Levitt Corporation

Notes to Unaudited Consolidated Financial Statements

1. Presentation of Interim Financial Statements

Levitt Corporation (including its subsidiaries, the Company) engages in real estate activities through its Homebuilding and Land Divisions and Other Operations. The Homebuilding Division operates through Levitt and Sons, LLC (Levitt and Sons) and Bowden Building Corporation (Bowden), developers of single family home, townhome and condominium communities. The Land Division consists of the operations of Core Communities, LLC, a land and master-planned community developer (Core Communities). Other Operations includes Levitt Commercial, LLC, a developer of industrial and residential properties (Levitt Commercial); investments in real estate and real estate joint ventures; and an equity investment in Bluegreen Corporation, a New York Stock Exchange-listed company engaged in the acquisition, development, marketing and sale of vacation ownership interests in primarily drive-to resorts, as well as residential homesites located around golf courses and other amenities (Bluegreen).

The accompanying unaudited consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant inter-segment transactions have been eliminated in consolidation. The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and disclosures required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three month period ended March 31, 2005 are not necessarily indicative of the results that may be expected for the year ending December 31, 2005. Certain items in prior period financial statements have been reclassified to conform to the current presentation. These financial statements should be read in conjunction with the Company's consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2004.

2. Stock Based Compensation

The Company currently accounts for stock option grants under the recognition and measurement principles of Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees*, and related Interpretations. No compensation expense is recognized because all stock options granted have exercise prices not less than the market value of the Company's stock on the date of grant.

Table of Contents

The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value recognition provisions of SFAS No. 123, *Accounting for Stock-Based Compensation*, as amended by SFAS 148, *Accounting for Stock-Based Compensation Transition and Disclosure*, to stock-based employee compensation (in thousands, except per share data):

	Three Months Ended March 31,	
	2005	2004
Pro forma net income		
Net income, as reported	\$ 29,818	13,055
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards, net of related income tax effect	(152)	(462)
Pro forma net income	\$ 29,666	12,593
Basic earnings per share:		
As reported	\$ 1.50	0.88
Pro forma	\$ 1.50	0.85
Diluted earnings per share:		
As reported	\$ 1.49	0.87
Pro forma	\$ 1.48	0.84

The fair values of options granted were estimated on the date of their grant using the Black-Scholes option pricing model based on the following assumptions:

Expected volatility	43.08% - 50.35%
Expected dividend yield	0.00% - 0.32%
Risk-free interest rate	4.13% - 4.40%
Expected life	7 - 10 years

3. Inventory of Real Estate

Inventory of real estate is summarized as follows (in thousands):

	March 31, 2005	December 31, 2004
Land and land development costs	\$ 295,265	291,414
Construction costs	82,534	100,129
Capitalized interest	11,980	11,110
Other costs	12,039	10,818
	\$ 401,818	413,471

Table of Contents**4. Interest**

Interest incurred relating to land under development and construction is capitalized to real estate inventory during the active development period. Interest is capitalized as a component of inventory at the effective rates paid on borrowings during the pre-construction and planning stages and the periods that projects are under development. Capitalization of interest is discontinued if development ceases at a project. Capitalized interest is expensed as a component of cost of sales as related homes, land and units are sold. The following table is a summary of interest incurred and the amounts capitalized (in thousands):

	Three Months Ended March 31,	
	2005	2004
Interest incurred to non-affiliates	\$ 2,881	1,360
Interest incurred to affiliates	613	634
Interest capitalized	(3,494)	(1,936)
Interest expense, net	\$	58
Interest expensed in cost of sales	\$ 2,624	1,800

5. Other Expenses and Interest and Other Income

Other expenses and interest and other income are summarized as follows (in thousands):

	Three Months Ended March 31,	
	2005	2004
Other expenses		
Title and mortgage operations expenses	\$ 639	616
Penalty on debt prepayment	677	
Total other expenses	\$ 1,316	616
Interest and other income		
Interest income	\$ 518	166
Other income	804	312
Total interest and other income	\$ 1,322	478

6. Investment in Bluegreen Corporation

The Company accounts for its investment in Bluegreen under the equity method. At March 31, 2005, the Company owned approximately 9.5 million shares, or approximately 31%, of Bluegreen's outstanding common stock.

Table of Contents

Bluegreen's unaudited condensed consolidated balance sheets and unaudited condensed consolidated statements of income are as follows (in thousands):

Unaudited Condensed Consolidated Balance Sheets

	March 31, 2005	December 31, 2004
Total assets	\$ 671,266	634,809
Total liabilities	\$ 392,052	363,933
Minority interest	6,782	6,009
Total shareholders' equity	272,432	264,867
Total liabilities and shareholders' equity	\$ 671,266	634,809

Unaudited Condensed Consolidated Statements of Income

	Three Months Ended	
	March 31, 2005	March 31, 2004
Revenues and other income	\$ 130,048	107,144
Cost and other expenses	118,776	98,672
Income before minority interest and provision for income taxes	11,272	8,472
Minority interest	773	829
Income before provision for income taxes	10,499	7,643
Provision for income taxes	4,042	2,943
Net income	\$ 6,457	4,700

7. Debt

In March 2005, the Company formed a statutory business trust, Levitt Capital Trust I, (the "Trust") for the purpose of issuing trust preferred securities and investing the proceeds thereof in junior subordinated debentures of the Company (the "Debentures"). On March 15, 2005, the Trust issued \$22.5 million of trust preferred securities. The Trust used the proceeds from issuing the trust preferred securities to purchase an identical amount of Debentures from the Company. Interest on the Debentures and distributions on the trust preferred securities will be payable quarterly in arrears at a fixed rate of 8.11% through March 30, 2010 and thereafter at a floating rate of 3.85% over 3-month London Interbank Offered Rate ("LIBOR") until the scheduled maturity date of March 30, 2035. Distributions on the trust preferred securities will be cumulative and based upon the liquidation value of the trust preferred security. The trust preferred

securities will be subject to mandatory redemption, in whole or in part, upon repayment of the Debentures at maturity or their earlier redemption. The Debentures are redeemable five years from the issue date or sooner following certain specified events. In addition, the Company contributed \$696,000 to the Trust in exchange for the Trust's common securities, all of which are owned by the Company, and those proceeds were also used to purchase an identical amount of Debentures from the Company. The terms of the Trust's common securities are

Table of Contents

nearly identical to the trust preferred securities. The issuance of trust preferred securities was part of a larger pooled trust securities offering which was not registered under the Securities Act of 1933. Proceeds were used to repay approximately \$22.0 million of indebtedness to affiliates.

8. Commitments and Contingencies

At March 31, 2005, the Company had approximately \$211.7 million of commitments to purchase properties for development. Approximately \$37.3 million of these commitments are subject to due diligence and satisfaction of certain requirements and conditions, including financing contingencies. The following table summarizes certain information relating to outstanding purchase and option contracts, including those contracts subject to the completion of due diligence.

	Purchase Price	Units/ Acres	Expected Closing
Homebuilding Division	\$174.4 million	5,339 Units	2005-2006
Land Division	33.8 million	3,300 Acres	2005-2006
Other Operations	3.5 million	90 Units	2005-2006

At March 31, 2005, cash deposits of approximately \$3.8 million secured the Company's commitments under these contracts.

At March 31, 2005 the Company had outstanding surety bonds and letters of credit of approximately \$69.4 million related primarily to its obligations to various governmental entities to construct improvements in the Company's various communities. The Company estimates that approximately \$50.3 million of work remains to complete these improvements. The Company does not believe that any outstanding bonds or letters of credit will likely be drawn upon.

9. Segment Reporting

Operating segments are components of an enterprise about which separate financial information is available that is regularly reviewed by the chief operating decision maker in deciding how to allocate resources and in assessing performance. The Company has three reportable business segments: Homebuilding, Land and Other Operations. The Company evaluates segment performance primarily based on net income. The information provided for segment reporting is based on management's internal reports. The accounting policies of the segments are generally the same as those described in the summary of significant accounting policies in the Company's Annual Report on Form 10-K for the year ended December 31, 2004. Eliminations consist primarily of the elimination of sales and profits on real estate transactions between the Land and Homebuilding Divisions, which were recorded based upon terms that management believes would be attained in an arm's-length transaction. The presentation and allocation of assets, liabilities and results of operations may not reflect the actual economic costs of the segments as stand-alone businesses. If a different basis of allocation were utilized, the relative contributions of the segments might differ, but management believes that the relative trends in segments would likely not be impacted.

The Company's Homebuilding segment consists of the operations of Levitt and Sons and Bowden while the Land segment consists of the operations of Core Communities. The Other Operations segment consists of the activities of Levitt Commercial, the Company's parent company operations, earnings from investments in Bluegreen and other real estate investments and joint ventures.

Table of Contents

The following tables present unaudited segment information as of and for the three months ended March 31, 2005 and 2004 (in thousands).

Three Months Ended March 31, 2005	Homebuilding	Land	Other Operations	Eliminations	Total

Table of Contents**10. Parent Company Financial Statements**

The parent company unaudited condensed statements of financial condition at March 31, 2005 and December 31, 2004, and unaudited condensed statements of income for the three months ended March 31, 2005 and 2004 are shown below (in thousands):

Condensed Statements of Financial Condition

	March 31, 2005	December 31, 2004
Total assets	\$ 383,621	370,781
Total liabilities	\$ 59,379	75,992
Total shareholders' equity	324,242	294,789
Total liabilities and shareholders' equity	\$ 383,621	370,781

Condensed Statements of Income

	Three Months Ended March 31, 2005 2004	
Earnings from Bluegreen Corporation	\$ 2,138	2,086
(Loss) earnings from real estate joint ventures	(14)	2,099
Other revenues	177	12
Costs and expenses	3,389	2,157
(Loss) income before income taxes	(1,088)	2,040
(Benefit) provision for income taxes	(469)	787
Net (loss) income before undistributed earnings from consolidated subsidiaries	(619)	1,253
Earnings from consolidated subsidiaries, net of income taxes	30,437	11,802
Net income	\$ 29,818	13,055

Cash dividends received from subsidiaries for the three months ended March 31, 2005 and 2004 were \$4.7 million and \$914,000, respectively. Some subsidiaries' borrowings contain covenants that, among other things, may have the effect of limiting dividends that can be paid to Levitt Corporation.

11. Earnings per Share

Basic earnings per common share is computed by dividing earnings attributable to common shareholders by the weighted average number of common shares outstanding for the period. Diluted earnings per common share is computed in the same manner as basic earnings per share, but it also gives consideration to dilutive stock options using the treasury stock method and the pro rata impact of Bluegreen's dilutive securities (stock options and convertible securities) on the amount of Bluegreen's earnings that the Company recognizes.

Table of Contents

The following table presents the computation of basic and diluted earnings per common share (in thousands, except for per share data):

	Three Months Ended March 31,	
	2005	2004
Numerator:		
Basic earnings per common share:		
Net income basic	\$ 29,818	13,055
Diluted earnings per common share:		
Net income basic	\$ 29,818	13,055
Pro rata share of the net effect of Bluegreen dilutive securities	(39)	(130)
Net income diluted	\$ 29,779	12,925
Denominator:		
Basic average shares outstanding	19,816	14,816
Net effect of stock options assumed to be exercised	149	36
Diluted average shares outstanding	19,965	14,852
Earnings per common share:		
Basic	\$ 1.50	0.88
Diluted	\$ 1.49	0.87

12. Dividends

On January 24, 2005, the Company's Board of Directors declared a cash dividend of \$0.02 per share on its Class A common stock and Class B common stock. The dividend was paid on February 15, 2005 to all shareholders of record on February 8, 2005.

On April 25, 2005, the Company's Board of Directors declared a cash dividend of \$0.02 per share on its Class A common stock and Class B common stock. The dividend is payable on May 16, 2005 to all shareholders of record on May 9, 2005.

The Company has not adopted a policy of regular dividend payments. The payment of dividends in the future is subject to approval by the Board of Directors and will depend upon, among other factors, the Company's results of operations and financial condition.

13. New Accounting Pronouncements

In December 2004, FASB issued Statement No. 152 (Accounting for Real Estate Time-Sharing Transactions an amendment of FASB Statements No. 66 and 67.) This Statement is effective for financial statements for fiscal years beginning after June 15, 2005. Bluegreen has indicated in its periodic reports filed with the SEC that this pronouncement is not expected to have a material effect on Bluegreen s financial statements. Accordingly, management does not believe that this Statement will have a material effect on the Company s consolidated financial statements.

In December 2004, FASB issued Statement No. 123 (revision) (Share-based payments). This Statement is a revision of FASB Statement No. 123, Accounting for Stock-Based Compensation and supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees, and its related implementation guidance. The Statement eliminated the accounting for share-based transactions under APB No. 25 and its related interpretations instead requiring that all share based payments be accounted

Table of Contents

for using a fair value method. For public companies the Statement will be effective in the first fiscal year that begins after June 15, 2005. Management expects to adopt the Statement on January 1, 2006.

14. Subsequent Events

In April 2005, Core Communities entered into a \$40.0 million line of credit with an unaffiliated financial institution to provide future funding for land acquisition and development activities. Borrowings under the line of credit bear interest at either (i) the prime rate less twenty-five basis points or (ii) LIBOR plus two hundred fifty basis points. Accrued interest is due and payable monthly in arrears, and all outstanding principal and accrued interest is due and payable in April 2007. Core Communities may, at its option, extend the line of credit for one additional year to April 2008.

In May 2005, the Company formed a new statutory business trust, Levitt Capital Trust II (the Trust), for the purpose of issuing trust preferred securities and investing the proceeds thereof in junior subordinated debentures of the Company (the May Debentures). On May 4, 2005, the Trust issued \$30.0 million of trust preferred securities and used the proceeds therefrom to purchase an identical amount of May Debentures from the Company. Interest on the May Debentures and distributions on the trust preferred securities will be payable quarterly in arrears at a fixed rate of 8.09% through June 30, 2010 and thereafter at a floating rate of 3.80% over 3-month LIBOR until the scheduled maturity date of June 30, 2035. Distributions on the trust preferred securities will be cumulative and based upon the liquidation value of the trust preferred security. The trust preferred securities will be subject to mandatory redemption, in whole or in part, upon repayment of the May Debentures at maturity or their earlier redemption. The May Debentures are redeemable five years from the issue date or sooner following certain specified events. In addition, the Company contributed \$928,000 to the Trust in exchange for the Trust's common securities, all of which are owned by the Company, and those proceeds were also used to purchase an identical amount of May Debentures from the Company. The terms of the Trust's common securities are nearly identical to the trust preferred securities. The trust preferred securities were issued in a private transaction. The Company used the proceeds from this transaction to repay approximately \$16.0 million of indebtedness to affiliates and intends to use the balance for general corporate purposes.

Table of Contents**Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The objective of the following discussion is to provide an understanding of the financial condition and results of operations of Levitt Corporation and its wholly owned subsidiaries (Levitt , or the Company) as of and for the three months ended March 31, 2005 and 2004. The Company may also be referred to as we, us, or our. We engage in homebuilding, land development and other real estate activities through Levitt and Sons, LLC (Levitt and Sons), Bowden Building Corporation (Bowden), Core Communities, LLC (Core Communities) and other operations, which include Levitt Commercial, LLC (Levitt Commercial), an investment in Bluegreen Corporation (Bluegreen) and investments in real estate projects through subsidiaries and joint ventures. Acquired in December 1999, Levitt and Sons is a developer of single-family home and townhome communities and condominium and rental apartment complexes. Acquired in April 2004, Bowden is a builder of single family homes based in Memphis, Tennessee. Core Communities is currently developing Tradition, its second master-planned community, which is located in St. Lucie County, Florida. Tradition is planned to ultimately include more than 8,000 total acres, including approximately five miles of frontage on Interstate 95. Levitt Commercial specializes in the development of industrial and residential properties. Bluegreen is a New York Stock Exchange-listed company engaged in the acquisition, development, marketing and sale of ownership interests in primarily drive-to vacation resorts, and the development and sale of golf communities and residential land.

Except for historical information contained herein, the matters discussed in this report contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act), that involve substantial risks and uncertainties. Some of the forward-looking statements can be identified by the use of words such as anticipate, believe, estimate, may, intend, expect, will, should, seeks or other similar expressions. Forward-looking based largely on management's expectations and involve inherent risks and uncertainties including certain risks described in this report. When considering those forward-looking statements, you should keep in mind the risks, uncertainties and other cautionary statements made in this report. You should not place undue reliance on any forward-looking statement, which speaks only as of the date made. In addition to the risks identified below, you should refer to our periodic and current reports filed with the United States Securities and Exchange Commission (the SEC) for specific risks which could cause actual results to be significantly different from those expressed or implied by those forward-looking statements. Some factors which may affect the accuracy of the forward-looking statements apply generally to the real estate industry, while other factors apply directly to us. Any number of important factors which could cause actual results to differ materially from those in the forward-looking statements include: the impact of economic, competitive and other factors affecting the Company and its operations, including the impact of hurricanes and tropical storms in the areas in which we operate; the market for real estate generally and in the areas where the Company has developments, including the impact of market conditions on the Company's margins; unanticipated delays in opening planned new communities; the availability and price of land suitable for development; shortages and increased costs of construction materials and labor; the effects of increases in interest rates; environmental factors, the impact of governmental regulations and requirements; the Company's ability to timely deliver homes from backlog and successfully manage growth; and the Company's success at managing the risks involved in the foregoing. Many of these factors are beyond our control. The Company cautions that the foregoing factors are not exclusive.

Table of Contents

Executive Overview

Management evaluates the performance and prospects of the Company and its subsidiaries using a variety of financial and non-financial measures. The key financial measures utilized to evaluate historical operating performance include revenues from sales of real estate, cost of sales of real estate, margin (which we measure as revenues from sales of real estate minus cost of sales of real estate), margin percentage (which we measure as margin divided by revenues from sales of real estate), income before taxes and net income. Non-financial measures used to evaluate historical performance include the number and value of new orders executed, the number of housing starts and the number of homes delivered. In evaluating the Company's future prospects, management considers non-financial information such as the number of homes and acres in backlog (which we measure as homes or land subject to an executed sales contract) and the aggregate value of those contracts. Additionally, we monitor the number of properties remaining in inventory and under contract to be purchased relative to our sales and construction trends. The Company's ratio of debt to shareholders' equity and cash requirements are also considered when evaluating the Company's future prospects, as are general economic factors and interest rate trends. Each of the above measures is discussed in the following sections as it relates to our operating results, financial position and liquidity. The list of measures above is not an exhaustive list, and management may from time to time utilize additional financial and non-financial information or may not use the measures listed above.

Impact of 2004 Hurricanes

The majority of our business operations are located in the State of Florida, which is subject to hurricanes and other tropical weather systems. In the months of August and September 2004, three hurricanes made landfall in areas where we have significant homebuilding operations (Ft. Myers, Orlando, Sarasota and Port St. Lucie). These hurricanes caused property damage in several of our communities in Central Florida, and the Company has expended considerable resources on homes under construction and previously delivered homes repairing stucco, replacing insulation and dry wall as well as other materials damaged in the storms. The Company has also expended funds to mitigate other hurricane-related damage, including replacing landscaping, fences, repairing lake beds and replacing building materials. Our consolidated statement of income for the three months ended March 31, 2005 includes insurance proceeds of \$1.2 million which were offset by hurricane related expenses.

Impact of Increasing Costs, Interest Rates and Local Government Regulation

Our business operations are impacted by competition for labor—direct and subcontracted—raw materials, supply and delivery issues. Ongoing strength in homebuilding and other construction activities has resulted in higher prices of most building materials, including lumber, steel, concrete and asphalt. We compete with other real estate developers—regionally, nationally and globally—for raw materials and labor. In addition, local materials suppliers periodically limit the allocation of their product to their customers which slows our production process and forces us to obtain those materials from other suppliers, typically at higher prices. In particular, supplies of cement block remain tight in the Florida market and we are currently subject to allocations of deliveries in some of our Florida developments. Although these allocations have not materially disrupted our operations to date, continued allocations could adversely impact our future operations or restrict our ability to expand in certain markets. Without corresponding increases in the sales prices of our real estate inventories (both land and finished homes), increasing materials and labor costs associated with land development and home building will negatively affect our future results of operations.

Table of Contents**Critical Accounting Policies and Estimates**

Critical accounting policies are those that are important to the understanding of our financial statements and also involve estimates and judgments about inherently uncertain matters. In preparing our financial statements, management makes estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. These estimates require the exercise of judgment, as future events cannot be determined with certainty. Accordingly, actual results could differ significantly from those estimates. Material estimates that are particularly susceptible to significant change in subsequent periods relate to the valuation of (i) real estate, including the estimation of costs required to complete development of a property, (ii) investments in real estate joint ventures and unconsolidated subsidiaries (including Bluegreen), and (iii) the fair market value of assets and liabilities in the application of the purchase method of accounting. The accounting policies that we have identified as critical to the portrayal of our financial condition and results of operations are: (a) real estate inventories; (b) investments in real estate joint ventures and other equity investments; (c) revenue recognition; (d) capitalized interest; and (e) income taxes. For a more detailed discussion of these critical accounting policies see **Critical Accounting Policies** appearing in our Annual Report on Form 10-K for the year ended December 31, 2004.

CONSOLIDATED RESULTS OF OPERATIONS

	Three Months Ended March 31,		
	2005	2004	Change
(In thousands)			
Revenues			
Sales of real estate	\$ 198,866	98,523	100,343
Title and mortgage operations	948	970	(22)
Total revenues	199,814	99,493	100,321
Costs and expenses			
Cost of sales of real estate	130,589	69,665	60,924
Selling, general and administrative expenses	23,146	14,047	9,099
Interest expense, net		58	(58)
Other expenses	1,316	616	700
Minority interest		25	(25)
Total costs and expenses	155,051	84,411	70,640
Earnings from Bluegreen Corporation	2,138	2,086	52
Earnings from joint ventures	90	3,607	(3,517)
Interest and other income	1,322	478	844
Income before income taxes	48,313	21,253	27,060
Provision for income taxes	18,495	8,198	10,297
Net income	\$ 29,818	13,055	16,763

For the Three Months Ended March 31, 2005 Compared to the Same 2004 Period:

Consolidated net income increased \$16.8 million, or 128%, for the three months ended March 31, 2005 as compared to the same period in 2004. The increase in net income primarily resulted from the bulk sale of five non-contiguous parcels of land adjacent to Tradition consisting of a total of 1,294 acres for \$64.7 million. Also contributing to the increase in net income were increases in sales of real estate by our Homebuilding Division and Other Operations. These increases were offset, in part, by

Table of Contents

lower earnings from joint ventures, lower margins in homebuilding and higher selling, general and administrative expenses.

Our revenues from sales of real estate increased 102% to \$198.9 million for the quarter ended March 31, 2005 from \$98.5 million for the same 2004 period. This increase was attributable primarily to the bulk land sale discussed above, as well as from an increase in home deliveries. In the quarter ended March 31, 2005, 501 homes were delivered compared to 341 homes delivered in the first quarter of 2004. Revenues also reflect increased sales of flex warehouse properties as Levitt Commercial closed out deliveries at two warehouse developments. Profits recognized by the Land Division from sales to the Homebuilding division are deferred until the Homebuilding Division delivers homes on those properties to third parties, at which time the deferred profit is applied against consolidated cost of sales. Previously deferred profits of \$1.0 million related to land sales by our Land Division to our Homebuilding Division were recognized as income during the quarter ended March 31, 2005, compared to \$505,000 for the same 2004 period.

Selling, general and administrative expenses increased during the first quarter of 2005 compared to the same 2004 period primarily as a result of higher employee compensation and benefits including sales commissions and accrued bonus compensation. Bonus compensation, which is tied to our profitability, increased during the first quarter of 2005 commensurate with higher earnings during the period. The increase in compensation expense is also associated with increased headcount in our new development projects in Central and South Florida, the expansion of homebuilding activities into North Florida and Georgia, and the addition of Bowden (which was acquired in April 2004), as well as an increase in our home deliveries. The number of our full time employees increased to 551 at March 31, 2005 from 386 at March 31, 2004, offset in part by a decrease in the number of part time employees from 38 at March 31, 2004 to 26 at March 31, 2005. As a percentage of total revenues, selling, general and administrative expenses declined to 12% in the first quarter of 2005 from 14% in the first quarter of 2004.

Interest incurred on notes and development bonds payable totaled \$3.5 million for the 2005 period and \$2.0 million for the 2004 period. Interest incurred was higher due to higher outstanding balances of notes and mortgage notes payable, as well as to an increase in the average interest rate on our variable-rate debt. Most of our variable-rate debt is indexed to the Prime Rate, which increased from 4.00% at March 31, 2004 to 5.75% at March 31, 2005. Interest capitalized was \$3.5 million for the 2005 period and \$1.9 million for the 2004 period. At the time of home closings and land sales, the capitalized interest allocated to such inventory is charged to cost of sales. Cost of sales of real estate for the three months ended March 31, 2005 and 2004 included previously capitalized interest of approximately \$2.6 million and \$1.8 million, respectively.

The increase in other expenses was primarily attributable to a \$677,000 penalty on debt prepayment incurred during the first quarter of 2005 at our Land Division. The penalty arose from the repayment of indebtedness under a line of credit using the proceeds of the bulk land sale described above.

Bluegreen's reported net income for the three months ended March 31, 2005 was \$6.5 million, as compared to \$4.7 million for the same period in 2004. Our interest in Bluegreen's earnings, net of purchase accounting adjustments, was \$2.1 million in each of those periods. Purchase accounting adjustments increased our interest in Bluegreen's earnings by \$110,000 for the first quarter of 2005, whereas purchase accounting and other adjustments increased our interest in Bluegreen's earnings by \$294,000 for the first quarter of 2004. For the three months ended March 31, 2005 and 2004, the 9.5 million shares of Bluegreen that we own represented approximately 31% and 37%, respectively, of the outstanding shares of Bluegreen. Our ownership percentage was diluted in the 2005 period as a result

Table of Contents

of Bluegreen's issuance of common stock in 2004 in connection with the conversion by holders of \$34.1 million of its 8.25% Convertible Subordinated Debentures and the exercise of stock options.

The increase in interest and other income is primarily related to an increase in rental income and higher balances of interest-earning deposits at various financial institutions, including our affiliate, BankAtlantic. At March 31, 2005, we had cash and cash equivalents of \$134.8 million, as compared with \$45.9 million at March 31, 2004.

Earnings from real estate joint ventures in the first quarter of 2004 included earnings generated by the sale of an apartment complex and deliveries of homes and condominium units developed by joint ventures. There were no earnings generated by these joint ventures in the first quarter of 2005, as they were winding down their operations.

HOMEBUILDING DIVISION RESULTS OF OPERATIONS

	Three Months Ended March 31,		
	2005	2004	Change
(Dollars in thousands)			
Revenues			
Sales of real estate	\$ 117,987	78,664	39,323

New orders (value)	\$ 165,281	130,124	35,157
Backlog of homes (units)	1,918	2,186	(268)

Backlog of homes (value)	\$ 496,006	510,231	(14,225)
--------------------------	------------	---------	----------

For the Three Months Ended March 31, 2005 Compared to the Same 2004 Period:

The value of new orders increased to \$165.3 million for the three months ended March 31, 2005, from \$130.1 million in the three months ended March 31, 2004. This increase was primarily a result of the addition of Bowden, which was acquired in April 2004, and growth at Levitt and Sons, which had

Table of Contents

slightly lower unit orders but higher average selling prices. The average sales price of the homes in backlog at March 31, 2005 is approximately 11% higher than the average sales price of the homes in backlog at March 31, 2004. We are actively managing the release of new inventory and acceptance of new home orders in Florida to help assure high levels of customer satisfaction by meeting delivery schedules acceptable to our customers. This impacted Florida homebuilding operations in the first quarter of 2005 as new orders were slightly lower compared to the first quarter of 2004, but reflect an improvement over the previous two quarters as our inventory availability has improved. Construction starts in our Florida operations are also being actively managed to reduce build cycles to optimal levels. We will continue to moderate the release of new inventory in an attempt to maintain pricing flexibility and to protect against rising costs. We believe that our inventory of homes available for sale, new orders and construction starts should improve over time as we successfully implement our inventory management strategy.

Revenues from home sales increased 50% to \$118.0 million during the three months ended March 31, 2005, as compared to the same 2004 period. Approximately half of the increase related to the inclusion of home deliveries by Bowden. During the three months ended March 31, 2005, 501 homes were delivered as compared to 341 homes delivered during the three months ended March 31, 2004. The modest increase in the average selling price of our homes was due primarily to a change in our product mix resulting from the inclusion of Bowden in 2005. The average selling price of homes in our Florida operations in the first quarter of 2005 increased by \$20,000 over the first quarter of 2004 to \$251,000, while the average selling price of Bowden's homes in the 2005 period was \$184,000.

Margin percentage (which we define as sales of real estate minus cost of sales of real estate, divided by sales of real estate) declined in the first quarter of 2005 compared with the first quarter of 2004. The decline was primarily attributable to a change in mix of community types and markets served by the homebuilding division. Margins in the active adult communities have historically been higher than those in primary communities, and margins in the Florida markets served by Levitt and Sons have historically been higher than those in the Tennessee market served by Bowden, which historically served only the primary market. We anticipate continued pressure on margins in 2005 due to rising costs in Florida and the greater proportion of home deliveries in primary communities as compared to 2004.

Cost of sales increased 52% to \$93.6 million during the three months ended March 31, 2005, as compared to the same 2004 period. The increase in cost of sales was primarily due to the increase in home deliveries, but was also impacted by increased construction costs. The costs of labor and building materials continue to rise. While we may be able to increase our selling prices in future sales to absorb these increased costs, the sales prices of homes in our backlog cannot be increased and the margins on the delivery of homes in backlog may be adversely affected by this trend. Included in cost of sales for the three months ended March 31, 2005 are approximately \$21,000 of purchase accounting adjustments relating to the Bowden acquisition.

Selling, general and administrative expenses increased 57% to \$14.6 million during the three months ended March 31, 2005, as compared to the same 2004 period. The growth in selling, general and administrative expenses primarily resulted from higher compensation expense from increased headcount, higher sales commissions associated with more home deliveries and a higher average commission cost, and the addition of Bowden. As a percentage of total revenues, selling, general and administrative expense was approximately 12% in both the 2005 and 2004 periods. As we expand our homebuilding activities to the Jacksonville, Florida, Atlanta, Georgia and Nashville, Tennessee markets, we expect to continue to incur administrative start-up costs well in advance of revenue recognition, which will adversely affect our operating results. We are also in the process of realigning our homebuilding operations as a single operating division by incorporating Bowden's operations into Levitt and Sons. We believe that this new structure, combined with additional investments in

Table of Contents

technological and human resources, will enable us to realize further operational synergies and strengthen our infrastructure for future growth.

Interest incurred totaled \$2.1 million and \$1.2 million for the three months ended March 31, 2005 and 2004, respectively. The increase in the amount of interest incurred in the period related primarily to the assumption of debt related to the acquisition of Bowden and increases in interest rates indexed to the Prime Rate. Interest capitalized for the quarters ended March 31, 2005 and 2004 totaled \$2.1 million and \$1.2 million, respectively. Cost of sales of real estate for the three months ended March 31, 2005 and 2004 included previously capitalized interest of approximately \$1.7 million and \$1.4 million, respectively.

Earnings from real estate joint ventures in the first quarter of 2004 included income from the delivery of 88 residential condominium units by a joint venture that developed a condominium complex in Boca Raton, Florida. There were no residential units delivered or remaining to be delivered from that joint venture property at March 31, 2005.

LAND DIVISION RESULTS OF OPERATIONS

	Three Months Ended March 31,		
	2005	2004	Change
(Dollars in thousands)			
Revenues			
Sales of real estate	\$ 66,551	19,321	47,230

Acres subject to firm sales contracts	543	1,268	(725)
Acres subject to firm sales contracts (value)	\$ 59,624	97,482	(37,858)

Land Division revenues have historically been generated primarily from two master-planned communities located in St. Lucie County, Florida – St. Lucie West and Tradition. Development activity in St. Lucie West is winding down, with 29 acres of inventory remaining at March 31, 2005, of which 24 acres were subject to firm sales contracts as of that date. With the acquisition of approximately 3,150 acres during the second quarter of 2004, the Tradition master-planned community now encompasses more than 8,200 total acres, including approximately 5,900 net saleable acres. Approximately 1,750 acres had been sold or were subject to firm sales contracts with various homebuilders as of March 31, 2005. Notwithstanding the current sustained interest and activity at

Table of Contents

Tradition, a significant reduction of future demand in the residential real estate market could negatively impact our land development operations.

We calculate margin as sales of real estate minus cost of sales of real estate, and margin percentage as the ratio of margin to sales of real estate. We have historically realized between 40% and 60% margin percentage on Land Division sales. Margins fluctuate based upon changing sales prices and costs attributable to the land sold. The sales price of land sold varies depending upon: the location; the parcel size; whether the parcel is sold as raw land, partially developed land or individually developed lots; the degree to which the land is entitled; and whether the ultimate use of land is residential or commercial. The cost of sales of real estate is dependent upon the original cost of the land acquired, the timing of the acquisition of the land, and the amount of development and carrying costs capitalized to the particular land parcel. Future margins will continue to vary in response to these and other market factors.

For the Three Months Ended March 31, 2005 Compared to the Same 2004 Period:

Revenues increased 244% to \$66.6 million during the three months ended March 31, 2005, as compared to \$19.3 million during the same 2004 period. The margin percentage on land sales in both the 2005 and 2004 periods was approximately 59%. In January 2005, we consummated the bulk sale of five non-continuous parcels of land adjacent to Tradition consisting of a total of 1,294 acres for \$64.7 million, or \$50,000 per acre. These parcels, which were acquired in May 2004 for \$20,000 per acre, were sold after we determined that their specific locations and the timeline for obtaining land use approvals were not compatible with the master strategic plan for Tradition. The funds generated by the sale were used to reduce indebtedness and to provide additional liquidity for the Land Division operations and investments.

Selling, general and administrative expenses increased 72% to \$4.4 million during the three months ended March 31, 2005 as compared to \$2.6 million for the same 2004 period, primarily as a result of higher incentive compensation associated with the increase in profitability. As a percentage of total revenues, selling, general and administrative expenses declined to 7% in the first quarter of 2005 from 13% in the first quarter of 2004.

Interest incurred for the three months ended March 31, 2005 and 2004 was \$456,000 and \$164,000, respectively. Interest capitalized for the quarters ended March 31, 2005 and 2004 totaled \$456,000 and \$106,000, respectively. Cost of sales of real estate for the three months ended March 31, 2005 included previously capitalized interest of approximately \$65,000, as compared to \$16,000 for the three months ended March 31, 2004.

The increase in other expenses was attributable to a \$677,000 penalty on debt prepayment incurred during the 2005 period arising from the repayment of indebtedness under a line of credit using the proceeds of the bulk land sale described above.

Table of Contents**OTHER OPERATIONS RESULTS OF OPERATIONS**

	Three Months Ended March 31,		
	2005	2004	Change
(In thousands)			
Revenues			
Sales of real estate	\$ 14,709	538	14,171
Total revenues	14,709	538	14,171

(Loss) earnings from real estate joint ventures	(14)	2,098	(2,112)
Interest and other income	687	30	657
Income before income taxes	2,102	1,834	268
Provision for income taxes	763	707	56
Net income	\$ 1,339	1,127	212

Other Operations include all other Company operations, including Levitt Commercial, Levitt Corporation general and administrative expenses, earnings from our investment in Bluegreen and earnings from investments in various real estate projects and trusts. We currently own approximately 9.5 million shares of the common stock of Bluegreen, which represented approximately 31% of Bluegreen's outstanding shares as of March 31, 2005. Under equity method accounting, we recognize our pro-rata share of Bluegreen's net income or loss (net of purchase accounting adjustments) as pre-tax earnings. Bluegreen has not paid dividends to its shareholders; therefore, our earnings represent only our claim to the future distributions of Bluegreen's earnings. Accordingly, we record a tax liability on our portion of Bluegreen's net income. Should Bluegreen's financial performance deteriorate, our earnings in Bluegreen would decrease concurrently and our results of operations would be adversely affected. Furthermore, a significant reduction in Bluegreen's financial position could result in an impairment charge against our future results of operations.

For the Three Months Ended March 31, 2005 Compared to the Same 2004 Period:

During the three months ended March 31, 2005, Levitt Commercial delivered the 44 remaining flex warehouse units at two of its development projects, generating revenues of \$14.7 million. Levitt Commercial delivered one flex warehouse unit during the three months ended March 31, 2004. Deliveries of individual flex warehouse units by Levitt Commercial generally occur in rapid succession upon the completion of a warehouse building. Accordingly, revenues

from Levitt Commercial's development in any one quarter are not expected to be representative of the following quarters or the full year. Levitt Commercial has two flex warehouse projects currently in development that are expected to be completed at the end of 2005 or the first half of 2006, at which time additional revenues are expected to be generated.

Cost of sales of real estate in Other Operations includes the expensing of interest previously capitalized in this business segment, which totaled \$837,000 and \$329,000 for the three months ended March 31, 2005 and 2004, respectively. Bluegreen's reported net income for the three months ended

Table of Contents

March 31, 2005 was \$6.5 million as compared to \$4.7 million for the same period of 2004. Our ownership interest in Bluegreen's earnings during the three month periods ended March 31, 2005 and 2004 was approximately \$2.1 million in each period, net of purchase accounting adjustments. Purchase accounting adjustments increased our interest in Bluegreen's earnings by \$110,000 for the first quarter of 2005, whereas purchase accounting and other adjustments increased our interest in Bluegreen's earnings by \$294,000 for the first quarter of 2004.

Selling, general and administrative and other expenses increased to \$4.1 million during the three months ended March 31, 2005 as compared to \$2.2 million during the three months ended March 31, 2004. This increase was primarily associated with increases in employee compensation and benefits (including commissions on flex warehouse deliveries), fees paid by the Company for administrative and other services provided pursuant to an agreement with BankAtlantic Bancorp, and audit and other expenses related to complying with the requirements of the Sarbanes-Oxley Act of 2002 for the year ended December 31, 2004, which were incurred in connection with the 2004 audit in the first quarter of 2005.

Our real estate joint ventures incurred losses of \$14,000 in the first quarter of 2005 as compared to earnings of \$2.1 million in the first quarter of 2004. The earnings in the first quarter of 2004 were primarily related to the gain recognized by a joint venture on the sale of a rental apartment property in Vero Beach, Florida. As of March 31, 2005, the joint ventures in which this operating segment participates had essentially completed their operations and were winding down.

Interest incurred in Other Operations was approximately \$891,000 and \$637,000 for the three months ended March 31, 2005 and 2004, respectively. The increase in interest incurred was primarily associated with an increase in mortgage notes payable associated with Levitt Commercial's development activities. Interest capitalized for this business segment totaled \$891,000 and \$637,000 for the three months ended March 31, 2005 and 2004, respectively. Those amounts include adjustments to reconcile the amount of interest eligible for capitalization on a consolidated basis with the amounts capitalized in the Company's other business segments.

The increase in interest and other income was primarily attributable to the income generated by the rental of an office building in Fort Lauderdale, Florida which was acquired in October 2004, as well as an increase in interest income related to higher balances of interest-bearing deposits.

FINANCIAL CONDITION

March 31, 2005 compared to December 31, 2004

Our total assets at March 31, 2005 and December 31, 2004 were \$683.5 million and \$678.5 million, respectively. The increase in total assets primarily resulted from:

- a net increase in cash and cash equivalents of \$9.3 million, which resulted primarily from the bulk sale of 1,294 acres of land adjacent to Tradition million and \$21.8 million of net proceeds from the issuance of the trust preferred securities described below, offset in part by cash used in operations and the reduction of the outstanding balances of

certain indebtedness;

a net decrease in inventory of real estate of approximately \$11.7 million resulting from the bulk land sale discussed above, as well as sales of homes and other land. These decreases were offset in part by land acquisitions by our Homebuilding Division and increases in land development and construction costs;

Table of Contents

an increase of approximately \$2.2 million in our investment in Bluegreen Corporation associated primarily with our equity in earnings and unrealized gains associated with Bluegreen's other comprehensive income;

an increase of \$3.7 million in property and equipment primarily related to the construction of an irrigation facility in Tradition; and

an increase of \$2.2 million in other assets resulting primarily from a \$1.2 million increase in insurance recovery receivables, which have subsequently been collected, as well as a \$926,000 increase in deferred loan costs.

Total liabilities at March 31, 2005 and December 31, 2004 were \$359.3 million and \$383.7 million, respectively.

The decrease in total liabilities primarily resulted from:

a net decrease in notes and mortgage notes payable of \$37.1 million, primarily related to the reduction of borrowings by our Land Division with the proceeds of the bulk land sale discussed above;

a decrease in notes payable to affiliates of \$23.0 million, offset by the issuance of \$23.2 of junior subordinated debentures as described below; and

an increase in the current tax liability of approximately \$14.5 million relating primarily to the increase in our taxable income and the timing of quarterly estimated tax payments.

LIQUIDITY AND CAPITAL RESOURCES

Management assesses the Company's liquidity in terms of its ability to generate cash to fund its operating and investment activities. For the three months ended March 31, 2005, our primary sources of funds were the proceeds from the sale of real estate inventory, the issuance of trust preferred securities described below and borrowings from financial institutions. These funds were utilized primarily for the acquisition, development and construction of our real estate, to service and repay borrowings and to pay operating expenses.

We formed a statutory business trust (the "Trust") for the purpose of issuing trust preferred securities and investing the proceeds thereof in junior subordinated debentures of the Company (the "Debentures"). On March 15, 2005, the Trust issued \$22.5 million of trust preferred securities. The Trust used the proceeds from issuing trust preferred securities to purchase an identical amount of Debentures from the Company. Interest on the Debentures and distributions on the trust preferred securities are payable quarterly in arrears at a fixed rate of 8.11% through March 30, 2010 and thereafter at a floating rate of 3.85% over 3-month London Interbank Offered Rate ("LIBOR") until the scheduled maturity date of March 30, 2035. Distributions on the trust preferred securities will be cumulative and based upon the liquidation value of the trust preferred security. The trust preferred securities will be subject to mandatory redemption, in whole or in part, upon repayment of the Debentures at maturity or their earlier redemption. The Debentures are redeemable five years from the issue date or sooner following certain specified events. In addition, we contributed \$696,000 to the Trust in exchange for the Trust's common securities, all of which are owned by us, and those proceeds were also used to purchase an identical amount of Debentures from the Company. The terms of the Trust's common securities are nearly identical to the trust preferred securities. The issuance of trust preferred securities was part of a larger pooled trust securities offering which was not registered under the Securities Act of 1933. We used the proceeds to repay approximately \$22.0 million of indebtedness to affiliates.

Table of Contents

We formed a second statutory business trust (the Second Trust), which on May 4, 2005 issued \$30.0 million of trust preferred securities in a private offering. The structure of this trust preferred securities transaction was substantially the same as the transaction described in the preceding paragraph. Interest on the junior subordinated debentures issued by the Company in connection with this transaction and distributions on the trust preferred securities will be payable quarterly in arrears at a fixed rate of 8.09% through June 30, 2010 and thereafter at a floating rate of 3.80% over 3-month LIBOR until the scheduled maturity date of June 30, 2035. We contributed \$928,000 to the Second Trust in exchange for the Second Trust's common securities, which amount was likewise used by the Second Trust to purchase an identical amount of junior subordinated debentures from the Company. We intend to use the proceeds for general corporate purposes, including to repay approximately \$16.0 of indebtedness to affiliates. We also expect to create similar trusts and participate in other pooled trust preferred securities transactions in the future as a source of additional financing for the Company.

In April 2005, Core Communities entered into a \$40.0 million line of credit with an unaffiliated financial institution to provide future funding for land acquisition and development activities. Borrowings under the line of credit bear interest at either (i) the prime rate less twenty-five basis points or (ii) LIBOR plus two hundred fifty basis points. Accrued interest is due and payable monthly in arrears, and all outstanding principal and accrued interest is due and payable in April 2007. We may, at our option, extend the line of credit for one additional year to April 2008.

In addition to the liquidity provided by the trust preferred securities, we expect to continue to fund our short-term liquidity requirements through net cash provided by operating and financing activities and our cash on hand. We expect to meet our long-term liquidity requirements for items such as acquisitions and debt service and repayment obligations primarily with net cash provided by operations and long-term secured and unsecured indebtedness. As of March 31, 2005 and December 31, 2004, we had cash and cash equivalents of \$134.8 million and \$125.5 million, respectively.

At March 31, 2005, our consolidated debt was approximately \$231.1 million. Our principal payment obligations with respect to our debt for the 12 months beginning March 31, 2005 are anticipated to total approximately \$41.7 million. Some of our borrowing agreements contain provisions that, among other things, require us to maintain certain financial ratios and a minimum net worth. These requirements may limit the amount of debt that we can incur in the future and restrict the payment of dividends to us by our subsidiaries. At March 31, 2005, we were in compliance with all loan agreement financial requirements and covenants.

On January 24, 2005 our Board of Directors declared a cash dividend of \$0.02 per share on our Class A common stock and Class B common stock which was paid on February 15, 2005 to all shareholders of record on February 8, 2005. On April 25, 2005 the Board of Directors declared a cash dividend of \$0.02 per share on our Class A and Class B common stock. The Board set the payment date for May 16, 2005, to all shareholders of record on May 9, 2005. The Board has not adopted a policy of regular dividend payments. The payment of dividends in the future is subject to approval by our Board of Directors and will depend upon, among other factors, our results of operation and financial condition.

Off Balance Sheet Arrangements and Contractual Obligations

In connection with the development of certain of our communities, we establish community development districts to access bond financing for the funding of infrastructure development and other projects within the community. If we were not able to establish community development districts, we would need to fund community infrastructure development out of operating income or through other sources of financing or capital. The bonds issued are obligations of the community development

Table of Contents

district and are repaid through assessments on property within the district. To the extent that we own property within a district when assessments are levied, we will be obligated to pay such assessments when they are due. As of March 31, 2005, development districts in Tradition had \$62.8 million of community development district bonds outstanding for which no assessments had been levied. As of March 31, 2005, we owned approximately 66% of the property in the districts.

We have entered into an indemnity agreement with a joint venture partner relating to that partner's guarantee of the joint venture's indebtedness. Our maximum exposure under the indemnity agreement is estimated to be approximately \$500,000. Based on the joint venture assets securing the indebtedness, we do not believe it is reasonably likely that any payment will be required under the indemnity agreement.

The following table summarizes our contractual obligations as of March 31, 2005 (in thousands):

Category	Total	Payments due by period			
		Less than 1 year	2 - 3 Years	4 - 5 Years	More than 5 years
Long-term debt obligations	\$ 231,095	41,680	60,613	77,774	51,028
Operating lease obligations	3,419	711	1,208	1,484	16
Purchase obligations	174,360	166,844	7,516		
Total Obligations	\$ 408,874	209,235	69,337	79,258	51,044

Long-term debt obligations consist of notes, mortgage notes and bonds payable. Operating lease obligations consist of rent commitments. Purchase obligations consist of contracts to acquire real estate properties for development and sale for which due diligence has been completed and our deposit is committed; however our liability for not completing the purchase of any such property is generally limited to the deposit we made under the relevant contract.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Market risk is defined as the risk of loss arising from adverse changes in market valuations that arise from interest rate risk, foreign currency exchange rate risk, commodity price risk and equity price risk. We have a risk of loss associated with our borrowings as we are subject to interest rate risk on our long-term debt. At March 31, 2005, we had \$189.8 million in borrowings with adjustable rates tied to the prime rate and/or LIBOR rates and \$41.3 million in borrowings with fixed or initially-fixed rates. Consequently, the impact on our variable rate debt from changes in interest rates may affect our earnings and cash flows but would generally not impact the fair value of such debt. With respect to fixed rate debt, changes in interest rates generally affect the fair market value of the debt but not our earnings or cash flow.

Assuming the variable rate debt balance of \$189.8 million outstanding at March 31, 2005 (which does not include the Debentures, which are initially fixed-rate obligations) were to remain constant, each one percentage point increase in interest rates would increase the interest incurred by us by approximately \$1.9 million per year.

Table of Contents

NEW ACCOUNTING PRONOUNCEMENTS

In December 2004, FASB issued Statement No. 152 (Accounting for Real Estate Time-Sharing Transactions an amendment of FASB Statements No. 66 and 67.) This Statement is effective for financial statements for fiscal years beginning after June 15, 2005. Bluegreen has indicated in its periodic reports filed with the SEC that this pronouncement is not expected to have a material effect on Bluegreen s financial statements. Accordingly, we do not believe that this Statement will have a material effect on the Company s consolidated financial statements.

In December 2004, FASB issued Statement No. 123 (revision) (Share-based payments .) This Statement is a revision of FASB Statement No. 123, Accounting for Stock-Based Compensation and supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees, and its related implementation guidance. The Statement eliminated the accounting for share-based transactions under APB No. 25 and its related interpretations instead requiring all share based payment be accounted for using a fair value method. For public companies the Statement will be effective in the first fiscal year that begins after June 15, 2005. We expect to adopt the Statement on January 1, 2006.

Item 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, we carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures under the supervision and with the participation of our principal executive officer and principal financial officer. Based on the results of this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures are effective in timely alerting them to material information required to be included in our periodic SEC reports.

Changes in Internal Control over Financial Reporting

In addition, we reviewed our internal control over financial reporting, and there has been no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
