**Table of Contents****FORWARD LOOKING STATEMENTS**

References throughout this document to the Company include Beverly Enterprises, Inc. and its wholly owned subsidiaries ( BEI ). In accordance with the Securities and Exchange Commission ( SEC ) Plain English guidelines, this Quarterly Report on Form 10-Q has been written in the first person. In this document, the words we, our, ours and us refer only to BEI and its wholly owned subsidiaries and not to any other person.

This document contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may be identified by words such as expects, anticipates, intends, plans, believes, seeks, estimates or words of similar meaning and include, but are not limited to, statements about expected future business and financial performance. Forward-looking statements are based on management's current expectations and assumptions, which are inherently subject to uncertainties, risks and changes in circumstances that are difficult to predict. Actual outcomes and results may differ materially from these expectations and assumptions due to changes in, among other things, political, economic, business, competitive, market, regulatory, demographic and other factors. In addition, our results of operations and financial condition, cash flows and liquidity may be adversely impacted by the ongoing sales process (see Item 1. Note 4). The sales process may impact our ability to attract and retain customers, management and employees and will result in the incurrence of significant advisory fees, legal fees and other expenses. We undertake no obligation to publicly update or revise any forward-looking information, whether as a result of new information, future developments or otherwise.

You should also refer to Item 1. Business in our Annual Report on Form 10-K for the fiscal year ended December 31, 2004 for a discussion of various governmental regulations and other operating factors relating to the healthcare industry and the risks inherent in them. You should carefully consider the risks described and referred to in the annual report before making any investment decisions regarding our securities. There may be additional risks that we do not presently know of or that we currently deem immaterial. If any of these risks actually occur, our business, financial condition, results of operations or cash flows could be materially and adversely affected. In that case, the trading price of our common stock and the value of our other outstanding securities could decline, and you may lose all or part of your investment. Given these risks and uncertainties, we can give no assurances that any forward-looking statements, which speak only as of the date of this report will, in fact, transpire, and, therefore, we caution you not to place undue reliance on them.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**June 30, 2005**  
**(Unaudited)**

**Note 1. General**

***Basis of Presentation***

We have prepared these condensed consolidated financial statements without audit. In management's opinion, these condensed consolidated financial statements include all normal recurring adjustments necessary for a fair presentation of our results of operations for the three-month and six-month periods ended June 30, 2005 and 2004, our cash flows for the six months ended June 30, 2005 and 2004, and our financial condition at June 30, 2005 and December 31, 2004, in accordance with the rules and regulations of the SEC. Although certain information and footnote disclosures required by accounting principles generally accepted in the United States have been condensed or omitted, we believe that the disclosures in these condensed consolidated financial statements are adequate to make the information presented not misleading. These condensed consolidated financial statements should be read along with our Annual Report on Form 10-K for the fiscal year ended December 31, 2004, filed with the SEC. Our results of operations for the three-month and six-month periods ended June 30, 2005 are not necessarily indicative of the results for a full year.

***Use of Estimates***

Generally accepted accounting principles in the United States require management to make estimates and assumptions when preparing financial statements that affect:

the reported amounts of assets and liabilities at the date of the financial statements; and

the reported amounts of revenues and expenses during the reporting period.

They also require management to make estimates and assumptions regarding contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

***Revenues***

Our revenues are derived primarily from providing long-term healthcare services. Approximately 80% of our revenues for each of the three-month and six-month periods ended June 30, 2005 and 2004, were derived from federal and state medical assistance programs (primarily Medicare and Medicaid). We record revenues when services are provided at standard charges adjusted to amounts estimated to be received under governmental programs and other third-party contractual arrangements based on contractual terms and historical experience. These revenues are reported at their estimated net realizable amounts and are subject to audit and retroactive adjustment.

All providers participating in the Medicare and Medicaid programs are required to meet certain financial cost reporting requirements. Federal and state regulations generally require the submission of annual cost reports covering revenues, costs and expenses associated with the services provided to Medicare beneficiaries and Medicaid recipients. Annual cost reports are subject to routine audits and retroactive adjustments. These audits often require several years to reach the final determination of amounts due to, or by, us under these programs.

Retroactive adjustments are estimated in the recording of revenues in accordance with the state plan provisions in effect during the period the related services are rendered. These amounts are adjusted in future periods as adjustments become known, as state plan provisions are retroactively changed or as cost reporting years are no longer subject to audits, reviews or investigations. Due to the complexity of the laws and regulations governing the Medicare and Medicaid programs, there is at least a possibility that recorded estimates will change by a material amount in the near term. During the three months ended June 30, 2005, we recorded the impact of an approved retroactive Medicaid plan change for the state of Indiana, which

resulted in an increase in revenues and Accounts receivable of \$23.1 million and an increase in provider tax expense included in Other operating and administrative expenses and Other accrued liabilities of \$11.9 million, related to prior years. This resulted in a net increase in pre-tax income for the second quarter of 2005 of \$11.2 million (\$0.09 per share diluted). Also included in pre-tax income for the second quarter of 2005 is the net impact related to the first quarter of 2005 of \$1.8 million (\$0.01 per share diluted). For the six-month period ended June 30, 2005, our pre-tax income increased \$18.5 million (\$0.15 per share diluted) as a result of the prior year impacts of retroactive Medicaid plan changes for the states of Indiana and Pennsylvania. All other changes in estimates related to third-party receivables resulted in an increase in revenues from continuing operations of \$876,000 and \$3.3 million for the three months ended June 30, 2005 and 2004, respectively, and \$1.6 million and \$5.1 million for the six months ended June 30, 2005 and 2004, respectively. We believe adequate provision has been made to reflect any adjustments that could result from subsequent audits or reviews.

Compliance with laws and regulations governing the Medicare and Medicaid programs is subject to government review and interpretation, as well as significant regulatory action including fines, penalties, and possible exclusion from the Medicare and Medicaid programs. In addition, under the Medicare program, if the federal government makes a formal demand for reimbursement, even related to contested items, payment must be made for those items before the provider is given an opportunity to appeal and resolve the issue.

**Note 1. General (Continued)**

Diluted net income per share from continuing operations does not include the impact of 10,000 employee stock options outstanding for the three-month and six-month periods ended June 30, 2005 and 7.4 million and 1.8 million for the three-month and six-month periods ended June 30, 2004, respectively, because their effect would have been antidilutive. In accordance with Emerging Issues Task Force 04-8, *The Effect of Contingently Convertible Debt on Diluted Earnings Per Share*, we have included the dilutive effect of our 2.75% convertible subordinated notes, on an if-converted basis, in our calculation of diluted net income per share from continuing operations for the three-month and six-month periods ended June 30, 2005. For 2004, the effect of the 2.75% convertible subordinated notes would have been antidilutive in both periods, and therefore, conversion was not assumed.

**Note 2. Insurance**

We believe that adequate provision has been made in the financial statements for liabilities that may arise out of patient care and related services provided to date. These provisions are based primarily upon the results of independent actuarial valuations, prepared by experienced actuaries. These independent valuations are formally prepared twice each year using the most recent trends of claims, settlements and other relevant data. In addition to the estimate of retained losses, our provision for insurance includes accruals for insurance premiums and related costs for the coverage period and our estimate of any experience adjustments to premiums. The following table summarizes our provision for insurance and related items (in thousands):

**Note 4. Sale of the Company and Related Items**

In January 2005, a group including Formation Capital, LLC, Appaloosa Management, LP, Franklin Mutual Advisers LLC and Northbrook NBV LLC (the Formation Capital Consortium ), publicly announced an unsolicited indication of interest in acquiring all of our outstanding common stock. Arnold M. Whitman, the Chief Executive Officer of Formation Capital, also nominated a slate of six individuals for election to our Board of Directors.

On February 3, 2005, our Board of Directors unanimously rejected the Formation Capital Consortium's proposal. On March 22, 2005, we announced that our Board of Directors had unanimously voted to conduct an auction process to maximize value for all of our stockholders as soon as practicable through a sale of BEI. The Board also adopted procedures to enable the beneficial owners of not less than 20% of our outstanding common stock to nominate a new slate of directors and cause us to call a special meeting of stockholders to be held on October 21, 2005 for the election of directors.

On April 11, 2005, we entered into a Settlement Agreement with the Formation Capital Consortium and Mr. Whitman under which the Formation Capital Consortium and Mr. Whitman agreed to discontinue the solicitation of proxies in connection with the Company's April 21, 2005 Annual Meeting of Stockholders and Mr. Whitman withdrew his nominees for election to our Board of Directors and other proposals for consideration at the 2005 Annual Meeting. In addition, we agreed to reimburse the Formation Capital Consortium for up to \$600,000 of out-of-pocket fees and expenses incurred by them and Mr. Whitman in connection with their proxy solicitation. We also entered into a Confidentiality Agreement with the members of the Formation Capital Consortium under which the Formation Capital Consortium and its representatives may examine our confidential information for the purpose of evaluating a possible transaction with us pursuant to the same restrictions imposed on other bidders involved in the sales process. We committed in the Confidentiality Agreement to allow the Formation Capital Consortium to participate in our on-going sales process on the same basis as all other potential buyers.

The sales process is being overseen by independent members of our Board of Directors who have engaged an independent financial advisor to provide a fairness opinion. We have established a due diligence process to assist potential bidders in evaluating their level of interest in acquiring us and in developing bids. Multiple potential bidders or bidding groups signed confidentiality agreements and obtained access to information about BEI contained in an online data room we established. On May 18, 2005, we announced that bidding had entered a second round.

Our results of operations, financial condition and cash flows may be adversely impacted by the ongoing sales process. To date, we have incurred various costs as a result of the expression of interest, the proxy contest and the sales process including legal, investment banking advisory fees and other related costs. During the first quarter of 2005, we engaged two investment banking firms to assist us in evaluating proposals, both solicited and unsolicited, to acquire us or any of our assets or businesses.

Under the terms of the engagement we are required to pay a fee to these two firms equal to a percentage of any consideration received in connection with our sale, with their percentage compensation increasing with an increase in the sales value, or a flat fee if no sale was to occur. As a result, we recorded a liability of \$16.5 million included in other accrued liabilities on the June 30, 2005 condensed consolidated balance sheet. In addition, we have incurred other costs related to the sales process and have recorded expenses of \$8.6 million, of which \$6.5 million has been paid and \$2.1 million remains accrued at June 30, 2005. In addition, the sales process may impact our ability to attract and retain customers, management and employees and may result in the incurrence of significant additional advisory fees, legal fees and other expenses; however, the amount and impact of these potential additional expenses cannot be reasonably estimated at this time.

**Note 5. Discontinued Operations**

During the six months ended June 30, 2005, we recognized net pre-tax gains of \$2.1 million, primarily relating to the sale of seven nursing facilities (889 beds) for cash proceeds totaling \$13.3 million. These assets were part of our Nursing Facilities segment, five of which were held for sale as of December 31, 2004. In addition, we sold 10 outpatient clinics for \$4.6 million, including \$710,000 in cash and \$3.8 million of notes receivable. These assets and related liabilities were part of our former Matrix segment and were held for sale as of December 31, 2004.

We have included the remaining assets of 22 nursing facilities (2,116 beds), part of our Nursing Facilities segment, as held for sale in the accompanying condensed consolidated balance sheet as of June 30, 2005. We expect to dispose of these facilities in the next six months. The remaining assets and liabilities of our former Matrix segment and the assets of 27 nursing facilities were included in assets and liabilities held for sale as of December 31, 2004.

A summary of the asset and liability line items from which the reclassifications have been made at June 30, 2005 and December 31, 2004, is as follows (in thousands):

**Note 6. Long-term Debt**

As of July 1, 2005, our 2.75% convertible subordinated notes continue to be eligible for conversion into common stock. Under the indenture governing the notes, a holder may convert any of their notes into our common stock during any fiscal quarter if the sale price of our common stock for at least 20 consecutive trading days in the 30 trading days ending on the last trading day of the immediately preceding fiscal quarter exceeds 120 percent of the conversion price on that 30th trading day.

**Note 6. Long-Term Debt (Continued)**

During June 2005, we entered into a mortgage loan for \$5.2 million for the construction of a nursing facility. This loan bears interest at 30-day LIBOR plus 2.5%, requires monthly principal and interest payments and is secured by the real property and a security interest in the personal property of the nursing facility.

Our 7<sup>7</sup>/<sub>8</sub>% senior subordinated notes are jointly and severally, fully and unconditionally guaranteed by most of our subsidiaries (the Guarantor Subsidiaries ). As of June 30, 2005, the non-guarantor subsidiaries included Beverly Indemnity, Ltd., our captive insurance subsidiary, and Beverly Funding Corporation, our receivables-backed financing subsidiary (the Non-Guarantor Subsidiaries ). Since the carrying value of the assets of the non-guarantor subsidiaries exceeds three percent of the consolidated assets of Beverly Enterprises, Inc., we are required to disclose consolidating financial statements in our periodic filings with the SEC.

**Note 7. Income Taxes**

The provisions for income taxes from continuing operations of \$3.3 million and \$2.5 million for the six months ended June 30, 2005 and 2004, respectively, primarily relate to state income taxes estimated to be due in separate return filing states where we conduct business, as well as federal alternative minimum tax ( AMT ) in 2005. We recorded a tax benefit in discontinued operations of \$1.4 million for the six months ended June 30, 2005 primarily

related to state tax refunds in a state where we have ceased operations.

The provisions differ from those calculated using the federal statutory rate due to changes in the valuation allowance, established at December 31, 2001, for net deferred tax assets. In 2005, the valuation allowance has decreased \$39.7 million primarily due to the reversal of temporary differences and the utilization of net operating loss carryforwards, general business credits and AMT credits to offset taxable income during the year. For the six months ended June 30, 2004, the valuation allowance decreased \$15.8 million primarily due to the reversal of temporary differences, partially offset by increases in the net operating loss carryforwards.

**Note 8. Stockholders Equity**

During the six months ended June 30, 2005, we issued approximately 741,000 shares of restricted stock to certain officers and other employees, all of which vest on the third anniversary of the grant date. If these additional shares had been issued prior to January 1, 2005, there would have been no material impact on our diluted net income per share for the six months ended June 30, 2005. We currently do not recognize compensation expense for our stock option grants, which are issued at fair market value on the date of grant and are accounted for under the intrinsic value method.

For purposes of pro forma disclosures under Statement of Financial Accounting Standards ( SFAS ) No. 148, *Accounting for Stock-Based Compensation Transition and Disclosure* ( SFAS No. 148 ), the estimated fair market value of all outstanding stock options is amortized to expense over the respective vesting periods. The fair market value has been estimated at the date of grant using a Black-Scholes option pricing model. The pro forma effects are not necessarily indicative of the effects on future quarters or future years. The following table summarizes our pro forma net income (loss) and diluted net income (loss) per share assuming we accounted for our stock option grants using the fair value method, (in thousands, except per share amounts):

(a) Includes total charges to our condensed consolidated statements of operations related to restricted stock grants for the three-month periods ended June 30, 2005 and 2004 of approximately \$1.8 million and \$1.0 million, respectively, and for the six-month periods ended June 30, 2005 and 2004 of approximately \$3.2 million and \$1.6 million, respectively.

In December 2004, the Financial Accounting Standards Board ( FASB ) issued Statement of Financial Accounting Standards No. 123 (revised), *Share-Based Payment* ( SFAS No. 123R ), which, when effective, will eliminate the intrinsic value method as an alternative method of accounting for stock-based awards. SFAS No. 123R also revises the fair value-based method of accounting for share-based payment liabilities, forfeitures and modifications of stock-based awards and clarifies guidance surrounding measuring fair value, classifying an award as equity or as a

liability and attributing compensation cost to reporting periods. In addition, SFAS No. 123R amends SFAS No. 95 to require that excess tax benefits be reported as a financing cash inflow rather than as a reduction of taxes paid, which is included within operating cash flows.

In the first quarter of 2005, the SEC issued Staff Accounting Bulletin No. 107, which provides further clarification on the implementation of SFAS No. 123R and provides alternative phase-in methods. The SEC announced in the second quarter of 2005 that it is extending the phase-in period for expensing of stock-based awards, which will extend our effective date for implementation of SFAS No. 123R to January 1, 2006. We expect to use the modified version of prospective application when we implement SFAS No. 123R and, based

on the current estimated value of unvested stock options, we expect wages and related expenses to increase approximately \$500,000 in 2006.

**Note 9. Contingencies and Legal Proceedings**

We are contingently liable for approximately \$11.8 million of long-term debt maturing on various dates through 2019, as well as annual interest on that debt. These contingent liabilities principally arose from previous sales of nursing facilities. We also guarantee certain third-party operating leases. Those guarantees arose from our dispositions of leased facilities and the underlying leases have \$54.2 million of minimum rental commitments remaining through the initial lease terms. In accordance with the FASB's Interpretation No. 45, *Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others*, we have a liability of approximately \$622,000, included in Other accrued liabilities on the condensed consolidated balance sheets, representing the estimated fair value of guarantees.

As previously reported in our Annual Report on Form 10-K for the fiscal year ended December 31, 2004, on January 26, 2005, a putative class action complaint brought on behalf of all shareholders of the Company was filed against the Company and each of its directors in the Delaware Chancery Court in New Castle County. The complaint, captioned *Chaya Perlstein v. William R. Floyd, et. al.*, Civil Action No. CA1050-N, asserted a claim for breach of fiduciary duty in connection with our response to an unsolicited expression of interest by a group of investors that collectively had purchased 8.1% of our common stock on the open market prior to January 24, 2005. A second, substantially identical, putative class action complaint was filed in the same court on February 1, 2005, bearing the caption *Robert Strougo v. Beverly Enterprises, Inc., et. al.*, Civil Action No. CA1067-N. On February 23, 2005, the Delaware Chancery Court consolidated these cases under the caption *In re Beverly Shareholders Litigation*, Civil Action No. CA1050-N, and designated the *Floyd* complaint as operative. The Company moved to dismiss the consolidated action on May 9, 2005. On July 13, 2005, the plaintiffs requested a voluntary dismissal of the consolidated action. The court granted the request and dismissed the consolidated action with prejudice on July 14, 2005.

As previously reported in our Annual Report on Form 10-K for the fiscal year ended December 31, 2004, on October 31, 2002, a shareholder derivative action entitled *Paul Dunne and Helene Dunne, derivatively on behalf of nominal defendant Beverly Enterprises, Inc. v. Beryl F. Anthony, Jr., et. al.* was filed in the Circuit Court of Sebastian County, Arkansas, Fort Smith Division (No. CIV-2002-1241). This case was purportedly brought derivatively on our behalf against various current and former officers and directors. The complaint alleges causes of action for breach of fiduciary duty against the defendants based on: (1) allegations that defendants failed to establish and maintain adequate accounting controls such that we failed to record adequate reserves for general and professional liability costs; and (2) allegations that certain defendants sold Company stock while purportedly in possession of material non-public information. On May 16, 2003, two additional derivative complaints (*Holcombe v. Floyd, et. al.* and *Flowers v. Floyd, et. al.*) were filed and subsequently transferred to the Circuit Court of Sebastian County, Arkansas, Fort Smith Division and consolidated with the Dunne action as *Holcomb v. Beverly Enterprises, Inc.* The Dunes were subsequently dismissed as plaintiffs. On November 19, 2004, Beverly moved to dismiss these actions on the grounds that the plaintiffs failed to make a pre-suit demand upon Beverly's Board of Directors and did not show that the failure to make such demand was excused as futile. The other defendants also moved to dismiss the actions for failure to state a claim upon which relief can be granted. Plaintiffs have opposed both motions. On June 23, 2005, the court dismissed the actions with prejudice on the grounds that the plaintiffs failed to make the requisite demand on the board of directors.

**Note 9. Contingencies and Legal Proceedings (Continued)**

We are a party to various legal matters relating to patient care, including claims that our services have resulted in injury or death to residents of our facilities. We believe that there has been, and will continue to be, an increase in governmental investigations of long-term care providers. Adverse determinations in legal proceedings or governmental investigations, whether currently asserted or arising in the future, could have a material adverse effect on us.

There are various other lawsuits and regulatory actions pending against us arising in the normal course of business, some of which seek punitive damages that are generally not covered by insurance. In addition, we are subject to audits by various governmental agencies. We do not believe that the ultimate resolution of such matters will have a material adverse effect on our consolidated financial position, results of operations or cash flows.

**Note 10. Segment Information**

Statement of Financial Accounting Standards No. 131, *Disclosures about Segments of an Enterprise and Related Information*, provides disclosure guidelines for segments of a company based on a management approach to defining operating segments. Our operations are organized into three primary segments:

*Nursing Facilities*, which provide long-term healthcare through the operation of skilled nursing homes and assisted living centers;

*Aegis*, which provides rehabilitation therapy services under contract to our nursing facilities and third-party nursing facilities; and

*AseraCare*, which primarily provides hospice services.

**REPORT OF ERNST & YOUNG LLP,  
INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Board of Directors  
Beverly Enterprises, Inc.

We have reviewed the accompanying condensed consolidated balance sheet of Beverly Enterprises, Inc. as of June 30, 2005, and the related condensed consolidated statements of operations for the three-month and six-month periods ended June 30, 2005 and 2004, and the condensed consolidated statements of cash flows for the six-month periods ended June 30, 2005 and 2004 ( Form 10-Q ). These financial statements are the responsibility of the Company s management.

We conducted our reviews in accordance with standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying condensed consolidated financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Beverly Enterprises, Inc. as of December 31, 2004 and the related consolidated statements of income, stockholders equity, and cash flows for the year then ended, not presented in the Company s Form 10-Q, and in our report dated March 8, 2005, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2004, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

**Forward-looking Statements**

This document contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may be identified by words such as expects, anticipates, intends, plans, believes, seeks, estimates or words of similar meaning and include, but are not limited to, statements about our expected future business and financial performance. Forward-looking statements are based on management's current expectations and assumptions, which are inherently subject to uncertainties, risks and changes in circumstances that are difficult to predict. Actual outcomes and results may differ materially from these expectations and assumptions due to changes in, among other things, political, economic, business, competitive, market, regulatory, demographic and other factors. In addition, our results of operations and financial condition, cash flows and liquidity may be adversely impacted by the ongoing sales process (see Item 1. Note 4). The sales process may impact our ability to attract and retain customers, management and employees and will result in the incurrence of significant advisory fees, legal fees and other expenses. We undertake no obligation to publicly update or revise any forward-looking information, whether as a result of new information, future developments or otherwise.

**Overview**

***Sales Process and Related Items***

In January 2005, a group including Formation Capital, LLC, Appaloosa Management, LP, Franklin Mutual Advisers LLC and Northbrook NBV LLC (the Formation Capital Consortium), publicly announced an unsolicited indication of interest in acquiring all of our outstanding common stock. Arnold M. Whitman, the Chief Executive Officer of Formation Capital also nominated a slate of six individuals for election to our Board of Directors.

On February 3, 2005, our Board of Directors unanimously rejected the Formation Capital Consortium's proposal. On March 22, 2005, we announced that our Board of Directors had unanimously voted to conduct an auction process to maximize value for all of our stockholders as soon as practicable through a sale of BEI. The Board also adopted procedures to enable the beneficial owners of not less than 20% of our outstanding common stock to nominate a new slate of directors and cause us to call a special meeting of stockholders to be held on October 21, 2005 for the election of directors.

On April 11, 2005, we entered into a Settlement Agreement with the Formation Capital Consortium and Mr. Whitman under which the Formation Capital Consortium and Mr. Whitman agreed to discontinue the solicitation of proxies in connection with the Company's April 21, 2005 Annual Meeting of Stockholders and Mr. Whitman withdrew his nominees for election to our Board of Directors and other proposals for consideration at the 2005 Annual Meeting. In addition, we agreed to reimburse the Formation Capital Consortium for up to \$600,000 of out-of-pocket fees and expenses incurred by them and Mr. Whitman in connection with their proxy solicitation. We have also entered into a Confidentiality Agreement with the members of the Formation Capital Consortium under which the Formation Capital Consortium and its representatives may examine our confidential information for the purpose of evaluating a possible transaction with us pursuant to the same restrictions imposed on other bidders involved in the sales process. We committed in the Confidentiality Agreement to allow the Formation Capital Consortium to participate in our on-going sales process on the same basis as all other potential buyers.

The sales process is being overseen by independent members of our Board of Directors who have engaged an independent financial advisor to provide a fairness opinion. We have established a due diligence process to assist potential bidders in evaluating their level of interest in acquiring us and in developing bids. Multiple potential bidders or bidding groups signed confidentiality agreements and obtained access to information about

BEI contained in an online data room we established. On May 18, 2005, we announced that bidding had entered a second round.

Our results of operations, financial condition and cash flows may be adversely impacted by the ongoing sales process. To date we have incurred various costs as a result of the expression of interest, the proxy contest and the sales process including legal, investment banking advisory fees and other related costs. During the first quarter of 2005, we engaged two investment banking firms to assist us in evaluating proposals, both solicited and unsolicited, to acquire us or any of our assets or businesses. Under the terms of the engagement we are required to pay a fee to these two firms equal to a percentage of any consideration received in connection with our sale, with their percentage compensation increasing with an increase in the sales value, or a flat fee if no sale was to occur. As a result, we recorded a liability of \$16.5 million included in Other accrued liabilities on the June 30, 2005 condensed consolidated balance sheet. In addition, we have incurred other costs related to the sales process and have recorded expenses of \$8.6 million, of which \$6.5 million has been paid and \$2.1 million remains accrued at June 30, 2005. In addition, the sales process may impact our ability to attract and retain customers, management and employees and will result in the incurrence of significant additional advisory fees, legal fees and other expenses; however, the amount and impact of these potential additional expenses cannot be reasonably estimated at this time.

***General***

Despite the expression of interest and subsequent sales process, our business unit operating and financial trends continue to be positive. Our second quarter included revenue growth of nearly 17% with improvements in operating margins, compared to the year-earlier period. We are dedicated to providing quality of care, executing the specific initiatives we have developed to achieve profitable growth in our business segments and improving our financial position.

Our three principal business segments performed well ahead of 2004 second-quarter results. On a continuing operations basis, our Nursing Facilities revenue increased 13.2% and pre-tax income increased \$29.1 million, including \$14.9 million due to favorable rate increases in Indiana. Aegis revenues from third-party customers rose 24%, compared with the 2004 second quarter, reflecting increased business with existing clients and the addition of customers. AseraCare revenues from core operations were up 37%, primarily due to an increase in average daily census of 30%. The balance of the revenue growth from AseraCare is related to our July 2004 acquisition of Hospice USA, LLC and the openings of five new hospice locations.

Based on the growth trends we are seeing in our principal business units, improved operating metrics and a generally positive reimbursement environment at both federal and state levels, our pre-tax income from continuing operations for the three months ended June 30, 2005, increased 36% from the same period in 2004, excluding \$6.3 million of costs related to the sales process discussed above, and \$13.0 million of retroactive Medicaid rate adjustments in Indiana for the 2005 second quarter and \$40.3 million of costs related to early extinguishments of debt in the second quarter of 2004.

**Operating Results**

***Reclassification***

Results of operations for the three-month and six-month periods ended June 30, 2005 and 2004, reflect asset dispositions during 2005 and 2004, and assets classified as held for sale, as discontinued operations. The following discussions reflect this reclassification.

***Results of Operations – Continuing Operations***

*Second Quarter 2005 Compared to Second Quarter 2004.* We reported an increase in pre-tax income from continuing operations to \$43.3 million for the three months ended June 30, 2005, compared to a pre-tax loss of \$13.3 million for the same period in 2004. The quarter-over-quarter comparisons of our financial results are affected by material special pre-tax charges discussed below. Excluding these special pre-tax charges, our pre-tax income from continuing operations would have almost doubled for the three months ended June 30, 2005, compared to the same period in 2004.

Pre-tax income from continuing operations for the second quarter of 2005 included a special pre-tax charge of \$6.3 million for costs related to the sales process (see Item 1. Note 4). These costs primarily include legal fees and other related costs.

Pre-tax income from continuing operations for the second quarter of 2004 included the following special pre-tax charges (adjustments):

\$40.3 million for costs related to the early extinguishment of debt. During the second quarter of 2004, we issued \$215.0 million of 7<sup>7</sup>/<sub>8</sub>% senior subordinated notes. The proceeds from the senior subordinated notes, together with cash on hand, were used to purchase \$190.6 million of our 9<sup>5</sup>/<sub>8</sub>% senior notes and to pay related fees and expenses. In conjunction with these transactions, we paid a prepayment premium of \$36.1 million and wrote off \$3.7 million of related deferred financing costs. We also paid \$505,000 in tender fees related to the cash tender offer on the 9<sup>5</sup>/<sub>8</sub>% senior notes;

\$301,000 for workforce reductions and exit costs;

\$1.3 million reversal of a previously recorded charge as a result of an impaired foreign investment being sold above its carrying value.

*Six Months 2005 Compared to Six Months 2004.* We reported an increase in pre-tax income from continuing operations to \$58.2 million for the six months ended June 30, 2005, compared to \$9.8 million for the same period in 2004. The year-over-year comparisons of our financial results are affected by material special pre-tax charges discussed below. Excluding these special pre-tax charges, our pre-tax income from continuing operations would have increased 61% for the six months ended June 30, 2005, compared to the same period in 2004.

Pre-tax income from continuing operations for 2005 includes a special pre-tax charge of \$25.1 million for costs related to the sales process, of which \$6.5 million has been paid and \$18.6 million remains accrued as of June 30, 2005 (see Item 1. Note 4). These costs include legal, investment banking advisory fees and other related costs.

Pre-tax income from continuing operations for 2004 included the following special pre-tax charges:

\$40.3 million for the refinancing of our 9<sup>5</sup>/<sub>8</sub>% senior notes (discussed above);

\$2.9 million for asset impairments, primarily related to two nursing facilities;

\$444,000 for workforce reduction charges, less \$346,000 in related credits, primarily due to the cancellation of restricted stock. The \$444,000 for workforce reductions primarily related to 28 associates who were notified in 2004 that their positions would be eliminated and included \$423,000 of cash expenses paid during the year ended December 31, 2004.

*Second Quarter 2005 Compared to Second Quarter 2004.* Approximately 88% and 91% of our revenues for the three months ended June 30, 2005 and 2004, respectively, were derived from services provided by our Nursing Facilities segment. The increase in total revenues of \$80.5 million for the three months ended June 30, 2005, as compared to the same period in 2004, is primarily due to the following, by operating segment:

*Nursing Facilities:*

an increase of \$20.7 million primarily due to a retroactive Medicaid rate adjustment in Indiana;

an increase of \$23.6 million, \$5.7 million and \$3.0 million due to increases in Medicaid, Medicare and private payment rates, respectively;

an increase of \$7.0 million due to a positive shift in our patient mix; partially offset by

a decrease of \$2.3 million due to a decline in census;

*Aegis:*

an increase of \$7.1 million from growth in Aegis external therapy business, including a 4% growth in average revenue per contract and an increase in new customers;

*AseraCare:*

an increase of \$9.6 million due to the Hospice USA acquisition; and

an increase of \$4.5 million, primarily due to openings of new hospice locations and a 30% increase in average daily census in our AseraCare business.

*Six Months 2005 Compared to Six Months 2004.* Approximately 89% and 91% of our revenues for the six months ended June 30, 2005 and 2004, respectively, were derived from services provided by our Nursing

Facilities segment. The increase in total revenues of \$163.0 million for the six months ended June 30, 2005, as compared to the same period in 2004, is primarily due to the following, by operating segment:

*Nursing Facilities:*

an increase of \$55.3 million primarily due to retroactive Medicaid rate adjustments in Indiana and Pennsylvania;

an increase of \$41.5 million, \$13.1 million and \$6.6 million due to increases in Medicaid, Medicare and private payment rates, respectively;

an increase of \$3.4 million in Medicare Part B revenues, primarily due to increased therapy-related services;

an increase of \$8.8 million due to a positive shift in our patient mix; partially offset by

a decrease of \$4.6 million due to one less calendar day during 2005, as compared to the same period in 2004; and

a decrease of \$5.0 million due to a decline in census;

*Aegis:*

an increase of \$16.2 million from growth in Aegis external therapy business, including a 4% growth in average revenue per contract and an increase in new customers;

*AseraCare:*

an increase of \$18.3 million due to the Hospice USA acquisition; and

an increase of \$8.9 million, primarily due to openings of new hospice locations and a 33% increase in average daily census in our AseraCare business.

*Second Quarter 2005 Compared to Second Quarter 2004.* Excluding special pre-tax charges discussed above, our total costs and expenses increased \$59.2 million quarter over quarter, primarily due to the following:

an increase of \$22.1 million in state-imposed provider taxes, primarily associated with the retroactive Medicaid rate adjustments in Indiana and Pennsylvania, included in our Nursing Facilities segment; and

an increase of \$8.8 million in Aegis wages and related expenses due to increased staffing associated with the increased volume of new contracts, including a \$1.1 million, or 27%, increase in Aegis contract therapy costs;

an increase of \$3.4 million in Nursing Facilities wages and related expenses, primarily due to a 3.9% increase in the weighted average wage rate and an increase in nursing hours per patient day;

an increase of \$9.7 million due to the Hospice USA acquisition, the opening of five new hospice locations and two home health centers;

an increase of \$3.0 million in contracted services, primarily due to outsourcing certain housekeeping, laundry and dietary services in our Nursing Facilities segment;

an increase in depreciation and amortization expense, primarily due to an increase in capital expenditures in our Nursing Facilities segment; partially offset by

a 10% decrease in our provision for insurance and related items, primarily due to a reduction in workers compensation program costs and expenses.

*Six Months 2005 Compared to Six Months 2004.* Excluding special pre-tax charges, discussed above, our total costs and expenses increased \$135.6 million, primarily due to the following:

an increase of \$57.4 million in state-imposed provider taxes, primarily associated with the retroactive Medicaid rate adjustments in Indiana and Pennsylvania, included in our Nursing Facilities segment; and

an increase of \$18.9 million in Aegis wages and related expenses due to increased staffing related to the increased volume of new contracts. This increase includes a \$3.3 million, or 45%, increase in Aegis contract therapy cost;

an increase of \$13.0 million in Nursing Facilities wages and related expenses, primarily due to a 4.2% increase in the weighted average wage rate and an increase in nursing hours per patient day;

an increase of \$19.5 million due to the Hospice USA acquisition and the opening of 18 new hospice locations;

an increase of \$5.6 million in contracted services, primarily due to outsourcing certain housekeeping, laundry and dietary services in our Nursing Facilities segment;

an increase in depreciation and amortization expense, primarily due to an increase in capital expenditures in our Nursing Facilities segment.

June 30, 2005 primarily relates to state income taxes estimated to be due in separate return filing states where we conduct business, as well as federal alternative minimum tax (AMT). We recorded a tax benefit in discontinued operations of \$1.4 million for the six months ended June 30, 2005, primarily related to state tax refunds in a state where we have ceased operations. The valuation allowance on our net deferred tax assets decreased by \$39.7 million during the six months ended June 30, 2005 to \$118.6 million, primarily due to the reversal of temporary differences and the utilization of net operating loss carryforwards, general business tax credits, and AMT credits to offset taxable income for the period.

***New Accounting Standard***

In December 2004, the FASB issued SFAS No. 123R which, when effective, will eliminate the intrinsic value method as an alternative method of accounting for stock-based awards. SFAS No. 123R also revises the fair value-based method of accounting for share-based payment liabilities, forfeitures and modifications of stock-based awards and clarifies guidance surrounding measuring fair value, classifying an award as equity or as a liability and attributing compensation cost to reporting periods. In addition, SFAS No. 123R amends SFAS No. 95 to require that excess tax benefits be reported as a financing cash inflow rather than as a reduction of taxes paid, which is included within operating cash flows.

In the first quarter of 2005, the SEC issued Staff Accounting Bulletin No. 107, which provides further clarification on the implementation of SFAS No. 123R and provides alternative phase-in methods. The SEC announced in the second quarter of 2005 that it is extending the phase-in period for expensing of stock-based awards, which will extend our effective date for implementation of SFAS No. 123R to January 1, 2006. We expect to use the modified version of prospective application when we implement SFAS No. 123R and based on the current estimated value of unvested stock options, we expect wages and related expenses to increase approximately \$500,000 in 2006.

**Liquidity and Capital Resources**

At June 30, 2005, we had \$212.6 million in cash and cash equivalents and \$7.2 million of investments with maturities between three and six months. We anticipate that \$82.3 million of this cash balance, while not legally restricted, will be utilized primarily to fund certain general and professional liabilities and workers' compensation claims and expenses. In addition, at June 30, 2005, we had approximately \$13.4 million in funds that are restricted for the payment of insured claims and are included in Prepaid expenses and other on our condensed consolidated balance sheet. At June 30, 2005, we had positive working capital of \$229.8 million reflected on our condensed consolidated balance sheet, an increase of 31% from year-end 2004. At June 30, 2005, we had \$90.0 million of unused commitments under our revolving credit facility and \$15.7 million of unused commitments under our letter of credit facility.

Net cash provided by (used for) operating activities, under the direct method, for the six months ended June 30, consists of the following (in thousands):

	2005	2004
Cash received from patients and third-party payors	\$ 1,119,045	\$ 990,715
Interest received	4,031	2,870
Cash paid to suppliers and employees	(1,072,262)	(992,086)
Interest paid	(19,714)	(19,103)
Income tax (paid) refunds received	4,267	(4,372)
 Net cash provided by (used for) operating activities	 \$ 35,367	 \$ (21,976)

The \$35.4 million of net cash provided by operating activities and \$14.2 million of proceeds from dispositions were primarily used to fund capital expenditures of \$45.2 million and to pay down long-term debt for the six months ended June 30, 2005. For the six months ended June 30, 2004, the \$22.0 million of net cash used for operating activities was primarily caused by an \$80.2 million increase in accounts receivable, principally resulting from the termination of daily purchases of receivables by Beverly Funding Corporation ( BFC ) from Beverly Health and Rehabilitation Services ( BHRS ) on March 1, 2004. With the termination of daily purchases of receivables by BFC from BHRS, our accounts receivable increased and resulted in a use of cash from operating activities on our condensed consolidated statement of cash flows for the second quarter of 2004. Accounts receivable increased \$69.7 million during the six months ended June 30, 2005, primarily due to the recording of retroactive receivables from Indiana associated with a change in the Medicaid plan in that state, as well as the timing of certain Medicare and Medicaid payments and increased revenues.

*Debt transaction.* During June 2005, we entered into a mortgage loan for \$5.2 million for the construction of a nursing facility. This loan bears interest at 30-day LIBOR plus 2.5%, requires monthly principal and interest payments and is secured by the real property and a security interest in the personal property of the nursing facility.

*Divestitures.* During the six months ended June 30, 2005, we sold two nursing facilities for \$13.0 million, in cash and 10 outpatient clinics for \$4.6 million, including \$710,000 cash and \$3.8 million of notes receivable. As of June 30, 2005, we had 22 nursing facilities classified as held for sale that met the appropriate criteria set forth in SFAS No. 144 and we expect to dispose of them within the next six months.

*Sale of the Company.* Our results of operations, financial condition, cash flows and liquidity may be adversely impacted by the ongoing sales process. To date we have incurred various costs as a result of the expression of interest, the proxy contest and the sales process including legal, investment banking advisory fees and other related costs. During the six months ended June 30, 2005, we recorded \$25.1 million of such costs, of which \$6.5 million has been paid and \$18.6 million remains accrued as of June 30, 2005. In addition, the sales process may impact our ability to attract and retain customers, management and employees and will result in the incurrence of significant additional advisory fees, legal fees and other expenses; however, the amount and impact of these potential additional expenses cannot be reasonably estimated at this time.

*Summary.* We currently anticipate that cash on hand, cash flows from operations and availability under our banking arrangements will be adequate to repay our debts due within one year of \$10.7 million, to make capital additions and improvements of approximately \$100.0 million, to make operating lease and other contractual obligation payments, to make selective acquisitions, including the purchase of previously leased facilities and to meet working capital requirements for the twelve months ending June 30, 2006.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL  
CONDITION AND RESULTS OF OPERATIONS (Continued)**

Our ability to make payments on, and to refinance, our indebtedness, as well as to fund planned capital expenditures, including strategic acquisitions, and research and development efforts, will depend on our ability to generate cash in the future. This, to a certain extent, is subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond our control. However, based on our current level of operations and anticipated cost savings and operating improvements, we believe our cash flows from operations, current cash and cash equivalents and available borrowings will be adequate to meet our future liquidity needs.

We cannot assure you, however, that our business will generate sufficient cash flows from operations, that currently anticipated cost savings and operating improvements will be realized on schedule, that future borrowings will be available to us in an amount sufficient to enable us to pay our indebtedness or to fund our other liquidity needs. We also cannot assure you as to what the potential impact of the sales process will ultimately be on our business and operations. We may need to refinance all or a portion of our indebtedness on or before maturity. We cannot assure you that we will be able to refinance any of our indebtedness on commercially reasonable terms or at all. If cash flows from operations or availability under our existing banking arrangements fall below expectations, we may be required to utilize cash on hand, delay capital expenditures, dispose of certain assets, issue additional debt securities, or consider other alternatives to improve liquidity.

**ITEM 4. CONTROLS AND PROCEDURES.**

***Evaluation of Disclosure Controls and Procedures***

We maintain disclosure controls and procedures, which are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by SEC Rule 13a-15(b), we have carried out an evaluation as of June 30, 2005, the end of the period covered by this report, under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon their evaluation and subject to the foregoing, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level.

***Changes in Internal Control Over Financial Reporting***

There has been no change in our internal controls over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

Abstentions	2,566,870

In January 2005, a group including Formation Capital, LLC, Appaloosa Management, LP, Franklin Mutual Advisers LLC and Northbrook NBV LLC (the Formation Capital Consortium ), publicly announced an unsolicited indication of interest in acquiring all of our outstanding common stock. Arnold M. Whitman, the Chief Executive Officer of Formation Capital also nominated a slate of six individuals for election to our Board of Directors.

On February 3, 2005, our Board of Directors unanimously rejected the Formation Capital Consortium's proposal. On March 22, 2005, we announced that our Board of Directors had unanimously voted to conduct an auction process to maximize value for all of our stockholders as soon as practicable through a sale of BEI. The Board also adopted procedures to enable the beneficial owners of not less than 20% of our outstanding common stock to nominate a new slate of directors and cause us to call a special meeting of stockholders to be held on October 21, 2005 for the election of directors.

On April 11, 2005, we entered into a Settlement Agreement with the Formation Capital Consortium and Mr. Whitman under which the Formation Capital Consortium and Mr. Whitman agreed to discontinue the solicitation of proxies in connection with the Company's April 21, 2005 Annual Meeting of Stockholders and Mr. Whitman withdrew his nominees for election to our Board of Directors and other proposals for consideration at the 2005 Annual Meeting. In addition, we agreed to reimburse the Formation Capital Consortium for up to \$600,000 of out-of-pocket fees and expenses incurred by them and Mr. Whitman in connection with their proxy solicitation. We have also entered into a Confidentiality Agreement with the members of the Formation Capital Consortium under which the Formation Capital Consortium and its representatives may examine our confidential information for the purpose of evaluating a possible transaction with us pursuant to the same restrictions imposed on other bidders involved in the sales process. We committed in the Confidentiality Agreement to allow the Formation Capital Consortium to participate in our on-going sales process on the same basis as all other potential buyers.
