Press Release

Table of Contents**Item 2.02. Results of Operations and Financial Condition**

On July 28, 2005, Waste Management, Inc. (the Company) issued a press release announcing its earnings for the fiscal quarter ended June 30, 2005. On the same date, the Company held a conference call, which was open to the public, to discuss these results. A copy of the press release is attached hereto as exhibit 99.1. A replay of the conference call is available beginning at approximately 11:00 a.m. Central time on July 28th through 5:00 p.m. Central time on August 11th. The replay of the call may be heard over the Internet, by accessing the Company's website at www.wm.com, or by telephone by dialing 800-642-1687 and entering conference code 7068485.

The Company is disclosing on its earnings conference call the following non-GAAP financial measures for the second quarter of 2005: (i) free cash flow; (ii) adjusted EBIT margins; and (iii) adjusted EBITDA margins. The Company believes that providing investors with these non-GAAP financial measures gives investors additional information to enable them to assess, in the way management assesses, the Company's current and continuing operations. Investors are urged to take into account GAAP measures as well as non-GAAP measures in evaluating the Company. Whenever the Company uses a non-GAAP financial measure, it provides a reconciliation of such measure to what it believes to be the most closely applicable GAAP financial measure. A reconciliation of free cash flow to cash flows from operating activities is included in the schedules to the press release that is attached to this Form 8-K as Exhibit 99.1. The Company's reconciliation of the other non-GAAP measures disclosed by the Company are as follows:

Adjusted EBIT Margins

The Company's calculation of EBIT, or earnings before interest and tax, is the same measure as income from operations as presented on the Company's income statement. EBIT margin represents total operating income as a percentage of revenue. The Company disclosed that EBIT margins had increased by 10 basis points over second quarter 2004 results after excluding the impact of impairments, gains on sales of assets and other unusual items in both years. The following table reconciles the non-GAAP measure to the GAAP measure (dollars in millions):

	Three Months Ended June 30, 2005	Three Months Ended June 30, 2004
As reported:		
Revenue	\$ 3,289	\$ 3,138
Income from Operations	\$ 463	\$ 442
GAAP EBIT margin	14.1%	14.1%
Adjustments to Income from Operations		
Asset Impairment and Unusual Items	\$ (6)	\$ (9)
As adjusted:		
Revenue	\$ 3,289	\$ 3,138
Adjusted Income from Operations	\$ 457	\$ 433
Adjusted EBIT Margin	13.9%	13.8%

Table of Contents*Adjusted EBITDA Margins*

The Company defines EBITDA as earnings before interest, tax, depreciation and amortization and calculates that measure by adding depreciation and amortization charges back to income from operations. EBITDA margin represents EBITDA, as defined, as a percentage of revenue. The Company disclosed that the EBITDA margins of its Eastern, Western, Southern and Midwest Groups collectively increased by 10 basis points as compared to the prior year period, after adjusting for asset impairments and the gains on sales of businesses. The following table reconciles these measures (dollars in millions):

	Three Months Ended June 30, 2005	Three Months Ended June 30, 2004
Income from operations of Eastern, Midwest, Southern and Western Groups	\$ 479	\$ 439
Add back Depreciation and Amortization	\$ 313	\$ 323
EBITDA	\$ 792	\$ 762
Adjustments to EBITDA:		
Pottstown Landfill impairment	\$ 35	
Gains on divestitures	\$ (32)	\$ (2)
Adjusted EBITDA	\$ 795	\$ 760
Revenue from Eastern, Midwest, Southern and Western Groups	\$ 3,268	\$ 3,140
Adjusted EBITDA Margin	24.3%	24.2%

Item 7.01. Regulation FD Disclosure.*Results of Pricing Study*

Below are results of the Company's pricing study, initiated in January 2005, as of June 30, 2005. All price increases implemented by the Company since January 1, 2005 are included in the results presented. The percentages of tons that received price increases included in the tables below include all third-party tons received at the facilities. The amounts shown as percentages of tons lost due to price increases in the tables are the amounts that the Company has estimated were lost due to price increases based on customer feedback and analyses of monthly volume reports.

The Company intends to use the information gathered from the pricing study to further develop and implement price increase plans throughout the rest of its landfill and transfer station operations over the next several months. On a going forward basis, the Company intends to report results from the pricing study only for those facilities with material variances in volumes due to price increases and may also report results from the implementation of price increase plans throughout the rest of the Company's facilities.

Table of Contents**Landfills**

Group	Market Area	Landfill	% of	Weighted	% of Tons
