NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**March 31, 2006**

**(Unaudited)**

**(1) SIGNIFICANT ACCOUNTING POLICIES -**

***Basis of Presentation***

In management's opinion, the accompanying unaudited consolidated financial statements contain all adjustments (consisting solely of normal recurring adjustments) necessary to present fairly the financial position of Comstock Resources, Inc. and subsidiaries ( Comstock or the Company ) as of March 31, 2006 and the related results of operations and cash flows for the three months ended March 31, 2006 and 2005.

The accompanying unaudited consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States have been omitted pursuant to those rules and regulations, although Comstock believes that the disclosures made are adequate to make the information presented not misleading. These unaudited consolidated financial statements should be read in conjunction with the financial statements and notes thereto included in Comstock's Annual Report on Form 10-K for the year ended December 31, 2005.

These unaudited consolidated financial statements include the accounts of Comstock and subsidiaries in which it has a controlling interest. Investments in 50% or less owned entities are accounted for using the equity method of accounting. Intercompany balances and transactions have been eliminated in consolidation.

The results of operations for the three months ended March 31, 2006 are not necessarily an indication of the results expected for the full year.

***Investment in Bois d'Arc Energy***

As of March 31, 2005, Comstock owned 60% of Bois d'Arc Energy, LLC, a limited liability company that conducted exploration, development and production operations in state and federal waters in the Gulf of Mexico. Comstock accounted for its interest in Bois d'Arc Energy, LLC based on its proportionate ownership in such entity until May 10, 2005 when Bois d'Arc Energy, LLC was converted to a corporation and changed its name to Bois d'Arc Energy, Inc. ( Bois d'Arc Energy ). On May 11, 2005 Bois d'Arc Energy completed an initial public offering of 13.5 million shares of common stock at \$13.00 per share to the public. Bois d'Arc Energy sold 12.0 million shares of common stock and received net proceeds of \$145.1 million and a selling stockholder sold 1.5 million shares. On May 11, 2005, Bois d'Arc Energy used the proceeds from its initial public offering together with borrowings under a new bank credit facility to repay \$158.1 million in outstanding advances from Comstock. As a result of Bois d'Arc Energy's conversion to a corporation and the initial public offering, Comstock's ownership in Bois d'Arc Energy decreased to 48% and Comstock discontinued accounting for its interest in Bois d'Arc Energy using the proportionate consolidation method and began using the equity method to account for its investment in Bois d'Arc Energy.

**Table of Contents**

**COMSTOCK RESOURCES, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
*(Continued)*

Comstock's investment in Bois d'Arc Energy represents the value of the assets contributed at the time of Bois d'Arc Energy's formation, the Company's 60% interest in the undistributed earnings of Bois d'Arc Energy from inception through May 10, 2005, the portion of Bois d'Arc Energy's net income attributable to the Company's interest in the outstanding common stock of Bois d'Arc Energy since the adoption of the equity method of accounting for this investment, and the gain recognized based on the Company's share of the amount that Bois d'Arc Energy's equity increased as a result of the sale of shares in Bois d'Arc Energy's initial public offering.

Bois d'Arc Energy's common stock is traded on the New York Stock Exchange under the ticker symbol BDE. The fair value of the Company's investment in Bois d'Arc Energy as of March 31, 2006 was \$498.4 million based upon the closing price for Bois d'Arc Energy shares on that date of \$16.65 per share.

Financial information reported by Bois d'Arc Energy is summarized below:

Balance Sheet:

	<b>March 31, 2006</b>	<b>December 31, 2005</b>

**Table of Contents**

**COMSTOCK RESOURCES, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
*(Continued)*

**Income Taxes**

Deferred income taxes are provided to reflect the future tax consequences or benefits of differences between the tax basis of assets and liabilities and their reported amounts in the financial statements using enacted tax rates. The difference between the Company's customary rate of 35% and the effective tax rate of 36% for the three months ended March 31, 2006 is due to permanent book tax differences, primarily nondeductible stock based compensation.

The following is an analysis of the consolidated income tax expense:

	<b>Three Months Ended</b>	
	<b>March 31,</b>	
	<b>2006</b>	<b>2005</b>
	<i>(In thousands)</i>	
Current	\$ 1,388	\$ 1,117
Deferred	15,472	7,820
Provision for Income Taxes	\$ 16,860	\$ 8,937

**Stock-Based Compensation**

Effective January 1, 2006 Comstock adopted Statement of Financial Accounting Standards No. 123 (Revised 2004), Share-Based Payment (SFAS 123R) in accounting for employee stock-based compensation, including the supplemental guidance provided in Staff Accounting Bulletin No. 107. The Company adopted SFAS 123R utilizing the modified prospective transition method and accordingly the financial results for periods prior to January 1, 2006 have not been adjusted. Prior to adopting SFAS 123R the Company followed the fair value based method prescribed in Statement of Financial Accounting Standards No. 123, Accounting for Stock Based Compensation for all periods beginning January 1, 2004. Under the fair value based method, compensation cost is measured at the grant date based on the fair value of the award and is recognized over the award vesting period. Because the Company previously recorded stock based compensation using the fair value method, adoption of SFAS 123R did not have a significant impact on the Company's net income or earnings per share for the three months ended March 31, 2006. During the three months ended March 31, 2006 and 2005, the Company recognized \$1.7 million and \$1.8 million, respectively, in stock-based compensation expense within general and administrative expenses. The excess income tax benefit realized from tax deductions associated with stock-based compensation totaled \$0.2 million and \$3.5 million for the three months ended March 31, 2006 and 2005, respectively.

Prior to adopting SFAS 123R, the Company presented all tax benefits of the deductions that resulted from stock-based compensation as cash flows from operating activities. SFAS 123R requires that excess tax benefits on stock-based compensation be recognized as a part of cash flows from financing activities. Upon adoption of SFAS 123R effective January 1, 2006, \$197,000 of tax benefits have been included in cash flows from financing activities for the three months ended March 31, 2006.

*Stock options.* The Company amortizes the fair value of stock options granted over the vesting period using the straight-line method. The fair value of each award is estimated as of the date of grant using the Black-Scholes options pricing model. There were no options granted during the three months ended March 31, 2006. Total compensation expense recognized for all outstanding stock options for the three months ended March 31, 2006 and 2005 was \$143,000 and \$479,000, respectively. During the three months ended March 31, 2006, options to purchase 11,500 shares were exercised with an intrinsic value of \$223,000. Total unrecognized compensation cost related to non-vested stock options of \$1.8 million is expected to be recognized over a weighted-average period of 3.7 years. A summary of outstanding and exercisable options as of March 31, 2006 is presented below:

**Weighted**

	<b>Shares</b>	<b>Weighted Average Exercise Price</b>	<b>Average Remaining Contractual Term</b>	<b>Intrinsic Value (In thousands)</b>
Options Outstanding	1,722,470	\$9.83	3.0 years	\$ 34,494
Options Exercisable	1,580,970	\$8.09	2.5 years	\$ 34,143

---

10

**Table of Contents**

**COMSTOCK RESOURCES, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
*(Continued)*

*Restricted stock.* The fair value of restricted stock grants is amortized over the vesting period using the straight-line method. The fair value of each restricted share on the date of grant is equal to its fair market price. There were no restricted stock grants during the three months ended March 31, 2006. Total compensation cost recognized for restricted stock grants for the three months ended March 31, 2006 and 2005 was \$1.5 million and \$1.3 million, respectively. Total unrecognized compensation cost related to non-vested restricted stock of \$17.4 million as of March 31, 2006, is expected to be recognized over a weighted average period of 3.8 years. As of March 31, 2006 the Company had 919,500 shares of unvested restricted stock outstanding at a weighted average grant date fair value of \$23.43.

**Asset Retirement Obligations**

Comstock's primary asset retirement obligations relate to future plugging and abandonment expenses on its oil and gas properties and related facilities disposal. The following table summarizes the changes in Comstock's total estimated liability during the three months ended March 31, 2006 and 2005:

	<b>Three Months Ended March 31,</b>	
	<b>2006</b>	<b>2005</b>
	<i>(In thousands)</i>	
Future abandonment liability beginning of period	\$ 3,206	\$ 19,248
Accretion expense	52	299
New wells placed on production	40	570
Liabilities settled	(7)	(130)
Future abandonment liability end of period	\$ 3,291	\$ 19,987

**Earnings Per Share**

Basic earnings per share is determined without the effect of any outstanding potentially dilutive stock options or other convertible securities and diluted earnings per share is determined with the effect of outstanding stock options and other convertible securities that are potentially dilutive. Basic and diluted earnings per share for the three months ended March 31, 2006 and 2005, respectively, were determined as follows:

	<b>Income</b>	<b>Three Months Ended March 31,</b>		<b>Income</b>	<b>Shares</b>	<b>Per Share</b>
		<b>2006</b>	<b>Per Share</b>			
		<b>Shares</b>				
		<i>(In thousands, except per share amounts)</i>				
<i>Basic Earnings Per Share:</i>

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
*(Continued)*

***Derivative Instruments and Hedging Activities***

Comstock periodically uses swaps, floors and collars to hedge oil and natural gas prices and interest rates. Swaps are settled monthly based on differences between the prices specified in the instruments and the settlement prices of futures contracts. Generally, when the applicable settlement price is less than the price specified in the contract, Comstock receives a settlement from the counter party based on the difference multiplied by the volume or amounts hedged. Similarly, when the applicable settlement price exceeds the price specified in the contract, Comstock pays the counter party based on the difference. Comstock generally receives a settlement from the counter party for floors when the applicable settlement price is less than the price specified in the contract, which is based on the difference multiplied by the volume amounts hedged. For collars, generally Comstock receives a settlement from the counter party when the settlement price is below the floor and pays a settlement to the counter party when the settlement price exceeds the cap. No settlement occurs when the settlement price falls between the floor and cap.

The following table sets forth the derivative financial instruments outstanding at March 31, 2006 which relate to Comstock's natural gas production:

<b>Period Beginning</b>	<b>Period Ending</b>	<b>Volume MMBtu</b>	<b>Delivery Location</b>	<b>Type of Instrument</b>	<b>Floor Price</b>	<b>Ceiling Price</b>
April 1, 2006	December 31, 2006	2,304,000	Henry Hub	Collar	\$ 4.50	\$ 9.02
April 1, 2006	December 31, 2006	1,800,000	Houston Ship Channel	Collar	\$ 4.50	\$ 8.25

The fair value of the Company's derivative contracts held for price risk management at March 31, 2006 was a liability of \$2.4 million. Comstock did not designate these instruments as cash flow hedges and accordingly, an unrealized gain on derivatives of \$8.8 million was recorded for the three months ended March 31, 2006 and an unrealized loss of \$3.2 million was recorded for the three months ended March 31, 2005 to reflect the change in this liability since December 31, 2005 and December 31, 2004, respectively. The Company realized losses of \$0.7 million for the three months ended March 31, 2006 to settle derivative positions.

***Supplementary Information With Respect to the Consolidated Statements of Cash Flows***

	<b>For the Three Months Ended March 31,</b>	
	<b>2006</b>	<b>2005</b>
	<i>(In thousands)</i>	
Cash Payments		
Interest payments	\$7,295	\$8,666
Income tax payments	\$2,123	\$ 56

**(2) ACQUISITION**

On May 12, 2005, Comstock completed an acquisition of certain oil and gas properties and related assets from EnSight Energy Partners, L.P. ( EnSight ) for \$190.9 million. Comstock acquired producing properties in East Texas, Louisiana and Mississippi. Comstock estimates that the acquired properties have proved reserves of approximately 120.2 billion cubic feet of gas equivalent ( Bcfe ). The acquisition was funded with proceeds from a public stock offering completed in April 2005 and borrowings under Comstock's bank credit facility.

Table of Contents

**COMSTOCK RESOURCES, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
*(Continued)*

Set forth in the following table is certain unaudited pro forma financial information for the three months ended March 31, 2005. This information has been prepared assuming the EnSight Acquisition was consummated on January 1, 2005 and is based on estimates and assumptions deemed appropriate by Comstock. The pro forma information is presented for illustrative purposes only. If the transaction had occurred in the past, Comstock's operating results might have been different from those presented in the following table. The pro forma information should not be relied upon as an indication of the operating results that Comstock would have achieved if the transaction had occurred on January 1, 2005. The pro forma information also should not be used as an indication of the future results that Comstock will achieve after the acquisition.

	<b>For the Three Months Ended March 31, 2005</b> <i>(In thousands, except per share amounts)</i>
Oil and gas sales	\$ 79,159

**(3) LONG-TERM DEBT -**

At March 31, 2006, Comstock's long-term debt was comprised of the following:

	<i>(In thousands)</i>
Revolving Bank Credit Facility	\$ 68,000
6 <sup>7</sup> / <sub>8</sub> % Senior Notes due 2012	175,000
	\$ 243,000

Comstock has \$175.0 million of 6<sup>7</sup>/<sub>8</sub>% senior notes which are due March 1, 2012, with interest payable semiannually on each March 1 and September 1. These notes are unsecured obligations of the Company and are guaranteed by the Company's wholly owned subsidiaries. Comstock also has a \$400.0 million bank credit facility with Bank of Montreal, as the administrative agent, which is guaranteed by the Company's wholly owned subsidiaries. The credit facility is a four-year revolving credit commitment that matures on February 25, 2008. Indebtedness under the credit facility is secured by Comstock's wholly-owned subsidiaries' oil and gas properties and is guaranteed by all of its wholly-owned subsidiaries. The credit facility is subject to borrowing base availability, which is redetermined semiannually based on the banks' estimates of the future net cash flows of Comstock's oil and natural gas properties. The borrowing base may be affected by the performance of Comstock's properties and changes in oil and natural gas prices. The determination of the borrowing base is at the sole discretion of the administrative agent and the bank group. The borrowing base was \$350.0 million as of March 31, 2006. Borrowings under the credit facility bear interest, based on the utilization of the borrowing base, at Comstock's option at either LIBOR plus 1.25% to 1.75% or the base rate (which is the higher of the prime rate or the federal funds rate) plus 0% to 0.5%. A commitment fee of

0.375% is payable on the unused borrowing base. The credit facility contains covenants that, among other things, restrict the payment of cash dividends, limit the amount

**INDEPENDENT ACCOUNTANTS REVIEW REPORT**

We have reviewed the consolidated balance sheet of Comstock Resources, Inc. (a Nevada corporation) and subsidiaries (the Company) as of March 31, 2006, and the related consolidated statements of income for the three-month periods ended March 31, 2006 and 2005, and the consolidated statements of cash flows for the three-month periods ended March 31, 2006 and 2005. These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the condensed consolidated interim financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Comstock Resources, Inc. and subsidiaries as of December 31, 2005, and the related consolidated statements of income, stockholders' equity, and cash flows for the year then ended not presented herein, and in our report dated March 13, 2006 we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2005, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

**(Unaudited)**

**(1) ORGANIZATION**

Bois d Arc Energy, Inc. ( Bois d Arc Energy or the Company ) is engaged in the exploration for and production of oil and natural gas in the Gulf of Mexico and is the successor to Bois d Arc Energy, LLC following its conversion from a limited liability company to a corporation on May 10, 2005. References herein to Bois d Arc Energy or the Company include Bois d Arc Energy, LLC prior to its conversion to a corporation.

**(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

***Basis of Presentation***

In management s opinion, the accompanying unaudited consolidated financial statements contain all adjustments (consisting solely of normal recurring adjustments) necessary to present fairly the financial position of the Company as of March 31, 2006 and the related results of operations and cash flows of the Company for the three months ended March 31, 2006 and 2005, respectively.

The accompanying unaudited consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States have been omitted pursuant to those rules and regulations, although the Company believes that the disclosures made are adequate to make the information presented not misleading. These unaudited consolidated financial statements should be read in conjunction with the financial statements and notes thereto included in the Company s Annual Report on Form 10-K for the year ended December 31, 2005.

The results of operations for the three months ended March 31, 2006 are not necessarily an indication of the results expected for the full year.

***Reclassifications***

Certain reclassifications have been made to prior periods financial statements to conform to the current presentation.

***General and Administrative Expense***

General and administrative expense was reduced by operating fee income received of \$0.5 million and \$0.8 million for the three months ended March 31, 2006 and 2005, respectively. The operating fee income is a reimbursement of the Company s general and administrative expense. General and administrative expense include fees paid to Comstock Resources, Inc. ( Comstock ) of \$15,000 and \$60,000 for the three months ended March 31, 2006 and 2005, respectively, for accounting services under a service agreement.

Table of Contents

**BOIS d ARC ENERGY, INC.**  
**NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS**  
*(Continued)*

***Stock-Based Compensation***

Effective January 1, 2006 Bois d Arc Energy adopted Statement of Financial Accounting Standards No. 123 (Revised 2004), Share-Based Payment ( SFAS 123R ) in accounting for employee stock-based compensation, including the supplemental guidance provided in Staff Accounting Bulletin No. 107. The Company adopted SFAS 123R utilizing the modified prospective transition method and accordingly the financial results for periods prior to January 1, 2006 have not been adjusted. Prior to adopting SFAS 123R the Company followed the fair value based method prescribed in Statement of Financial Accounting Standards No. 123, Accounting for Stock Based Compensation for all periods beginning January 1, 2004. Under the fair value based method, compensation cost is measured at the grant date based on the fair value of the award and is recognized over the award vesting period. Because the Company previously recorded stock based compensation using the fair value method, adoption of SFAS 123R did not have a significant impact on the Company's net income or earnings per share for the three months ended March 31, 2006. During the three months ended March 31, 2006 and 2005, the Company recognized \$1.5 million and \$1.4 million, respectively, in stock-based compensation expense within general and administrative expenses.

Prior to adopting SFAS 123R, the Company presented all tax benefits of the deductions that resulted from stock-based compensation as cash flows from operating activities. SFAS 123R requires that excess tax benefits on stock-based compensation be recognized as a part of cash flows from financing activities. The Company had no excess tax benefits from stock-based compensation for the three months ended March 31, 2006.

*Stock options.* The Company amortizes the fair value of stock options granted over the vesting period using the straight-line method. The fair value of each award is estimated as of the date of grant using the Black-Scholes options pricing model. Options to purchase 50,000 shares at an exercise price of \$15.48 were granted during the three months ended March 31, 2006. The fair value of the options awarded was \$9.15 per option share. Total compensation expense recognized for all outstanding stock options for the three months ended March 31, 2006 and 2005 was \$747,000 and \$628,000, respectively. Total unrecognized compensation cost related to non-vested stock options of \$10.7 million is expected to be recognized over a weighted-average period of 5.0 years. A summary of outstanding and exercisable options as of March 31, 2006 is presented below:

	<b>Shares</b>	<b>Weighted Average Exercise Price</b>	<b>Weighted Average Remaining Contractual Term</b>	<b>Intrinsic Value (In thousands)</b>
Options Outstanding	3,107,000	\$6.89	8.3 years	\$30,310
Options Exercisable	560,000	\$6.00	8.3 years	\$5,964

*Restricted stock.* The fair value of restricted stock grants is amortized over the vesting period using the straight-line method. The fair value of each restricted share on the date of grant is equal to its fair market price. Restricted stock grants for 25,000 shares were made during the three months ended March 31, 2006. The value of the grants awarded were \$15.48 per share. Total compensation cost recognized for restricted stock grants for the three months ended March 31, 2006 and 2005 was \$716,000 and \$729,000, respectively. Total unrecognized compensation cost related to non-vested restricted stock of \$10.0 million as of March 31, 2006, is expected to be recognized over a weighted average period of 5 years. As of March 31, 2006 the Company had 1,741,000 shares of unvested restricted stock outstanding at a weighted average grant date fair value of \$6.92.

**BOIS d ARC ENERGY, INC.**  
**NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS**  
*(continued)*

**Income Taxes**

Bois d Arc Energy became a taxable entity as a result of its conversion from a limited liability company to a corporation on May 10, 2005. While Bois d Arc Energy was organized as a limited liability company, taxable income passed through to its unit owners. Accordingly, provision for federal and state corporate income taxes has been made only for the operations of Bois d Arc Energy for the quarter ended March 31, 2006 in the accompanying consolidated financial statements. Deferred income taxes are provided to reflect the future tax consequences or benefits of differences between the tax basis of assets and liabilities and their reported amounts in the financial statements using enacted tax rates. The difference between the Company's customary rate of 35% and the effective tax rate of 36% for the three months ended March 31, 2006 is due to permanent book tax differences, primarily nondeductible stock based compensation.

The following is an analysis of the Company's consolidated income tax expense:

	<b>Three Months Ended March 31, 2006</b> <i>(In thousands)</i>
Current	\$ 1,187
Deferred	8,252
 Provision for Income Taxes	 \$ 9,439

**Pro Forma Income Tax Information**

The pro forma unaudited income tax expense represents the tax effects that would have been reported had the Company been subject to U.S. federal and state income taxes as a corporation. Pro forma expenses are based upon the statutory income tax rates and adjustments to income for estimated permanent differences occurring during the period. Actual rates and expenses could have differed had the Company been subject to U.S. federal and state income taxes for the period presented. Therefore, the unaudited pro forma amounts are for informational purposes only and are intended to be indicative of the results of operations had the Company been subject to U.S. federal and state income taxes for the period presented.

The following table presents the computation of the pro forma income tax expense:

	<b>Three Months Ended March 31, 2005</b> <i>(In thousands)</i>
Income before income taxes	\$ 17,062
Effective pro forma income tax rate	36%
 Pro forma income tax expense	 \$ 6,088

Table of Contents

**BOIS d ARC ENERGY, INC.**

**Earnings Per Share (Unit)**

Basic earnings per share (unit) is determined without the effect of any outstanding potentially dilutive stock options or other convertible securities and diluted earnings per share (unit) is determined with the effect of outstanding stock options and other convertible securities that are potentially dilutive. Basic and diluted earnings per share (unit) for the three months ended March 31, 2005 were determined based upon the Company's assumption that the shares issued for the converted units were outstanding from the inception of the Company as follows:

	<b>Three Months Ended March 31, 2006</b>		
	<b>Income</b>	<b>Shares</b>	<b>Per Share</b>
	<i>(In thousands, except per share amounts)</i>		
<i>Basic Earnings Per Share:</i>			
Net Income	\$ 16,781	62,429	\$ 0.27
<i>Diluted Earnings Per Share:</i>			
Net Income	\$ 16,781	62,429	
Effect of Dilutive Securities: Stock Grants and Options		1,820	
Net Income Available to Common Stockholders With Assumed Conversions	\$ 16,781	64,249	\$ 0.26
	<b>Three Months Ended March 31, 2005</b>		
	<b>Income</b>	<b>Units<sup>(1)</sup></b>	<b>Per Unit<sup>(1)</sup></b>
	<i>(In thousands, except per share amounts)</i>		
<i>Basic Earnings Per Unit:</i>			
Net Income	\$ 17,062	50,000	\$ 0.34
<i>Diluted Earnings Per Unit:</i>			
Net Income	\$ 17,062	50,000	
Effect of Dilutive Securities: Unit Grants and Options		1,627	
Net Income Available to Unitholders With Assumed Conversions	\$ 17,062	51,627	\$ 0.33

(1)

LLC Units were converted to equivalent common shares as if the Company's conversion to a corporation had occurred at the inception of Boisd Arc Energy, LLC.

**Table of Contents**

**BOIS d ARC ENERGY, INC.**  
**NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS**  
*(continued)*

**Statements of Cash Flows**

For the purpose of the consolidated statements of cash flows, Bois d Arc Energy considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. Cash paid for interest was \$1.4 million and \$1.8 million for the three months ended March 31, 2006 and 2005, respectively. Cash paid for income taxes was \$1.0 million for the three months ended March 31, 2006. The Company was organized as a limited liability company during the three months ended March 31, 2005 and did not pay income taxes during this period.

**Asset Retirement Obligations**

Bois d Arc Energy's primary asset retirement obligations relate to future plugging and abandonment expenses on its oil and gas properties and related facilities disposal. The following table summarizes the changes in the total estimated liability for asset retirement obligations during the three months ended March 31, 2006 and 2005:

	<b>Three months Ended March 31,</b>	
	<b>2006</b>	<b>2005</b>
	<i>(\$ in thousands)</i>	
Future abandonment liability beginning of period	\$ 35,034	\$ 28,253
Accretion expense	546	439
New wells drilled	198	921
Liabilities settled		(218)
Future abandonment liability end of period	\$ 35,778	\$ 29,395

**(3) LONG-TERM DEBT**

On May 11, 2005, the Company entered into a \$175.0 million bank credit facility with The Bank of Nova Scotia and several other banks. Borrowings under the credit facility are limited to a borrowing base that was \$100.0 million as of March 31, 2006. The borrowing base was increased to \$150.0 million effective May 8, 2006. The borrowing base is re-determined semi-annually based on the banks' estimates of the future net cash flows of the Company's oil and natural gas properties. The determination of the borrowing base is at the sole discretion of the administrative agent and the bank group. The credit facility matures on May 11, 2009. Borrowings under the credit facility bear interest at the Company's option at either (1) LIBOR plus a margin that varies from 1.25% to 2.0% depending upon the ratio of the amounts outstanding to the borrowing base or (2) the base rate (which is the higher of the prime rate or the federal funds rate) plus a margin that varies from 0% to 0.75% depending upon the ratio of the amounts outstanding to the borrowing base.

A commitment fee ranging from 0.375% to 0.50% (depending upon the ratio of the amounts outstanding to the borrowing base) is payable on the unused borrowing base. Indebtedness under the credit facility is secured by substantially all of the Company's and its subsidiaries assets, and all of the Company's subsidiaries are guarantors of the indebtedness. The credit facility contains covenants that restrict the payment of cash dividends, borrowings, sales of assets, loans to others, capital expenditures, investments, merger activity, hedging contracts, liens and certain other transactions without the prior consent of the lenders and requires the Company to maintain a ratio of current assets, including the availability under the bank credit facility, to current liabilities of at least one-to-one and a ratio of indebtedness to earnings before interest, taxes, depreciation, depletion, and amortization, exploration and impairment expense of no more than 2.5-to-one. The Company was in compliance with these covenants as of March 31, 2006.

**Table of Contents**

**BOIS d ARC ENERGY, INC.  
NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS**

*(continued)*

**(4) PAYABLE TO COMSTOCK RESOURCES**

In connection with the Company's formation, Comstock provided a \$200.0 million credit facility. Borrowings under the credit facility bore interest at the Company's option at either LIBOR plus 2% or the base rate (which is the higher of the prime rate or the federal funds rate) plus 0.75%. On May 11, 2005 the Company repaid the outstanding balance of \$158.1 million under the Comstock provided credit facility with proceeds from its initial public offering and borrowings under its new bank credit facility. Interest expense of \$1.8 million was charged by Comstock under the credit facility during the three months ended March 31, 2005.

**(5) STOCKHOLDERS' EQUITY**

Prior to the conversion to a corporation, Bois d Arc Energy had three classes of membership units—class A, class B and class C units. Class A units represented an interest in the capital of the Company but no interest in the profits of the Company and had voting rights. Class B units represented an interest in the capital and profits of the Company and had no voting or other decision-making rights except as required by applicable law. Class C units represented an interest only in the profits of the Company and had no voting or other decision-making rights except as required by applicable law. In connection with the Company's conversion from a limited liability company to a corporation, all outstanding limited liability units were converted into shares of common stock except for the Class A units which were redeemed at a price of \$1 per unit. The Company issued 50,000,000 shares of common stock for all of the Class B units and 2,145,000 restricted shares of common stock for all of the Class C units.

On May 11, 2005, the Company completed an initial public offering of 13,500,000 shares of common stock at \$13.00 per share to the public. The Company sold 12,000,000 shares of common stock and received proceeds of \$145.1 million and a selling stockholder sold 1,500,000 shares of which the Company received no proceeds.

**(6) COMMITMENTS AND CONTINGENCIES**

***Contingencies***

From time to time, Bois d Arc Energy is involved in certain litigation that arises in the normal course of its operations. The Company does not believe the resolution of these matters will have a material effect on the Company's financial position or results of operations.

**(7) RELATED PARTY TRANSACTIONS**

An entity owned by the spouse of Wayne L. Laufer, one of the principals of Bois d Arc and the Company's chief executive officer and a director, provided accounting services to Bois d Arc under a service agreement. In connection with the formation of Bois d Arc Energy, this agreement was terminated which resulted in a termination fee of \$1.2 million that is payable in monthly installments over a two year period that commenced in October 2004. Subsequent to the formation of Bois d Arc Energy, this entity performed services for the Company under a new consulting agreement. The Company paid \$10,000 and \$49,000 for such services for the three months ended March 31, 2006 and 2005, respectively.

**Table of Contents**

**BOIS d ARC ENERGY, INC.**  
**NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS**  
*(continued)*

In July 2004 Bois d Arc Energy entered into a service agreement with Comstock pursuant to which Comstock agreed to provide accounting services for \$240,000 annually. The service agreement was amended to reduce the fee to \$5,000 per month beginning in July 2005. Bois d Arc Energy paid \$15,000 and \$60,000 to Comstock for accounting services provided in the three months ended March 31, 2006 and 2005, respectively.

**Table of Contents****ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

This report contains forward-looking statements that involve risks and uncertainties that are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those anticipated in our forward-looking statements due to many factors. The following discussion should be read in conjunction with the consolidated financial statements and notes thereto included in this report and in our annual report filed on Form 10-K for the year ended December 31, 2005.

**Investment in Bois d Arc Energy**

Bois d Arc Energy, Inc. ( Bois d Arc Energy ) was organized in July 2004 as a limited liability company through the contribution of substantially all of our offshore properties together with the properties of Bois d Arc Resources, Ltd. and its partners. We initially owned 60% of Bois d Arc Energy, and we accounted for our share of the Bois d Arc Energy financial and operating results using proportionate consolidation accounting until Bois d Arc Energy converted to a corporation and completed its initial public offering in May 2005. As a result of this public offering of shares and the conversion of Bois d Arc Energy into a corporation, we own 48% of Bois d Arc Energy. Since proportionate consolidation is not a generally accepted accounting principle applicable to an investment in a corporation, we changed our accounting method for our investment in Bois d Arc Energy to the equity method concurrent with Bois d Arc Energy's conversion to a corporation. The onshore data in the tables below contains the results of operations for our direct ownership in our onshore oil and gas properties. The Equity Interest in Affiliate results reflect our 48% interest in the results of Bois d Arc Energy. The offshore results for 2005 include our 60% proportionate interest in the operations of Bois d Arc Energy.

**Results of Operations**

The following table reflects certain summary operating data for the periods presented:

	<b>Three Months Ended March 31, 2006</b>		<b>Three Months Ended March 31, 2005</b>		
	<b>Onshore</b>	<b>Equity Interest in Affiliate<sup>(3)</sup></b>	<b>Onshore</b>	<b>Offshore</b>	<b>Total</b>
<i>(\$ In thousands, except per unit amounts)</i>					
<b>Net Production Data:</b>

<b>Average Sales Price:</b>					
Oil (per Bbl)	\$ 53.69	\$ 60.95	\$ 47.81	\$ 47.63	\$ 47.68
Natural gas (per Mcf)	\$ 7.82	\$ 8.39	\$ 6.16	\$ 6.61	\$ 6.28
Average equivalent (Mcf)	\$ 8.00	\$ 8.87	\$ 6.30	\$ 7.06	\$ 6.57

**Expenses (\$ per Mcfe):**

Oil and gas operating <sup>(1)</sup>	\$	1.59	\$	1.79	\$	1.23	\$	1.25	\$	1.24
Depreciation, depletion and amortization <sup>(2)</sup>	\$	1.86	\$	2.05	\$	1.47	\$	1.91	\$	1.62

(1) Includes lease operating costs and production and ad valorem taxes.

(2) Represents depreciation, depletion and amortization of oil and gas properties only.

(3) Beginning on May 11, 2005 we account for our 48% ownership interest in Boisd Arc Energy using the equity method.

**Table of Contents***Revenues -*

Our total oil and gas sales in the first quarter of 2006 of \$69.9 million were slightly higher than our sales of \$69.8 million in the first quarter of 2005. Oil and gas sales in 2005 included \$26.0 million in sales relating to our 60% ownership in Bois d'Arc Energy. Oil and gas sales from our onshore properties increased \$26.1 million or 60% to \$69.9 million for the first three months of 2006 from \$43.8 million for the first three months of 2005. Our average onshore realized crude oil price increased by 12% and our average realized natural gas price increased by 27% in the first quarter of 2006 as compared to the first quarter of 2005. Our onshore production in the first quarter of 2006, on an equivalent unit of production basis, increased by 26% from production in the first quarter of 2005, reflecting additional production from our acquisitions and our drilling program. Oil and gas sales from offshore operations for the first quarter of 2006 of \$29.7 million increased \$3.6 million compared with the first quarter of 2005 as higher oil and gas prices realized were offset by lower production. The average offshore natural gas price increased by 27% and the average offshore oil price increased by 28% in the first quarter of 2006 as compared to the first quarter of 2005. The lower offshore production is primarily attributable to our reduced ownership interest in Bois d'Arc Energy subsequent to the completion of its initial public offering on May 11, 2005.

*Costs and Expenses -*

Our oil and gas operating expenses, including production taxes, increased \$0.7 million (5%) to \$13.9 million in the first quarter of 2006 from \$13.2 million in the first quarter of 2005. Oil and gas operating expenses from our onshore operations increased \$5.3 million (62%) to \$13.9 million from \$8.6 million in the first quarter of 2005. This increase mainly reflects our increased production from onshore properties and higher production and ad valorem taxes due to increased oil and gas prices. Oil and gas operating expenses per equivalent Mcf produced for our onshore operations increased \$0.36 (29%) to \$1.59 in the first quarter of 2006 from \$1.23 in the first quarter of 2005. Offshore oil and gas operating costs for the first quarter of 2006 of \$6.0 million increased \$1.4 million (29%) due primarily to hurricane repair costs and additional wells brought on production. These increases were partially offset by our lower ownership interest in offshore properties during the first quarter of 2006.

In the first quarter of 2006, we had \$0.3 million in exploration expense as compared to \$2.1 million in the first quarter of 2005. The provision in the first quarter of 2006 primarily relates to our acquisition of seismic data, while the provision in the first quarter of 2005 primarily relates to acquisition of seismic data by Bois d'Arc Energy.

Depreciation, depletion and amortization ( DD&A ) decreased \$1.1 million (6%) to \$16.3 million in the first quarter of 2006 from \$17.4 million in the first quarter of 2005 due to the exclusion from our 2006 consolidated results of the DD&A attributable to offshore properties. Depreciation expense for our onshore properties increased \$6.0 million due to higher volumes of production and an increase in our onshore average DD&A rate. Our onshore DD&A per equivalent Mcf produced increased by \$0.39 to \$1.86 for the quarter ended March 31, 2006 from \$1.47 for the quarter ended March 31, 2005. The increase is primarily attributable to higher capitalized costs of our oil and gas properties. DD&A attributable to our offshore properties for the first quarter of 2006 decreased \$0.2 million due mainly to our lower ownership interest in offshore properties during the first quarter of 2006. The DD&A rate per Mcfe produced for offshore operations in the first quarter of 2006 increased \$0.14 per Mcfe to \$2.05 per Mcfe from the first quarter of 2005 due to higher capitalized costs.

General and administrative expenses, which are reported net of overhead reimbursements, increased by \$0.7 million to \$4.9 million for the first quarter of 2006 as compared to \$4.2 million for the first quarter of 2005. This increase primarily reflects the increased cost of additional personnel we added in 2005.

**Table of Contents**

Interest expense decreased \$1.4 million (24%) to \$4.4 million for the first quarter of 2006 from \$5.8 million in the first quarter of 2005. The decrease is primarily due a reduction in the amount outstanding under our bank credit facility during the first quarter of 2006, which was partially offset by higher interest rates. The average borrowings outstanding decreased to \$68.0 million during the first quarter of 2006 as compared to \$236.3 million in the first quarter of 2005. The average interest rate we were charged on the outstanding borrowings under the credit facility increased to 5.8% in the first quarter of 2006 as compared to 4.3% in the first quarter of 2005.

Equity in earnings of Bois d Arc Energy of \$8.0 million reflects our 48% share of Bois d Arc Energy's net income in the first three months of 2006 using the equity method of accounting.

We reported net income of \$29.6 million for the three months ended March 31, 2006, as compared to net income of \$15.9 million for the three months ended March 31, 2005. The net income per share for the first quarter of 2006 was \$0.68 on weighted average diluted shares outstanding of 43.4 million as compared to \$0.43 for the first quarter of 2005 on weighted average diluted shares outstanding of 37.4 million. Our first quarter 2006 results include an \$8.8 million unrealized gain on our derivative financial instruments held for price risk management. The first quarter 2005 results included a \$3.2 million unrealized loss on our derivative financial instruments.

**Liquidity and Capital Resources**

Funding for our activities has historically been provided by our operating cash flow, debt or equity financings or asset dispositions. For the three months ended March 31, 2006, our net cash flow provided by operating activities totaled \$53.0 million as compared to \$39.7 million for the three months ended March 31, 2005.

Our primary needs for capital, in addition to funding our ongoing operations, relate to the acquisition, development and exploration of our oil and gas properties and the repayment of our debt. In the first quarter of 2006, we incurred capital expenditures of \$49.2 million primarily for our development and exploration activities as compared to \$46.2 million for the three months ended March 31, 2005.

The following table summarizes our capital expenditure activity for the three months ended March 31, 2006 and 2005:

	<b>Three Months Ended March 31, 2006                  2005</b>	
	<i>(In thousands)</i>	
Onshore:		
Leasehold costs	\$ 2,051	734
Development drilling	38,407	11,715
Exploratory drilling	75	7,382
Other development	8,624	3,758
	49,157	23,589
Offshore <sup>(1)</sup>		22,642
Other	30	18
	\$ 49,187	\$ 46,249

(1) Relates to our 60% share of Bois d Arc Energy's capital expenditures.

The timing of most of our capital expenditures is discretionary because we have no material long-term capital expenditure commitments. Consequently, we have a significant degree of flexibility to adjust the level of our capital expenditures as circumstances warrant. We spent \$49.2 million and \$46.2 million on development and exploration activities in the three months ended March 31, 2006 and 2005, respectively. We have budgeted approximately \$200.0 million for development and exploration projects in 2006. We expect to use internally generated cash flow to fund our development and exploration activity.

**Table of Contents**

We do not have a specific acquisition budget for 2006 since the timing and size of acquisitions are not predictable. We intend to use borrowings under our bank credit facility, or other debt or equity financings to the extent available, to finance significant acquisitions. The availability and attractiveness of these sources of financing will depend upon a number of factors, some of which will relate to our financial condition and performance and some of which will be beyond our control, such as prevailing interest rates, oil and natural gas prices and other market conditions.

We have a \$400.0 million bank credit facility with Bank of Montreal, as the administrative agent. The credit facility is a four-year revolving credit commitment that matures on February 25, 2008. Borrowings under the credit facility are limited to a borrowing base that was \$350.0 million at March 31, 2006. We also have \$175.0 million of 6<sup>7</sup>/<sub>8</sub>% senior notes due March 1, 2012, with interest payable semiannually on each March 1 and September 1. The notes are unsecured obligations and are guaranteed by all of our wholly owned subsidiaries.

Indebtedness under the bank credit facility is secured by substantially all of our wholly-owned subsidiaries' oil and gas properties and is guaranteed by all of our wholly-owned subsidiaries. The credit facility is subject to borrowing base availability, which is redetermined semiannually based on the banks' estimates of the future net cash flows of our oil and natural gas properties. The borrowing base may be affected by the performance of our properties and changes in oil and natural gas prices. The determination of the borrowing base is at the sole discretion of the administrative agent and the bank group. Borrowings under the credit facility bear interest, based on the utilization of the borrowing base, at our option at either LIBOR plus 1.25% to 1.75% or the base rate (which is the higher of the prime rate or the federal funds rate) plus 0% to 0.5%. A commitment fee of 0.375% is payable on the unused borrowing base. The credit facility contains covenants that, among other things, restrict the payment of cash dividends, limit the amount of consolidated debt that we may incur and limit our ability to make certain loans and investments. The only financial covenants are the maintenance of a current ratio and maintenance of a minimum tangible net worth. We were in compliance with these covenants as of March 31, 2006.

We believe that our cash flow from operations and available borrowings under our bank credit facility will be sufficient to fund our operations and future growth as contemplated under our current business plan. However, if our plans or assumptions change or if our assumptions prove to be inaccurate, we may be required to seek additional capital. We cannot provide any assurance that we will be able to obtain such capital, or if such capital is available, that we will be able to obtain it on terms acceptable to us.

**Critical Accounting Policies**

The information included in Management's Discussion and Analysis of Financial Condition and Results of Operations' Critical Accounting Policies' in our annual report filed on Form 10-K for the year ended December 31, 2005 is incorporated herein by reference.

There have been no material changes to our accounting policies during the three months ended March 31, 2006 except for the adoption of Statement of Financial Accounting Standards No. 123 (Revised 2004), Share-Based Payment. Because we previously recorded stock-based compensation using the fair value method, adoption of this new accounting standard did not have a significant impact on our net income or earnings per share for the three months ended March 31, 2006. See Note 2 for additional discussion regarding our accounting for stock-based compensation.

**Table of Contents**

**ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISKS**

**Oil and Natural Gas Prices**

Our financial condition, results of operations and capital resources are highly dependent upon the prevailing market prices of oil and natural gas. These commodity prices are subject to wide fluctuations and market uncertainties due to a variety of factors, some of which are beyond our control. Factors influencing oil and natural gas prices include the level of global demand for crude oil, the foreign supply of oil and natural gas, the establishment of and compliance with production quotas by oil exporting countries, weather conditions that determine the demand for natural gas, the price and availability of alternative fuels and overall economic conditions. It is impossible to predict future oil and natural gas prices with any degree of certainty. Sustained weakness in oil and natural gas prices may adversely affect our financial condition and results of operations, and may also reduce the amount of oil and natural gas reserves that we can produce economically. Any reduction in our oil and natural gas reserves, including reductions due to price fluctuations, can have an adverse effect on our ability to obtain capital for our exploration and development activities. Similarly, any improvements in oil and natural gas prices can have a favorable impact on our financial condition, results of operations and capital resources. Based on our oil and natural gas production in the three months ended March 31, 2006, a \$1.00 change in the price per barrel of oil would have resulted in a change in our cash flow for such period by approximately \$0.2 million and a \$1.00 change in the price per Mcf of natural gas would have changed our cash flow by approximately \$7.1 million.

**Interest Rates**

At March 31, 2006, we had total long-term debt of \$243.0 million. Of this amount, \$175.0 million bears interest at a fixed rate of  $6\frac{7}{8}\%$ . We had \$68.0 million outstanding under our bank credit facility, which bears interest at a fluctuating rate that is linked to LIBOR or the corporate base rate, at our option. Any increases in these interest rates can have an adverse impact on our results of operations and cash flow. Based on borrowings outstanding at March 31, 2006, a 100 basis point change in interest rates would change our interest expense for the three month period ended March 31, 2006 by approximately \$168,000.

**Table of Contents**

**ITEM 4: CONTROLS AND PROCEDURES**

As of March 31, 2006, we carried out an evaluation, under the supervision and with the participation of our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based on this evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective as of March 31, 2006 to provide reasonable assurance that information required to be disclosed by us in the reports filed or submitted by us under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and to provide reasonable assurance that information required to be disclosed by us is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

There were no changes in our internal controls over financial reporting (as such term is defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) that occurred during the quarter ended March 31, 2006, that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.
