**PART III NARRATIVE**

State below in reasonable detail the reasons why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

Green Bankshares, Inc., a Tennessee corporation (the Company), has determined that it will be unable to file its Quarterly Report on Form 10-Q for the fiscal quarter ended June 30, 2011 (the Form 10-Q), without unreasonable effort or expense due to staffing constraints in the Company's accounting department. The Company's controller, the individual principally responsible for preparing the Company's quarterly reports, resigned from the Company on March 21, 2011, and the Company has not yet filled this position. Also, as a result of a broader reduction in work force initiative implemented in the first quarter of 2011 in which 72 positions were eliminated, it has taken a longer time to compile and consolidate the underlying financial information necessary to prepare the Company's Form 10-Q than historically has been required. Finally, the Company's chief financial officer has devoted a significant amount of time to preparing the proxy statement for the special shareholder meeting to be held on September 7, 2011 at which the Company's shareholders will be asked to approve certain matters related to the Company's proposed transaction with North American Financial Holdings, Inc. (NAFH), pursuant to which NAFH has agreed, subject to the receipt of required shareholder and regulatory approvals and the satisfaction of other customary closing conditions, to invest approximately \$217 million into the Company through the sale by the Company to NAFH of approximately 120 million new shares of the Company's common stock (the Investment Transaction).

p Yes o No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

p Yes o No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

Although the Company's Form 10-Q is not yet complete as a result of the staffing constraints described in Part III above, the Company expects that its results of operations for the quarter ended June 30, 2011 will be worse than its results for the comparable quarterly period in 2010. Specifically, the Company expects that it will recognize a net loss available to common shareholders of approximately \$12.4 million for the second quarter of 2011, compared to net income available to common shareholders of \$1.6 million for the second quarter of 2010. The primary factor contributing to the net loss available to common shareholders in the 2011 second quarter was a continuation of elevated credit costs principally reflected in a higher provision for loan losses and higher costs related to other real estate owned, in each case, as compared to the comparable period in 2010. Net interest income for the quarter ended June 30, 2011 is expected to be approximately \$19.5 million, compared to \$21.5 million for the comparable quarter in 2010. The Company's net interest margin is expected to increase to 3.91% for the second quarter of 2011 as compared to 3.86% for the second quarter of 2010. The provision for loan losses is expected to be approximately \$14.3 million for the second quarter of 2011, up significantly from the \$4.7 million of provision expense incurred in the second quarter of 2010. The Company expects that its other real estate owned maintenance expense and loss on other real estate owned and repossessed assets will each be materially higher than the comparable expenses in the second quarter of 2010. Specifically, the Company expects that its other real estate owned maintenance expenses for the second quarter of 2011 will be approximately \$1.2 million, compared to \$554,000 for the second quarter of 2010. The Company's loss on other real estate owned and repossessed assets is expected to be approximately \$4.3 million for the second quarter of 2011, compared to \$926,000 for the second quarter of 2010. These results are preliminary and subject to adjustment.

As a result of the anticipated losses for the second quarter of 2011, the capital ratios for the Company and its wholly-owned bank subsidiary, GreenBank (the Bank), each declined from the levels at December 31, 2010. At June 30, 2011, the Bank's Tier 1 leverage ratio, Tier 1 risk-based capital ratio and Total risk-based capital ratio are expected to be approximately 8.47%, 11.97% and 13.25% respectively. Although these expected ratios remain above the statutory minimums necessary to be deemed a well-capitalized financial institution at June 30, 2011, the Tier 1 leverage ratio and total risk-based capital ratios are below the 10.0% and 14.0% minimums that the Bank has informally committed to its regulators that it would maintain, as discussed in more detail in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2010, as filed with the Securities and Exchange Commission on March 15, 2011.
