EXPLANATORY NOTE

We are filing this Amendment No. 1 to our Quarterly Report on Form 10-Q for the quarterly period ended July 2, 2004. This Form 10-Q/A speaks as of the original filing date and has not been updated to reflect events occurring subsequent to the original filing date.

The following is a list of the items of the quarterly report amended hereby:

PART I

Item 4. Controls and Procedures.

PART II

Item 6. Exhibits and Reports on Form 8-K

Table of Contents

PART I. FINANCIAL INFORMATION

Item 4. Controls and Procedures

(a) **Evaluation of Disclosure Controls and Procedures.** The Securities and Exchange Commission defines the term "disclosure controls and procedures" to mean a company's controls and other procedures that are designed to ensure that information required to be disclosed in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms. Our chief executive officer and our chief financial officer have concluded, based on the evaluation of the effectiveness of our disclosure controls and procedures by our management, with the participation of our chief executive officer and our chief financial officer, as of the end of the period covered by this report, that our disclosure controls and procedures were effective for this purpose.

Notwithstanding this conclusion, we made changes to improve our internal controls following the end of the period covered by this report as described in (b) below.

(b) **Changes in Internal Control Over Financial Reporting.** There was no change in our internal control over financial reporting during the three months ended June 30, 2004 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

We decided to improve upon our disclosure controls and procedures as a result of an error we discovered in August 2004. During a review of our revenue maintenance application used to calculate the amount of deferred revenue for our consumer products, we discovered an error in the unit renewal prices manually entered into the application. The unit renewal prices used to calculate the deferred revenue did not reflect the correct subscription renewal prices, which serve as the basis for our deferral, for foreign currency sales. As a result, the deferred revenue from these consumer products was understated and the portion of revenue from these products that was recognized at the time of sale was overstated. The cumulative overstatement of revenue for periods prior to the three months ended June 30, 2004 totaled approximately \$20 million. The effect of the error was not material to any relevant prior period. To correct this error, we recorded the cumulative \$20 million as a reduction in Net revenues in the Condensed Consolidated Statement of Income for the three months ended June 30, 2004 and a corresponding \$20 million increase in Current deferred revenue on the Condensed Consolidated Balance Sheet as of June 30, 2004.

Subsequent to the end of the three months ended June 30, 2004, we implemented changes to our internal control over financial reporting in order to strengthen our controls over the calculation of deferred revenue to ensure that the unit renewal prices reflect the correct subscription renewal prices for foreign currency sales. Now we perform a comparison of the prices within the maintenance application to the invoiced amounts and the comparison is documented, and reviewed by appropriate personnel as part of our account reconciliation process.
