FOR IMMEDIATE RELEASE

Fresh Del Monte Produce Announces First Quarter Results
Company Reports Sales Growth of 11 Percent

CORAL GABLES, Fla. April 27, 2004 **Fresh Del Monte Produce Inc. (NYSE: FDP)**, one of the world's largest producers and marketers of fresh fruit and vegetables, today announced financial results for the three months ended March 26, 2004.

Net sales for the first quarter of 2004 were \$713.8 million, compared with \$643.8 million in the same period last year. This 11 percent net sales increase was driven by an expansion of the Company's distribution channels, contributions from product expansion through recent acquisitions and favorable foreign exchange.

The Company reported earnings per share (EPS) of \$0.81 per diluted share in the first quarter of 2004, compared with \$1.35 per diluted share in the first quarter of 2003, excluding a one-time gain from insurance recoveries of \$0.20 per share. Net income for the 2004 first quarter was \$47.0 million, compared with \$88.1 million in the first quarter of 2003.

Gross profit for the first quarter of 2004 was \$77.2 million, compared with gross profit of \$107.0 million in the first quarter of 2003. The gross profit decrease was a result of lower banana pricing in North America and Europe combined with higher sea transportation and operating costs, offset by improved performance in Fresh Del Monte's grape and fresh cut business. Gross profit declines were also partially offset by foreign exchange gains and by consistent performance of the Company's Del Monte Gold Extra Sweet pineapple business.

We are encouraged by the momentum that is building across our entire business, said Mohammad Abu-Ghazaleh, Chairman and Chief Executive Officer. We continue to leverage our broad product range and our extensive distribution network, and we look forward to further growth from our recent acquisitions. Our operations are running smoothly, and we expect the Company's strong performance to continue throughout 2004.
