**PART I**

**ITEM 1. BUSINESS**

**BUSINESS SEGMENTS AND GEOGRAPHIC AREA INFORMATION**

Alberto-Culver Company and its consolidated subsidiaries (herein referred to collectively as the company, unless indicated otherwise) have three principal business segments. The company's consumer products business includes two segments, Alberto-Culver North America and

Alberto-Culver International, which develop, manufacture, distribute and market branded consumer products worldwide. These branded consumer products consist of beauty and health care products and food and household products. Alberto-Culver North America includes the company's consumer products operations in the United States and Canada while Alberto-Culver International sells consumer products in more than 120 other countries. Beauty and health care products accounted for approximately 34%, 35% and 36% of the company's consolidated net sales for the years ended September 30, 2002, 2001 and 2000, respectively. Food and household products accounted for approximately 4%, 5% and 5% of the company's consolidated net sales for the years ended September 30, 2002, 2001 and 2000, respectively.

The company's third segment, Specialty distribution - Sally, consists of Sally Beauty Company which is comprised of two operations: (1) *Sally Beauty Supply*, a domestic and international chain of cash-and-carry outlets offering professional beauty supplies to both salon professionals and retail consumers and (2) *Beauty Systems Group (BSG)*, a full-service beauty products distributor offering professional brands directly to salons and through professional-only outlets in exclusive geographical territories. Sales of the Specialty distribution - Sally business segment accounted for approximately 62%, 60% and 59% of the company's consolidated net sales for the years ended September 30, 2002, 2001 and 2000, respectively.

Effective October 1, 2002, the company's consumer products business was reorganized into two divisions. A new division, Alberto-Culver Consumer Products Worldwide, is comprised of the former Alberto-Culver North America business segment and the former Alberto-Culver International business segment excluding the operations of Cederroth International. #### PRODUCT DEVELOPMENT AND MARKETING

Many of the company's consumer products are developed in the company's laboratories. In fiscal year 2002, the company opened a new research and development facility at its corporate headquarters. The company has established global structures for operations and research and development, which are designed to enable the company to implement cost-savings initiatives more quickly on a broad scale and to shorten the time that it takes to develop an idea into a market-ready product. New products introduced by the company are assigned product managers, who guide the products from development to the consumer. The product managers are responsible for the overall marketing plans for the products and coordinate advertising and marketing activities.

The company allocates a large portion of its revenues to the advertising and marketing of consumer beauty products. Net earnings are materially affected by these expenditures, which are charged against income in the period incurred. Advertising and marketing expenditures were \$189.1 million, \$179.0 million and \$162.7 million in fiscal years 2002, 2001 and 2000, respectively.

The company regards television as the best medium for advertising and uses it to conduct extensive network, spot and cable television advertising campaigns. The company also advertises through other media such as newspapers, magazines and radio, as well as through Sally Beauty Company's direct mailings to customers.

Extensive advertising and marketing are required to build and protect a branded consumer product's market position. The company believes there is significant consumer awareness of its major brands and that such awareness is an important factor in the company's operating results.

#### COMPETITION

The domestic and international markets for the company's branded consumer products are highly competitive and sensitive to changes in consumer preferences and demands. The company's competitors range in size from large, highly diversified companies (some of which have substantially greater financial resources than the company) to small, specialized producers. The company competes primarily on the basis of innovation, product quality and price and believes that brand loyalty and consumer acceptance are also important factors to the company's success.

Sally Beauty Company experiences domestic and international competition from a wide range of retail outlets, including mass merchandisers, drug stores and supermarkets, carrying a full line of beauty and health care products. In addition, Sally Beauty Company competes with local and regional cash-and-carry beauty supply stores and full-service dealers selling directly to salons through both professional distributor sales consultants and outlets open only to salon professionals. Sally also faces competition from certain manufacturers which use their own sales forces to distribute their professional beauty products directly to salons.

## DISTRIBUTION

The company's sales force and independent brokers sell its retail beauty and health care products and food and household products by calling upon retail outlets such as mass merchandisers, supermarkets, drug stores, dollar stores, wholesalers and variety stores.

The company's sales representatives and brokers sell its professional hair care products primarily for the ethnic market in the United States to beauty supply outlets and to beauty distributors, who in turn sell to beauty salons, barber shops and beauty schools.

The company's products are sold internationally in more than 120 countries, primarily through direct sales by its subsidiaries, independent distributors and licensees. The company's foreign operations are subject to risks inherent in transactions involving foreign currencies and political uncertainties.

Sally Beauty Company, including its *Beauty Systems Group*, sells professional beauty supplies through its 2,712 stores, including 130 franchises, located in 48 states, Puerto Rico, the United Kingdom, Canada, Japan, Germany and Mexico. *Sally Beauty Supply* stores are self-service, cash-and-carry and are primarily located in strip shopping centers. Sally operates the largest domestic chain of cash-and-carry beauty supply stores and, as such, is a major customer of some of the company's competitors in the personal care products industry. In addition, *Beauty Systems Group* distributes products in exclusive, licensed territories in the Northeast, Midwest, Midsouth, East, Southeast and Southwest United States and portions of Canada and Mexico to the professional market through its stores and over 900 professional distributor sales consultants. Sally sells Alberto-Culver's professional hair care products, but these products represent only a small portion of Sally's selection of salon brands.

## EMPLOYEES

In its domestic and foreign operations, the company had approximately 16,900 full-time equivalent employees as of September 30, 2002, consisting of approximately 10,000 hourly personnel and 6,900 salaried employees. At September 30, 2001, the company had approximately 16,100 full-time equivalent employees. The increase in employees during fiscal year 2002 is principally due to the expansion of Sally's *Beauty Systems Group* full-service operations and the growth in the number of *Sally Beauty Supply* stores.

Certain subsidiaries of the company have union contracts covering production, warehouse, shipping and maintenance personnel. The company considers relations with its employees to be satisfactory.

## REGULATION

The company is subject to the regulations of a number of federal and state agencies, including the Food and Drug Administration and the Federal Trade Commission.

## TRADEMARKS AND PATENTS

The company's trademarks, certain of which are material to its business, are registered or legally protected in the United States, Canada and other countries throughout the world in which products of the company are sold. Although the company owns patents and has other patent applications pending, its business is not materially dependent upon patents or patent protection.

These consolidated financial statements and our report thereon are incorporated by reference in the annual report on Form 10-K for fiscal year 2002.
