder's agreement to be entered into in connection with the business combination, including the standstill, lock-up and voting provisions as described in the section entitled *Other Related Agreements Shareholder's Agreement*.

The Alkermes board of directors weighed these factors against a number of uncertainties, risks and potentially negative factors relevant to the business combination, including the following:

the combination of the businesses currently conducted by Alkermes and EDT will create numerous risks and uncertainties which could adversely affect New Alkermes' operating results;

uncertainties associated with New Alkermes may cause the combined business to lose significant business partners, including pharmaceutical companies who are in discussions with EDT to provide contract manufacturing services;

the existing and potential challenges by generic companies to the intellectual property rights covering certain of EDT's products;

the risk that New Alkermes may lose key personnel, which could lead to loss of partners and a decline in revenues, or otherwise adversely affect the operations of the combined business;

the risk of not being able to realize all of the anticipated cost savings and operational synergies between Alkermes and EDT and the risk that other anticipated benefits to New Alkermes might not be realized;

the risk that regulatory agencies may not approve the merger or may impose terms and conditions on their approvals that adversely affect the business and financial results of New Alkermes (see *The Business Combination Regulatory Approvals Required*);

the risk that the business combination might not be consummated in a timely manner or at all;

failure to complete the business combination could cause Alkermes to incur significant fees and expenses and could lead to negative perceptions among investors, potential investors and customers;

the business combination is expected to be taxable to the Alkermes shareholders;

New Alkermes does not expect to pay dividends in the immediate future, and Alkermes shareholders must rely on increases in the trading prices of the New Alkermes ordinary shares for returns on their investment;

Elan's ability to compete with New Alkermes without restriction three years after the effective time of the merger;

New Alkermes may have potential conflicts of interest with Elan relating to their ongoing relationship;

subject to the terms of the shareholder's agreement, Elan will have rights reflecting its approximately 25% interest in New Alkermes. As a result, the ability of Alkermes shareholders to influence the outcome of matters requiring shareholder approval could be limited if the voting provisions of the shareholder's agreement lapse after the completion of the business combination;

Table of Contents

the fact that the merger agreement prohibits Alkermes from taking a number of actions relating to the conduct of its business prior to the completion of the business combination without the prior consent of Elan;

the fact that certain provisions of the merger agreement, although reciprocal, may have the effect of discouraging alternative acquisition transactions involving Alkermes, including: (1) the restrictions on Alkermes' ability to solicit proposals for alternative transactions; and (2) the requirement that Alkermes pay a termination fee of \$25 million to Elan in certain circumstances following the termination of the merger agreement;

the increased leverage of New Alkermes, which will result in interest payments and could negatively affect the combined business' credit ratings, limit access to credit markets or make such access more expensive and reduce operational and strategic flexibility; and

the risks of the type and nature described under the sections entitled *Risk Factors* and *Cautionary Statement Regarding Forward-Looking Statements*.

The Alkermes board of directors concluded that the uncertainties, risks and potentially negative factors relevant to the business combination were outweighed by the potential benefits that it expected Alkermes and the Alkermes shareholders would achieve as a result of the business combination.

This discussion of the information and factors considered by the Alkermes board of directors includes the principal positive and negative factors considered by the Alkermes board of directors, but is not intended to be exhaustive and may not include all of the factors considered by the Alkermes board of directors. In view of the wide variety of factors considered in connection with its evaluation of the merger and the business combination, and the complexity of these matters, the Alkermes board of directors did not find it useful and did not attempt to quantify or assign any relative or specific weights to the various factors that it considered in reaching its determination to approve the business combination and to make its recommendations to the Alkermes shareholders. Rather, the Alkermes board of directors viewed its decisions as being based on the totality of the information presented to it and the factors it considered. In addition, individual members of the Alkermes board of directors may have given differing weights to different factors.

Morgan Stanley's opinion is directed to the Alkermes board of directors and addresses only the fairness from a financial point of view to Alkermes of the consideration to be paid by Alkermes pursuant to the merger

agreement, as of the date of the opinion. It does not address any other aspects of the transactions, or in any manner address the prices at which the New Alkermes ordinary shares will trade at any time, including following consummation of the business combination, and does not constitute a recommendation to any holder of Alkermes common stock as to how to vote at any shareholders meeting held in connection with the business combination or whether to take any other

Events occurring after May 8, 2011 may affect Morgan Stanley's opinion and the assumptions used in preparing it, and Morgan Stanley did not assume any obligation to update, revise or reaffirm its opinion.

The following is a brief summary of the material analyses performed by Morgan Stanley in connection with its oral opinion and the preparation of its written opinion letter dated May 8, 2011. Some of these summaries of financial analyses include information presented in tabular format. In order to fully understand the financial analyses used by Morgan Stanley, the tables must be read together with the text of each summary. The tables alone do not constitute a complete description of the financial analyses. Various analyses presented below were based on the closing price of Alkermes common stock of \$14.47 per share as of May 6, 2011, the last full trading day prior to the meeting of the Alkermes board of directors to consider and approve, adopt and authorize the merger agreement.

Equity Research Analysts' Estimates of Value. Morgan Stanley reviewed and analyzed values of EDT prepared and published by equity research analysts from April 12, 2011 and prior to April 21, 2011. These values reflected each analyst's estimate of value of EDT. The range of analysts' estimates for EDT was \$700 million to \$1,150 million.

Morgan Stanley noted that the value of the consideration to be paid by Alkermes pursuant to the merger agreement as of May 8, 2011 was approximately \$960 million, based on the closing price of Alkermes common stock of \$14.47 per share as of May 6, 2011.

The value estimates published by equity research analysts are subject to uncertainties, including the future financial performance of EDT and future financial market conditions.

Public Trading Comparables Analysis. Morgan Stanley performed a public trading comparables analysis, which attempts to provide an implied standalone trading value of a company by comparing it to similar companies that are publicly traded. Morgan Stanley compared certain financial information of EDT with comparable publicly available consensus equity research estimates for companies that share similar business characteristics, such as those that operate in the pharmaceutical or drug delivery businesses or those that have similar scale and operating characteristics, which are referred to in this proxy statement/prospectus as the Comparable Companies. The Comparable Companies included the following:

For purposes of this comparative analysis, Morgan Stanley analyzed for each of these Comparable Companies the multiple of aggregate value to estimated earnings before interest, taxes, depreciation and amortization, which is referred to in this proxy statement/prospectus as EBITDA, for calendar year 2011 (in each case, based on publicly available consensus estimates).

Based on the analysis of the relevant metrics for each of the Comparable Companies, Morgan Stanley selected representative ranges of financial multiples and applied these ranges of multiples to the relevant financial statistic for EDT. For the estimated EBITDA for calendar year 2011, Morgan Stanley utilized a set of estimates for EDT developed by the management of Alkermes, which is referred to in this proxy statement/prospectus as the Alkermes Management Case, and a set of estimates for EDT prepared by Elan's management, which is referred to in this proxy statement/prospectus as the Elan Management Case.

Morgan Stanley calculated the estimated implied value of EDT as of May 7, 2011 as follows:

Calendar Year Financial Statistic: Comparable Company

	Multiple Range		Implied Value	
Alkermes Management Case:				
Aggregate Value to Estimated 2011 EBITDA	5.0x	10.0x	\$470 million	\$940 million
Elan Management Case:				
Aggregate Value to Estimated 2011 EBITDA	5.0x	10.0x	\$575 million	\$1,145 million

Morgan Stanley also selected representative ranges of financial multiples and applied these ranges to the relevant financial statistics set forth in the Alkermes Management Case or the Elan Management Case, as applicable, adjusted to reflect the estimate of the value of the possible synergies achievable as a result of the business combination using synergy estimates prepared by Alkermes management. For the estimated EBITDA for calendar year 2011, Morgan Stanley utilized a set of estimates based on the Alkermes Management Case and a set of estimates based on the Elan Management Case, and added the net present value of synergies as estimated by Alkermes management to each of these.

Morgan Stanley calculated the estimated implied value of EDT plus synergies as of May 7, 2011 as follows:

Calendar Year Financial Statistic: Comparable Company

	Multiple Range		Implied Value	
Alkermes Management Case with Synergies:				
Aggregate Value to Estimated 2011 EBITDA	5.0x	10.0x	\$710 million	\$1,180 million
Elan Management Case with Synergies:				
Aggregate Value to Estimated 2011 EBITDA	5.0x	10.0x	\$775 million	\$1,350 million

Morgan Stanley noted that the value of the consideration to be paid by Alkermes pursuant to the merger agreement as of May 8, 2011 was approximately \$960 million, based on the closing price of Alkermes common stock of \$14.47 per share as of May 6, 2011.

No company utilized in the public trading comparables analysis is identical to EDT. In evaluating comparable companies, Morgan Stanley made judgments and assumptions with regard to industry performance, general business, economic, market and financial conditions and other matters, many of which are beyond the control of EDT, such as the impact of competition on EDT and the industry generally, industry growth and the absence of any adverse material change in the financial condition and prospects of EDT or the industry or in the financial markets in general.

Mathematical analysis (such as determining the average or median) is not in itself a meaningful method of using peer group data.

Discounted Cash Flow Analysis. Morgan Stanley calculated a range of values for EDT based on a discounted cash flow analysis to value EDT as a standalone entity as well as an entity incorporating synergies. Morgan Stanley utilized projections from the Alkermes Management Case, an Alkermes Management Case

Table of Contents

incorporating certain upside projections for the EDT product *Ampyra*, which is referred to in this proxy statement/prospectus as *Ampyra* Upside, and described under *Certain Unaudited Financial Projections* below, and the Elan Management Case. Morgan Stanley calculated the net present value of free cash flows for EDT for calendar years 2011 through 2027. These values were discounted to present values as of March 31, 2011 at discount rates ranging from 8.75% to 10.25% to reflect a range of the estimated cost of capital for EDT. In addition, Morgan Stanley used these projections as adjusted to reflect estimated synergies as described above. The cost of capital was estimated using the Capital Asset Pricing Model.

The following table summarizes Morgan Stanley's analysis:

Implied Present Value of EDT

Case	Implied Value	
Alkermes Management Case	\$ 885 million	\$ 930 million
Alkermes Management Case with <i>Ampyra</i> Upside	\$ 975 million	\$ 1,065 million
Elan Management Case	\$ 1,070 million	\$ 1,155 million
Alkermes Management Case including Synergies	\$ 1,085 million	\$ 1,180 million
Alkermes Management Case with <i>Ampyra</i> Upside including Synergies	\$ 1,205 million	\$ 1,310 million
Elan Management Case including Synergies	\$ 1,265 million	\$ 1,365 million

Morgan Stanley noted that the value of the consideration to be paid by Alkermes pursuant to the merger agreement as of May 8, 2011 was approximately \$960 million, based on the closing price of Alkermes common stock of \$14.47 per share as of May 6, 2011.

Leveraged Buyout Analysis. Morgan Stanley performed an illustrative leveraged buyout analysis to estimate the theoretical prices at which a financial sponsor might effect a leveraged buyout of EDT. For purposes of this analysis, Morgan Stanley assumed a transaction date of March 31, 2011. Morgan Stanley utilized projections from the Alkermes Management Case in performing its analysis and analyzed two different scenarios. The Exit Scenario assumed the removal of certain unallocated research and development costs, as well as an exit by the financial sponsor on March 31, 2016 with the valuation of EDT realized by the financial sponsor in such subsequent exit transaction based on a 5.0x to 7.0x aggregate value to next-twelve months EBITDA multiple and estimated total debt and cash for EDT as of March 31, 2016. The Harvest Scenario assumed the removal of all unallocated research and development costs and assumed that the financial sponsor collected excess cash flows through March 31, 2021. In both the Exit Scenario and the Harvest Scenario, maximum debt was assumed to be \$400 million. The implied acquisition price paid by the financial sponsor was based on a hypothetical target range of internal rates of return for the financial sponsor between March 31, 2011 and March 31, 2016 of 17.0% to 22.0%.

The following table summarizes Morgan Stanley's analysis:

Implied Present Value of EDT

Scenario	Implied Value	
Exit Scenario	\$700 million	\$900 million
Harvest Scenario	\$500 million	\$700 million

Morgan Stanley noted that the value of the consideration to be paid by Alkermes pursuant to the merger agreement as of May 8, 2011 was approximately \$960 million, based on the closing price of Alkermes common stock of \$14.47 per share as of May 6, 2011.

Illustrative New Alkermes Intrinsic Value Analysis. Morgan Stanley performed an illustrative intrinsic value analysis of New Alkermes to assess the potential impact on value to Alkermes shareholders. For this analysis, Morgan Stanley used the Alkermes Management Case for the projections for EDT. Morgan Stanley noted that the market value of Alkermes on May 6, 2011 was approximately \$1,456 million. Morgan Stanley also noted that calculation of the intrinsic value based on relative ownership of New Alkermes ordinary shares

Table of Contents

following the business combination (\$1,456 million less 24% of standalone Alkermes, plus 76% of standalone EDT prior to synergies, plus 76% of net operating synergies less 76% of the cash consideration to be paid to Elan) resulted in a value for New Alkermes of \$1,584 million, a 9% increase from the standalone value of Alkermes. Additionally, Morgan Stanley also noted that assuming the *Ampyra* Upside resulted in a value of \$1,680 million, a 15% increase from the standalone value of Alkermes.

In connection with the review of the business combination by the Alkermes board of directors, Morgan Stanley performed a variety of financial and comparative analyses for purposes of rendering its opinion. The preparation of a financial opinion is a complex process and is not necessarily susceptible to a partial analysis or summary description. In arriving at its opinion, Morgan Stanley considered the results of all of its analyses as a whole and did not attribute any particular weight to any analysis or factor it considered. Morgan Stanley believes that selecting any portion of its analyses, without considering all analyses as a whole, would create an incomplete view of the process underlying its analyses and opinion. In addition, Morgan Stanley may have given various analyses and factors more or less weight than other analyses and factors, and may have deemed various assumptions more or less probable than other assumptions. As a result, the ranges of valuations resulting from any particular analysis described above should not be taken to be Morgan Stanley's view of the actual value of EDT. In performing its analyses, Morgan Stanley made numerous assumptions with respect to industry performance, general business and economic conditions and other matters. Many of these assumptions are beyond the control of Alkermes or New Alkermes. Any estimates contained in Morgan Stanley's analyses are not necessarily indicative of future results or actual values, which may be significantly more or less favorable than those suggested by such estimates.

Morgan Stanley conducted the analyses described above solely as part of its analysis of the fairness from a financial point of view of the consideration to be paid by Alkermes pursuant to the merger agreement and in connection with the delivery of its opinion, dated May 8, 2011, to the Alkermes board of directors. These analyses do not purport to be appraisals.

The consideration was determined through arm's-length negotiations between Alkermes and Elan and was approved by the Alkermes board of directors. Morgan Stanley provided advice to Alkermes during these negotiations. Morgan Stanley did not, however, recommend any specific consideration to Alkermes or that any specific consideration constituted the only appropriate consideration for the business combination.

Morgan Stanley's opinion and its presentation to the Alkermes board of directors was one of many factors taken into consideration by the Alkermes board of directors in deciding to approve, adopt and authorize the merger agreement. Consequently, the Morgan Stanley analyses as described above should not be viewed as determinative of the opinion of the Alkermes board of directors with respect to the consideration, or of whether the Alkermes board of directors would have been willing to agree to different consideration.

Alkermes retained Morgan Stanley based upon Morgan Stanley's qualifications, experience and expertise and its knowledge of the business affairs of Alkermes. Morgan Stanley is an internationally recognized investment banking and advisory firm. Morgan Stanley, as part of its investment banking and financial advisory business, is continuously engaged in the valuation of businesses and securities in connection with mergers and acquisitions, negotiated underwritings, competitive biddings, secondary distributions of listed and unlisted securities, private placements and valuations for corporate, estate and other purposes. Morgan Stanley also is engaged in securities underwriting, trading and brokerage activities, foreign exchange, commodities and derivatives trading, prime brokerage, as well as providing investment banking, financing and financial advisory services. Morgan Stanley, its affiliates, directors and officers may at any time invest on a principal basis or manage funds that invest, hold long or short positions, finance positions, and may trade or otherwise structure and effect transactions, for their own account or the accounts of its customers, in debt or equity securities or loans of Alkermes, New Alkermes, Elan, or any other company, or any currency or commodity, that may be involved in the business combination, or any related derivative instrument.

Under the terms of its engagement letter, Morgan Stanley provided Alkermes financial advisory services and a financial opinion in connection with the business combination, and Alkermes has agreed to pay Morgan Stanley a fee for its services of between \$8.5 million and \$11 million, \$250,000 of which was payable upon engagement of Morgan Stanley, \$2 million of which became payable upon execution of the merger agreement

Table of Contents

and the remainder of which is contingent upon the closing of the business combination. In addition, MSSF, an affiliate of Morgan Stanley, is providing to Alkermes a portion of the financing required in connection with the business combination, for which such affiliate will receive fees from Alkermes of approximately \$8.0 million in the aggregate. Morgan Stanley or one or more of its affiliates may also provide financing services to Elan for purposes that are unrelated to the business combination, including restructuring or refinancing Elan's existing debt, in one or more transactions to be executed separately from, and without receipt of internal strategic information from Elan regarding, the business combination. Alkermes has also agreed to reimburse Morgan Stanley for its expenses, including fees of outside counsel and other professional advisers, incurred in connection with its services. In addition, Alkermes has agreed to indemnify Morgan Stanley and its affiliates, their respective directors, officers, agents and employees and each person, if any, controlling Morgan Stanley or any of its affiliates against certain liabilities and expenses, including certain liabilities under the federal securities laws, relating to or arising out of Morgan Stanley's engagement.

In the two years prior to the date of its opinion, Morgan Stanley has provided financial advisory and financing services to Alkermes and Elan and has received fees in connection with certain of such services. Morgan Stanley may also seek to provide such services to New Alkermes, Alkermes and Elan in the future and expects to receive fees for the rendering of these services. Morgan Stanley's opinion was approved by a committee of Morgan Stanley's investment banking and other professionals in accordance with Morgan Stanley's customary practice.

Certain Unaudited Financial Projections

Alkermes and Elan do not, as a matter of course, publicly disclose extended projections of future revenues, earnings or other financial performance, particularly of EDT. New Alkermes has included in this proxy statement/prospectus certain financial projections for EDT that the managements of Alkermes and Elan prepared in connection with the business combination. The projections are included in this proxy statement/prospectus only because such projections were provided to Morgan Stanley, the financial adviser to Alkermes.

These financial projections were not prepared with a view toward public disclosure or compliance with published guidelines of the SEC or the American Institute of Certified Public Accountants for preparation and presentation of prospective financial information, the International Financial Reporting Standards promulgated by the International Accounting Standards Board, which are referred to as IFRS in this proxy statement/prospectus, or U.S. GAAP. Neither PwC, Alkermes' independent registered public accounting firm nor KPMG, Elan and EDT's independent registered public accounting firm, have examined or compiled nor performed any procedures on any of the financial projections, expressed any conclusion or provided any form of assurance with respect to the financial projections and, accordingly, assume no responsibility for them. The reports of the independent registered public accounting firms of Alkermes and EDT, included elsewhere in this proxy statement/prospectus, relate to the historical financial information of Alkermes and EDT, respectively. They do not extend to the financial projections and should not be read to do so. The inclusion of this information in this proxy statement/prospectus should not be regarded as an indication that any of New Alkermes, Alkermes, Elan or any other recipient of this information considered, or now considers, it to be necessarily predictive of future results of EDT. New Alkermes, Alkermes and Elan do not intend to update or otherwise revise the financial projections to correct any errors existing in such projections when made, to reflect circumstances existing after the date when made or to reflect the occurrence of future events even in the event that any or all of the assumptions underlying the financial projections are shown to be in error.

The inclusion of the financial projections in this proxy statement/prospectus shall not be deemed an admission or representation by New Alkermes, Alkermes or Elan that such information is material. As discussed below, the projections were prepared, using many assumptions, for the purpose of facilitating an evaluation of the financial performance of EDT, and due to the inherent uncertainty in these assumptions, the financial projections should not be considered necessarily to have significance outside of this limited and specific context.

The financial projections, a condensed subset of which are set forth below, are based on, among other things, certain assumptions. See *Risk Factors* *Risks Related to EDT*. In order to facilitate the use of the

Table of Contents

financial projections for purposes of evaluating EDT, Alkermes and Elan used independent assumptions to prepare the financial projections, which have not been updated to take into account any circumstances or events occurring after the date the financial projections were prepared and do not necessarily reflect the current expectation of management of Alkermes or Elan and should not be read as such. **The inclusion of the projections should not be regarded as an indication that New Alkermes, Alkermes or Elan considered or now consider them to be a reliable prediction of future results of EDT and you should not rely on them as such.**

Although presented with numerical specificity, financial projections of this type are based on numerous estimates and assumptions that are subject to factors, such as technological progress, operating efficiencies, industry performance, general business, economic, regulatory, market and financial conditions, and the other factors listed in this proxy statement/prospectus under the section entitled *Risk Factors*, which are difficult to predict and most of which are beyond the control of New Alkermes, Alkermes and Elan. These or other factors may cause the financial projections or the underlying assumptions and estimates to be inaccurate. Since the financial projections cover multiple years, such information by its nature becomes less reliable with each successive year. The financial projections also do not take into account any circumstances or events occurring after the date they were prepared, and do not give effect to the business combination, including the merger. Accordingly, there can be no assurance that the financial projections will be realized, and actual results may vary materially from those reflected in the projections. You should read the section entitled *Cautionary Statement Regarding Forward-Looking Statements* for additional information regarding the risks inherent in forward-looking information such as the financial projections.

Certain of the financial projections set forth herein, including EBITDA, may be considered non-U.S. GAAP financial measures. Morgan Stanley understands that Alkermes and Elan believe this information could be useful in evaluating, on a prospective basis, EDT's potential operating performance and cash flow. Non-U.S. GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information presented in compliance with U.S. GAAP, and non-U.S. GAAP financial measures as used by Alkermes and Elan may not be comparable to similarly titled amounts used by other companies.

Elan Management Case for EDT

In the course of discussions relating to the proposed business combination, Elan developed the Elan Management Case, financial projections for EDT for the years ending December 31, 2011, 2012, 2013, 2014, 2015 and 2016. In developing these financial projections, Elan used consensus analyst estimates of product-by-product revenues. The Elan Management Case was prepared by Elan and was furnished to and used by Alkermes and the Alkermes board of directors in connection with its evaluation of the strategic rationale for the business combination. The Elan Management Case was also furnished to Morgan Stanley in connection with the preparation of its opinion as described in the section entitled *The Business Combination Opinion of Alkermes Financial Adviser*.

Alkermes Management Case for EDT

In the course of its due diligence, Alkermes developed the Alkermes Management Case, with financial projections for EDT for the years ending December 31, 2011, 2012, 2013, 2014, 2015 and 2016, 2017, 2018, 2019, 2020 and 2021. to estimate, on a product-by-product basis, future revenues for the EDT products which were then totaled to derive a projected aggregate revenue for EDT. In its base case, Alkermes management assumed no revenues outside the United States for *Ampyra*. Alkermes management then separately added as estimate of future non-U.S. revenues for *Ampyra*, which served as the *Ampyra* Upside Case. The Alkermes Management Case was prepared to assist the Alkermes board of directors in its evaluation of the strategic rationale for the business combination and was furnished to and used by Morgan Stanley in connection with the preparation of its opinion as described in the section entitled *The Business Combination Opinion of Alkermes Financial Adviser*.

Financing Relating to the Business Combination

Alkermes has entered into a debt commitment letter with MSSF and HSBC, pursuant to which MSSF and HSBC have committed, subject to customary conditions as further described below, to provide the First-Lien Term Loan Facility and the Second-Lien Term Loan Facility. The term of the First-Lien Term Loan Facility is six years and the term of the Second-Lien Term Loan Facility is seven years. The newly committed financing, in addition to existing cash balances, will be used to fund the cash portion of the consideration payable in the business combination, to repay and redeem existing indebtedness of Alkermes and New Alkermes and their respective subsidiaries, if any, and to pay transaction fees and expenses. The debt financing commitments are available until November 5, 2011 and are subject to:

consummation of the merger in accordance with the merger agreement, prior to or substantially simultaneously with the funding of the Term Loan Facilities;

the absence of a Business Material Adverse Effect (as defined in the merger agreement) since December 31, 2010 (See *The Business Combination Agreement and Plan of Merger Covenants Additional Agreements*);

the execution and delivery of definitive loan documentation for the Term Loan Facilities, including, but not limited to, credit agreements, security agreements and guaranties;

delivery of certain historical and pro forma financial information for EDT and pro forma financial statements for New Alkermes;

a 20-business-day period (with customary black-out dates) for marketing and syndication of the Term Loan Facilities after delivery by Alkermes of a confidential information memorandum relating to the Term Loan Facilities; and

In the merger agreement, Alkermes has agreed to use its reasonable best efforts to obtain debt financing on the terms and conditions described in the debt commitment letter. (See *The Business Combination Agreement and Plan of Merger Covenants Additional Agreements.*)

Alkermes will advance the expenses of such director or executive officer in connection with his or her defense. Each director or executive officer undertakes to the fullest extent required by law to repay all amounts advanced if it is ultimately determined that he or she is not entitled to be indemnified by Alkermes.

Regulatory Approvals Required***United States Antitrust***

Under the HSR Act, and the rules and regulations promulgated thereunder by the FTC, the business combination cannot be consummated until notifications have been given and certain information has been furnished to the FTC and the Antitrust Division, and specified waiting period requirements have been satisfied. On May 20, 2011, each of Alkermes and EDT filed a Pre-Merger Notification and Report Form pursuant to the HSR Act with the Antitrust Division and the FTC. The waiting period under the HSR Act expired at 11:59 p.m. Eastern Daylight Time on June 20, 2011. Although the waiting period has expired, at any time before the effective time of the merger, the FTC, the Antitrust Division or others could take action under the antitrust laws with respect to the business combination, including seeking to enjoin the proposed transactions or to require the divestiture of certain assets of Alkermes or EDT. There can be no assurance that a challenge to the business combination on antitrust grounds will not be made or, if such a challenge is made, that it would not be successful.

CERTAIN RELATIONSHIPS AND RELATED PERSON TRANSACTIONS

ACCOUNTING TREATMENT OF THE MERGER

The business combination of EDT and Alkermes will be accounted for using the acquisition method of accounting for business combinations with Alkermes being treated as the accounting acquirer under U.S. GAAP. Under this method of accounting, Alkermes will record the acquisition based on the fair value of the consideration given, which includes the market value of its shares issued in connection with the merger (based on the closing price of shares of Alkermes common stock on the closing date of the merger) and the cash consideration paid in the business combination. Alkermes will allocate the purchase price to the identifiable assets acquired and liabilities assumed based on their respective fair values at the date of the completion of the business combination. Any excess of the value of consideration paid over the aggregate fair value of those net assets will be recorded as goodwill.

CERTAIN TAX CONSEQUENCES OF THE MERGER

This section contains a general discussion of the material tax consequences of (i) the merger, (ii) post-merger ownership and disposition of New Alkermes ordinary shares and (iii) post-merger operations of New Alkermes.

The discussion under the caption *Certain Tax Consequences of the Merger – U.S. Federal Income Tax Considerations* addresses (i) application of the U.S. anti-inversion rules to New Alkermes, (ii) the material U.S. federal income tax consequences of the merger to Alkermes and New Alkermes, and (iii) the material U.S. federal income tax consequences to U.S. holders (as defined below) of (a) exchanging Alkermes common stock for New Alkermes ordinary shares in the merger and (b) owning and disposing of New Alkermes ordinary shares received in the merger.

The discussion of the merger and of ownership and disposition of shares received in the merger under *Certain Tax Consequences of the Merger – Irish Tax Considerations* addresses certain Irish tax considerations of the merger and subsequent operations for Alkermes and New Alkermes.

The discussion below is not a substitute for an individual analysis of the tax consequences of the merger, post-merger ownership and disposition of shares or post-merger operations of New Alkermes. You should consult your own tax adviser regarding the particular U.S. (federal, state and local), Irish and other non-U.S. tax consequences of these matters in light of your particular situation.

U.S. Federal Income Tax Considerations

Scope of Discussion

The following is a summary of the material U.S. federal income tax consequences of the merger generally expected to be applicable to the U.S. holders (as defined below) of Alkermes common stock and their receipt of New Alkermes ordinary shares. The summary is based upon the existing provisions of the Code, applicable Treasury Regulations, judicial authority, administrative rulings effective as of the date of hereof, and the income tax treaty between Ireland and the United States, which is referred to in this proxy statement/prospectus as the Tax Treaty. These laws and authorities are subject to change, possibly with retroactive effect. Any such change, which may or may not be retroactive, could alter the tax consequences to the holders of Alkermes and New Alkermes ordinary shares as described herein. The discussion below does not address any state, local or foreign or any U.S. federal tax consequences other than U.S. federal income tax consequences such as estate and gift tax or U.S. Medicare contribution tax consequences that are applicable to the U.S. holder. The tax treatment of the merger to the holders will vary depending upon their particular situations.

The summary below is limited to U.S. holders who hold shares of Alkermes common stock or New Alkermes ordinary shares as capital assets within the meaning of Section 1221 of the Code (generally, property held for investment). The following discussion is intended only as a summary of the material U.S. federal income tax consequences of the merger and does not purport to be a complete analysis or listing of all of the potential tax effects relevant to a decision on whether to approve the merger. In particular, this

Table of Contents

discussion does not deal with all U.S. federal income tax considerations that may be relevant to particular holders in light of their particular circumstances, such as holders who are dealers in securities, who are subject to the alternative minimum tax provisions of the Code, who are non-U.S. persons or entities, that are banks, financial institutions or insurance companies, tax-exempt entities, holders who do not hold their Alkermes common stock as a capital asset at the time of the merger, or their New Alkermes ordinary shares as a capital asset after the merger, holders who acquired their Alkermes common stock in connection with stock option or stock purchase plans or in other compensatory transactions, who hold Alkermes common stock or New Alkermes ordinary shares as part of an integrated investment (including a straddle) comprised of Alkermes common stock or New Alkermes ordinary shares, as the case may be, and one or more other positions, or who may hold Alkermes common stock or New Alkermes ordinary shares subject to the constructive sale provisions of Section 1259 of the Code. If a partnership holds shares of Alkermes common stock or New Alkermes ordinary shares, the tax treatment of a partner generally will depend on the status of the partner and on the activities of the partnership. Partners of partnerships holding Alkermes common stock or New Alkermes ordinary shares should consult their tax advisers. In addition, except as expressly provided below, the following discussion does not address the tax consequences of transactions effectuated prior to, concurrently with or after the merger (whether or not such transactions are in connection with the merger).

For purposes of this discussion, a U.S. holder is a beneficial owner of Alkermes common stock or New Alkermes ordinary shares that is, for U.S. federal income tax purposes, (i) a citizen or resident of the United States, (ii) a U.S. domestic corporation or an entity taxable as a U.S. domestic corporation, (iii) an estate whose income is subject to U.S. federal income tax regardless of its source, (iv) a trust if a U.S. court can exercise primary supervision over the trust's administration and one or more U.S. persons are authorized to control all substantial decisions of the trust.

Alkermes has not requested and does not intend to request a ruling from the IRS and it is possible that the IRS may take different positions concerning the tax consequences of the merger than those stated below and such positions could be sustained.

Tax Consequences of the Merger to Alkermes and New Alkermes

Neither Alkermes nor New Alkermes should be subject to U.S. federal income tax as a result of the merger.

The U.S. Anti-Inversion Rules

As described above under *Risk Factors – Risks Related to New Alkermes*, the IRS may assert as a result of the merger that (1) although New Alkermes is incorporated in Ireland, New Alkermes should be treated as a U.S. corporation (and, therefore, a U.S. tax resident) for U.S. federal income tax purposes, or (2) that Alkermes or New Alkermes may be unable to apply Alkermes' net operating loss carryforwards to offset the taxable income or gain recognized by reason of the transfer by Alkermes of properties, or the license by Alkermes of any property to New Alkermes, as part of the merger (including the IP Transfer) or during the ten-year period following the merger under Section 7874 of the Code. These limitations would apply if the former shareholders of Alkermes hold 80 percent or more (60 percent, in the case of subparagraph (2) above) of the vote or value of the shares of New Alkermes by reason of holding stock in Alkermes, and New Alkermes' expanded affiliated group after the merger does not have substantial business activities in Ireland relative to its worldwide activities.

Alkermes does not believe that either of these limitations should apply as a result of the merger. As a result of the merger, New Alkermes will indirectly acquire all of the assets of Alkermes, and the former shareholders of Alkermes will acquire approximately 75% of the stock in New Alkermes by reason of holding stock in Alkermes, less than the 80 percent needed for New Alkermes to potentially be treated as a U.S. corporation. Therefore, New Alkermes should not be treated as a U.S. corporation for U.S. federal income tax purposes.

In order to avoid precluding Alkermes from using its net operating loss carryforwards to offset taxable income generated by the IP Transfer, which would constitute inversion gain for purposes of Section 7874, the

Table of Contents

expanded affiliated group that includes New Alkermes must have substantial business activities in Ireland after the merger. After the merger, the expanded affiliated group that includes New Alkermes intends to conduct business activities in Ireland that should qualify as substantial business activities for purposes of Section 7874, including continuing the significant amount of business activities that members of the New Alkermes expanded affiliated group currently conduct. Section 7874 does not define the term substantial business activities or otherwise quantify the activities that the foreign corporation and its expanded affiliated group should have in the foreign corporation's country of incorporation. Rather, temporary Treasury Regulations issued under section 7874 of the Code in 2009, which are referred to in this proxy statement/prospectus as the 2009 Regulations, provide a facts and circumstances test that looks to whether a foreign corporation's expanded affiliated group has substantial business activities in the foreign corporation's country of organization relative to its worldwide activities, in order to determine whether the substantial business activities test is satisfied. Among the factors identified are (i) the historical conduct of continuous business activities in the foreign country by the expanded affiliated group; (ii) the conduct of continuous business activities in the foreign country by the expanded affiliated group in the ordinary course of one or more active trades or businesses, involving property located in the foreign country that is owned by members of the expanded affiliated group, the performance of services in the foreign country by employees of the expanded affiliated group, and the sales of goods to customers; (iii) the performance in the foreign country of substantial managerial activities by officers and employees of the expanded affiliated group who are based in the foreign country; (iv) a substantial degree of ownership of the expanded affiliated group by investors resident in the foreign country; and (v) business activities in the foreign country that are material to the achievement of the overall business objectives of the expanded affiliated group.

It is expected that the activities the New Alkermes expanded affiliated group will conduct in Ireland following the merger should satisfy the substantial business activities test set forth in the 2009 Regulations. However, the IRS could assert a contrary position, in which case, New Alkermes could become involved in tax controversy with the IRS regarding possible additional U.S. tax liability. If New Alkermes is unsuccessful in resolving any such tax controversy in its favor, New Alkermes could be liable for significantly greater U.S. federal income tax than New Alkermes anticipates being liable for through the merger and the reorganization, including as a result of the IP Transfer.

Tax Consequences of the Merger to U.S. Holders

While not entirely free from doubt, Alkermes believes that the receipt of the New Alkermes ordinary shares for shares of Alkermes common stock pursuant to the merger should be a taxable transaction for U.S. federal income tax purposes. Under such treatment, in general, for U.S. federal income tax purposes, a U.S. holder will recognize capital gain or loss equal to the difference between the shareholder's adjusted tax basis in the shares of the Alkermes common stock surrendered in the exchange, and the fair market value of the New Alkermes ordinary shares received as consideration in the merger. A U.S. holder's adjusted basis in the shares of Alkermes common stock generally should equal the holder's purchase price for such shares of Alkermes common stock, as adjusted to take into account stock dividends, stock splits, or similar transactions.

A U.S. holder's gain or loss on the receipt of New Alkermes ordinary shares for shares of Alkermes common stock generally will be capital gain or loss. Net capital gain (i.e., generally, capital gain in excess of capital loss) recognized by individuals, estates, and trusts from the sale of property held more than one year would generally be taxed at a rate not to exceed 15% for U.S. federal income tax purposes. Net capital gain from property held for one year or less will be subject to tax at ordinary income tax rates. In addition, capital gains recognized by a corporate taxpayer will be subject to tax at the ordinary income tax rates applicable to corporations. In general, capital losses are deductible only against capital gains and are not available to offset ordinary income. However, individual taxpayers are allowed to offset a limited amount of capital losses against ordinary income.

It is possible that the IRS could assert an alternative characterization of the merger that would prevent a U.S. holder from recognizing taxable loss on the exchange of Alkermes common stock for New Alkermes ordinary shares pursuant to the merger. Under such an alternative characterization, the U.S. holder's basis in New Alkermes ordinary shares received will be the same as the basis of Alkermes common stock surrendered

Table of Contents

in exchange therefor, increased by any gain recognized on the exchange (as determined on a share-by-share basis). The holding period of New Alkermes ordinary shares to be received by a U.S. holder will include the holding period of the Alkermes common stock surrendered in exchange therefor. Under such an alternative characterization, a U.S. holder would still recognize capital gain, if any, on the exchange. U.S. holders are urged to consult their advisers as to the particular consequences of the exchange of Alkermes common stock for New Alkermes ordinary shares pursuant to the merger.

Tax Consequences to U.S. Holders of Holding Shares in New Alkermes

The gross amount of any dividend (including any related applicable dividend withholding tax, which is referred to in this proxy statement/prospectus as DWT) paid by New Alkermes to a U.S. holder out of its current or accumulated earnings and profits (as determined for U.S. Federal income tax purposes) is subject to U.S. Federal income taxation. Dividends paid to a non-corporate U.S. holder prior to January 1, 2013 that constitute qualified dividend income will be taxable to the holder at a maximum federal tax rate of 15% provided that the U.S. holder holds the New Alkermes ordinary shares for more than 60 days during the 121-day period beginning 60 days before the ex-dividend date and the holder meets other holding period requirements. Dividends paid by New Alkermes with respect to its common stock generally will be qualified dividend income. The dividend will not be eligible for the dividends received deduction generally allowed to corporations. The amount of any dividend will be the U.S. dollar value of the euro payment (determined at the spot U.S. dollar/euro exchange rate) on the date of actual or constructive receipt by the U.S. holder, regardless of whether the payment is converted into dollars. Gain or loss, if any resulting from currency exchange fluctuations during the periods from the date or U.S. holder includes the dividend payment on income to the date such U.S. holder converts the payment into U.S. dollars, generally will be ordinary income or loss and will not be eligible for the special tax rate applicable to qualified dividend income and generally will be income or loss from sources within the United States for foreign tax credit limitation purposes. Distributions in excess of current and accumulated earnings and profits, as determined for U.S. Federal income tax purposes, will be treated as a non-taxable return of capital to the extent of the U.S. holder's basis in its shares of New Alkermes ordinary shares, and thereafter as capital gain.

Subject to certain limitations, any Irish tax (including DWT) withheld and paid over to Ireland will be creditable against the U.S. holder's U.S. federal income tax liability. Special rules apply in determining the foreign tax credit limitation with respect to dividends that are subject to the maximum 15% federal tax rate. To the extent a refund of the tax withheld is available to a U.S. holder under Irish law or the Tax Treaty, the amount of tax withheld that is refundable will not be eligible for credit against a U.S. holder's U.S. Federal income tax liability.

Dividends paid by New Alkermes with respect to New Alkermes ordinary shares will be income from sources outside the United States and will, depending on a U.S. holder's circumstances, generally be passive income. For purposes of computing the foreign tax credit affordable to the holder, U.S. holders should consult their own tax advisers concerning the implications of U.S. foreign tax credit rules in light of their particular circumstances.

Gain on Disposition

Upon the sale, exchange or other disposition of New Alkermes ordinary shares, a U.S. holder will recognize gain or loss, if any, equal to the difference between the U.S. dollar amount realized upon the sale, exchange, or other disposition and the U.S. holder's tax basis in the stock. Capital gain of a non-corporate U.S. holder that is recognized before January 1, 2013 is generally taxed at a maximum rate of 15% where the U.S. holder has a holding period greater than one year. The deductibility of capital losses is subject to limitations. The gain or loss will generally be income or loss from sources within the United States for foreign tax credit limitation purposes.

Information Reporting and Backup Withholding

Dividends on New Alkermes ordinary shares paid within the United States or through certain U.S.-related financial intermediaries are subject to information reporting and may be subject to backup withholding (currently at a 28 percent rate) unless the holder (1) is a corporation or other exempt recipient (including generally non-U.S. holders who establish such foreign status) or (2) provides a taxpayer identification number and satisfies certain certification requirements. Information reporting requirements and backup withholding may also apply to the payment of proceeds from a sale (including a redemption) of New Alkermes ordinary shares within the United States. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against the holder's U.S. federal income tax liability, provided that the holder timely furnishes certain required information to the IRS. Holders should consult their tax advisers regarding the application of information reporting and backup withholding to their particular situations.

If a U.S. holder of New Alkermes ordinary shares does not provide New Alkermes (or its paying agent) the holder's correct taxpayer identification number or other required information, the holder may be subject to penalties imposed by the IRS.

THE U.S. FEDERAL INCOME TAX CONSEQUENCES SUMMARIZED ABOVE ARE FOR GENERAL INFORMATION ONLY. EACH HOLDER OF ALKERMES COMMON STOCK OR NEW ALKERMES ORDINARY SHARES SHOULD CONSULT HIS OR HER TAX ADVISER AS TO THE PARTICULAR CONSEQUENCES THAT MAY APPLY TO SUCH HOLDER.

Irish Tax Considerations

Scope of Discussion

The following is a general summary of the main Irish tax considerations applicable to certain beneficial owners of Alkermes shares who receive New Alkermes ordinary shares in the merger and who are the beneficial owners of such New Alkermes ordinary shares. It is based on existing Irish law and practices in effect on the date of this proxy statement/prospectus and on discussions and correspondence with the Irish Revenue Commissioners. Legislative, administrative or judicial changes may modify the tax consequences described below.

The statements do not constitute tax advice and are intended only as a general guide. Furthermore, this information applies only to New Alkermes ordinary shares held as capital assets and does not apply to all categories of shareholders, such as dealers in securities, trustees, insurance companies, collective investment schemes and shareholders who have, or who are deemed to have, acquired their New Alkermes ordinary shares by virtue of an office or employment. This summary is not exhaustive and shareholders should consult their own tax advisers as to the tax consequences in Ireland, or other relevant jurisdictions of the business combination, including the acquisition, ownership and disposition of the New Alkermes ordinary shares.

Irish Tax on Chargeable Gains

The receipt by Alkermes shareholders of New Alkermes ordinary shares as consideration for the cancellation of their Alkermes shares in the merger will not give rise to a liability to pay Irish tax on chargeable gains for persons that are not resident or ordinarily resident in Ireland for Irish tax purposes and do not hold such shares in connection with a trade or business carried on by such holder in Ireland through a branch or agency.

Alkermes shareholders who are resident or ordinarily resident for tax purposes in Ireland, or who hold their shares in connection with a trade or business carried on by such holder in Ireland through a branch or agency, should consult

their own tax advisers as to the Irish tax consequences of the business combination, including the merger.

Table of Contents

Withholding Tax on Dividends

While New Alkermes does not currently intend to pay dividends, distributions made by New Alkermes would generally be subject to DWT, at the standard rate of income tax (currently 20%) unless one of the exemptions described below applies, which New Alkermes believes will be the case for the majority of shareholders. For DWT purposes, a dividend includes any distribution made by New Alkermes to its shareholders, including cash dividends, non-cash dividends and additional stock or units taken in lieu of a cash dividend. New Alkermes is responsible for withholding DWT at source and forwarding the relevant payment to the Irish Revenue Commissioners.

Certain shareholders (both individual and corporate) are also entitled to an exemption from DWT. In particular, a non-Irish resident shareholder is not subject to DWT on dividends received from New Alkermes if the shareholder is:

an individual shareholder resident for tax purposes in a relevant territory, and the individual is neither resident nor ordinarily resident in Ireland. Relevant territories for the purposes of DWT are defined to include: Albania; Australia; Austria; Bahrain; Belarus; Belgium; Bosnia & Herzegovina; Bulgaria; Canada; Chile; China; Croatia; Cyprus; Czech Republic; Denmark; Estonia; Finland; France; Georgia; Germany; Greece; Hong Kong; Hungary; Iceland; India; Israel; Italy; Japan; Korea; Kuwait; Latvia; Lithuania; Luxembourg; Macedonia; Malaysia; Malta; Mexico; Moldova; Montenegro; Morocco; The Netherlands; New Zealand; Norway; Pakistan; Poland; Portugal; Romania; Russia; Serbia; Singapore; Slovak Republic; Slovenia; South Africa; Spain; Sweden; Switzerland; Turkey; United Arab Emirates; United Kingdom; United States; Vietnam; and Zambia;

a corporate shareholder that is not resident for tax purposes in Ireland and which is ultimately controlled, directly or indirectly, by persons resident in a relevant territory ;

a corporate shareholder resident for tax purposes in a relevant territory provided that the corporate shareholder is not under the control, whether directly or indirectly, of a person or persons who is or are resident in Ireland;

a corporate shareholder that is not resident for tax purposes in Ireland and whose principal class of shares (or those of its 75% parent) is substantially and regularly traded on a recognized stock exchange either in a relevant territory or on such other stock exchange approved by the Irish Minister for Finance; or

a corporate shareholder that is not resident for tax purposes in Ireland and is wholly-owned, directly or indirectly, by two or more companies where the principal class of shares of each of such companies is substantially and regularly traded on a recognized stock exchange in a relevant territory or on such other stock exchange approved by the Irish Minister for Finance,

and provided that, in all cases noted above but subject to the matters described below, the shareholder has provided the appropriate forms to his or her broker (and the relevant information is further transmitted to New Alkermes qualifying intermediary) before the record date for the dividend (in the case of shares held beneficially), or to New Alkermes transfer agent at least 14 business days before such record date (in the case of shares held directly).

Should it decide to pay a dividend, New Alkermes will enter into an agreement with an institution which will be recognized by the Irish Revenue Commissioners as a qualifying intermediary prior to paying any dividends or making any distributions. This will satisfy one of the Irish requirements for dividends to be paid free of DWT to certain shareholders who hold their shares through the Depositary Trust Company, which is referred to in this proxy statement/prospectus as DTC, as described below. The agreement will generally provide for certain arrangements relating to cash distributions in respect of those shares of New Alkermes that are held through DTC. The agreement will also provide that the qualifying intermediary shall distribute or otherwise make available to Cede & Co., as

nominee for DTC, any cash dividend or other cash distribution to be made to holders of the deposited securities, after New Alkermes delivers or causes to be delivered to the qualifying intermediary the cash to be distributed.

Table of Contents

New Alkermes will rely on information received directly or indirectly from brokers and its transfer agent in determining where shareholders reside, whether they have provided the required U.S. forms and whether they have provided the required Irish dividend withholding tax forms, as described below. Shareholders who are required to file Irish forms in order to receive their dividends free of DWT should note that such forms are valid for five years and new forms must be filed before the expiration of that period in order to continue to enable them to receive dividends without DWT.

Links to the various Irish Revenue forms are available at:

<http://www.revenue.ie/en/tax/dwt/forms/index.html>.

In most cases, individual shareholders resident in a relevant territory should complete a non-resident Form V2A and corporate (company) shareholders resident in a relevant territory should complete a non-resident Form V2B. Where a shareholder is neither an individual nor a company but is resident in a relevant territory, it should complete a non-resident Form V2C. Please contact your broker or your tax adviser if you have any questions regarding Irish dividend withholding tax.

Shares Held by U.S. Resident Shareholders

Dividends paid on New Alkermes ordinary shares that are owned by residents of the United States and held beneficially through DTC will not be subject to DWT provided that the address of the beneficial owner of the shares in the records of the broker is in the United States. Alkermes strongly recommends that such shareholders ensure that their information has been properly recorded by their brokers (so that such brokers can further transmit the relevant information to New Alkermes qualifying intermediary) by filing a Form W-9 with their broker.

Dividends paid on New Alkermes ordinary shares that are owned by residents of the United States and held directly will not be subject to DWT if the shareholder held shares on the date on which it is publicly announced that the last shareholder vote approving the transactions has been passed, which is referred to as the relevant date in this proxy statement/prospectus, and has provided a valid Form W-9 showing a U.S. address or a valid U.S. taxpayer identification number to New Alkermes transfer agent or if the shareholder became a shareholder after the relevant date and has provided the appropriate Irish dividend withholding tax forms to New Alkermes transfer agent, in either case, at least 14 business days before the record date for the first dividend to which the shareholder is entitled. Alkermes strongly recommends that such shareholders ensure that an appropriate Form W-9 or taxpayer identification number or Irish dividend withholding tax form has been provided to New Alkermes transfer agent.

If any shareholder who is resident in the United States receives a dividend subject to DWT, he or she should generally be able to make an application for a refund from the Irish Revenue Commissioners on the prescribed form.

Shares Held by Residents of Relevant Territories Other Than the United States

Dividends paid to New Alkermes shareholders who are residents of relevant territories other than the United States and (in the case of companies) who are not under the control, directly or indirectly, of a person or persons who are resident in Ireland, generally will not be subject to Irish dividend withholding tax, but those shareholders will need to provide the appropriate tax forms in order to receive their dividends without any Irish dividend withholding tax as summarized below.

Shareholders who are residents of relevant territories other than the United States who acquired their shares on or before the relevant date generally will receive dividends paid on or before one year after the relevant date without any DWT. For shares held beneficially through DTC, dividends will be paid on or before one year after the relevant date

without any DWT if the address of the relevant shareholder in his or her broker's records as evidenced by a Form W-8 is in a relevant territory other than the United States. Alkermes strongly recommends that such shareholders ensure that their information has been properly recorded by their brokers (so that such brokers can further transmit the relevant information to New Alkermes' qualifying intermediary). For shares held directly, dividends will be paid on or before one year after the

Table of Contents

relevant date without any DWT if the shareholder has provided a valid U.S. Form W-8 showing an address in a relevant territory other than the United States to New Alkermes transfer agent at least 14 business days before the record date for the first dividend to which they are entitled. Alkermes strongly recommends that such shareholders ensure that the appropriate tax form has been provided to New Alkermes transfer agent.

Shareholders who are residents of relevant territories other than the United States who acquire all of their shares after the relevant date must complete the appropriate Irish dividend withholding tax forms in order to receive their dividends without DWT. Such shareholders must provide the appropriate Irish dividend withholding tax forms to their brokers (so that such brokers can further transmit the relevant information to New Alkermes qualifying intermediary) before the record date for the first dividend payment to which they are entitled (in the case of shares held beneficially), or to New Alkermes transfer agent at least 14 business days before such record date (in the case of shares held directly). Alkermes strongly recommends that such shareholders complete the appropriate Irish forms and provide them to their brokers or New Alkermes transfer agent, as the case may be, as soon as possible after acquiring their shares.

In addition, all shareholders who are residents of relevant territories other than the United States (regardless of when such shareholders acquired their shares) must complete the appropriate Irish dividend withholding tax forms in order to receive dividends paid later than one year after the relevant date without DWT. Such shareholders must provide the appropriate Irish forms to their brokers (so that such brokers can further transmit the relevant information to New Alkermes qualifying intermediary) before the record date for the first dividend paid later than one year after the relevant date (in the case of shares held beneficially), or to New Alkermes transfer agent at least 14 business days before such record date (in the case of shares held directly). Alkermes strongly recommends that such shareholders complete the appropriate Irish forms and provide them to their brokers or New Alkermes transfer agent, as the case may be, as soon as possible.

Shares Held by Residents of Ireland

Most Irish tax resident or ordinarily resident shareholders (other than Irish resident companies) will be subject to DWT in respect of dividend payments on their New Alkermes ordinary shares.

Shareholders that are residents of Ireland but are entitled to receive dividends without DWT must complete the appropriate Irish forms and provide them to their brokers (so that such brokers can further transmit the relevant information to New Alkermes qualifying intermediary) before the record date for the first dividend to which they are entitled (in the case of shares held beneficially), or to New Alkermes transfer agent at least 14 business days before such record date (in the case of shares held directly). Shareholders who are resident or ordinarily resident in Ireland or are otherwise subject to Irish tax should consult their own tax advisers.

Shares Held by Other Persons

New Alkermes shareholders who do not reside in relevant territories or in Ireland will be subject to DWT, but there are a number of other exemptions that could apply on a case-by-case basis. Dividends paid to such shareholders will be paid subject to DWT unless the relevant shareholder has provided the appropriate Irish dividend withholding tax form to his or her broker (so that such broker can further transmit the relevant information to New Alkermes qualifying intermediary) prior to the record date for the first dividend to which they are entitled (in the case of shares held beneficially), or to New Alkermes transfer agent at least 14 business days before such record date (in the case of shares held directly). Alkermes strongly recommends that such shareholders to whom an exemption applies complete the appropriate Irish forms and provide them to their brokers or New Alkermes transfer agent, as the case may be, as soon as possible.

If any shareholder who is not a resident of a relevant territory or Ireland but is exempt from withholding receives a dividend subject to DWT, he or she may make an application for a refund from the Irish Revenue Commissioners on the prescribed form.

Table of Contents

Income Tax on Dividends Paid on New Alkermes Ordinary Shares

Irish income tax (if any) arises in respect of dividends paid by New Alkermes.

A shareholder who is neither resident nor ordinarily resident in Ireland and who is entitled to an exemption from DWT, generally has no liability for Irish income tax or to the universal social charge on a dividend from New Alkermes unless he or she holds his or her New Alkermes ordinary shares through a branch or agency in Ireland through which a trade is carried on.

A shareholder who is neither resident nor ordinarily resident in Ireland and who is not entitled to an exemption from DWT generally has no additional liability to income tax or to the universal social charge unless he or she holds his or her New Alkermes ordinary shares through a branch or agency in Ireland through which a trade is carried on. The DWT deducted by New Alkermes discharges such liability to Irish income tax provided that the shareholder furnishes the statement of DWT imposed to the Irish Revenue.

A shareholder who is neither resident nor ordinarily resident in Ireland and is resident of a relevant territory or otherwise exempt from Irish dividend withholding tax but who receives dividends subject to DWT should be able to make a reclaim of the DWT from the Irish Revenue Commissioners unless he or she holds his or her New Alkermes ordinary shares through a branch or agency in Ireland through which a trade is carried on.

Irish resident or ordinarily resident shareholders may be subject to Irish tax and/or levies on dividends received from New Alkermes. Such shareholders should consult their own tax advisers.

Capital Acquisitions Tax

Irish capital acquisitions tax, which is referred to in this proxy statement/prospectus as CAT, is comprised principally of gift tax and inheritance tax. CAT could apply to a gift or inheritance of New Alkermes ordinary shares irrespective of the place of residence, ordinary residence or domicile of the parties. This is because New Alkermes ordinary shares are regarded as property situated in Ireland as the share register of New Alkermes must be held in Ireland. The person who receives the gift or inheritance has primary liability for CAT.

CAT is levied at a rate of 25% above certain tax-free thresholds. The appropriate tax-free threshold is dependent upon (i) the relationship between the donor and the donee and (ii) the aggregation of the values of previous gifts and inheritances received by the donee from persons within the same category of relationship for CAT purposes. Gifts and inheritances passing between spouses are exempt from CAT.

Shareholders should consult their own tax advisers as to whether CAT is creditable or deductible in computing any domestic tax liabilities.

Stamp Duty

Irish stamp duty (if any) becomes payable in respect of share transfers occurring after completion of the business combination.

Shares Held through DTC

It is anticipated that the majority of New Alkermes ordinary shares will be held in DTC. Accordingly, for the majority of transfers of New Alkermes ordinary shares, there will not be any Irish stamp duty.

A transfer of New Alkermes ordinary shares from a seller who holds shares through DTC to a buyer who holds the acquired shares through DTC will not be subject to Irish stamp duty.

Shares Held outside of DTC or Transferred into or out of DTC

A transfer of New Alkermes ordinary shares (i) by a seller who holds shares outside of DTC to any buyer, or (ii) by a seller who holds the shares through DTC to a buyer who holds the acquired shares outside

Table of Contents

of DTC, may be subject to Irish stamp duty (currently at the rate of 1% of the price paid or the market value of the shares acquired, if higher) payable by the buyer.

A shareholder who holds New Alkermes ordinary shares outside of DTC may transfer those shares into DTC (or vice versa) without giving rise to Irish stamp duty provided there is no change in the ultimate beneficial ownership of the shares as a result of the transfer and at the time of the transfer into DTC (or out of DTC) there is no sale of the shares to a third party being contemplated by a beneficial owner. In order to benefit from this exemption from Irish stamp duty, the seller must confirm to New Alkermes that there is no change in the ultimate beneficial ownership of the shares as a result of the transfer and there is no agreement for the sale of the shares by the beneficial owner to a third party being contemplated.

Because of the potential Irish stamp duty on transfers of New Alkermes ordinary shares, New Alkermes strongly recommends that all directly registered shareholders open broker accounts so they can transfer their ordinary shares into DTC as soon as possible. New Alkermes also strongly recommends that any person who wishes to acquire New Alkermes ordinary shares after completion of the business combination acquires such shares through DTC.

Payment of Stamp Duty

New Alkermes' official share register must be maintained in Ireland. Registration in this share register will be determinative of shareholding in New Alkermes. Only shareholders of New Alkermes will be entitled to receive dividends. Subject to certain exceptions, only shareholders of New Alkermes will be entitled to vote in general meetings of New Alkermes.

A written instrument of transfer is required under Irish law in order for a transfer of the legal ownership of shares to be registered on New Alkermes' official share register. Such instruments of transfer may be subject to Irish stamp duty, which must be paid prior to the official share register being updated.

A holder of ordinary shares in New Alkermes who holds shares through DTC will not be the legal owner of such shares (instead, the depository (for example, Cede & Co., as nominee for DTC) will be the holder of record of such shares). Accordingly, a transfer of shares from a person who holds such shares through DTC to a person who also holds such shares through DTC will not be registered in New Alkermes' official share register, i.e., the depository will remain the record holder of such shares.

New Alkermes' articles of association, as they will be in effect after the completion of the business combination, are substantially in the form set forth on Annex E to this proxy statement/prospectus and delegate to New Alkermes' secretary the authority to execute an instrument of transfer on behalf of a transferring party, which the secretary may do if for any reason such instrument is required and has not already been lodged with New Alkermes.

To the extent that stamp duty is due but has not been paid, New Alkermes may, in its absolute discretion, pay (or cause one of its affiliates to pay) the outstanding stamp duty in respect of a transfer of shares. New Alkermes' articles of association, as they will be in effect after the completion of the business combination, provide that, in the event of any such payment, New Alkermes (i) may seek reimbursement from the transferor or transferee (at its discretion), (ii) may set-off the amount of the stamp duty against future dividends payable to the transferor or transferee (at New Alkermes' discretion), and (iii) will have a lien against the New Alkermes ordinary shares on which it has paid stamp duty.

IN LIGHT OF THE FOREGOING, HOLDERS ARE URGED TO CONSULT AND MUST RELY ON THE ADVICE OF THEIR OWN TAX ADVISERS REGARDING THE TAX CONSEQUENCES TO THEM OF THE MERGER, INCLUDING APPLICABLE U.S. FEDERAL, STATE, LOCAL, FOREIGN, AND OTHER TAX

CONSEQUENCES.

NO DISSENTING SHAREHOLDERS' RIGHTS

Dissenters' rights are statutory rights that enable shareholders who object to extraordinary transactions, such as mergers, to demand that the corporation pay such shareholder the fair value of their shares as determined by a court in a judicial proceeding instead of receiving the consideration offered to shareholders in connection with the extraordinary transaction. Dissenters' rights are not available in all circumstances and exceptions to those rights are set forth in the PBCL.

Under the PBCL, shareholders of a corporation are not entitled to exercise dissenters' rights if, as of the record date, shares of the corporation are either listed on a national securities exchange or held beneficially or of record by more than 2,000 people. As of the record date, Alkermes common stock was listed on NASDAQ. Therefore, holders of Alkermes common stock will not be entitled to exercise dissenters' rights under the PBCL in connection with the business combination. If the merger agreement is adopted and the business combination is completed, holders of Alkermes common stock who voted against the adoption of the merger agreement will be treated the same as holders who voted to adopt the merger agreement and their shares will automatically be converted into the right to receive the merger consideration.

LISTING OF NEW ALKERMES ORDINARY SHARES ON NASDAQ

New Alkermes ordinary shares currently are not traded or quoted on a stock exchange or quotation system. New Alkermes expects that (and it is condition to the merger), following the business combination, New Alkermes ordinary shares will be listed for trading on NASDAQ. It is anticipated that the New Alkermes ordinary shares will be listed under the symbol ALKS.

DELISTING AND DEREGISTRATION OF SHARES OF ALKERMES COMMON STOCK

Following the consummation of the merger, Alkermes common stock will be delisted from NASDAQ and deregistered under the Exchange Act.

THE BUSINESS COMBINATION AGREEMENT AND PLAN OF MERGER

*The following is a summary of certain material terms of the merger agreement and is qualified in its entirety by reference to the complete text of the merger agreement, which is incorporated into this proxy statement/prospectus by reference and attached as Annex A to this proxy statement/prospectus. Alkermes urges you to read carefully this entire proxy statement/prospectus, including the Annexes and the documents incorporated by reference. You should also review the section entitled *Where You Can Find More Information*.*

The merger agreement has been included to provide you with information regarding its terms, and Alkermes recommends that you read the merger agreement carefully and in its entirety. Except for its status as the contractual document that establishes and governs the legal relations among the parties with respect to the business combination, Alkermes does not intend for the merger agreement to be a source of factual, business or operational information about the companies. The merger agreement contains representations and warranties of the parties as of specific dates and may have been used for purposes of allocating risk between the parties rather than establishing matters as facts. Those representations and warranties are qualified in several important respects, which you should consider as you read them in the merger agreement. The representations and warranties are qualified in their entirety by certain information Alkermes filed with the SEC prior to the date of the merger agreement, as well as by confidential disclosure letters that each of Elan and Alkermes prepared and delivered to the other in connection with the execution of the merger agreement, and are qualified by contractual standards of materiality that may differ from what shareholders consider to be material. Information concerning the subject matter of the representations and warranties may have changed since the date of the merger agreement and new information qualifying a representation or warranty may have been included in this proxy statement/prospectus. For the foregoing reasons, you should not rely on the representations and warranties contained in the merger agreement as statements of factual information.

The Reorganization

EDT operates as a business unit of Elan with its principal assets held by various Elan legal entities.

Prior to the effective time of the merger, and in accordance with the merger agreement, Elan, certain of its subsidiaries and New Alkermes will carry out a reorganization that carves out the assets and legal entities that comprise the EDT business and reposition them under New Alkermes. The reorganization will consist of a series of asset transfers, share transfers and other inter-company transfers following which the EDT business will be contained in its own corporate structure under New Alkermes, which, prior to the effective time of the merger, will be an indirect subsidiary of Elan. As of the date of this proxy statement/prospectus, certain steps in respect of the reorganization have already been completed.

The reorganization will result in (1) the Elan Shareholder beneficially owning 31,900,007 New Alkermes ordinary shares and the Euro Share Capital, which will constitute all of the then-issued share capital of New Alkermes and (2) New Alkermes owning, indirectly, the equity interests in the companies that carry out the EDT business, and (with certain identified exceptions and additions), owning all of the right, title and interest to the EDT business.

The Merger; Closing of the Business Combination

On the terms and subject to the conditions of the merger agreement, at the effective time, Merger Sub will be merged with and into Alkermes and the separate existence of Merger Sub will cease. Alkermes will survive the merger as an indirect wholly-owned subsidiary of New Alkermes. All properties, rights, privileges, immunities, powers, franchises,

debts, liabilities and duties of Alkermes and Merger Sub will become those of Alkermes, as the surviving corporation.

Unless the merger agreement is terminated prior to such time (see *The Business Combination Agreement and Plan of Merger Termination of the Merger Agreement*), the closing of the business combination will occur on the later of (1) the fifth business day after all of the conditions set forth in the merger agreement

Table of Contents

have been satisfied or waived (other than conditions that relate to actions to be taken, or documents to be delivered, at the closing) and (2) the earlier of (A) a date during the marketing period for the financing to be specified by Alkermes on at least three business days' notice to Elan and (B) the final day of the marketing period, or on such other date as may be mutually agreed between Alkermes and Elan.

Upon the closing of the business combination, Merger Sub and Alkermes shall file articles of merger with the Department of State of the Commonwealth of Pennsylvania and make any and all other filings required under the PBCL. The effective time will occur at the time the parties duly file articles of merger with the Department of State of the Commonwealth of Pennsylvania (or at such later time as may be agreed by the parties and specified in the articles of merger).

Elan Proceeds of the Business Combination

In payment for the business combination (including Elan's contribution of EDT to New Alkermes), (i) the Elan Shareholder will retain 31,900,000 ordinary shares of New Alkermes and (ii) a payment will be made by or on behalf of New Alkermes, Alkermes or one or more of their subsidiaries in an aggregate amount of \$500 million in full satisfaction of certain indebtedness of New Alkermes and certain of its subsidiaries to Elan and certain of its retained subsidiaries. The cash portion of the business combination consideration is subject to adjustment following the closing to reflect (i) the net cash of EDT as of the effective time and (ii) the deviation, positive or negative, of the actual modified working capital of EDT as of the effective time (applying agreed modifications) from \$65,800,000, which amount represents the agreed target working capital to be contributed as part of EDT and which is the arithmetic average of the modified working capital of EDT as of and for the month end reporting date of each month in the twelve-month period ending on March 31, 2011 (calculated on a consistent basis using such agreed modifications).

Merger Consideration to Alkermes Shareholders

Upon the effectiveness of the merger, each share of Alkermes common stock issued and outstanding as of the effective time and all rights in respect thereof, including the associated Series A Junior Participating Preferred Stock Purchase Rights issuable under Alkermes' rights agreement, shall be canceled and automatically converted into and become the right to receive one ordinary share of New Alkermes.

Treatment of Alkermes Stock Options and Other Stock-Based Awards

Each outstanding option to purchase shares of Alkermes common stock under the Alkermes stock plans, whether vested or unvested, will be converted into an option to acquire the same number of ordinary shares of New Alkermes, on substantially the same terms and conditions and at the same exercise price.

Each outstanding stock award in respect of Alkermes common stock will be converted into the right to receive, on substantially the same terms and conditions as were applicable under such stock award, the same number of ordinary shares of New Alkermes.

Governing Documents Following the Business Combination

Surviving Corporation. The articles of incorporation of Alkermes as the surviving corporation shall be amended at the effective time to be in substantially the same form as Annex D to this proxy statement/prospectus. The bylaws of Alkermes in effect immediately prior to the effective time will be the bylaws of the surviving corporation after the merger.

New Alkermes. Elan and New Alkermes have agreed to take, or cause to be taken, such actions as are necessary so that, effective as of the effective time, the memorandum and articles of association of New Alkermes shall be substantially in the form as set forth in Annex E to this proxy statement/prospectus.

Exchange of Stock Certificates Following the Merger

New Alkermes will engage Computershare or another exchange agent acceptable to Alkermes to act as exchange agent for the merger, which is referred to in this proxy statement/prospectus as the exchange agent.

Table of Contents

At the effective time, New Alkermes will deposit with the exchange agent, for the benefit of the holders of shares of Alkermes common stock, certificates representing the aggregate number of ordinary shares of New Alkermes issuable to the Alkermes shareholders in the merger (or shall make appropriate arrangements if uncertificated ordinary shares of New Alkermes will be issued). Following the effective time, New Alkermes will continue to deposit with the exchange agent certain dividends or other distributions, if any, with respect to New Alkermes ordinary shares issuable to the Alkermes shareholders in the merger.

As soon as practicable after the effective time, and in any event within ten business days after the effective time, the exchange agent will mail to each holder of record of a certificate for shares of Alkermes common stock a letter of transmittal and instructions for effecting the surrender of those certificates in exchange for certificates representing the appropriate number of New Alkermes ordinary shares and any dividends or distributions payable in respect of such New Alkermes ordinary shares as provided by the merger agreement.

Alkermes shareholders should not return their certificates with the enclosed proxy card. Stock certificates should be returned with a letter of transmittal that will be sent to Alkermes shareholders following the effective time as described above, validly executed in accordance with the instructions you will receive.

Upon surrender of a certificate representing shares of Alkermes common stock and a duly executed letter of transmittal, the holder of such certificate will be entitled to receive (1) such number of New Alkermes ordinary shares equal to the number of shares of Alkermes common stock represented by such certificate and (2) any dividends or distributions such holder is entitled to receive under the merger agreement. Alkermes shareholders will not receive any consideration until their certificates are surrendered as described above. No interest will be paid or accrued on any amount payable upon surrender of certificates representing shares of Alkermes common stock. New Alkermes and the exchange agent will be entitled to deduct and withhold from any amount payable as consideration to shareholders such amounts as required with respect to making any payment for taxes, and such amounts withheld shall be treated as having been paid to such shareholder.

After the effective time, the stock transfer books of Alkermes will be closed and there will be no further registration of transfers on the stock transfer books of Alkermes. If, after the effective time, certificates representing shares of Alkermes common stock are presented to Alkermes or the exchange agent, they will be canceled and exchanged as provided above. If a certificate representing shares of Alkermes common stock has been lost, stolen or destroyed, the exchange agent shall issue to such shareholder the consideration described above in respect of the shares of Alkermes common stock represented by such certificate only upon such shareholder making an affidavit regarding the loss, theft or destruction, and, if required by New Alkermes, an indemnification agreement in form reasonably satisfactory to New Alkermes, or a bond in such sum as New Alkermes may reasonably direct as indemnity, against any claim that may be made against New Alkermes or the exchange agent in respect of the certificate alleged to have been lost, stolen or destroyed.

Any portion of the consideration deposited with the exchange agent that has not been transferred to the holders of certificates representing shares of Alkermes common stock as of the one year anniversary of the effective time shall be delivered, upon demand, to New Alkermes or its designee and the remaining New Alkermes ordinary shares included in such consideration shall be sold at the best price reasonably obtainable at that time. Any former holder of Alkermes common stock who has not complied with the exchange procedures described above prior to such time shall thereafter look only to New Alkermes as a general creditor (and without any interest thereon) for payment of such holder's portion of the cash proceeds of the sale of the New Alkermes ordinary shares (and any related cash).

indicating, in connection with such notice, the identity of the person making such EDT acquisition proposal or inquiry or request and the terms and conditions of any such EDT acquisition proposal or inquiry or request, including all written documentation relating thereto.

Alkermes has agreed that neither it nor any of its subsidiaries, nor any of their officers, directors, consultants, advisers, employees, shareholders, agents or representatives or affiliates, will, directly or indirectly:

solicit, initiate, encourage or facilitate any Alkermes acquisition proposal (as defined below) or Alkermes alternative transaction (as defined below);

participate in any discussions or negotiations relating to, assist or cooperate with any person (other than Elan and its designees) to make, or furnish any person (other than Elan and its designees) with information in connection with, or take any other action to facilitate, any Alkermes acquisition proposal or Alkermes alternative transaction, except for any notification by Alkermes to any such person that Alkermes is contractually restricted from engaging in any such discussions or negotiations;

Notwithstanding the restrictions described above, the board of directors of Alkermes is permitted, at any time prior to the time at which the required vote by the holders of Alkermes common stock is obtained, to omit its recommendation, or withdraw or modify its recommendation, from the registration statement on Form S-4 that is a part of this proxy statement/prospectus, but if and only if, the board of directors of Alkermes receives an Alkermes acquisition proposal as to which the board of directors of Alkermes determines in good faith, after consultation with its financial advisers and outside counsel, that (A) the Alkermes alternative transaction contemplated by such Alkermes acquisition proposal is superior to the transactions provided for by the merger agreement from a financial point of view to Alkermes and its shareholders and (B) the failure to take such action would be inconsistent with its fiduciary duties to the shareholders of Alkermes under applicable law.

Additional Agreements

The merger agreement contains certain other covenants, including covenants relating to cooperation between Elan and Alkermes in the preparation of this proxy statement/prospectus and other governmental filings, obtaining consents, access, notifications, providing information, confidentiality and performing their respective obligations regarding public announcements. Elan and Alkermes have further agreed, as applicable, to the following additional covenants and agreements in the merger agreement, among others:

Elan has agreed to cause the consummation of the reorganization.

Elan has agreed to ensure that New Alkermes and its subsidiaries hold all of the assets and liabilities of EDT (including certain designated assets and contracts), other than certain identified assets and liabilities (referred to in this proxy statement/prospectus as excluded assets), as well as certain additional assets of Elan, which are referred to in this proxy statement/prospectus as additional assets.

Elan has agreed to use its reasonable best efforts to obtain in respect of all contracts relating to EDT (other than specified contracts that are excluded assets), any necessary consents, waivers or approvals of any parties to such contracts that are required in connection with the transactions or for such contracts to remain in force and preserve the rights of, and benefits to, EDT under such contracts from and after the effective time.

Elan and Alkermes have each agreed to, and will cause each of their respective subsidiaries that is a party to an ancillary agreement to, execute each ancillary agreement to the merger agreement to which it is a party at or prior to the effective time.

Following the effective time, to the extent any assets or rights of the EDT business have been retained by Elan or its subsidiaries, Elan will and will cause such subsidiaries to use their best efforts to convey such assets or rights to New Alkermes, its subsidiaries or Alkermes as promptly as practicable.

Elan will and will cause its subsidiaries to terminate all affiliate agreements with New Alkermes and its subsidiaries other than certain affiliate agreements contemplated by the merger agreement.

Elan will, and will cause its subsidiaries to, use its reasonable best efforts to terminate all sale and leaseback agreements entered into by Elan or any of its subsidiaries in respect of any assets primarily used in the EDT business and provide to Alkermes evidence and documentation relating to such terminations. If any such arrangements are not terminated prior to the effective time, Elan will, and will cause its subsidiaries to, continue to use its reasonable best efforts to terminate such arrangements and until such termination is obtained, Elan and Alkermes will mutually agree in good faith on alternative arrangements that provide to New Alkermes and its subsidiaries all the benefits of ownership of the underlying assets of EDT to the extent permitted by applicable law.

Prior to the effective time, Elan will, and will cause its subsidiaries to, take such steps as are reasonably requested by Alkermes to provide for the governance of New Alkermes and its subsidiaries from and after the effective time, including electing directors and forming appropriate committees of the board of directors of New Alkermes or any subsidiary thereof, adopting committee charters, codes of conduct or other guidelines for

New Alkermes and its subsidiaries and adopting and approving employee benefit plans, including equity-based plans.

Elan has agreed on behalf of itself and its subsidiaries not to, directly or indirectly, subject to certain specified exceptions, for a period of three years following the effective time, engage in any competing business, own any interest in or manage or operate any competing business, or manufacture, market or

Table of Contents

distribute under, or use in any way, any intellectual property of EDT in connection with a competing business.

Until the eighteen-month anniversary of the effective time, Elan and its affiliates will not, directly or indirectly, solicit for employment or any similar arrangement, or hire, any transferred employee or any employee of Alkermes or any of its subsidiaries who is employed on the date of the merger agreement or at the effective time, other than such employees whose employment has been terminated by New Alkermes and its subsidiaries and other than general solicitations of employment not targeted specifically to such employees.

Alkermes and Elan have agreed that all rights to exculpation, indemnification and advancement of expenses for acts or omissions occurring at or prior to the completion of the business combination now existing in favor of the current or former directors, officers or employees of Alkermes or its subsidiaries or of New Alkermes or its subsidiaries shall survive the completion of the business combination and remain in full force and effect.

Alkermes and Elan have agreed to use their respective reasonable best efforts to cause New Alkermes or one of its subsidiaries to enter into agreements effective as from the effective time with the directors, company secretary and officers of New Alkermes providing such individuals with such exculpation, indemnification and advancement of expenses to the extent permitted by applicable law.

Alkermes has entered into a debt commitment letter with MSSF and HSBC, pursuant to which MSSF and HSBC have committed, subject to customary conditions as further described below, to provide the First-Lien Term Loan Facility and the Second-Lien Term Loan Facility. The term of the First-Lien Term Loan Facility is six years and the term of the Second-Lien Term Loan Facility is seven years. The newly committed financing, in addition to existing cash balances, will be used to fund the cash portion of the merger consideration, to repay and redeem existing indebtedness of Alkermes and New Alkermes and their respective subsidiaries, if any, and to pay transaction fees and expenses. The debt financing commitments are available until November 5, 2011 and are subject to:

consummation of the merger in accordance with the merger agreement, prior to or substantially simultaneously with the funding of the Term Loan Facilities;

the absence of a Business Material Adverse Effect (as defined in the merger agreement) since December 31, 2010;

the execution and delivery of definitive loan documentation for the Term Loan Facilities, including, but not limited to, credit agreements, security agreements and guaranties;

delivery of certain historical and pro forma financial information for Alkermes and EDT;

a 20-business-day period (with customary black-out dates) for marketing and syndication of the Term Loan Facilities after delivery by Alkermes of a confidential information memorandum relating to the Term Loan Facilities; and

other customary financing conditions.

In the merger agreement, Alkermes has agreed to use its reasonable best efforts to obtain debt financing on the terms and conditions described in the debt commitment letter. Alkermes may amend, replace, supplement or otherwise modify, or waive its rights under the debt commitment letter, unless such amendment, replacement, supplement, modification or waiver would (A) expand upon the conditions precedent or contingencies to the financing commitment as set forth in the commitment letter or (B) would reasonably be expected to impair, materially delay or prevent the availability of the financing commitment

and/or the consummation of the business combination. Alkermes is further permitted to reduce the aggregate amount of the financing commitment, subject to (A) and (B) above, and provided that such a reduction would not reduce the committed amount of the financing commitment to an amount below the amount that is required, together with the financial resources of Alkermes (including its cash on hand), to pay the cash portion of the merger consideration.

Table of Contents

Alkermes obligations under the Term Loan Facilities will be guaranteed by New Alkermes, certain of its direct and indirect wholly-owned subsidiaries, including certain direct and indirect wholly-owned U.S. subsidiaries of Alkermes, and will be secured by substantially all the assets of Alkermes and the guarantors.

Elan and New Alkermes have agreed to the following relating to the employees of Elan and its subsidiaries who will be transferred to New Alkermes as a result of the business combination:

New Alkermes will maintain a performance-based bonus plan for the benefit of the transferred employees for calendar year 2011 pursuant to which New Alkermes will pay bonuses to the transferred employees that are no less than the sum of (A) the accrued bonus amounts under the Elan performance-based bonus plan prior to the closing date of the merger and (B) an additional amount based on the actual results of New Alkermes and its affiliates, on a consolidated basis, from the closing date of the merger through December 31, 2011, that is consistent with each transferred employee's bonus opportunity under the Elan performance-based bonus plan.

Alkermes shall have the right to control all other proceedings in respect of such entities.

(c) by either Elan or Alkermes if any governmental authority shall have issued an order, decree or ruling or taken any other action (which such person shall have used its reasonable best efforts to resist, resolve or lift) permanently restraining, enjoining or otherwise prohibiting the merger or the reorganization and such order, decree, ruling or other action shall have become final and nonappealable;

Termination Fee

Elan has agreed to pay Alkermes a termination fee of \$25 million in the event the merger agreement is terminated in accordance with clause (f) above or by Elan in accordance with clause (b) above if at any time on or after the date of the merger agreement and prior to such termination in accordance with clause (b) any EDT acquisition proposal shall have been made and not withdrawn or formally (and, if such EDT acquisition proposal was publicly made, publicly) rejected by Elan, in each case, prior to such termination.

Alkermes has agreed to pay Elan a termination fee of \$25 million in the event the merger agreement is terminated by Elan in accordance with clause (e) above, in accordance with clause (d) or (g) above, or, by Alkermes, in accordance with clause (b) above if at any time on or after the date of the merger agreement and prior to such termination in accordance with clause (b), (d) or (g) any Alkermes acquisition proposal shall have been made and not withdrawn or formally (and, if such Alkermes acquisition proposal was publicly made, publicly) rejected by Alkermes, in each case, prior to such termination.

In the event of a termination as described above, the merger agreement will become void and of no effect with no liability of any party to the other parties to the merger agreement except with respect to certain designated sections in

Table of Contents

Expenses

Except as otherwise provided under *The Business Combination Agreement and Plan of Merger Termination Fee*, regardless of whether the merger is consummated, all costs and expenses incurred in connection with the merger agreement and the transactions thereunder shall be paid by the party incurring such expense, except the following expenses will be shared equally by Alkermes and Elan: (1) filing fees paid under the HSR Act and in respect of this proxy statement/prospectus or the registration statement of which it is a part and (2) printing and mailing costs incurred in connection with the preparation, printing and dissemination of the proxy statement/prospectus.

Amendment and Waiver

The merger agreement may not be modified or amended except by an instrument in writing signed by the party against whom enforcement of such modification or amendment is sought. Any provision of the merger agreement may be waived, but only by an instrument in writing and subject to applicable law.

OTHER RELATED AGREEMENTS

Shareholder s Agreement

At the closing and as a condition to the consummation of the business combination and merger, Elan, the Elan Shareholder and New Alkermes will enter into a shareholder s agreement in substantially the same form as the form of shareholder s agreement which is attached as Annex C to this proxy statement/prospectus. The shareholder s agreement sets forth certain terms and conditions concerning the New Alkermes ordinary shares to be owned by the Elan Shareholder from and after the closing, which represent approximately 25% of the outstanding voting securities of New Alkermes immediately following the merger.

Board Representation

From and after the closing, the Elan Shareholder may designate one person for election to the New Alkermes board of directors. Any shareholder designee to the Alkermes board of directors must satisfy the following requirements: (i) be a resident of Ireland for as long as he or she is a director, (ii) qualify as an independent director under applicable provisions of the Exchange Act and under applicable NASDAQ rules and regulations, (iii) not be required to make any disclosure under Item 2(d) or (e) of Schedule 13D at the time of designation if he or she were the person filing Schedule 13D, (iv) not be prohibited from serving as a director of a public company pursuant to any applicable rule or regulation of the SEC or NASDAQ or pursuant to applicable law, including the Irish Companies Acts of 1963 to 2009, which are referred to in this proxy statement/prospectus as the Companies Acts, and (v) in the good faith judgment of New Alkermes Nominating and Corporate Governance Committee, satisfy the requirements of New Alkermes organizational documents and corporate governance guidelines applicable to all non-employee directors. In addition, any such designee is prohibited from communicating to Elan or any of its affiliates any non-public information he or she receives in his or her capacity as a director and any information regarding the substance or process of board deliberations.

Any person designated by the Elan Shareholder who serves as a director of New Alkermes will be entitled to the same rights, privileges and compensation as the other non-employee directors, including rights with respect to the term of office, indemnification, directors and officers insurances and expense reimbursement.

The Elan Shareholder's right to designate a nominee to the board of directors of New Alkermes will terminate and the Elan Shareholder must cause any existing designee to resign if at any time Elan beneficially owns ordinary shares representing less than 10% of the outstanding voting securities of New Alkermes. In addition, the Elan Shareholder's right to designate a board member will be suspended if it violates any of the voting, standstill or transfer restrictions by which it is bound.

Table of Contents

Voting

For at least one year following the closing, the Elan Shareholder will vote on all matters in accordance with the recommendation of the New Alkermes board of directors. Thereafter, the Elan Shareholder will remain obligated to vote in accordance with the board's recommendation for so long as Elan beneficially owns more than 15% of the outstanding voting securities of New Alkermes or the 30-day volume weighted average trading price of New Alkermes ordinary shares is at least \$7.595.

Standstill Restrictions

Under the terms of the shareholder's agreement, Elan will be subject to customary standstill restrictions for the longer of ten years from consummation of the merger and three years from the time the Elan Shareholder ceases to hold more than 10% of the outstanding voting securities of New Alkermes. The standstill restrictions will generally prevent Elan and its affiliates from acquiring any additional New Alkermes voting securities and from taking a number of actions that might result in Elan exerting influence or control over New Alkermes, including but not limited to the following: (i) acquiring any material assets of New Alkermes, (ii) initiating any scheme of arrangement, business combination or other extraordinary transaction that would result in a change of control of New Alkermes, (iii) seeking to elect or remove any directors other than any director designated by the Elan Shareholder, (iv) making any agreement with respect to the voting of its shares, (v) soliciting proxies or (vi) calling any meeting of shareholders. Elan and its affiliates are also prohibited from inducing any third party to take any of the actions prohibited by the standstill restrictions.

The standstill provisions will terminate early in the event that (i) New Alkermes enters into a definitive agreement regarding a transaction that would result in a change of control of New Alkermes, (ii) the board of New Alkermes publicly announces that it will sell New Alkermes or all or substantially all of its assets or it will consider offers that would result in a change of control or (iii) a takeover, tender or exchange offer of New Alkermes is commenced or announced that the board does not recommend that the shareholders reject and Elan beneficially owns less than 15% of the outstanding voting securities of New Alkermes. The standstill restrictions will be reinstated under certain circumstances, primarily, if the contemplated transaction is not consummated. However, Elan and its affiliates may continue any activities commenced during the period in which the standstill restrictions were suspended.

Transfer Restrictions

Elan and the Elan Shareholder will be subject to certain restrictions on their ability to transfer New Alkermes ordinary shares without New Alkermes' consent. For six months following the closing, Elan and the Elan Shareholder will be subject to a six-month lock-up, pursuant to which they are prohibited from transferring any New Alkermes ordinary shares without New Alkermes' consent. Following the six-month lock-up, Elan and the Elan Shareholder may make an initial transfer of up to 40.75% (approximately 13 million shares) of their total stake in New Alkermes in a marketed registered underwritten offering. At least 90 days after such an initial transfer is completed, Elan and the Elan Shareholder may request a second marketed registered underwritten offering to transfer a further 31.5% (approximately 10 million shares) of their initial total stake in New Alkermes. The period from and after the closing until the 90th day following the completion of this second marketed registered underwritten offering is referred to in this proxy statement/prospectus as the Transfer Limitation Period.

Thereafter, Elan will be subject to certain limitations as to the size of any transfer and the nature of the transferee in connection with directly negotiated transfers. These limitations include requirements that the Elan Shareholder may not knowingly make any transfers effected pursuant to a directed offering, privately negotiated transaction or in accordance with Rule 144 of the Securities Act: (i) to a single person or group of a number of shares in excess of 6.25% of the then outstanding voting securities of New Alkermes, (ii) to a person who is not one of the types of persons identified in Rule 13d-1 of the Exchange Act, other than a hedge fund, unless the transferee is a private equity

fund who has certified it has no intent to change or influence the control of New Alkermes or (iii) to any person who has engaged in a proxy contest or disclosed

Table of Contents

an intent to change or influence control over any other issuer during the two year period immediately preceding the transfer.

The transfer restrictions are subject to certain exceptions for transfers to affiliates of Elan, transfers to New Alkermes or its subsidiaries and transfers made in connection with certain extraordinary transactions approved by the board or any tender or exchange offer that the board does not publicly recommend that the shareholders of New Alkermes reject. In addition, the transfer restrictions do not prohibit Elan or the Elan Shareholder from establishing any put equivalent position, short position or equivalent. Any remaining transfer restrictions will terminate once the Elan Shareholder no longer beneficially owns at least 10% of the outstanding voting securities of New Alkermes.

Registration Rights

In connection with the two marketed registered underwritten offerings following the lock-up period and transfers made after the Transfer Limitation Period, the Elan Shareholder will have the right to demand that New Alkermes file a registration statement with the SEC, subject to certain minimum threshold requirements and other terms and conditions. The Elan Shareholder may not initiate more than six requests to exercise its demand registration rights (which include any shelf underwritten offerings) in the aggregate. Withdrawn requests will not count toward the total of six requests if certain conditions are satisfied. If New Alkermes is eligible to do so, the Elan Shareholder may request that it file an automatic shelf registration statement.

In addition, following the six-month anniversary of the closing, the Elan Shareholder will have customary piggyback registration rights, pursuant to which it may request that its shares be included in any offering of securities of the same class as the Elan Shareholder's securities that New Alkermes initiates in its own right or on behalf of another shareholder.

These registration rights will terminate four months after the date on which the Elan Shareholder beneficially owns less than 10% of the outstanding voting securities of New Alkermes or sooner if either the Elan Shareholder delivers a legal opinion that the shares may be freely sold without registration under the Securities Act or the beneficial ownership of the Elan Shareholder decreases to less than 5% of the outstanding voting securities of New Alkermes.

Preemption Rights

Elan and the Elan Shareholder will expressly and irrevocably waive any preemption rights to which they may otherwise be entitled under applicable law or the organizational documents of New Alkermes, subject to certain limited exceptions.

Redemption Right

If, at any time after the closing Elan undergoes a change of control while it still beneficially owns at least 10% of the outstanding voting securities of New Alkermes, New Alkermes may purchase all of the New Alkermes voting securities then beneficially owned by Elan at the Market Value of such securities on the date the change of control transaction was consummated. Market Value is defined in the shareholder's agreement in reference to the volume weighted average sale price for the 20 consecutive trading days immediately preceding the date of determination.

Termination

The shareholder's agreement will terminate upon the consummation of a change of control of New Alkermes and upon the later of the tenth anniversary of the closing or the third anniversary of the date on which the Elan Shareholder no longer beneficially owns at least 10% of the outstanding voting securities of New Alkermes.

The foregoing discussion of the shareholder's agreement does not purport to be complete and is qualified in its entirety by reference to the full text of the form of the shareholder's agreement, a copy of which is included as Annex C to this proxy statement/prospectus.

CREATION OF DISTRIBUTABLE RESERVES OF NEW ALKERMES

Under Irish law, dividends and distributions and, generally, share repurchases or redemptions may only be made from distributable reserves in New Alkermes' unconsolidated balance sheet prepared in accordance with the Companies Acts. Distributable reserves generally means the accumulated realized profits of New Alkermes less accumulated realized losses of New Alkermes and includes reserves created by way of capital reductions. In addition, no distribution or dividend may be made unless the net assets of New Alkermes are equal to, or in excess of, the aggregate of New Alkermes' called up share capital plus undistributable reserves and the distribution does not reduce New Alkermes' net assets below such aggregate. Undistributable reserves include the share premium account, the capital redemption reserve fund and the amount by which New Alkermes' accumulated unrealized profits, so far as not previously utilized by any capitalization, exceed New Alkermes' accumulated unrealized losses, so far as not previously written off in a reduction or reorganization of capital. Please see *Description of New Alkermes Ordinary Shares' Dividends* and *Description of New Alkermes Ordinary Shares' Share Repurchases, Redemptions and Conversions*.

Immediately following the merger, the unconsolidated balance sheet of New Alkermes will not contain any distributable reserves, and shareholders' equity in such balance sheet will be comprised entirely of share capital (equal to the aggregate par value of the New Alkermes shares issued in the business combination) and share premium resulting from the issuance of New Alkermes shares in the proposed transactions (equal to (1) the sum of the aggregate market value of the Alkermes common shares as of the close of trading on NASDAQ on the day the merger becomes effective and any share premium in respect of the 31,900,000 New Alkermes ordinary shares to be issued to the Elan Shareholder pursuant to the reorganization, less (2) the share capital). The Elan Shareholder and its nominees are expected to pass a resolution that would create distributable reserves following the merger by converting all of the share premium of New Alkermes as of the closing of the merger in excess of US\$5 million to distributable reserves. New Alkermes has not paid any dividends since its formation and has no current plans to do so.

The Alkermes common shareholders are being asked at the special meeting to approve the reduction of the share premium of New Alkermes to allow the creation of distributable reserves of New Alkermes as previously approved by the Elan Shareholder and its nominees. If the common shareholders of Alkermes approve the creation of distributable reserves and the merger is completed, the Elan Shareholder approval and the approval of the distributable reserves proposal will facilitate New Alkermes seeking to obtain the approval of the Irish High Court, which is required for the creation of distributable reserves to be effective, as soon as practicable following the effective time. New Alkermes would expect to obtain the approval of the Irish High Court within 12 weeks after the consummation of the merger.

The approval of the distributable reserves proposal is not a condition to the consummation of the merger and whether or not it is approved will have no impact on the business combination. Accordingly, if the common shareholders of Alkermes approve the merger agreement but do not approve the distributable reserves proposal, the business combination will still be consummated. Until the Irish High Court approval is obtained, New Alkermes will not have sufficient distributable reserves to pay dividends or to repurchase or redeem shares following the merger, including under the current share repurchase plans of Alkermes or under the redemption right in the shareholder's agreement, until such time as New Alkermes has created distributable reserves through the generation of future profits from its operations. In addition, although New Alkermes is not aware of any reason why the Irish High Court would not approve the creation of distributable reserves, there is no guarantee that such approval will be forthcoming. Even if the Irish High Court does approve the creation of distributable reserves, it may take substantially longer than anticipated. Please see *Risk Factors*.

Required Vote

Approval of the proposal to create distributable reserves requires the affirmative vote of a majority of the votes cast by the holders of shares of Alkermes common stock outstanding and entitled to vote, assuming a quorum is present; however, the distributable reserves proposal is not a condition to the completion of the business combination and whether or not this proposal is approved will have no impact on the completion of the business combination.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS OF EDT

The following should be read in conjunction with the carve-out combined financial statements of EDT and related notes included elsewhere in this proxy statement/prospectus. All references to EDT refer to Elan Drug Technologies, the global drug delivery technologies business of Elan.

Presentation and Preparation of the Carve-Out Combined Financial Statements of EDT

On May 9, 2011, Elan and Alkermes announced the execution of a definitive agreement under which Alkermes will merge with EDT in a cash and stock transaction valued at approximately \$960 million at the time of the announcement. Alkermes and EDT will be combined under Antler Science Two plc, a new public limited holding company incorporated in Ireland. This newly created company, New Alkermes, was incorporated as a private limited company and re-registered as a public limited company on July 25, 2011, and will be renamed Alkermes plc at or prior to the closing. The transaction is subject to approval by Alkermes' shareholders and the satisfaction of customary closing conditions and regulatory approvals, including antitrust approval in the United States. The transaction is expected to close during the third quarter of 2011.

EDT has historically operated as a part of Elan and not as a separate stand-alone entity. The carve-out combined financial statements of EDT have been prepared on a carve-out basis from the consolidated financial statements of Elan to represent the financial position and performance of EDT as if EDT had existed on a stand-alone basis during each of the six-month periods ended June 30, 2011 and June 30, 2010 and the fiscal years ended December 31, 2010, December 31, 2009 and December 31, 2008 for income statement and the cash flow statement amounts and as of June 30, 2011, December 31, 2010 and December 31, 2009 for balance sheet amounts; and as if the Financial Accounting Standards Board, which is referred to as FASB in this proxy statement/prospectus, Accounting Standard Codification, which is referred to as ASC in this proxy statement/prospectus, Topic 810, Consolidation, had been applied throughout. The accompanying carve-out combined financial statements of EDT only include assets and liabilities that are specifically identifiable with EDT. Certain general and administrative expenses that are maintained at the corporate level, which consist primarily of salaries and other employee costs, legal and professional fees and insurance costs, were allocated to EDT based on methodologies Elan management believes to be reasonable. The carve-out combined financial statements of EDT do not purport to represent what the results of operations would have been, or accurately reflect its assets and liabilities, had the entire EDT business and activities of EDT been a legal sub-group for each of the years being reported on, or for future years. Had EDT operated as an independent stand-alone entity, its results could have differed significantly from those presented in the carve-out combined financial statements of EDT.

Elan is a neuroscience-based biotechnology company headquartered in Dublin, Ireland. Elan was incorporated as a private limited company in Ireland in December 1969 and became a public limited company in January 1984. Elan's operations are organized into two business units: (A) BioNeurology, which engages in research, development and commercial activities primarily for neurodegenerative and autoimmune diseases, and (B) EDT, which focuses on the specialty pharmaceutical industry, including specialized drug delivery and manufacturing.

For additional information regarding the basis of preparation, please refer to Note 2 to the carve-out combined financial statements of EDT, which are included elsewhere in this proxy statement/prospectus.

Overview of EDT

EDT develops and manufactures innovative pharmaceutical products that provide clinical benefits to patients, leveraging EDT's experience and proprietary technologies for its own account in collaboration with pharmaceutical companies worldwide. Since the inception of its business in Ireland in 1969, EDT has focused its drug development efforts on improved therapeutic outcomes through the use of its proprietary technologies. EDT has substantial business activities in Ireland and the United States, with manufacturing facilities located in each country. During 2010, EDT employed approximately 667 people, with over 400 located in Ireland. EDT's two principal drug technologies are the OCR platform and the bioavailability enhancement platform,

which includes EDT's *NanoCrystal* technology. EDT's portfolio includes products marketed by EDT collaborators and products in clinical development.

EDT is an established, profitable business that has applied its skills and knowledge to develop innovative medications that have been marketed worldwide. To date, EDT's drug delivery technologies have been commercialized in over 30 products around the world, contributing to annual end-user sales of approximately \$3 billion in 2010. Since 2001, EDT's technologies have been incorporated and subsequently commercialized in 12 products in the United States.

EDT's original business model was based on advancing proprietary product concepts to a later stage of development for out-licensing to pharmaceutical collaborators. Today, EDT's strategic focus is on developing proprietary products, while continuing to leverage its technologies and capabilities through product development on behalf of its pharmaceutical collaborators. EDT's most advanced proprietary product is the post-operative pain product Meloxicam IV, which has recently completed Phase 2B studies.

EDT generates revenue from two sources: manufacturing and royalty fees from licensed products (96.6% of EDT revenues for the six-month period to June 30, 2011; 93.9% for the six-month period to June 30, 2010; 95.4% for the year ended December 31, 2010), and contract revenues relating to R&D services, license fees and milestones (3.4% of EDT revenues for the six-month period to June 30, 2011; 6.1% for the six-month period to June 30, 2010; 4.6% for the year ended December 31, 2010). EDT receives royalties and manufacturing fees on products that, as a share of in-market sales, range from percentages in the single digits to the high teens. During the six-month period to June 30, 2011, EDT generated \$128.8 million (2010: \$132.5 million) in revenue and \$104.5 million (2010: \$26.2 million) in operating income. EDT generated revenue for the year ended December 31, 2010 of \$274.1 million (2009: \$275.9 million; 2008: \$301.6 million) and operating income for the year ended December 31, 2010 of \$60.9 million (2009: \$71.1 million; 2008: \$85.8 million). Included in operating income of \$104.5 million generated in the six-month period to June 30, 2011 are legal settlement gains of \$84.5 million and net other charges of \$15.1 million. The EDT revenue portfolio is transitioning from several legacy products to recently approved products such as *Ampyra*® and *Invega Sustenna*®.

EDT believes it is among the world's leaders in drug formulation and development due to its profitability, proprietary and partnered clinical development pipeline and multiple preclinical programs. EDT is a division of Elan headquartered in Dublin, Ireland. Prior to the merger, EDT will be carved out of Elan and reorganized under New Alkermes.

Revenues

EDT realized total revenues of \$128.8 million for the six-month period ended June 30, 2011 (2010: \$132.5 million). EDT's revenues during the periods under review principally consisted of product revenue and, to a lesser extent, contract revenue. Product revenue is made up of manufacturing fees and royalties on licensed products, and contract revenue consists of research fees and milestone payments arising from R&D activities that EDT performs on behalf of other third parties, and technology licensing fees.

Manufacturing Revenue

Manufacturing revenue represents revenues earned from products that EDT manufactures on behalf of collaborators and other third-party customers.

Manufacturing revenue increased 2.1% to \$81.2 million for the six-month period ended June 30, 2011 compared to the same period in the prior year.

The increase in manufacturing revenue in the six-month period to June 30, 2011, compared to the same period of 2010, is primarily attributable to increased revenue from *Ampyra*, *Rapamune* and *Focalin XR/Ritalin LA*, partially offset by decreased revenue from *Naprelan* and *Diltiazem*.

The manufacturing and royalty revenue recorded for *Ampyra* for the six-month period ended June 30, 2010 of \$20.8 million principally reflected shipments to Acorda Therapeutics, Inc., which is referred to as Acorda in this proxy statement/prospectus, of \$18.9 million in the first quarter of 2010 to satisfy Acorda's initial stocking requirements for the launch of the product as well as build-up of safety stock supply. Elan records revenue upon shipment of *Ampyra* to Acorda, as this revenue is not contingent upon ultimate sale of the shipped product by Acorda or its customers. Consequently, revenue varies with shipments and is not based directly on in-market sales.

Table of Contents

Ampyra, which is globally licensed to Acorda, is marketed and distributed in the United States by Acorda and outside the United States will be marketed and distributed by Acorda's sub-licensee Biogen Idec, Inc., which is referred to as Biogen Idec in this proxy statement/prospectus. The product is called *Fampyra*® (prolonged-release fampridine tablets) outside the United States.

In January 2011, the Committee for Medicinal Products for Human Use, which is referred to as CHMP in this proxy statement/prospectus, of the EMA issued a negative opinion, recommending against approval of *Fampyra*. Biogen Idec appealed this opinion and requested a re-examination of the decision of the CHMP. In May 2011, the CHMP of the EMA recommended conditional marketing authorization of *Fampyra*. In May 2011, *Fampyra* was approved for use in Australia by the Australian Therapeutic Goods Administration. In March 2011, Biogen Idec also received a notice of deficiency from Health Canada for its application to sell *Fampyra* in Canada. On July 25, 2011, Biogen Idec announced that it had received conditional approval of the European Commission to market *Fampyra* in the European Union. EDT has the right to manufacture supplies of *Ampyra/Fampyra* for the global market at its Athlone, Ireland facility, under a supply agreement with Acorda.

As shown in the table above, no single product, with the exception of *Ampyra*, *Focalin XR/Ritalin LA* and *Verelan*, accounted for more than 10% of manufacturing revenue in the six-month periods ended June 30, 2011 or 2010.

Royalty Revenue

Royalties are typically earned on sales of licensee products using EDT's technology.

Royalty revenue decreased 3.5% to \$43.3 million for the six-month period ended June 30, 2011 from \$44.8 million for the same period in 2010, primarily due to decreased revenues of \$5.0 million from *Skelaxin* driven by the impact of generic entries to the market, no further *Skelaxin* royalties are expected. This decrease was partially offset by increased revenues from *Invega Sustenna* of \$3.5 million as in-market sales of the product continue to grow following its launch in the fourth quarter of 2009, and the EU launch of *Xeplion* (marketed as *Invega Sustenna* in the United States) in the first half of 2011.

As shown in the table above, no single product, with the exception of *TriCor 145*, *Invega Sustenna*, *Skelaxin* and *Emend*, accounted for more than 10% of royalty revenue in the six-month periods ended June 30, 2011 and 2010.

Contract Revenue

Contract revenue arises from contracts to perform R&D services on behalf of clients, or technology licensing to third parties. Contract research revenue consists of payments or milestones arising from R&D activities EDT performs on behalf of third parties.

Contract revenue for the six-month period ended June 30, 2011 was \$4.4 million compared to \$8.1 million for the same period in 2010. The decrease in contract revenue in the six-month period ended June 30, 2011 compared to June 30, 2010 was primarily due to the timing of recognition of milestones, partially offset by development fees from clients.

During the first half of 2011, EDT has continued to make progress on its development pipeline with its clients:

In March 2011, EDT's collaborator, Janssen Pharmaceutica N.V., one of the Janssen Pharmaceutical Companies, which are referred to in this proxy statement/prospectus as Janssen and which are a part of J&J, announced the approval of *Xeplion*®, a once monthly atypical antipsychotic injection, by the European

Commission. This is the first European approval of an injectible product using EDT's *NanoCrystal* technology. Xeplion is marketed in the United States under the name *Invega Sustenna*. Other regulatory advances included approvals for new strengths for *Focalin XR* (25mg and 35mg) in the United States, and *Morphelan*® filed in the United Kingdom by Elan.

Table of Contents

In May 2011, the CHMP of the EMA recommended conditional marketing authorization of *Fampyra*. In May 2011, *Fampyra* was approved for use in Australia by the Australian Therapeutic Goods Administration. Biogen Idec also received a notice of deficiency in March 2011 from Health Canada for its application to sell *Fampyra* in Canada. On July 25, 2011, Biogen Idec announced that it had received conditional approval of the European Commission to market *Fampyra* in the European Union. EDT has the right to manufacture supplies of *Ampyra/Fampyra* for the global market at its Athlone, Ireland facility.

Cost of Sales

Cost of sales was \$51.9 million for the six-month period ended June 30, 2011, compared to \$59.8 million for the same period in 2010. The decrease in cost of sales in the six-month period ended June 30, 2011 is primarily due to decreased amortization expense on the *Verelan* intangible asset, which was fully amortized in December 2010. The gross margin increased by 5.8% in the six-month period ended June 30, 2011 to \$76.9 million, as compared to \$72.7 million in the same period in 2010. The increased gross margin in the six-month period ended June 30, 2011, principally reflects higher revenues and higher margins from *Invega Sustenna* and *Ampyra*, partially offset by lower contract revenue as a result of the timing of milestone receipts. In the six-month period ended June 30, 2011, EDT's royalties on products that EDT does not manufacture were 34.8% of total product revenue (2010: 36.0%).

Operating Expenses

Total operating expenses, which consist of R&D expense, selling, general and administrative (SG&A) expense and other net charges, have been offset by legal settlement gains in the six-month period ended June 30, 2011. R&D expenses primarily consists of expenses for EDT's proprietary programs, development of existing and new technologies, the costs of identifying suitable collaborative products for EDT's technologies and spending on external client projects. These expenses primarily comprise salary and related costs and external clinical spending. SG&A expenses primarily consists of legal expenses, management compensation expenses and certain central services costs that had been allocated to EDT by Elan based on estimated usage of resources by EDT.

Research and Development Expenses

R&D expenses were \$24.4 million in the six-month period ended June 30, 2011 (2010: \$26.6 million). This decrease of 8.2% was primarily due to timing of R&D spending on proprietary projects.

Selling, General and Administrative Expenses

SG&A expenses were \$17.5 million for the six-month period ended June 30, 2011 and \$19.5 million for the same period in 2010. This decrease of 10.7% primarily relates to lower legal costs.

Legal Settlement Gains

In June 2008, a jury ruled in the U.S. District Court for the District of Delaware that Abraxis (since acquired by Celgene Corporation) had infringed a patent owned by Elan in relation to the application of its *NanoCrystal* technology to *Abraxane*. EDT was awarded \$55 million, applying a royalty rate of 6% to sales of *Abraxane* from January 1, 2005 through June 13, 2008 (the date of the verdict). This award and damages associated with the continuing sales of the *Abraxane* product were subject to interest. In February 2011, EDT entered into an agreement with Abraxis to settle this litigation. As part of the settlement agreement with Abraxis, EDT received \$78.0 million in full and final settlement of the litigation. EDT will not receive future royalties in respect of *Abraxane*.

In May 2011, EDT entered into an agreement with Alcon to settle litigation in relation to the application of its *NanoCrystal* technology. As part of the settlement agreement with Alcon, EDT received \$6.5 million in May 2011 in full and final settlement.

Table of Contents*Other Net Charges*

During the second quarter of 2011, Elan decided to close its King of Prussia, Pennsylvania, site which is part of EDT, and consequently, a non-cash asset impairment charge of \$5.1 million and severance, restructuring and other charges of \$10.0 million were recorded for the six-month period ended June 30, 2011. It is expected that the closure will take place in the second half of 2011.

During the six-month period ended June 30, 2010, EDT incurred severance, restructuring and other costs of \$0.4 million, arising from the realignment of resources to better fit EDT's business structure.

Taxation

The current and deferred tax charges have been prepared as if the business were a separate taxable group and consistent with the asset and liability method prescribed by ASC 740. Current tax liabilities and receivables (other than amounts actually paid or refunded by/or to the business) are included in the calculation of the net funding transfer to Elan that is recorded in invested equity. The current and deferred tax charges/(benefits) and the related tax disclosures are not necessarily representative of the tax charges/(benefits) that may arise in the future. EDT had a net tax charge of \$14.8 million for the six-month period to June 30, 2011 (2010: \$6.0 million). The tax charge reflects U.S. federal and state taxes, Irish corporation tax, and other taxes at standard rates in the jurisdictions in which EDT operates, the availability of tax losses, foreign withholding tax and exempt income derived from Irish patents. EDT's effective tax rate was 14.4% in the six-month period to June 30, 2011 (2010: 21.5%). The lower effective tax rate in 2011 compared to 2010 was due to a decrease in 2011 in the proportion of total income subject to the U.S. statutory tax rate and an increase in the proportion of total income subject to the Irish statutory tax rate, which is lower than the U.S. statutory tax rate. Please refer to Note 7 to the Interim Statements of EDT for additional information in relation to EDT's effective tax rate.

Adjusted EBITDA is a non-GAAP measure of operating results. EDT's management uses this measure to evaluate EDT's operating performance and it is among the factors considered as a basis for EDT's planning and forecasting for future periods. EDT believes that Adjusted EBITDA is a measure of performance used by some investors, equity analysts and others to make informed investment decisions.

Adjusted EBITDA is defined as net income plus or minus net interest income or expense, provision for income taxes, depreciation and amortization of costs and revenue, share-based compensation expense, legal

settlement gains and other net charges. Adjusted EBITDA is not presented as, and should not be considered an alternative measure of, operating results or cash flows from operations, as determined in accordance with U.S. GAAP. A reconciliation of Adjusted EBITDA to net income is set out in the table above.

In the six-month period ended June 30, 2011, EDT reported Adjusted EBITDA of \$50.1 million, compared to Adjusted EBITDA of \$47.8 million for the same period in 2010. The \$2.3 million increase in 2011 reflects the transition of the business away from some of the older products, such as *Skelaxin*, and the increased revenues and margins from newer products, such as *Ampyra* and *Invega Sustenna*, as well as the 9.2% reduction in combined SG&A and R&D expenses.

Revenues

EDT realized total revenues of \$274.1 million for the twelve months ended on December 31, 2010 compared to total revenues of \$275.9 million in 2009 and \$301.6 million in 2008. EDT's revenues during the years under review principally consisted of product revenue and, to a lesser extent, contract revenue. Product revenue is made up of manufacturing fees and royalties on licensed products, and contract revenue consists of research fees and milestone payments arising from R&D activities that EDT performs on behalf of other third parties, and technology licensing fees.

Manufacturing Revenue

Manufacturing revenue represents revenues earned from products that EDT manufactures on behalf of collaborators and other third-party customers.

Manufacturing revenue increased 25.5% to \$170.0 million in 2010 from EDT's 2009 revenue levels and decreased 10.0% to \$135.5 million in 2009 from its 2008 revenue levels.

The increase in manufacturing revenue in 2010, as compared to 2009, was principally due to the launch of *Ampyra*, which was approved by the FDA in January 2010 as a treatment to improve walking ability in patients with multiple sclerosis, which is referred to as MS in this proxy statement/prospectus. The product was subsequently launched in the

United States in March 2010.

This increase in revenue in 2010, as compared to 2009, was partially offset by decreased revenue from *Zanaflex*, *Naprelan* and *Cymbalta*. The decrease in *Zanaflex* and *Naprelan* revenue was due to changes in customer inventory levels. Revenue from *Cymbalta* decreased by \$11.6 million due to the scheduled termination of a supply agreement for this product. The decrease in manufacturing revenue in 2009, as compared to 2008, was primarily due to decreased revenue from Diltiazem, *Luvox CR* and *Verelan*. The decrease in Diltiazem revenue was due to the scheduled expiration of a supply agreement for the product. Revenue from *Luvox CR* decreased primarily as a result of timing of shipments to customers and the inclusion of launch quantities in 2008 revenues. *Verelan* revenues continue to reflect the declining overall market for the

Table of Contents

product. As shown in the table above, no single product, with the exception of *Ampyra*, *Focalin XR*, *Verelan* and *Naprelan*, accounted for more than 10% of manufacturing revenue in 2010, 2009 or 2008.

Royalty Revenue

Royalties are typically earned on sales of licensee products using EDT's technology.

Royalty revenue decreased 24.9% to \$91.4 million in 2010 from \$121.7 million in 2009, primarily due to decreased revenues of \$29.0 million from *Skelaxin* due to the impact of generic entries to the market. In addition, royalty revenue from *TriCor 145* decreased by 11.6% during 2010 due to falling in-market sales of the product. These decreases were partially offset by increased revenues from *Invega Sustenna* as in-market sales of the product grew following its launch in the fourth quarter of 2009.

Royalty revenue decreased 7.1% to \$121.7 million in 2009 from \$131.0 million in 2008, primarily due to decreased revenues from both *Skelaxin* and *TriCor 145*, primarily due to lower in-market sales of these products in 2009. As shown in the table above, no single product, with the exception of *TriCor 145* and *Skelaxin*, accounted for more than 10% of royalty revenue in 2010, 2009 or 2008.

Contract Revenue

Contract revenue decreased 32.0% to \$12.7 million in 2010 from EDT's 2009 revenue level and decreased 6.6% to \$18.7 million in 2009 from its 2008 revenue level. The decrease in contract revenue in 2010, as compared to 2009, was primarily due to the timing of the recognition of milestones, notably with respect to *Ampyra*. The decrease in contract revenue in 2009, as compared to 2008, was primarily due to lower development fees from clients, partially offset by the recognition of certain milestones in 2009, notably with respect to *Ampyra*.

During 2010, EDT made progress on its development pipeline with its clients:

In March 2010, EDT's collaborator, Acorda, launched *Ampyra* following its approval by the FDA in late January 2010 as a treatment to improve walking abilities of patients with MS. *Ampyra* is marketed and distributed in the United States by Acorda and outside the United States, where it is called *Fampyra* (prolonged-release fampridine tablets), it will be marketed and distributed by Biogen Idec. *Ampyra* is the first NDA approved by the FDA for a product using EDT's MXDAS[®] (matrix drug absorption system) technology and is the first medicine approved by the FDA indicated to improve walking speed in people with MS.

In January 2010, Biogen Idec announced the submission of a Marketing Authorization Application to the EMA for *Fampyra*. Biogen Idec also announced that it has filed a New Drug Submission with Health Canada. In January 2011, the CHMP of the EMA issued a negative opinion, recommending against approval of *Fampyra*. Biogen Idec appealed this opinion and requested a reexamination of the decision of the CHMP. In May 2011, the CHMP of the EMA recommended conditional marketing authorization of *Fampyra*. In May 2011, *Fampyra* was approved for use in Australia by the Australian Therapeutic Goods Administration. Biogen Idec also received a notice of deficiency in March 2011 from Health Canada for its application to sell *Fampyra* in Canada. On July 25, 2011, Biogen Idec announced that it had received conditional approval of the European Commission to market *Fampyra* in the European Union. EDT has the right to manufacture supplies of *Ampyra*/*Fampyra* for the global market at its Athlone, Ireland facility.

In 2010, the hydrocodone ER product (ZX002) from EDT's U.S. collaborator, Zogenix, Inc., which is referred to as Zogenix in this proxy statement/prospectus, progressed in Phase 3 clinical trials. By the end of 2010, the enrollment of the twelve-month safety study, which is referred to as Study 802 in this proxy

statement/prospectus, was completed and the twelve-week doubleblind, placebo controlled efficacy study was underway with full enrollment completed in February 2011. Pending positive clinical results, Zogenix expects to submit an NDA to the FDA by early 2012. ZX002 is a novel controlled release formulation of hydrocodone, developed by EDT using its SODAS® (spheroidal oral drug absorption system) technology and is in clinical trials for the treatment of moderate to severe chronic pain in individuals who require continuous opioid treatment for pain management.

Table of Contents***Cost of Sales***

Cost of sales was \$118.4 million in 2010, \$116.3 million in 2009 and \$123.7 million in 2008. The gross profit margin was 56.8% in 2010, 57.9% in 2009 and 59.0% in 2008. The gross margin decreased by 2.4% in 2010 (\$155.7 million), compared to 2009 (\$159.6 million), and by 10.3% in 2009, compared to 2008 (\$177.9 million). The decreased gross margin in 2010 principally reflects lower revenues from Skelaxin and TriCor 145, partially offset by revenues from the Ampyra launch. The decreased gross margin in 2009 was primarily due to the reduction in manufacturing revenue and royalties. In 2010, EDT's royalties on products that it does not manufacture were 35.0% of total manufacturing revenue and royalties, compared to 47.3% in 2009 and 46.5% in 2008.

Operating Expenses

Total operating expenses, which consists of R&D expense, SG&A expenses and other net charges, was \$94.8 million for the twelve months ended December 31, 2010 compared to \$88.5 million in 2009 and \$92.1 million in 2008. R&D expenses primarily consists of expenses for EDT's proprietary programs, development of existing and new technologies, the costs of identifying suitable collaborative products for EDT's technologies and spending on external client projects. These expenses primarily comprise salary and related costs and external clinical spending. SG&A expenses primarily consists of legal expenses, management compensation expenses and certain central services costs that had been allocated to EDT by Elan based on estimated usage of resources by EDT. For additional information regarding the allocation of central services costs, please refer to Note 2 to the carve-out combined financial statements of EDT, which are included elsewhere in this proxy statement/prospectus.

Research and Development Expenses

Research and development expenses were \$53.6 million in 2010, \$47.0 million in 2009 and \$47.6 million in 2008. This increase of 14.1% in 2010 was primarily due to increased clinical spending on an internal EDT proprietary product which advanced to Phase 2 during 2010.

Selling, General and Administrative Expenses

SG&A expenses were \$38.9 million in 2010, \$35.9 million in 2009, and \$44.5 million in 2008. The increase of 8.4% in 2010 primarily reflects higher marketing and promotion spend and also higher legal spending. The decrease of 19.3% in 2009 primarily reflects lower litigation costs in 2009 associated with the protection of EDT's intellectual property, in particular costs related to the Abraxis litigation, which was settled in February 2011. As part of the settlement agreement with Abraxis, EDT received \$78.0 million in full and final settlement, which is recognized as a gain in 2011. No continuing royalties will be received by EDT in respect of Abraxane® (registered trademark of Abraxis Bioscience, LLC). Please refer to Note 20 to the combined carve-out combined financial statements, which are included elsewhere in this proxy statement/prospectus for additional information on this litigation settlement.

Other Net Charges

EDT incurred other net charges of \$2.3 million in 2010, \$5.7 million in 2009 and \$0 in 2008. During 2010, EDT incurred severance, restructuring and other costs arising from the realignment of resources to better fit its business strategy. During 2009, EDT incurred severance, restructuring and other costs related to the scheduled completion of a manufacturing contract with an external pharmaceutical company. Please refer to Note 14 to the carve-out combined financial statements, which are included elsewhere in this proxy statement/prospectus for additional information in relation to severance, restructuring and other charges.

Taxation

The current and deferred tax charges have been prepared as if the business were a separate taxable group and consistent with the asset and liability method prescribed by ASC Topic 740 Income Taxes. Current tax liabilities and receivables (other than amounts actually paid or refunded by/or to the business) are included in the calculation of the net funding transfer to Elan that is recorded in invested equity. The current and deferred

Table of Contents

tax charges and benefits and the related tax disclosures are not necessarily representative of the tax charges and benefits that may arise in the future.

EDT had a net tax charge of \$12.6 million in 2010 as compared to \$20.9 million in 2009 and \$25.8 million in 2008. EDT's effective tax rate was 20.5% in 2010, 30.1% in 2009 and 29.9% in 2008. The tax charge reflects U.S. Federal and State taxes, Irish corporation tax, and other taxes at standard rates in the jurisdictions in which EDT operates, the availability of tax losses, foreign withholding tax and exempt income derived from Irish patents. The lower effective tax rate in 2010 compared to 2009 and 2008 was due to the decrease in 2010 in the proportion of total income subject to the U.S. statutory tax rate and an increase in 2010 in the proportion of total income subject to the Irish statutory tax rate, which is lower than the U.S. statutory tax rate. Please refer to Note 7 to the carve-out combined financial statements of EDT, which are included elsewhere in this proxy statement/prospectus, for additional information in relation to EDT's effective tax rate.

EDT's Irish patent derived income was exempt from taxation pursuant to Irish legislation, which exempts income derived from qualifying patents. For each of 2010, 2009 and 2008, the amount of income that can qualify for the patent exemption was capped at \$5.0 million (approximately \$7.0 million) per annum. The patent exemption was withdrawn on November 24, 2010. The net deferred tax asset, which is referred to as DTA in this proxy statement/prospectus, that existed as of December 31, 2010 was \$0.2 million (as compared to \$0.3 million deferred tax liability as of December 31, 2009). The valuation allowance recorded against the DTAs as of December 31, 2010 was \$15.4 million, compared to \$15.6 million as of December 31, 2009, which primarily relates to Irish operating losses, the recoverability of which is uncertain.

In 2010, EDT reported Adjusted EBITDA of \$103.5 million, compared to Adjusted EBITDA of \$117.1 million in 2009 and \$129.1 million in 2008. The decrease in 2010 compared to 2009 arises primarily as a result of lower contract revenue and higher operating expenses, partially offset by lower other net charges during 2010. The decrease in 2009 compared to 2008 arises primarily as a result of decreased revenues in 2009, partially offset by lower SG&A expenses.

Liquidity and Capital Resources

Overview

Elan uses a centralized approach to manage substantially all of its liquid resources and to finance its operations and, as a result, debt and liquid resources maintained at the Elan group level are not included in the carve-out combined financial statements of EDT. Elan defines liquid resources as the total of its cash and cash equivalents, current restricted cash and current investment securities. EDT has historically financed its operating and capital resource requirements through cash flows from operations, with funding transferred between EDT and Elan as part of the group's cash and treasury management strategy.

Table of Contents

The invested equity balance in the carve-out combined financial statements of EDT constitutes Elan's investment in EDT and represents the excess of total assets over total liabilities, including the netting of intercompany funding balances between EDT and Elan. Invested equity in EDT includes the results of EDT's operations, contributions from Elan in the form of share-based compensation to EDT employees less net transfers of intercompany funding from EDT to Elan. As of June 30, 2011, EDT's invested equity was \$292.1 million (December 31, 2010: \$305.2 million; December 31, 2009: \$333.0 million).

The changes in working capital accounts included the decrease in accounts receivable of \$42.5 million, the increase in other current assets of \$1.9 million, the increase in inventory of \$5.9 million and the

increase in accounts payable and accruals and other liabilities of \$3.8 million. The decrease in accounts receivable of \$42.5 million was primarily due to the timing of receipt of royalty payments from customers. In addition, the decreased revenues resulted in a lower accounts receivable balance at year end. The net increase of \$3.8 million in accounts payable and accruals and other liabilities was due to timing of payments before year end.

Net cash used in investing activities was \$9.8 million in 2009, primarily related to property, plant and equipment capital expenditures. As of December 31, 2009, EDT had commitments of \$8.0 million for the purchase of property, plant and equipment.

Table of Contents

Net cash used in financing activities totaled \$118.2 million in 2009, reflecting the transfer in net funding to Elan.

Year ended December 31, 2008

Net cash provided by operating activities was \$90.6 million in 2008. The primary components of cash provided by operating activities in 2008 were net income (adjusted to exclude non-cash charges and benefits) and changes in working capital accounts. The changes in working capital accounts included the increase in accounts receivable of \$18.9 million, the decrease in other current assets of \$4.7 million, the increase in inventory of \$1.4 million and the increase in accounts payable and accruals and other liabilities of \$2.5 million. The increase in accounts receivable of \$18.9 million was primarily due to the timing of receipt of royalty payments from customers. In addition, the increased revenues resulted in a higher accounts receivable balance at year end. The net increase of \$2.5 million in accounts payable and accruals and other liabilities was due to timing of payments before year end.

Net cash used in investing activities was \$12.6 million in 2008. The major components of cash used in investing activities in 2008 included \$11.7 million for property, plant and equipment capital expenditures and \$0.9 million for the purchase of intangible assets, mainly computer software.

Net cash used in financing activities totaled \$78.0 million in 2008, primarily reflecting the transfer in net funding to Elan, partially offset by the excess tax benefit from share-based compensation.

Contractual Obligations

The following table sets out, at December 31, 2010, EDT's main contractual obligations due by period, including operating leases. These represent the major contractual, future payments that may be made by EDT. The table does not include items such as future investments in financial assets. There have been no other significant changes in EDT's contractual obligations since December 31, 2010.

	Total	Less than 1 Year	1-3 Years	3-5 Years	More Than 5 Years
			(in thousands)		
Operating lease obligations	\$ 17,291	\$ 1,931	\$ 3,945	\$ 3,731	\$ 7,684
Purchase obligations ⁽¹⁾	7,208	7,208			
Total contractual obligations	\$ 24,499	\$ 9,139	\$ 3,945	\$ 3,731	\$ 7,684

(1) Includes all open purchase orders as of December 31, 2010 for capital and operating expenditure. Excludes capital expenditure of \$2.2 million that had been authorized by the directors of Elan for EDT and had not been contracted for as of December 31, 2010.

The operating lease obligations in the table above relate primarily to the R&D facility located in King of Prussia, PA, and will be retained by Elan upon the closing.

In disposing of assets, EDT often provides customary representations, warranties and indemnities (if any) to cover various risks. EDT does not have the ability to estimate the potential liability from such indemnities because they

relate to unknown conditions. However, EDT has no reason to believe that these uncertainties would have a material adverse effect on its financial condition or results of operations.

Off-Balance Sheet Arrangements

As of June 30, 2011, EDT was not a party to any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on its financial condition, changes in financial condition, revenue or expenses, results of operations, liquidity, capital expenditures or capital resources.

Critical Accounting Policies

The carve-out combined financial statements of EDT include certain estimates based on EDT's management's best judgments. Estimates are used in determining items such as the carrying amounts of long-

Table of Contents

lived assets, revenue recognition and share-based compensation among other items. Because of the uncertainties inherent in such estimates, actual results may differ materially from these estimates.

Long-Lived Assets and Impairment

Total property, plant and equipment had a carrying amount as of June 30, 2011 of \$193.0 million, compared to \$203.4 million as of December 31, 2010, \$203.4 million as of June 30, 2010 and \$208.7 million as of December 31, 2009, and EDT's goodwill and other intangible assets amounted to \$52.8 million as of 30 June 2011, compared to \$53.3 million as of December 31, 2010 and \$65.2 million as of December 31, 2009.

Property, plant and equipment are depreciated using the straight line method based on the estimated useful life of each asset. Land is not depreciated as it is deemed to have an indefinite useful life. Intangible assets with estimable useful lives are amortized on a straight-line basis over their respective estimated useful lives to their estimated residual values and, as with other long-lived assets such as property, plant and equipment, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If circumstances require a long-lived asset be tested for possible impairment, EDT compares undiscounted cash flows expected to be generated by an asset to the carrying amount of the asset. If the carrying amount of the long-lived asset is not recoverable on an undiscounted cash flow basis, an impairment is recognized to the extent that the carrying amount exceeds its fair value. EDT determines fair value using the income approach based on the present value of expected cash flows. EDT's cash flow assumptions consider historical and forecasted revenue and operating costs and other relevant factors. If EDT were to use different estimates, particularly with respect to the likelihood of R&D success, the likelihood and date of commencement of generic competition or the impact of any reorganization or change of business focus, then a material impairment charge could arise. EDT believes that it has used reasonable estimates in assessing the carrying amounts of its intangible assets.

The carrying amount of property, plant and equipment included \$156.8 million as of June 30, 2011, compared to \$159.8 million as of December 31, 2010 and \$162.5 million as of December 31, 2009, relating to EDT's manufacturing facility in Athlone, Ireland. EDT has invested significant resources in its manufacturing facilities in Ireland to provide it with the capability to manufacture products from its product development pipeline. To the extent that EDT is not successful in developing these pipeline products or does not acquire products to be manufactured at its facilities, the carrying amount of these facilities may become impaired. As of December 31, 2010, EDT's best estimates of the likely success of development and commercialization of its pipeline products support the carrying amount of its manufacturing facilities.

Goodwill is not amortized, but is instead tested for impairment at least annually. EDT reviews its goodwill for impairment at least annually or whenever events or changes in circumstances indicate that the carrying amount of these assets may not be recoverable. The goodwill impairment test is a two-step test and is performed at the reporting-unit level. EDT constitutes a single reporting unit. Under the first step, EDT compares the fair value of the reporting unit with its carrying amount, including goodwill. If the fair value of the reporting unit exceeds its carrying amount, goodwill of the reporting unit is not considered impaired and step two does not need to be performed. If the carrying amount of the reporting unit exceeds its fair value, the second step of the goodwill impairment test would be performed to measure the amount of impairment charge, if any.

The second step of the goodwill impairment test compares the implied fair value of the reporting-unit goodwill with the carrying amount of that goodwill, and any excess of the carrying amount over the implied fair value is recognized as an impairment charge. The implied fair value of goodwill is determined in the same manner as the amount of goodwill recognized in a business combination is determined, by allocating the fair value of the reporting unit to individual assets and liabilities. The excess of the fair value of the reporting unit over the amounts assigned to its assets and liabilities is the implied fair value of goodwill. In evaluating goodwill for impairment, EDT determines the

fair values of the reporting unit using the income approach, based on the present value of expected cash flows. EDT completed the annual goodwill impairment test on September 30 of each year and the result of its tests did not indicate any impairment in 2010 or 2009.

Table of Contents

There were no impairment charges relating to EDT's property, plant and equipment or intangible assets in 2010 or 2009.

Revenue Recognition

EDT recognizes revenue from the sale of its products, royalties earned and contract arrangements. Upfront fees received by EDT are deferred and amortized when there is a significant continuing involvement by EDT (such as an ongoing product manufacturing contract or joint development activities) after an asset disposal. EDT defers and amortizes up-front license fees to the income statement over the performance period. The performance period is the period over which EDT expects to provide services to the licensee as determined by the contract provisions. Generally, milestone payments are recognized when earned and nonrefundable, and when EDT has no future legal obligation pursuant to the payment. However, the actual accounting for milestones depends on the facts and circumstances of each contract. EDT applies the substantive milestone method in accounting for milestone payments. This method requires that substantive effort must have been applied to achieve the milestone prior to revenue recognition. If substantive effort has been applied, the milestone is recognized as revenue, subject to it being earned, non-refundable and not subject to future legal obligation. This requires an examination of the facts and circumstances of each contract. Substantive effort may be demonstrated by various factors, including the risks associated with achieving the milestone, the period of time over which effort was expended to achieve the milestone, the economic basis for the milestone payment and licensing arrangement and the costs and staffing to achieve the milestone. It is expected that the substantive milestone method will be appropriate for most contracts. If EDT determines the substantive milestone method is not appropriate, EDT applies the proportional performance method to the relevant contract. This method recognizes as revenue the percentage of cumulative non-refundable cash payments earned under the contract, based on the percentage of costs incurred to date compared to the total costs expected under the contract.

Share-Based Compensation

Elan sponsors certain equity award plans in which certain employees of EDT participate. The share-based payment expense funded by Elan represents share-based compensation expenses, allocated to EDT, based on actual EDT employees participating in the Elan plans.

Share-based compensation expense for all equity-settled awards made to EDT employees is measured and recognized based on estimated grant date fair values. These awards include employee stock options, restricted stock units, which are referred in this proxy statement/prospectus as RSUs, and stock purchases related to Elan's employee equity purchase plans, which is referred to in this proxy statement/prospectus as EEPPs. Share-based compensation cost for RSUs awarded to EDT employees is measured based on the closing fair market value of Elan's common stock on the date of grant. Share-based compensation cost for stock options awarded to EDT employees and common stock issued under EEPPs is estimated at the grant date based on each option's fair value as calculated using an option-pricing model. The value of awards expected to vest is recognized as an expense over the requisite service periods.

Estimating the fair value of share-based awards at grant or vest date using an option-pricing model, such as the binomial model, is affected by EDT's share price as well as assumptions regarding a number of complex variables. These variables include, but are not limited to, the expected share price volatility over the term of the awards, risk-free interest rates, and actual and projected employee exercise behaviors. If factors change and/or different assumptions are employed in estimating the fair value of share-based awards in future periods, the compensation expense recorded for future grants may differ significantly from what has been recorded in the carve-out combined financial statements of EDT. However, management believes that reasonable assumptions have been used to estimate the fair value of the share-based awards.

For additional information on share-based compensation, please refer to Note 16 to the carve-out combined financial statements of EDT, which are included elsewhere in this proxy statement/prospectus.

Table of Contents**Quantitative and Qualitative Disclosures About Financial Risk*****Overview***

EDT is exposed to various financial risks arising in the normal course of business. As discussed in Note 2(a) to the carve-out combined financial statements of EDT, Elan uses a centralized approach to manage substantially all of its liquid resources and to finance its operations and, as a result, debt and liquid resources maintained at the Elan group level are not included in the carve-out combined financial statements of EDT. Therefore, EDT's financial risk exposures primarily relate to accounts receivable and accounts payable, the impact of changes in foreign exchange rates and the creditworthiness of its counterparties.

As part of the Elan group, EDT has historically managed its financial risk exposures through the use of derivative financial instruments, where appropriate. A derivative is a financial instrument or other contract whose value changes in response to a change in some underlying variable that has an initial net investment smaller than would be required for other instruments that have a similar response to the variable and that will be settled at a later date. EDT does not enter into derivatives for trading or speculative purposes. All derivative contracts entered into are in liquid markets with credit-approved parties. The treasury function operates within strict terms of reference that have been approved by the directors of Elan.

There have been no material changes to EDT's financial risks during the six-month period ended June 30, 2011, and EDT does not anticipate any near-term changes in the nature of its financial; risk exposures or in its management's objectives and strategies with respect to managing such exposures.

Exchange Rate Exposures

EDT is a multinational business operating in a number of countries and the U.S. dollar is the primary currency in which EDT conducts business. The principal foreign currency risk to which EDT is exposed relates to movements in the exchange rate of the U.S. dollar against the Euro. The main exposures are net costs in Euro arising from a manufacturing and research presence in Ireland and the sourcing of raw materials in European markets.

The U.S. dollar is used for planning and budgetary purposes and is the functional and reporting currency for financial reporting. EDT does, however, have costs, assets and liabilities denominated in currencies other than U.S. dollars. Transactions in foreign currencies are recorded at the exchange rate prevailing at the date of the transaction. The resulting monetary assets and liabilities are translated into the appropriate functional currency at exchange rates prevailing at the balance sheet date and the resulting gains and losses are recognized in the carve-out combined statement of operations of EDT. Consequently, where appropriate, EDT enters into forward contracts to manage its non-U.S. dollar foreign exchange risks and reduce exposures to market fluctuations in foreign exchange rates. EDT does not enter into derivative financial instruments for trading or speculative purposes. All forward contracts entered into are in liquid markets with credit-approved parties. The treasury function operates within strict terms of reference that are determined by Elan directors from time to time. During 2010, EDT entered into forward foreign exchange contracts that required EDT to sell U.S. dollars for Euro and sell Euro for U.S. dollars. These forward contracts expired during 2010 and there were no forward contracts outstanding as of December 31, 2010. EDT did not enter into any forward contracts or other derivative instruments during 2009. EDT recorded a net loss of \$0.1 million on the forward exchange contracts during 2010, compared to no gain or loss in 2009 or 2008.

The table below shows EDT's foreign currency exposure. Such exposure comprises the monetary liabilities that are not denominated in U.S. dollars. These exposures were as follows:

	Year Ended December 31,		
	2010	2009	2008
	(in thousands)		
Euro	\$ 10,224	\$ 8,020	\$ 11,922
Sterling		396	280
Total	\$ 10,224	\$ 8,416	\$ 12,202

Table of Contents

A 10% strengthening of the U.S. dollar against the following currencies in which EDT held monetary balances, would have increased net income by the amounts shown below for the years ended December 31. This analysis assumes that all other variables, including interest rates, remain constant.

	Year Ended December 31,		
	2010	2009	2008
	(in thousands)		
Euro	\$ 1,022	\$ 842	\$ 1,220
Sterling			

A 10% weakening of the U.S. dollar against the above currencies would have had the equal but opposite effect on the above currencies to the amounts shown above, on the basis that all other variables remain constant.

There have been no material changes in EDT's assessment of its sensitivity to foreign currency exchange rate risk during the six-month period ended June 30, 2011.

Credit Risk

EDT transacts its business with counterparties that it considers to have a low credit risk. Credit limits are established commensurate with the credit rating of the financial institution that business is being transacted with. The maximum exposure to credit risk is represented by the carrying amount of each financial asset, including derivative financial instruments, in the carve-out combined balance sheet of EDT.

For customers, EDT has a credit policy in place which involves credit evaluation and ongoing account monitoring. There is a significant concentration of credit risk given that EDT's top three customers account, in aggregate, for 61.1% of its gross accounts receivable balance as of December 31, 2010, compared to 54.3% as of December 31, 2009. However, EDT does not believe the credit risk in relation to these three customers or its other customers is significant.

There have been no material changes in EDT's assessment of credit risk during the six-month period ended June 30, 2011.

UNAUDITED PRO FORMA FINANCIAL DATA

New Alkermes Unaudited Pro Forma Condensed Combined Financial Data

The following unaudited pro forma condensed combined financial data give effect to the merger of Alkermes with a wholly-owned subsidiary of New Alkermes (which will be the parent of Alkermes immediately following the merger) in a transaction to be accounted for as a reverse acquisition with Alkermes treated as the accounting acquirer. Alkermes is considered the accounting acquirer even though New Alkermes will be the issuer of ordinary shares in the transaction based in part on the fact that upon completion of the merger, Alkermes stockholders will retain approximately 75% ownership of the combined entity, and a subsidiary of Elan will own the remaining approximately 25% of the outstanding ordinary shares of New Alkermes on a fully diluted basis.

Alkermes' fiscal year ends on March 31 and EDT's fiscal year ends on December 31. New Alkermes is expected to have a fiscal year end of March 31. The unaudited pro forma condensed combined balance sheet at June 30, 2011 is based on the individual historical consolidated balance sheets of Alkermes and the carve-out combined financial statements of EDT as of June 30, 2011 and has been prepared to reflect the merger of Alkermes and a wholly owned subsidiary of New Alkermes as if it had occurred on June 30, 2011. The unaudited pro forma condensed combined statement of operations for the year ended March 31, 2011 is based on the historical consolidated statement of operations of Alkermes and the carve-out combined financial statements of EDT and combines the results of operations of Alkermes and EDT for the fiscal years ended March 31, 2011 and December 31, 2010, respectively. The unaudited pro forma condensed combined statement of operations for the three months ended June 30, 2011 is based on the historical consolidated statement of operations of Alkermes and is derived from the financial books and records of EDT and combines the results of operations of Alkermes and EDT for the three months ended June 30, 2011. Both pro forma statements of operations give effect to the merger as if it had occurred on April 1, 2010, reflecting only pro forma adjustments expected to have a continuing impact on the combined results.

These unaudited pro forma condensed combined financial data are for informational purposes only. They do not purport to indicate the results that would have actually been obtained had the merger been completed on the assumed date or for the periods presented, or which may be realized in the future. To produce the pro forma financial data, Alkermes allocated the purchase price using its best estimates of fair value. These estimates are based on the most recently available information. To the extent there are significant changes to EDT's business, the assumptions and estimates herein could change significantly. The allocation is dependent upon certain valuation and other studies that are not yet final. Accordingly, the pro forma purchase price adjustments are preliminary and subject to further adjustments as additional information becomes available and as additional analyses are performed. Upon completion of the transaction, final valuations will be performed. There can be no assurances that these final valuations will not result in material changes to the purchase price allocation. Furthermore, the parties expect to have reorganization and restructuring expenses as well as potential operating efficiencies as a result of combining the companies. The pro forma financial data do not reflect these potential expenses and efficiencies. The unaudited pro forma condensed combined financial data should be read in conjunction with *Management's Discussion and Analysis of Financial Condition and Results of Operations* and the historical financial statements, including the related notes thereto, of Alkermes and EDT covering these periods, incorporated by reference in, or included in this proxy statement/prospectus. See *Where You Can Find More Information* for more information.

Table of Contents**1. Description of Transaction and Basis of Presentation**

On May 9, 2011, Elan and Alkermes entered into the merger agreement to combine the business of Alkermes with EDT, in a transaction to be accounted for as a business combination under U.S. GAAP, with Alkermes treated as the accounting acquirer. Under the acquisition method of accounting, the assets and liabilities of EDT will be recorded as of the acquisition date at their fair values and added to those of Alkermes. Under the terms of the agreement, the businesses will be combined under a new holding company incorporated in Ireland that will be re-registered in Ireland as a public limited company, and renamed Alkermes plc, at or prior to the consummation of the merger. The transaction was approved by the board of directors of both Elan and Alkermes. At the closing of the transaction, Elan will receive \$500 million in cash and own 31,900,000 New Alkermes ordinary shares. Alkermes has obtained a commitment from MSSF and HSBC to provide up to \$450 million in term loan financing to finance the transaction.

2. Purchase Price

A preliminary estimate of the purchase price is as follows (table in thousands):

Upfront payment in accordance with agreement	\$ 500,000
Equity consideration in accordance with agreement	554,103
Total estimated purchase price	\$ 1,054,103

The fair value of the Alkermes shares used in the determination of the purchase price was \$17.37 per share based on the closing price of Alkermes common stock on July 28, 2011. The final purchase price will be updated for the fair value of Alkermes shares upon the date of issuance. The estimated purchase price has been allocated, on a preliminary basis, to the acquired tangible and intangible assets and liabilities assumed based on their estimated fair values as of June 30, 2011 (table in thousands):

Receivables	\$ 52,719
Inventory	23,442
Prepaid expenses and other assets	3,754
Property plant and equipment	209,180
Acquired identifiable intangible assets, net	713,100
Goodwill	118,182
Other assets	4,885
Accounts payable and accrued expenses	(19,311)
Deferred tax liabilities	(50,838)
Other long-term liabilities	(1,010)
Total	\$ 1,054,103

The allocation of the purchase price is preliminary. The final determination of the purchase price allocation will be based on the fair values of assets acquired, including the fair values of in-process research and development, other identifiable intangible assets and the fair values of liabilities assumed as of the date that the merger is consummated. The excess of the purchase price over the fair value of assets acquired and liabilities assumed is allocated to goodwill.

The purchase price allocation will remain preliminary until a final valuation of significant identifiable intangible assets acquired (including in-process research and development) is completed and the fair values of other assets acquired and liabilities assumed is determined. The final determination of the purchase price allocation is expected to be completed as soon as practicable after consummation of the merger. The final amounts allocated to assets acquired and liabilities assumed could differ significantly from the amounts presented in the unaudited pro forma condensed combined financial statements.

Table of Contents

The amount allocated to acquired identifiable intangible assets has been attributed to the following categories (table in thousands):

Collaboration agreements	\$ 510,300
NanoCrystal® technology	76,300
Oral Controlled Release (OCR) technology	69,000
In-process research and development	54,300
Trademark	3,200
Total	\$ 713,100

The estimated fair value attributed to collaboration agreements was determined based on a discounted forecast of the estimated net future cash flows to be generated from the collaboration agreements. The estimated fair value attributed to collaboration agreements will be amortized over 12 years based upon the expected period of economic benefit using a pattern in which the economic benefits of the collaboration agreements are consumed.

The estimated fair value attributed to the *NanoCrystal* technology was determined based on a discounted forecast of the estimated net future cash flows to be generated from the technology. The estimated fair value attributed to the *NanoCrystal* technology will be amortized over 13 years based upon the expected period of economic benefit using a pattern in which the economic benefits of the technology are consumed.

The estimated fair value attributed to the OCR technology was determined based on a discounted forecast of the estimated net future cash flows to be generated from the technology. The estimated fair value attributed to the OCR technology will be amortized over 12 years based upon the expected period of economic benefit using a pattern in which the economic benefits of the technology are consumed.

The amount allocated to in-process research and development represents an estimate of the fair value of purchased in-process research projects that, as of the expected closing date of the business combination, will not have reached technological feasibility and have no alternative future use. Only those research projects that had advanced to a stage of development where management believed reasonable net future cash flow forecasts could be prepared and a reasonable likelihood of technical success existed were included in the estimated fair value. The estimated fair value of the in-process research and development was determined using market participant assumptions and capitalized as an indefinite-lived intangible asset. The capitalized research and development assets will be amortized in future periods or impaired, depending upon the ability of Alkermes to use the acquired research and development in the post-combination period.

The estimated fair value attributed to the EDT trademarks was determined based on a discounted forecast of the estimated net future cash flows to be generated from the trademark. The estimated fair value attributed to the trademark will be amortized over a one year period on a straight-line basis (no other method was deemed preferable), which is the estimated useful life of the trademark from the expected closing date of the business combination.

3. Pro Forma Adjustments

(A) To record the fair value of 31,900,000 ordinary shares of New Alkermes issued based on the closing price of Alkermes common stock of \$17.37 per share on July 28, 2011 to be owned by the Elan Shareholder and \$500.0 million of cash and investments used to purchase EDT, net of proceeds from anticipated borrowings. The final

purchase price will be updated for the fair value of Alkermes shares upon the date of issuance.

(B) To record the issuance of \$450.0 million of long-term debt with a scheduled repayment period of five years at an interest rate of approximately 7.6% per year. Included in the issuance of long-term debt are debt financing costs of \$10.8 million that are capitalized within other assets and are being amortized over the debt repayment term on an effective interest rate basis.

Table of Contents

(C) To record the step-up in fair value of inventory and fixed assets acquired. The expense related to the inventory step-up in fair value of \$5.3 million has not been included as an adjustment to cost of goods manufactured and sold in the pro forma statement of operations as its impact is not expected to extend beyond the twelve month period following the closing date of the merger.

(D) To record the estimated fair value of intangible assets and goodwill acquired in the merger.

(E) To reflect the amortization of acquired intangible assets over the expected period of economic benefit using a pattern in which the economic benefits of the acquired intangible assets are consumed.

(F) To reflect the reversal of costs related to the merger incurred by Alkermes during the year ended March 31, 2011 and three months ended June 30, 2011.

(G) To reflect the depreciation expense related to the step-up of the personal property acquired from EDT.

(H) To eliminate goodwill and intangible assets from EDT's historical balance sheet. Amortization expense related to the intangible assets of EDT has been eliminated from cost of goods manufactured and sold, research and development and SG&A expense in the pro forma statement of operations as this expense will not be recurring.

(I) To eliminate deferred revenue from EDT's historical balance sheet.

(J) To eliminate invested equity in EDT from EDT's historical balance sheet.

(K) To eliminate pension liability from EDT's historical balance sheet as this liability will not be assumed by Alkermes as part of the transaction.

(L) To eliminate the deferred taxes from EDT's historical balance sheet and record an adjustment to income taxes to reflect the merger of the companies as if the transaction had occurred on April 1, 2010. The statements do not reflect an income tax provision on EDT's U.S. income as there is a consolidated U.S. loss, and all deferred tax assets are offset by a full valuation allowance.

(M) To record the acquisition of approximately \$3.0 million of certain fixed assets located at EDT's King of Prussia, Pennsylvania facility and the elimination of assets, liabilities and certain non-recurring costs generated from the activities at EDT's King of Prussia, Pennsylvania facility that were not acquired by Alkermes as part of the transaction.

THE BUSINESS OF EDT

The following discussion contains forward-looking statements. Actual results may differ significantly from those projected in the forward-looking statements. Factors that might cause future results to differ materially from those projected in the forward-looking statements include, but are not limited to, those discussed in Risk Factors and elsewhere in this prospectus/proxy statement. General

EDT develops and manufactures innovative pharmaceutical products that provide clinical benefits to patients, leveraging EDT's experience and proprietary technologies for its own account in collaboration with pharmaceutical companies worldwide. Since the inception of its business in Ireland in 1969, EDT has focused its drug development efforts on improved therapeutic outcomes through the use of its proprietary technologies. EDT has substantial business activities in Ireland and the United States, with manufacturing facilities located in each country. During 2010, EDT employed approximately 667 people, with over 400 located in Ireland. EDT's two principal drug technologies are the OCR platform and the bioavailability enhancement platform, which includes EDT's *NanoCrystal* technology. *NanoCrystal* is a registered trademark of Elan Pharma International Limited. EDT's portfolio includes products marketed by EDT collaborators and products in clinical development.

EDT is an established, profitable business that has applied its skills and knowledge to develop innovative medications that have been marketed worldwide. To date, EDT's drug delivery technologies have been commercialized in over 30 products around the world, contributing to annual end-user sales of approximately \$3 billion in 2010. Since 2001, EDT's technologies have been incorporated and subsequently commercialized in 12 products in the United States.

EDT's original business model was based on advancing proprietary product concepts to a later stage of development for out-licensing to pharmaceutical collaborators. Today, EDT's strategic focus is on developing proprietary products, while continuing to leverage its technologies and capabilities through product development on behalf of its pharmaceutical collaborators. EDT's most advanced proprietary product is the post-operative pain product Meloxicam IV, which has recently completed Phase 2B studies.

EDT generates revenue from two sources: manufacturing and royalty fees from licensed products (approximately 95.4% of EDT revenues in 2010) and contract revenues relating to R&D services, license fees and milestones (4.6% of EDT revenues in 2010). EDT receives royalties and manufacturing fees on products that, as a share of in-market sales, range from percentages in the single digits to the high teens. During 2010, EDT generated \$274.1 million (2009: \$275.9 million; 2008: \$301.6 million) in revenue and operating income of \$60.9 million (2009: \$71.1 million; 2008: \$85.8 million). The EDT revenue portfolio is transitioning from several legacy products to recently approved products such as *Ampyra* and *Invega Sustenna*.

EDT believes it is among the world's leaders in drug formulation and development due to its profitability, proprietary and partnered clinical development pipeline and, multiple preclinical programs. EDT is a division of Elan headquartered in Dublin, Ireland. Prior to the merger, EDT will be carved out of Elan and reorganized under New Alkermes.

Recent Events

In March 2010, EDT's collaborator Acorda launched *Ampyra* following its approval by the FDA in January 2010 as a treatment to improve walking speed in patients with MS. *Ampyra*, a prolonged-release tablet of dalfampridine, is a registered trademark of Acorda and is marketed and distributed in the United States by Acorda. Acorda sub-licensed to Biogen Idec the commercial rights to *Ampyra* outside the United States, where the product is called *Fampyra*. *Fampyra* is a registered trademark (European Union) of Acorda.

Ampyra is the first NDA approved by the FDA for a product using EDT's *MXDAS* (matrix drug absorption system) technology and is the first medicine approved by the FDA indicated to improve walking speed in people with MS.

Table of Contents

In January 2011, the CHMP issued a negative opinion, recommending against approval of *Fampyra*. Biogen Idec appealed this opinion and requested a re-examination of the decision of the CHMP. In May 2011, Biogen Idec announced that *Fampyra* had been granted a positive opinion for conditional approval from CHMP. Biogen Idec also received marketing approval for *Fampyra* in Australia in May 2011, as well as a notice of deficiency from Health Canada in March 2011 for Biogen Idec's application to sell *Fampyra* in Canada. On July 25, 2011, Biogen Idec announced that it had received conditional approval of the European Commission to market *Fampyra* in the European Union. EDT has the right to manufacture supplies of *Ampyra/Fampyra* for the global market at its Athlone, Ireland facility.

In March 2011, EDT's collaborator Janssen announced the approval of *Xeplion* (paliperidone palmitate), a once monthly atypical antipsychotic injection, by the European Commission. *Xeplion* is the first injectable product using EDT's *NanoCrystal* technology that has been approved by the European Commission. *Xeplion* is a registered trademark (European Union) of J&J and is marketed by Janssen in the United States under the name *Invega Sustenna*, which is also a registered trademark of J&J.

In 2010, one of EDT's collaborators, Zogenix, progressed the hydrocodone ER product ZX002 into two Phase 3 clinical trials and expects to announce top line results from those clinical trials in the third quarter of 2011. ZX002 is a single agent controlled release formulation of hydrocodone. ZX002 was developed by EDT using *SODAS*, technology and is in clinical trials for the treatment of moderate to severe chronic pain in individuals who require continuous opioid treatment for pain management. Pending positive clinical results, Zogenix expects to submit an NDA to the FDA by early 2012. If approved, ZX002 has the potential to be the first oral controlled-release version of hydrocodone and also the first hydrocodone product that is not combined with another analgesic. This novel formulation has the potential to address safety concerns identified by the FDA regarding the use of certain combination prescription pain products that contain acetaminophen, which can cause liver toxicity at high doses over time. In May 2011, EDT licensed marketing and distribution rights of ZX002 for the Canadian market to Paladin Labs.

In addition to licensed products, EDT also manufactures products that do not incorporate EDT's proprietary technologies. In October 2010, EDT formally launched its Manufacturing Services as a separate line of business, building on over 40 years experience and innovation in developing and manufacturing complex products. Since then, EDT has entered into a number of new agreements whereby it will tech-transfer, scale-up and manufacture third-party products.

Other recent advances include regulatory approvals for new strengths for Novartis' *Focalin XR* (25mg and 35mg) in the United States as well as the filing of *Morphelan* and megestrol acetate oral suspension in the United Kingdom. *Focalin XR* is a registered trademark of Novartis and *Morphelan* is a registered trademark (European Union) of Elan Pharma International Limited.

EDT's Business Strategy

EDT is focused on growing its product portfolio and pipeline, enabled by its strong development capabilities, product technologies and manufacturing expertise. EDT's strategic focus is on developing proprietary products, while continuing to leverage its technologies and capabilities through product development on behalf of its pharmaceutical collaborators.

Key Technologies

EDT has a unique platform of validated technologies, including OCR (e.g., oral delayed release and pulsatile release delivery systems), as well as technology solutions for poorly water-soluble compounds, such as *NanoCrystal* technology, which are supported by its patent estate. EDT has a complete range of capabilities from formulation development through to commercial-scale manufacture in modern facilities. A significant feature of EDT's *NanoCrystal* and OCR technology platforms is that they can be combined to produce therapeutic benefits, as described in *The Business of EDT Intellectual Property*.

Table of Contents***NanoCrystal Technology***

EDT's *NanoCrystal* technology is applicable to poorly water-soluble compounds. *NanoCrystal* technology involves formulating and stabilizing drugs into particles that are nanometers in size. A drug in *NanoCrystal* form can be incorporated into common dosage forms, including tablets, capsules, inhalation devices, and sterile forms for injection, with the potential for substantial improvements in patient outcomes.

EDT's *NanoCrystal* technology is applicable to all dosage forms and has been manufactured on a commercial scale since 2001. Five licensed products using EDT's *NanoCrystal* technology have been launched to date, achieving over \$1.9 billion in-market sales in 2010, with more than 20 other compounds at various stages of development.

The potential benefits of applying the *NanoCrystal* technology for existing and new products include:

- enhancing oral bioavailability;
- increased therapeutic effectiveness;
- reducing/eliminating fed/fasted variability;
- sustaining duration of IV/IM release; and
- optimizing delivery.

The marketed products that incorporate EDT's *NanoCrystal* technology are as follows:

Marketer	Product	Trademark Registered by	Indication	Territory
Merck Inc.	<i>Emend</i>	Merck Sharp & Dohme Corporation	Nausea post chemo	All major territories worldwide
Pfizer Inc.	<i>Rapamune</i>	Wyeth LLC	Transplant rejection	All major territories worldwide

Janssen	<i>Invega Sustenna Xeplion</i>	Johnson & Johnson Corporation	Schizophrenia	U.S. EU

These products and other products under development cover a range of dosage forms and administration routes (e.g., solid oral, liquid oral and long acting depot injection). EDT's *NanoCrystal* technology has also been successfully applied to nasal and pulmonary formulations in development. In 2010, products using *NanoCrystal* technology accounted for \$84.6 million of EDT's revenue.

Oral Controlled Release Technology Platform

EDT has developed a range of OCR technologies, which it applies to help overcome many of the technical difficulties that have been encountered in developing long-acting oral products.

EDT uses its OCR technology and manufacturing expertise to formulate, develop and manufacture oral dosage forms of pharmaceutical products that improve and control the release characteristics and efficacy of standard dosage forms. Products incorporating OCR technology may also result in improved patient convenience and compliance. EDT's OCR technology platform allows for the engineering of a range of release profiles and dosage forms. Customized release profiles for oral dosage forms such as extended release, delayed release and pulsatile release have all been developed and commercialized.

With manufacturing capabilities in the United States and Ireland, EDT has supported the commercialization of 17 products currently on the market. EDT's OCR platform includes specific technologies for tailored pharmacokinetic profiles including *SODAS* technology, *IPDAS*® technology, *CODAS*® technology and the *MXDAS* drug absorption system, each as described below.

Table of Contents

The principal OCR technologies are:

SODAS Technology: *SODAS* (Spheroidal Oral Drug Absorption System) technology is based on the production of uniform spherical beads of 1 to 2 mm in diameter containing drug plus excipients and coated with product-specific modified-release polymers. As each candidate drug presents itself with different physiochemical and pharmacokinetic properties, the composition of the polymer membrane will differ for each individual *SODAS* formulation. Varying the nature and combination of polymers within a selectively permeable membrane enables varying degrees of modified release depending upon the required product profile. *SODAS* is a registered trademark of Elan Pharma International Limited.

CODAS Technology: *CODAS* (Chronotherapeutic Oral Drug Absorption System) enables the delayed onset of drug release incorporating the use of specific polymers, resulting in a drug release profile that more accurately complements circadian patterns. *CODAS* is a registered trademark of Elan Pharma International Limited.

IPDAS Technology: *IPDAS* (Intestinal Protective Drug Absorption System) technology confers the advantages of multiparticulate technology in a table dosage form initially targeted for use in compounds known for gastrointestinal irritation. *IPDAS* conveys its gastrointestinal protection by a wide dispersion of the irritant drug candidates throughout the gastrointestinal tract in a controlled and gradual manner. The *IPDAS* delivery system is comprised of numerous high-density controlled-release beads compressed into a tablet form. Release characteristics can be modified by the application of polymers to the micro matrix and subsequent coatings which form a rate-limiting semi-permeable membrane. *IPDAS* is a registered trademark of Elan Pharma International Limited.

MXDAS Technology: *MXDAS* (Matrix Drug Absorption System) formulates the drug candidate in a hydrophilic matrix, involves the incorporation of one or more hydrophilic matrix forming polymers into a solid oral dosage form, which controls the release of drug through a process of diffusion and erosion in the gastrointestinal tract controlling the release of the active drug ingredient. *MXDAS* is a registered trademark of Elan Pharma International Limited.

Currently marketed products that incorporate EDT's OCR technologies include the following:

Marketer	Product	Trademark Registered by	Indication	Territory
Acorda Therapeutics, Inc.	<i>Zanaflex Capsules</i> [®]	Acorda Therapeutics, Inc.	Muscle spasticity	U.S.

In 2010, products using OCR technologies accounted for \$164.6 million of EDT's revenue.

Manufacturing and Research & Development Capabilities

Manufacturing, Development and Scale-up Expertise

EDT's principal manufacturing facilities are located in Athlone, Ireland and Gainesville, Georgia. EDT has developed scale-up and manufacture of pharmaceutical dosage forms for pharmaceutical markets worldwide, with multiple products launched in North America, Asia, Europe, Latin America, Asia Pacific and, more recently, India and China. At present, over 30 pharmaceutical companies are clients of EDT.

EDT's development and manufacturing capabilities include:

formulation through process development, scale-up and full scale commercial manufacturing;

specialized capabilities for the development and manufacturing of controlled substances; and

full project leadership and management.

EDT's manufacturing services business provides a range of contract development and manufacturing services that includes analytical development, clinical trial manufacturing, product scale-up, product registration support and supply chain management for client products. The range of manufacturing services includes:

dedicated development, scale-up and commercial manufacturing facilities;

FDA and EMA inspected sites with capacity to manufacture up to 1.5 billion units annually of solid oral dosage product;

270,000 square feet of facilities compliant with current good manufacturing practices between EDT's sites in Ireland and the United States;

process and analytical equipment, a site controlled by the U.S. Drug Enforcement Administration (which is referred to in this proxy statement/prospectus as the DEA), packaging facilities in United States and Ireland; and

other services include regulatory support, supply chain support, and launch management.

Research & Development Capabilities

EDT's research and development, which is sometimes referred to in this proxy statement/prospectus as R&D, focuses on areas such as pharmaceutical formulation, analytical chemistry, process development, engineering, scale-up and drug optimization/delivery. At its facilities in Athlone, Ireland, Gainesville, Georgia and King of Prussia, Pennsylvania (which facility is not being acquired in connection with the business combination and will be closed in the second half of 2011), EDT conducts research and development on its product candidates, explores new applications of its existing technologies and develops new technologies. An in-house product pipeline team oversees all development activities.

R&D operations are generally performed under a license arrangement with a client company pursuant to which EDT and the client enter into a development services arrangement whereby EDT performs formulation development work

on the compound in question on a fee for services/milestone basis. EDT has also conducted, and is continuing to conduct, internal screening activities to identify compounds with market potential that could be developed by EDT and then either be out-licensed at a later stage or commercialized.

Internal research projects are also underway that are not as yet the subject matter of a license agreement with a third party. R&D work is also carried out by collaborators under broad *NanoCrystal* technology based licenses. EDT is not aware of this activity unless and until it is disclosed to EDT by the collaborators.

In almost all cases in which EDT is collaborating with third parties on the formulation development of specified compound(s), EDT does not carry out clinical development, which is the responsibility of the collaborator. EDT does carry out some clinical development activities related to proprietary products, managed through in-house staff and a network of clinical research organizations.

Table of Contents

EDT's drug optimization and development business has successfully assisted a number of companies with various applications to the regulatory authorities in the United States, Europe and Japan. EDT also provides assistance to its clients with the preparation of NDAs and updates, ANDAs, Drug Master Files, which are referred to in this proxy statement/prospectus as DMFs, and post-marketing supplements. In addition, EDT maintains site reference files and authorized access to DMFs as required.

EDT incurred research and development expenses of \$53.6 million, \$47.0 million and \$47.6 million during 2010, 2009 and 2008, respectively. These expenses do not include expenses incurred by EDT's pharmaceutical collaborators to develop products under license agreements with EDT, which are typically related to clinical development and product registration expenses.

Products***Marketed Products***

Product Pipeline

EDT's proprietary and partnered pipeline is in various stages of development for a broad range of indications. In addition, EDT has a large number of projects at the preclinical or formulation development stage.

(1) Approved in the United States. Conditional approval in the European Union. Filed in Canada.

(2) Improved Existing Product.

Collaborative Research and Development Agreements

EDT has entered into collaborative agreements relating to both OCR technologies and the *NanoCrystal* technology. At present EDT has over twenty collaborations ongoing with pharma companies.

For a typical program where a collaborator with a compound desires an improved formulation using EDT's *NanoCrystal* technology or using EDT's suite of OCR technologies, EDT would enter into an agreement or series of agreements with the client to assess the feasibility of developing the improved formulation and then, if feasible, assist the collaborator in the development of the new formulation of the product. The collaborator is responsible for the commercialization of any new formulation of the product that is successfully developed and approved for marketing. EDT receives a royalty or other payments with respect to sales of the product and sometimes manufactures the product. Most of EDT's research, development and license agreements may be terminated by the client upon short notice to EDT. See *The Business of EDT* Products *Product Pipeline*.

An example of an EDT agreement with respect to its *NanoCrystal* technology is EDT's March 1999 license agreement with Janssen. Under the license agreement, EDT granted to Janssen a worldwide exclusive license under the *NanoCrystal* technology to develop and commercialize injectable formulations of risperidone and related compounds.

A once-monthly formulation of paliperidone palmitate, a metabolite of risperidone, was approved by the FDA in July 2009 for the treatment of schizophrenia in adults. It was subsequently launched in the United States under the name *Invega Sustenna*.

In March 2011, Janssen announced the approval of the formulation by the European Commission under the name *Xeplion*. *Xeplion* was launched in the United Kingdom in April 2011 and in Germany, the Netherlands and Denmark in May 2011.

Invega Sustenna/Xeplion was developed by Janssen using the *NanoCrystal* technology, and is now commercialized by Janssen. Janssen pays EDT a tiered royalty in the range of 5-9% on its net sales of *Invega Sustenna/Xeplion*, the amount of which depends on certain thresholds being met.

The license agreement will expire in 2019, or, if later, upon the last expiry of a patent licensed by EDT to Janssen or, in certain cases, developed in the course of the collaboration. Janssen may terminate the license agreement upon three months' notice, and either Janssen or EDT may terminate upon the other's breach or insolvency.

An example of an EDT agreement related to EDT's OCR technology is EDT's amended and restated license agreement entered into with Acorda in September 2003, which replaced two prior license agreements for *Ampyra* in oral sustained release dosage form. Under this agreement, EDT granted to Acorda exclusive worldwide rights to *Ampyra* for all indications, including spinal cord injury and MS. Acorda agreed to pay EDT various milestone payments, royalties based on net sales of products with dalfampridine as the active ingredient, and a percentage of any up-front and milestone payments that Acorda receives from the sublicensing of rights to *Ampyra* or other aminopyridine products. *Ampyra* was approved by the FDA in 2009 and is currently marketed in the United States by Acorda.

In June 2009, Acorda sub-licensed its rights outside the United States to Biogen Idec. In May 2011, *Ampyra* under the name *Fampyra* was approved for sale in Australia. Additionally in May 2011, the EMA recommended the conditional approval of dalfampridine in the European Union (under the name *Fampyra*). On July 25, 2011, Biogen Idec announced that it had received conditional approval of the European Commission to market *Fampyra* in the European Union. In March 2011, Biogen Idec received a notice of deficiency from Health Canada for its application to sell *Fampyra* in Canada.

EDT will supply Acorda with its and Biogen Idec's requirements for *Ampyra* and *Fampyra*. Acorda and Biogen Idec are entitled to source up to 25% of their requirements from a third party.

Royalties and manufacturing fees which EDT receives from Acorda on the sale of *Ampyra* and *Fampyra* are in the high teens as a percentage of net selling price.

EDT has the right to terminate Acorda's license in countries in which Acorda fails to file regulatory approvals within a commercially reasonable time after completion and receipt of positive data from all preclinical and clinical studies required for the related NDA equivalent. If EDT terminates Acorda's license in any applicable country, EDT is entitled to license from Acorda its patent rights and know-how relating to the product and to market the product in the applicable country, subject to royalty payments to Acorda.

Acorda has the right to terminate the license agreement at any time by 30 days' written notice prior to regulatory approval or 90 days' written notice after regulatory approval. In addition, the license may be immediately terminated by either party following an incurable breach of any term or provision of the license agreement by the other party. The license agreement may also be terminated by either party following notice and the expiration of a cure period with respect to an uncured breach by the other party.

Subject to the early termination provisions, the license to Acorda terminates on a country-by-country basis on the last to occur of fifteen years from the date of the agreement (September 2018), the expiration of the last to expire EDT patent or the existence of competition in that country.

In January 2011, EDT entered into a development and supplemental agreement with Acorda. This agreement allows Acorda to develop new formulations of dalfampridine or another aminopyridine both with EDT and with third parties. Acorda may select either a formulation developed by EDT or a third party developed formulation for commercialization.

If Acorda selects an EDT formulation, EDT will be entitled to milestone payments at various stages of development and commercialization, together with royalties if this formulation were to be approved and sold, and payments based upon up-front and milestone payments that Acorda receives from the sublicensing of rights to that formulation. EDT will also be obliged to manufacture and supply this formulation, and Acorda will be entitled to source up to 25% of its requirements elsewhere, in the same manner as with *Ampyra*.

If Acorda selects a third party formulation, EDT will be entitled to various compensation payments for permitting Acorda to pursue the third party formulation. Additionally, EDT has the first option to manufacture this third party formulation, if selected.

Whichever formulation is selected by Acorda, EDT will have rights to payment for a minimum of ten years from the first commercial sale of that formulation. Those payment rights may be extended for a longer term, depending on the existence of intellectual property rights protecting the formulation, regulatory exclusivity for that formulation and/or the absence of significant market competition.

Table of Contents**Intellectual Property**

Patents, proprietary rights and trade secrets are important to EDT's business. Multiple aspects of EDT's proprietary technologies are protected by numerous patents and patent applications. EDT's *NanoCrystal* and OCR technologies patent portfolios contain approximately 1,800 patents and pending patent applications protecting such technologies in countries around the world.

EDT continues to file new patent applications protecting its technologies in the United States, European Union, Japan and many other countries. EDT's current patent portfolio is largely composed of patents with claims directed to formulation technologies and related materials, processes, equipment and methods of manufacture. EDT continuously supplements its patent portfolio with product patents, which, by way of example, may contain more specific claims directed to a particular drug or class of drugs in combination with a formulation technology. In most cases, the pharmaceutical compound in the products that EDT develops for its third party collaborators is either proprietary to EDT's collaborator or readily available.

NanoCrystal technology patents

EDT's *NanoCrystal* technology patent portfolio contains a number of patents granted throughout the world, including approximately 100 in the United States and approximately 600 outside the United States, with expiration dates between 2011 and 2023 (unless otherwise extended or reduced). EDT also has a significant number of pending patent applications covering its *NanoCrystal* technology.

U.S. Patent No. 5,145,684, which is referred to in this proxy statement/prospectus as the '684 patent, is the patent which provided the broadest degree of protection in the United States for EDT's *NanoCrystal* technology. The '684 patent was issued in September 1992 on a patent application that was filed on January 25, 1991. The 20-year term of this patent expired on January 25, 2011. A six-month extension of the '684 patent was granted in respect of the *Rapamune* product, extending the expiration date of the patent for this product only to July 2011.

The European patent corresponding to the '684 U.S. patent was revoked in March 2007 following an opposition proceeding, initiated by GlaxoSmithKline, at the European Patent Office, which is referred to in this proxy statement/prospectus as the EPO. The decision to revoke the European patent was based on a procedural ground: the EPO's Technical Board of Appeal found that during prosecution of the European application, subject matter was added to the application in a manner not permitted under the European Patent Convention. There were no findings on any issue of patentability and this decision did not have a bearing on the validity of the '684 patent.

There are a number of levels of patent protection for EDT's *NanoCrystal* technology. The '684 patent (and its family of corresponding patents in other countries) represented the broadest tier of patent protection for the technology generally, below which there are several further levels of protection embodied in a large number of patents and applications covering variously (i) therapeutic categories (e.g. anti-cancer agents, non-steroidal anti-inflammatory drugs, statins, COX-2 inhibitors, cephalosporins, HIV protease inhibitors), (ii) routes/methods of administration (e.g. intravenous, nasal, pulmonary, controlled release), (iii) approaches to making and stabilizing nanoparticulates, and (iv) milling apparatus and systems. The final tier of protection is provided via a large number of product or formulation specific patent families (covering compounds such as fluticasone, sildenafil, meloxicam, budesonide, clopidogrel and ziprasidone, for example).

As the *NanoCrystal* technology evolves, EDT continues to carve out new patent positions to protect new inventions arising from its various development programs.

OCR Technologies

Since EDT pioneered its original OCR technology, *SODAS*, more than 40 years ago, it has produced more than 30 marketed products containing this and other OCR technologies.

EDT's OCR technologies are incorporated within a number of products, amongst others, *Avinza* (registered trademark of King Pharmaceuticals Research and Development, Inc.), *Dilzem*[®]*XL* (registered

Table of Contents

trademark (United Kingdom) of Cephalon (UK) Limited), *Verelan* (registered trademark of Elan Pharma International Limited) *PM* and *Focalin XR*. Similar to its *NanoCrystal* technology, EDT's OCR technology is protected by a patent estate including approximately 300 patents and patent applications worldwide. Some of these patents have expiry dates extending out to 2019 (unless otherwise extended or reduced). Some of EDT's OCR patent families are product specific whereas others cover generic delivery platforms (e.g. different release profiles, taste masking, etc.).

General

At any given time, the precise composition of EDT's patent/patent application portfolio may change due to decisions it makes in the course of its normal business practices including the decision not to maintain certain issued patents or to cease the prosecution of patent applications in certain selected territories or technology areas.

EDT's employees and consultants execute a confidentiality agreement upon commencement of an employment or consulting relationship with EDT. The agreements provide that all confidential information developed or made known to an individual during the course of the employment or consulting relationship will be kept confidential and will not be disclosed to third parties except in specific circumstances. In the case of employees, the agreements provide that all inventions made by the individuals while employed by EDT will be assigned to EDT and are EDT's exclusive property.

Permits and Regulatory Approvals

EDT holds various licenses in respect of its manufacturing activities conducted in Gainesville, Georgia and Athlone, Ireland. The primary licenses held in this regard are FDA Registrations of Drug Establishment and DEA Controlled Substance Registration. EDT also holds a Manufacturers Authorisation (No. M516), an Investigational Medicinal Products Manufacturers Authorisation (No. IMP008) and Certificates of Good Manufacturing Practice Compliance of a Manufacturer (Ref. 2010-096 and 2010-097) from the Irish Medicines Board, which is referred to in this proxy statement/prospectus as the IMB, in respect of its Athlone facility, and a number of Controlled Substance Licences granted by the Minister for Health and Children in Ireland. Further, due to certain U.S. state law requirements, EDT also holds certain state licenses, ostensibly to cover distribution activities through certain states and not in respect of any manufacturing activities conducted in those states.

EDT does not generally act as the product authorization holder for any product incorporating its drug delivery technologies that has been developed on behalf of a collaborator. In such cases, EDT's collaborator would usually hold the relevant authorization from the FDA or other national regulator, and EDT would support this authorization by furnishing a copy of the DMF or the chemistry, manufacturing and controls data to the relevant regulator to prove adequate manufacturing data in respect of the product. EDT would generally update this information annually with the relevant regulator. In other cases where EDT is developing proprietary product candidates, EDT may hold the appropriate regulatory documentation itself.

Environmental, Health and Safety Regulation

EDT's operations are subject to environmental, health and safety law requirements in the countries where EDT operates and in particular where EDT has manufacturing facilities, namely the United States and Ireland. Environmental and health and safety authorities in the relevant jurisdictions, including the EPA and the Occupational Safety and Health Administration in the United States and the Environmental Protection Agency and the Health and Safety Authority in Ireland, administer laws which regulate, among others, the emission of pollutants into the air (including the workplace), the discharge of pollutants into bodies of water; the storage, use and handling of hazardous substances; the disposal of hazardous substances; the exposure of persons to hazardous substances; and the general health, safety and welfare of employees and members of the public. In certain cases, such laws may impose strict

liability for pollution of the environment and/or cleaning up contamination resulting from spills, disposals or other releases of hazardous substances or waste and/or any migration of such hazardous substances or waste. Costs, damages and/or fines may result from investigation

Table of Contents

and remediation of such contamination at properties operated by EDT and/or off-site locations, including where EDT has arranged for the disposal of hazardous substances or waste. If it is determined that EDT's operations or facilities are not in compliance with environmental and/or health and safety law, EDT could be subject to litigation, regulatory enforcement, fines, penalties and/or additional costs to comply.

Competition

The pharmaceutical industry is highly competitive. EDT competes with major international companies, many of which are larger and have greater financial resources, technical staff, manufacturing, research and development and marketing capabilities than EDT has. EDT also competes with smaller research companies and generic drug manufacturers. The successful innovation of competing technologies and the launch of competing products may materially and adversely affect EDT's business, financial condition, results of operations and prospects. EDT is aware of other pharmaceutical companies that are developing competing technologies, which could significantly damage EDT's current portfolio of products, product candidates and technologies. For example, there are a range of technology approaches to address poorly water soluble drugs including nanoparticles, cyclodextrins, lipid based self emulsifying drug delivery systems, dendrimers, micelles, among others, which could limit the potential success of EDT's *NanoCrystal* technology and its growth prospects could be materially impaired. As EDT's *NanoCrystal* technology matures, the competitive threat will increase, particularly as the base patent in the United States expired in 2011 and the base patent in Europe has been declared invalid. In addition, there are many competing technologies to EDT's OCR technology, some of which are owned by large pharmaceutical companies and others of which are owned by other smaller drug-delivery specific companies.

Certain of EDT's competitors seek to produce generic versions of EDT's products. In order to do so, such generic competitors challenge EDT's existing patent protection or regulatory exclusivity, or, alternatively, may wait until EDT's patents expire. Generic competitors do not have to bear the same level of research and development and other expenses as those associated with bringing a new branded product to market. As a result, they can charge much less for competing versions of EDT's products. Furthermore, it is typically easier to market generic drugs than branded drugs. Managed care organizations generally favor generics over branded drugs, and certain governments encourage, and under some circumstances mandate, the use of generic products thereby reducing the sales of branded products that are no longer patent protected. Historically, when a generic version of one of EDT's products has been marketed by a competitor, EDT has typically seen a substantial decline in the revenues of the relevant product.

Accordingly, competition from other companies, including those producing generic versions of EDT products that are no longer patent protected, may rapidly and significantly reduce, slow, or reverse the growth in sales and profitability of any of EDT's products not protected by patents or regulatory exclusivity, and may materially and adversely affect EDT's business, financial condition, results of operations and prospects.

Pharmaceutical technologies and products are subject to rapid and significant technological change. EDT expects its competitors to develop new technologies, products and processes that may be more effective than those developed by EDT. As a result, EDT's products and product candidates may become uncompetitive or obsolete before EDT recovers expenses incurred in connection with their development or realizes revenues from any commercialized product.

The success of EDT's business strategy depends to a significant extent on EDT's ability to reformulate existing drugs, and to develop these drugs into new product candidates on a cost-effective basis. Research and discoveries by EDT's competitors may render some or all of EDT's product candidates uncompetitive or obsolete. Furthermore, unforeseen problems may develop with technologies or applications EDT uses in its development programs, and EDT may be unable to successfully address these challenges. This could result in the inability of EDT to develop commercially feasible products, which could have a material adverse effect on EDT's business, financial condition, results of operations and prospects.

Table of Contents**Employees**

As of June 30, 2011 EDT had approximately 406 employees in Ireland. The majority of these were based in Athlone. In addition, there were approximately 251 EDT employees in the United States as of June 30, 2011. Of the EDT employees in the United States, approximately 100 worked at the King of Prussia site which is expected to close in the second half of 2011.

Properties

The following table lists the location, ownership interest, use and approximate size of EDT's principal properties:

Location and Ownership Interest	Use	Size (Sq. Ft.)
Owned: Athlone, Ireland	R&D, manufacturing and administration	463,000
Owned: Gainesville, GA, United States	R&D, manufacturing and administration	89,000

Legal Matters

EDT and/or its product collaborators are involved in various sets of patent infringement litigations (also known as Paragraph IV litigations in the United States) in Canada, France and the United States.

In the United States, putative generics of innovator drug products may file ANDAs and, in doing so, are not required to include preclinical and clinical data to establish safety and effectiveness of their drug. Instead, they would rely on such data provided in the innovator drug NDA. However, to benefit from this less costly abbreviated procedure, the ANDA applicant must demonstrate that its drug is generic or bioequivalent to the innovator drug, and, to the extent that patents protecting the innovator drug are listed in the Orange Book, the ANDA applicant must write to the innovator NDA holder and the patent holder (to the extent that the Orange Book-listed patents are not owned by the innovator NDA holder) certifying that its product either does not infringe the innovator's and, if applicable, the patent holder's patents and/or that the relevant patents are invalid. The innovator and the patent holder may sue the ANDA applicant within 45 days of receiving the certification and, if they do so, the FDA may not approve the ANDA for 30 months from the date of certification unless, at some point before the expiry of those 30 months, a court makes a final decision in the ANDA applicant's favor.

EDT is involved in a number of Paragraph IV litigations and similar suits outside the United States in respect of six different products: *TriCor*, *Focalin XR*, *Avinza*, *Zanaflex*, *Rapamune* and *Luvox CR* either as plaintiff or as an interested party (where the suit is being brought in the name of one of EDT's collaborators). EDT has recently received a Paragraph IV certification with respect to *Megace ES*.

Table of Contents

Following the proposed transactions, the board of directors of New Alkermes will consider compensation paid to executive officers and directors of comparable public companies and workload in determining appropriate compensation for New Alkermes executive officers and directors of the New Alkermes board.

DESCRIPTION OF NEW ALKERMES ORDINARY SHARES

The following description of New Alkermes share capital is a summary. This summary does not purport to be complete and is qualified in its entirety by reference to the Companies Acts and the complete text of New Alkermes memorandum and articles of association substantially in the form attached as Annex E to this proxy statement/prospectus. You should read those laws and documents carefully.

There are differences between Alkermes bylaws and articles of incorporation and New Alkermes memorandum and articles of association as they will be in effect after the closing, especially as they relate to changes (i) that are required by Irish law or (ii) that are necessary in order to preserve the current rights of shareholders and powers of the board of directors of New Alkermes following the consummation of the business combination. Certain provisions of the Alkermes bylaws and articles of incorporation were not replicated in the New Alkermes memorandum and articles of association because Irish law would not permit such replication, and certain provisions were included in the New Alkermes memorandum and articles of association although they were not in the Alkermes bylaws and articles of incorporation because Irish law requires such provisions to be included in the memorandum and articles of association of an Irish public limited company. See *Comparison of the Rights of Holders of Alkermes Common Stock and New Alkermes Ordinary Shares*. Except where otherwise indicated, the description below reflects New Alkermes memorandum and articles of association as those documents will be in effect as of the effective time.

Capital Structure

Authorized Share Capital

The authorized share capital of New Alkermes is 40,000 and \$5,000,000, of which 40,000 are ordinary shares with a nominal value of 1.00 each, 450,000,000 are ordinary shares with a nominal value of \$0.01 each and 50,000,000 are undesignated preferred shares with a nominal value of \$0.01 each.

New Alkermes may issue shares subject to the maximum authorized share capital contained in its memorandum and articles of association. The authorized share capital may be increased or reduced by a resolution approved by a simple majority of the votes of a company's shareholders cast at a general meeting (referred to under Irish law as an ordinary resolution). The shares comprising the authorized share capital of New Alkermes may be divided into shares of such nominal value as the resolution shall prescribe. As a matter of Irish company law, the directors of a company may issue new ordinary or preferred shares without shareholder approval once authorized to do so by the articles of association or by an ordinary resolution adopted by the shareholders at a general meeting. The authorization may be granted for a maximum period of five years, at which point it must be renewed by the shareholders by an ordinary resolution. The articles of association of New Alkermes authorize the board of directors of New Alkermes to issue new ordinary or preferred shares without shareholder approval for a period of five years from the date of adoption of such articles of association, which is expected to be effective in the third quarter of calendar year 2011.

The rights and restrictions to which the ordinary shares will be subject will be prescribed in New Alkermes articles of association. New Alkermes articles of association permit the board of directors, without shareholder approval, to determine the terms of the preferred shares issued by New Alkermes. The New Alkermes board of directors will be authorized, without obtaining any vote or consent of the holders of any class or series of shares, unless expressly

provided by the terms of that class or series of shares, to provide from time to time for the issuance of other classes or series of shares and to establish the characteristics of each class or series, including the number of shares, designations, relative voting rights, dividend rights,

Table of Contents

liquidation and other rights, redemption, repurchase or exchange rights and any other preferences and relative, participating, optional or other rights and limitations not inconsistent with applicable law.

Irish law does not recognize fractional shares held of record. Accordingly, New Alkermes' articles of association will not provide for the issuance of fractional shares of New Alkermes, and the official Irish register of New Alkermes will not reflect any fractional shares.

Issued Share Capital

Immediately prior to the completion of the reorganization, the issued share capital of New Alkermes will be 40,000, comprised of 40,000 ordinary shares, with nominal value of 1 per share, which is referred to in this proxy statement/prospectus as the Euro Share Capital and seven ordinary shares of \$0.01 each. New Alkermes will issue 31,900,000 ordinary shares with a nominal value of \$0.01 per share to the Elan Shareholder on completion of the reorganization. In connection with the consummation of the merger, New Alkermes will simultaneously issue a number of ordinary shares with a nominal value of \$0.01 per share that is equal to the number of shares of Alkermes common stock that will be automatically converted into the right to receive New Alkermes ordinary shares and canceled as part of the merger. All shares issued upon consummation of the merger will be issued as fully paid-up and non-assessable. On the consummation of the merger, New Alkermes will acquire the Euro Share Capital and the seven ordinary shares of \$0.01 each held by Elan nominees in issue immediately prior to the completion of the business combination for no consideration and then cancel them.

Preemption Rights, Share Warrants and Share Options

Under Irish law certain statutory preemption rights apply automatically in favor of shareholders where shares are to be issued for cash. However, New Alkermes has opted out of these preemption rights in its articles of association as permitted under Irish company law. Because Irish law requires this opt-out to be renewed every five years by a resolution approved by not less than 75% of the votes of the shareholders of New Alkermes cast at a general meeting (referred to under Irish law as a special resolution), New Alkermes' articles of association provide that this opt-out must be so renewed. If the opt-out is not renewed, shares issued for cash must be offered to existing shareholders of New Alkermes on a pro rata basis to their existing shareholding before the shares can be issued to any new shareholders. The statutory preemption rights do not apply where shares are issued for non-cash consideration (such as in a stock-for-stock acquisition) and do not apply to the issue of non-equity shares (that is, shares that have the right to participate only up to a specified amount in any income or capital distribution) or where shares are issued pursuant to an employee stock option or similar equity plan.

The articles of association of New Alkermes provide that, subject to any shareholder approval requirement under any laws, regulations or the rules of any stock exchange to which New Alkermes is subject, the board is authorized, from time to time, in its discretion, to grant such persons, for such periods and upon such terms as the board deems advisable, options to purchase such number of shares of any class or classes or of any series of any class as the board may deem advisable, and to cause warrants or other appropriate instruments evidencing such options to be issued. The Companies Acts provide that directors may issue share warrants or options without shareholder approval once authorized to do so by the articles of association or an ordinary resolution of shareholders. New Alkermes will be subject to the rules of NASDAQ and the Code that require shareholder approval of certain equity plan and share issuances. New Alkermes' board of directors may issue shares upon exercise of warrants or options without shareholder approval or authorization (up to the relevant authorized share capital limit). In connection with the business combination, New Alkermes will assume Alkermes' existing obligations to deliver shares under its equity incentive plans, pursuant to the terms thereof.

Dividends

Under Irish law, dividends and distributions may only be made from distributable reserves. Distributable reserves generally means accumulated realized profits less accumulated realized losses and includes reserves created by way of capital reduction. In addition, no distribution or dividend may be made unless the net assets

Table of Contents

of New Alkermes are equal to, or in excess of, the aggregate of New Alkermes' called up share capital plus undistributable reserves and the distribution does not reduce New Alkermes' net assets below such aggregate. Undistributable reserves include the share premium account, the capital redemption reserve fund and the amount by which New Alkermes' accumulated unrealized profits, so far as not previously utilized by any capitalization, exceed New Alkermes' accumulated unrealized losses, so far as not previously written off in a reduction or reorganization of capital.

The determination as to whether or not New Alkermes has sufficient distributable reserves to fund a dividend must be made by reference to relevant accounts of New Alkermes. The relevant accounts will be either the last set of unconsolidated annual audited financial statements or other financial statements properly prepared in accordance with the Companies Acts, which give a true and fair view of New Alkermes' unconsolidated financial position and accord with accepted accounting practice. The relevant accounts must be filed in the Companies Registration Office (the official public registry for companies in Ireland).

Although New Alkermes will not have any distributable reserves immediately following the effective time, Alkermes and New Alkermes are taking steps to create such distributable reserves, which includes the proposal to create distributable reserves on which Alkermes shareholders will vote at the special meeting. Please see *Risk Factors, Creation of Distributable Reserves of New Alkermes* and *Special Meeting of Alkermes Shareholders*.

New Alkermes' articles of association authorize the directors to declare dividends to the extent they appear justified by profits without shareholder approval. The board of directors may also recommend a dividend to be approved and declared by the shareholders at a general meeting. The board of directors may direct that the payment be made by distribution of assets, shares or cash and no dividend issued may exceed the amount recommended by the directors. Dividends may be declared and paid in the form of cash or non-cash assets and may be paid in U.S. dollars or any other currency.

The directors of New Alkermes may deduct from any dividend payable to any shareholder any amounts payable by such shareholder to New Alkermes in relation to the shares of New Alkermes.

The directors may also authorize New Alkermes to issue shares with preferred rights to participate in dividends declared by New Alkermes. The holders of preferred shares may, depending on their terms, rank senior to the New Alkermes ordinary shares in terms of dividend rights and/or be entitled to claim arrears of a declared dividend out of subsequently declared dividends in priority to ordinary shareholders.

For information about the Irish tax issues relating to dividend payments, please see the section entitled *Certain Tax Consequences of the Merger Irish Tax Considerations Withholding Tax on Dividends*.

Share Repurchases, Redemptions and Conversions

Overview

New Alkermes' articles of association provide that any ordinary share which New Alkermes has agreed to acquire shall be deemed to be a redeemable share. Accordingly, for Irish company law purposes, the repurchase of ordinary shares by New Alkermes will technically be effected as a redemption of those shares as described below under *Description of New Alkermes Ordinary Shares Share Repurchases, Redemptions and Conversions Repurchases and Redemptions by New Alkermes*. If the articles of association of New Alkermes did not contain such provision, repurchases by New Alkermes would be subject to many of the same rules that apply to purchases of New Alkermes ordinary shares by subsidiaries described below under *Description of New Alkermes Ordinary Shares Share Repurchases, Redemptions and Conversions Purchases by Subsidiaries of New Alkermes* including the shareholder

approval requirements described below and the requirement that any on-market purchases be effected on a recognized stock exchange. Neither Irish law nor any constituent document of New Alkermes places limitations on the right of nonresident or foreign owners to vote or hold New Alkermes ordinary shares. Except where otherwise noted, references elsewhere in this proxy statement/prospectus to repurchasing or buying back ordinary shares of New Alkermes refer to the redemption of ordinary shares by New Alkermes or the purchase of ordinary shares of New Alkermes by a

Table of Contents

subsidiary of New Alkermes, in each case in accordance with the New Alkermes articles of association and Irish company law as described below.

Repurchases and Redemptions by New Alkermes

Under Irish law, a company may issue redeemable shares and redeem them out of distributable reserves or the proceeds of a new issue of shares for that purpose. As described in *Creation of Distributable Reserves of New Alkermes*, New Alkermes will not have any distributable reserves immediately following the effective time, however, it will take steps to create such distributable reserves. Please see also *Description of New Alkermes Ordinary Shares*, *Dividends* and *Risk Factors*. New Alkermes may only issue redeemable shares if the nominal value of the issued share capital that is not redeemable is not less than 10% of the nominal value of the total issued share capital of New Alkermes. All redeemable shares must also be fully-paid and the terms of redemption of the shares must provide for payment on redemption. Redeemable shares may, upon redemption, be canceled or held in treasury. Based on the provision of New Alkermes articles described above, shareholder approval will not be required to redeem New Alkermes shares.

New Alkermes may also be given an additional general authority to purchase its own shares on-market which would take effect on the same terms and be subject to the same conditions as applicable to purchases by New Alkermes subsidiaries as described below.

The board of directors of New Alkermes may also issue preferred shares which may be redeemed at the option of either New Alkermes or the shareholder, depending on the terms of such preferred shares. Please see *Description of New Alkermes Ordinary Shares*, *Capital Structure*, *Authorized Share Capital* for additional information on preferred shares.

Repurchased and redeemed shares may be canceled or held as treasury shares. The nominal value of treasury shares held by New Alkermes at any time must not exceed 10% of the nominal value of the issued share capital of New Alkermes. New Alkermes may not exercise any voting rights in respect of any shares held as treasury shares. Treasury shares may be canceled by New Alkermes or re-issued subject to certain conditions.

Purchases by Subsidiaries of New Alkermes

Under Irish law, an Irish or non-Irish subsidiary may purchase shares of New Alkermes either on-market or off-market. For a subsidiary of New Alkermes to make on-market purchases of New Alkermes ordinary shares, the shareholders of New Alkermes must provide general authorization for such purchase by way of ordinary resolution. However, as long as this general authority has been granted, no specific shareholder authority for a particular on-market purchase by a subsidiary of New Alkermes ordinary shares is required. For an off-market purchase by a subsidiary of New Alkermes, the proposed purchase contract must be authorized by special resolution of the shareholders before the contract is entered into. The person whose shares are to be bought back cannot vote in favor of the special resolution and, for at least 21 days prior to the special resolution being passed, the purchase contract must be on display or must be available for inspection by shareholders at the registered office of New Alkermes.

Prior to the effective time, the Elan Shareholder is expected to authorize the purchase of New Alkermes ordinary shares by subsidiaries of New Alkermes, in an aggregate amount approximately equal to the then remaining authorization under the existing Alkermes share repurchase program. This authorization will expire no later than 18 months after the date on which it takes effect.

In order for a subsidiary of New Alkermes to make an on-market purchase of New Alkermes shares, such shares must be purchased on a recognized stock exchange. NASDAQ, on which the shares of New Alkermes will be listed

following the closing, is specified as a recognized stock exchange for this purpose by Irish company law.

The number of shares held by the subsidiaries of New Alkermes at any time will count as treasury shares and will be included in any calculation of the permitted treasury share threshold of 10% of the nominal value of the issued share capital of New Alkermes. While a subsidiary holds shares of New Alkermes, it cannot exercise any voting rights in respect of those shares. The acquisition of the shares of New Alkermes by a subsidiary must be funded out of distributable reserves of the subsidiary.

Existing Share Repurchase Program

In November 2007, the Alkermes board of directors authorized a share repurchase program to repurchase up to \$175 million of Alkermes common stock at the discretion of management from time to time in the open market or through privately negotiated transactions. On February 7, 2008, Alkermes entered into and completed a structured stock repurchase arrangement with Morgan Stanley in order to lower the average cost to acquire shares.

Alkermes made an up-front payment of \$60 million to Morgan Stanley and took delivery of 4,690,542 shares at an average price of \$12.79. In June 2008, the board of directors authorized the expansion of this repurchase program by an additional \$40 million, bringing the total authorization under this program to \$215 million. The repurchase program has no set expiration date and may be suspended or discontinued at any time. As of June 30, 2011, Alkermes had purchased a total of 8,866,342 shares under this program at a cost of \$114 million.

Lien on Shares, Calls on Shares and Forfeiture of Shares

New Alkermes' articles of association provide that New Alkermes will have a first and paramount lien on every share that is not a fully paid up share for all amounts payable at a fixed time or called in respect of that share. Subject to the terms of their allotment, directors may call for any unpaid amounts in respect of any shares to be paid, and if payment is not made, the shares may be forfeited. These provisions are standard inclusions in the articles of association of an Irish company limited by shares such as New Alkermes and will only be applicable to shares of New Alkermes that have not been fully paid up.

Consolidation and Division; Subdivision

Under its articles of association, New Alkermes may, by ordinary resolution, consolidate and divide all or any of its share capital into shares of larger nominal value than its existing shares or subdivide its shares into smaller amounts than is fixed by its articles of association.

Reduction of Share Capital

New Alkermes may, by ordinary resolution, reduce its authorized share capital in any way. New Alkermes also may, by special resolution and subject to confirmation by the Irish High Court, reduce or cancel its issued share capital in any way.

Annual Meetings of Shareholders

New Alkermes will be required to hold an annual general meeting within 18 months of incorporation and at intervals of no more than 15 months thereafter, provided that an annual general meeting is held in each calendar year following the first annual general meeting and no more than nine months after New Alkermes' fiscal year-end. New Alkermes plans to hold its first annual general meeting in 2012 if the business combination is consummated. Under Irish law, the first annual general meeting of New Alkermes is permitted to be held outside Ireland. Thereafter, any annual general meeting may be held outside Ireland if a resolution so authorizing has been passed at the preceding annual general meeting.

Notice of an annual general meeting must be given to all New Alkermes shareholders and to the auditors of New Alkermes. The articles of association of New Alkermes provide for a minimum notice period of 21 days, which is the minimum permitted under Irish law.

The only matters which must, as a matter of Irish company law, be transacted at an annual general meeting are the presentation of the annual accounts, balance sheet and reports of the directors and auditors, the appointment of new auditors and the fixing of the auditor's remuneration (or delegation of same). If no resolution is made in respect of the reappointment of an existing auditor at an annual general meeting, the existing auditor will be deemed to have continued in office.

Table of Contents

Extraordinary General Meetings of Shareholders

Extraordinary general meetings of New Alkermes may be convened by (i) the board of directors, (ii) on requisition of the shareholders holding not less than 10% of the paid up share capital of New Alkermes carrying voting rights or (iii) on requisition of New Alkermes' auditors. Extraordinary general meetings are generally held for the purposes of approving shareholder resolutions as may be required from time to time. At any extraordinary general meeting only such business shall be conducted as is set forth in the notice thereof.

Notice of an extraordinary general meeting must be given to all New Alkermes shareholders and to the auditors of New Alkermes. Under Irish law and New Alkermes' articles of association, the minimum notice periods are 21 days' notice in writing for an extraordinary general meeting to approve a special resolution and 14 days' notice in writing for any other extraordinary general meeting.

In the case of an extraordinary general meeting convened by shareholders of New Alkermes, the proposed purpose of the meeting must be set out in the requisition notice. Upon receipt of this requisition notice, the board of directors has 21 days to convene a meeting of New Alkermes shareholders to vote on the matters set out in the requisition notice. This meeting must be held within two months of the receipt of the requisition notice. If the board of directors does not convene the meeting within such 21-day period, the requisitioning shareholders, or any of them representing more than one half of the total voting rights of all of them, may themselves convene a meeting, which meeting must be held within three months of New Alkermes' receipt of the requisition notice.

If the board of directors becomes aware that the net assets of New Alkermes are not greater than half of the amount of New Alkermes' called-up share capital, the directors of New Alkermes must convene an extraordinary general meeting of New Alkermes shareholders not later than 28 days from the date that they learn of this fact to consider how to address the situation.

Quorum for General Meetings

The articles of association of New Alkermes provide that no business shall be transacted at any general meeting unless a quorum is present. One or more shareholders present in person or by proxy holding not less than a majority of the issued and outstanding shares of New Alkermes entitled to vote at the meeting in question constitute a quorum.

Voting

New Alkermes articles of association provide that the board or the chairman may determine the manner in which the poll is to be taken and the manner in which the votes are to be counted.

Every shareholder is entitled to one vote for each ordinary share that he or she holds as of the record date for the meeting. Voting rights may be exercised by shareholders registered in New Alkermes' share register as of the record date for the meeting or by a duly appointed proxy, which proxy need not be a shareholder. Where interests in shares are held by a nominee trust company this company may exercise the rights of the beneficial holders on their behalf as their proxy. All proxies must be appointed in the manner prescribed by New Alkermes articles of association, which permit shareholders to notify New Alkermes of their proxy appointments electronically in such manner as may be approved by the board.

In accordance with the articles of association of New Alkermes, the directors of New Alkermes may from time to time authorize New Alkermes to issue preferred shares. These preferred shares may have such voting rights as may be

specified in the terms of such preferred shares (e.g., they may carry more votes per share than ordinary shares or may entitle their holders to a class vote on such matters as may be specified in the terms of the preferred shares). Treasury shares or shares of New Alkermes that are held by subsidiaries of New Alkermes will not be entitled to be voted at general meetings of shareholders.

Irish company law requires special resolutions of the shareholders at a general meeting to approve certain matters. Examples of matters requiring special resolutions include:

(a) amending the objects or memorandum of association of New Alkermes;

Table of Contents

- (b) amending the articles of association of New Alkermes;

- (n) setting the re-issue price of treasury shares.

Variation of Rights Attaching to a Class or Series of Shares

Under the New Alkermes articles of association and the Companies Acts, any variation of class rights attaching to the issued shares of New Alkermes must be approved by a special resolution of the shareholders of the affected class or with the consent in writing of the holders of three-quarters of all the votes of that class of shares.

The provisions of the articles of association of New Alkermes relating to general meetings apply to general meetings of the holders of any class of shares except that the necessary quorum is determined in reference to the shares of the holders of the class. Accordingly, for general meetings of holders of a particular class of shares, a quorum consists of the holders present in person or by proxy representing at least one half of the issued shares of the class.

Inspection of Books and Records

Under Irish law, shareholders have the right to: (i) receive a copy of the memorandum and articles of association of New Alkermes and any act of the Irish Government which alters the memorandum of New Alkermes; (ii) inspect and obtain copies of the minutes of general meetings and resolutions of New Alkermes; (iii) inspect and receive a copy of the register of shareholders, register of directors and secretaries, register of directors' interests and other statutory registers maintained by New Alkermes; (iv) receive copies of balance sheets and directors' and auditors' reports which have previously been sent to shareholders prior to an annual general meeting; and (v) receive balance sheets of any subsidiary of New Alkermes which have previously been sent to shareholders prior to an annual general meeting for the preceding ten years. The auditors of New Alkermes will also have the right to inspect all books, records and vouchers of New Alkermes. The auditors' report must be circulated to the shareholders with New Alkermes' financial

statements prepared in accordance with Irish law 21 days before the annual general meeting and must be read to the shareholders at New Alkermes annual general meeting.

Acquisitions

An Irish public limited company may be acquired in a number of ways, including:

(a) a court-approved scheme of arrangement under the Companies Acts. A scheme of arrangement with shareholders requires a court order from the Irish High Court and the approval of a majority in

Table of Contents

number representing 75% in value of the shareholders present and voting in person or by proxy at a meeting called to approve the scheme;

(b) through a tender or takeover offer by a third party for all of the shares of New Alkermes. Where the holders of 80% or more of New Alkermes shares have accepted an offer for their shares in New Alkermes, the remaining shareholders may also be statutorily required to transfer their shares. If the bidder does not exercise its squeeze out right, then the non-accepting shareholders also have a statutory right to require the bidder to acquire their shares on the same terms. If shares of New Alkermes were to be listed on the Irish Stock Exchange or another regulated stock exchange in the European Union, this threshold would be increased to 90%; and

(c) it is also possible for New Alkermes to be acquired by way of a merger with an EU-incorporated company under the EU Cross-Border Mergers Directive 2005/56/EC. Such a merger must be approved by a special resolution. If New Alkermes is being merged with another EU company under the EU Cross-Border Mergers Directive 2005/56/EC and the consideration payable to New Alkermes shareholders is not all in the form of cash, New Alkermes shareholders may be entitled to require their shares to be acquired at fair value.

Irish law does not generally require shareholder approval for a sale, lease or exchange of all or substantially all of a company's property and assets.

Appraisal Rights

Generally, under Irish law, shareholders of an Irish company do not have dissenters' or appraisal rights. Under the European Communities (Cross-Border Mergers) Regulations 2008 governing the merger of an Irish company limited by shares such as New Alkermes and a company incorporated in the European Economic Area (the European Economic Area includes all member states of the European Union and Norway, Iceland and Liechtenstein), a shareholder (i) who voted against the special resolution approving the merger or (ii) of a company in which 90% of the shares are held by the other party to the merger has the right to request that the company acquire its shares for cash at a price determined in accordance with the share exchange ratio set out in the merger agreement.

Disclosure of Interests in Shares

Under the Companies Acts, shareholders must notify New Alkermes if, as a result of a transaction, the shareholder will become interested in 5% or more of the shares of New Alkermes; or if as a result of a transaction a shareholder who was interested in more than 5% of the shares of New Alkermes ceases to be so interested. Where a shareholder is interested in more than 5% of the shares of New Alkermes, the shareholder must notify New Alkermes of any alteration of his or her interest that brings his or her total holding through the nearest whole percentage number, whether an increase or a reduction. The relevant percentage figure is calculated by reference to the aggregate nominal value of the shares in which the shareholder is interested as a proportion of the entire nominal value of the issued share capital of New Alkermes (or any such class of share capital in issue). Where the percentage level of the shareholder's interest does not amount to a whole percentage this figure may be rounded down to the next whole number. New Alkermes must be notified within five business days of the transaction or alteration of the shareholder's interests that gave rise to the notification requirement. If a shareholder fails to comply with these notification requirements, the shareholder's rights in respect of any New Alkermes shares it holds will not be enforceable, either directly or indirectly. However, such person may apply to the court to have the rights attaching to such shares reinstated.

In addition to these disclosure requirements, New Alkermes, under the Companies Acts, may, by notice in writing, require a person whom New Alkermes knows or has reasonable cause to believe to be, or at any time during the three years immediately preceding the date on which such notice is issued to have been, interested in shares comprised in

New Alkermes relevant share capital to: (i) indicate whether or not it is the case; and (ii) where such person holds or has during that time held an interest in the shares of New Alkermes, to provide additional information, including the person's own past or present interests in shares of New Alkermes. If the recipient of the notice fails to respond within the reasonable time period specified in the notice, New

Alkermes may apply to court for an order directing that the affected shares be subject to certain restrictions, as prescribed by the Companies Acts, as follows:

- (a) any transfer of those shares, or in the case of unissued shares any transfer of the right to be issued with shares and any issue of shares, shall be void;
- (b) no voting rights shall be exercisable in respect of those shares;
- (c) no further shares shall be issued in right of those shares or in pursuance of any offer made to the holder of those shares; and
- (d) no payment shall be made of any sums due from New Alkermes on those shares, whether in respect of capital or otherwise.

The court may also order that shares subject to any of these restrictions be sold with the restrictions terminating upon the completion of the sale.

Anti-Takeover Provisions

Irish Takeover Rules and Substantial Acquisition Rules

A transaction in which a third party seeks to acquire 30% or more of the voting rights of New Alkermes will be governed by the Irish Takeover Panel Act 1997 and the Irish Takeover Rules made thereunder and will be regulated by the Irish Takeover Panel. The General Principles of the Irish Takeover Rules and certain important aspects of the Irish Takeover Rules are described below.

General Principles

The Irish Takeover Rules are built on the following General Principles which will apply to any transaction regulated by the Irish Takeover Panel:

- (a) in the event of an offer, all classes of shareholders of the target company should be afforded equivalent treatment and, if a person acquires control of a company, the other holders of securities must be protected;
- (b) the holders of securities in the target company must have sufficient time to allow them to make an informed decision regarding the offer;
- (c) the board of a company must act in the interests of the company as a whole. If the board of the target company advises the holders of securities as regards the offer it must advise on the effects of the implementation of the offer on employment, employment conditions and the locations of the target company's place of business;
- (d) false markets in the securities of the target company or any other company concerned by the offer must not be created;
- (e) a bidder can only announce an offer after ensuring that he or she can fulfill in full the consideration offered;
- (f) a target company may not be hindered longer than is reasonable by an offer for its securities. This is a recognition that an offer will disrupt the day-to-day running of a target company particularly if the offer is hostile and the board of the target company must divert its attention to resist the offer; and

(g) a substantial acquisition of securities (whether such acquisition is to be effected by one transaction or a series of transactions) will only be allowed to take place at an acceptable speed and shall be subject to adequate and timely disclosure.

Mandatory Bid

Under certain circumstances, a person who acquires shares in New Alkermes may be required under the Irish Takeover Rules to make a mandatory cash offer for the remaining outstanding shares in New Alkermes at

Table of Contents

a price not less than the highest price paid for the shares by the acquirer or (any parties acting in concert with the acquirer) during the previous twelve months. This mandatory bid requirement is triggered if an acquisition of shares would increase the aggregate holding of an acquirer (including the holdings of any parties acting in concert with the acquirer) to shares representing 30% or more of the voting rights in New Alkermes, unless the Irish Takeover Panel otherwise consents. An acquisition of shares by a person holding (together with its concert parties) shares representing between 30% and 50% of the voting rights in New Alkermes would also trigger the mandatory bid requirement if, after giving effect to the acquisition, the percentage of the voting rights held by that person (together with its concert parties) would increase by 0.05% within a twelve-month period. Any person (excluding any parties acting in concert with the holder) holding shares representing more than 50% of the voting rights of a company is not subject to these mandatory offer requirements.

Voluntary Bid; Requirements to Make a Cash Offer and Minimum Price Requirements

If a person makes a voluntary offer to acquire outstanding ordinary shares of New Alkermes, the offer price must be no less than the highest price paid for New Alkermes ordinary shares by the bidder or its concert parties during the three-month period prior to the commencement of the offer period. The Irish Takeover Panel has the power to extend the look back period to twelve months if the Irish Takeover Panel, taking into account the General Principles, believes it is appropriate to do so.

If the bidder or any of its concert parties has acquired ordinary shares of New Alkermes (i) during the period of twelve months prior to the commencement of the offer period which represent more than 10% of the total ordinary shares of New Alkermes or (ii) at any time after the commencement of the offer period, the offer must be in cash (or accompanied by a full cash alternative) and the price per New Alkermes ordinary share must not be less than the highest price paid by the bidder or its concert parties during, in the case of (i), the 12-month period prior to the commencement of the offer period and, in the case of (ii), the offer period. The Irish Takeover Panel may apply this rule to a bidder who, together with its concert parties, has acquired less than 10% of the total ordinary shares of New Alkermes in the 12-month period prior to the commencement of the offer period if the Irish Takeover Panel, taking into account the General Principles, considers it just and proper to do so.

An offer period will generally commence from the date of the first announcement of the offer or proposed offer.

Substantial Acquisition Rules

The Irish Takeover Rules also contain rules governing substantial acquisitions of shares which restrict the speed at which a person may increase his or her holding of shares and rights over shares to an aggregate of between 15% and 30% of the voting rights of New Alkermes. Except in certain circumstances, an acquisition or series of acquisitions of shares or rights over shares representing 10% or more of the voting rights of New Alkermes is prohibited, if such acquisition(s), when aggregated with shares or rights already held, would result in the acquirer holding 15% or more but less than 30% of the voting rights of New Alkermes and such acquisitions are made within a period of seven days. These rules also require accelerated disclosure of acquisitions of shares or rights over shares relating to such holdings.

Frustrating Action

Under the Irish Takeover Rules, the New Alkermes board of directors is not permitted to take any action which might frustrate an offer for the shares of New Alkermes once the board of directors has received an approach which may lead to an offer or has reason to believe an offer is imminent, subject to certain exceptions. Potentially frustrating actions such as (i) the issue of shares, options or convertible securities, (ii) material acquisitions or disposals, (iii) entering into contracts other than in the ordinary course of business or (iv) any action, other than seeking alternative offers, which may result in frustration of an offer, are

Table of Contents

prohibited during the course of an offer or at any time during which the board has reason to believe an offer is imminent. Exceptions to this prohibition are available where:

- (a) the action is approved by New Alkermes shareholders at a general meeting; or
- (b) the Irish Takeover Panel has given its consent, where:
 - (i) it is satisfied the action would not constitute frustrating action;
 - (ii) the holders of 50% of the voting rights state in writing that they approve the proposed action and would vote in favor of it at a general meeting;
 - (iii) the action is taken in accordance with a contract entered into prior to the announcement of the offer; or
 - (iv) the decision to take such action was made before the announcement of the offer and either has been at least partially implemented or is in the ordinary course of business.

Corporate Governance

The articles of association of New Alkermes allocate authority over the day-to-day management of New Alkermes to the board of directors. The board of directors may then delegate the management of New Alkermes to committees of the board (consisting of one or more members of the board) or executives, but regardless, the directors will remain responsible, as a matter of Irish law, for the proper management of the affairs of New Alkermes. Committees may meet and adjourn as they determine proper. A vote at any committee meeting will be determined by a majority of votes of the members present.

New Alkermes will replicate the existing committees that are currently in place for Alkermes which include an Audit and Risk Committee, a Compensation Committee and a Nominating and Corporate Governance Committee. It also is the intention of New Alkermes to adopt Alkermes current Reporting Procedures for Auditing and Accounting, Internal Control Matters and Illegal or Unethical Behavior and No Retaliation Policy, Audit and Non-Audit Services Pre-Approval Policy, Charter of the Lead Independent Director, Insider Trading Policy, Corporate Governance Guidelines and Code of Business Conduct and Ethics.

On July 25, 2011, New Alkermes was re-registered as a public limited company. New Alkermes' fiscal year ends on March 31 and New Alkermes' registered address is Treasury Building, Lower Grand Canal Street, Dublin 2, Ireland. For more information regarding New Alkermes, see *The Companies*.

Duration; Dissolution; Rights upon Liquidation

New Alkermes' duration will be unlimited. New Alkermes may be dissolved and wound up at any time by way of a shareholders' voluntary winding up or a creditors' winding up. In the case of a shareholders' voluntary winding-up, a special resolution of shareholders is required. New Alkermes may also be dissolved by way of court order on the application of a creditor, or by the Companies Registration Office as an enforcement measure where New Alkermes has failed to file certain returns.

The rights of the shareholders to a return of New Alkermes' assets on dissolution or winding up, following the settlement of all claims of creditors, may be prescribed in New Alkermes' articles of association or the terms of any preferred shares issued by the directors of New Alkermes from time to time. The holders of preferred shares in particular may have the right to priority in a dissolution or winding up of New Alkermes. If the articles of association contain no specific provisions in respect of a dissolution or winding up then, subject to the priorities of any creditors, the assets will be distributed to shareholders in proportion to the paid-up nominal value of the shares held. New Alkermes' articles of association provide that the ordinary shareholders of New Alkermes are entitled to participate pro rata in a winding up, but their right to do so may be subject to the rights of any preferred shareholders to participate under the terms of any series or class of preferred shares.

Uncertificated Shares

Holders of ordinary shares of New Alkermes will not have the right to require New Alkermes to issue certificates for their shares. New Alkermes will only issue uncertificated ordinary shares.

Stock Exchange Listing

Alkermes intends to file a listing application with NASDAQ in respect of the New Alkermes ordinary shares that the Elan Shareholder will receive in the reorganization and that holders of Alkermes common stock will receive in the merger. It is expected that following the effective time, the New Alkermes ordinary shares will be listed on NASDAQ under the symbol **ALKS** – the same symbol under which Alkermes' common stock is currently listed. New Alkermes ordinary shares are not currently intended to be listed on the Irish Stock Exchange.

No Sinking Fund

The New Alkermes ordinary shares have no sinking fund provisions.

No Liability for Further Calls or Assessments

The shares to be issued in the merger will be duly and validly issued and fully-paid.

Transfer and Registration of Shares

The transfer agent for New Alkermes will maintain the share register, registration in which will be determinative of membership in New Alkermes. A shareholder of New Alkermes who holds shares beneficially will not be the holder of record of such shares. Instead, the depository (for example, Cede & Co., as nominee for DTC) or other nominee will be the holder of record of those shares. Accordingly, a transfer of shares from a person who holds such shares beneficially to a person who also holds such shares beneficially through a depository or other nominee will not be registered in New Alkermes' official share register, as the depository or other nominee will remain the record holder of

any such shares.

A written instrument of transfer is required under Irish law in order to register on New Alkermes' official share register any transfer of shares (i) from a person who holds such shares directly to any other person, (ii) from a person who holds such shares beneficially to a person who holds such shares directly, or (iii) from a person who holds such shares beneficially to another person who holds such shares beneficially where the transfer involves a change in the depository or other nominee that is the record owner of the transferred shares. An instrument of transfer is also required for a shareholder who directly holds shares to transfer those

Table of Contents

shares into his or her own broker account (or vice versa). Such instruments of transfer may give rise to Irish stamp duty, which must be paid prior to registration of the transfer on New Alkermes' official Irish share register. However, a shareholder who directly holds shares may transfer those shares into his or her own broker account (or vice versa) without giving rise to Irish stamp duty provided there is no change in the ultimate beneficial ownership of the shares as a result of the transfer and the transfer is not made in contemplation of a sale of the shares.

Any transfer of New Alkermes ordinary shares that is subject to Irish stamp duty will not be registered in the name of the buyer unless an instrument of transfer is duly stamped and provided to the transfer agent. New Alkermes' articles of association allow New Alkermes, in its absolute discretion, to create an instrument of transfer and pay (or procure the payment of) any stamp duty, which is the legal obligation of a buyer. In the event of any such payment, New Alkermes is (on behalf of itself or its affiliates) entitled to (i) seek reimbursement from the buyer or seller (at its discretion), (ii) set-off the amount of the stamp duty against future dividends payable to the buyer or seller (at its discretion), and (iii) claim a lien against the New Alkermes ordinary shares on which it has paid stamp duty. Parties to a share transfer may assume that any stamp duty arising in respect of a transaction in New Alkermes ordinary shares has been paid unless one or both of such parties is otherwise notified by New Alkermes.

New Alkermes' articles of association as they will be in effect as of the effective date of the merger delegate to New Alkermes' secretary the authority to execute an instrument of transfer on behalf of a transferring party.

In order to help ensure that the official share register is regularly updated to reflect trading of New Alkermes ordinary shares occurring through normal electronic systems, New Alkermes intends to regularly produce any required instruments of transfer in connection with any transactions for which it pays stamp duty (subject to the reimbursement and set-off rights described above). In the event that New Alkermes notifies one or both of the parties to a share transfer that it believes stamp duty is required to be paid in connection with the transfer and that it will not pay the stamp duty, the parties may either themselves arrange for the execution of the required instrument of transfer (and may request a form of instrument of transfer from New Alkermes for this purpose) or request that New Alkermes execute an instrument of transfer on behalf of the transferring party in a form determined by New Alkermes. In either event, if the parties to the share transfer have the instrument of transfer duly stamped (to the extent required) and then provide it to New Alkermes' transfer agent, the buyer will be registered as the legal owner of the relevant shares on New Alkermes' official Irish share register (subject to the matters described below).

The directors may suspend registration of transfers from time to time, not exceeding 30 days in aggregate each year.

COMPARISON OF THE RIGHTS OF HOLDERS OF ALKERMES COMMON STOCK AND NEW ALKERMES ORDINARY SHARES

The rights of the shareholders of Alkermes and the relative powers of Alkermes' board of directors are governed by the laws of the Commonwealth of Pennsylvania, including the PBCL, and Alkermes' articles of incorporation and bylaws. As a result of the merger, each outstanding share of Alkermes common stock and all associated rights will be canceled and automatically converted into the right to receive one New Alkermes ordinary share. Because New Alkermes will be, at the effective time, a public limited company organized under the laws of Ireland, the rights of the shareholders of New Alkermes will be governed by applicable Irish law, including the Companies Acts, and by New Alkermes memorandum and articles of association.

Many of the principal attributes of Alkermes common stock and New Alkermes' ordinary shares will be similar. However, there are differences between the rights of shareholders of Alkermes under Pennsylvania law and the rights of shareholders of New Alkermes following the merger under Irish law. In addition, there are differences between Alkermes' articles of incorporation and bylaws and New Alkermes' memorandum and articles of association as they will be in effect from and after the effective time, including (i) as required by Irish law (i.e., as a result of differences in Irish law and Pennsylvania law, the New Alkermes memorandum and articles of association include provisions not included in the Alkermes articles of incorporation and bylaws and exclude provisions that are in the Alkermes articles of incorporation and bylaws), or (ii) as necessary in order to preserve the current rights of shareholders and powers of the board of directors of Alkermes as compared to those of New Alkermes following the effective time.

The following is a summary comparison of the material differences between the rights of Alkermes shareholders under the PBCL and the Alkermes articles of incorporation and bylaws and the rights Alkermes shareholders will have as shareholders of New Alkermes under the Companies Acts, and New Alkermes' memorandum and articles of association effective upon the consummation of the business combination. The discussion in this section does not include a description of rights or obligations under the U.S. federal securities laws or NASDAQ listing requirements, many of which are similar to, or have an effect on, matters described herein under Pennsylvania or Irish law. Such rights or obligations generally apply equally to the Alkermes common stock and the New Alkermes ordinary shares.

The statements in this section are qualified in their entirety by reference to, and are subject to, the detailed provisions of the PBCL, the Companies Acts, Alkermes' articles of incorporation and bylaws and New Alkermes' memorandum and articles of association as they will be in effect from and after the closing. The form of New Alkermes memorandum and articles of association substantially as they will be in effect from and after the closing are attached as Annex E to this proxy statement/prospectus. The Alkermes articles of incorporation and bylaws are incorporated by reference herein and have been furnished to the Alkermes shareholders with this proxy statement/prospectus. As of August 1, 2011, the record date for the special meeting, Alkermes had 97,618,711 shares of common stock issued and outstanding. There is no outstanding preferred stock.

Alkermes' articles of incorporation and Pennsylvania law permit the board to issue new shares of authorized but unissued share capital, at such times and on such terms as the directors think proper, without obtaining additional shareholder approval up to the authorized maximum. However, an increase in the authorized share capital requires shareholder approval. The board may determine the class, rights and other terms that will attach to such shares.

will issue 31,900,000 ordinary shares with a nominal value of \$0.01 per share to the Elan Shareholder on completion of the reorganization. In connection with the consummation of the merger, New Alkermes will simultaneously issue a number of ordinary shares with a nominal value of \$0.01 per share that is equal to the number of shares of Alkermes common stock then outstanding that will automatically be canceled and converted into the right to receive New Alkermes ordinary shares as part of the merger. All shares issued upon consummation of the merger will be issued as fully paid-up and non-assessable. Upon the consummation of the merger, New Alkermes will also acquire the Euro Share Capital and the seven ordinary shares of \$0.01 each held by Elan nominees for no consideration and will then cancel them.

Under Irish law, the board of directors may issue new ordinary or preferred shares without shareholder approval once authorized to do so by the articles of association or by an ordinary resolution adopted by the shareholders at a general meeting. The authorization may be granted for a maximum period of five years, after which it must be renewed by the shareholders by ordinary resolution. The articles of association of New Alkermes authorize the board of directors of New Alkermes to issue new ordinary or preferred shares without shareholder approval for a period of five years from the date of adoption.

Reduction of Share Capital

The Alkermes articles of incorporation authorize the board to decrease the number of shares of any class or series to a number not less than the number of shares then

New Alkermes may, by ordinary resolution, reduce its authorized share capital. New Alkermes also may, by special resolution and subject to confirmation by the Irish High

outstanding.

Court, reduce or cancel its issued share capital.

**Preemption Rights,
Share Warrants and
Share Options**

Alkermes shareholders do not have
preemption rights.

Under Irish law certain statutory preemption rights apply automatically in favor of shareholders where shares are to be issued for cash. New Alkermes has opted out of these preemption rights in its articles of association as permitted under

Alkermes

New Alkermes

Irish law. However, Irish law requires this opt-out to be renewed at least every five years by a special resolution of the shareholders requiring the approval of no less than 75% of the votes cast at a general meeting. If the opt-out is not renewed, shares issued for cash must be offered to pre-existing shareholders on a pro rata basis before shares can be issued to any new shareholders. The statutory preemption rights do not apply where shares are issued for non-cash consideration (such as in a stock-for- stock acquisition) and do not apply to the issue of non-equity shares (that is, shares that have the right to participate only up to a specified amount in any income or capital distribution).

Under Irish law, New Alkermes is prohibited from allotting shares for nil or no consideration. Accordingly, at least the nominal value of the shares issued underlying any restricted share award, restricted share unit, performance shares awards, bonus shares or any other share-based grants must be paid pursuant to the Companies Acts.

**Distributions,
Dividends,
Repurchases and
Redemptions**

Under the Alkermes articles of incorporation, the holders of Alkermes common stock will be entitled to receive dividends when and as declared by the board of directors, but only out of funds legally available for this purpose.

Under Pennsylvania law, a dividend may not be made if, after giving effect to the dividend, either: (i) the corporation would be unable to pay its debts as they become due in the usual course of business, or (ii) the total assets of the corporation would be less than the sum of its total liabilities plus

Under Irish law, dividends and distributions may only be made from distributable reserves. Distributable reserves generally means the accumulated realized profits less accumulated realized losses and includes reserves created by way of capital reduction. In addition, no distribution or dividend may be made unless the net assets of New Alkermes are equal to, or in excess of, the aggregate of New Alkermes called up share capital plus undistributable reserves and the distribution does not reduce New Alkermes net assets below such aggregate. Undistributable reserves include the share

(unless otherwise provided in its articles of incorporation) the amount that would be needed, were the corporation to be dissolved at the time the dividend is measured, to satisfy the preferential rights of shareholders with superior rights to those receiving the dividend.

The board of directors may base its determination that a dividend is not

New Alkermes' articles of association provide that any ordinary share which New Alkermes has agreed to acquire shall be deemed to be a redeemable share. Accordingly, for Irish company law purposes, the repurchase of ordinary shares by New Alkermes will technically be effected as a redemption.

Alkermes

New Alkermes

Under Irish law, New Alkermes may issue redeemable shares and redeem them out of distributable reserves or the proceeds of a new issue of shares for that purpose. New Alkermes may only issue redeemable shares if the nominal value of the issued share capital that is not redeemable is no less than 10% of the nominal value of the total issued share capital of New Alkermes. All redeemable shares must also be fully-paid and the terms of redemption of the shares must provide for payment on redemption.

New Alkermes may also be given an additional general authority to purchase its own shares on-market which would take effect on the same terms and be subject to the same conditions as applicable to purchases by New Alkermes subsidiaries as described below.

New Alkermes may also issue preferred shares which may be redeemed at the option of either New Alkermes or the shareholder, depending on the terms of such preferred shares.

The nominal value of treasury shares held by New Alkermes at any time must not exceed 10% of the nominal value of the issued share capital of New Alkermes. New Alkermes cannot exercise any voting rights in respect of any shares held as treasury shares. Treasury shares may be canceled by New Alkermes or re-issued subject to certain conditions.

Purchases by Subsidiaries of New Alkermes

Under Irish law, New Alkermes subsidiaries may purchase shares of New Alkermes either on-market, on a recognized stock exchange such as NASDAQ or off- market.

For a subsidiary of New Alkermes to make on-market purchases of New Alkermes ordinary shares, the shareholders of New Alkermes must provide general authorization for such purchase by way of ordinary resolution, however, as long as this general authority has been granted, no specific shareholder authority for a

particular on-market purchase by a subsidiary of New Alkermes ordinary shares is required. For an off-market purchase by a subsidiary of New Alkermes, the proposed purchase contract must be authorized by special resolution of the shareholders before the contract is entered into. The person whose shares are to be bought back cannot vote in favor of the special resolution and, for at least 21 days prior to the special resolution, the purchase contract must be on display or must be available for inspection by shareholders at the registered office of New Alkermes.

The number of shares held by the subsidiaries of New Alkermes at any time will count as treasury shares and will be included in any calculation of the permitted treasury share threshold of 10% of the nominal value of the issued share capital of New Alkermes. While a subsidiary holds shares of New Alkermes, it cannot exercise any voting rights in respect of those shares. The acquisition of the shares of New Alkermes by a subsidiary must be funded out of distributable reserves of the subsidiary.

Prior to the effective time, the existing shareholders of New Alkermes at that time are expected to authorize the purchase of New Alkermes shares by subsidiaries of New Alkermes, in an aggregate amount approximately equal to the then remaining authorization under the existing Alkermes share repurchase program. This authorization is expected to take effect as of the effective time and will expire no later than 18 months after the effective date and it is expected that New Alkermes would seek shareholder approval to renew this authorization at future annual general

meetings.

Bonus Shares

Alkermes is not prohibited from making non-cash distributions in the form of shares so long as the relative rights of the holders of any class or series are not adversely affected thereby and any such distributions are subject to the same requirements applicable to distributions

Under New Alkermes' articles of association, upon recommendation of the board of directors, the shareholders by ordinary resolution may authorize the board of directors to capitalize any amount for the time being standing to the credit of any of New Alkermes' reserves (including

Lien on Shares, Calls on Shares and Forfeiture of Shares	Not applicable.	New Alkermes articles of association provide that New Alkermes will have a first and paramount lien on every share that is not a fully paid up share for all amounts payable at a fixed time or called in respect of that share. Subject to the terms of their allotment, directors may call for any unpaid amounts in respect of any shares to be paid, and if payment is not made, the shares may be forfeited. These provisions are standard inclusions in the articles of association of an Irish company limited by shares such as New Alkermes and will only be applicable to shares of New Alkermes that have not been fully paid up.

Currently, the Alkermes board of directors has ten members.</p> <p>While Pennsylvania law permits companies to have classified boards, the Alkermes board is not currently classified. of the 2013 annual general meeting; and the term of the initial Class III directors shall terminate on the date of the 2014 annual general meeting. At each annual general meeting of shareholders beginning in 2012, successors to the class of directors whose term expires at that annual general meeting will be elected for a three-year term. If the number of directors is changed, any

increase or decrease shall be apportioned among the classes so as to maintain the number of directors in each class as nearly equal as possible. In no case will a decrease in the number of directors shorten the term of any incumbent director. A director may hold office until the annual general meeting for the year in which his or her term expires and until his or her successor is elected and duly qualified, subject, to prior death, resignation, retirement, disqualification or removal from office.

Directors are elected by ordinary resolution at a general meeting. Irish law requires majority voting for the election of directors, which could result in the number of directors falling below the minimum prescribed by the board due to the failure of nominees to be elected. Accordingly, New Alkermes' articles of association provide that if, at any general meeting of shareholders, the number of directors is reduced below the minimum prescribed by the articles of association due to the failure of any person nominated to be a director to be elected, then in those circumstances, the nominee or nominees who receive the highest number of votes in favor of election will be elected in order to maintain such prescribed minimum number of directors. Each director will remain a director (subject to the provisions of the Companies Acts and the articles) only until the conclusion of the next annual general meeting of New Alkermes unless he or she is reelected.

The principal directors' duties include the common law fiduciary duties of good faith and exercising due care and skill. performance of their duties. To do so, directors must have informed themselves of all material information reasonably available to them.

Under Pennsylvania law, absent a breach of fiduciary duty, lack of good faith or self-dealing, any act of the board of directors, committee thereof or any individual director shall be presumed to be in the best interests of the corporation.

Conflicts of Interest of Directors

Under Pennsylvania law, a director's fiduciary duties require the director to avoid conflicts of interest. Under the PBCL, a transaction in which a director is interested will not be voided due to the conflict or because the interested director participates in the board meeting or the vote authorizing the transaction if:

(i) the material facts as to the relationship or interest and as to the contract or transaction are disclosed or are known to the board of directors and the board authorizes the contract or transaction by the affirmative votes of a majority of the disinterested directors even though the disinterested directors are less than a quorum;

(ii) the material facts as to his or her relationship or interest and as to the contract or transaction are disclosed or are known to the shareholders entitled to vote thereon and the contract or transaction is specifically approved in good faith by vote of those shareholders; or

(iii) the contract or transaction is fair as to the corporation as of the time it is authorized, approved or ratified by the board of directors or the shareholders.

As a matter of Irish law, a director is under a general fiduciary duty to avoid conflicts of interest. Under Irish law, directors who have a personal interest in a contract or a proposed contract with New Alkermes are required to declare the nature of their interest at the meeting of the directors of New Alkermes. New Alkermes is required to maintain a register of declared interests which must be available for shareholder inspection.

New Alkermes' articles of association provide that a director must declare any interest he or she may have in a contract with New Alkermes at a meeting of the board of directors or otherwise provide notice to the board of directors. No director shall be prevented by his or her office from contracting with New Alkermes provided that he or she has declared the nature of his or her interest in the contracts and the contract or transaction has been approved by a majority of the disinterested directors.

Under the New Alkermes articles of association, a director of New Alkermes may be a director or other officer of, or otherwise interested in, any company promoted by New Alkermes or in which

New Alkermes is interested, and such director will not be accountable to New Alkermes for any remuneration received from such employment or other interest. The articles of association further provide that (i) no director will be prevented from contracting with New Alkermes because of his or her position as a director, (ii) any contract entered into between a director and New Alkermes will not be subject to

Indemnification of Officers and Directors

Alkermes' bylaws include indemnification provisions under which it is required to indemnify, to the fullest extent permitted under Pennsylvania law, each person made, threatened to be made a party to or otherwise involved in, any claim, action, suit or proceeding as a result of being or having been a director or officer, of Alkermes, or serving or having served as a director, officer, employee or agent to another entity at Alkermes' request.

Alkermes is required to pay, in advance, any expenses (including attorneys' fees and disbursements) a person entitled to indemnification incurs in defending any such claim, action or proceeding upon receipt of an undertaking by the indemnified person to repay all amounts advanced if it is ultimately determined by final judicial decision that the indemnified person is not entitled to indemnification.

These indemnity provisions survive repeal or amendment for claims arising out of periods in which the provisions were effective.

In addition, Alkermes also has indemnification agreements with its

avoidance, and (iii) no director will be liable to account to New Alkermes for any profits realized by virtue of any contract between such director and New Alkermes because the director holds such office or the fiduciary relationship established thereby. A director of New Alkermes will be at liberty to vote in respect of any transaction in which he or she is interested, provided that such director discloses the nature of his or her interest prior to consideration of the transaction and any vote thereon.

Pursuant to New Alkermes' articles of association, its directors and secretary are indemnified to the extent permitted by the Companies Acts. New Alkermes may indemnify the directors or secretary only if the indemnified party receives a favorable judgment in respect of the liability, or where an Irish court determines that the director or the secretary acted honestly and reasonably and ought fairly to be excused. This restriction in the Companies Acts does not apply to executives who are not directors or the secretary of New Alkermes. Any provision for indemnification to a greater extent is void under Irish law, whether contained in its articles of association or any contract between the director and the Irish company.

New Alkermes' articles of association also contain indemnification and expense advancement provisions for current or former executives who are not directors or the secretary of New Alkermes.

The directors of New Alkermes may, on a case-by-case basis, decide at their discretion that it is in the best interests of New Alkermes to indemnify an individual director from any liability arising from his or

Under Irish law, a company may not exempt its directors from liability for negligence or a breach of duty. However, where a breach of duty has been established, directors may be statutorily exempted by an Irish court from personal liability for negligence or breach of duty if, among other things, the court determines that they have acted honestly and reasonably, and that they may fairly be excused as a result.

Under Irish law, shareholders may not agree to exempt a director or officer from any claim or right of action the shareholder may have, whether individually or in the right of a company, on account of any action taken or the failure to take any action in the performance of his or her duties to the company.

first annual general meeting in 2012. Thereafter, any annual general meeting may be held outside Ireland if a resolution so authorizing has been passed at the preceding annual general meeting.

The only matters which must, as a matter of Irish company law, be transacted at an annual general meeting are the presentation of the annual accounts, balance sheet and reports of the directors and auditors, the appointment of new auditors and the fixing of the auditor's remuneration (or delegation of same). If no resolution is made in respect of the reappointment of an existing auditor at an annual general meeting, the existing auditor will be deemed to have continued in office.

The provisions of the articles of association of New Alkermes relating to general meetings shall apply to every such general meeting of the holders of any class of shares except that the necessary quorum shall be one person holding or representing by proxy at least one-half of the issued shares of such class.

Extraordinary general meetings of New Alkermes may be convened (i) by the board of directors, (ii) on requisition of the shareholders holding not less than 10% of the paid up share capital of New Alkermes carrying voting rights or (iii) on requisition of New Alkermes' auditors. Extraordinary general meetings are generally held for the purposes of approving shareholder resolutions of New Alkermes as may be required from time to time. At any extraordinary general meeting only the business set forth in the notice may be

If the board of directors becomes aware that the net assets of New Alkermes are half or less of the amount of New Alkermes called-up share capital, the directors of New Alkermes must convene an extraordinary general meeting of New Alkermes shareholders not later than 28 days from the date that they learn of this fact. This meeting must be convened for the purposes of considering whether any, and if so what, measures should be taken to address the situation.

**Advance Notice of
Director
Nominations and
Other Shareholder
Proposals**

Alkermes' bylaws establish procedures that shareholders must follow in order to nominate persons for election to the Alkermes board of directors. Any director nomination made by a shareholder must be made in writing and delivered or mailed to the chairman of the board of directors not later than 90 days in advance of the anniversary date of Alkermes' proxy statement for its annual meeting of shareholders in the previous calendar year. This notification must contain, to the extent known by the nominating shareholder(s), (i) the name and address of each proposed nominee, (ii) the principal occupation of each proposed nominee, (iii) the total number of shares of Alkermes voting stock that will be voted for each proposed nominee by the nominating shareholder(s), (iv) the name and residence address of the nominating shareholders, (v) the number of shares of Alkermes owned by the nominating shareholder(s), (vi) such other information about each nominee proposed by such shareholder(s) as would be required to be included in a proxy statement filed pursuant to the proxy rules of the SEC had the nominee been nominated or intended to be nominated by the board of directors and (vii) the consent of each nominee to serve as a director of Alkermes if so elected.

The Companies Acts provide that shareholders holding not less than 10% of the total voting rights may call an extraordinary general meeting for the purpose of considering director nominations or other proposals, as described *under Comparison of the Rights of Holders of Alkermes Common Stock and New Alkermes Ordinary Shares Calling Special Meetings of Shareholders*.

New Alkermes' articles of association provide that shareholder nominations of persons to be elected to the board of directors at an annual general meeting must be made following written notice to the secretary of New Alkermes executed by a shareholder accompanied by certain background and other information specified in the articles of association.

Such written notice and information must be received by the secretary of New Alkermes not less than 90 days nor more than 150 days before the first anniversary of the date of New Alkermes' proxy statement for the prior year's annual general meeting.

Quorum at Shareholder Meetings

Under Alkermes' bylaws, a quorum consists of the presence, in person or by proxy, of shareholders entitled to cast at least a majority of the votes which all shareholders are entitled to cast on a particular matter, except that in the case of a meeting called for the election of directors and adjourned for the lack of a quorum, shareholders entitled to vote who attend a second

If a quorum is present, the chairman of the meeting may adjourn a general meeting with the consent of, and must adjourn the meeting at the direction of, the shareholders. No business may be transacted at any adjourned meeting other than the business left unfinished at the meeting at which the adjournment took place. New notice must be given for meetings adjourned for 30 days or more.

Every shareholder shall have one vote for each ordinary share that he or she holds as of the record date for the meeting.

Irish company law requires special resolutions of the shareholders at a general meeting to approve certain matters. A special resolution requires the approval of not less than 75% of the votes of New Alkermes' shareholders cast at a general meeting at which a quorum is present. Ordinary resolutions, by contrast, require a simple majority of the votes of New Alkermes cast at a general meeting at which a quorum is present.

Irish company law also distinguishes between ordinary business and special business. Most matters are deemed special with the exception of declaring a dividend, the consideration of the accounts, balance sheets and the reports of the directors and

auditors, the election of directors, the re-appointment of the retiring auditors and the fixing of the remuneration of the auditors, all of which are deemed to be ordinary business .

	Under Pennsylvania law, actions by less than unanimous consent may be effective immediately, but prompt notice of the action must be given to those shareholders who were entitled to vote thereon, who did not consent.	
Shareholder Suits	<p>Under Pennsylvania law, a shareholder may initiate a derivative action to enforce a right of a corporation if the corporation fails to enforce the right itself. The complaint must state that the plaintiff was a shareholder or the owner of a beneficial interest in the shares at the time of the transaction of which the plaintiff complains or that the plaintiff's shares or interest thereafter devolved on the plaintiff by operation of law; and</p> <p>A shareholder or holder of a beneficial interest in shares may, at the discretion of the court, be allowed to maintain a derivative action even if such shareholder was not a shareholder at the time of the wrongdoing, if a court determines that a preliminary showing can be made that there is a strong prima facie case in favor of the claim and that serious injustice would result without such suit.</p> <p>If a derivative action is instituted or maintained by holders or owners of less than 5% of the outstanding shares of any class of shares, unless the aggregate fair market value of such shares is in excess of \$200,000, the corporation shall be entitled to require the plaintiffs to give security for reasonable expenses, including attorneys fees.</p>	<p>In certain limited circumstances, a shareholder may be entitled to bring a derivative action on behalf of New Alkermes if a wrong committed against New Alkermes would otherwise go unredressed.</p> <p>The principal case law in Ireland indicates that to bring a derivative action a person must first establish a prima facie case (i) that the company is entitled to the relief claimed and (ii) that the action falls within one of the five exceptions derived from case law, as follows:</p> <ul style="list-style-type: none"> (a) where an ultra vires or illegal act is perpetrated; (b) where more than a bare majority is required to ratify the wrong complained of; (c) where the shareholders' personal rights are infringed; (d) where a fraud has been perpetrated upon a minority by those in control; and (e) where the justice of the case requires a minority to be permitted to institute proceedings.

Under Pennsylvania law, if a shareholder files a derivative action without first making a demand upon the corporation's board of directors, the action will be dismissed unless the plaintiff makes a specific showing that irreparable injury to the corporation would otherwise result.

Irish law also permits shareholders of New Alkermes to bring proceedings against New Alkermes where the affairs of New Alkermes are being conducted, or the powers of the directors are being exercised, in a manner oppressive to the shareholders or in disregard of their interests. The court can grant any relief it sees fit and the usual remedy is the purchase or transfer of the shares of any shareholder.

Inspection of Books and Records	<p>Under Pennsylvania law, every shareholder has a statutory right to inspect and make copies of the share register, books and records of accounts and records of the proceedings of shareholders and directors of a corporation for a proper purpose during the usual hours of business upon submitting a written verified demand stating such purpose. If a corporation refuses to permit inspection or does not reply to the demand within five business days after it is made, the shareholder may apply to the court for an order to enforce his or her demand. The relevant percentage figure is calculated by reference to the aggregate nominal value of the shares in which the shareholder is interested as a proportion of the entire nominal value of New Alkermes share capital. shares reinstated. In addition, New Alkermes, under the Companies Acts, may by notice in writing require a person whom New Alkermes knows or has reasonable cause to believe to be, or, at any time during the three years immediately preceding the date on which such notice is issued, to have been interested in shares comprised in New Alkermes relevant share capital to: (i) indicate whether or not it is the case; and (ii) where such person holds or has during that time held an interest in the shares of New Alkermes, to give such further information as may be required by New Alkermes including particulars of such person's own past or present interests in shares of New Alkermes. Any information given in response to the notice is required to be given in writing within such reasonable time as may be specified in the notice.

If the person fails to give New Alkermes any information required within the reasonable time specified, New Alkermes may apply to court for an order directing that the affected shares be subject to certain restrictions. Under the Companies Acts, the restrictions that may be placed on the shares by the court are as follows:

any transfer of those shares, or in the case of unissued shares any transfer of the right to be issued with shares and any issue of shares, shall be void;

no voting rights shall be exercisable in respect of those shares;

no further shares shall be issued in right of those shares or in pursuance of any offer made to the holder of those shares; and

no payment shall be made of any sums due from New Alkermes on those shares, whether in respect of capital or otherwise.

Where the shares in New Alkermes are subject to these restrictions, the court may order the shares to be sold and may also direct that the shares shall cease to be subject to these restrictions.

those beneficially owned by the interested shareholder and its affiliates, or (ii) the merger is approved at a shareholders meeting and certain fair price requirements are met.

Appraisal Rights

Under the PBCL, a shareholder may dissent from, and receive payment of the fair value of its shares in the event of certain mergers, consolidations, share exchanges, asset transfers and corporate divisions. However, no dissenters' rights are available with respect to shares which, at the applicable record date, were either listed on a national securities exchange or held beneficially or of record by more than 2,000 shareholders, unless the shares are of a preferred or special class and the terms of the transaction do not require for the effectuation of the transaction the affirmative vote of a majority of the votes cast by all shareholders of such class or series.

Generally, under Irish law, shareholders of an Irish company do not have dissenters' or appraisal rights. Under the European Communities (Cross-Border Mergers) Regulations 2008 governing the merger of an Irish company limited by shares such as New Alkermes and a company incorporated in the European Economic Area (the European Economic Area includes all member states of the EU and Norway, Iceland and Liechtenstein), a shareholder (i) who voted against the special resolution approving the merger or (ii) of a company in which 90% of the shares are held by the other party to the merger, has the right to request that the company acquire its shares for cash.

Anti-takeover Measures

Under the PBCL, certain anti-takeover provisions apply to Alkermes as a publicly-traded company including those relating to (i) control share acquisitions, (ii) disgorgement of profits by certain controlling persons, (iii) business combination transactions with interested shareholders, (iv) the rights of shareholders to demand fair value for their stock following a control transaction and (v) transactions with interested shareholders. Pennsylvania law allows corporations to opt-out of these anti-takeover sections. A general summary of these applicable anti-takeover provisions is set forth below.

Irish Takeover Rules and Substantial Acquisition Rules

A transaction in which a third party seeks to acquire 30% or more of the voting rights of New Alkermes will be governed by the Irish Takeover Panel Act 1997 and the Irish Takeover Rules thereunder and will be regulated by the Irish Takeover Panel. The General Principles of the Irish Takeover Rules and certain important aspects of the Irish Takeover Rules are described below.

Control Share Acquisitions. Pennsylvania law regarding control share acquisitions relates to the act of acquiring for the first time voting power over voting shares (other than shares owned since January 1, 1988 and any additional shares distributed with respect to such shares) equal to at least 20%, 33 1/3% and 50% of the voting power of the corporation. Once a control share acquisition has occurred, then all shares in excess of the triggering

General Principles

The Irish Takeover Rules are built on the following General Principles which will apply to any transaction regulated by the Irish Takeover Panel:

(i) in the event of an offer, all classes of shareholders of the target company should be afforded equivalent treatment and, if a person acquires control of a company, the other holders of securities must be protected;

(ii) the holders of securities in the target company must have sufficient time to

threshold, plus shares purchased at any time with the intention of acquiring such voting power and shares purchased within 180 days of the date the triggering threshold was exceeded, are considered control shares. Control shares cannot vote either until their voting rights have been restored by two separate votes of the shareholders, described below, at a meeting or until they have been transferred to a person who does not thereby also become the holder of control shares.

The holder of control shares may wait until the next annual or special meeting after the acquisition took place to submit the question of the restoration of voting rights to the shareholders, or the acquiring person may accelerate the process by agreeing to underwrite the cost of a special meeting of shareholders for that purpose. In either case, the acquiring person is required to furnish for distribution to the shareholders an information statement containing a detailed disclosure concerning the acquiring person, its intentions with respect to ownership of securities of the corporation and other matters. As an alternative, a person proposing to make a control share acquisition may request prospective approval by the shareholders of the exercise of the voting rights of the shares proposed to be acquired. Two shareholders' votes are required to approve the restoration of voting rights. First, the approval of an absolute majority of all voting power must be obtained. All voting shares are entitled to participate in this vote. Second, the approval of an absolute majority of all disinterested shareholders must be obtained.

For a period of 24 months after the later of (i) a control share acquisition by an acquiring person who does not properly request consideration of voting rights, or (ii) the denial of such a request or lapse of

allow them to make an informed decision regarding the offer;

(iii) a company board must act in the interests of the company as a whole. If the board of the target company advises the holders of securities as regards the offer it must advise on the effects of the implementation of the offer on employment, employment conditions and the locations of the target company's place of business;

(iv) false markets in the securities of the target company or any other company concerned by the offer must not be created;

(v) a bidder can only announce an offer after ensuring that he or she can fulfill in full the consideration offered;

(vi) a target company may not be hindered longer than is reasonable by an offer for its securities. This is a recognition that an offer will disrupt the day-to-day running of a target company particularly if the offer is hostile and the board of the target company must divert its attention to resist the offer; and

(vii) a substantial acquisition of securities (whether such acquisition is to be effected by one transaction or a series of transactions) will only be allowed to take place at an acceptable speed and shall be subject to adequate and timely disclosure.

Mandatory Bid

If an acquisition of shares were to increase the aggregate holding of an acquirer and the parties acting in concert with it to shares carrying 30% or more of the voting rights in New Alkermes, the acquirer and, depending on the circumstances, its concert parties would be required (except with the consent

of the Irish Takeover Panel) to make a cash offer for the remaining outstanding shares at a price not less than the highest price paid for the shares by the acquirer or its concert parties during the previous 12 months.

Disgorgement of Profits by Certain Controlling Persons. Pennsylvania law regarding disgorgement of profits by certain controlling persons applies in the event that (i) a person or group acquires (or publicly discloses an intent to acquire) 20% or more of the voting power of the corporation or (ii) any person or group publicly discloses that the person or group may acquire control of the corporation, and, in either case, sells shares within 18 months thereafter. Any profits from sales of equity securities of the corporation received by the person or group during such 18-month period will belong to the corporation if the securities that were sold were acquired during the 18-month period or within 24 months prior thereto.

Transactions with Interested Shareholders. Generally, under Pennsylvania law, transactions between a corporation and an interested shareholder must satisfy a heightened shareholder approval requirement in addition to any other approvals that may otherwise be applicable. Pennsylvania law requires certain transactions (including mergers) with interested shareholders to be approved by a

This requirement would also be triggered by an acquisition of shares by a person holding (together with its concert parties) shares carrying between 30% and 50% of the voting rights in New Alkermes if the effect of such acquisition were to increase the percentage of the voting rights held by that person (together with its concert parties) by 0.05% within a twelve-month period. A single holder (that is, a holder excluding any parties acting in concert with the holder) holding more than 50% of the voting rights of a company is not subject to this rule.

Voluntary Bid; Requirements to Make a Cash Offer and Minimum Price Requirements

If a party makes a voluntary bid to acquire shares of New Alkermes and the bidder or any of its concert parties acquire ordinary shares of New Alkermes within the period of three months prior to the commencement of the offer period, the offer price must be not less than the highest price paid for New Alkermes ordinary shares by the bidder or its concert parties during that period. The Irish Takeover Panel has the power to extend the look-back period to 12 months if the Irish Takeover Panel, having regard to the General Principles, believes it is appropriate to do so.

If the bidder or any of its concert parties has acquired ordinary shares of New Alkermes (i) during the period of 12 months prior to the commencement of the offer period which represent more than 10% of the total ordinary shares of New Alkermes or (ii) at any time after the commencement of the offer period, the offer shall be in cash (or accompanied by a full cash alternative) and the price per New Alkermes ordinary share shall be not less than the highest price paid by the bidder or its concert parties during, in

concert parties, has acquired less than 10% of the total ordinary shares of New Alkermes in the 12-month period prior to the commencement of the offer period if the Irish Takeover Panel, having regard to the General Principles, considers it just and proper to do so.

An offer period will generally commence from the date of the first announcement of the offer or proposed offer.

Substantial Acquisition Rules

The Irish Takeover Rules also contain rules governing substantial acquisitions of shares which restrict the speed at which a person may increase his or her holding of shares and rights over shares to an aggregate of between 15% and 30% of the voting rights of New Alkermes. Except in certain circumstances, an acquisition or series of acquisitions of shares or rights over shares representing 10% or more of the voting rights of New Alkermes is prohibited, if such acquisition(s), when aggregated with shares or rights already held, would result in the acquirer holding 15% or more but less than 30% of the voting rights of New Alkermes and such acquisitions are made within a period of seven days. These rules also require accelerated disclosure of acquisitions of shares or rights over shares relating to such holdings.

Frustrating Action

Under the Irish Takeover Rules, the board of directors of New Alkermes is not permitted to take any action which might frustrate an offer for the shares of New Alkermes once the board of directors has received an

approach which may lead to an offer or has reason to believe an offer is imminent except as noted below. Potentially frustrating actions such as (i) the issue of shares, options or convertible securities, (ii) material acquisitions or disposals, (iii) entering into contracts other than in the ordinary course of business or (iv) any action, other than seeking alternative offers, which may result in frustration of an offer, are prohibited

during the course of an offer or at any time during which the board has reason to believe an offer is imminent. Exceptions to this prohibition are available where:

(a) the action is approved by New Alkermes shareholders at a general meeting; or

(b) with the consent of the Irish Takeover Panel where:

(i) the Irish Takeover Panel is satisfied the action would not constitute frustrating action;

(ii) the holders of 50% of the voting rights state in writing that they approve the proposed action and would vote in favor of it at a general meeting;

(iii) in accordance with a contract entered into prior to the announcement of the offer; or

(iv) the decision to take such action was made before the announcement of the offer and either has been at least partially implemented or is in the ordinary course of business.

Rights Agreement

Under the Alkermes rights agreement, subject to certain exceptions, if any person or group acquires 15% or more of Alkermes common stock, all share holders, except the acquiring person or group, will be entitled to acquire Alkermes common stock (and in certain instances, the stock of the acquirer)

directly relevant case law on the validity of such plans under Irish law.

Subject to the Irish Takeover Rules described in Anti- takeover Measures , the board also has power to issue any authorized and unissued shares of New Alkermes on such terms and conditions as it may determine and any such action should be taken in the best interests of New Alkermes. The terms and conditions of any issue of preferred shares could discourage a takeover or other transaction that holders of some or a majority of the ordinary shares believe to be in their best interests or in which holders might receive

New Alkermes articles of association provide that the ordinary shareholders of New Alkermes are entitled to participate pro rata in a winding up, but their right to do so may be subject to the rights of any preferred shareholders to participate under the terms of any series or class of preferred shares. New Alkermes may be dissolved and wound up at any time by way of shareholders voluntary winding up or a creditors winding up. In the case of a shareholders voluntary winding up, a special resolution of shareholders is required. New Alkermes may also be dissolved by way of court order on the application of a creditor, or by the Companies Registration Office as an enforcement measure where New Alkermes has failed to file certain returns.

New Alkermes has been advised by its Irish counsel, Arthur Cox, that a judgment for the payment of money rendered by a court in the United States based on civil liability would not be automatically enforceable in Ireland. There is no treaty between Ireland and the United States providing for the reciprocal enforcement of foreign judgments. The following requirements must be met before the foreign judgment will be deemed to be enforceable in Ireland:

- (i) the judgment must be for a definite sum;
- (ii) the judgment must be final and conclusive; and
- (iii) the judgment must be provided by a court of competent jurisdiction.

An Irish court will also exercise its right to refuse judgment if the foreign judgment was obtained by fraud, if the judgment violated Irish public policy, if the judgment is in breach of natural justice or if it is irreconcilable with an earlier foreign judgment.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the management of Elan Corporation, plc

We have audited the accompanying carve-out combined financial statements of the EDT business unit, which comprises the carve-out combined balance sheets as at December 31, 2010 and 2009, the carve-out combined statements of operations, comprehensive income/(loss), invested equity and cash flows for each of the years in the three-year period ended December 31, 2010 (together and hereinafter, the Combined Financial Statements). These Combined Financial Statements are the responsibility of the management of Elan Corporation, plc. Our responsibility is to express an opinion on these Combined Financial Statements based on our audit.

We conducted our audits in accordance with generally accepted auditing standards as established by the Auditing Standards Board (United States) and in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Combined Financial Statements are free of material misstatement. The EDT business unit is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the EDT business unit's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the Combined Financial Statements, assessing the accounting policies used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the Combined Financial Statements referred to above present fairly, in all material respects, the financial position of the EDT business unit as at December 31, 2010 and 2009 and the results of its operations and cash flows for each of the years in the three-year period ended December 31, 2010, in accordance with U.S. generally accepted accounting principles.

Elan Drug Technologies

NOTES TO THE CARVE-OUT COMBINED FINANCIAL STATEMENTS

1. Description of Business

Elan Corporation, plc (Elan), an Irish public limited company, is a neuroscience-based biotechnology company headquartered in Dublin, Ireland. Elan was incorporated as a private limited company in Ireland in December 1969 and became a public limited company in January 1984. Elan operations are organized into two business units: BioNeurology, which engages in research, development and commercial activities primarily for neurodegenerative and autoimmune diseases, and Elan Drug Technologies (EDT), which focuses on the specialty pharmaceutical industry, including specialized drug delivery and manufacturing.

EDT develops and manufactures innovative pharmaceutical products that deliver clinically meaningful benefits to patients, using its extensive experience and proprietary delivery technologies in collaboration with pharmaceutical companies.

2. Significant Accounting Policies

The following accounting policies have been applied in the preparation of these Carve-out Combined Financial Statements.

(a) Basis of preparation and presentation of financial information

On May 9, 2011, Elan and Alkermes Inc. (Alkermes) announced the execution of a definitive agreement under which Alkermes will merge with EDT in a cash and stock transaction valued at approximately \$960 million at the time of the announcement. Alkermes and EDT will be combined under a new holding company incorporated in Ireland. This newly created company will be named Alkermes plc. The transaction is subject to approval by Alkermes' shareholders and the satisfaction of customary closing conditions and regulatory approvals, including antitrust approvals in the United States. The transaction is expected to close during the second half of 2011.

EDT has historically operated as part of Elan and not as a separate stand-alone entity. These Carve-out Combined Financial Statements have been prepared on a carve-out basis from the consolidated financial statements of Elan to represent the financial position and performance of EDT as if EDT had existed on a stand-alone basis during each of the fiscal years ended December 31, 2010, December 31, 2009 and December 31, 2008 for statement of operations and cash flow statement amounts and as of December 31, 2010 and December 31, 2009 for balance sheet amounts; and as if the Financial Accounting Standards Board (FASB) Accounting Standard Codification (ASC) Topic 810,

Consolidation, had been applied throughout. The accompanying Carve-out Combined Financial Statements only include assets and liabilities that are specifically identifiable with EDT. Certain general and administrative expenses that are maintained at the corporate level, which consist primarily of salaries and other employee costs, legal and professional fees and insurance costs, were allocated to EDT based on methodologies Elan management believes to be reasonable. The Carve-out Combined Financial Statements do not purport to represent what the results of operations would have been, or accurately reflect its assets and liabilities, had the entire EDT business and activities of EDT been a legal sub-group for each of the years being reported on, or for future years. Had EDT operated as an independent stand-alone entity, its results could have differed significantly from those presented in the Carve-out Combined Financial Statements.

As EDT did not constitute a legal sub-group at each of the dates being reported on, historically, no consolidated financial statements of EDT were prepared at the reporting dates. However, EDT has historically operated as part of

Elan and within the Elan infrastructure and has been included as a separate operating segment in the segment reporting of Elan in the consolidated financial statements of Elan for each of the fiscal years ended December 31, 2010, December 31, 2009 and December 31, 2008.

The Carve-out Combined Financial Statements have been prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP), by aggregating financial

NOTES TO THE CARVE-OUT COMBINED FINANCIAL STATEMENTS (Continued)

information from the consolidation reporting packages of relevant subsidiaries of Elan focused entirely on EDT activities. Where legal entities have historically had both EDT and non-EDT activities, the statement of operations, asset and liability balances pertaining to EDT activities have been identified and aggregated. Intra-group transactions and balances between the EDT entities have been eliminated.

As a separate operating segment within Elan, EDT has certain of its own management and administrative functions. However, Elan provides certain central services including, but not limited to:

Accounting, information technology, taxation, legal, corporate strategy, investor relations, corporate governance and other professional services;

Employee benefit administration, including equity award and pension services; and

Cash and treasury management.

Central services costs for the fiscal year ended December 31, 2010 amounted to \$17.4 million (2009: \$16.8 million; 2008: \$16.9 million). These costs have been allocated to EDT based on estimated usage of the resources by EDT for the purposes of preparing the Carve-out Combined Financial Statements. The estimated usage of the central service resources by EDT has been determined by estimating EDT's portion of the most appropriate driver of each category of central service costs including headcount, labor hours and utilization of office space. Management considers that such allocations have been made on a reasonable basis, but may not necessarily be indicative of the costs that would have been incurred if EDT had been operated on a stand-alone basis.

Certain EDT employees participate in the equity award plans of Elan. The share-based payment compensation expense recognized in these Carve-out Combined Financial Statements is based on the expense attributable to EDT employees participating in the Elan equity award plans.

Elan funds the pension entitlements of certain of its employees, including employees of EDT, through two defined benefit plans and a number of defined contribution plans. The amounts allocated in the Carve-out Combined Financial Statements for the defined benefit plans were determined based on the projected benefit obligation, or underlying membership data for the service cost amounts, relating to members of the plans that are EDT employees. Defined benefit pension plan assets and liabilities are included in the calculation of the net funding transfer to Elan that is recorded in invested equity. The costs of the defined contribution plans in respect of EDT employees are expensed in the Carve-out Combined Financial Statements in the periods they are incurred.

Elan uses a centralized approach to manage substantially all of its liquid resources and to finance its operations and, as a result, debt and liquid resources maintained at the Elan group level are not included in the accompanying Carve-out Combined Financial Statements. Liquid resources are defined as the total of cash and cash equivalents, current restricted cash and current investment securities. EDT has historically financed its operating and capital resource requirements through cash flows from operations, with funding transferred between EDT and Elan as part of the Elan group's cash and treasury management strategy.

The invested equity balance in the Carve-out Combined Financial Statements of EDT constitutes Elan's investment in EDT and represents the excess of total assets over total liabilities, including the netting of intercompany funding balances between EDT and Elan. Invested equity in EDT includes the results of EDT's operations, contributions from

Elan in the form of share-based compensation to EDT employees less net transfers of intercompany funding from EDT to Elan.

The tax amounts in the Carve-out Combined Financial Statements have been calculated as if the business were a separate taxable entity and consistent with the asset and liability method prescribed in ASC 740 *Income Taxes*, (ASC 740). Current tax liabilities and receivables (other than amounts actually paid by or

F-9

Table of Contents**Elan Drug Technologies****NOTES TO THE CARVE-OUT COMBINED FINANCIAL STATEMENTS (Continued)**

refunded to EDT) are included in the calculation of the net funding transfer to Elan that is recorded in invested equity.

The Carve-out Combined Financial Statements of EDT are presented in U.S. dollars (\$), which is the functional currency of EDT, and have been prepared on a going concern basis.

(b) Use of estimates

The preparation of the Carve-out Combined Financial Statements in conformity with U.S. GAAP requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying amounts of assets and liabilities that are not readily apparent from other sources. Estimates are used in determining items such as the carrying amounts of intangible assets and property, plant and equipment, revenue recognition and the fair value of share-based compensation, among other items. Because of the uncertainties inherent in such estimates, actual results may differ materially from these estimates.

(c) Accounts receivable

Accounts receivable are initially recognized at fair value, which represents the invoiced amounts, less adjustments for estimated revenue deductions such as sales discounts and allowances. An allowance for doubtful accounts is established based upon the difference between the recognized value and the estimated net collectible amount with the estimated loss recognized within operating expenses in the Carve-out Combined Statement of Operations. When an account receivable balance becomes uncollectible, it is written off against the allowance for doubtful accounts.

(d) Inventory

Inventory is valued at the lower of cost or market value. In the case of raw materials and supplies, cost is calculated on a first-in, first-out basis and includes the purchase price, including import duties, transport and handling costs and any other directly attributable costs, less trade discounts. In the case of work-in-progress and finished goods, costs include direct labor, material costs and attributable overheads, based on normal operating capacity.

(e) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. Depreciation is computed using the straight-line method based on estimated useful lives as follows:

Buildings	15-40 years
Plant and equipment	3-10 years
Leasehold improvements	Shorter of expected useful life or lease term

Land is not depreciated as it is deemed to have an indefinite useful life.

Where events or circumstances indicate that the carrying amount of a property, plant and equipment may not be recoverable, EDT compares the carrying amount of the asset to its fair value. The carrying amount of the asset is not deemed recoverable if its carrying amount exceeds the sum of the undiscounted cash flows expected to result from the use and eventual disposition of that asset. In such event, an impairment loss is recognized for the excess of the carrying amount over the asset's fair value.

F-10

Table of Contents

Elan Drug Technologies

NOTES TO THE CARVE-OUT COMBINED FINANCIAL STATEMENTS (Continued)

(f) Leasing

Property, plant and equipment acquired under a lease that transfers substantially all of the risks and rewards of ownership to us (a capital lease) are capitalized. Amounts payable under such leases, net of finance charges, are shown as current or non-current as appropriate. An asset acquired through capital lease is stated at an amount equal to the lower of its fair value or the present value of the minimum lease payments at the inception of the lease, less accumulated depreciation and impairment losses, and is included in property, plant and equipment. Finance charges on capital leases are expensed over the term of the lease to give a constant periodic rate of interest charge in proportion to the capital balances outstanding.

All other leases that are not capital leases are considered operating leases. Rentals on operating leases are charged to expense on a straight-line basis over the period of the lease.

(g) Property, plant and equipment, goodwill and other intangible assets and impairment

Goodwill is not amortized, but is instead tested for impairment at least annually.

Intangible assets with estimable useful lives are amortized on a straight-line basis over their respective estimated useful lives to their estimated residual values and, as with other long-lived assets such as property, plant and equipment, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If circumstances require a long-lived asset be tested for possible impairment, EDT compares undiscounted cash flows expected to be generated by an asset to the carrying amount of the asset. If the carrying amount of the long-lived asset is not recoverable on an undiscounted cash flow basis, an impairment is recognized to the extent that the carrying amount exceeds its fair value. EDT determines fair value using the income approach based on the present value of expected cash flows. Our cash flow assumptions consider historical and forecasted revenue and operating costs and other relevant factors.

We review our goodwill for impairment at least annually or whenever events or changes in circumstances indicate that the carrying amount of these assets may not be recoverable. The goodwill impairment test is a two-step test and is performed at the reporting-unit level. EDT constitutes a single reporting unit. Under the first step, EDT compares the fair value of the reporting unit with its carrying amount, including goodwill. If the fair value of the reporting unit exceeds its carrying amount, goodwill of the reporting unit is not considered impaired and step two does not need to be performed. If the carrying amount of the reporting unit exceeds its fair value, the second step of the goodwill impairment test would be performed to measure the amount of impairment charge, if any.

The second step of the goodwill impairment test compares the implied fair value of the reporting-unit goodwill with the carrying amount of that goodwill, and any excess of the carrying amount over the implied fair value is recognized as an impairment charge. The implied fair value of goodwill is determined in the same manner as the amount of goodwill recognized in a business combination is determined, by allocating the fair value of the reporting unit to individual assets and liabilities. The excess of the fair value of the reporting unit over the amounts assigned to its assets and liabilities is the implied fair value of goodwill. In evaluating goodwill for impairment, EDT determines the fair values of the reporting unit using the income approach, based on the present value of expected cash flows. EDT completed the annual goodwill impairment test on September 30 of each year and the result of our tests did not indicate any impairment in 2010 or 2009.

(h) *Derivative financial instruments*

We enter into transactions in the normal course of business using various financial instruments in order to hedge against exposures to fluctuating exchange and interest rates. EDT uses derivative financial instruments to reduce exposure to fluctuations in foreign exchange rates. A derivative is a financial instrument or other contract whose value changes in response to some underlying variable, that has an initial net investment

F-11

Table of Contents**Elan Drug Technologies****NOTES TO THE CARVE-OUT COMBINED FINANCIAL STATEMENTS (Continued)**

smaller than would be required for other instruments that have a similar response to the variable and that will be settled at a future date. EDT does not enter into derivative financial instruments for trading or speculative purposes.

EDT's accounting policies for derivative financial instruments are based on whether they meet the criteria for designation as cash flow or fair value hedges. A designated hedge of the exposure to variability in the future cash flows of an asset or a liability, or of a forecasted transaction, is referred to as a cash flow hedge. A designated hedge of the exposure to changes in fair value of an asset or a liability is referred to as a fair value hedge. The criteria for designating a derivative as a hedge include the assessment of the instrument's effectiveness in risk reduction, matching of the derivative instrument to its underlying transaction, and the probability that the underlying transaction will occur. For derivatives with cash flow hedge accounting designation, EDT reports the gain or loss from the effective portion of the hedge as a component of equity and reclassifies it into earnings in the same period or periods in which the hedged transaction affects earnings, and within the same income statement line item as the impact of the hedged transaction. For derivatives with fair value hedge accounting designation, EDT recognizes gains or losses from the change in fair value of these derivatives, as well as the offsetting change in the fair value of the underlying hedged item, in earnings. Fair value gains and losses arising on derivative financial instruments not qualifying for hedge accounting are reported in our Carve-out Combined Statement of Operations. The carrying amount of derivative financial instruments is reported within current assets or other current liabilities.

We did not hold any interest rate swap contracts or forward currency contracts at December 31, 2010, 2009 or 2008. During 2010, EDT entered into forward foreign exchange contracts that required it to sell U.S. dollars for Euro and sell Euro for U.S. dollars. These forward contracts, which did not qualify for hedge accounting, expired during 2010 and resulted in a net loss of \$0.1 million. EDT did not enter into any forward contracts during 2009 or 2008.

(i) Revenue

EDT recognizes revenue from the sale of its products, royalties earned and contract arrangements. EDT's revenues are classified into two categories: product revenue and contract revenue.

Product Revenue Product revenue includes: (i) manufacturing fees and (ii) royalties. EDT recognizes product revenue when there is persuasive evidence that an arrangement exists, title passes, the price is fixed or determinable, and collectability is reasonably assured. Revenue is recorded net of applicable sales tax and sales discounts and allowances, which are described below.

(i) EDT earns royalties on partners' sales of its products or third-party products that incorporate EDT's technologies. Royalties are recognized as earned in accordance with the contract terms when royalties can be reliably measured and collectability is reasonably assured.

(ii) EDT receives manufacturing fees for products that EDT manufactures on behalf of other third-party customers.

Contract Revenue Contract revenue arises from contracts to perform research and development (R&D) services on behalf of clients, or from technology licensing. Contract revenue is recognized when earned and non-refundable, and when EDT has no future obligation with respect to the revenue, in accordance with the terms prescribed in the applicable contract. Contract research revenue consists of payments or milestones arising from R&D activities EDT performs on behalf of third parties. EDT's revenue arrangements with multiple elements are divided into separate units of accounting if certain criteria are met, including whether the delivered element has stand-alone value to the customer.

and whether there is objective and reliable evidence of the fair value of the undelivered items. The consideration EDT receives is allocated among the separate units based on their respective fair values, and the applicable revenue recognition criteria are applied

F-12

Table of Contents**Elan Drug Technologies****NOTES TO THE CARVE-OUT COMBINED FINANCIAL STATEMENTS (Continued)**

to each of the separate units. Advance payments received in excess of amounts earned are classified as deferred revenue until earned.

Up-front fees received by us are deferred and amortized when there is a significant continuing involvement by us (such as an ongoing product manufacturing contract or joint development activities) after an asset disposal. EDT defers and amortizes up-front license fees to income over the performance period as applicable. The performance period is the period over which EDT expects to provide services to the licensee as determined by the contract provisions.

Accounting for milestone payments depends on the facts and circumstances of each contract. EDT applies the substantive milestone method in accounting for milestone payments. This method requires that substantive effort must have been applied to achieve the milestone prior to revenue recognition. If substantive effort has been applied, the milestone is recognized as revenue, subject to it being earned, non-refundable and not subject to future legal obligation. This requires an examination of the facts and circumstances of each contract. Substantive effort may be demonstrated by various factors, including the risks associated with achieving the milestone, the period of time over which effort was expended to achieve the milestone, the economic basis for the milestone payment and licensing arrangement and the costs and staffing necessary to achieve the milestone. It is expected that the substantive milestone method will be appropriate for most contracts. If EDT determines the substantive milestone method is not appropriate, then EDT applies the proportional performance method to the relevant contracts. This method recognizes as revenue the percentage of cumulative non-refundable cash payments earned under the contract, based on the percentage of costs incurred to date compared to the total costs expected under the contract.

(j) Advertising expenses

We expense the costs of advertising as incurred. Advertising expenses were \$0.7 million in 2010 (2009: \$0.3 million; 2008: \$0.2 million).

(k) Research and development

R&D costs are expensed as incurred. Costs to acquire intellectual property, product rights and other similar intangible assets are capitalized and amortized on a straight-line basis over the estimated useful life of the asset. The method of amortization chosen best reflects the manner in which individual intangible assets are consumed.

(l) Taxation

The operations of the EDT business have historically been included in the Elan group and taxes of the business were calculated on the basis of been part of the Elan group.

Income taxes reflected in these financial statements have been calculated as if the business were a separate taxable group and consistent with the asset and liability method prescribed by ASC 740. Current tax liabilities and receivables (other than amounts actually paid by or refunded to EDT) are included in the calculation of the net funding transfer to Elan that is recorded in invested equity.

Deferred tax assets (DTAs) and liabilities are determined based on the difference between the financial statement and tax basis of assets and liabilities using the enacted tax rates projected to be in effect for the year in which the

differences are expected to reverse. DTAs are recognized for the expected future tax consequences, for all deductible temporary differences and operating loss carryforwards. A valuation allowance is required for DTAs if, based on available evidence, it is more likely than not that all or some of the asset will not be realized due to the inability to generate sufficient future taxable income.

F-13

Table of Contents**Elan Drug Technologies****NOTES TO THE CARVE-OUT COMBINED FINANCIAL STATEMENTS (Continued)**

Significant estimates are required in determining EDT's provision for income taxes. Some of these estimates are based on management's interpretations of jurisdiction-specific tax laws or regulations and the likelihood of settlement related to tax audit issues. Various internal and external factors may have favorable or unfavorable effects on EDT's future effective income tax rate. These factors include, but are not limited to, changes in tax laws, regulations and/or rates, changing interpretations of existing tax laws or regulations, changes in estimates of prior years' items, past and future levels of R&D spending, likelihood of settlement, and changes in overall levels of income before taxes.

We recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such positions are then measured based on the largest benefit that has a greater than 50% likelihood of being realized upon settlement. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs. EDT accounts for interest and penalties related to unrecognized tax benefits in income tax expense.

(m) Foreign exchange transactions

The functional and reporting currency of EDT is U.S. dollars. Transactions in foreign currencies are recorded at the exchange rate prevailing at the date of the transaction. The resulting monetary assets and liabilities are translated into U.S. dollars at exchange rates prevailing at subsequent balance sheet dates, and the resulting gains and losses are recognized in the Carve-out Combined Statement of Operations and, where material, separately disclosed.

(n) Share-based compensation

Elan sponsors certain equity award plans in which certain employees of EDT participate. The share-based payment expense funded by Elan represents share-based compensation expenses, allocated to EDT, based on actual EDT employees participating in the Elan plans.

Share-based compensation expense for equity-settled awards made to EDT employees is measured and recognized based on estimated grant date fair values. These awards include employee stock options, restricted stock units (RSUs) and stock purchases related to Elan's employee equity purchase plans (EEPPs).

Share-based compensation cost for stock options awarded to EDT employees and common stock issued to EDT employees under Elan's EEPPs is estimated at the grant date based on each option's fair value as calculated using an option-pricing model. Share-based compensation cost for RSUs awarded to EDT employees measured based on the closing fair market value of Elan's common stock on the date of grant. The value of awards expected to vest is recognized as an expense over the requisite service periods.

Estimating the fair value of share-based awards as of the grant or vest date using an option-pricing model, such as the binomial model, is affected by Elan's share price as well as assumptions regarding a number of complex variables. These variables include, but are not limited to, the expected share price volatility over the term of the awards, risk-free interest rates, and actual and projected employee exercise behaviors.

(o) Pensions and other employee benefit plans

Elan has two defined benefit pension plans covering eligible employees based in Ireland, which provide benefits to employees and former employees of Elan. These plans were closed to new entrants from March 31, 2009. The amounts allocated to and recognized in the Carve-out Combined Financial Statements were determined based on the projected benefit obligation, or underlying membership data for the service costs amounts, relating to members of the plans who are EDT employees.

F-14

Table of Contents**Elan Drug Technologies****NOTES TO THE CARVE-OUT COMBINED FINANCIAL STATEMENTS (Continued)**

The defined benefit pension plans are managed externally and the related pension costs and liabilities are assessed at least annually in accordance with the advice of a qualified professional actuary. Two significant assumptions, the discount rate and the expected rate of return on plan assets, are important elements of the expense and/or liability measurement. These assumptions are evaluated at least annually, with the assistance of an actuary. Other assumptions involve employee demographic factors such as retirement patterns, mortality, turnover and the rate of compensation increase. A December 31 measurement date is used and all plan assets and liabilities are reported as of that date. The cost or benefit of plan changes, which increase or decrease benefits for prior employee service, is included in expense on a straight-line basis over the period the employee is expected to receive the benefits.

Actuarial gains and losses are recognized using the corridor method. Under the corridor method, to the extent that any cumulative unrecognized net actuarial gain or loss exceeds 10% of the greater of the present value of the defined benefit obligation and the fair value of the plan assets, that portion is recognized over the expected average remaining working lives of the plan participants. Otherwise, the net actuarial gain or loss is not recognized.

EDT's portion of the funded status of benefit plans is recognized in the Carve-out Combined Balance Sheet. In addition, EDT recognizes in other comprehensive income or loss its portion of the gains or losses and prior service costs or credits that arise during the period but are not recognized as components of net periodic pension cost of the period. Defined benefit pension plan assets and liabilities are included in the calculation of the net funding transfer to Elan that is recorded in invested equity.

Elan has a number of defined contribution plans and the costs relating to EDT employees in these plans are expensed as incurred.

(p) Contingencies

We assess the likelihood of any adverse outcomes to contingencies, including legal matters, as well as the potential range of probable losses. EDT records accruals for such contingencies when it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated. If an unfavorable outcome is probable, but the amount of the loss cannot be reasonably estimated, EDT estimates the range of probable loss and accrues the most probable loss within the range. If no amount within the range is deemed more probable, EDT accrues the minimum amount within the range. If neither a range of loss nor a minimum amount of loss is estimable, then appropriate disclosure is provided, but no amounts are accrued.

In 2010, manufacturing and royalty revenue recorded for Ampyra was \$56.8 million and principally reflects shipments to Acorda to satisfy Acorda's initial stock requirements for the U.S. launch of the product as well as build-up of safety stock supply, and patient demand. EDT records revenue upon shipment of Ampyra to Acorda, as this revenue is not contingent upon ultimate sale of the shipped product by Acorda or its customers.

4. Segment, Geographical and Major Customers Information

At December 31, 2010, December 31, 2009 and December 31, 2008 EDT's chief operating decision maker (CODM) was identified as Mr. Shane Cooke, Head of EDT. EDT has a single reporting segment and operating unit structure and the CODM evaluates its performance from this perspective based on operating income and Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA).

We incurred other net charges of \$2.3 million in 2010 (2009: \$5.7 million, 2008: \$Nil) primarily related to severance, restructuring and other costs, arising from the realignment of resources to meet EDT's business structure. During 2009, EDT incurred severance, restructuring and other costs related to the scheduled completion of a manufacturing contract with an external pharmaceutical company. For additional information in relation to severance, restructuring and other charges, please refer to Note 14.

6. Net Interest Expense

The net interest (income)/expense for the years ended December 31, is as follows (in thousands):

7. Income Taxes

Income taxes reflected in these financial statements have been calculated as if the business were a separate taxable group and consistent with the asset and liability method prescribed by ASC 740. Current tax liabilities and receivables (other than amounts actually paid or refunded by/or to the business) are transferred to Elan and recorded in invested equity.

The following table sets forth the details of the provision for income taxes for the years ended December 31 (in thousands):

	2010	2009	2008
Irish corporation tax current	\$ 3,636	\$ 2,800	\$ 231

Tax expense/(benefit) reported in invested equity related to equity awards	\$ 490	\$ 509	\$ (1,567)

The overall tax provision for 2010 was \$13.1 million (2009: \$21.4 million, 2008: \$24.2 million). Of this amount \$0.5 million (2009: \$0.5 million debit, 2008: \$1.6 million credit) has been debited to shareholders' equity to reflect net

shortfalls/(windfalls) related to equity awards. The remaining \$12.6 million provision (2009: \$20.9 million; 2008: \$25.8 million) is allocated to ordinary activities and reflects U.S. Federal and State taxes, Irish corporate taxes, income derived from Irish patents, foreign withholding tax, other taxes at standard rates in the jurisdictions in which EDT operates and a deferred tax benefit of \$1.0 million for 2010 (2009: \$0.2 million expense; 2008: \$0.2 million expense).

Current tax, including Irish corporation tax, U.S. Federal and State taxes, and other foreign taxes, is provided on EDT's taxable profits, using the tax rates and laws that have been enacted by the balance sheet date.

	2010	2009
Deferred tax liabilities:		
Property, plant and equipment	\$ (8,775)	\$ (9,058)

The valuation allowance recorded against the DTAs as of December 31, 2010 was \$15.4 million (2009: \$15.6 million) which primarily relates to Irish net operating losses, the recoverability of which is uncertain.

In 2010, EDT recorded a reduction in invested equity of \$0.5 million (2009: \$0.5 million decrease; 2008: \$1.6 million increase) to reflect net tax shortfalls (tax shortfall in 2009; tax benefit in 2008) related to equity awards.

The gross amounts of unused tax loss carryforwards with their expiration dates are as follows (in thousands):

	Ireland	U.S. State	U.S. Federal	Rest of World	
More than five years	\$ 442,331	\$	\$	\$	\$ 442,331

At December 31, 2010, EDT in Ireland had net operating loss carryovers for income tax purposes of \$442.3 million. These can be carried forward indefinitely but are subject to the same trade and change of control restrictions. The calculation of DTAs excludes \$284.9 million of the net operating losses on the basis that these losses would have been utilized by the business or would not have accrued if the business was a stand-alone group. Notwithstanding that, EDT has disclosed the full net operating loss carryovers of \$442.3 million in the above table as these net operating losses are available to transfer with the business.

No taxes have been provided for the unremitted earnings of EDT's overseas subsidiaries as these are considered permanently employed in the business of these companies. Cumulative unremitted earnings of overseas subsidiaries totaled approximately \$18.4 million at December 31, 2010 (2009: \$8.0 million). Unremitted earnings may be liable to overseas taxes or Irish taxation if they were to be distributed as dividends. It is impractical to determine at this time the potential amount of additional tax due upon remittance of such earnings.

We have immaterial unrecognized tax benefits as at December 31, 2010 and 2009. No interest or penalties related to unrecognized tax benefits were accrued. EDT does not expect that the amount of unrecognized tax benefits will change significantly within the next 12 months.

Our major taxing jurisdictions include Ireland and the United States. The tax years beginning 2006 remain subject to examination by the respective taxing authorities of each jurisdiction.

The current and deferred tax charges/(benefits) and the related tax disclosures set out above are not necessarily representative of the tax charges/(benefits) that may arise in the future.

9. Inventory

Product inventories at December 31 of each year consisted of the following (in thousands):

Work-in-progress	6,025	8,096
Finished goods	2,326	7,622
Total inventory	\$ 18,296	\$ 26,468

The replacement cost of inventory did not differ materially from its carrying value at the balance sheet dates. The decrease in inventory balances at December 31, 2010 compared to December 31, 2009 is due to the timing of customer shipments over the year-end period.

In 2010, the expense recognized in respect of write-downs of inventory was \$4.9 million (2009: \$4.1 million; 2008: \$3.0 million).

10. Prepaid and Other Current Assets

Property and equipment disposals during 2010 and 2009 were primarily related to the write-off of fully depreciated assets.

The carrying amount of property, plant and equipment included \$159.8 million (2009: \$162.5 million) at December 31, 2010 relating to the manufacturing facility in Athlone, Ireland. EDT has invested significant resources in EDT's manufacturing facilities in Ireland to provide it with the capability to manufacture products from EDT's product development pipeline. To the extent that EDT is not successful in developing these pipeline products or do not acquire products to be manufactured at EDT's facilities, the carrying amount of these facilities may become impaired.

At December 31, 2010, EDT's best estimates of the likely success of development and commercialization of EDT's pipeline products support the carrying amount of EDT's manufacturing facilities.

Included in property, plant and equipment are assets under construction of \$1.7 million at December 31, 2010 (2009: \$0.6 million). For additional information regarding EDT's capital commitments for the purchase or construction of property, plant and equipment, please refer to Note 19.

At December 31, 2010 and 2009, the goodwill balance of \$49.7 million relates to the EDT reporting unit. The recoverable amount used in the goodwill impairment testing for the EDT reporting unit is based on value in use calculations. The cash flow projections used are based on the most recent business plans that include EDT's latest estimates on revenue growth and new business generation for EDT, assuming a constant rate of growth in operating expenses.

Table of Contents**Elan Drug Technologies****NOTES TO THE CARVE-OUT COMBINED FINANCIAL STATEMENTS (Continued)**

EDT has also assessed R&D risk, commercial risk, EDT's expected sales and marketing support, EDT's allocation of resources, the impact of competition, including generic competition, the impact of any reorganization or change of business focus, the level of third-party interest in EDT's intangible assets and market conditions in estimating the projected cash flows. A terminal value is applied to the year five cash flows, which is consistent with the approach adopted in the prior year. A pre-tax discount rate of 10% (2009: 10%) has been used in discounting the projected cash flows. A sensitivity analysis was performed using a discount rate of 15% and resulted in an excess of recoverable amount over the carrying value of the EDT reporting unit. EDT management believes that any reasonably possible change in any of the key assumptions would not have caused the carrying value of goodwill to exceed the recoverable amount at the balance sheet date.

The weighted-average remaining useful life for other intangible assets at December 31, 2010 was 5.4 years (2009: 2.4 years).

15. Pension and Other Employee Benefit Plans

Pension

Elan funds the pensions of certain employees based in Ireland through two defined benefit plans. These plans were closed to new entrants from March 31, 2009 and a defined contribution plan was established for employees in Ireland hired after this date.

In general, on retirement, eligible employees in the staff scheme are entitled to a pension calculated at 1/60th (1/52nd for the executive scheme) of their final salary for each year of service, subject to a maximum of 40 years. These plans are managed externally and the related pension costs and liabilities are assessed in accordance with the advice of a qualified professional actuary. The investments of the plans at December 31, 2010 consisted of units held in independently administered funds.

The weighted-average assumptions used to determine net periodic pension cost and benefit obligation at December 31 were:

	2010	2009
Discount rate	4.7%	5.0%
Expected return on plan assets	6.2%	7.1%
Rate of compensation increase	3.5%	3.6%

The discount rate of 4.7% at December 31, 2010, was determined by reference to yields on high-quality fixed-income investments, having regard to the duration of the plans' liabilities. The average duration of both defined benefit plans is greater than 20 years. Since no significant market exists for high-quality fixed income investments in Ireland and, following the crisis in the credit markets, the number of AA-rated corporate bonds with long durations is limited, the assumed discount rate of 4.7% per annum at December 31, 2010, was determined based on a yield curve derived by reference to government bonds with an added corporate bond spread derived from the Merrill Lynch 10+ AA corporate bond index.

In Ireland, post-retirement mortality rates are calculated using 62% of the mortality rates of the PNML00 mortality tables for males and 70% of the mortality rates of the PNFL00 mortality tables for females. To make an allowance for expected future increases in average life expectancy, plan benefit obligations for each plan member are increased by 0.39% per annum to retirement age. This approach to post-retirement mortality is used in the standard transfer value basis set out in Actuarial Standard of Practice ASP Pen-2, issued by the Society of Actuaries in Ireland.

The investment mix of the pension plans' assets is biased towards equities, with a diversified domestic and international portfolio of shares listed and traded on recognized exchanges.

The long-term asset allocation ranges of the trusts are as follows:

Equities	60%-80%
Bonds	10%-40%
Property	0%-10%

A portion of the assets are allocated to low-risk investments, which are expected to move in a manner consistent with that of the liabilities. The balances of the assets are allocated to performance-seeking investments designed to provide

returns in excess of the growth in liabilities over the long term. The key risks relating to the plan assets are as follows:

Interest rate risk the risk that changes in interest rates result in a change in value of the liabilities not reflected in the changes in the asset values. This risk is managed by allocating a portion of the trusts' assets to assets that are expected to behave in a manner similar to the liabilities.

Inflation risk the risk that the inflation-linked liabilities of salary growth and pension increases increase at a faster rate than the assets held. This risk is managed by allocating a portion of the plans' to investments with returns that are expected to exceed inflation.

Market risk the risk that the return from assets is not sufficient to meet liabilities. This risk is managed by monitoring the performance of the assets and requesting regular valuations of the liabilities. A professionally qualified actuary performs regular valuations of the plans and the progress

of the assets is examined against the plans' funding target. Further, the assets of the plans are invested in a range of asset classes in order to limit exposure to any particular asset class or security.

Manager risk the risk that the chosen manager does not meet its investment objectives, or deviates from its intended risk profile. This risk is managed by regularly monitoring the managers responsible for the investment of the assets relative to the agreed objectives and risk profile.

Cash flow risk the risk that the cash flow needs of the plan requires a disinvestment of assets at an inopportune time. As part of the asset allocation strategy, the proportion of assets held by the plans in liability matching assets will explicitly consider the cash flows expected to arise in the near term.

As of December 31, 2010, the expected long-term rate of return on assets of 6.2% (2009: 7.1%) was calculated based on the assumptions of the following returns for each asset class:

	2010	2009
Equities	7.3%	8.0%
Property	6.3%	7.0%
Bonds	3.8%	4.3%
Cash	2.1%	2.3%
Absolute return fund	5.5%	5.6%

As of December 31, 2010, the assumed return on equities has been derived as the assumed return on bonds plus an assumed equity risk premium of 3.5% (2009: 3.8%).

As of December 31, 2010, the expected return on property has been chosen by allowing for a property risk premium of 2.5% (2009: 2.8%) above the expected return on bonds.

The expected government bond returns are set equal to the yield on the government bonds of appropriate duration as at the date of measurement.

The investment in an absolute return fund aims to provide an absolute return with a lower volatility than the target returns.

The following table sets forth the fair value of the pension plan assets, as of December 31, 2010 (in thousands):

NOTES TO THE CARVE-OUT COMBINED FINANCIAL STATEMENTS (Continued)

All properties in the fund are valued by independent valuers in accordance with the Royal Institute of Chartered Surveyors Valuation Standards by forecasting the returns of the market at regular intervals. These forecasts have regard to the output from a proprietary quantitative model, the inputs to which include gross national product growth, interest rates and inflation.

EDT's allocated portion of the total accumulated benefit obligation for the defined benefit pension plans was \$33.7 million at December 31, 2010 (2009: \$28.2 million).

At December 31, 2010, EDT's allocated portion of the estimated future benefit payments to be paid in respect of the plans for the period of 2011-2015 are approximately \$0.4 million. EDT's allocated portion of the estimated future benefit payments to be paid in the period of 2016-2020 is approximately \$1.4 million.

The expected benefits to be paid are based on the same assumptions used to measure EDT's benefit obligation at December 31, 2010, including the expected future employee service.

During 2011, EDT expects to recognize \$0.6 million of the unamortized net actuarial loss and less than \$0.1 million of the unamortized prior service cost that is included in invested equity at December 31, 2010.

Defined Contribution Retirement Plans

Elan operates a number of defined contribution retirement plans. The costs of these plans related to EDT employees are expensed in the period they are incurred. For 2010, total expense related to the defined contribution plans in respect of EDT employees recognized in the Carve-out Combined Statement of Operations was \$1.5 million (2009: \$1.3 million; 2008: \$0.7 million).

Employee Savings and Retirement Plan 401(k)

Elan maintains a 401(k) retirement savings plan for employees based in the United States, including EDT employees. Participants in the 401(k) plan may contribute up to 80% of their annual compensation (prior to January 1, 2010, participants could contribute up to 100% of their annual compensation), limited by the maximum amount allowed by the IRC. Elan matches 3% of each participating employee's annual compensation on a quarterly basis and may contribute additional discretionary matching up to another 3% of the employee's annual qualified compensation. The matching contributions are vested immediately. For 2010, EDT recorded \$1.2 million (2009: \$1.2 million; 2008: \$0.7 million) of expense in connection with the matching contributions under the 401(k) plan.

Irish Defined Contribution Plan

Elan operates a defined contribution plan for employees based in Ireland, including EDT employees, who joined Elan on or after April 1, 2009. Under the plan, Elan will match up to 15% of each participating employee's annual eligible income on a monthly basis. For 2010, EDT recorded \$0.3 million (2009: \$0.1 million; 2008: \$Nil) of expense in connection with the matching contributions under the Irish defined contribution plans.

16. Share-based Compensation

Elan has an equity award program which provides for the issuance of share options, restricted stock units and other equity awards. Elan's equity award program is a long-term retention program that is intended to attract, retain and motivate its employees, directors and consultants, and to align the interests of these parties with those of its shareholders. Elan considers the equity award program critical to its operation and productivity. Equity awards made by Elan to certain EDT employees are settled through the issuance of new shares and are recognized in the Carve-out Combined Financial Statements as equity settled share-based compensation.

Equity-settled share-based payments made to EDT employees have been recognized in the Carve-out Combined Financial Statements based on the fair value of the awards measured at the date of grant. The graded-vesting attribution method is used for recognizing share-based compensation expense over the requisite service period for each separately vesting tranche of award as though the awards were, in substance, multiple awards.

The fair value of stock options is calculated using a binomial option-pricing model and the fair value of options issued under the EEPP is calculated using the Black-Scholes option-pricing model, taking into account the relevant terms and conditions. The binomial option-pricing model is used to estimate the fair value of Elan's stock options because it better reflects the possibility of exercise before the end of the options' life. The binomial option-pricing model also integrates possible variations in model inputs, such as risk-free interest rates and other inputs, which may change over the life of the options. Options issued under the EEPPs have relatively short contractual lives, or must be exercised within a short period of time after the vesting date, and the input factors identified above do not apply. Therefore, the Black-Scholes option-pricing model produces a fair value that is substantially the same as a more complex binomial option-pricing model for the EEPPs. The amount recognized as an expense is adjusted each period to reflect actual and estimated future levels of vesting.

The implied volatility for traded options on Elan's stock with remaining maturities of at least one year to determine the expected volatility assumption required in the binomial model. The risk-free interest rate assumption is based upon observed interest rates appropriate for the term of the stock option awards. The dividend yield assumption is based on the history and expectation of dividend payouts.

As share-based compensation expense recognized in the Carve-out Combined Financial Statements is based on awards ultimately expected to vest, it has been reduced for estimated forfeitures. Forfeitures are estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from estimates. Forfeitures were estimated based on historical experience and estimated future turnover.

The estimated weighted-average grant date fair values of the individual options granted during the years ended December 31, 2010, 2009 and 2008 were \$3.86, \$5.45 and \$12.29, respectively. The fair value of

options granted during these years was estimated using the binomial option-pricing model with the following weighted-average assumptions:

	2010	2009	2008
Risk-free interest rate	2.02%	1.46%	2.97%
Expected volatility	67.1%	95.6%	71.9%

The contractual life of the options, which is not later than 10 years from the date of grant, is used as an input into the binomial model.

Restricted Stock Units

Elan grants RSUs to certain employees, including employees of EDT. The RSUs generally vest between one and three years from the grant date, and shares are issued to RSU holders as soon as practicable following vesting. The fair value of services received by EDT in return for the RSUs is measured by reference to the fair value of the underlying shares at grant date for employees of EDT. The total fair value expensed over the vesting terms of RSUs that became fully vested in 2010 was \$2.9 million (2009: \$3.0 million; 2008: \$2.9 million).

The non-vested RSUs are summarized as follows (in thousands, except fair value amounts):

Employee Equity Purchase Plans

Elan operates an EEPP for eligible employees, including EDT employees, based in the United States (the U.S. Purchase Plan). The U.S. Purchase Plan is a qualified plan under Sections 421 and 423 of the IRC and allows eligible EDT employees to purchase common stock at 85% of the lower of the fair market value at the beginning of the offering period or the fair market value on the last trading day of the offering period. Purchases are limited to \$25,000 (fair market value) per calendar year; 2,000 shares per six-month offering period (changed from 1,000 shares per three-month offering period, beginning January 1, 2010); and subject to certain IRC restrictions.

The Sharesave Plans allowed eligible employees to purchase ordinary shares at no lower than 85% of the fair market value at the start of a 36-month saving period. No options are currently outstanding under the Sharesave Plans.

The options issued under the Sharesave Plans were granted in 2005 and the estimated fair values of the options were expensed over the 36-month saving period from the grant date. The fair value per option granted under the Sharesave Plans in 2005 was \$11.68. A total of 66,408 shares were issued under the U.S. Purchase Plan for the 2010 offering period (2009: 61,800 shares; 2008: 29,043 shares) and no shares were issued under the Sharesave Plan during 2010 (2009: Nil; 2008: 22,508 shares). The weighted-average fair value of options granted under the U.S. Purchase Plan during the year ended December 31, 2010 was \$1.86 (2009: \$2.06; 2008: \$6.69). The estimated fair values of these options were charged to expense over the respective six-month offering periods. The estimated fair values of options granted under the U.S. Purchase Plan in the years ended December 31, were calculated using the following inputs into the Black-Scholes option-pricing model:

	2010	2009	2008
Weighted-average share price	\$ 5.65	\$ 6.61	\$ 23.27
Weighted-average exercise price	\$ 4.80	\$ 5.62	\$ 18.93
Expected volatility ⁽¹⁾	64.0%	82.7%	74.6%
Expected life	6 months	3 months	3 months
Expected dividend yield			
Risk-free interest rate	0.21%	0.15%	1.52%

(1) The expected volatility was determined based on the implied volatility of traded options on Elan's stock.

The cash proceeds from share-based compensation stock issuances received by Elan from EDT employees in 2010 was \$0.3 million (2009: \$0.3 million; 2008: \$21.1 million).

17. Fair Value Measurements

Fair value is the amount at which a financial instrument could be exchanged in an arms-length transaction between informed and willing parties, other than in a forced or liquidation sale.

As of December 31, 2010, EDT did not hold any financial assets or financial liabilities that are recognized at fair value in the financial statements on a recurring or non-recurring basis (2009: \$Nil).

18. Leases***Operating Leases***

EDT recorded an expense under operating leases for premises of \$2.3 million for the twelve months ended December 31, 2010 (2009: \$2.1 million; 2008: \$2.1 million).

As of December 31, 2010, EDT's future minimum rental commitments for operating leases with non-cancelable terms in excess of one year are as follows (in thousands):

Not-contracted for	2,176	3,995
Total	\$ 5,300	\$ 8,002

20. Litigation

EDT is involved in certain legal and administrative proceedings that could have a material adverse effect on EDT.

F-35

Table of Contents**Elan Drug Technologies****NOTES TO THE CARVE-OUT COMBINED FINANCIAL STATEMENTS (Continued)*****Paragraph IV Litigation***

EDT and/or EDT's product partners are involved in various so-called Paragraph IV litigation proceedings in the United States. In the United States, putative generics of innovator drug products (including products in which the innovation comprises a new drug delivery method for an existing product, such as the drug delivery market occupied by us) may file Abbreviated New Drug Applications (ANDAs) and, in doing so, they are not required to include preclinical and clinical data to establish safety and effectiveness of their drug. Instead, they would rely on such data provided by the New Drug Application (NDA) held with respect to the innovator drug. However, to benefit from this less costly abbreviated procedure, the ANDA applicant must demonstrate that its drug is generic or bioequivalent to the innovator drug, and, to the extent that patents protecting the innovator drug are listed in the Orange Book, the ANDA applicant must write to the holder of the NDA for the innovator drug and the patent holder (to the extent that the Orange Book-listed patents are not owned by the holder of the NDA for the innovator drug) certifying that their product either does not infringe the innovator's and patent holder's patents and/or that the relevant patents are invalid. The innovator and the patent holder may sue the ANDA applicant within 45 days of receiving the certification and, if they do so, the U.S. Food and Drug Administration (FDA) may not approve the ANDA for 30 months from the date of certification unless, at some point before the expiry of those 30 months, a court makes a final decision in the ANDA applicant's favor.

EDT is involved in a number of Paragraph IV suits in respect of six different products (*TriCor* 145, *Avinza*, *Focalin XR*, *Zanaflex*, *Rapamune* and *Luvax CR*) either as plaintiff or as an interested party (where the suit is being brought in the name of one of EDT's partners). If EDT is unsuccessful in these and other similar suits, EDT's or its partners' products may be subject to generic competition, and EDT's manufacturing revenue and royalties could be materially and adversely affected.

Patent matter

In June 2008, a jury ruled in the U.S. District Court for the District of Delaware that Abraxis BioSciences, Inc. (Abraxis, since acquired by Celgene Corporation) had infringed a patent owned by us in relation to the application of *NanoCrystal* technology to *Abraxane*. EDT was awarded \$55.2 million, applying a royalty rate of 6% to sales of *Abraxane* from January 1, 2005 through June 13, 2008 (the date of the verdict), though the judge had yet to rule on post-trial motions or enter the final order. This award and damages associated with the continuing sales of the *Abraxane* product were subject to interest.

In February 2011, EDT entered into an agreement with Abraxis to settle this litigation. As part of the settlement agreement with Abraxis, EDT received \$78.0 million in full and final settlement, which is recognized as a gain in 2011. No continuing royalties will be received by us in respect of *Abraxane*.

21. Related Parties

All intra-group transactions within EDT have been eliminated in the Financial Statements and are not disclosed.

As previously discussed in Note 2(a), EDT has certain related party relationships with non-EDT subsidiaries of Elan, primarily the provision of central services by Elan to EDT and the provision by EDT of certain R&D services to Elan.

Elan provides certain central services to EDT including, but not limited to:

Accounting, information technology, taxation, legal, corporate strategy, investor relations, corporate governance and other professional services;

Employee benefit administration, including equity award and pension services; and

Cash and treasury management.

Certain central services costs have been allocated to EDT based on estimated usage of the resources for the purposes of preparing the Financial Statements. Management considers that such allocations have been made on a reasonable basis, but may not necessarily be indicative of the costs that would have been incurred if EDT had been operated on a stand-alone basis. The amount recorded in the Carve-out Combined Statement of Operations in respect of such services in the year ended December 31 2010 was \$17.4 million (2009: \$16.8 million; 2008: \$16.9 million).

22. Subsequent Events

In May 2011, Alkermes and Elan announced the execution of a definitive agreement under which Alkermes will merge with EDT in a cash and stock transaction valued at approximately \$960 million at the time of the announcement. Alkermes and EDT will be combined under a new holding company incorporated in Ireland. This newly created company will be named Alkermes plc. The transaction is subject to approval by Alkermes' shareholders and the satisfaction of customary closing conditions and regulatory approvals, including antitrust approvals in the United States. The transaction is expected to close during the second half of 2011.

In January 2011, the Committee for Medicinal Products for Human Use (CHMP) of the European Medicines Agency (EMA) issued a negative opinion, recommending against approval of *Fampyra*. Biogen Idec Inc. (Acorda's sub-licensee) appealed this opinion and requested a re-examination of the decision of the CHMP. In May 2011, the CHMP of the EMA recommended conditional marketing authorization of *Fampyra*. In May 2011, *Fampyra* was approved for use in Australia by the Australian Therapeutic Goods Administration. Biogen Idec also received a Notice of Deficiency from Health Canada for its application to sell *Fampyra* in Canada. EDT has the right to manufacture supplies of *Ampyra* for the global market at its Athlone, Ireland facility.

In February 2011, EDT entered into an agreement with Abraxis to settle litigation in relation to the application of EDT's *NanoCrystal* technology to Abraxane. As part of the settlement agreement with Abraxis, EDT received \$78.0 million in March 2011 in full and final settlement, which is recognized as a gain in 2011. EDT will not receive future royalties in respect of *Abraxane*.

In March 2011, EDT's partner, Janssen Pharmaceutica N.V., announced the approval of *Xeplion*, a once monthly atypical antipsychotic injection, by the European Commission. This is the first European approval of an injectable product using EDT's *NanoCrystal* technology. Other regulatory advances included approvals for new strengths for *Focalin XR* (25mg and 35mg) in the United States, and *Morphelan* filed in the European Union by Elan.

In May 2011, EDT entered into an agreement with Alcon to settle litigation in relation to the application of EDT's *NanoCrystal* technology. As part of the settlement agreement with Alcon, EDT received \$6.5 million in May 2011 in full and final settlement, which is recognized as a gain in 2011.

In the second quarter of 2011, Elan decided to close its King of Prussia, Pennsylvania site, which is part of EDT. It is expected that the closure will take place in the second half of 2011.

**NOTES TO THE UNAUDITED INTERIM CONDENSED CARVE-OUT
COMBINED FINANCIAL STATEMENTS**

1. Description of Business

Elan Corporation, plc (Elan), an Irish public limited company, is a neuroscience-based biotechnology company headquartered in Dublin, Ireland. Elan was incorporated as a private limited company in Ireland in December 1969 and became a public limited company in January 1984. Elan operations are organized into two business units: BioNeurology, which engages in research, development and commercial activities primarily for neurodegenerative and autoimmune diseases, and Elan Drug Technologies (EDT), which focuses on the specialty pharmaceutical industry, including specialized drug delivery and manufacturing.

EDT (also hereafter referred to as *we*, *our* or *us*) develops and manufactures innovative pharmaceutical products that deliver clinically meaningful benefits to patients, using its extensive experience and proprietary delivery technologies in collaboration with pharmaceutical companies.

2. Significant Accounting Policies

(a) Basis of preparation and presentation of financial information

On May 9, 2011, Elan and Alkermes Inc. (Alkermes) announced the execution of a definitive agreement under which Alkermes will merge with EDT in a cash and stock transaction valued at approximately \$960 million at the time of the announcement. Alkermes and EDT will be combined under a new holding company incorporated in Ireland. This newly created company will be named Alkermes plc. The transaction is subject to approval by Alkermes stockholders and the satisfaction of customary closing conditions and regulatory approvals, including antitrust approvals in the United States. The transaction is expected to close during the third quarter of 2011.

EDT has historically operated as part of Elan and not as a separate stand-alone entity. The Unaudited Interim Condensed Carve-out Combined Financial Statements, referred to in this proxy statement/prospectus as *Interim Statements*, have been prepared on a *carve-out* basis from the consolidated financial position and results of Elan to represent the financial position and performance of EDT as if EDT had existed on a stand-alone basis during each of the six-month periods ended June 30, 2011 and June 30, 2010 for income statement and cash flow statement amounts and as of June 30, 2011 and December 31, 2010 for balance sheet amounts; and as if the recognition and measurement principles of Financial Accounting Standards Board (FASB) Accounting Standard Codification (ASC) Topic 810, *Consolidation*, had been applied throughout.

The Interim Statements have been prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) for interim financial reporting and with the instructions to Article 10 of Regulation S-X. Accordingly, it does not include all information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments considered necessary for fair presentation have been included.

As EDT did not constitute a legal sub-group at each of the dates being reported on, historically, no consolidated financial statements of EDT were prepared at the reporting dates. However, EDT has historically operated as part of Elan and within the Elan infrastructure and has been included as a separate operating segment in the segment reporting of Elan in the consolidated financial statements of Elan for the fiscal year ended December 31, 2010 and in previous fiscal years.

The information included in the Interim Statements should be read in conjunction with our Carve-out Combined Financial Statements and the accompanying notes for the year ended December 31, 2010. Our accounting policies are described in the Notes to Carve-out Combined Financial Statements in our Carve-out Combined Financial Statements and updated, as necessary, in the Interim Statements. The year-end Condensed Carve-out Combined Balance Sheet data presented for comparative purposes was derived from the audited Carve-out Combined Financial Statements, but does not include all disclosures required by U.S. GAAP. The

COMBINED FINANCIAL STATEMENTS (Continued)**

results of operations for the six-month periods ended June 30, 2011 and 2010 are not necessarily indicative of the operating results for the full year or for any other subsequent interim period.

The accompanying Interim Statements only include assets and liabilities that are specifically identifiable with EDT. No adjustments have been made to the assets or liabilities of EDT to reflect specifically included or excluded assets or liabilities under the provisions of the Merger Agreement between Alkermes and Elan. Certain general and administrative expenses that are maintained at the corporate level, which consist primarily of salaries and other employee costs, legal and professional fees and insurance costs, were allocated to EDT based on methodologies management believes to be reasonable. The Interim Statements do not purport to represent what the results of operations would have been, or accurately reflect its assets and liabilities, had the entire EDT business and activities of EDT been a legal sub-group for each of the six-month periods being reported on, or for future periods. Had EDT operated as an independent stand-alone entity, its results could have differed significantly from those presented in the Interim Statements.

The Interim Statements have been prepared in conformity with U.S. GAAP, by aggregating financial information from the consolidation reporting packages of relevant subsidiaries of Elan focused entirely on EDT activities. Where legal entities have historically had both EDT and non-EDT activities, the statement of operations, asset and liability balances pertaining to EDT activities have been identified and aggregated. Intra group transactions and balances between the EDT entities have been eliminated.

As a separate operating segment within Elan, EDT has certain of its own management and administrative functions. However, Elan provides certain central services including, but not limited to:

Accounting, information technology, taxation, legal, corporate strategy, investor relations, corporate governance and other professional services;

Employee benefit administration, including equity award and pension services; and

Cash and treasury management.

Central services costs for the six-month period ended June 30, 2011 amounted to \$8.5 million (2010: \$8.8 million). These costs have been allocated to EDT based on estimated usage of the resources by EDT for the purposes of preparing the Interim Statements. The estimated usage of the central service resources by EDT has been determined by estimating EDT's portion of the most appropriate driver of each category of central service costs including headcount, labor hours and utilization of office space. Management considers that such allocations have been made on a reasonable basis, but may not necessarily be indicative of the costs that would have been incurred if EDT had been operated on a stand-alone basis.

Certain EDT employees participate in the equity award plans of Elan. The share-based payment compensation expense recognized in the Interim Statements is based on the expense attributable to EDT employees participating in the Elan equity award plans.

Elan funds the pension entitlements of certain of its employees, including employees of EDT, through two defined benefit plans and a number of defined contribution plans. The amounts allocated in the Interim Statements for the

defined benefit plans were determined based on the projected benefit obligation, or underlying membership data for the service cost amounts, relating to members of the plans that are EDT employees. Defined benefit pension plan assets and liabilities are included in the calculation of the net funding transfer to Elan that is recorded in invested equity. The costs of the defined contribution plans in respect of EDT employees are expensed in the Interim Statements in the periods they are incurred.

Elan uses a centralized approach to manage substantially all of its liquid resources and to finance its operations and, as a result, debt and liquid resources maintained at the Elan group level are not included in the accompanying Interim Statements. Liquid resources are defined as the total of cash and cash equivalents,

F-42

Table of Contents**Elan Drug Technologies****NOTES TO THE UNAUDITED INTERIM CONDENSED CARVE-OUT
COMBINED FINANCIAL STATEMENTS (Continued)**

current restricted cash and current investment securities. EDT has historically financed its operating and capital resource requirements through cash flows from operations, with funding transferred between EDT and Elan as part of the Elan group's cash and treasury management strategy.

The invested equity balance in the Interim Statements constitutes Elan's investment in EDT and represents the excess of total assets over total liabilities, including the netting of intercompany funding balances between EDT and Elan. Invested equity in EDT includes the results of EDT's operations, contributions from Elan in the form of share-based compensation to EDT employees less net transfers of intercompany funding from EDT to Elan.

The tax amounts in the Interim Statements have been calculated as if the business were a separate taxable entity and consistent with the asset and liability method prescribed in ASC 740 Income Taxes, (ASC 740). Current tax liabilities and receivables (other than amounts actually paid by or refunded to EDT) are included in the calculation of the net funding transfer to Elan that is recorded in invested equity.

The Interim Statements of EDT are presented in U.S. dollars (\$), which is the functional currency of EDT, and have been prepared on a going concern basis.

(b) Use of estimates

The preparation of the Interim Statements in conformity with U.S. GAAP requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying amounts of assets and liabilities that are not readily apparent from other sources. Estimates are used in determining items such as the carrying amounts of intangible assets, property, plant and equipment, revenue recognition and the fair value of share-based compensation, among other items. Because of the uncertainties inherent in such estimates, actual results may differ materially from these estimates.

For a discussion of our significant accounting policies and critical accounting estimates, please refer to Note 2 to our Carve-out Combined Financial Statements for the year ended December 31, 2010.

4. Legal Settlement Gains

In June 2008, a jury ruled in the U.S. District Court for the District of Delaware that Abraxis (since acquired by Celgene Corporation) had infringed a patent owned by Elan in relation to the application of its *NanoCrystal*[®] technology to Abraxane[®]. EDT was awarded \$55.2 million, applying a royalty rate of 6% to sales of Abraxane from January 1, 2005 through June 13, 2008 (the date of the verdict). This award and

damages associated with the continuing sales of the Abraxane product were subject to interest. In February 2011, EDT entered into an agreement with Abraxis to settle this litigation. As part of the settlement agreement with Abraxis, EDT received \$78.0 million in full and final settlement of the litigation. EDT will not receive future royalties in respect of Abraxane.

In May 2011, EDT entered into an agreement with Alcon to settle litigation in relation to the application of EDT's *NanoCrystal* technology. As part of the settlement agreement with Alcon, EDT received \$6.5 million in May 2011 in full and final settlement.

5. Other Net Charges

During the second quarter of 2011, Elan decided to close its King of Prussia, Pennsylvania, site which is part of EDT and, consequently, a non-cash asset impairment charge of \$5.1 million and severance, restructuring and other charges of \$10.0 million were recorded for the six-month period ended June 30, 2011. It is expected that the closure will take place in the second half of 2011.

During the six-month period ended June 30, 2010, EDT incurred other net charges of \$0.4 million primarily related to severance, restructuring and other costs, arising from the realignment of resources to meet our business structure.

Of this amount \$0.7 million (2010: \$0.4 million) has been debited to invested equity. The remaining \$14.8 million provision (2010: \$6.0 million) is allocated to ordinary activities and reflects U.S. Federal and State taxes, Irish corporate taxes, income derived from Irish patents, foreign withholding tax, other taxes at standard rates in the jurisdictions in which we operate and a deferred tax credit of \$7.7 million for 2011 (2010: \$0.5 million credit). The deferred tax credit of \$7.7 million for 2011 is primarily attributable to the announcement of the closure of the King of Prussia, Pennsylvania site.

13. Pension and Other Employee Benefit Plans*Pension*

Elan funds the pensions of certain employees based in Ireland through two defined benefit plans. These plans were closed to new entrants from March 31, 2009 and a defined contribution plan was established for employees in Ireland hired after this date.

In general, on retirement, eligible employees in the staff scheme are entitled to a pension calculated at 1/60th (1/52nd for the executive scheme) of their final salary for each year of service, subject to a maximum of 40 years. These plans are managed externally and the related pension costs and liabilities are assessed in accordance with the advice of a qualified professional actuary. The investments of the plans at June 30, 2011 consisted of units held in independently administered funds.

The amounts allocated to and recognized in the Interim Statements were determined based on the projected benefit obligation, or underlying membership data for the service costs amounts, relating to members of the plans that are EDT employees.

The change in projected benefit obligation was as follows (in thousands):

June 30,	December 31,

14. Share-based Compensation

Elan has an equity award program which provides for the issuance of share options, restricted stock units (RSUs) and other equity awards. Elan's equity award program is a long-term retention program that is intended to attract, retain and motivate its employees, directors and consultants, and to align the interests of these parties with those of its shareholders. Elan considers the equity award program critical to its operation and productivity. Equity awards made by Elan to certain EDT employees are settled through the issuance of new shares and are recognized in the Interim Statements as equity settled share-based compensation.

16. Commitments and Contingencies

For a discussion of our commitments and contingencies, please read Note 19 to our Carve-out Combined Financial Statements for the year ended December 31, 2010. Our commitments and contingencies as of June 30, 2011 have not materially changed from the date of that report.

17. Litigation

EDT is involved in legal and administrative proceedings that could have a material adverse effect on us.

Paragraph IV Litigation

We and/or our product licensees are involved in various sets of so-called Paragraph IV litigation proceedings in the United States. In the United States, putative generics of innovator drug products (including

F-52

Table of Contents**Elan Drug Technologies****NOTES TO THE UNAUDITED INTERIM CONDENSED CARVE-OUT
COMBINED FINANCIAL STATEMENTS (Continued)**

products in which the innovation comprises a new drug delivery method for an existing product, such as the drug delivery market occupied by us) may file Abbreviated New Drug Applications (ANDAs) and, in doing so, they are not required to include preclinical and clinical data to establish safety and effectiveness of their drug. Instead, they would rely on such data provided by the innovator drug New Drug Application (NDA) holder. However, to benefit from this less costly abbreviated procedure, the ANDA applicant must demonstrate that its drug is generic or bioequivalent to the innovator drug, and, to the extent that patents protecting the innovator drug are listed in the Orange Book, the ANDA applicant must write to the innovator NDA holder and the patent holder (to the extent that the Orange Book-listed patents are not owned by the innovator NDA holder) certifying that its product either does not infringe the innovator's and, if applicable, the patent holder's patents and/or that the relevant patents are invalid. The innovator and the patent holder may sue the ANDA applicant within 45 days of receiving the certification and, if so, the Food and Drug Administration (FDA) may not approve the ANDA for 30 months from the date of certification unless, at some point before the expiry of those 30 months, a court makes a final decision in the ANDA applicant's favor.

We are involved in a number of Paragraph IV suits in respect of six different products (*TriCor*, *Focalin XR*, *Avinza*, *Zanaflex*, *Rapamune* and *Luvox CR*) either as plaintiff or as an interested party (where the suit is being taken in the name of one of our collaborators). EDT has recently received a Paragraph IV certification with respect to *Megace ES*. If we are unsuccessful in these and other similar type suits, our or our licensees' products may be subject to generic competition, and our manufacturing revenue and royalties could be materially and adversely affected.

Patent matters

In June 2008, a jury ruled in the U.S. District Court for the District of Delaware that Abraxis BioSciences, Inc. (Abraxis, since acquired by Celgene Corporation) had infringed a patent owned by us in relation to the application of *NanoCrystal* technology to *Abraxane*. The judge awarded us \$55.2 million, applying a royalty rate of 6% to sales of *Abraxane* from January 1, 2005 through June 13, 2008 (the date of the verdict). This award and damages associated with the continuing sales of the *Abraxane* product were subject to interest. In February 2011, we entered into an agreement with Abraxis to settle this litigation. As part of the settlement agreement with Abraxis, EDT received \$78.0 million in full and final settlement which is recognized as a gain in the six-month period ended June 30, 2011. No continuing royalties will be received by us in respect of *Abraxane*.

In May 2011, EDT entered into an agreement with Alcon to settle litigation in relation to the application of EDT's *NanoCrystal* technology. As part of the settlement agreement with Alcon, EDT received \$6.5 million in May 2011 in full and final settlement.

18. New Accounting Pronouncements

From time to time, new accounting pronouncements are issued by the FASB or other standard setting bodies that are adopted by EDT as of the specified effective date. We believe that the impact of recently issued standards that are not yet effective will not have a material impact on our financial position or results of operations upon adoption.

(f) Any reduction in the Closing Payments made pursuant to Section 2.15(e) shall be paid by Elan, within five (5) Business Days after the Final Closing Adjustment Amount is agreed upon or deemed to have been agreed upon by New Alkermes and Elan or the written statement of the Neutral Auditors setting forth their determination regarding any remaining disputed items is delivered to New Alkermes and Elan (such fifth (5th) Business Day, the Adjustment Payment Date), by delivery to New Alkermes of the amount of such reduction (which shall bear interest from (and including) the Closing Date through (and including) the date of payment at the publicly announced prime interest rate of Citibank, N.A. in effect from time to time for unsecured short-term commercial loans) in cash in U.S. dollars. Each Party may, as each deems advisable and necessary, reasonably designate any competitively sensitive material provided to the other Parties under this Section 5.2 as outside counsel only. Such competitively sensitive material and the information contained therein shall be given only to the outside legal counsel of the recipient and will not be disclosed by such outside counsel to employees, officers, or directors of the recipient unless express permission is obtained in advance from the source of the materials or its legal counsel.

(c) Without limiting the generality of the undertakings provided in this Section 5.2, the Parties hereto agree to take or cause to be taken the following actions: (i) the prompt provision to any and all federal, supranational, state, local or non-U.S. Governmental Authority with jurisdiction over enforcement of any applicable antitrust Laws (Governmental Antitrust Authority) of information and documents requested by any Governmental Antitrust Authority or necessary, proper or advisable to permit consummation of the Merger, the Reorganization or any other transaction contemplated by this Agreement or the Ancillary Agreements, and, in any event, the Parties will use their reasonable best efforts to make all filings with such Governmental Antitrust Authorities (including all filings required under the HSR Act, with the Federal Trade Commission or the United States Department of Justice) within ten (10) Business Days from the date hereof (or, in the case of filings required with other Governmental Antitrust Authorities, within ten (10) Business Days following the identification by a Party that such filing is so required) and (ii) subject to the proviso of Section 5.2(a), use reasonable best efforts to take promptly, in the event that any permanent or preliminary injunction or other decree, order, judgment, decision or determination is entered or issued, or becomes reasonably foreseeable to be entered or issued, in any lawsuit, investigation, inquiry, action or proceeding that would make consummation, in whole or in part, of the Merger or any other transaction contemplated by this Agreement or the Ancillary Agreements unlawful or that would prevent or delay, in whole or in part, consummation of the Merger or any other transaction contemplated by this Agreement or the Ancillary Agreements, any and all steps (including the taking of any appeal, the posting of any bond or the taking of the steps contemplated by clause (ii)) necessary to vacate, modify or suspend such injunction, decree, order, judgment, decision or determination so as to permit such consummation on a schedule as close as possible to that contemplated by this Agreement and the Ancillary Agreements.

Section 5.3. Further Assurances. The Parties agree that, from time to time, whether before, at or after the Closing Date, each of them will execute and deliver such further instruments of conveyance and transfer and take such other actions as may be necessary to carry out the purposes and intents of this Agreement (including the Elan Parties stamping any documents of title as are reasonably necessary to delivery good title to the Business Assets where it is reasonably agreed by the Parties that such stamping is required). Without limiting the generality of the foregoing:

(a) Between the date hereof and the Closing (i) the Elan Parties shall, and shall cause their Subsidiaries to, take such steps as are necessary (A) to effect the Reorganization specifically as described on Schedule 1 hereto or as otherwise mutually and reasonably agreed by Elan and Alkermes and (B) ensure that New Alkermes and the New Alkermes Group Entities hold all of the assets and liabilities of the Business (including any Designated Assets and the EDDI Contracts) and no other assets or liabilities (including assets or liabilities relating to any Excluded Assets) other than the Additional Assets, and (ii) Alkermes shall take and shall cause its Subsidiaries to take such steps as are necessary to effect those portions of the Reorganization that are reflected in Schedule 1 as being consummated by Alkermes and its Subsidiaries in connection with the Reorganization and the transactions contemplated by this Agreement and the Ancillary Agreements. If the Parties agree to a deviation from Schedule 1 in accordance with this Section 5.3(a) (in which case, the Parties shall cause Schedule 1 to be revised accordingly), then for purposes of this Agreement, all references to Schedule 1 shall be deemed to be references to Schedule 1 as so revised. Elan shall make available to

Alkermes in a timely manner for

review and comment all drafts of the Reorganization Transfer Agreements or other instruments or documentation relating to the Reorganization Transfers or the Reorganization, and Elan shall not, and shall cause its Affiliates not to, execute any such Reorganization Transfer Agreements or other instruments or documentation, or take any actions or consummate any steps or transactions contemplated thereby, in each case, that is not reasonably satisfactory to Alkermes.

(b) With respect to Business Assets that are EDDI Contracts, Elan shall use its reasonable best efforts to cause EDDI to assign all of EDDI's right, title and interest in and to such contracts, free and clear of all Liens other than Permitted Liens, to the U.S. Acquired Entities or another New Alkermes Group Entity designated by Alkermes as part of the Reorganization Transfers. With respect to all Business Assets that are contracts (including EDDI Contracts), Elan shall, and shall cause its Subsidiaries to, use reasonable best efforts to obtain all necessary consents, waivers or approvals of any parties to such contracts as are required thereunder in connection with the Transactions or for any such contracts to remain in full force and effect, all of which are required to be listed on Section 3.3 of the Elan Disclosure Schedule, so as to preserve all rights of, and benefits to, the Business under such contracts from and after the Closing. If any such contracts may not be transferred without the consent, waiver or approval of any Person or as a result of any Law restricting such transfer, Elan shall, and shall cause its Subsidiaries to, use reasonable best efforts to secure such consent, waiver or approval. If, notwithstanding such reasonable best efforts, Elan and its Subsidiaries are unable to secure any such consent, waiver or approval, then no transfer of such contracts will occur if to do so without such consent, waiver or approval would constitute a breach or other contravention of the rights of such Person until such consent, waiver or approval is obtained, and any assignment or transfer shall be made subject to such consent, waiver or approval being obtained. To the extent any such consent, waiver or approval is not obtained, Elan shall, and shall cause its Subsidiaries to, continue, upon the request of Alkermes, to use its reasonable best efforts to secure such consent, waiver or approval and the Parties will mutually agree in good faith on reasonable alternative arrangements that would result in New Alkermes and the New Alkermes Group Entities receiving all the benefits of such contracts until such time as such consent, waiver or approval has been obtained and such assignment effected.

(c) Following the Closing, to the extent any assets or rights of the Business have been retained by Elan and the Continuing Affiliates, Elan shall and shall cause the Continuing Affiliates to use their best efforts to convey such assets or rights to New Alkermes, the Surviving Corporation and the New Alkermes Group Entities as promptly as practicable (and pending such conveyance to provide New Alkermes, the Surviving Corporation and the New Alkermes Group Entities with the benefit of such assets).

(d) The Parties will, and will cause their respective Subsidiaries and Affiliates to, enter into, at or prior to the Closing, each of the Ancillary Agreements to which they are intended to be a party substantially in accordance with the attached form agreements or, if no form agreement is attached and except as otherwise provided in this Agreement, in a form reasonably satisfactory to each of the Parties.

(e) As soon as reasonably practicable, Elan shall and shall cause its Subsidiaries and Affiliates to use their reasonable best efforts to terminate all sale and leaseback arrangements (including any defeasance leases) entered into by Elan or any of its Subsidiaries in respect of any Business Assets and upon such termination provide Alkermes with evidence that (i) all sale and leaseback arrangements (including any defeasance leases) entered into by Elan or its Subsidiaries in respect of any Business Assets have been terminated, (ii) all amounts due under such arrangements, including any termination payments, have been discharged in full, (iii) all security granted in relation to any such arrangements has been fully and unconditionally released, and (iv) title to such Business Assets is held by New Alkermes or a New Alkermes Group Entity, as appropriate. If any such sale and leaseback arrangements are not terminated prior to the Closing, then Elan shall and shall cause its Subsidiaries and Affiliates to continue to use their reasonable best efforts to terminate such arrangements until such termination is obtained, and the Parties will mutually agree in good faith on alternative arrangements that would result in New Alkermes and the New Alkermes Group Entities receiving all the benefits of ownership of the underlying Business Assets (to the fullest extent permitted by applicable Law)

until such time as the

termination has been effected; provided, that in no event shall any alternative arrangements or the termination of such sale and leaseback arrangements result in New Alkermes or any of its Subsidiaries being required to pay any amount or relinquish any right.

(f) Notwithstanding the foregoing, to the extent any real property or other assets or facilities, or any rights or services, are determined to be shared or used jointly by the Business, on the one hand, and the businesses of Elan and its Subsidiaries other than the Business, on the other hand, the Parties will use their reasonable best efforts to reach equitable arrangements under which such real property, assets, facilities, rights and services will cease to be shared at or prior to the Closing. If no such arrangement is reached, the Parties will mutually agree in good faith on reasonable transition arrangements on reasonable commercial terms (in addition to those set forth in the Transition Services Agreement) that will allow such sharing to cease as soon as practicable following the Closing (except to the extent the Parties agree on longer term sharing arrangements, which shall be agreed on an arm s-length basis).

(g) As soon as reasonably practicable following the Closing, to the extent any Transferred Books and Records are not delivered at the Closing pursuant to and as permitted by Section 2.13(iii), Elan shall, and shall cause the Continuing Affiliates to, deliver such Transferred Books and Records to New Alkermes. In addition, to the extent that certain Books and Records held by Elan or any Continuing Affiliate contain information relating to the Business but such Books and Records relate primarily to businesses other than the Business, such Books and Records shall be retained by Elan or any Continuing Affiliate, who shall, to the extent requested to do so, provide copies of the relevant portions thereof to New Alkermes.

(h) Prior to the Closing, Elan shall, and shall cause its Subsidiaries to, take such steps as are reasonably requested by Alkermes to provide for the governance of New Alkermes and the New Alkermes Group Entities from and after the Effective Time, including to (i) form appropriate committees of the board of directors of New Alkermes or any New Alkermes Group Entity, (ii) nominate and cause to be elected, effective as of the Effective Time, such directors of the New Alkermes Group Entities as Alkermes may designate, (iii) appoint, effective as of the Effective Time, to any committee of the board of directors of New Alkermes or any New Alkermes Group Entity such directors as Alkermes may designate, (iv) adopt and approve such committee charters, codes of conduct or other guidelines, principles or codes of conduct for New Alkermes and the New Alkermes Group Entities as Alkermes may reasonably require, (v) adopt and approve such employee benefit plans, including equity-based plans, of New Alkermes and the New Alkermes Group Entities as Alkermes may reasonably require and (vi) take such other corporate actions and adopt such other resolutions of the board of directors of New Alkermes or of the shareholders of New Alkermes as Alkermes may reasonably request, subject to the approval of Elan, which shall not be unreasonably withheld, delayed or conditioned.

(i) Prior to the Closing, Elan shall, or shall cause its Subsidiaries to, use their reasonable best efforts to provide to Alkermes: (i) written confirmation that the deeds of transfer in respect of the Monksland industrial premises and the castle at Moyvannon (the Deeds of Transfer) have been duly stamped, either at the ad valorem rate or adjudged exempt under inter-companies relief; provided, that if, despite the use of reasonable best efforts, such stamping is not available at the Closing, the relevant amounts of stamp duty should be placed in an escrow account agreed to by Elan and Alkermes, each acting in good faith, pending such stamping; (ii) written confirmation that the Deeds of Transfer have been lodged in the Irish Land Registry, with a copy of the dealing and an undertaking to assist New Alkermes and its Subsidiaries with Irish Land Registry queries when and if made; provided, if such copy is not available at the Closing, the appropriate dealing shall be prepared (albeit not lodged) and all Irish Land Registry fees in relation thereto shall have been paid by Elan; (iii) definitive confirmation from Galway County Council it is willing to proceed upon the basis of a compulsory acquisition agreement entered into by it with EPIL, notwithstanding that EPIL does not have documentary title to the lands in question; and (iv) evidence that Elan or one of its Subsidiaries has applied to the relevant local authority for confirmation that the Monksland industrial premises are served by public roads.

If any such deductions or withholdings are required by Law, the payer shall be obliged to pay to the recipient such sum as will, after such deduction or withholding has been made, leave the recipient with the same amount as it would have been entitled to receive, in the absence of any such requirement to make a deduction or withholding. The Parties agree to cooperate in a commercially reasonable manner to ensure that any Relevant Indemnity Payment is made to the appropriate Alkermes Tax Indemnitee, Alkermes Indemnified Party, or Elan Indemnified Party, as applicable, (each, an Indemnity Recipient) to avoid the imposition of any Tax or withholding Tax on the Relevant Indemnity Payments to the extent possible, provided that the Indemnity Recipient shall not be required to take any action that would cause it to incur any additional costs, expenses, Taxes or Covered Losses that it is not indemnified for pursuant to Section 7.2(a).

(b) Except with respect to matters covered in Section 7.6(c), in the event that an Alkermes Tax Indemnitee actually realizes any Tax refunds or credits to Taxes (collectively, Tax Benefits) (determined on a with-or-without basis) attributable to amounts for which it was indemnified or is entitled to indemnification in accordance with Article VII or Article IX hereof, such party will (i) in the case of Tax Benefits actually realized and attributable to amounts for which it was indemnified, promptly pay the Elan Tax Indemnitor the amount of the Tax Benefits so realized, and (ii) in the case of all other Tax Benefits actually realized, offset such amounts against any indemnification payment then due from the Elan Tax Indemnitors.

(b) The Alkermes Indemnified Parties shall not be entitled to assert any indemnification pursuant to clause (i) of Section 9.2(a) after the date on which such representation and warranty ceases to survive; provided, that if on or prior to the date such representation ceases to survive, a Notice of Claim shall have been given to Elan pursuant to Section 9.4 for such indemnification, the Alkermes Indemnified Parties shall continue to have the right to be indemnified with respect to such indemnification claim until such claim for indemnification has been satisfied or otherwise resolved as provided in this Article IX. employee or consultant by New Alkermes or its Subsidiaries in respect of the Business after the Effective Time, including (x) any benefit in the nature of severance pay arising after the consummation of the transactions contemplated by this Agreement, (y) with respect to any employee or consultant whose employment or consulting service is transferred (or who claims that his or her employment or consulting services is transferred) pursuant to the Transfer Regulations, arising out of any failure by Alkermes or any of its Subsidiaries to comply with obligations under the Transfer Regulations from and after the Effective Time, including all costs, to include remuneration costs, incurred as a result of Elan being compelled to provide severance or to re-employ any such person or (z) any claim to pension or death benefits in respect of services after the Effective Time, or (B) any action or omission of Alkermes or any of its Subsidiaries with respect to employees, or related to any Post-Closing Employee Plan.

(b) The Elan Indemnified Parties shall not be entitled to assert any indemnification pursuant to clause (i) of Section 9.3(a) after the date on which such representation and warranty ceases to survive; provided, that if on or prior to the date such representation ceases to survive, a Notice of Claim shall have been given to Alkermes pursuant to Section 9.4 hereof for such indemnification, the Elan Indemnified Parties shall continue to have the right to be indemnified with respect to such indemnification claim until such claim for indemnification has been satisfied or otherwise resolved as provided in this Article IX. The Elan Indemnified Parties shall not be entitled to assert any indemnification pursuant to clause (ii) of Section 9.3(a) after the seventh (7th) anniversary of the Closing Date; provided, that if on or prior to the seventh (7th) anniversary of the Closing Date, a Notice of Claim shall have been given to Alkermes pursuant to Section 9.4 hereof for such indemnification, the Elan Indemnified Parties shall continue to have the right to be indemnified with respect to such indemnification claim until such claim for indemnification has been satisfied or otherwise resolved as provided in this Article IX.

Section 9.4. Indemnification Procedures. (a) Upon obtaining knowledge of any claim or demand which has given rise to, or is expected to give rise to, a claim for indemnification hereunder, New Alkermes or Elan, as the case may be, shall promptly (and in any event within thirty (30) days) give written notice (Notice of Claim) of such claim or demand to the other. The party giving such Notice of Claim shall furnish to the other party in reasonable detail such information as the Alkermes Indemnified Parties or the Elan Indemnified Parties, as the case may be, may have with respect to such indemnification claim (including copies of any summons, complaint or other pleading which may have been served on it and any written claim, demand, invoice, billing or other document evidencing or asserting the same). Subject to the limitations set forth in Sections 9.2(b) and 9.3(b), no failure or delay by New Alkermes or Elan in the performance of the foregoing shall reduce or otherwise affect the obligation of Elan or Alkermes, respectively, to indemnify and hold the Alkermes Indemnified Parties or the Elan Indemnified Parties, respectively, harmless, except to the extent that such failure or delay shall have actually adversely affected the ability of Alkermes or Elan, as the case may be, to defend against or satisfy any Covered Losses for which the party seeking indemnification is entitled to indemnification hereunder.

(b) If the claim or demand set forth in the Notice of Claim given pursuant to Section 9.4(a) hereof is a claim or demand asserted by a third party, the party receiving such Notice of Claim shall have fifteen (15) days after the date on which Notice of Claim is given to notify the party giving such Notice of Claim in writing of its election to defend such third party claim or demand on behalf of the party seeking indemnification. If the party receiving such Notice of Claim elects, on behalf of Alkermes or Elan, as the case may be, to defend such third party claim or demand, the party seeking indemnification shall make available to the indemnifying party and its agents and representatives all records and other materials which are reasonably required in the defense of such third party claim or demand and shall otherwise cooperate with, and assist the indemnifying party in the defense of, such third party claim or demand, and so long as Elan or Alkermes, as the case may be, is defending such third party claim in good faith, the Alkermes Indemnified Parties or Elan Indemnified Parties, as applicable, shall not pay, settle or compromise such third party claim or demand. In such case, Alkermes or Elan, as the case may be, may pay, settle or compromise such third party claim or demand (i) with the written consent of Elan or Alkermes, on behalf of the Elan Indemnified Parties or the Alkermes Indemnified Parties, as the case may be, or (ii) without such consent, so long as such settlement includes

(A) an unconditional release of the Elan Indemnified Parties or the Alkermes Indemnified Parties, as

A-70

the case may be, from all Liability in respect of such claim or litigation, (B) does not subject the indemnified parties to any injunctive relief or other equitable remedy, and (C) does not include a statement or admission of fault, culpability or failure to act by or on behalf of any indemnified party. If the party receiving such Notice of Claim elects to defend such third party claim or demand, (i) such assumption will conclusively establish for purposes of this Agreement that the claims described in such Notice of Claim are within the scope of and subject to indemnification hereunder and (ii) the Alkermes Indemnified Party or the Elan Indemnified Party, as the case may be, shall have the right to participate in the defense of such third party claim or demand, at such indemnified party's own expense. In the event, however, that such indemnified party reasonably determines that representation by counsel to the indemnifying parties of both such indemnifying parties and the indemnified party could reasonably be expected to present such counsel with a conflict of interest, then the indemnified party may employ separate counsel to represent or defend it in any such action or proceeding and the indemnifying parties will pay the fees and expenses of such counsel; provided, that Elan or Alkermes, as the case may be, shall not, in connection with any proceeding or related proceedings in the same jurisdiction, be liable for the fees and expenses of more than one separate firm of attorneys (in addition to reasonably necessary local counsel) at any time for all Alkermes Indemnified Parties or Elan Indemnified Parties, as the case may be. If the party receiving such Notice of Claim does not elect to defend such third party claim or demand or does not defend such third party claim or demand in good faith, the Alkermes Indemnified Parties or Elan Indemnified Parties, as the case may be, shall have the right, in addition to any other right or remedy they may have hereunder, at the expense of Elan or Alkermes, as the case may be, to defend such third party claim or demand; provided, that (i) such Alkermes Indemnified Parties or Elan Indemnified Parties, as the case may be, shall not have any obligation to participate in the defense of, or defend, any such third party claim or demand; (ii) such Alkermes Indemnified Parties or Elan Indemnified Parties, as the case may be, defense of or participation in the defense of any such third party claim or demand shall not in any way diminish or lessen the obligations of Elan or Alkermes, as applicable, under the agreements of indemnification set forth in this Article IX; and (iii) such Alkermes Indemnified Parties or Elan Indemnified Parties, as the case may be, may not settle any claim without the consent of Elan or Alkermes, respectively (which consent shall not be unreasonably withheld, conditioned or delayed).

(c) With respect to any third party claim subject to indemnification under this Article IX: (i) both the party receiving such Notice of Claim and the Elan Indemnified Parties or Alkermes Indemnified Parties, as the case may be, shall keep the other Persons reasonably informed of the status of such third party claim and any related Actions at all stages thereof where such Person is not represented by its own counsel, and (ii) the Parties agree to render to each other such assistance as they may reasonably require of each other and to cooperate in good faith with each other in order to ensure the proper and adequate defense of any third party claim; provided, that the party receiving such Notice of Claim shall pay the reasonable out-of-pocket expenses incurred in providing such cooperation (including reasonable legal fees and disbursements) by the Party providing such cooperation but shall not be required to compensate such Party for time spent by its officers, directors, employees or agents in such cooperation.

(d) Except for third party claims being defended in good faith, (i) Elan shall satisfy its obligations under this Article IX in respect of a valid claim for indemnification hereunder which is not contested by Elan in good faith in cash within 30 days after the date on which Notice of Claim is given and (ii) Alkermes shall satisfy its obligations under this Article IX in respect of a valid claim for indemnification hereunder which is not contested by Alkermes in good faith in cash within 30 days after the date on which Notice of Claim is given.

Section 9.5. Limitations; Additional Procedures. (a) Elan shall have no liability for indemnification pursuant to clause (i) of Section 9.2(a) with respect to Covered Losses for which indemnification is provided thereunder, (i) that are De Minimis Damages, (ii) unless the aggregate of all Covered Losses (other than De Minimis Damages) exceeds \$5,000,000 (the Threshold), in which case Elan shall be liable for all such Covered Losses (other than De Minimis Damages), including the amount of the Threshold or (iii) in excess of \$500 million in the aggregate.

(b) Alkermes shall have no liability for indemnification pursuant to clause (i) of Section 9.3(a) with respect to Covered Losses for which indemnification is provided thereunder, (i) that are De Minimis Damages,

(ii) unless the aggregate of all Covered Losses (other than De Minimis Damages) exceeds the Threshold, in which case Alkermes shall be liable for all such Covered Losses (other than De Minimis Damages), including the amount of the Threshold or (iii) in excess of \$500 million in the aggregate.

(c) For purposes of any indemnity obligation under this Article IX with respect to any breach of any covenant or obligation, or any representation or warranty contained in this Agreement, any express qualifications or limitations set forth in such covenant or obligation, or representation or warranty, as to materiality, material adverse effect, Business Material Adverse Effect or Alkermes Material Adverse Effect (or other similar materiality qualifiers) contained therein, shall be disregarded.

(d) The right to indemnification, reimbursement or other remedy based upon the representations, warranties, covenants and agreements contained in this Agreement shall not be affected by any investigation conducted with respect to, or any knowledge actually acquired at any time, whether before or after the execution and delivery of this Agreement or the Closing Date, with respect to the accuracy or inaccuracy of or compliance with any such representation, warranty, covenant or agreement.

(e) Notwithstanding anything herein to the contrary, no Elan Indemnified Person or Alkermes Indemnified Person shall be entitled to any indemnification or reimbursement under any provisions of this Agreement for any amount to the extent such Person or its Affiliates has been indemnified or reimbursed for such amount under any other provision of this Agreement or any Ancillary Agreement or under any insurance policy.

(f) In no event shall Covered Losses be subject to indemnification under Sections 9.2 or 9.3 to the extent such Covered Losses were included or taken into account in the calculation of the Final Modified Working Capital or Final Net Cash Amount.

(g) Except in the case of fraud, from and after the Closing, the exclusive remedy for any Elan Indemnified Person or Alkermes Indemnified Person for Covered Losses or other monetary damages arising from a breach of this Agreement or otherwise relating to the transactions contemplated by this Agreement (except as otherwise provided in any Ancillary Agreement) shall be the indemnification provided under this Article IX or Article VII. There shall be no remedy at law or otherwise for De Minimis Damages arising out of the events or circumstances described in clause (i) of Sections 9.2(a) or 9.3(a). Nothing in this Agreement shall interfere with or impede a party's right to seek equitable remedies (including specific performance or injunctive relief) to enforce any covenant in this Agreement or any Ancillary Agreement.

(h) NOTWITHSTANDING ANYTHING TO THE CONTRARY IN THIS AGREEMENT, IN NO EVENT SHALL ANY PARTY BE LIABLE FOR (A) ANY PUNITIVE DAMAGES OR (B) ANY LOST PROFITS OR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES; provided, however, that if an Elan Indemnified Person or Alkermes Indemnified Person is held liable to a third party based on any final judgment of a court of competent jurisdiction for any such Covered Losses and the applicable indemnifying party is obligated to indemnify such Person for the matter that gave rise to such Covered Losses, then such indemnifying party shall be liable for, and obligated to reimburse such Elan Indemnified Person or Alkermes Indemnified Person, as the case may be, for such Covered Losses.

Section 9.6. Exclusive Tax Indemnification. Notwithstanding anything to the contrary in this Article IX, the above provisions of this Article IX shall not apply to Tax indemnification matters, which matters shall instead be governed by Article VII.

(c) either Alkermes or Elan if any Governmental Authority shall have issued an order, decree or ruling or taken any other action (which such Party shall have used its reasonable best efforts to resist, resolve or lift, as applicable, in accordance with Section 5.2) permanently restraining, enjoining or otherwise prohibiting the Merger or the Reorganization, and such order, decree, ruling or other action shall have become final and nonappealable;

(d) by either Alkermes or Elan if the Alkermes Shareholders Approval shall not have been obtained by reason of the failure to obtain the Required Alkermes Vote upon the taking of such vote(s) at a duly held meeting of shareholders of Alkermes, or at any adjournment thereof; or

(f) By Alkermes, if Elan shall have breached or failed to perform in any material respect any of its representations, warranties, covenants or other agreements contained in this Agreement, which breach or failure (A) would render the condition in Section 8.2(a) or Section 8.2(b) incapable of being satisfied, and (B) is incapable of being cured or has not been cured by Elan within 20 calendar days after written notice has been given by Alkermes to Elan of such breach or failure to perform; or

(g) By Elan, if Alkermes shall have breached or failed to perform in any material respect any of its representations, warranties, covenants or other agreements contained in this Agreement, which breach or failure (A) would render the condition in Section 8.3(a) or Section 8.3(b) incapable of being satisfied, and (B) is incapable of being cured or has not been cured by Alkermes within 20 calendar days after written notice has been given by Elan to Alkermes of such breach or failure to perform

Section 10.2. Procedure and Effect of Termination. In the event of termination of this Agreement by either or both of Elan and Alkermes pursuant to Section 10.1, written notice thereof shall forthwith be given by the terminating Party to the other, and this Agreement shall thereupon terminate and become void and have no effect, and the transactions contemplated hereby shall be abandoned without further action by the Parties, except that Sections 5.1, 5.5, and 9.5(h), and Articles I, X and XI shall survive the termination of this Agreement; provided, that, except as set forth in Section 10.3, such termination shall not relieve any Party hereto of any liability for any breach of this Agreement.

Section 10.3. Termination Payments. (a) Elan shall pay to Alkermes the Alkermes Termination Fee by wire transfer to an account of Alkermes in immediately available funds within two (2) Business Days of termination in the event that this Agreement is terminated in accordance with Section 10.1(f) or, by Elan, in accordance with Section 10.1(b), and, in the case of this clause (ii), at any time on or after the date of this Agreement and prior to such termination any EDT Acquisition Proposal shall have been made and not withdrawn or formally (and, if such EDT Acquisition Proposal was publicly made, publicly) rejected by Elan, in each case, prior to such termination.

(ii), at any time on or after the date of this Agreement and prior to such termination any Alkermes Acquisition Proposal shall have been made and not withdrawn or formally (and, if such Alkermes Acquisition Proposal was publicly made, publicly) rejected by Alkermes, in each case, prior to such termination.

Board of Directors
Alkermes, Inc.

Waltham, MA 02451

Members of the Board:

We understand that Elan Corporation, plc (Elan), Antler Science Two Limited (New Alkermes), Elan Science Four Limited (Holdco), EDT Pharma Holdings Limited (Interco), EDT US Holdco Inc. (U.S. Holdco), Antler Acquisition Corp, a wholly owned subsidiary of U.S. Holdco (Merger Sub), and Alkermes, Inc. (Alkermes) propose to enter into a Business Combination Agreement and Plan of Merger, substantially in the form of the draft dated May 7, 2011 (the

Agreement) which provides for, among other things: (i) the reorganization of certain businesses and subsidiaries of Elan (the Reorganization), including the transfer by Elan and one of its subsidiaries to U.S. Holdco of 100% of all equity interests in the direct and indirect subsidiaries relating to, as well as the assets and properties currently primarily used or held for use in, the entire global drug delivery technologies business of Elan and its affiliates (the

Business), other than the Excluded Assets, but including the Additional Assets, and (ii) the merger (the Merger and together with the Reorganization and the other transactions contemplated by the Agreement, the Transactions) of Merger Sub with and into Alkermes. Pursuant to the Merger, each outstanding share of common stock, par value \$0.01 per share, and the non-voting common stock, par value \$0.01 per share (the Alkermes Common Stock) of Alkermes, other than shares held in treasury, will be converted into the right to receive one ordinary share, with a nominal value of \$0.01 per share, of New Alkermes (the New Alkermes Ordinary Shares). In addition, the Transactions will include the issuance of 31,900,000 New Alkermes Ordinary Shares (the Stock Consideration) to the Elan Shareholder and a payment from or on behalf of Alkermes of \$500,000,000 in cash, subject to adjustment in certain circumstances (the Cash Consideration and together with the Stock Consideration, the Consideration). We further understand that Elan, the Elan Shareholder and New Alkermes will enter into a shareholder s agreement in the form attached to the Agreement (the Shareholder s Agreement). The terms and conditions of the Transactions are more fully set forth in the Agreement. Capitalized terms used herein but not otherwise defined shall have the meaning ascribed to such term in the Agreement.

You have asked for our opinion as to whether the Consideration to be paid by Alkermes pursuant to the Agreement is fair from a financial point of view to Alkermes.

For purposes of the opinion set forth herein, we have:

- 1) Reviewed certain publicly available financial statements and other business and financial information of the Business and Alkermes, respectively;
- 2) Reviewed certain internal financial statements and other financial and operating data concerning the Business and Alkermes, respectively;
- 3) Reviewed certain financial projections prepared by the managements of Alkermes and Elan concerning the Business and certain financial projections prepared by the management of Alkermes concerning Alkermes;

6) Discussed the past and current operations and financial condition and the prospects of Alkermes, including information relating to certain strategic, financial, tax and operational benefits anticipated from the Transactions, with the management of Alkermes;

7) Reviewed the pro forma impact of the Transactions on Alkermes earnings, cash flow, consolidated capitalization and financial ratios;

8) Reviewed the reported prices and trading activity for Alkermes Common Stock;

9) Compared the financial performance of the Business and Alkermes with that of certain other publicly-traded companies comparable to the Business and Alkermes, respectively;

10) Participated in certain discussions and negotiations among representatives of Elan and Alkermes and their financial and legal advisors;

11) Reviewed the Agreement, the draft commitment letter from certain lenders to Alkermes substantially in the form of the draft dated May 7, 2011 (the Commitment Letter), the Shareholders Agreement and certain related documents; and

12) Performed such other analyses and considered such other factors as we have deemed appropriate.

We have assumed and relied upon, without independent verification, the accuracy and completeness of the information that was publicly available or supplied or otherwise made available to us by Alkermes and Elan, and formed a substantial basis for this opinion. With respect to the financial projections, including information relating to certain strategic, financial and operational benefits anticipated from the Transactions, we have assumed that they have been reasonably prepared on bases reflecting the best currently available estimates and judgments of the respective managements of Alkermes and Elan of the future financial performance of the Business and of the management of Alkermes of the future financial performance of Alkermes. In addition, we have assumed that the Transactions will be consummated in accordance with the terms set forth in the Agreement without any waiver, amendment or delay of any terms or conditions, including without limitation, that Alkermes will obtain financing in accordance with the terms set forth in the Commitment Letter. We have relied upon, without independent verification, the assessment by the management of Alkermes of: (i) the strategic, financial, tax and other benefits expected to result from the Transactions; (ii) the timing and risks associated with the integration of the Business with Alkermes; (iii) the ability to retain key employees of the Business and Alkermes, respectively and (iv) the validity of, and risks associated with, the Business and Alkermes existing and future technologies, intellectual property, products, services and business models. Morgan Stanley has assumed that in connection with the receipt of all the necessary governmental, regulatory or other approvals and consents required for the proposed Transactions, no delays, limitations, conditions or restrictions will be imposed that would have a material adverse effect on the contemplated benefits expected to be derived in the proposed Transactions. We are not legal, tax or regulatory advisors. We are financial advisors only and have relied upon, without independent verification, the assessment of Alkermes and its legal, tax or regulatory advisors with respect to legal, tax or regulatory matters. We have not made any independent valuation or appraisal of the assets or liabilities of the Business or Alkermes, nor have we been furnished with any such valuations or appraisals. Our opinion is necessarily based on financial, economic, market and other conditions as in effect on, and the information made available to us as of, the date hereof. Events occurring after the date hereof may affect this opinion and the assumptions used in preparing it, and we do not assume any obligation to update, revise or reaffirm this opinion.

We have acted as financial advisor to the Board of Directors of Alkermes in connection with this transaction and will receive a fee for our services, a substantial portion of which is contingent upon the closing of the Transactions. In

addition, Morgan Stanley or one or more of its affiliates is providing to Alkermes a portion of the financing required in connection with the Transactions, for which Morgan Stanley will receive additional fees from Alkermes. Morgan Stanley or one or more of its affiliates may also provide financing services to Elan for purposes that are unrelated to the Transactions, including restructuring or refinancing Elan's existing debt, in one or more transactions to be executed separately from, and without receipt of internal strategic information from Elan regarding, the Transactions. In the two years prior to the

B-2

Table of Contents

date hereof, we have provided financial advisory and financing services for Alkermes and Elan and have received fees in connection with certain such services. Morgan Stanley may also seek to provide such services to New Alkermes and Elan in the future and expects to receive fees for the rendering of these services.

Please note that Morgan Stanley is a global financial services firm engaged in the securities, investment management and individual wealth management businesses. Our securities business is engaged in securities underwriting, trading and brokerage activities, foreign exchange, commodities and derivatives trading, prime brokerage, as well as providing investment banking, financing and financial advisory services. Morgan Stanley, its affiliates, directors and officers may at any time invest on a principal basis or manage funds that invest, hold long or short positions, finance positions, and may trade or otherwise structure and effect transactions, for their own account or the accounts of its customers, in debt or equity securities or loans of Alkermes, Elan, or any other company, or any currency or commodity, that may be involved in the Transactions, or any related derivative instrument.

This opinion has been approved by a committee of Morgan Stanley investment banking and other professionals in accordance with our customary practice. This opinion is for the information of the Board of Directors of Alkermes and may not be used for any other purpose without our prior written consent, except that a copy of this opinion may be included in its entirety in any filing Alkermes is required to make with the Securities and Exchange Commission in connection with the Transactions if such inclusion is required by applicable law. In addition, this opinion does not in any manner address the prices at which the New Alkermes Ordinary Shares will trade at any time, including following consummation of the Transactions, and Morgan Stanley expresses no opinion or recommendation as to how the shareholders of Alkermes should vote at the shareholders' meeting to be held in connection with the Transactions.

Based on and subject to the foregoing, we are of the opinion on the date hereof that the Consideration to be paid by Alkermes pursuant to the Agreement is fair from a financial point of view to Alkermes.

Very truly yours,

- (xi) make any public statement or disclosure inconsistent with the foregoing;
- (xii) assist, advise, induce or attempt to induce (or provide any confidential information of the Company or any of its Subsidiaries for the purpose of assisting, advising, inducing or attempting to induce) any third party with respect to, or take any affirmative action to do, any of the foregoing; or
- (xiii) propose or seek an amendment or waiver of any of the provisions of this Section 4.1.

(b) This Section 4.1 shall not, in any way, prevent, restrict, encumber or limit (i) the Shareholder Parent and its Affiliates (including the Shareholder) from exercising their respective rights, performing their respective obligations or otherwise consummating the transactions contemplated by this Agreement, the Merger Agreement and any other contract or agreement contemplated by the Merger Agreement, in each case in accordance with the terms hereof or thereof, including exercising the Shareholder's rights pursuant to Article III, Section 4.3, Section 4.4, Article V (including Section 5.1(d)(i)(B)) and Article VI or (ii) any Shareholder Designee then serving as a Director from exercising and performing his or her duties (fiduciary

and otherwise) as a Director in accordance with the Company's Organizational Documents, all codes and policies of the Company and all laws, rules, regulations and codes of practice, in each case as may be applicable and in effect from time to time.

(c) If, at any time during the Standstill Period, (i) the Company enters into definitive documentation providing for a transaction that, if consummated, would constitute a Change of Control with respect to the Company; (ii) the Board publicly announces its determination that (A) it will sell or dispose of, or has commenced a process by which it proposes to sell or dispose of, the Company or all or substantially all of the assets of the Company and its Subsidiaries, taken as a whole, (B) will consider offers or proposals for a transaction that, if consummated, would result in a Change of Control with respect to the Company, or (C) the Company or all or substantially all of the assets of the Company and its Subsidiaries, taken as a whole, is for sale; or (iii) a tender, takeover, exchange or similar offer that, if consummated, would constitute a Change of Control with respect to the Company is commenced or the subject of an announcement of a firm intention to be made or commenced by any Person or Group and either (A) the Shareholder Parent Beneficially Owns Voting Securities representing less than fifteen percent (15%) of the then outstanding Voting Securities or (B) the Board either (x) publicly recommends that shareholders of the Company tender their Voting Securities to the Person or Group making such offer or (y) fails to recommend that the shareholders of the Company reject such offer, in each case within ten (10) Business Days after the date of commencement or posting of such offer, then, in any such case the provisions of Section 4.1(a) shall terminate immediately and all other provisions of this Agreement shall remain in full force and effect; provided, however, that if, (x) with respect to clause (i) of this sentence, such transaction is terminated without being consummated, (y) with respect to clause (ii) of this sentence, the Board has publicly announced that it has rescinded such determination or (z) with respect to clause (iii) of this sentence, such offer or similar transaction is withdrawn, terminated or expires without being consummated or, if the Shareholder Parent Beneficially Owns Voting Securities representing at least fifteen percent (15%) of the then outstanding Voting Securities and the Board publicly recommends that the shareholders of the Company reject such offer, then, in any such case all provisions of Section 4.1(a) previously terminated shall be reinstated and shall be in full force and effect in accordance with their terms from and after the date of such termination, public announcement, withdrawal or expiration, as the case may be; provided, further, that such reinstatement shall not prevent the Shareholder Parent or any of its Affiliates from continuing to pursue any activities described in this Section 4.1(c) that were definitively commenced after the date of such termination, but at or prior to the date of such reinstatement.

(d) Notwithstanding anything to the contrary in this Section 4.1, nothing herein shall prohibit or prevent the Shareholder Parent or any of its Affiliates from acquiring securities of, or from entering into any merger or other business combination with, another Person that Beneficially Owns any Voting Securities or the securities of any successor to, or Person in control of, the Company; provided, however, that (i) such Person shall have acquired such Voting Securities or other securities other than in contemplation of the Shareholder Parent or any of its Affiliates acquiring the securities of, or entering into any such merger or other business combination with, such Person; (ii) the Beneficial Ownership of such Voting Securities or other securities by such Person shall not be a primary reason for the Shareholder Parent or any of its Affiliates acquiring the securities of, or entering into any such merger or other business combination with, such Person; and (iii) the Beneficial Ownership by the Shareholder or the Shareholder Parent or such Person of the Voting Securities held by such Person following the acquisition, merger or other business combination would not, when combined with the Beneficial Ownership by the Shareholder or the Shareholder Parent or such Person of Voting Securities held by the Shareholder Parent or one of its Affiliates, result in the Shareholder Parent or any of its Affiliates or such Person being required, pursuant to the Companies Acts, to commence an offer to acquire additional Voting Securities.

(e) Notwithstanding anything to the contrary in this Section 4.1, nothing herein shall prevent the Chairman and/or the Chief Executive Officer of the Shareholder Parent from communicating with the Chairman and/or the Chief Executive Officer of the Company (including for purposes of requesting permission to make any proposal or to take any action

prohibited by this Section 4.1); provided that (i) such communication is made confidentially, does not reasonably require public disclosure by the Company, the Shareholder Parent or any of their respective Affiliates and does not reasonably require the issuance of a

public response by the Company or any of its Affiliates; and (ii) neither the fact that such communication or request has been made or any of the terms thereof or facts with respect thereto are publicly disclosed, directly or indirectly, by the Shareholder Parent or any of its Affiliates.

Section 4.2 Attendance at Meetings. For so long as the Shareholder Parent Beneficially Owns Voting Securities representing at least the Ownership Threshold, the Shareholder Parent shall cause the Shareholder to, and the Shareholder shall, cause all Shareholder Shares then owned by the Shareholder to be present, in person or by proxy, at any meeting of the shareholders of the Company occurring at which an election of Directors is to be held, so that all such Shareholder Shares shall be counted for the purpose of determining the presence of a quorum at such meeting.

Section 4.3 Voting.

(a) At each meeting of shareholders of the Company occurring during the period from the Closing Date until the one (1) year anniversary of the Closing Date, the Shareholder Parent shall cause the Shareholder to, and the Shareholder shall, vote all Shareholders Shares then owned by it (to the extent entitled to vote thereon) in accordance with the recommendation of the Board with respect to any business or proposal on which the shareholders of the Company are entitled to vote.

(b) Following the one (1) year anniversary of the Closing Date, the Shareholder Parent shall cause the Shareholder to, and the Shareholder shall, continue to vote as described in paragraph (a) immediately above, except that, if, at any date following the one (1) year anniversary of the Closing Date, either (i) the Shareholder Parent Beneficially Owns Voting Securities representing fifteen percent (15%) or less of the then outstanding Voting Securities of the Company or (ii) the volume weighted average of the daily market prices (determined in accordance with the definition of Market Value) of the Ordinary Shares over the thirty (30) consecutive trading days immediately preceding, but not including, such date is not at least equal to \$[insert dollar amount that equals fifty percent (50%) of the closing price of Alkermes common stock on the date of announcement of the Merger Agreement], as appropriately adjusted for any stock split or other similar recapitalization or reclassification of the Ordinary Shares after the Closing Date, the Shareholder shall thereafter be free to vote or abstain from voting any or all Shareholder Shares then owned by it in any manner it shall determine, in its absolute and sole discretion, in respect of, any business or proposal (whether initiated by any shareholder or otherwise) coming before any meeting of shareholders of the Company.

Section 4.4 Preemption Rights. Except as expressly set forth in this Section 4.4, each of the Shareholder and the Shareholder Parent hereby irrevocably waives, and the Shareholder Parent shall cause any subsequent Permitted Transferee to which any Shareholder Shares are Transferred after the Closing Date to waive, at all times during the Board Right Period (but not at any time thereafter), any preemption rights to which it would otherwise be entitled as a result of its ownership or holding of Shareholder Shares under the Companies Acts or the Organizational Documents of the Company in respect of any issuance or offering of equity securities by the Company; provided, however, that, none of the Shareholder, the Shareholder Parent or any subsequent Permitted Transferee of any Shareholder Shares hereby waives, by virtue of this Section 4.4 or any other provision of this Agreement, and nothing in this Section 4.4 or any other provision of this Agreement shall constitute a waiver of, or otherwise operate to waive, any preemption right if and solely to the extent that (i) other shareholders of the Company have any preemption rights in respect of such issuance or offering; and (ii) such issuance or offering is made or completed for consideration per security that is, at such time, less than the Market Value thereof or, if there is no Market Value, the fair market value thereof.

ARTICLE V

TRANSFER RESTRICTIONS

Section 5.1 Transfer Restrictions.

(a) The right of the Shareholder to Transfer any Shareholder Shares is subject to the restrictions set forth in this Article V. No Transfer of Shareholder Shares by the Shareholder may be effected except in compliance with the restrictions set forth in this Article V and with the requirements of the Securities Act and

C-13

any other applicable securities laws. Any attempted Transfer in violation of this Agreement shall be of no effect and null and void, regardless of whether the purported transferee has any actual or constructive knowledge of the Transfer restrictions set forth in this Agreement, and shall not be recorded on the stock transfer books of the Company.

(b) During the Transfer Limitation Period, the Shareholder shall not, and the Shareholder Parent shall cause the Shareholder not to, Transfer any Shareholder Shares without the prior written consent of the Company, except:

(i) following the six (6) month anniversary of the Closing Date, the Shareholder may Transfer up to but no more than forty and three-quarters percent (40.75%) of the Shareholder Shares in a marketed underwritten registered offering pursuant to Article VI;

(ii) from and after the date that is ninety (90) calendar days after, and conditioned upon, the completion of its Transfer under clause (i) of this Section 5.1(b) (and irrespective of the number of Shareholder Shares actually Transferred thereunder), the Shareholder may Transfer up to but no more than thirty-one and one-half percent (31.5%) of the Shareholder Shares in a marketed underwritten registered offering pursuant to Article VI.

(c) Following the Transfer Limitation Period, the Shareholder may, subject to Section 5.1(e) and Section 5.2(c), Transfer the Shareholder Shares, in whole at any time or in part from time to time, without the prior consent of the Company and without restriction; provided, however, that:

(i) any Transfer of Shareholder Shares effected pursuant to an SEC-registered offering (including an underwritten registered offering) shall be subject to the requirements of Article VI;

(ii) in connection with any Transfer of Shareholder Shares (A) effected pursuant to a Directed Offering or a privately-negotiated transaction not subject to the registration requirements of the Securities Act, in each case in which the Shareholder (or any of its Representatives) negotiates the terms of such Transfer directly with the third party purchasers of such Shareholder Shares or (B) effected in accordance with Rule 144 under the Securities Act, in each case the Shareholder shall not knowingly Transfer to any Person or Group (whether such Person or Group is purchasing Shareholder Shares for its or their own account(s) or as fiduciary on behalf of one or more accounts) in a single Transfer or series of related Transfers, Shareholder Shares representing more than six and one-quarter percent (6.25%) of the Voting Securities then outstanding (calculated on the basis of the aggregate number of Voting Securities outstanding, as contained in the then most recently-available filing by the Company with the SEC) and the Shareholder shall, to the extent reasonably practicable, (x) request that each Person to which any such Shareholder Shares were Transferred provide (but the Shareholder shall not be obligated to obtain) reasonable confirmation thereof and (y) inform any underwriters or brokers engaged by the Shareholder in connection with any such Transfer of the provisions of this Section 5.1(c)(ii); and

(iii) in connection with any Transfer of Shareholder Shares (A) effected pursuant to a Directed Offering or a privately-negotiated transaction not subject to the registration requirements of the Securities Act, in each case in which the Shareholder (or any of its Representatives) negotiates the terms of such Transfer directly with the third party purchasers of such Shareholder Shares or (B) effected in accordance with Rule 144 under the Securities Act, in each case the Shareholder shall not knowingly Transfer to any Person or Group (whether such Person or Group is purchasing Shareholder Shares for its or their own account(s) or as fiduciary on behalf of one or more accounts) that (x) is not a Person of the type described in Rule 13d-1(b)(1)(ii) under the Exchange Act (as in effect on the date of this Agreement), other than a hedge fund, unless such Person is a private equity fund or an affiliate of a private equity fund and has duly certified in writing that it has no intent to change or influence the control of the Company or participate in any transaction having that effect as described in Rule 13d-1(c)(1) under the Exchange Act or (y) is a Person that has engaged in a proxy contest or has otherwise filed a Schedule 13D that disclosed any plan or proposal or other intent to change or influence control over an issuer, in either case described in this clause (y) during the two

(2) year period immediately preceding the date of such Transfer.

(d) Notwithstanding the foregoing, (i) for the avoidance of doubt, none of Section 5.1(b), Section 5.1(c)(ii) or Section 5.1(c)(iii) shall apply to, and nothing therein shall directly or indirectly prohibit, restrict or otherwise limit, to the extent otherwise permitted by law, (A) any Transfer of Shareholder Shares made in accordance with Section 5.1(f) or (B) at any time after the Transfer Limitation Period, (x) the establishment of any put equivalent position (as defined under Rule 16a-1 of the Exchange Act) or any short position (including through swaps, options, other derivative positions, whether cash or physically settled, or otherwise), (y) any decrease in any such put equivalent position or short position or (z) the establishment of any contract, arrangement, agreement or understanding pursuant to which the Shareholder has the right or opportunity to profit or share in any profit derived from any decrease in the value of Shareholder Shares; and (ii) the restrictions set forth in Section 5.1(b), Section 5.1(c)(ii) and Section 5.1(c)(iii) shall terminate at such time as the Shareholder shall cease to Beneficially Own Voting Securities representing at least the Ownership Threshold.

(e) Notwithstanding the foregoing, except for Transfers made pursuant to Section 5.1(b) or Section 5.1(f), the Shareholder shall not, and the Shareholder Parent shall cause the Shareholder not to, effect any Transfer of Shareholder Shares in any manner that would result in the failure of the Shareholder to comply with its obligations under Section 6.10 in respect of any Holdback Period.

(f) Notwithstanding anything to the contrary set forth in this Article V, the Shareholder may, at any time (during or after the Transfer Limitation Period), (i) Transfer all, but not less than all, of the Shareholder Shares to any Permitted Transferee; provided that, prior to any such Transfer, such Permitted Transferee agrees in writing to acquire and hold such Transferred Shareholder Shares subject to and in accordance with, and otherwise to be bound by the terms of, this Agreement as if such Permitted Transferee were the Shareholder hereunder; provided, further, that if, at any time after such Transfer, such Permitted Transferee (other than the Shareholder Parent) ceases to be a wholly-owned Subsidiary of the Shareholder Parent, the Shareholder Parent shall cause all Shareholder Shares held by such Permitted Transferee to be Transferred to a Person that is, at such time, a Permitted Transferee and that, prior to such Transfer, agrees in writing to acquire and hold such Transferred Shareholder Shares subject to and in accordance with this Agreement as if such Permitted Transferee were the Shareholder hereunder; (ii) Transfer the Shareholder Shares, in whole or in part, to the Company or any Subsidiary of the Company, including pursuant to any redemption, share repurchase program, self tender offer or otherwise; or (iii) Transfer the Shareholder Shares, in whole or in part, pursuant to any (A) recapitalization, reclassification, consolidation, merger, share exchange, scheme of arrangement or other business combination transaction involving the Company, in any case approved, accepted, or recommended to the Shareholders of the Company by the Board or approved by the shareholders of the Company or (B) tender, exchange or other similar offer for any Voting Securities that is commenced by any Person or Group and the Board either (x) publicly recommends that shareholders of the Company tender their Voting Securities to the Person or Group making such offer or (y) fails to recommend that the shareholders of the Company reject such offer, in either case within ten (10) Business Days after the date of commencement thereof.

Section 5.2 Legends on Shareholder Shares; Securities Act Compliance.

(a) Each share certificate representing Shareholder Shares shall bear the following legend (and a comparable notation or other arrangement will be made with respect to any uncertificated Shareholder Shares):

THE SECURITIES REPRESENTED BY THIS CERTIFICATE HAVE BEEN ACQUIRED FOR INVESTMENT AND HAVE NOT BEEN REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED. SUCH SECURITIES MAY NOT BE SOLD OR TRANSFERRED IN THE ABSENCE OF SUCH REGISTRATION OR UNLESS THE ISSUER RECEIVES AN OPINION OF COUNSEL REASONABLY ACCEPTABLE TO IT STATING THAT SUCH SALE OR TRANSFER IS EXEMPT FROM THE REGISTRATION AND PROSPECTUS DELIVERY REQUIREMENTS OF SAID ACT.

Table of Contents

(b) In addition, for so long as any restrictions set forth in Section 5.1 remain in effect, such legend or notation shall include the following language:

THE SECURITIES REPRESENTED BY THIS CERTIFICATE ARE SUBJECT TO THE PROVISIONS OF A SHAREHOLDER S AGREEMENT, DATED AS OF , 2011, AMONG THE ISSUER AND THE OTHER PARTIES THERETO, A COPY OF WHICH MAY BE INSPECTED AT THE PRINCIPAL OFFICE OF THE ISSUER OR OBTAINED FROM THE ISSUER WITHOUT CHARGE.

(c) The Shareholder agrees that it will, if requested by the Company, deliver at its expense to the Company an opinion of reputable U.S. counsel selected by the Shareholder and reasonably acceptable to the Company, in form and substance reasonably satisfactory to the Company and counsel for the Company, that any Transfer made, other than in connection with an SEC-registered offering by the Company, does not require registration under the Securities Act.

(d) In connection with any Transfer pursuant to this Article V, the Company shall remove such portion of the legend (or eliminate or terminate such portion of the notation or arrangement) described in Sections 5.2(a) and 5.2(b) as is appropriate under the circumstances. At such time as the Shareholder delivers at its expense to the Company an opinion of reputable U.S. counsel selected by the Shareholder and reasonably acceptable to the Company, in form and substance reasonably satisfactory to the Company and counsel for the Company, that all of the Shareholder Shares may be freely sold without registration under the Securities Act, the Company agrees that it will promptly after the later of the delivery of such opinion and, in the case of certificated Shareholder Shares, the delivery by the Shareholder to the Company or its transfer agent of a certificate or certificates (in the case of a Transfer, in the proper form for Transfer) representing such Shareholder Shares issued with the legend set forth in Section 5.2(a), deliver or cause to be delivered to the Shareholder a replacement stock certificate or certificates representing such Shareholder Shares that is free from the legend set forth in Section 5.2(a) (or in the case of uncertificated Shareholder Shares, free of any notation or arrangement set forth in Section 5.2(a)). At such time as no restrictions set forth in Section 5.1 remain in effect, the Company agrees that it will, promptly upon the request of the Shareholder and, in the case of certificated Shareholder Shares, the delivery by the Shareholder to the Company or its transfer agent of a certificate or certificates (in the case of a Transfer, in the proper form for Transfer) representing Shareholder Shares issued with the legend set forth in Section 5.2(b), deliver or cause to be delivered to the Shareholder a replacement stock certificate or certificates representing such Shareholder Shares that is free from the legend set forth in Section 5.2(b) (or in the case of uncertificated Shareholder Shares, free of any notation or arrangement set forth in Section 5.2(b)).

Section 5.3 *Change of Control of the Shareholder Parent.*

(a) In the event that, during the period from the Closing Date until the occurrence of a Board Right Termination Event, a Change of Control with respect to the Shareholder Parent is consummated that results from a Shareholder Parent Change of Control Event, to the extent permitted by Irish law, the Company shall have the right, but not the obligation, to purchase (by way of redemption or otherwise) from the Shareholder all, but not less than all, of the Shareholder Shares held by the Shareholder on the date of consummation of such Change of Control. The Shareholder Parent shall give the Company written notice of the occurrence of such Change of Control within ten (10) Business Days after its consummation and the Company s right under this Section 5.3 shall be exercisable by delivering a written election notice to the Shareholder (such notice, an Election Notice) within ten (10) Business Days after the date of receipt by the Company of such notice from the Shareholder Parent (or at an earlier time following the consummation of such Change of Control). The delivery of an Election Notice by the Company shall irrevocably bind the Company to purchase, and the Shareholder to sell, all of the Shareholder Shares held by the Shareholder on the date of consummation of such Change of Control in accordance with this Section 5.3. In the event that the Company fails to deliver an Election Notice within such ten (10) Business Day period following notice by the Shareholder Parent of the consummation of the Change of Control, the Company shall be deemed to have irrevocably elected not

to exercise its right to purchase such Shareholder Shares in respect of such Change of Control pursuant to this Section 5.3.

C-16

(b) The purchase price for the Shareholder Shares shall equal the product of (i) the aggregate number of Shareholder Shares held by the Shareholder on the date of consummation of such Change of Control multiplied by (ii) the Market Value of each such Shareholder Share, determined as at the date of consummation of such Change of Control (the Change of Control Purchase Price).

(c) Subject to the receipt by the parties hereto of all necessary shareholder, antitrust and other governmental, regulatory and third party approvals, the closing of the purchase of the Shareholder Shares shall take place at the executive offices of the Company at 10:00 a.m., local time, on the fifth (5th) Business Day after the date the Election Notice is delivered to the Shareholder, or on such later Business Day reasonably designated by the Company or the Shareholder, as applicable, in order to permit (i) any necessary antitrust waiting period to expire; (ii) any other necessary governmental, regulatory or third party approvals to be obtained; and (iii) the Shareholder Parent to seek the requisite approval of its shareholders for such sale if and to the extent that the Listing Rules of the Irish Stock Exchange (as in effect at such time) would require such approval. At the closing, the Shareholder shall deliver to the Company the share certificate or certificates representing all certificated Shareholder Shares held by the Shareholder on the date of consummation of such Change of Control, in exchange for the payment in full of the Change of Control Purchase Price by wire transfer of immediately available funds to an account or accounts that shall be designated by the Shareholder in writing to the Company at least two (2) Business Days prior to such closing.

ARTICLE VI

REGISTRATION RIGHTS

Section 6.1 Demand Request.

(a) Until the Registration Rights Termination Date, in connection with any Transfer of Registrable Shares permitted under Section 5.1(b), the Shareholder shall, and in connection with any other Transfer of Registrable Shares after the Transfer Limitation Period, the Shareholder may, request in writing that the Company effect a registration under the Securities Act of all or such part of the Registrable Shares as the Shareholder requests to Transfer, subject in each case to the minimum threshold requirements applicable to such registration pursuant to Section 5.1(b), Section 6.1(b) or Section 6.1(c) (such request, a Demand Request) (it being understood that the Demand Request in respect of the marketed underwritten offering to be effected under Section 5.1(b)(i) may be made no sooner than 45 days before the six (6) month anniversary of the Closing Date, but may be made at any time thereafter). Upon receipt of any Demand Request, the Company shall use reasonable endeavors to file, as promptly as practicable but in any event not later than the date that is thirty (30) calendar days after receipt by the Company of such Demand Request, in accordance with the provisions of this Agreement, a Registration Statement with the SEC (a Demand Registration Statement) covering all such Registrable Shares, in accordance with the method or methods of distribution thereof elected by the Shareholder (which, for the avoidance of doubt, shall be limited to marketed underwritten registered offerings in the case of Transfers under Section 5.1(b)). Each Demand Request shall specify the aggregate number of Registrable Shares to be registered and the intended method or methods of distribution thereof. Any registration requested by the Shareholder under this Section 6.1(a), Section 6.1(c) or Section 6.1(e) is referred to in this Agreement as a Demand Registration.

(b) The Shareholder shall be entitled to initiate no more than six (6) Demand Registrations, including Shelf Underwritten Offerings, in the aggregate; provided, however, that the Company shall not be obligated to effect such Demand Registration (i) unless the number of Registrable Shares requested to be registered by the Shareholder is at least five million (5,000,000) (or the equivalent thereof as of the Closing Date in the event of any stock splits); and (ii) during the ninety (90) calendar day period following the effective date of a Registration Statement pursuant to any other Demand Registration. No request for registration shall count for the purposes of the limitations in this

Section 6.1(b) if (v) the Shareholder determines in good faith to withdraw (prior to the effective date of the Registration Statement relating to such request) the proposed registration, upon written notice to the Company, due to marketing conditions or regulatory reasons prior to the execution of an underwriting agreement or purchase agreement relating to such request; provided that the Shareholder reimburses the Company for all Registration Expenses incurred in good faith by the Company in

C-17

connection with such Demand Registration prior to the date of such withdrawal, (w) the Registration Statement relating to a Demand Request is not declared effective within one hundred eighty (180) calendar days after the date such Registration Statement is filed with the SEC (other than by reason of the Shareholder having refused to proceed or a misrepresentation or an omission by the Shareholder), (x) prior to the sale of at least fifty percent (50%) of the Registrable Shares included in the applicable registration relating to a Demand Request, such registration is adversely affected by any stop order, injunction or other order or requirement of the SEC or other governmental agency or court for any reason and the Company fails to have such stop order, injunction, or other order or requirement removed, withdrawn or resolved to the reasonable satisfaction of the Shareholder within thirty (30) calendar days after the date of such order, (y) the Shareholder withdraws its request in the circumstances described in Section 6.1(f) or (z) the conditions to closing specified in any underwriting agreement or purchase agreement entered into in connection with the registration relating to such request are not satisfied as a result of a default or breach thereunder by the Company that proximately and primarily caused the failure of such conditions.

(c) Following the twelve (12) month anniversary of the Closing Date, the Company shall use reasonable endeavors to qualify for registration on Form S-3 or any comparable or successor form or forms or any similar short-form registration (a Short-Form Registration), and, if requested by the Shareholder and available to the Company, such Short-Form Registration shall be a shelf registration statement providing for the registration, and the sale on a continuous or delayed basis, of the Registrable Shares, pursuant to Rule 415 under the Securities Act or otherwise (a Shelf Registration Statement). Following the twelve (12) month anniversary of the Closing Date and prior to the Registration Rights Termination Date, the Shareholder may request no more than five (5) Short-Form Registrations, if available to the Company, with respect to the Registrable Shares, which shall count toward the six (6) Demand Registrations to which the Shareholder is entitled pursuant to Section 6.1(b); provided that the Company shall not be obligated to effect any Short-Form Registration pursuant to this Section 6.1(c), (x) unless the number of Registrable Shares requested to be registered by the Shareholder is at least five million (5,000,000) (or the equivalent thereof as of the Closing Date in the event of any stock splits) and (y) during the ninety (90) calendar day period following the effective date of a Registration Statement pursuant to any other Demand Registration, including any Shelf Registration Statement. In no event shall the Company be obligated to effect any shelf registration other than pursuant to a Short-Form Registration. If any Demand Registration is proposed to be a Short-Form Registration and an underwritten offering, if the managing underwriter(s) shall advise the Company and the Shareholder that, in its good faith opinion, it is of material importance to the success of such proposed offering to include in such Registration Statement information not required to be included in a Short-Form Registration, then the Company shall supplement the Short-Form Registration as reasonably requested by such managing underwriter(s).

(d) Upon filing any Short-Form Registration, the Company shall use reasonable endeavors to keep such Short-Form Registration effective with the SEC, to re-file such Short-Form Registration upon its expiration, and to cooperate in any shelf take-down, whether or not underwritten, by amending or supplementing the Prospectus related to such Short-Form Registration as may be reasonably requested by the Shareholder, or as otherwise required, until the earlier of (i) such time as all Registrable Shares that could be sold in such Short-Form Registration have been sold or are no longer outstanding and (ii) the Registration Rights Termination Date.

(e) To the extent that the Company is a well-known seasoned issuer (as defined in Rule 405 under the Securities Act) (a WKSI) at the time any Demand Request for a Short-Form Registration is submitted to the Company and, pursuant to such Demand Request, the Shareholder requests that the Company file a Shelf Registration Statement, the Company shall file an automatic shelf registration statement (as defined in Rule 405 under the Securities Act) on Form S-3 (an Automatic Shelf Registration Statement) in accordance with the requirements of the Securities Act and the rules and regulations of the SEC thereunder, which covers those Registrable Shares which are requested to be registered. At the written request of the Shareholder, the Company shall pay the registration fee in respect of a take-down from an Automatic Shelf Registration Statement promptly and, in any event, within one (1) Business Day of receiving such written request. The Company shall use reasonable endeavors to remain a WKSI (and not to become

an ineligible issuer (as

C-18

Table of Contents

defined in Rule 405 under the Securities Act)) during the period in which any Automatic Shelf Registration Statement is effective. If, at any time following the filing of an Automatic Shelf Registration Statement when the Company is required to re-evaluate its WKSI status, the Company determines that it is not a WKSI, the Company shall use reasonable endeavors to post-effectively amend the Automatic Shelf Registration Statement to a Shelf Registration Statement on Form S-3 or file a new Shelf Registration Statement on Form S-3, have such Shelf Registration Statement declared effective by the SEC and keep such Registration Statement effective during the period in which such Short-Form Registration is required to be kept effective in accordance with Section 6.1(d).

(f) If the filing, initial effectiveness or continued use of a Registration Statement, including a Shelf Registration Statement, with respect to a Demand Registration, would require the Company to make a public disclosure of material non-public information, which disclosure the Company determines in good faith (after consultation with external legal counsel), (i) would be required to be made at such time in any Registration Statement so that such Registration Statement would not be materially misleading; (ii) would not be required to be made at such time but for the filing, effectiveness or continued use of such Registration Statement; and (iii) would reasonably be expected to have an adverse effect on the Company or its business or on the Company's ability to effect a reasonably imminent material proposed acquisition, disposition, financing, reorganization, recapitalization or similar transaction, then the Company may, upon giving prompt written notice of such determination to the Shareholder, delay the filing or initial effectiveness of, or suspend the use of, as applicable, such Registration Statement or a Prospectus or Free Writing Prospectus; provided, however, that the Company shall not be permitted to do so (x) on more than one (1) occasion in any six (6) month period or (y) for any single period of time in excess of sixty (60) days (in any such case, a Blackout Period). In the event that the Company exercises its rights under the preceding sentence, the Shareholder agrees to suspend, promptly upon receipt of the notice referred to above, the use of any Prospectus relating to such Demand Registration in connection with any sale or offer to sell Registrable Shares. If the Company so delays the filing or initial effectiveness of, or suspend the use of, as applicable, such Registration Statement or a Prospectus or Free Writing Prospectus, the Shareholder shall be entitled to withdraw such request and, if such request is withdrawn, such registration request shall not count for the purposes of the limitations set forth in Section 6.1(b) or Section 6.1(c).

(g) If a Demand Request provides that the Shareholder intends the Registrable Shares covered thereby shall be distributed by means of an underwritten offering, or if the Shareholder delivers to the Company a Take-Down Notice, the lead underwriter to administer the offering shall be chosen by the Shareholder, subject to the prior written consent, not to be unreasonably withheld or delayed, of the Company.

(h) The Company shall not include in any Demand Registration pursuant to this Section 6.1 any securities that are not Registrable Shares without the prior written consent of the Shareholder.

(i) The Shareholder shall have the right to notify the Company prior to the effectiveness of a Registration Statement relating to a Demand Registration that such Registration Statement be abandoned or withdrawn, in which event the Company shall promptly abandon or withdraw such Registration Statement.

Section 6.2 Piggy-Back Registration.

(a) If, at any time following the six (6) month anniversary of the Closing Date, the Company proposes or is required to file a Registration Statement under the Securities Act with respect to an offering of securities of the Company of the same class as the Registrable Shares (such securities Similar Securities), whether or not for sale for its own account (including a Shelf Registration Statement on Form S-3, but excluding a Registration Statement that is (i) solely in connection with a Special Registration or (ii) pursuant to a Demand Registration in accordance with Section 6.1, the Company shall give written notice as promptly as practicable, but not later than thirty (30) calendar days prior to the anticipated date of filing of such Registration Statement, to the Shareholder of its intention to effect such registration and shall include in such registration all Registrable Shares with respect to which the Company has received written

notice from the Shareholder for inclusion therein within fifteen (15) calendar days after the date of the Company's notice (a Piggyback Registration). In the event that the Shareholder makes such written request, the Shareholder may withdraw its Registrable Shares from such Piggyback Registration by giving written notice to the Company and the

managing underwriter, if any, at any time at least two (2) Business Days prior to the effective date of the Registration Statement relating to such Piggyback Registration. The Company may terminate or withdraw any Piggyback Registration under this Section 6.2(a), whether or not the Shareholder has elected to include Registrable Shares in such registration; provided, however, that, if the Shareholder has elected to include Registrable Shares in such registration and the Company terminates or withdraws such Piggyback Registration after the date on which the applicable Registration Statement is declared effective, the Company shall reimburse the Shareholder for all Selling Expenses paid by the Shareholder in respect of Registrable Shares included therein which are unsold on the date of such withdrawal or termination. No Piggyback Registration shall count towards the number of Demand Registrations to which the Shareholder is entitled under Section 6.1(b) or Section 6.1(c).

(b) If a Piggyback Registration under Section 6.2(a) is proposed to be underwritten, the Company shall so advise the Shareholder as a part of the written notice given pursuant to Section 6.2(a). In such event, the lead underwriter to administer the offering shall be chosen by the Company, subject to the prior written consent, not to be unreasonably withheld or delayed, of the Shareholder.

(c) The Company shall pay all expenses (subject to and in accordance with Section 6.5) in connection with any Piggyback Registration, whether or not any registration or prospectus becomes effective or final or is terminated or withdrawn by the Company.

(d) If any Similar Securities are to be sold in an underwritten primary offering on behalf of the Company, the Shareholder may include all the Registrable Shares it requests in such Piggyback Registration on the same terms and conditions as such Similar Securities included therein; provided, however, that if such offering involves a firm commitment underwritten offering and the managing underwriter(s) of such offering advises the Company and the Shareholder in writing that, in its good faith opinion, the total number or dollar amount of Similar Securities proposed to be sold in such offering and Registrable Shares requested by the Shareholder to be included therein, in the aggregate, exceeds the largest number or dollar amount of securities that can be sold in such offering without adversely affecting the marketability of the offering (including an adverse effect on the per share offering price), the Company shall include in such registration or prospectus only such number of securities that in the good faith opinion of such underwriter(s) can be sold in such offering without adversely affecting the marketability of the offering (including an adverse effect on the per share offering price), which securities shall be included in the following order of priority:

(i) first, the securities that the Company proposes to sell;

(ii) second, the Registrable Shares requested to be included by the Shareholder and any Similar Securities requested to be included by any other Persons exercising their contractual rights to piggyback registration, *pro rata* (if applicable) on the basis of the aggregate number of securities so requested to be included therein; and

(iii) third, any securities requested to be included therein by any other Persons (other than the Company and the Shareholder and other Persons with restricted piggyback registration rights), allocated among such Persons in such manner as the Company may determine.

(e) If the securities to be registered pursuant to this Section 6.2 are to be sold in an underwritten secondary offering on behalf of holders of Similar Securities, the Shareholder may include all Registrable Shares requested to be included in such registration in such offering on the same terms and conditions as any Similar Securities included therein; provided, however, that if the managing underwriter(s) of such offering advises the Company and the Shareholder in writing that, in its good faith opinion, the total number or dollar amount of securities to be included therein exceeds the largest number or dollar amount of securities that can be sold in such offering without adversely affecting the marketability of the offering (including an adverse effect on the per share offering price), the Company shall include

in such registration only such number of securities that in the reasonable opinion of such underwriter(s) can be sold without adversely affecting the

marketability of the offering (including an adverse effect on the per share offering price), which securities shall be so included in the following order of priority:

- (i) first, the Similar Securities requested to be included therein by the holders exercising their contractual rights to demand such registration and the Registrable Shares requested to be included by the Shareholder, *pro rata* (if applicable) on the basis of the aggregate number of securities so requested to be included therein by each such holder; and
- (ii) second, any Similar Securities requested to be included therein by the Company or any other Person not exercising a contractual right to demand registration, allocated among such Persons in such manner as the Company may determine.

Section 6.3 Termination of Registration Obligation.

Notwithstanding anything to the contrary herein, the obligation of the Company to register Registrable Shares pursuant to this Article VI and maintain the effectiveness of any Demand Registration Statement filed pursuant to Section 6.2 shall terminate on the earliest of (a) the date on which reputable U.S. counsel shall have delivered an opinion, in form and substance reasonably satisfactory to the Company and the Shareholder, that all remaining Shareholder Shares Beneficially Owned by the Shareholder may be freely sold without registration under the Securities Act, including under Rule 144 without being subject to the volume limitations and manner of sale restrictions contained therein, (b) the date that is four (4) months after the first date on which the Shareholder Beneficially Owns Shareholder Shares representing less than the Ownership Threshold and (c) the first date on which the Shareholder Beneficially Owns Shareholder Shares representing less than five percent (5%) of the outstanding Voting Securities (the Registration Rights Termination Date).

Section 6.4 Registration Procedures. Subject to Section 6.1(f), whenever the Shareholder shall have requested that any Registrable Shares be registered pursuant to Section 6.1 or Section 6.2, the Company shall use reasonable endeavors to effect, as soon as practicable as provided herein, the registration and sale of such Registrable Shares in accordance with the intended method or methods of disposition thereof, until the Registration Rights Termination Date. Without limiting the generality of the foregoing, and pursuant thereto, the Company shall, until the Registration Rights Termination Date, cooperate in the sale of such Registrable Shares and shall, as expeditiously as possible:

(a) prepare and file with the SEC a Registration Statement with respect to such Registrable Shares as provided herein, make all required filings with FINRA and, if such Registration Statement is not automatically effective upon filing, use reasonable endeavors to cause such Registration Statement to be declared effective as promptly as practicable after the filing thereof; provided, however, that, before filing a Registration Statement or Prospectus or any amendments or supplements thereto (including free writing prospectuses under Rule 433 under the Securities Act, each, a Free Writing Prospectus), the Company shall furnish to the Shareholder and the managing underwriter(s), if any, copies of the Registration Statement and all other documents proposed to be filed (including exhibits thereto), including, upon the reasonable request of the Shareholder and to the extent reasonably practicable, all documents that would be incorporated by reference or deemed to be incorporated by reference therein, which Registration Statement and documents will be subject to the reasonable review and comment of the Shareholder and its counsel, at the Shareholder's sole expense. The Company shall not file any Registration Statement or Prospectus or any amendments or supplements thereto (including Free Writing Prospectuses) with respect to any registration pursuant to Section 6.1 to which the Shareholder and its counsel or the managing underwriter(s), if any, shall reasonably object, in writing, on a timely basis, unless in the opinion of the Company, such filing is necessary to comply with applicable law;

(b) prepare and file with the SEC such amendments and supplements to such Registration Statement, the Prospectus used in connection therewith (including Free Writing Prospectuses) and Exchange Act reports as may be necessary to

keep such Registration Statement effective for a period of (i) with respect to a Registration Statement other than a Shelf Registration Statement, (A) not less than four (4) months, (B) if such Registration Statement relates to an underwritten offering, such longer period as, in the opinion of counsel for the underwriter(s), a Prospectus is required by law to be delivered in connection

with sales of Registrable Shares by an underwriter or dealer or (C) such shorter period as will terminate when all of the securities covered by such Registration Statement have been disposed of in accordance with the intended methods of distribution by the seller or sellers thereof set forth in such Registration Statement (but in any event not before the expiration of any longer period required under the Securities Act); or (ii) in the case of a Shelf Registration Statement, the period set forth in Section 6.1(d), and to comply with the provisions of the Securities Act with respect to the disposition of all securities covered by such Registration Statement until such time as all of such securities have been disposed of in accordance with the intended methods of disposition by the seller or sellers thereof set forth in such Registration Statement;

(c) furnish to the Shareholder and the managing underwriter(s), if any, such number of conformed copies, without charge, of such Registration Statement, each amendment and supplement thereto, including each preliminary and final Prospectus, any Free Writing Prospectus, all exhibits and other documents filed therewith and such other documents as such Persons may reasonably request, including in order to facilitate the disposition of the Registrable Shares in accordance with the intended method or methods of disposition thereof; and the Company, subject to the penultimate paragraph of this Section 6.4, hereby consents to the use of such Prospectus and each amendment or supplement thereto by Shareholder and the managing underwriter(s), if any, in connection with the offering and sale of the Registered Shares covered by such Prospectus and any such amendment or supplement thereto;

(d) use its reasonable endeavors to register or qualify such Registrable Shares under such other securities or blue sky laws of such jurisdictions as the Shareholder reasonably requests and do any and all other acts and things that may be necessary or reasonably advisable to enable the Shareholder to consummate the disposition in such jurisdictions of the Registrable Shares in accordance with the intended method of distribution thereof (provided that the Company shall not be required to (i) qualify generally to do business in any jurisdiction where it would not otherwise be required to qualify but for this subsection; (ii) subject itself to taxation in any jurisdiction wherein it is not so subject; or (iii) take any action which would subject it to general service of process in any jurisdiction wherein it is not so subject);

(e) use its reasonable endeavors to cause all Registrable Shares covered by such Registration Statement to be registered with or approved by such other governmental agencies, authorities and self-regulatory bodies as may be necessary or reasonably advisable in light of the business and operations of the Company to enable the Shareholder or the managing underwriter(s), if any, to consummate the disposition of such Registrable Shares in the United States in accordance with the intended method of disposition thereof;

(f) promptly notify the Shareholder and the managing underwriter(s), if any, at any time when a Prospectus relating thereto is required to be delivered under the Securities Act of the occurrence of any event or existence of any fact as a result of which the Prospectus (including any information incorporated by reference therein) included in such Registration Statement, as then in effect, contains an untrue statement of a material fact or omits any fact necessary to make the statements therein not misleading in light of the circumstances under which they were made, and, as promptly as practicable upon discovery, prepare and furnish to the Shareholder a reasonable number of copies of a supplement or amendment to such Prospectus, or file any other required document, as may be necessary so that, as thereafter delivered to any prospective purchasers of such Registrable Shares, such Prospectus shall not contain an untrue statement of a material fact or omit to state any fact necessary to make the statements therein not misleading in light of the circumstances under which they were made;

(g) notify the Shareholder, Shareholder's counsel and the managing underwriter(s) of any underwritten offering, if any, (i) when the Registration Statement, any pre-effective amendment, the Prospectus or any Prospectus supplement or any post-effective amendment to the Registration Statement or any Free Writing Prospectus has been filed and, with respect to such Registration Statement or any post-effective amendment, when the same has become effective; (ii) of any request by the SEC for amendments or supplements to such Registration Statement or to such Prospectus or for additional

(h) use its reasonable endeavors to cause all such Registrable Shares covered by such registration statement to be listed (after notice of issuance) on NASDAQ or the principal securities exchange or interdealer quotation system on which the Ordinary Shares are then listed or quoted;

(i) use its reasonable endeavors to cooperate with the Shareholder and the managing underwriter(s), if any, to facilitate the timely preparation and delivery of certificates representing the Registrable Shares to be sold under the Registration Statement in a form eligible for deposit with the Depository Trust Corporation not bearing any restrictive legends (other than as required by the Depository Trust Corporation) and not subject to any stop transfer order with any transfer agent, and cause such Registrable Shares to be issued in such denominations and registered in such names as the managing underwriter(s), if any, may request in writing or, if not an underwritten offering, in accordance with the instructions of the Shareholder, in each case at least two (2) Business Days prior to any sale of Registrable Shares;

(j) enter into such agreements (including underwriting agreements with customary provisions) and take all such other actions as the Shareholder (if such registration is a Demand Registration) or the managing underwriter(s), if any, reasonably request in order to expedite or facilitate the disposition of such Registrable Shares;

(k) make available for inspection by the Shareholder and Shareholder's counsel, any managing underwriter(s) participating in any disposition pursuant to such Registration Statement and any attorney, accountant or other agent retained by the Shareholder or underwriter(s), all financial and other records, pertinent corporate documents and documents relating to the business of the Company, and cause the Company's officers, directors, employees and independent accountants to supply all information reasonably requested by the Shareholder or such underwriter(s), attorney, accountant or agent in connection with such Registration Statement; provided, however, that the Shareholder shall, and shall use reasonable endeavors to cause each such underwriter(s), accountant or other agent to (i) enter into a confidentiality agreement in form and substance reasonably satisfactory to the Company; and (ii) minimize the disruption to the Company's business in connection with the foregoing;

(l) otherwise use reasonable endeavors to comply with all applicable rules and regulations of the SEC, and make available to its security holders, as soon as reasonably practicable after the effective date of the Registration Statement, an earnings statement covering the period of at least 12 months beginning with the first day of the Company's first full calendar quarter after the effective date of the Registration Statement, which earnings statement shall satisfy the provisions of Section 11(a) of the Securities Act and Rule 158 thereunder;

(m) in the event of the issuance of any stop order suspending the effectiveness of a Registration Statement, or of any order suspending or preventing the use of any related Prospectus or ceasing trading of any securities included in such Registration Statement for sale in any jurisdiction, use reasonable endeavors to obtain the withdrawal of such order as soon as reasonably practicable;

(n) subject to Section 6.5, cause its senior management to use reasonable endeavors to support the marketing of the Registrable Shares covered by the Registration Statement pursuant to any Demand Registration (including participation in road shows), taking into account the Company's business needs;

(o) obtain one or more comfort letters, addressed to the Shareholder, dated the effective date of such Registration Statement and, if requested by the Shareholder, dated the date of sale by the Shareholder (and, if such registration includes an underwritten public offering, including any Shelf Underwritten Offering, addressed to each of the managing underwriter(s) and dated the date of the closing under the underwriting agreement for such offering), signed

customary form and covering such matters of the type customarily covered by comfort letters as the Shareholder reasonably requests;

(p) provide legal opinions of the Company's outside counsel (which counsel and opinions (in form, scope and substance) shall be reasonably satisfactory to the managing underwriter(s), if any, and the Shareholder's counsel), addressed to the Shareholder, dated the effective date of such Registration Statement, each amendment and supplement thereto, and, if requested by the Shareholder, dated the date of sale by the Shareholder (and, if such registration includes an underwritten public offering, including any Shelf Underwritten Offering, addressed to each of the managing underwriter(s) and dated the date of the closing under the underwriting agreement), with respect to the Registration Statement, each amendment and supplement thereto (including the preliminary Prospectus) and such other documents relating thereto in customary form and covering such matters of the type customarily covered by legal opinions of such nature and such other matters as may be reasonably requested by Shareholder counsel (and, if applicable, by the managing underwriter(s)); and

(q) use its reasonable endeavors to take or cause to be taken all other actions, and do and cause to be done all other things, necessary or reasonably advisable in the opinion of the Shareholder's counsel to effect the registration of such Registrable Shares contemplated hereby.

Subject to the limitations on the Company's ability to delay the filing or initial effectiveness of, or suspend the use of, as applicable, a Registration Statement or a Prospectus or Free Writing Prospectus pursuant to Section 6.1(f), the Shareholder agrees that, upon receipt of any written notice from the Company of the happening of any event of the kind described in Section 6.4(f), the Shareholder shall promptly discontinue its disposition of Registrable Shares pursuant to any Registration Statement until the Shareholder's receipt of the copies of the supplemented or amended prospectus contemplated by Section 6.4(f). If so directed by the Company, the Shareholder shall deliver to the Company (at the Company's expense) all copies, other than permanent file copies, in the Shareholder's possession of the Prospectus covering such Registrable Shares at the time of receipt of such notice. In the event that the Company shall give any such notice, the period mentioned in Section 6.4(b), as applicable, shall be extended by the number of days during the period from and including the date of the giving of such notice to and including the date when the Shareholder shall have received the copies of the supplemented or amended Prospectus contemplated by Section 6.4(f).

In the case of any underwritten offering of Registrable Shares registered under a Demand Registration Statement filed pursuant to Section 6.1(a), or in the case of a Piggyback Registration under Section 6.2, (i) all Registrable Shares or Similar Securities to be included in such offering or registration, as the case may be, shall be subject to the applicable underwriting agreement with customary terms and neither the Shareholder nor any holder of Similar Securities may participate in such offering or registration unless such Person agrees to sell such Person's securities on the basis provided therein; and (ii) neither the Shareholder nor any holder of Similar Securities may participate in such offering or registration unless such Person completes and executes all questionnaires, indemnities, underwriting agreements and other documents (other than powers of attorney) reasonably required to be executed in connection therewith, and provides such other information to the Company or the underwriter(s) as may be reasonably requested to offer or register such Person's Registrable Shares or Similar Securities, as the case may be; provided, however, that (A) the Shareholder shall not be required to make any representations or warranties other than those related to title and ownership of, and power and authority to transfer, the Registrable Shares included therein and as to the accuracy and completeness of statements made in the applicable Registration Statement, Prospectus or other document in reliance upon, and in conformity with, written information prepared and furnished to the Company or the managing underwriter(s) by the Shareholder pertaining exclusively to the Shareholder and (B) the aggregate amount of liability of the Shareholder pursuant to any indemnification obligation thereunder shall not exceed the net proceeds received by the Shareholder from such offering.

Section 6.5 Registration Expenses.

(a) Except as otherwise provided in this Agreement, all expenses incidental to the Company's performance of or compliance with this Agreement (the Registration Expenses), including (i) all registration and filing fees (including (A) with respect to filings required to be made with the SEC, all applicable

securities exchanges and/or FINRA and (B) compliance with securities or blue sky laws including any fees and disbursements of counsel for the underwriter(s) in connection with blue sky qualifications of the Registrable Shares pursuant to Section 6.4(d)); (ii) word processing, duplicating and printing expenses (including expenses of printing certificates for Registrable Shares in a form eligible for deposit with The Depository Trust Company and of printing Prospectuses, if the printing of Prospectuses is requested by the managing underwriter(s), if any, or by the Shareholder); (iii) messenger, telephone and delivery expenses, (iv) fees and disbursements of counsel for the Company; (v) fees and disbursements of all independent certified public accountants (including, without limitation, the fees and disbursements in connection with any cold comfort letters required by this Agreement), other special experts, retained by the Company, shall be borne by the Company. The Company shall, in any event, pay its internal expenses, the expenses of any annual audit or quarterly review, the expenses of any liability insurance, the expenses and fees for listing the Registrable Shares to be registered on the applicable securities exchange. All underwriting discounts, selling commissions and transfer taxes (collectively, Selling Expenses) incurred in connection with the offering of any Registrable Shares shall be borne by the Shareholder. For the avoidance of doubt, the Company shall not bear any Selling Expenses in connection with its obligations under this Agreement. All expenses incurred in connection with any road show undertaken pursuant to Section 6.4(n) shall be borne in equal proportion by the Shareholder and the Company.

(b) The Company shall not, however, be required to pay Registration Expenses for any Demand Registration begun pursuant to Section 6.1(a), Section 6.1(c) or Section 6.1(e), the request of which has been subsequently withdrawn by the Shareholder unless the withdrawal is (i) requested under the circumstances described in Section 6.1(f); or (ii) based upon (A) any fact, circumstance, event, change, effect or occurrence that individually or in the aggregate with all other facts or circumstances, events, changes, effects or occurrences has a material adverse effect on the Company or (B) material adverse information concerning the Company that the Company had not publicly disclosed at least forty-eight (48) hours prior to such registration request or that the Company had not otherwise notified, in writing, the Shareholder of at the time of such request.

Section 6.6 Indemnification; Contribution.

(a) The Company shall, and it hereby agrees to, (i) indemnify and hold harmless the Shareholder (but not, for the avoidance of doubt, any Shareholder Designee), the Shareholder Parent and each underwriter in any offering or sale of Registrable Shares, and its and their respective Representatives and controlling Persons, if any, from and against any and all losses, claims, damages or liabilities, actions or proceedings (whether commenced or threatened) in respect thereof and expenses (including reasonable fees of counsel) (collectively, Claims) to which each such indemnified party may become subject, insofar as such Claims (including any amounts paid in settlement reached in accordance with the requirements for consent as provided herein), or actions or proceedings in respect thereof, arise out of or are based upon an untrue statement or alleged untrue statement of a material fact contained in any Registration Statement, or any preliminary or final Prospectus (including any Free Writing Prospectus incorporated into such Registration Statement) contained therein, or any amendment or supplement thereto, or any document incorporated by reference therein, or arise out of or are based upon any omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein (in the case of any preliminary or final Prospectus (including any Free Writing Prospectus incorporated into such Registration Statement, in light of the circumstances in which they were made), not misleading; and (ii) reimburse periodically upon demand such indemnified party for any legal or other out-of-pocket expenses reasonably incurred by such indemnified party in connection with investigating or defending any such Claims; provided, however, that the Company shall not be liable to any such indemnified party in any such case to the extent that any such Claims arise out of or are based upon an untrue statement or alleged untrue statement or omission or alleged omission made in such Registration Statement, or preliminary or final Prospectus (including any Free Writing Prospectus incorporated into such Registration Statement), or amendment or supplement thereto, in reliance upon and in conformity with information furnished in writing to the Company by the Shareholder or any Representative of the Shareholder expressly for use therein, or if the Shareholder sold securities to the Person

alleging such Claims without sending or giving, at or prior to the written confirmation of such sale, a copy of the applicable Prospectus

(excluding any documents incorporated by reference therein) or of the applicable Prospectus, as then amended or supplemented (excluding any documents incorporated by reference therein), if the Company had previously furnished copies thereof to the Shareholder and such Prospectus corrected such untrue statement or alleged untrue statement or omission or alleged omission made in such Registration Statement.

(b) The Shareholder shall, and hereby agrees to, (i) indemnify and hold harmless the Company and each underwriter in any offering or sale of Registrable Shares, and its and their respective Representatives and controlling Persons, if any, from and against any Claims to which each such indemnified party may become subject, insofar as such Claims (including any amounts paid in settlement reached in accordance with the requirements for consent as provided herein), or actions or proceedings in respect thereof, arise out of or are based upon an untrue statement or alleged untrue statement of a material fact contained in any Registration Statement, or any preliminary or final Prospectus (including any Free Writing Prospectus incorporated into such Registration Statement) contained therein, or any amendment or supplement thereto, or any document incorporated by reference therein, or arise out of or are based upon any omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein (in the case of any preliminary or final Prospectus (including any Free Writing Prospectus incorporated into such Registration Statement), in light of the circumstances in which they were made), not misleading; and (ii) reimburse periodically upon demand such indemnified party for any legal or other out-of-pocket expenses reasonably incurred by such indemnified party in connection with investigating or defending any such Claims, in each case only to the extent that such untrue statement or alleged untrue statement or omission or alleged omission was made in reliance upon and in conformity with information furnished in writing to the Company by the Shareholder or any Representative of the Shareholder, expressly for use therein, or if the Shareholder sold securities to the Person alleging such Claims without sending or giving, at or prior to the written confirmation of such sale, a copy of the applicable Prospectus (excluding any documents incorporated by reference therein) or of the applicable Prospectus, as then amended or supplemented (excluding any documents incorporated by reference therein), if the Company had previously furnished copies thereof to the Shareholder and such Prospectus corrected such untrue statement or alleged untrue statement or omission or alleged omission made in such Registration Statement; provided, however, that the liability of the Shareholder hereunder shall be limited to an amount equal to the dollar amount of the net proceeds received by the Shareholder from Shareholder Shares sold by the Shareholder pursuant to such Registration Statement or Prospectus.

(c) The Shareholder and the Company agree that if, for any reason, the indemnification provisions contemplated by Section 6.6(a) or Section 6.6(b) are unavailable to or are insufficient to hold harmless an indemnified party in respect of any Claims referred to therein, then each indemnifying party shall contribute to the amount paid or payable by such indemnified party as a result of such Claims in such proportion as is appropriate to reflect the relative fault of the indemnifying party, on the one hand, and the indemnified party, on the other hand, with respect to statements or omissions that that resulted in such Claims. The relative fault of such indemnifying party and indemnified party shall be determined by reference to, among other things, whether the untrue or alleged untrue statement of a material fact or omission or alleged omission to state a material fact relates to information supplied by such indemnifying party or by such indemnified party, and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such statement or omission. If, however, the allocation in the first sentence of this Section 6.6(c) is not permitted by applicable law, then each indemnifying party shall contribute to the amount paid or payable by such indemnified party in such proportion as is appropriate to reflect not only such relative faults, but also the relative benefits of the indemnifying party and the indemnified party, as well as any other relevant equitable considerations. The parties hereto agree that it would not be just and equitable if contributions pursuant to this Section 6.6(c) were to be determined by *pro rata* allocation or by any other method of allocation which does not take into account the equitable considerations referred to in the preceding sentences of this Section 6.6(c). The amount paid or payable by an indemnified party as a result of the Claims referred to above shall be deemed to include (subject to the limitations set forth in Section 6.7) any legal or other fees or expenses reasonably incurred by such indemnified party in connection with investigating or defending any such action, proceeding or claim. No Person guilty of fraudulent

misrepresentation (within the meaning of Section 11(f) of the Securities Act) shall be entitled to contribution from any Person who was not guilty of such fraudulent misrepresentation. Notwithstanding the foregoing, the Shareholder shall not be liable to contribute any amount

in excess of the dollar amount of the net proceeds received by the Shareholder from Shareholder Shares sold by the Shareholder pursuant to such Registration Statement or Prospectus.

Section 6.7 Indemnification Procedures.

(a) If an indemnified party shall desire to assert any claim for indemnification provided for under Section 6.6 in respect of, arising out of or involving a Claim against the indemnified party, such indemnified party shall notify the Company or the Shareholder, as the case may be (the Indemnifying Party), in writing of such Claim, the amount or the estimated amount of damages sought thereunder to the extent then ascertainable (which estimate shall not be conclusive of the final amount of such Claim), any other remedy sought thereunder, any relevant time constraints relating thereto and, to the extent practicable, any other material details pertaining thereto (a Claim Notice) promptly after receipt by such indemnified party of written notice of the Claim; provided, however, that failure to provide a Claim Notice shall not affect the indemnification obligations provided hereunder except to the extent the Indemnifying Party shall have been materially prejudiced as a result of such failure. The indemnified party shall deliver to the Indemnifying Party, promptly after the indemnified party's receipt thereof, copies of all notices and documents (including court papers) received by the indemnified party relating to the Claim; provided, however, that failure to provide any such copies shall not affect the indemnification obligations provided hereunder except to the extent the Indemnifying Party shall have been materially prejudiced as a result of such failure.

(b) If a Claim is made against an indemnified party, the Indemnifying Party will be entitled to participate in the defense thereof and, if it so chooses and acknowledges without reservation its obligation to indemnify the indemnified party therefor, to assume the defense thereof with separate counsel selected by the indemnifying party and reasonably satisfactory to the indemnified party. Should the Indemnifying Party so elect to assume the defense of a Claim, the Indemnifying Party will not be liable to the indemnified party for legal expenses subsequently incurred by the indemnified party in connection with the defense thereof, unless the Claim involves potential conflicts of interest or substantially different defenses for the indemnified party and the Indemnifying Party. If the Indemnifying Party assumes such defense, the indemnified party shall have the right to participate in defense thereof and to employ counsel, at its own expense (except as provided in the immediately preceding sentence), separate from the counsel employed by the Indemnifying Party. The Indemnifying Party shall be liable for the fees and expenses of counsel employed by the indemnified party for any period during which the Indemnifying Party has not assumed the defense thereof and as otherwise contemplated by the two immediately preceding sentences. If the Indemnifying Party chooses to defend any Claim, the indemnified party shall cooperate in the defense or prosecution thereof. Such cooperation shall include the retention and (upon the Indemnifying Party's request) the provision to the Indemnifying Party of records and information that are reasonably relevant to such Claim, and the indemnified party shall use reasonable endeavors to make employees available on a mutually convenient basis to provide additional information and explanation of any material provided hereunder. Whether or not the Indemnifying Party shall have assumed the defense of a Claim, the indemnified party shall not admit any liability with respect to, or settle, compromise or discharge, such Claim without the Indemnifying Party's prior written consent (which consent shall not be unreasonably withheld or delayed). The Indemnifying Party may pay, settle or compromise a Claim without the written consent of the indemnified party, so long as such settlement includes (i) an unconditional release of the indemnified party from all liability in respect of such Claim, (ii) does not subject the indemnified party to any injunctive relief or other equitable remedy, and (iii) does not include a statement or admission of fault, culpability or failure to act by or on behalf of any indemnified party.

Section 6.8 Shelf Take-Down.

(a) At any time that a Shelf Registration Statement covering Registrable Shares is effective, if the Shareholder delivers notice (a Take-Down Notice) to the Company stating that it intends to effect an underwritten offering of all or part of its Registrable Shares included on the Shelf Registration Statement (a Shelf Underwritten Offering), the Company

shall amend or supplement the Shelf Registration Statement or related Prospectus as may be necessary in order to enable such Registrable Shares to be distributed pursuant to the Shelf Underwritten Offering; provided, however, that the Shareholder shall not be entitled to deliver an aggregate of more than three (3) Take-Down Notices in any twelve (12) month period and the Shareholder

C-27

Table of Contents

may not deliver any Take- Down Notice within thirty (30) days after the effective date of any Registration Statement of the Company hereunder. For the avoidance of doubt, a Shelf Underwritten Offering shall count against the limit set forth in Section 6.1(b).

(b) In connection with any Shelf Underwritten Offering, in the event that the managing underwriter advises the Company and the Shareholder in writing that, in its good faith opinion, the total number or dollar amount of Registrable Shares requested by the Shareholder to be included therein exceeds the largest number or dollar amount of Registrable Shares that can be sold in such offering without adversely affecting the marketability of the offering (including an adverse effect on the per share offering price), the Company shall include in such registration or prospectus only such number of Registrable Shares that in the good faith opinion of such underwriter(s) can be sold in such offering without adversely affecting the marketability of the offering (including an adverse effect on the per share offering price).

Section 6.9 Rule 144; Rule 144A. The Company covenants that it will use its reasonable endeavors to timely file the reports required to be filed by it under the Securities Act and the Exchange Act and the rules and regulations adopted by the SEC thereunder, and to take such further action as the Shareholder may reasonably request, all to the extent required from time to time to enable the Shareholder to sell Registrable Shares without registration under the Securities Act within the limitation of the exemptions provided by (i) Rule 144 or Rule 144A or Regulation S under the Securities Act; or (ii) any similar rule or regulation hereafter adopted by the SEC. Upon the request of the Shareholder, the Company will deliver to the Shareholder a written statement as to whether it has complied with such requirements and, if not, the specifics thereof.

Section 6.10 Holdback. In consideration for the Company agreeing to its obligations under this Agreement, the Shareholder agrees, in connection with any underwritten offering made pursuant to a Registration Statement in which the Shareholder has elected to include Registrable Shares, upon the written request of the managing underwriter(s) of such offering, not to effect (other than pursuant to such underwritten offering) any public sale or distribution of Registrable Shares, including any sale pursuant to Rule 144 or Rule 144A, or make any short sale of, loan, grant any option for the purchase of, or otherwise Transfer (other than to a Permitted Transferee in accordance with Section 5.1(f)(i), any Registrable Shares or any securities convertible into or exchangeable or exercisable for any other securities of the Company without the prior written consent of the managing underwriter(s) during the Holdback Period. The Company agrees that the Shareholder shall only be bound so long as and to the extent that each other shareholder seeking to exercise registration rights with respect to such offering is similarly bound; provided that a request under this Section 6.10 shall not be effective more than once in any twelve (12) month period.

ARTICLE VII

MISCELLANEOUS

Section 7.1 Termination. Except with respect to the obligations set forth in Section 6.6, and Section 6.7, which shall survive the termination of this Agreement, this Agreement shall terminate and be of no further force and effect upon the earlier of (a) the later of (i) the tenth anniversary of the Closing Date; and (ii) the date that is three years after the first date on which the Shareholder shall cease to Beneficially Own Voting Securities representing at least the Ownership Threshold and (b) the consummation of a Change of Control with respect to the Company.

Section 7.2 Injunctive Relief. Each party hereto acknowledges that it would be impossible to determine the amount of damages that would result from any breach of any of the provisions of this Agreement and that the remedy at law for any breach, or threatened breach, of any of such provisions would likely be inadequate and, accordingly, agrees that the other party shall, in addition to any other rights or remedies which it may have, be entitled to such equitable and injunctive relief as may be available from any court of competent jurisdiction to compel specific performance of, or

restrain any party from violating, any of such provisions. In connection with any action or proceeding for injunctive relief, each party hereto hereby waives the claim or defense that a remedy at law alone is adequate and agrees, to the maximum extent

Except as contemplated by Section 5.1(f), none of the parties may directly or indirectly assign any of its rights or delegate any of its obligations under this Agreement without the prior written consent of the other party. Any purported direct or indirect assignment in violation of this Section 7.3 shall be null and void *ab initio*.

No amendment, modification or discharge of this Agreement, and no waiver hereunder, shall be valid or binding unless set forth in writing and duly executed by (i) the Company, where enforcement of the amendment, modification, discharge or waiver is sought against the Company; (ii) the Shareholder, where enforcement of the amendment, modification, discharge or waiver is sought against the Shareholder; or (iii) the Shareholder Parent, where enforcement of the amendment, modification, discharge or waiver is sought against the Shareholder Parent. Any such waiver shall constitute a waiver only with respect to the specific matter described in such writing and shall in no way impair the rights of the party granting such waiver in any other respect or at any other time. The waiver by the Company or the Shareholder of a breach of or a default under any of the provisions of this Agreement or the failure to exercise or delay in exercising any right or privilege hereunder, shall not be construed as a waiver of any other breach or default of a similar nature, or as a waiver of any of such provisions, rights or privileges hereunder. The rights and remedies herein provided are cumulative and none is exclusive of any other, or of any rights or remedies that any party may otherwise have at law or in equity.

Table of Contents

ARTICLE EIGHTH

Elections of directors need not be by written ballot unless a shareholder demands election by written ballot at a meeting of the shareholders and before voting begins or unless the Bylaws of the Corporation shall so provide.

Any action required or permitted to be taken at a meeting of shareholders or of a class of shareholders may be taken without a meeting upon written consent of all of the shareholders who would have been entitled to vote at a meeting held for such purpose.

ARTICLE NINTH

A. Limitation of Director's Liability. No director of the corporation shall be personally liable for monetary damages as such for any action taken or any failure to take any action unless: (a) the director has breached or failed to perform the duties of his or her office under Subchapter B of Chapter 17 of the Pennsylvania Business Corporation Law, and (b) the breach or failure to perform constitutes self-dealing, willful misconduct or recklessness; provided, however, that the provisions of this Article shall not apply to the responsibility or liability of a director pursuant to any criminal statute, or to the liability of a director for the payment of taxes pursuant to local, Pennsylvania or federal law.

B. Indemnification and Insurance.

(i) Indemnification of Directors and Officers.

(1) Each Indemnitee (as defined below) shall be indemnified and held harmless by the corporation for all actions taken by him or her and for all failures to take action (regardless of the date of any such action or failure to take action) to the fullest extent permitted by Pennsylvania law against all expense, liability and loss (including without limitation attorneys' fees, judgments, fines, taxes, penalties, and amounts paid or to be paid in settlement) reasonably incurred or suffered by the Indemnitee in connection with any Proceeding (as defined below). No indemnification pursuant to this Article shall be made, however, in any case where the act or failure to act giving rise to the claim for indemnification is determined by a court to have constituted self dealing, willful misconduct or recklessness.

(2) The right to indemnification provided in this Article shall include the right to have the expenses incurred by the Indemnitee in defending any Proceeding paid by the corporation in advance of the final disposition of the Proceeding to the fullest extent permitted by Pennsylvania law; provided that, if Pennsylvania law continues so to require, the payment of such expenses incurred by the Indemnitee in advance of the final disposition of a Proceeding shall be made only upon delivery to the corporation of an undertaking, by or on behalf of the Indemnitee, to repay all amounts so advanced without interest if it shall ultimately be determined that the Indemnitee is not entitled to be indemnified under this Article or otherwise.

(3) Indemnification pursuant to this Article shall continue as to an Indemnitee who has ceased to be a director or officers and shall inure to the benefit of his or her heirs, executors and administrators.

(4) For purposes of this Article, (A) Indemnitee shall mean each director or officer of the corporation who was or is a party to, or is threatened to be made a party to, or is otherwise involved in, any Proceeding, by reason of the fact that he or she is or was a director or officer of the corporation or is or was serving in any capacity at the request or for the benefit of the corporation as a director, officer, employee, agent, partner, or fiduciary of, or in any other capacity for, another corporation or any partnership, joint venture, trust, employee benefit plan, or other enterprise; and (B) Proceeding shall mean any threatened, pending or completed action, suit or proceeding (including without limitation an action, suit or proceeding by or in the right of the corporation), whether civil, criminal, administrative,

investigative or through arbitration.

D-2

Table of Contents

(ii) Indemnification of Employees and Other Persons. The corporation may, by action of its Board of Directors and to the extent provided in such action, indemnify employees and other persons as though they were Indemnitees. To the extent that an employee or agent of the corporation has been successful on the merits or otherwise in defense of any Proceeding or in defense of any claim, issues or matter therein, the corporation shall indemnify such person against expenses (including attorneys' fees) actually and reasonably incurred by such person in connection therewith.

(iii) Non-Exclusivity of Rights. The rights to indemnification and to the advancement of expenses provided in this Article shall not be exclusive of any other rights that any person may have or hereafter acquire under any statute, provision of the Articles or Bylaws, agreement, vote of shareholders or directors, or otherwise.

(iv) Insurance. The corporation may purchase and maintain insurance, at its expense, for the benefit of any person on behalf of whom insurance is permitted to be purchased by Pennsylvania law against any expense, liability or loss, whether or not the corporation would have the power to indemnify such person under Pennsylvania or other law. The corporation may also purchase and maintain insurance to insure its indemnification obligations whether arising hereunder or otherwise.

(v) Fund for Payment of Expenses. The corporation may create a fund of any nature, which may, but need not be, under the control of a trustee, or otherwise may secure in any manner its indemnification obligations, whether arising hereunder, under the Articles, by agreement, vote of shareholders or directors, or otherwise.

C. Amendment. The provisions of this Article TENTH relating to the limitation of directors' liability, to indemnification and to the advancement of expenses shall constitute a contract between the corporation and each of its directors and officers which may be modified as to any director or officer only with that person's consent or as specifically provided in this Article. Notwithstanding any other provision of these Articles relating to their amendment generally, any repeal or amendment of this Article TENTH which is adverse to any director or officer shall apply to such director or officer only on a prospective basis, and shall not reduce any limitation on the personal liability of a director of the corporation, or limit the rights of an Indemnitee to indemnification or to the advancement of expenses with respect to any action or failure to act occurring prior to the time of such repeal or amendment. Notwithstanding any other provision of these Articles, no repeal or amendment of these Articles shall affect any or all of this Article so as either to reduce the limitation of directors' liability or limit the vote of the directors of the corporation then serving, or (b) the affirmative vote of shareholders entitled to cast not less than a majority of the votes that all shareholders are entitled to cast in the election of directors; provided that no such amendment shall have retroactive effect inconsistent with the preceding sentence.

D. Changes in Pennsylvania Law. References in this Article TENTH to Pennsylvania law or to any provision thereof shall be to such law as it existed on the date this Article TENTH was adopted or as such law thereafter may be changed; provided that (a) in the case of any change which expands the liability of directors or limits the indemnification rights or the rights to advancement of expenses which the corporation may provide, the rights to limited liability, to indemnification and to the advancement of expenses provided in this Article shall continue as theretofore to the extent permitted by law; and (b) if such change permits the corporation without the requirement of any further action by shareholders or directors to limit further the liability of directors (or limit the liability of officers) or to provide broader indemnification rights or rights to the advancement of expenses than the corporation was permitted to provide prior to such change, then liability thereupon shall be so limited and the rights to indemnification and the advancement of expenses shall be so broadened to the extent permitted by law.

The Board may at any time before the allotment of any preferred share by further resolution in any way amend the designations, preferences, rights, qualifications, limitations or restrictions, or vary or revoke the designations of such preferred shares.

Notwithstanding the fixing of the number of preferred shares constituting a particular series upon the issuance thereof, the Board at any time thereafter may authorise the issuance of additional preferred shares of the same series subject always to the Companies Acts, the Memorandum and these Articles.

The rights conferred upon a Member holding any pre-existing shares in the share capital of the Company shall be deemed not to be varied by the creation, issue and allotment of preferred shares in accordance with this Article 15.

16. No dividend shall be declared and set apart for payment on any series of preferred shares in respect of any Dividend Period unless there shall likewise be or have been paid, or declared and set apart for payment, on all preferred shares of each other series entitled to cumulative dividends at the time outstanding that rank senior or equally as to dividends with the series in question, dividends ratably in accordance with the sums which would be payable on the said preferred shares through the end of the last preceding Dividend Period if all dividends were declared and paid in full.

20. Any share certificate, if issued, shall specify the number of Shares in respect of which it is issued and the amount paid thereon or the fact that they are fully paid, as the case may be, and may otherwise be in such form as shall be determined by the Board. Such certificates may be under Seal. All certificates for Shares shall be consecutively numbered or otherwise identified and shall specify the Shares to which they relate. The name and address of the person to whom the Shares represented thereby are issued, with the number of Shares and date of issue, shall be entered in the Register of Members of the Company. All certificates surrendered to the Company for transfer shall be cancelled and no new certificate shall be issued until the former certificate for a like number of Shares shall have been surrendered and cancelled. The Board may authorise certificates to be issued with the seal and authorised signature(s) affixed by some method or system of mechanical process. In respect of a Share or Shares held jointly by several persons, the Company shall not be bound to issue a certificate or certificates to each such person, and the issue and delivery of a certificate or certificates to one of several joint holders shall be sufficient delivery to all such holders.

21. If a share certificate is defaced, worn out, lost or destroyed, it may be renewed on such terms (if any) as to evidence and indemnity and on the payment of such expenses reasonably incurred by the Company in investigating such evidence, as the Board may prescribe, and, in the case of defacement or wearing out, upon delivery of the old certificate.

REGISTER OF MEMBERS

22. The Company shall maintain or cause to be maintained a Register of its Members in accordance with the Companies Acts.

23. If the Board considers it necessary or appropriate, the Company may establish and maintain a duplicate Register or Registers of Members at such location or locations within or outside Ireland as the Board thinks fit. The original Register of Members shall be treated as the Register of Members for the purposes of these Articles and the Companies Acts.

24. The Company, or any agent(s) appointed by it to maintain the duplicate Register of Members in accordance with these Articles, shall as soon as practicable and on a regular basis record or procure the recording in the original Register of Members all transfers of Shares effected on any duplicate Register of Members and shall at all times maintain the original Register of Members in such manner as to show at all times the Members for the time being and the Shares respectively held by them, in all respects in accordance with the Companies Acts.

25. The Company shall not be bound to register more than four persons as joint holders of any Share. If any Share shall stand in the names of two or more persons, the person first named in the Register of Members shall be deemed the sole holder thereof as regards service of notices and, subject to the provisions of these Articles, all or any other matters connected with the Company.

TRANSFER OF SHARES

26. All transfers of Shares may be effected by an instrument of transfer in the usual common form or in such other form as the Board may approve. previously been provided with a list of specimen signatures of the authorised signatories of such transferor and the Board shall be reasonably satisfied that such facsimile signature corresponds to one of those specimen signatures.

27.2 The instrument of transfer of any Share may be executed for and on behalf of the transferor by the Secretary or an Assistant Secretary, and the Secretary or Assistant Secretary shall be deemed to have been irrevocably appointed agent for the transferor of such Share or Shares with full power to execute, complete and deliver in the name of and on behalf of the transferor of such Share or Shares all such transfers of Shares held by the Members in the share capital of the Company. Any document which records the name of the transferor, the name of the transferee, the class and number of Shares agreed to be transferred, the date of the agreement to transfer Shares, shall, once executed by the transferor or the Secretary or Assistant Secretary as agent for the transferor, be deemed to be a proper instrument of transfer for the purposes of section 81 of the 1963 Act. The transferor shall be deemed to remain the holder of the Share until the name of the transferee is entered on the Register in respect thereof, and neither the title of the transferee nor the title of the transferor shall be affected by any irregularity or invalidity in the proceedings in reference to the sale should the Directors so determine.

27.3 The Company, at its absolute discretion, may, or may procure that a subsidiary of the Company shall, pay Irish stamp duty arising on a transfer of Shares on behalf of the transferee of such Shares of the Company. If stamp duty resulting from the transfer of Shares in the Company which would otherwise be payable by the transferee is paid by the Company or any subsidiary of the Company on behalf of the transferee, then in those circumstances, the Company shall, on its behalf or on behalf of its subsidiary (as the case may be), be entitled to (i) seek reimbursement of the stamp duty from the transferee, (ii) set-off the stamp duty against any dividends payable to the transferee of those Shares and (iii) to claim a first and permanent lien on the Shares on which stamp duty has been paid by the Company or its subsidiary for the amount of stamp duty paid. The Company's lien shall extend to all dividends paid on those Shares.

27.4 Notwithstanding the provisions of these Articles and subject to any regulations made under section 239 of the 1990 Act, title to any Shares in the Company may also be evidenced and transferred without a written instrument in accordance with section 239 of the 1990 Act or any regulations made thereunder. The Directors shall have power to permit any class of Shares to be held in uncertificated form and to implement any arrangements they think fit for such evidencing and transfer which accord with such regulations and in particular shall, where appropriate, be entitled to disapply or modify all or part of the provisions in these Articles with respect to the requirement for written instruments of transfer and share certificates (if any), in order to give effect to such regulations.

28. The Board, may in its absolute discretion and without assigning any reason for its decision, decline to register any transfer of any Share which is not a fully paid Share. The Board may also, in its absolute discretion, and without assigning any reason, refuse to register a transfer of any Share unless:

28.1 the instrument of transfer is lodged with the Company accompanied by the certificate for the Shares (if any) to which it relates (which shall upon registration of the transfer be cancelled) and such other evidence as the Board may reasonably require to show the right of the transferor to make the transfer;

28.2 the instrument of transfer is in respect of only one class of Shares;

28.3 the instrument of transfer is properly stamped (in circumstances where stamping is required);

28.4 in the case of a transfer to joint holders, the number of joint holders to which the Share is to be transferred does not exceed four;

28.5 it is satisfied, acting reasonably, that all applicable consents, authorisations, permissions or approvals of any governmental body or agency in Ireland or any other applicable jurisdiction required to be obtained under relevant law prior to such transfer have been obtained; and

28.6 it is satisfied, acting reasonably, that the transfer would not violate the terms of any agreement to which the Company (or any of its subsidiaries) and the transferor are party or subject.

29. If the Board shall refuse to register a transfer of any Share, it shall, within two (2) months after the date on which the transfer was lodged with the Company, send to each of the transferor and the transferee notice of such refusal.

30. The Company shall not be obligated to make any transfer to an infant or to a person in respect of whom an order has been made by a competent court or official on the grounds that she is or may be suffering from mental disorder or is otherwise incapable of managing her affairs or under other legal disability.

31. Upon every transfer of Shares the certificate (if any) held by the transferor shall be given up to be cancelled, and shall forthwith be cancelled accordingly, and subject to Article 19 a new certificate may be issued without charge to the transferee in respect of the Shares transferred to her, and if any of the Shares included in the certificate so given up shall be retained by the transferor, a new certificate in respect thereof may be issued to her without charge. The Company shall also retain the instrument(s) of transfer.

REDEMPTION AND REPURCHASE OF SHARES

32. Subject to the provisions of the Companies Act and these Articles, the Company may, pursuant to Section 207 of the 1990 Act, issue any Shares of the Company which are to be redeemed or are liable to be redeemed at the option of the Member of the Company on such terms and in such manner as may be determined by the Company in general meeting (by Special Resolution) on the recommendation of the Board.

33. Subject to the Companies Acts, the Company may, without prejudice to any relevant special rights attached to any class of Shares pursuant to section 211 of the 1990 Act, purchase any of its own Shares (including any Redeemable Shares and without any obligation to purchase on any *pro rata* basis as between Members or Members of the same class) and may cancel any Shares so purchased or hold them as treasury shares (as defined in section 209 of the 1990 Act) and may reissue any such Shares as Shares of any class or classes.

34. The Company may make a payment in respect of the redemption or purchase of its own Shares in any manner permitted by the Companies Acts.

35. The holder of the Shares being purchased shall be bound to deliver up to the Company at its registered office or such other place as the Board shall specify, the certificate(s) (if any) thereof for cancellation and thereupon the Company shall pay to her the purchase or redemption monies or consideration in respect thereof.

VARIATION OF RIGHTS OF SHARES

36. If at any time the share capital of the Company is divided into different classes of Shares, the rights attached to any class (unless otherwise provided by the terms of issue of the Shares of that class) may be varied or abrogated with the consent in writing of the holders of three-quarters of all the votes of the issued Shares of that class, or with the sanction of a Special Resolution passed at a general meeting of the holders of the Shares of that class.

37. The provisions of these Articles relating to general meetings of the Company shall apply *mutatis mutandis* to every such general meeting of the holders of one class of Shares except that the necessary quorum shall be one or more persons holding or representing by proxy at least one-half of the issued Shares of the class.

38. The rights conferred upon the holders of the Shares of any class issued with preferred or other rights shall not, unless otherwise expressly provided by the terms of issue of the Shares of that class, be deemed to be varied by (i) the

creation or issue of further Shares ranking *pari passu* therewith; (ii) a purchase or redemption by the Company of its own Shares; or (iii) the creation or issue for full value (as determined by

E-15

the Board) of further Shares ranking as regards participation in the profits or assets of the Company or otherwise in priority to them.

LIEN ON SHARES

39. The Company shall have a first and paramount lien on every Share (not being a fully paid Share) for all monies (whether presently payable or not) payable at a fixed time or called in respect of that Share. The Directors, at any time, may declare any Share to be wholly or in part exempt from the provisions of this Article. The Company's lien on a Share shall extend to all monies payable in respect of it.

40. The Company may sell in such manner as the Directors determine any Share on which the Company has a lien if a sum in respect of which the lien exists is presently payable and is not paid within fourteen clear days after notice demanding payment, and stating that if the notice is not complied with the Share may be sold, has been given to the holder of the Share or to the person entitled to it by reason of the death or bankruptcy of the holder.

41. To give effect to a sale, the Directors may authorise some person to execute an instrument of transfer of the Share sold to, or in accordance with the directions of, the transferee. The transferee shall be entered in the Register as the holder of the Share comprised in any such transfer and she shall not be bound to see to the application of the purchase monies nor shall her title to the Share be affected by any irregularity in or invalidity of the proceedings in reference to the sale, and after the name of the transferee has been entered in the Register, the remedy of any person aggrieved by the sale shall be in damages only and against the Company exclusively.

42. The net proceeds of the sale, after payment of the costs, shall be applied in payment of so much of the sum for which the lien exists as is presently payable and any residue (upon surrender to the Company for cancellation of the certificate for the Shares sold and subject to a like lien for any monies not presently payable as existed upon the Shares before the sale) shall be paid to the person entitled to the Shares at the date of the sale.

43. Whenever any law for the time being of any country, state or place imposes or purports to impose any immediate or future or possible liability upon the Company to make any payment or empowers any government or taxing authority or government official to require the Company to make any payment in respect of any Shares registered in the Register as held either jointly or solely by any Members or in respect of any dividends, bonuses or other monies due or payable or accruing due or which may become due or payable to such Member by the Company on or in respect of any Shares registered as mentioned above or for or on account or in respect of any Member and whether in consequence of:

43.1 the death of such Member;

43.2 the non-payment of any income tax or other tax by such Member;

43.3 the non-payment of any estate, probate, succession, death, stamp or other duty by the executor or administrator of such Member or by or out of her estate; or

43.4 any other act or thing;

in every such case (except to the extent that the rights conferred upon holders of any class of Shares under the Company liable to make additional payments in respect of sums withheld on account of the foregoing):

43.5 the Company shall be fully indemnified by such Member or her executor or administrator from all liability;

43.6 the Company shall have a lien upon all dividends and other monies payable in respect of the Shares registered in the Register as held either jointly or solely by such Member for all monies paid or payable by the Company as referred to above in respect of such Shares or in respect of any dividends or other monies thereon or for or on account or in respect of such Member under or in consequence of any

such law, together with interest at the rate of 15% per annum (or such other rate as the Board may determine) thereon from the date of payment to date of repayment, and the Company may deduct or set off against such dividends or other monies so payable any monies paid or payable by the Company as referred to above together with interest at the same rate;

43.7 the Company may recover as a debt due from such Member or her executor or administrator (wherever constituted) any monies paid by the Company under or in consequence of any such law and interest thereon at the rate and for the period referred to above in excess of any dividends or other monies then due or payable by the Company; and

43.8 the Company may if any such money is paid or payable by it under any such law as referred to above refuse to register a transfer of any Shares by any such Member or her executor or administrator until such money and interest is set off or deducted as referred to above or in the case that it exceeds the amount of any such dividends or other monies then due or payable by the Company, until such excess is paid to the Company.

Subject to the rights conferred upon the holders of any class of Shares, nothing in this Article 43 will prejudice or affect any right or remedy which any law may confer or purport to confer on the Company. As between the Company and every such Member as referred to above (and, her executor, administrator and estate, wherever constituted), any right or remedy which such law shall confer or purport to confer on the Company shall be enforceable by the Company.

CALLS ON SHARES

44. Subject to the terms of allotment, the Directors may make calls upon the Members in respect of any monies unpaid on their Shares and each Member (subject to receiving at least fourteen clear days' notice specifying when and where payment is to be made) shall pay to the Company as required by the notice the amount called on her Shares. A call may be required to be paid by instalments. A call may be revoked before receipt by the Company of a sum due thereunder, in whole or in part and payment of a call may be postponed in whole or in part.

45. A call shall be deemed to have been made at the time when the resolution of the Directors authorising the call was passed.

46. A person on whom a call is made shall (in addition to a transferee) remain liable notwithstanding the subsequent transfer of the Share in respect of which the call is made.

47. The joint holders of a Share shall be jointly and severally liable to pay all calls in respect thereof.

48. If a call remains unpaid after it has become due and payable, the person from whom it is due and payable shall pay interest on the amount unpaid from the day it became due until it is paid at the rate fixed by the terms of allotment of the Share or in the notice of the call or, if no rate is fixed, at the appropriate rate (as defined by the Companies Acts) but the Directors may waive payment of the interest wholly or in part.

49. An amount payable in respect of a Share on allotment or at any fixed date, whether in respect of nominal value by way of premium, shall be deemed to be a call and if it is not paid the provisions of these Articles shall apply as if that amount had become due and payable by virtue of a call.

50. Subject to the terms of allotment, the Directors may make arrangements on the issue of Shares for a difference between the holders in the amounts and times of payment of calls on their Shares.

51. The Directors may, if they think fit, receive from any Member willing to advance the same all or any part of the monies uncalled and unpaid upon any Shares held by her, and upon all or any of the monies so advanced may pay (until the same would, but for such advance, become payable) interest at such rate as may be agreed upon between the Directors and the Member paying such sum in advance.

FORFEITURE

52. If a Member fails to pay any call or instalment of a call on the day appointed for payment thereof, the Directors, at any time thereafter during such times as any part of the call or instalment remains unpaid, may serve a notice on her requiring payment of so much of the call or instalment as is unpaid together with any interest which may have accrued.

53. The notice shall state a further day (not earlier than the expiration of fourteen clear days from the date of service of the notice) on or before which the payment required by the notice is to be made, and shall state that in the event of non-payment at or before the time appointed the Shares in respect of which the call was made will be liable to be forfeited.

54. If the requirements of any such notice as aforesaid are not complied with then, at any time thereafter before the payment required by the notice has been made, any Shares in respect of which the notice has been given may be forfeited by a resolution of the Directors to that effect. The forfeiture shall include all dividends or other monies payable in respect of the forfeited Shares and not paid before forfeiture. The Directors may accept a surrender of any Share liable to be forfeited hereunder.

55. On the trial or hearing of any action for the recovery of any money due for any call it shall be sufficient to prove that the name of the Member sued is entered in the Register as the holder, or one of the holders, of the Shares in respect of which such debt accrued, that the resolution making the call is duly recorded in the minute book and that notice of such call was duly given to the Member sued, in pursuance of these Articles, and it shall not be necessary to prove the appointment of the Directors who made such call nor any other matters whatsoever, but the proof of the matters aforesaid shall be conclusive evidence of the debt.

56. A forfeited Share may be sold or otherwise disposed of on such terms and in such manner as the Directors think fit and at any time before a sale or disposition the forfeiture may be cancelled on such terms as the Directors think fit. Where for the purposes of its disposal such a Share is to be transferred to any person, the Directors may authorise some person to execute an instrument of transfer of the Share to that person. The Company may receive the consideration, if any, given for the Share on any sale or disposition thereof and may execute a transfer of the Share in favour of the person to whom the Share is sold or disposed of and thereupon she shall be registered as the holder of the Share and shall not be bound to see to the application of the purchase money, if any, nor shall her title to the Share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale or disposal of the Share.

57. A person whose Shares have been forfeited shall cease to be a Member in respect of the forfeited Shares, but nevertheless shall remain liable to pay to the Company all monies which, at the date of forfeiture, were payable by her to the Company in respect of the Shares, without any deduction or allowance for the value of the Shares at the time of forfeiture but her liability shall cease if and when the Company shall have received payment in full of all such monies in respect of the Shares.

58. A statutory declaration or affidavit that the declarant is a Director or the Secretary of the Company, and that a Share in the Company has been duly forfeited on the date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the Share.

59. The provisions of these Articles as to forfeiture shall apply in the case of non-payment of any sum which, by the terms of issue of a Share, becomes payable at a fixed time, whether on account of the nominal value of the Share or by way of premium, as if the same had been payable by virtue of a call duly made and notified.

60. The Directors may accept the surrender of any Share which the Directors have resolved to have been forfeited upon such terms and conditions as may be agreed and, subject to any such terms and conditions, a surrendered Share shall be treated as if it has been forfeited.

NON-RECOGNITION OF TRUSTS

61. The Company shall not be obligated to recognise any person as holding any Share upon any trust (except as is otherwise provided in these Articles or to the extent required by law) and the Company shall not be bound by or be compelled in any way to recognise (even when having notice thereof) any equitable, contingent, future, or partial interest in any Share, or any interest in any fractional part of a Share, or (except only as is otherwise provided by these Articles or the Companies Acts) any other rights in respect of any Share except an absolute right to the entirety thereof in the registered holder. This shall not preclude the Company from requiring the Members or a transferee of Shares to furnish to the Company with information as to the beneficial ownership of any Share when such information is reasonably required by the Company.

TRANSMISSION OF SHARES

62. In case of the death of a Member, the survivor or survivors where the deceased was a joint holder, and the legal personal representatives of the deceased where she was a sole holder, shall be the only persons recognised by the Company as having any title to her interest in the Shares, but nothing herein contained shall release the estate of any such deceased holder from any liability in respect of any Shares which had been held by her solely or jointly with other persons.

63. Any person becoming entitled to a Share in consequence of the death or bankruptcy or liquidation or dissolution of a Member (or in any other way than by transfer) may, upon such evidence being produced as may from time to time be required by the Board and subject as hereinafter provided, elect either to be registered himself as holder of the Share or to make such transfer of the Share to such other person nominated by her and to have such person registered as the transferee thereof, but the Board shall, in either case, have the same right to decline or suspend registration as they would have had in the case of a transfer of the Share by that Member before her death or bankruptcy as the case may be.

64. If the person so becoming entitled shall elect to be registered himself as holder, she shall deliver or send to the Company a notice in writing signed by her stating that she so elects.

65. Subject to Article 66, a person becoming entitled to a Share by reason of the death or bankruptcy or liquidation or dissolution of the holder (or in any other case than by transfer) shall be entitled to the same dividends and other advantages to which she would be entitled if she were the registered holder of the Share, except that she shall not, before being registered as a Member in respect of the Share, be entitled in respect of it to exercise any right conferred by Membership in relation to meetings of the Company provided however that the Board may at any time give notice requiring any such person to elect either to be registered himself or to transfer the Share and if the notice is not complied with within ninety days the Board may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the Share until the requirements of the notice have been complied with.

66. The Board may at any time give notice requiring a person entitled by transmission to a Share to elect either to be registered himself or to transfer the Share and if the notice is not complied with within 60 days the Board may withhold payment of all dividends and other monies payable in respect of the Share until the requirements of the notice have been complied with.

**AMENDMENT OF MEMORANDUM OF ASSOCIATION;
CHANGE OF LOCATION OF REGISTERED OFFICE; AND
ALTERATION OF CAPITAL**

67. The Company may by Ordinary Resolution:

67.1 divide its share capital into several classes and attach to them respectively any preferential, deferred, qualified or special rights, privileges or conditions;

67.2 increase the authorised share capital by such sum to be divided into Shares of such nominal value, as such Ordinary Resolution shall prescribe;

E-19

Table of Contents

67.3 consolidate and divide all or any of its share capital into Shares of larger amount than its existing Shares;

67.4 by subdivision of its existing Shares or any of them divide the whole or any part of its share capital into Shares of smaller nominal value than is fixed by the Memorandum subject to section 68(1)(d) of the 1963 Act, so, however, that in the sub-division the proportion between the amount paid and the amount, if any, unpaid on each reduced Share shall be the same as it was in the case of the Share from which the reduced Share is derived;

67.5 cancel any Shares that at the date of the passing of the relevant Ordinary Resolution have not been taken or agreed to be taken by any person; and

67.6 subject to applicable law, change the currency denomination of its share capital.

68. Subject to the provisions of the Companies Acts, the Company may:

68.1 by Special Resolution change its name, alter or add to the Memorandum with respect to any objects, powers or other matters specified therein or alter or add to these Articles;

68.2 by Special Resolution reduce its issued share capital and any capital redemption reserve fund or any share premium account. In relation to such reductions, the Company may by Special Resolution determine the terms upon which the reduction is to be effected, including in the case of a reduction of part only of any class of Shares, those Shares to be affected; and

68.3 by resolution of the Directors change the location of its registered office.

69. Whenever as a result of an alteration or reorganisation of the share capital of the Company any Members would become entitled to fractions of a Share, the Directors may, on behalf of those Members, sell the Shares representing the fractions for the best price reasonably obtainable to any person and distribute the proceeds of sale in due proportion among those Members, and the Directors may authorise any person to execute an instrument of transfer of the Shares to, or in accordance with the directions of, the purchaser. The transferee shall not be bound to see to the application of the purchase money nor shall her title to the Shares be affected by any irregularity in or invalidity of the proceedings in reference to the sale.

CLOSING REGISTER OF MEMBERS OR FIXING RECORD DATE

70. For the purpose of determining Members entitled to notice of or to vote at any meeting of Members or any adjournment thereof, or Members entitled to receive payment of any dividend, or in order to make a determination of Members for any other proper purpose, the Board may provide, subject to the requirements of section 121 of the 1963 Act, that the Register of Members shall be closed for transfers at such times and for such periods, not exceeding in the whole 30 days in each year. If the Register of Members shall be so closed for the purpose of determining Members entitled to notice of or to vote at a meeting of Members such Register of Members shall be so closed for at least five (5) days immediately preceding such meeting and the record date for such determination shall be the date of the closure of the Register of Members.

71. In lieu of, or apart from, closing the Register of Members, the Board may fix in advance a date as the record date (a) for any such determination of Members entitled to notice of or to vote at a meeting of the Members, which record date shall not be more than ninety (90) days nor less than ten (10) days before the date of such meeting, and (b) for the purpose of determining the Members entitled to receive payment of any dividend, or in order to make a determination of Members for any other proper purpose, which record date shall not be more than ninety (90) days prior to the date of payment of such dividend or the taking of any action to which such determination of Members is relevant. The

record date shall not precede the date upon which the resolution fixing the record date is adopted by the Directors.

72. If the Register of Members is not so closed and no record date is fixed for the determination of Members entitled to notice of or to vote at a meeting of Members or Members entitled to receive payment of a dividend, the date immediately preceding the date on which notice of the meeting is deemed given under these Articles or the date on which the resolution of the Directors declaring such dividend is adopted, as the

E-20

case may be, shall be the record date for such determination of Members. When a determination of Members entitled to vote at any meeting of Members has been made as provided in these Articles, such determination shall apply to any adjournment thereof; provided, however, that the Directors may fix a new record date of the adjourned meeting, if they think fit.

GENERAL MEETINGS

73. The Board shall convene and the Company shall hold annual general meetings in accordance with the requirements of the Companies Acts.

74. The Board may, whenever it thinks fit, and shall, on the requisition in writing of Members holding such number of Shares as is prescribed by, and made in accordance with, section 132 of the 1963 Act, convene a general meeting in the manner required by the Companies Acts. All general meetings other than annual general meetings shall be called extraordinary general meetings.

75. The Company shall in each year hold a general meeting as its annual general meeting in addition to any other meeting in that year, and shall specify the meeting as such in the notices calling it. Not more than fifteen months shall elapse between the date of one annual general meeting of the Company and that of the next. Subject to section 140 of the 1963 Act, all general meetings may be held outside of Ireland.

76. Each general meeting shall be held at such time and place as specified in the notice of meeting.

77. The Board may, in its absolute discretion, authorise the Secretary to postpone any general meeting called in accordance with the provisions of these Articles (other than a meeting requisitioned under Article 74 of these Articles or the postponement of which would be contrary to the Companies Acts, law or a court order pursuant to the Companies Acts) if the Board considers that, for any reason, it is impractical or unreasonable to hold the general meeting, provided that notice of postponement is given to each Member before the time for such meeting. Fresh notice of the date, time and place for the postponed meeting shall be given to each Member in accordance with the provisions of these Articles.

NOTICE OF GENERAL MEETINGS

78. Subject to the provisions of the Companies Acts allowing a general meeting to be called by shorter notice, an annual general meeting, and an extraordinary general meeting called for the passing of a Special Resolution, shall be called by at least twenty-one (21) clear days' notice and all other extraordinary general meetings shall be called by at least fourteen (14) clear days' notice. Such notice shall state the date, time, place of the meeting and, in the case of an extraordinary general meeting, the general nature of the business to be considered. Every notice shall be exclusive of the day on which it is given or deemed to be given and of the day for which it is given and shall specify such other details as are required by applicable law or the relevant code, rules and regulations applicable to the listing of the Shares on the Exchange.

79. A general meeting of the Company shall, whether or not the notice specified in this Article has been given and whether or not the provisions of the Articles regarding general meetings have been complied with, be deemed to have been duly convened if applicable law so permits and it is so agreed by the Auditors and by all the Members entitled to attend and vote thereat or their proxies.

80. The notice convening an annual general meeting shall specify the meeting as such, and the notice convening a meeting to pass a Special Resolution shall specify the intention to propose the resolution as a Special Resolution. Notice of every general meeting shall be given in any manner permitted by these Articles to all Members other than

such as, under the provisions hereof or the terms of issue of the Shares they hold, are not entitled to receive such notice from the Company.

81. There shall appear with reasonable prominence in every notice of general meetings of the Company a statement that a Member entitled to attend and vote is entitled to appoint a proxy to attend and vote instead of her and that a proxy need not be a Member of the Company.

E-21

Table of Contents

82. The accidental omission to give notice of a general meeting to, or the non-receipt of notice of a meeting by any person entitled to receive notice shall not invalidate the proceedings of that meeting.

83. In cases where instruments of proxy are sent out with notices, the accidental omission to send such instrument of proxy to, or the non-receipt of such instrument of proxy by, any person entitled to receive notice shall not invalidate any resolution passed or any proceeding at any such meeting. A Member present, either in person or by proxy, at any general meeting of the Company or of the holders of any class of Shares in the Company, will be deemed to have received notice of that meeting and, where required, of the purpose for which it was called.

PROCEEDINGS AT GENERAL MEETINGS

84. All business shall be deemed special that is transacted at an extraordinary general meeting, and also all that is transacted at an annual general meeting, with the exception of declaring a dividend, the consideration of the accounts, balance sheets and the reports of the Directors and Auditors, the election of Directors, the re-appointment of the retiring Auditors and the fixing of the remuneration of the Auditors.

85. No business shall be transacted at any general meeting unless a quorum is present. One or more Members present in person or by proxy holding not less than a majority of the issued and outstanding Shares of the Company entitled to vote at the meeting in question shall be a quorum.

86. If within one hour from the time appointed for the meeting a quorum is not present, the meeting, if convened upon the requisition of Members, shall be dissolved and in any other case it shall stand adjourned to the same day in the next week at the same time and place or to such other time or such other place as the Board may determine and if at the adjourned meeting a quorum is not present within one hour from the time appointed for the meeting the Members present shall be a quorum.

87. If the Board wishes to make this facility available to Members for a specific or all general meetings of the Company, a Member may participate in any general meeting of the Company, by means of a telephone, video, electronic or similar communication equipment by way of which all persons participating in such meeting can communicate with each other simultaneously and instantaneously and such participation shall be deemed to constitute presence in person at the meeting.

88. Each Director and the Auditors shall be entitled to attend and speak at any general meeting of the Company.

89. The Chairman, if any, of the Board, and, if the Chairman is not present, such officer or other person as the Board shall designate, shall preside as chairman at every general meeting of the Company.

90. The Chairman may, with the consent of any general meeting duly constituted hereunder, and shall if so directed by the meeting, adjourn the meeting from time to time and from place to place, but no business shall be transacted at any adjourned meeting other than the business left unfinished, or which might have been transacted, at the meeting from which the adjournment took place. When a general meeting is adjourned for thirty days or more, notice of the adjourned meeting shall be given as in the case of an original meeting; save as aforesaid it shall not be necessary to give any notice of an adjournment or of the business to be transacted at an adjourned general meeting.

91.

91.1 Subject to the Companies Acts, a resolution may only be put to a vote at a general meeting of the Company or of any class of Members if:

(a) it is proposed by or at the direction of the Board; or

(b) it is proposed at the direction of the Court; or

(c) it is proposed on the requisition in writing of such number of Members as is prescribed by, and is made in accordance with, section 132 of the 1963 Act;

E-22

Table of Contents

(d) it is proposed pursuant to, and in accordance with the procedures and requirements of, Articles 99 or 100; or

(e) the Chairman of the meeting in her absolute discretion decides that the resolution may properly be regarded as within the scope of the meeting.

91.2 No amendment may be made to a resolution, at or before the time when it is put to a vote, unless the Chairman of the meeting in her absolute discretion decides that the amendment or the amended resolution may properly be put to a vote at that meeting.

91.3 If the Chairman of the meeting rules a resolution or an amendment to a resolution admissible or out of order (as the case may be), the proceedings of the meeting or on the resolution in question shall not be invalidated by any error in her ruling. Any ruling by the Chairman of the meeting in relation to a resolution or an amendment to a resolution shall be final and conclusive.

92. Except where a greater majority is required by the Companies Acts or these Articles, any question proposed for a decision of the Members at any general meeting of the Company or a decision of any class of Members at a separate meeting of any class of Shares shall be decided by an Ordinary Resolution.

93. At any general meeting a resolution put to the vote of the meeting shall be decided on a poll. The Board or the Chairman may determine the manner in which the poll is to be taken and the manner in which the votes are to be counted.

94. A poll demanded on the election of the Chairman or on a question of adjournment shall be taken forthwith. A poll demanded on any other question shall be taken at such time, not being more than ten days from the date of the meeting or adjourned meeting at which the vote was taken, as the Chairman of the meeting directs, and any business other than that on which a poll has been demanded may be proceeded with pending the taking of the poll.

95. No notice need be given of a poll not taken immediately. The result of the poll shall be deemed to be the resolution of the general meeting at which the poll was demanded. On a poll a Member entitled to more than one vote need not use all her votes or cast all the votes she uses in the same way.

96. If authorised by the Board, any vote taken by written ballot may be satisfied by a ballot submitted by electronic or telephonic transmission, provided that any such electronic or telephonic submission must either set forth or be submitted with information from which it can be determined that the electronic submission has been authorised by the Member or proxy.

97. The Board may, and at any general meeting, the chairman of such meeting may make such arrangement and impose any requirement or restriction it or she considers appropriate to ensure the security of a general meeting including, without limitation, requirements for evidence of identity to be produced by those attending the meeting, the searching of personal property and the restriction of items that may be taken into the meeting place. The Board and, at any general meeting, the chairman of such meeting are entitled to refuse entry to a person who refuses to comply with such arrangements, requirements or restrictions.

98. Subject to section 141 of the 1963 Act, a resolution in writing signed by all of the Members for the time being entitled to attend and vote on such resolution at a general meeting (or being bodies corporate by their duly authorised representatives) shall be as valid and effective for all purposes as if the resolution had been passed at a general meeting of the Company duly convened and held, and may consist of several documents in like form each signed by one or more persons, and if described as a special resolution shall be deemed to be a special resolution within the meaning of the 1963 Act. Any such resolution shall be served on the Company.

direction of the Board or any authorised committee thereof or (c) by any Member who (i) complies with the notice procedures set forth in Articles 100 or 101, as applicable, (ii) was a Member at the time such notice is delivered to the Secretary and on the record date for the determination of Members entitled to vote at such general meeting and (iii) is present at the relevant general meeting, either in person or by proxy, to present her nomination, provided, however, that Members shall only be entitled to nominate persons for election to the Board at annual general meetings or at general meetings called specifically for the purpose of electing Directors.

100. For nominations of persons for election to the Board (other than Directors to be nominated by any series of preferred shares, voting separately as a class) to be properly brought before an annual general meeting by a Member, such annual general meeting must have been called for the purpose of, among other things, electing directors and such Member must have given timely notice thereof in writing to the Secretary. To be timely, a Member's notice shall be delivered to the Secretary at the registered office of the Company, or such other address as the Secretary may designate, not less than 90 days nor more than 150 days prior to the first anniversary of the date the Company's proxy statement was first released to Members in connection with the prior year's annual general meeting; provided, however, that in the event the date of the annual general meeting is changed by more than 30 days from the first anniversary date of the prior year's annual general meeting, notice by the Member of Shares to be timely must be so delivered not earlier than the 150th day prior to such annual general meeting and not later than the later of the 90th day prior to such annual general meeting or the 10th day following the day on which public announcement of the date of such meeting is first made. Such Member's notice shall set forth (a) as to each person whom the Member proposes to nominate for election or re-election as a director, all information relating to such person that is required to be disclosed in solicitations of proxies for election of directors in an election contest, or is otherwise required, in each case pursuant to Regulation 14A under the Securities Exchange Act of 1934, of the United States of America, as amended (the **Exchange Act**), or any successor provisions thereto, including such person's written consent to being named in the proxy statement as a nominee and to serving as a Director of the Company if elected and (b) as to the Member giving the notice (i) the name and address of such Member, as they appear on the Register of Members, (ii) the class and number of Shares that are owned beneficially and/or of record by such Member, (iii) a representation that the Member is a registered holder of Shares entitled to vote at such meeting and intends to appear in person or by proxy at the meeting to propose such nomination and (iv) a statement as to whether the Member intends or is part of a group that intends (x) to deliver a proxy statement and/or form of proxy to holders of at least the percentage of the Company's outstanding share capital required to approve or elect the nominee and/or (xi) otherwise to solicit proxies from Members in support of such nomination. The Board may require any proposed nominee to furnish such other information as it may reasonably require to determine the eligibility of such proposed nominee to serve as a director of the Company, including such evidence satisfactory to the Board that such nominee has no interests that would limit such nominee's ability to fulfil her duties as a Director.

101. For nominations of persons for election to the Board (other than directors to be nominated by any series of preferred shares, voting separately as a class) to be properly brought before a general meeting called for the purpose of the election of directors, other than an annual general meeting by a Member, such Member must have given timely notice thereof in writing to the Secretary. To be timely, a Member's notice shall be delivered to the Secretary at the registered office of the Company or such other address as the Secretary may designate, not earlier than the 150th day prior to such general meeting and not later of the 90th day prior to such general meeting or the 10th day following the day on which public announcement is first made of the date of the general meeting and of the nominees proposed by the Board to be elected at such meeting. Such Member's notice shall set forth the same information as is required by provisions (a) and (b) of Article 100.

102. Unless otherwise provided by the terms of any series of preferred shares or any agreement among Members or other agreement approved by the Board, only persons who are nominated in accordance with the procedures set forth in Articles 100 and 101 shall be eligible to serve as Directors of the Company. If the Chairman of a general meeting determines that a proposed nomination was not made in compliance with Articles 100 and 101, she shall declare to the

meeting that nomination is defective and such defective nomination shall be disregarded. Notwithstanding the foregoing provisions of these Articles, if the Member (or a qualified representative of the Member) does not appear at the general meeting to present her nomination, such nomination shall be disregarded.

VOTES OF MEMBERS

103. Subject to any rights or restrictions for the time being attached to any class or classes of Shares, every Member of record present in person or by proxy shall have one vote for each Share registered in her name in the Register of Members.

104. In the case of joint holders of record the vote of the senior holder who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders, and for this purpose seniority shall be determined by the order in which the names stand in the Register of Members.

105. A Member of unsound mind, or in respect of whom an order has been made by any court, having jurisdiction in lunacy, may vote by her committee, receiver, curator bonis, or other person in the nature of a committee, receiver or curator bonis appointed by that court, and any such committee, receiver, curator bonis or other persons may vote by proxy.

106. No Member shall be entitled to vote at any general meeting unless she is registered as a Member on the record date for such meeting.

107. No objection shall be raised to the qualification of any voter except at the general meeting or adjourned general meeting at which the vote objected to is given or tendered and every vote not disallowed at such general meeting shall be valid for all purposes. Any such objection made in due time shall be referred to the Chairman of the general meeting whose decision shall be final and conclusive.

108. Votes may be given either personally or by proxy. A Member may appoint more than one proxy or the same proxy under one or more instruments to attend and vote at a meeting and may appoint one proxy to vote both in favour of and against the same resolution in such proportion as specified in the instrument appointing the proxy. Where a Member appoints more than one proxy the instrument of proxy shall state which proxy is entitled to vote on a show of hands.

PROXIES AND CORPORATE REPRESENTATIVES

109.

109.1 Every Member entitled to attend and vote at a general meeting may appoint a proxy to attend, speak and vote on her behalf and may appoint more than one proxy to attend, speak and vote at the same meeting. The appointment of a proxy or corporate representative shall be in such form and may be accepted by the Company at such place and at such time as the Board or the Secretary shall from time to time determine, subject to applicable requirements of the United States Securities and Exchange Commission and the Exchange on which the Shares are listed. No such instrument appointing a proxy or corporate representative shall be voted or acted upon after 2 years from its date.

109.2 Without limiting the foregoing, the Directors may from time to time permit appointments of a proxy to be made by means of an electronic or internet communication or facility and may in a similar manner permit supplements to, or amendments or revocations of, any such electronic or internet communication or facility to be made. The Directors may in addition prescribe the method of determining the time at which any such electronic or internet communication or facility is to be treated as received by the Company. The Directors may treat any such electronic or internet communication or facility which purports to be or is expressed to be sent on behalf of a Member as sufficient evidence of the authority of the person sending that instruction to send it on behalf of that Member.

110. Any body corporate which is a Member of the Company may authorise such person as it thinks fit to act as its representative at any meeting of the Company or of any class of Members of the Company and the person so authorised shall be entitled to exercise the same powers on behalf of the body corporate which she represents as that body corporate could exercise if it were an individual Member of the Company. The Company may require evidence from the body corporate of the due authorisation of such person to act as the representative of the relevant body corporate.

111. An appointment of proxy relating to more than one meeting (including any adjournment thereof) having once been received by the Company for the purposes of any meeting shall not require to be delivered, deposited or received again by the Company for the purposes of any subsequent meeting to which it relates.

112. Receipt by the Company of an appointment of proxy in respect of a meeting shall not preclude a Member from attending and voting at the meeting or at any adjournment thereof which attendance and voting will automatically cancel any proxy previously submitted.

113. An appointment proxy shall be valid, unless the contrary is stated therein, as well for any adjournment of the meeting as for the meeting to which it relates.

114.

114.1 A vote given in accordance with the terms of an appointment of proxy or a resolution authorising a representative to act on behalf of a body corporate shall be valid notwithstanding the death or insanity of the principal, or the revocation of the appointment of proxy or of the authority under which the proxy was appointed or of the resolution authorising the representative to act or transfer of the Share in respect of which the proxy was appointed or the authorisation of the representative to act was given, provided that no intimation in writing (whether in electronic form or otherwise) of such death, insanity, revocation or transfer shall have been received by the Company at the Office, at least one hour before the commencement of the meeting or adjourned meeting at which the appointment of proxy is used or at which the representative acts; PROVIDED, HOWEVER, that where such intimation is given in electronic form it shall have been received by the Company at least 24 hours (or such lesser time as the Directors may specify) before the commencement of the meeting.

114.2 The Directors may send, at the expense of the Company, by post, electronic mail or otherwise, to the Members forms for the appointment of a proxy (with or without stamped envelopes for their return) for use at any general meeting or at any class meeting, either in blank or nominating any one or more of the Directors or any other persons in the alternative.

DIRECTORS

115. The Board may determine the size of the Board from time to time at its absolute discretion.

116. The remuneration to be paid to the Directors shall be such remuneration as the Directors shall determine. Such remuneration shall be deemed to accrue from day to day. The Directors shall also be entitled to be paid their travelling, hotel and other expenses properly incurred by them in going to, attending and returning from meetings of the Directors, or any committee of the Directors, or general meetings of the Company, or otherwise in connection with the business of the Company, or to receive a fixed allowance in respect thereof as may be determined by the Board from time to time, or a combination partly of one such method and partly the other.

117. The Board may approve additional remuneration to any Director undertaking any special work or services for, or undertaking any special mission on behalf of, the Company other than her ordinary routine work as a Director. Any fees paid to a Director who is also counsel or solicitor to the Company, or otherwise serves it in a professional capacity shall be in addition to her remuneration as a Director.

DIRECTORS AND OFFICERS INTERESTS

118. A Director or an officer of the Company who is in any way, whether directly or indirectly, interested in a contract, transaction or arrangement or proposed contract, transaction or arrangement with the Company shall, in

accordance with section 194 of the 1963 Act, declare the nature of her interest at the first opportunity either (a) at a meeting of the Board at which the question of entering into the contract, transaction or arrangement is first taken into consideration, if the Director or officer of the Company knows this interest then exists, or in any other case, at the first meeting of the Board after learning that she is or has become so interested or (b) by providing a general notice to the Directors declaring that she is a director or an officer of,

120. A Director may act by himself or her firm in a professional capacity for the Company (other than as its Auditors) and she or her firm shall be entitled to remuneration for professional services as if she were not a Director.

121. A Director may be or become a director, managing director, joint managing director, deputy managing director, executive director, manager or other officer or Member of any other company or otherwise interested in any company promoted by the Company or in which the Company may be interested as shareholder or otherwise, and no such Director shall be accountable to the Company for any remuneration or other benefits received by her as a director, managing director, joint managing director, deputy managing director, executive director, manager or other officer or Member of such other company; provided that she has declared the nature of her position with, or interest in, such company to the Board in accordance with Article 118.

122. No person shall be disqualified from the office of Director or from being an officer of the Company or prevented by such office from contracting with the Company, either as vendor, purchaser or otherwise, nor shall any such contract or any contract or transaction entered into by or on behalf of the Company in which any Director or officer of the Company shall be in any way interested be or be liable to be avoided, nor shall any Director or officer of the Company so contracting or being so interested be liable to account to the Company for any profit realised by any such contract or transaction by reason of such Director or officer of the Company holding office or of the fiduciary relation thereby established; provided that:

122.1 she has declared the nature of her interest in such contract or transaction to the Board in accordance with Article 118; and

122.2 the contract or transaction is approved by a majority of the disinterested Directors, notwithstanding the fact that the disinterested Directors may represent less than a quorum.

123. A Director may be counted in determining the presence of a quorum at a meeting of the Board which authorises or approves the contract, transaction or arrangement in which she is interested and she shall be at liberty to vote in respect of any contract, transaction or arrangement in which she is interested, provided that the nature of the interest of any Director in any such contract or transaction shall be disclosed by her in accordance with Article 118, at or prior to its consideration and any vote thereon.

124. For the purposes of Article 118:-

124.1 a general notice given to the Directors that a Director is to be regarded as having an interest of the nature and extent specified in the notice in any transaction or arrangement in which a specified person or class of persons is interested shall be deemed to be a disclosure that the Director has an interest in any such transaction of the nature and extent so specified;

124.2 an interest of which a Director has no knowledge and of which it is unreasonable to expect her to have knowledge shall not be treated as an interest of her; and

124.3 a copy of every declaration made and notice given under Article 118 shall be entered within three days after the making or giving thereof in a book kept for this purpose. Such book shall be open for inspection without charge by any Director, Secretary, the Auditors or Member of the Company at the Registered Office and shall be produced at every general meeting of the Company and at any meeting of the Directors if any Director so requests in sufficient time to enable the book to be available at the meeting.

133. The Board may from time to time provide for the management of the affairs of the Company in such manner as it shall think fit and the specific delegation provisions contained in the Articles shall not limit the general powers conferred by these Articles.

MINUTES

134. The Board shall cause minutes to be made in books kept for the purpose of all appointments of officers made by the Board, all resolutions and proceedings at meetings of the Company or the holders of any class of Shares, of the Directors and of committees of Directors, including the names of the Directors present at each meeting.

DELEGATION OF THE BOARD S POWERS

135. The Board may delegate any of its powers (with power to sub-delegate) to any committee consisting of one or more Directors. The Board may also delegate to any Director such of its powers as it considers desirable to be exercised by her. Any such delegation may be made subject to any conditions the Board may impose, and either collaterally with or to the exclusion of its own powers and may be revoked or altered. Subject to any such conditions, the proceedings of a committee of the Board shall be governed by the Articles regulating the proceedings of Directors, so far as they are capable of applying.

136. The Board may by power of attorney or otherwise appoint any person to be the agent of the Company on such conditions as the Board may determine, provided that the delegation is not to the exclusion of its own powers and may be revoked by the Board at any time.

EXECUTIVE OFFICERS

138. The Company shall have a chairman, who shall be a Director and shall be elected by the Board. In addition to the chairman, the Directors and the Secretary, the Company may have such officers as the Board may from time to time determine.

PROCEEDINGS OF DIRECTORS

139. Except as otherwise provided by these Articles, the Directors shall meet together for the despatch of business, convening, adjourning and otherwise regulating their meetings and procedures as they think fit. Questions arising at any meeting shall be decided by a majority of votes of the Directors present at a meeting at which there is a quorum. Each Director shall have one vote.

140. Regular meetings of the Board may be held at such times and places as may be provided for in resolutions adopted by the Board. No additional notice of a regularly scheduled meeting of the Board shall be required.

141. A Director may, and the Secretary on the requisition of a Director shall, at any time summon a meeting of the Directors by at least 48 hours notice in writing to every Director which notice shall set forth the general nature of the

business to be considered unless notice is waived by all the Directors either at, before or after the meeting is held and provided further if notice is given in person, by telephone, cable, telex, telecopy or email the same shall be deemed to have been given on the day it is delivered to the Directors or

transmitting organisation as the case may be. The accidental omission to give notice of a meeting of the Directors to, or the non-receipt of notice of a meeting by any person entitled to receive notice shall not invalidate the proceedings of that meeting.

142. The quorum necessary for the transaction of the business of the Board may be fixed by the Board and unless so fixed shall be a majority of the Directors in office.

143. The continuing Directors may act notwithstanding any vacancy in their body, but if and so long as their number is reduced below the number fixed by or pursuant to these Articles as the necessary quorum of Directors, the continuing Directors or Director may act for the purpose of increasing the number of Directors to that number, or of summoning a general meeting of the Company, but for no other purpose.

144. The Directors may elect a Chairman of their Board and determine the period for which she is to hold office; but if no such Chairman is elected, or if at any meeting the Chairman is not present within five (5) minutes after the time appointed for holding the same, the Directors present may choose one of their number to be a Chairman of the meeting.

145. All acts done by any meeting of the Directors or of a committee of Directors shall, notwithstanding that it be afterwards discovered that there was some defect in the appointment of any Director, or that they or any of them were disqualified, be as valid as if every such person had been duly appointed and qualified to be a Director.

146. Members of the Board or of any committee thereof may participate in a meeting of the Board or of such committee by means of conference telephone or similar communications equipment by means of which all persons participating in the meeting can hear each other and participation in a meeting pursuant to this provision shall constitute presence in person at such meeting. Unless otherwise determined by the Directors the meeting shall be deemed to be held at the place where the Chairman is at the start of the meeting.

147. A resolution in writing (in one or more counterparts), signed by all the Directors for the time being or all the members of a committee of Directors shall be as valid and effectual as if it had been passed at a meeting of the Directors or committee as the case may be duly convened and held.

RESIGNATION AND DISQUALIFICATION OF DIRECTORS

148. The office of a Director shall be vacated:

148.1 if she resigns her office, on the date on which notice of her resignation is delivered to the Registered Office or tendered at a meeting of the Board or on such later date as may be specified in such notice; or

148.2 on her being prohibited by law from being a Director; or

148.3 on her ceasing to be a Director by virtue of any provision of the Companies Acts.

149. The Company may, by Ordinary Resolution, of which extended notice has been given in accordance with section 142 of the 1963 Act, remove any Director before the expiration of her period of office notwithstanding anything in these Articles or in any agreement between the Company and such Director. Such removal shall be without prejudice to any claim such Director may have for damages for breach of any contract of service between her and the Company.

APPOINTMENT OF DIRECTORS

150. The Directors shall be divided into three classes, designated Class I, Class II and Class III. Each class shall consist, as nearly as may be possible, of one-third of the total number of Directors constituting the entire Board. The initial division of the Board into classes shall be made by the decision of the affirmative vote of a majority of the Directors in office. The term of the initial Class I directors shall terminate on the date of the 2012 annual general meeting; the term of the initial Class II directors shall terminate on the date of the 2013 annual general meeting; and the term of the initial Class III directors shall terminate on the date of the 2014 annual general meeting. At each annual general meeting of Members beginning in 2012, successors

to the class of directors whose term expires at that annual general meeting shall be elected for a three-year term. Save as otherwise permitted in these Articles, Directors will be elected by way of Ordinary Resolution of the Company in general meeting. If the number of Directors is changed, any increase or decrease shall be apportioned among the classes so as to maintain the number of Directors in each class as nearly equal as possible. In no case will a decrease in the number of Directors shorten the term of any incumbent Director. A Director shall hold office until the annual general meeting for the year in which her or his term expires and until her or his successor shall be elected and shall qualify, subject, however, to prior death, resignation, retirement, disqualification or removal from office. Any vacancy on the Board, including a vacancy that results from an increase in the number of directors or from the death, resignation, retirement, disqualification or removal of a Director, shall be deemed a casual vacancy. Subject to the terms of any one or more classes or series of preferred shares, any casual vacancy shall only be filled by decision of a majority of the Board then in office, provided that a quorum is present. Any Director of any class elected to fill a vacancy resulting from an increase in the number of Directors of such class shall hold office for a term that shall coincide with the remaining term of that class. Any Director elected to fill a vacancy not resulting from an increase in the number of Directors shall have the same remaining term as that of her or his predecessor. A Director retiring at a meeting shall retain office until the close or adjournment of the meeting.

151. During any vacancy in the Board, the remaining Directors shall have full power to act as the Board. If, at any general meeting of the Company, the number of Directors is reduced below the minimum prescribed by the Board in accordance with Article 115 due to the failure of any persons nominated to be Directors to be elected, then in those circumstances, the nominee or nominees who receive the highest number of votes in favour of election shall be elected in order to maintain the prescribed minimum number of Directors and each such Director shall remain a Director (subject to the provisions of the Companies Acts and these Articles) only until the conclusion of the next annual general meeting of the Company unless such Director is elected by the Members during such meeting.

152. The Company may by Ordinary Resolution appoint any person to be a Director.

SECRETARY

153. The Secretary shall be appointed by the Board at such remuneration (if any) and on such terms as it may think fit and any Secretary so appointed may be removed by the Board.

154. The duties of the Secretary shall be those prescribed by the Companies Acts, together with such other duties as shall from time to time be prescribed by the Board, and in any case, shall include the making and keeping of records of the votes, doings and proceedings of all meetings of the Members and the Board of the Company, and committees, and the authentication of records of the Company.

155. A provision of the Companies Acts or these Articles requiring or authorising a thing to be done by or to a Director and the Secretary shall not be satisfied by its being done by or to the same person acting both as Director and as, or in the place of, the Secretary.

SEAL

156. The Company may, if the Board so determines, have a Seal (including any official seals kept pursuant to the Companies Acts) which shall only be used by the authority of the Board or of a committee of the Board authorised by the Board in that regard and every instrument to which the Seal has been affixed shall be signed by any person who shall be either a Director or the Secretary or Assistant Secretary or some other person authorised by the Board, either generally or specifically, for the purpose.

157. The Company may have for use in any place or places outside Ireland, a duplicate Seal or Seals each of which shall be a duplicate of the Seal of the Company except, in the case of a Seal for use in sealing documents creating or evidencing securities issued by the Company, for the addition on its face of the word Securities and if the Board so determines, with the addition on its face of the name of every place where it is to be used.

DIVIDENDS, DISTRIBUTIONS AND RESERVES

158. The Company in general meeting may declare dividends, but no dividends shall exceed the amount recommended by the Directors.

159. Subject to the Companies Acts, the Board may from time to time declare dividends (including interim dividends) and distributions on Shares of the Company outstanding and authorise payment of the same out of the funds of the Company lawfully available therefor.

160. The Board may, before declaring any dividends or distributions, set aside such sums as they think proper as a reserve or reserves which shall at the discretion of the Directors, be applicable for any purpose of the Company and pending such application may, at the like discretion, be employed in the business of the Company. The Directors may also, without placing the same to reserve, carry forward any profits which they may think it prudent not to divide.

161. No dividend, interim dividend or distribution shall be paid otherwise than in accordance with the provisions of Part IV of the 1983 Act.

162. Subject to the rights of persons, if any, entitled to Shares with special rights as to dividends or distributions, if dividends or distributions are to be declared on a class of Shares they shall be declared and paid according to the amounts paid or credited as paid on the Shares of such class outstanding on the record date for such dividend or distribution as determined in accordance with these Articles.

163. The Directors may deduct from any dividend payable to any Member all sums of money (if any) immediately payable by her to the Company in relation to the Shares of the Company.

164. The Board or any general meeting declaring a dividend (upon the recommendation of the Board), may direct that any dividend or distribution be paid wholly or partly by the distribution of specific assets and in particular of paid up Shares, debentures, or debenture stock of any other company or in any one or more of such ways and where any difficulty arises in regard to such distribution, the Board may settle the same as they think expedient and in particular may issue fractional certificates and fix the value for distribution of such specific assets or any part thereof and may determine that cash payments shall be made to any Members upon the footing of the value so fixed in order to adjust the rights of all Members and may vest any such specific assets in trustees as may seem expedient to the Board.

165. Any dividend, distribution, interest or other monies payable in cash in respect of Shares may be paid by cheque or warrant sent through the post, or sent by any electronic or other means of payment, directed to the registered address of the holder or, in the case of joint holders, to the holder who is first named on the Register of Members or to such person and to such address as such holder or joint holders may in writing direct. Every such cheque or warrant, electronic or other payment shall be made payable to the order of the person to whom it is sent and payment of the cheque or warrant shall be a good discharge to the Company. Any one of two or more joint holders may give effectual receipts for any dividends, bonuses, or other monies payable in respect of the Share held by them as joint holders. Any such dividend or other distribution may also be paid by any other method (including payment in a currency other than US\$, electronic funds transfer, direct debit, bank transfer or by means of a relevant system) which the Directors consider appropriate and any Member who elects for such method of payment shall be deemed to have accepted all of the risks inherent therein. WINDING UP

183. If the Company shall be wound up and the assets available for distribution among the Members as such shall be insufficient to repay the whole of the paid up or credited as paid up share capital, such assets shall be distributed so that, as nearly as may be, the losses shall be borne by the Members in proportion to the capital paid up or credited as paid up at the commencement of the winding up on the Shares held by them respectively. And if in a winding up the assets available for distribution among the Members shall be more than sufficient to repay the whole of the share capital paid up or credited as paid up at the commencement of the winding up, the excess shall be distributed among the Members in proportion to the capital at the commencement of the winding up paid up or credited as paid up on the said Shares held by them respectively. The liquidator, with the like sanction, may vest the whole or any part of such assets in trustees upon such trusts for the benefit of the contributories as, with the like sanction, she determines, but so that no Member shall be compelled to accept any assets upon which there is a liability.

185.3 In the case of any threatened, pending or completed action, suit or proceeding by or in the right of the Company, the Company shall indemnify each person indicated in Article 185.2 of this Article against expenses, including attorneys' fees, actually and reasonably incurred in connection with the defence or the settlement thereof, except no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable for fraud or dishonesty in the performance of her or his duty to the Company unless and only to the extent that the High Court of Ireland or the court in which such action or suit was brought shall determine upon application that despite the adjudication of liability, but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses as the court shall deem proper.

185.4 As far as permissible under the Companies Acts, expenses, including attorneys' fees, incurred in defending any action, suit or proceeding referred to in Articles 185.2 and 185.3 of this Article may be paid by the Company in advance of the final disposition of such action, suit or proceeding as authorised by the Board in the specific case upon receipt of an undertaking by or on behalf of the director, executive or trustee, or other indemnitee to repay such amount, unless it shall ultimately be determined that she or she is entitled to be indemnified by the Company as authorised by these Articles.

As used in this paragraph (e), references to the Company include all constituent companies in a consolidation or merger in which the Company or a predecessor to the Company by consolidation or merger was involved. The indemnification provided by this Article shall continue as to a person who has ceased to be a director, executive or trustee and shall inure to the benefit of the heirs, executors, and administrators of such a person.

185.6 The Directors shall have power to purchase and maintain for any Director, the Secretary or other officers or employees of the Company insurance against any such liability as referred to in Section 200 of the 1963 Act or otherwise.
