Item 4.02 Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review

(a) On December 8, 2004, we determined that our accounting for tenant allowances received from landlords in connection with store construction did not comply with FASB Technical Bulletin No. 88-1 (FTB 88-1). As a result, we have revised the presentation of our financial statements for the quarter with respect to tenant allowances received from landlords in connection with store construction. This conclusion differed from the conclusion that we had reached in connection with the preparation of the audited financial statements included in our Annual Report on Form 10-K for the year ended January 31, 2004, at which time we conducted an extensive analysis of our facts and circumstances, accounting standards and industry practice. At that time, we concluded that the presentation of tenant allowances that we were using was appropriate.

We historically have accounted for these tenant allowances as reductions to the related leasehold improvement asset on the balance sheet and capital expenditures on the statement of cash flows. We have determined that FTB 88-1 applies, which requires these allowances to be accounted for as lease incentives and reflected as a long-term liability on the balance sheet and as an operating cash flow on the statement of cash flows. Additionally, this adjustment results in an increase to depreciation and amortization expense and a corresponding decrease to cost of sales as the liability is amortized over the lease term. The revision does not have any impact on our net income, net sales or shareholders' equity.

The Company will amend its Annual Report on Form 10-K for the year ended January 31, 2004 and the Quarterly Reports on Form 10-Q for the quarterly periods ended May 1 and July 31, 2004 to restate the financial statements included in those reports in order to reflect the foregoing revision in the presentation of tenant allowances received from landlords in connection with store construction. The restatements will not result in any modification to our net income, net sales or shareholders' equity numbers for any of the periods presented.

The Chairman of our Audit Committee discussed the foregoing revision in reporting with our independent registered public accounting firm on December 8, 2004, and the Chairman of our Audit Committee and management of the Company discussed the revision in reporting with other members of the Audit Committee on December 9, 2004 and December 14, 2004. We disclosed the foregoing revision in reporting in a Form 12b-25 filed with the Securities and Exchange Commission on December 10, 2004.

As a result of our December 9, 2004 determination to restate our financial statements as discussed above, the financial statements included in our Annual Report on Form 10-K for the year ended January 31, 2004, and in our Quarterly Reports on Form 10-Q for the periods ended May 1, 2004, and July 31, 2004, should no longer be relied upon.
