**PROXY STATEMENT**

---

This proxy statement is furnished in connection with the solicitation of proxies by the Board of Directors of Inverness Medical Innovations, Inc. for use at our 2007 Annual Meeting of Stockholders to be held on Thursday, May 17, 2007 at 12:30 p.m., local time, at our corporate headquarters located at 51 Sawyer Road, Suite 200, Waltham, MA, and at any adjournments or postponements of the annual meeting. References in this proxy statement to us, we, our and Company refer to Inverness Medical Innovations, Inc., except where otherwise indicated, such as in the Compensation Committee Report and the 2006 Audit Committee Report.

**General Information**

**Who May Vote**

Holders of our common stock, as recorded in our stock register at the close of business on March 23, 2007, may vote at the annual meeting on matters properly presented at the meeting. As of that date, there were 46,562,857 shares of our common stock outstanding and entitled to one vote per share. A list of stockholders will be available for inspection for at least ten days prior to the meeting at the principal executive offices of the Company at 51 Sawyer Road, Suite 200, Waltham, MA 02453-3448.

**How to Vote**

You may vote in person at the meeting or by proxy. We recommend you vote by proxy even if you plan to attend the meeting. You can always change your vote at the meeting.

Most stockholders have a choice of voting by using a toll free number, by submitting their vote over the Internet or by completing a proxy card and mailing it in the postage-paid envelope provided. Please refer to your proxy card or the information forwarded by your bank, broker or other holder of record to see which options are available to you.

**How Proxies Work**

Our Board of Directors (the Board) is asking for your proxy. Giving us your proxy means you authorize us to vote your shares at the meeting, or at any adjournment or postponement thereof, in the manner you direct. With respect to the election of directors, you may vote for all, some or none of our director candidates. With respect to the proposal to approve option grants to certain executives (the Executive Options), you may vote for or against the proposal or abstain from voting.

If you sign and return the enclosed proxy card but do not specify how to vote, we will vote your shares in favor of our director candidates and in favor of the approval of the Executive Options.

As of the date hereof, we do not know of any other business that will be presented at the meeting. If other business shall properly come before the meeting, including any proposal submitted by a stockholder which was omitted from this proxy statement in accordance with applicable federal securities laws, the persons named in the proxy will vote your shares according to their best judgment.

**Table of Contents**

**Solicitation**

In addition to this mailing, our employees may solicit proxies personally, electronically or by telephone. We pay all of the costs of soliciting this proxy. We also reimburse brokers, banks, nominees and other fiduciaries for their expenses in sending these materials to you and getting your voting instructions. We have also engaged The Altman Group to assist us with the solicitation of proxies, and we expect to pay The Altman Group approximately \$6,500 for its services plus out-of-pocket expenses incurred during the course of its work.

**Revoking a Proxy**

You may revoke your proxy before it is voted by submitting a new proxy with a later date, by voting in person at the meeting, or by notifying the Company's Secretary in writing.

**Quorum**

In order to carry on the business of the meeting, we must have a quorum. Under our bylaws, this means at least a majority of the voting power of all outstanding shares entitled to vote must be represented at the meeting, either by proxy or in person. Proxies marked as abstaining or withheld, limited proxies and proxies containing broker non-votes with respect to any matter to be acted upon by stockholders will be treated as present at the meeting for purposes of determining a quorum, but will not be counted as votes cast on such matter. A broker non-vote is a proxy submitted by a broker or other nominee holding shares on behalf of a client in which the broker or other nominee indicates that it does not have discretionary authority to vote such shares on a particular matter.

**Vote Required**

Each proposal sets forth the vote required for approval of the matter.

**Multiple Stockholders Sharing the Same Address**

Please note that brokers may deliver only one proxy statement to multiple security holders sharing an address. This practice, known as householding is designed to reduce printing and postage costs. If any stockholder residing at such an address wishes to receive a separate annual report or proxy statement, the Company will promptly deliver a separate copy to any stockholder upon written or oral request to Doug Guarino at Inverness Medical Innovations, Inc., 51 Sawyer Road, Suite 200, Waltham, MA 02453, by telephone at (781) 647-3900 or by e-mail at [doug.guarino@invmed.com](mailto:doug.guarino@invmed.com).

**Corporate Governance**

**The Board of Directors**

Our Board of Directors is currently comprised of nine members. The nine directors are divided into three classes as follows: three Class I Directors (John F. Levy, Jerry McAleer, Ph.D. and John A. Quelch), three Class II Directors (Carol R. Goldberg, Alfred M. Zeien and Ron Zwanziger) and three Class III Directors (Robert P. Khederian, David Scott, Ph.D. and Peter Townsend). The members of each class serve for a staggered three-year term and, at each annual meeting of stockholders, a class of directors is elected for a three-year term to succeed the directors of the same class whose terms are expiring. The current terms of the Class I Directors, Class II Directors and Class III Directors will expire at the annual meetings of stockholders held following the end of calendar years 2007, 2008 and 2006, respectively. The Board has determined that the following directors are independent under the rules of the American Stock Exchange: Ms. Goldberg, Mr. Khederian, Mr. Levy, Mr. Quelch, Mr. Townsend and Mr. Zeien.

The Board held 11 meetings during the last fiscal year. We believe that it is important for, and we encourage, the members of the Board to attend annual meetings of stockholders. Last year, 7 members of the Board attended our annual meeting of stockholders.

The Board has an Audit Committee, a Compensation Committee and a Nominating and Corporate Governance Committee, each composed solely of directors who satisfy the applicable independence requirements of the American Stock Exchange's listing standards. All three committees operate pursuant to written charters which are posted on the *Corporate Governance* page on our website at [www.invmed.com](http://www.invmed.com).

**The Audit Committee**

The Audit Committee consists of Mr. Levy, its Chairperson, Mr. Townsend and Mr. Khederian. Among other things, the Audit Committee oversees our accounting and financial reporting processes, including the selection, retention and oversight of our independent auditor and the pre-approval of all auditing and non-auditing services provided by the independent auditor. The Audit Committee's 2006 Audit Committee Report is included in this proxy statement beginning on page 25. The Board has determined that Mr. Levy is an audit committee financial expert, as defined by SEC rules adopted pursuant to the Sarbanes-Oxley Act. The Audit Committee held 10 meetings during fiscal year 2006.

**The Compensation Committee**

The Compensation Committee consists of Ms. Goldberg, its Chairperson, Mr. Zeien and Mr. Khederian. The Compensation Committee develops and implements executive officer and director compensation policies and plans that are appropriate for us in light of all relevant circumstances and which provide incentives that further our long-term strategic plans and are consistent with our culture and the overall goal of enhancing enduring stockholder value. Under its charter, the Compensation Committee may delegate any or all of its responsibilities to a subcommittee, but to date it has not chosen to do so. During fiscal year 2006, the Compensation Committee held 4 meetings. The Compensation Discussion and Analysis recommended by the Compensation Committee to be included in this proxy statement begins on page 14. Among other things, the Compensation Discussion and Analysis describes in greater detail the Compensation Committee's role in the executive compensation process.

**The Nominating and Corporate Governance Committee**

Our Nominating and Corporate Governance Committee currently consists of Mr. Zeien, its Chairperson, Mr. Quelch and Mr. Levy. The Nominating and Corporate Governance Committee is charged with recommending nominees for election to the Board, overseeing the selection and composition of committees to the Board, developing and recommending corporate governance principles and overseeing our continuity planning process. The Nominating and Corporate Governance Committee conducts all necessary and appropriate inquiries into the backgrounds and qualifications of possible director candidates and has the authority to retain any search firm or other advisors to assist in identifying candidates to serve as directors. The Nominating and Corporate Governance Committee

**Table of Contents**

has established a policy with regard to the consideration of director candidates recommended by holders of our voting stock. The material elements of this policy are set forth and discussed below under **Stockholder Proposals** beginning on page 27 and the full policy can be viewed on the *Corporate Governance* page of our website at [www.invmed.com](http://www.invmed.com). In identifying and evaluating director candidates, including candidates proposed or recommended by stockholders, the Nominating and Corporate Governance Committee takes into account all factors it considers appropriate, which may include strength of character, mature judgment, career specialization, relevant technical skills, diversity, and the extent to which the candidate would fill a present need on the Board. During fiscal year 2006, the Nominating and Corporate Governance Committee held 1 meeting.

**Communications with the Board**

Stockholders wishing to communicate with the Board should direct their communications to: Secretary, Inverness Medical Innovations, Inc., 51 Sawyer Road, Suite 200, Waltham, MA 02453. Stockholder communications must state the number of shares of our stock beneficially owned by the stockholder sending the communication. The Secretary will forward the communication to the Board or to any individual director or directors to whom the communication is directed; provided, however, that if the communication is unduly hostile, profane, threatening, illegal or otherwise inappropriate, the Secretary has the authority to discard the communication and take any appropriate legal action.

**Code of Ethics**

Our Board has adopted a code of ethics that applies to all of our employees and agents world-wide, including our chief executive officer, our chief financial officer, our other executive officers and the members of the Board. Known as The Inverness Medical Innovations Business Conduct Guidelines, this code of ethics is posted in its entirety on the *Corporate Governance* page of our website at [www.invmed.com](http://www.invmed.com).

**Proposal 1**

**Election of Directors**

At the 2007 annual meeting, the term of the Class III Directors will expire. The Board proposes, at the recommendation of the Nominating and Corporate Governance Committee, that at the 2007 annual meeting of stockholders the following nominees be elected as Class III Directors:

**Robert P. Khederian**

**David Scott, Ph.D.**

**Peter Townsend**

As noted above, each of these nominees is currently serving as a member of the Board. The proxies granted by stockholders will be voted individually at the annual meeting for the election of these three nominees. In the event that Mr. Khederian, Dr. Scott or Mr. Townsend shall be unable to serve, it is intended that the proxy will be voted for any replacements nominated by the Board. Mr. Khederian, Dr. Scott and Mr. Townsend have indicated that they will serve on the Board if elected. For information regarding these nominees, see Information Regarding Nominees, Other Directors and Executive Officers.

**Vote Required**

The Class III Directors must be elected by a plurality of the votes properly cast at the annual meeting. This means that the three nominees receiving the highest number of FOR votes will be elected as Class III Directors. Votes may be cast FOR or WITHHELD FROM each nominee. Votes that are WITHHELD FROM the nominees will be excluded entirely from the vote and will have no effect. Furthermore, if you hold your shares in your own name as a holder of record, and you fail to vote your shares, either in person or by proxy, the votes represented by your shares will be excluded entirely from the vote and will have no effect. If, however, your shares are held by a broker, bank or other nominee (i.e., in street name ) and you fail to give instructions as to how you want your shares voted, the broker, bank or other nominee may vote the shares in their own discretion.

**Recommendation**

**The Board unanimously recommends a vote FOR the election of the nominees listed above.**

Table of Contents**Proposal 2****Approval of Grant of Options Under Our 2001 Stock Option and Incentive Plan to Our Key Executive Officers**

On February 15, 2007, our Compensation Committee approved, under the Inverness Medical Innovations, Inc. 2001 Stock Option and Incentive Plan (the "2001 Option Plan"), but subject to stockholder approval, grants of options to purchase an aggregate of 575,000 shares of our common stock to the following key executive officers in the amounts indicated (collectively, the "Executive Options"):

<b>Executive Officer</b>	<b>Shares Underlying Options</b>
Ron Zwanziger <i>Chairman, CEO and President</i>	300,000
David Scott, Ph.D. <i>Chief Scientific Officer</i>	150,000
Jerry McAleer, Ph.D. <i>Vice President, Research and Development and Vice President, Cardiology</i>	125,000

As discussed under "Compensation Discussion & Analysis" beginning on page 14 of this proxy statement, the objective of our executive compensation program is to attract, retain and motivate talented and dedicated executives and to include, as a portion of their compensation packages, long-term equity incentive compensation. Because the performance-based awards granted to these key executive officers under the 2001 compensation packages lapsed at the end of 2005, the Compensation Committee approved the Executive Options, subject to stockholder approval.

**While stockholder approval of option grants is not required under the terms of the 2001 Option Plan, the Compensation Committee decided to submit these particular grants to stockholders for approval. If the stockholders do not approve the Executive Options, the options will not be granted to the key executives. However, we reserve the right to make future grants of options and other forms of incentive compensation to our key executive officers.**

The Executive Options are being granted under the 2001 Option Plan and are subject to the terms and conditions of the 2001 Option Plan. The Executive Options are non-qualified options under the 2001 Option Plan. Twenty five percent (25%) of the shares subject to each option will vest on each of the first four anniversaries of the effective date of grant of the Executive Option, subject to continued employment on such vesting dates. The exercise price per share of the common stock subject to the Executive Options will be the closing price of our common stock as reported on the American Stock Exchange on the effective date of grant. The effective date of grant of each Executive Option will be the date on which stockholder approval of the Executive Options is obtained. The Executive Options will expire on the tenth anniversary of the effective date of grant. In accordance with the terms of the 2001 Option Plan, in the event of a change of control (as defined in the 2001 Option Plan), the Executive Options will automatically become fully exercisable.

Based solely on the closing price of our common stock as reported on the American Stock Exchange on March 23, 2007 of \$43.69 per share, the aggregate market value of the shares of common stock underlying the Executive Options

is \$25,121,750.

### **Material Federal Income Tax Consequences**

The following discussion describes the material federal income tax consequences of non-qualified stock option grants under the 2001 Option Plan. It does not describe all federal tax consequences under the 2001 Option Plan, nor does it describe state or local tax consequences.

Non-Qualified Options. With respect to non-qualified options under the 2001 Option Plan, no

income is realized by the optionee at the time the option is granted. Generally,

at exercise, ordinary income is realized by the optionee in an amount equal to the difference between the option price and the fair market value of the shares of common stock on the date of exercise, and we receive a tax deduction for the same amount, and

at disposition, appreciation or depreciation after the date of exercise is treated as either short-term or long-term capital gain or loss depending on how long the shares of common stock have been held.

Special rules will apply where all or a portion of the exercise price of the non-qualified option is paid by tendering shares of common stock.

**Parachute Payments.** The vesting or exercisability of any portion of any option or other award that is accelerated due to the occurrence of a change of control may cause a portion of the payments with respect to such accelerated awards to be treated as parachute payments as defined in the Internal Revenue Code. Any such parachute payments may be non-deductible to us, in whole or in part, and may subject the recipient to a non-deductible 20% federal excise tax on all or a portion of such payment in addition to other taxes ordinarily payable.

**Limitation on Our Deductions.** As a result of Section 162(m) of the Internal Revenue Code, our deduction for certain awards under the 2001 Option Plan may be limited to the extent that a covered employee receives compensation in excess of \$1,000,000 in such taxable year, other than performance-based compensation that otherwise meets the requirements of Section 162(m) of the Internal Revenue Code.

**Vote Required**

The approval of the grant of the Executive Options requires the affirmative vote of a majority of the votes properly cast for and against the proposal. In accordance with Delaware law and our bylaws, abstentions and broker non-votes will not be counted as votes cast on this matter and, accordingly, will have no effect.

**Recommendation**

**The Board unanimously recommends a vote FOR the approval of the grant of the Executive Options.**

**Compensation Discussion and Analysis**

This Compensation Discussion and Analysis discusses the compensation paid to our three key executives, as defined below, our chief financial officer, or our CFO, our former CFO, and our other two most highly-compensated executive officers. These officers are collectively referred to as the named executive officers. Our key executives are Ron Zwanziger, CEO; David Scott, Ph. D., Chief Scientific Officer and Jerry McAleer, Ph. D., Vice President, Research and Development and Vice President, Cardiology.

**Philosophy and Objectives**

The objective of our executive compensation program is to attract, retain and motivate the talented and dedicated executives who are critical to our goals of continued growth, innovation, increasing profitability and ultimately maximizing shareholder value. Specifically, we seek to attract and reward executives who display certain fundamental leadership characteristics for hiring and promotion that we have identified as consistent with our company goals and culture. We provide these executives with what we believe to be a competitive total compensation package consisting primarily of base salary, long-term equity incentive compensation and a broad-based benefits program. Our compensation program is designed to reward each executive's individual performance by considering generally their past and potential contribution to our achievement of key strategic goals such as revenue generation, margin improvement and the establishment and maintenance of key strategic relationships. Our executive compensation program aims to provide a compensation package which is competitive in our market sector and, more important, relevant to the individual executive.

Our policy for allocating between long-term and currently paid compensation is to ensure adequate base compensation to attract and retain personnel, while providing incentives to maximize long term value for our company and our stockholders. Accordingly, (i) we provide cash compensation in the form of base salary to meet competitive salary norms and reward good performance on an annual basis and (ii) we provide non-cash compensation, primarily in the form of stock-based awards, to reward superior performance against long-term strategic goals.

**Executive Compensation Process**

The compensation of our named executive officers, as well as our other executive officers, is reviewed by our Compensation Committee at least annually for consistency with the objectives described above. Our management, including our CEO, participates in this review by making its own recommendations as to the compensation of our executive officers to the Compensation Committee. The Compensation Committee considers the recommendations of management in assessing executive compensation but also relies on other data and resources and may utilize the services of a compensation consultant in reviewing and determining executive compensation.

In reviewing executive compensation, the Compensation Committee and management also consider the practices of comparable companies of similar size, geographic location and market focus. Management and the Compensation Committee utilize the Radford Global Life Sciences Survey, a subscription service that provides comprehensive baseline compensation data on positions at the executive, management and professional levels, including salary, total cash compensation, options and equity compensation, and occasionally collect and analyze publicly available compensation data and other subscription compensation survey data. While benchmarking may not always be appropriate as a standalone tool for setting compensation due to the aspects of our business and objectives that may be unique to us, we generally believe that gathering this compensation information is an important part of our compensation-related decision making process. The Compensation Committee did not utilize the services of a compensation consultant during 2006. For 2007, however, the Compensation Committee has engaged a compensation

consultant, Pearl Meyer & Company, to assist the committee in assessing executive compensation. Specifically, the Committee has engaged Pearl Meyer to review and provide guidance with respect to the CEO's recommendations as to the total cash compensation paid to our executive officers.

**Table of Contents**

In determining each component of an executive's compensation, numerous factors are considered, including:

The individual's particular background and circumstances, including prior relevant work experience;

The demand for individuals with the executive's specific expertise and experience;

The individual's role with us and the compensation paid to similar persons determined through benchmark studies;

The individual's performance and contribution to our achievement of company goals and objectives; and

Comparison to other executives within our company.

In considering the compensation paid to our three key executives, as identified above, our Compensation Committee also considered in particular the compensation packages awarded to the key executives during 2001 in anticipation of our split-off from Inverness Medical Technology, or the 2001 compensation packages. The 2001 compensation packages, which were approved by the stockholders of Inverness Medical Technology (who became our stockholders at the time of the split-off), were comprehensive, multi-year packages providing for compensation through 2006. They were designed to (i) ensure that the key executive remained with us after the split-off, (ii) properly compensate the key executive for the risks they were assuming in committing to guide a newly-formed entity with no independent track record and no existing trading market for its stock and (iii) reward the key executive in the event we met aggressive market-based performance goals.

The 2001 compensation packages consisted of both stock-based awards, fixed cash bonuses and a performance-based bonus plan. With respect to the stock-based awards, Mr. Zwanziger was given the opportunity to purchase, and did purchase, 1,168,191 shares of restricted stock vesting over four years (all of which are now fully vested). Dr. Scott and Dr. McAleer were granted options to purchase 399,381 and 379,413 shares, respectively, of restricted stock vesting over four years. Dr. Scott's option, and a portion of Dr. McAleer's option, were exercised using promissory notes, as discussed under "Certain Relationships and Related Transactions - Indebtedness of Certain Executive Officers and Directors" on page 26 of this proxy statement. With respect to the fixed cash bonuses, for each of fiscal years 2001 through 2006 each key executive received the following year-end bonuses payable during the month of January of the following year:

<b>Key Executive</b>	<b>Annual Bonus 2001</b>	<b>Annual Bonus 2002-2006</b>
Ron Zwanziger	\$ 225,000	\$ 550,000
David Scott	\$ 55,000	\$ 125,000
Jerry McAleer	\$ 50,000	\$ 120,000

The 2001 compensation packages also included an additional bonus plan which provided that each of the key executives would automatically be granted ten-year, non-qualified stock options if our common stock achieved specified stock price targets by specified target dates. These awards have lapsed.

**Elements of Compensation**

Executive compensation consists of the following elements:

Base Salary. Generally, annual base salary for a particular individual is established based on the factors discussed above and is intended to be near the average of the range of salaries for executives in similar positions with similar responsibilities at comparable companies, although other elements of compensation, including past and present grants of stock-based awards, may also be considered. The Compensation Committee believes that a competitive base salary is necessary to attract and retain a management team with the request skills to lead our company. The base salary of the key executives had not been adjusted since 2001 because our Compensation Committee determined that their salaries remained fair and equitable when considering all elements of the 2001 compensation packages. During 2006, our Compensation Committee considered the fact that the performance-based awards under the 2001 compensation plan lapsed at the end of 2005 and

**Table of Contents**

the annual cash bonuses described above would cease after 2006. As a result, the Compensation Committee recommended that the salaries of the Mr. Zwanziger, Dr. Scott and Dr. McAleer be increased to \$750,000, \$600,000, and \$500,000, respectively. Our Board of Directors (in the absence of the key executives who are also directors) approved these new salaries effective July 1, 2006. Additionally, David Teitel's salary was increased to \$215,000 in December 2006, upon his promotion to Chief Financial Officer.

**Bonuses.** Our key executives received the cash bonuses described above as part of the shareholder-approved 2001 compensation packages. During 2006, our Compensation Committee increased the annual salary of the key executives but decided not to renew or replace the annual cash bonuses which were a part of the 2001 compensation packages. Our other named executive officers did not receive bonuses during 2006, although David Teitel did receive a \$5,000 bonus on January 13, 2006 prior to becoming an executive officer of the Company. While our Compensation Committee reserves the right to grant cash or non-cash bonuses as a performance incentive or reward, it currently has no plans to grant bonuses to the named executive officers during 2007. Cash bonuses are generally not a regular or important element of our executive compensation strategy and we focus instead on stock-based awards designed to reward long-term performance.

**Stock Option and Stock-Based Awards.** We believe long-term performance is best stimulated through an ownership culture that encourages such performance through the use of stock-based awards. The Inverness Medical Innovations, Inc. 2001 Stock Option and Incentive Plan, or the 2001 Option Plan, was established to provide certain of our employees, including our executive officers, with incentives to help align those employees' interests with the interests of stockholders and with our long-term success. The Compensation Committee believes that the use of stock options and other stock-based awards offers the best approach to achieving our long-term compensation goals.

While the 2001 Option Plan allows our Compensation Committee to grant a number of different types of stock-based awards, other than one restricted stock grant made to Mr. Zwanziger in 2001 as part of the 2001 compensation package, we have relied exclusively on stock options to provide equity incentive compensation. Stock options granted to our executive officers have an exercise price equal to the fair market value of our common stock on the grant date, typically vest 25% per annum based upon continued employment over a four-year period, and generally expire ten years after the date of grant. Stock option grants to our executive officers are made in connection with the commencement of employment, in conjunction with an annual review of total compensation and, occasionally, following a significant change in job responsibilities or to meet other special retention or performance objectives. Proposals to grant stock options to our executive officers are made by our CEO to the Compensation Committee. With respect to proposals for grants made to our executive officers, the Committee reviews competitive compensation survey data, as discussed above, individual performance, the executive's existing compensation and other retention considerations. The Compensation Committee considers the Black-Scholes valuation of each proposed stock option grant in determining the number of options subject to each grant.

Generally, stock option grants to executive officers have been made in conjunction with meetings of the Board of Directors. During 2007, we adopted a stock option granting policy that includes the following elements:

Options to purchase shares of our common stock shall be granted effective as of the last calendar day of the following months: February, April, June, August, October and December (each such date a "Grant Date");

For each employee (or prospective employee) that is not (or, upon hire, will not be) subject to Section 16 of the Exchange Act, the CEO shall have the authority to grant, in his sole discretion, an option or options to purchase up to an aggregate of 5,000 shares of common stock (on an annual basis); provided, however, that total number of shares of common stock underlying such options grants shall not exceed 150,000 per calendar year.

The Compensation Committee must approve all other stock option grants. Grants by the Compensation Committee

**Table of Contents**

must be approved only at a meeting of the Compensation Committee and not by written consent.

Grants of options approved for existing employees, shall be effective as of, and the grant date thereof shall for all purposes be deemed to be, the Grant Date following the date of approval (except that any grants subject to stockholder approval shall be effective as of the date of stockholder approval).

Options approved for new hires, including those hired through acquisitions, shall be effective as of, and the grant date thereof shall for all purposes be deemed to be, the Grant Date following the later of (i) the date of such approval or (ii) the date on which the new hire's employment commences.

We have not adopted stock ownership guidelines.

During 2006, David Teitel was granted options to purchase 25,000 shares of common stock. The rationale for these grants is discussed on page 20 of this proxy statement. In addition, during 2007 our Compensation Committee considered the fact that the performance-based awards under the 2001 compensation packages lapsed at the end of 2005 and approved grants of stock options to purchase 300,000, 150,000 and 125,000 shares of common stock to Ron Zwanziger, David Scott and Jerry McAleer, respectively. These grants are the subject of Proposal 2 to this proxy statement.

**Other Compensation.** Our named executive officers do not have employment agreements. The named executive officers are not eligible to participate in, and do not have any accrued benefits under, any Company-sponsored defined benefit pension plan. They are eligible to, and in some case do, participate in defined contributions plans, such as a 401(k) plan, on the same terms as other employees. The terms of these defined contribution plans vary depending on the jurisdiction of employment of the executive. In addition, consistent with our compensation philosophy, we intend to continue to maintain our current benefits and perquisites for our executive officers; however, the Compensation Committee in its discretion may revise, amend or add to the officer's executive benefits and perquisites if it deems it advisable. We believe these benefits and perquisites are currently lower than median competitive levels for comparable companies. Finally, all of our executives are eligible to participate in our other employee benefit plans, including, medical, dental, life and disability insurance.

**Tax Implications**

Section 162(m) of the Internal Revenue Code of 1986, as amended, limits the deductibility on our tax return of compensation of over \$1,000,000 to any of the named executive officers unless, in general, the compensation is paid pursuant to a plan which is performance-related, non-discretionary and has been approved by our stockholders. We periodically review the potential consequences of Section 162(m) and may structure the performance-based portion of our executive compensation to comply with the exemptions available under Section 162(m). However, we reserve the right to use our judgment to authorize compensation payments that do not comply with these exemptions when we believe that such payments are appropriate and in the best interest of the stockholders, after taking into consideration changing business conditions or the officer's performance.

Mr. Toohey, who is employed through an Irish subsidiary, participates in a defined contribution plan which is not a qualified plan under applicable United States tax laws. This defined contribution plan, which is also available to the two other employees of this subsidiary, is approved by the Irish Revenue Commissioners under the 1997 Taxes Consolidation Act. Employee contributions under the Irish plan up to age-determined maximums (based on a percentage of gross salary ranging from 15% to 40%, depending on age), along with a company match up to 15% of gross salary, are made free of tax in Ireland. The amount of gross salary on which contributions are based is capped at approximately \$329,462. Under the Irish plan, contributions are made to a fund managed by Irish Life. At retirement participants can elect to take benefits in the form of: (a) a tax free lump sum cash payment of up to 1.5 times annual earnings; (b) purchase of an annuity; or (c) in certain circumstances and subject to limitation, transfer their account value to another approved retirement fund.

Except for Irish plan described above, our named executive officers do not participate in any other non-qualified defined contribution or other deferred compensation plans.

***Pension Benefits.*** Our named executive officers do not participate in any plan that provides for specified retirement benefits, or payments and benefits that will be provided primarily following retirement, other than defined contribution plans such as our 401(k) savings plan.

**2006 Audit Committee Report**

We, the Audit Committee, oversee the Company's accounting and financial reporting processes and assist the Board in its oversight of the qualifications, independence and performance of the Company's independent auditors. In fulfilling our oversight responsibilities, we discussed with the Company's independent registered public accounting firm, BDO Seidman, LLP, the overall scope and plans for their audit. Upon completion of the audit, we discussed with BDO Seidman the matters required to be discussed by Statement on Auditing Standards No. 61.

We also reviewed and discussed the audited, consolidated financial statements with management. We discussed with management certain significant accounting principles, the reasonableness of significant judgments and the clarity of disclosures in those financial statements.

The Audit Committee received and reviewed the written disclosures and the letter required by Independence Standards Board Standard No. 1 and discussed with BDO Seidman the auditor's independence from management and the Company. We determined that the services provided by BDO Seidman during fiscal year 2006 are compatible with maintaining such auditor's independence.

In reliance on the reviews and discussions referred to above, we recommended to the Board (and the Board approved) that the audited, consolidated financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2006 for filing with the Securities and Exchange Commission.

**Independent Public Accountants**

Our Audit Committee engaged BDO Seidman, LLP to serve as our independent public accountant during the fiscal year ended December 31, 2006. Our Audit Committee has not formally selected our independent public accountant for the current fiscal year, but expects to make that selection at its next regular meeting. We expect representatives of BDO Seidman to be present at our 2007 annual meeting of stockholders, that they will have the opportunity to make a statement at such meeting if they so desire, and that they will be available to respond to appropriate questions from stockholders.

**Audit Fees**

We have not received a final invoice from BDO Seidman for professional services rendered for the audit of our consolidated financial statements for fiscal year 2006. This includes \$808,848 billed for professional services rendered in connection with the principal accountant's audit of our internal controls and its related attestation report on management's assessment of internal control over financial reporting issued in connection with the 2006 audit. Audit fees also include fees billed in connection with the principal accountant's review of our quarterly financial statements and audit services normally provided by the principal accountant in connection with other statutory or regulatory filings. Aggregate audit fees billed by BDO Seidman for fiscal year 2005 were approximately \$2,115,000.

### **Audit-Related Fees**

Aggregate audit-related fees billed in 2006 and 2005 by BDO Seidman were \$313,330 and \$250,082, respectively. Audit-related fees consist primarily of fees billed for professional services rendered by the principal public accountant for accounting consultations and services related to business acquisitions and financings.

### **Tax Fees**

Aggregate tax fees billed in 2006 and 2005 by BDO Seidman were \$101,485 and \$99,000, respectively. Tax fees include fees billed for professional services rendered by the principal public accountant for tax compliance, tax advice and tax planning.

**Table of Contents**

**All Other Fees**

During 2006 and 2005, no other fees were billed by BDO Seidman, LLP.

**Pre-approval Policies and Procedures**

The Audit Committee pre-approves all audit and non-audit services provided by the independent public accountant other than permitted non-audit services estimated in good faith by the auditors and management to entail fees payable of \$25,000 or less on a project by project basis and which would otherwise qualify for exemption from the pre-approval requirements of the Securities Exchange Act of 1934, as amended (the Exchange Act ). This authority to pre-approve non-audit services may be delegated to one or more members of the Audit Committee, who shall present any services so pre-approved to the full Audit Committee at its next meeting.

**Certain Relationships and Related Transactions**

**Policies and Procedures with Respect to Related Party Transactions**

Once exercisable, this Stock Option shall continue to be exercisable at any time or times prior to the close of business on the Expiration Date, subject to the provisions hereof and of the Plan.

**2. Manner of Exercise.**

(a) The Optionee may exercise this Option only in the following manner: from time to time on or prior to the Expiration Date of this Option, the Optionee may give written notice to the Administrator of his or her election to purchase some or all of the Option Shares purchasable at the time of such notice. This notice shall specify the number of Option Shares to be purchased.

Payment of the purchase price for the Option Shares may be made by one or more of the following methods: (i) in cash, by certified or bank check or other instrument acceptable to the Administrator; (ii) through the delivery (or attestation to the ownership) of shares of Stock that have been purchased by the Optionee on the open market or that have been paid for and beneficially owned by the Optionee for at least six months and are not then subject to any restrictions under any Company plan; (iii) by the Optionee delivering to the Company a properly executed exercise notice together with irrevocable instructions to a broker to promptly deliver to the Company cash or a check payable and acceptable to the Company to pay the option purchase price, provided that in the event the Optionee chooses to pay the option purchase price as so provided, the Optionee and the broker shall comply with such procedures and enter into such agreements of indemnity and other agreements as the Administrator shall prescribe as a condition of such payment procedure; or (iv) a combination of (i), (ii), and (iii) above. Payment instruments will be received subject to collection.

The delivery of certificates representing the Option Shares will be contingent upon the Company's receipt from the Optionee of full payment for the Option Shares, as set forth above and any agreement, statement or other evidence that the Company may require to satisfy itself that the issuance of Stock to be purchased pursuant to the exercise of Options under the Plan and any subsequent resale of the shares of Stock will be in compliance with applicable laws and regulations. In the event the Optionee chooses to pay the purchase price by previously-owned shares of Stock through the attestation method, the number of shares of Stock transferred to the Optionee upon the exercise of the Option shall be net of the Shares attested to.

(b) Certificates for shares of Stock purchased upon exercise of this Stock Option shall be issued and delivered to the Optionee upon compliance to the satisfaction of the Administrator with all requirements under applicable laws or regulations in connection with such issuance and with the requirements hereof and of the Plan. The determination of the Administrator as to such compliance shall be final and binding on the Optionee. The Optionee shall not be deemed to be the holder of, or to have any of the rights of a holder with respect to, any shares of Stock subject to this Stock Option unless and until this Stock Option shall have been exercised pursuant to the terms hereof, the Company shall have issued and delivered the shares to the Optionee, and the Optionee's name shall have been entered as the stockholder of record on the books of the Company. Thereupon, the Optionee shall have full voting, dividend and other ownership rights with respect to such shares of Stock.

(c) The minimum number of shares with respect to which this Stock Option may be exercised at any one time shall be 10 shares, unless the number of shares with respect to which this Stock Option is being exercised is the total number of shares subject to exercise under this Stock Option at the time.

(d) Notwithstanding any other provision of this Agreement or of the Plan, no portion of this Stock Option shall be exercisable after the Expiration Date.

3. Termination of Employment. If the Optionee's employment by the Company or a Subsidiary (as defined in the Plan) is terminated, no additional Option Shares shall become exercisable following the date of termination and the period within which to exercise the exercisable portion of the Option may be subject to earlier termination as set forth below.

(a) Termination Due to Death. If the Optionee's employment terminates by reason of death, any Option held by the Optionee shall become fully exercisable and may thereafter be exercised by the Optionee's legal representative or legatee for a period of twelve months from the date of death or until the Expiration Date, if earlier.

(b) Termination Due to Disability. If the Optionee's employment terminates by reason of disability (as determined by the Administrator), any Option held by the Optionee shall become fully exercisable and may thereafter be exercised by the Optionee for a period of twelve months from the date of termination or until the Expiration Date, if earlier. The death of the Optionee during the twelve-month period provided in this Section 3(b) shall extend such period for another twelve months from the date of death or until the Expiration Date, if earlier.

(c) Termination for Cause. If the Optionee's employment terminates for Cause, any Option held by the Optionee shall terminate immediately and be of no further force and effect. For purposes hereof, Cause shall mean: (i) any material breach by the Optionee of any agreement between the Optionee and the Company; (ii) the conviction of or a plea of nolo contendere by the Optionee to a felony or a crime involving moral turpitude; or (iii) any material misconduct or willful and deliberate non-performance (other than by reason of disability) by the Optionee of the Optionee's duties to the Company. If it is discovered that an Optionee's employment could have been terminated for Cause but such information was not known by the Company, the date of termination of employment shall be deemed to be the date on which the act constituting Cause took place. In the event that an Optionee has exercised an Option after he or she has committed an act constituting Cause, the Administrator may take action to recover the Option Shares and any gains made by the Optionee in respect of such Option Shares.

(d) Other Termination. If the Optionee's employment terminates for any reason other than death, disability or Cause, and unless otherwise determined by the Administrator, any Option held by the Optionee may be exercised, to the extent exercisable on the date of termination, for a period of three months from the date of termination or until the Expiration Date, if earlier; provided that if the Optionee's employment terminates by reason of voluntary retirement (as determined by the Administrator) after the age of 58 then Options exercisable on the date of termination be exercised for a period of twelve months from the date of termination or until the Expiration Date, if earlier. Any Option that is not exercisable at such time shall terminate immediately and be of no further force or effect.

The Administrator's determination of the reason for termination of the Optionee's employment shall be conclusive and binding on the Optionee and his or her representatives or legatees.

4. Incorporation of Plan. Notwithstanding anything herein to the contrary, this Stock Option shall be subject to and governed by all the terms and conditions of the Plan. Capitalized terms in this Agreement shall have the meaning specified in the Plan, unless a different meaning is specified herein.

5. Transferability. This Agreement is personal to the Optionee, is non-assignable and is not transferable in any manner, by operation of law or otherwise, other than by will or the laws of descent and distribution. This Stock Option is exercisable, during the Optionee's lifetime, only by the Optionee, and thereafter, only by the Optionee's legal representative or legatee. Notwithstanding the foregoing, this Option may be transferred to members of the Optionee's immediate family, to trusts for the benefit of such family members, or to partnerships in which such family members are the only partners upon approval of the Administrator following submission of a petition for such transfer from the Optionee to the Administrator and the agreement of the proposed transferee to be bound by the terms of the Plan and this Agreement.

6. Tax Withholding. The Optionee shall, not later than the date as of which the exercise of this Stock Option becomes a taxable event for Federal income tax purposes, pay to the Company or make arrangements satisfactory to the Administrator for payment of any Federal, state, and local taxes required by law to be withheld on account of such taxable event. Subject to the written instructions from the Administrator, the Optionee may have the minimum required tax withholding obligation satisfied, in whole or in part, by (i) authorizing the Company to withhold from shares of Stock to be issued, or (ii) transferring to the Company, a number of shares of Stock with an aggregate Fair Market Value that would satisfy the withholding amount due.

7. Miscellaneous.

(a) Notice hereunder shall be given to the Company at its principal place of business, and shall be given to the Optionee at the address set forth below, or in either case at such other address as one party may subsequently furnish to the other party in writing.

(b) This Stock Option does not confer upon the Optionee any rights with respect to continuance of employment by the Company or any Subsidiary.

(c) This Stock Option is not intended to be an incentive stock option as defined in Section 422 of the Internal Revenue Code of 1986, as amended.
