**PROXY STATEMENT**

**ANNUAL MEETING APRIL 21, 2008**

This Proxy Statement is being furnished to the shareholders of Genuine Parts Company in connection with the solicitation of proxies by the Board of Directors of the Company for use at the Company's 2008 Annual Meeting of Shareholders to be held on Monday, April 21, 2008, at 10:00 a.m. local time and at any reconvened meeting following any adjournment thereof. The Annual Meeting will be held at the Company's headquarters, 2999 Circle 75 Parkway, Atlanta, Georgia.

This proxy statement and the accompanying proxy card are first being mailed to shareholders on or about February 29, 2008. The Company's 2007 annual report to the shareholders, including consolidated financial statements for the year ended December 31, 2007, is enclosed herewith.

**VOTING**

Shareholders of record can simplify their voting and reduce the Company's costs by voting their shares via telephone or the Internet. Instructions for voting via telephone or the Internet are set forth on the enclosed proxy card. The telephone and Internet voting procedures are designed to authenticate votes cast by use of a personal identification number. These procedures enable shareholders to appoint a proxy to vote their shares and to confirm that their instructions have been properly recorded. If your shares are held in the name of a bank or broker, the availability of telephone and Internet voting will depend on the voting processes of the applicable bank or broker; therefore, it is recommended that you follow the voting instructions on the form you receive. If you do not choose to vote by telephone or the Internet, please mark your choices on the enclosed proxy card and then date, sign and return the proxy card at your earliest opportunity.

All proxies properly voted by telephone or the Internet and all properly executed written proxy cards that are delivered to the Company (and not later revoked) will be voted in accordance with instructions given in the proxy. When voting for director nominees, you may (1) vote FOR all nominees, (2) WITHHOLD AUTHORITY to vote for all nominees, or (3) WITHHOLD AUTHORITY to vote for one or more nominees but vote FOR the other nominees. To ratify the selection of independent auditors, you may vote FOR or AGAINST the proposal or you may ABSTAIN from voting.

A shareholder who submits a proxy pursuant to this solicitation may revoke it at any time prior to its exercise at the Annual Meeting. Such revocation may be by delivery of written notice to the Corporate Secretary of the Company at the Company's address shown above, by delivery of a proxy bearing a later date, or by voting in person at the Annual Meeting.

If you hold your shares in street name through a brokerage firm and you do not vote your shares, your brokerage firm can vote your shares in its discretion on any of the matters scheduled to come before the Annual Meeting.

At the close of business on the record date for the Annual Meeting, which was February 15, 2008, the Company had outstanding and entitled to vote at the Annual Meeting 165,305,021 shares of Common Stock. On each proposal presented for a vote at the Annual Meeting, each shareholder is entitled to one vote per share of Common Stock held as of the record date. A quorum for the purposes of all matters to be voted on shall consist of shareholders representing, in person or by proxy, a majority of the outstanding shares of Common Stock entitled to vote at the

Annual Meeting. Shares represented at the Annual Meeting that are abstained or withheld from voting will be considered present for purposes of determining a quorum at the Annual Meeting. If less than a majority of the outstanding shares of Common Stock are represented at the Annual Meeting, a majority of the shares so represented may adjourn the Annual Meeting to another date, time or place.

---

The vote required for the election of directors and the ratification of the selection of independent auditors is a majority of the shares of Common Stock outstanding and entitled to vote which are represented at the Annual Meeting. Because votes withheld and abstentions will be considered as present and entitled to vote at the Annual Meeting, they will have the same effect as votes against both proposals.

**PROPOSAL 1  
ELECTION OF DIRECTORS**

The Board of Directors of the Company currently consists of thirteen directorships. The Board of Directors, based on the recommendation of its Compensation, Nominating and Governance Committee, has nominated the current thirteen directors to serve for one year terms expiring on the date of the 2009 Annual Meeting and until their successors are duly elected and qualified.

In the event that any nominee is unable to serve (which is not anticipated), the Board of Directors may:

- designate a substitute nominee, in which case the persons designated as proxies will cast votes for the election of such substitute nominee;
- allow the vacancy to remain open until a suitable candidate is located and nominated; or
- adopt a resolution to decrease the authorized number of directors.

If any incumbent for director in an uncontested election should fail to receive the required affirmative vote of the holders of a majority of the shares present or represented at the Annual Meeting, under Georgia law, the director remains in office as a holdover director until his or her successor is elected and qualified or until his or her earlier resignation, retirement, disqualification, removal from office or death. In the event of a holdover director, the Board of Directors in its discretion may request the director to resign from the Board. If the director resigns, the Board of Directors may:

- immediately fill the resulting vacancy;
- allow the vacancy to remain open until a suitable candidate is located and appointed; or
- adopt a resolution to decrease the authorized number of directors.

**THE BOARD OF DIRECTORS RECOMMENDS THAT SHAREHOLDERS VOTE FOR THE ELECTION OF ALL OF THE NOMINEES. ALL VALID PROXIES RECEIVED WILL BE SO VOTED UNLESS SHAREHOLDERS SPECIFY IN THEIR PROXIES A CONTRARY CHOICE.**

Set forth below are the names of the nominees, their principal occupations, certain other directorships, their ages as of the date of this proxy statement and the year each of them first joined the Board. For information concerning the nominees who are independent directors of the Company within the meaning of the New York Stock Exchange's corporate governance standards and concerning membership of the nominees on committees of the Board of Directors, see Corporate Governance Independent Directors and Board Committees below.

## **CORPORATE GOVERNANCE**

### **Independent Directors**

The Company's Common Stock is listed on the New York Stock Exchange. The NYSE requires that a majority of the directors be independent directors, as defined in the NYSE corporate governance standards. Generally, a director does not qualify as an independent director if the director (or in some cases, members of the director's immediate family) has, or in the past three years has had, certain material relationships or affiliations with the Company, its external or internal auditors, or other companies that do business with the Company. The Board has affirmatively determined that nine of the Company's thirteen current directors have no other direct or indirect relationships with the Company and therefore are independent directors on the basis of the NYSE corporate governance standards and an analysis of all facts specific to each director. The independent directors are Mary B. Bullock, Richard W. Courts, II, George C. Jack Guynn, John D. Johns, Michael M. E. Johns, M.D., J. Hicks Lanier, Wendy B. Needham, Gary W. Rollins and Lawrence G. Steiner.

### **Corporate Governance Guidelines**

The Board of Directors has adopted Corporate Governance Guidelines that give effect to the NYSE's requirements related to corporate governance and various other corporate governance matters. The Company's Corporate Governance Guidelines, as well as the charters of the Compensation, Nominating and Governance Committee and the Audit Committee, are available on the Company's website at [www.genpt.com](http://www.genpt.com) and are available in print by contacting the Corporate Secretary by mail at Genuine Parts Company, 2999 Circle 75 Parkway, Atlanta, Georgia, or by telephone at (770) 953-1700.

### **Non-Management Director Meetings and Presiding Independent Director**

Pursuant to the Company's Corporate Governance Guidelines, the Company's non-management directors meet separately from the other directors in regularly scheduled executive sessions at least annually and at such other times as may be scheduled by the Chairman of the Board or by the presiding independent director or as may be requested by any non-management director.

The independent directors serving on the Company's Board of Directors have appointed J. Hicks Lanier to serve as the Board's presiding independent director. During 2007, the independent directors held four meetings without management. Mr. Lanier presided over all of these meetings. Interested parties who wish to communicate with the

presiding independent director or the non-management directors as a group should follow the procedures found under Corporate Governance Shareholder Communications.

### **Director Nominating Process**

Shareholders may recommend a director nominee by writing to the Corporate Secretary specifying the nominee's name and the other required information set forth in the Company's Corporate Governance Guidelines, which are available on the Company's website at [www.genpt.com](http://www.genpt.com). All recommendations should include the written consent of the nominee to be nominated for election to the Company's Board of Directors. To be considered, recommendations must be received by the Company at least 120 calendar days prior to the date of the Company's proxy statement for the prior year's Annual Meeting of Shareholders and include all required information to be considered. In the case of the 2009 Annual Meeting of Shareholders, this deadline is November 1, 2008. All recommendations will be brought to the attention of the Compensation, Nominating and Governance Committee.

The Compensation, Nominating and Governance Committee annually reviews the appropriate experience, skills and characteristics required of Board members in the context of the current membership of the Board. This assessment includes, among other relevant factors in the context of the perceived needs of the Board at that time, issues of experience, reputation, judgment, diversity and skills.

The Company's Board of Directors has established the following process for the identification and selection of candidates for director. The Compensation, Nominating and Governance Committee, in consultation with the Chairman of the Board, shall periodically examine the composition of the Board and determine whether the Board would better serve its purposes with the addition of one or more directors. If the Compensation, Nominating and Governance Committee determines that adding a new director is advisable, the Committee shall initiate the search, working with other directors, management and, if it deems appropriate or necessary, a search firm retained to assist in the search. The Compensation, Nominating and Governance Committee will consider all appropriate candidates proposed by management, directors and shareholders. Information regarding potential candidates shall be presented to the Compensation, Nominating and Governance Committee, and the Committee shall evaluate the candidates based on the needs of the Board at that time and issues of experience, reputation, judgment, diversity and skills, as set forth in the Company's Corporate Governance Guidelines. Potential candidates will be evaluated according to the same criteria, regardless of whether the candidate was recommended by shareholders, the Compensation, Nominating and Governance Committee, another director, Company management, a search firm or another third party. The Compensation, Nominating and Governance Committee shall submit any recommended candidate(s) to the full Board of Directors for approval and recommendation to the shareholders.

### **Shareholder Communications**

The Company's Corporate Governance Guidelines provide for a process by which shareholders may communicate with the Board, a Board committee, the presiding independent director, the non-management directors as a group, or individual directors. Shareholders who wish to communicate with the Board, a Board committee or any such other individual director or directors may do so by sending written communications addressed to the Board of Directors, a Board committee or such individual director or directors, c/o Corporate Secretary, Genuine Parts Company, 2999 Circle 75 Parkway, Atlanta, Georgia 30339. This information is also available on the Company's website at [www.genpt.com](http://www.genpt.com). All communications will be compiled by the Secretary of the Company and forwarded to the members of the Board to whom the communication is directed or, if the communication is not directed to any particular member(s) of the Board, the communication shall be forwarded to all members of the Board of Directors.

### **Annual Performance Evaluations**

The Company's Corporate Governance Guidelines provide that the Board of Directors shall conduct an annual evaluation to determine, among other matters, whether the Board and the Committees are functioning effectively. The Audit Committee and the Compensation, Nominating and Governance Committee are also required to each conduct

an annual self-evaluation. The Compensation, Nominating and Governance Committee is responsible for overseeing this self-evaluation process. The Board, Audit Committee and Compensation, Nominating and Governance Committee each conducted an annual self-evaluation process during 2007.

## **Code of Conduct and Ethics**

The Board of Directors has adopted a Code of Conduct and Ethics for Employees, Contract and/or Temporary Workers, Officers and Directors and a Code of Conduct and Ethics for Senior Financial Officers, both of which are available on the Company's website at [www.genpt.com](http://www.genpt.com). These Codes of Conduct and Ethics comply with NYSE and Securities and Exchange Commission (the "SEC") requirements, including procedures for the confidential, anonymous submission by employees or others of any complaints or concerns about the Company or its accounting, internal accounting controls or auditing matters. The Company will also mail these materials to any shareholder who requests a copy. Requests may be made by contacting the Corporate Secretary as described above under "Corporate Governance Guidelines."

## **Board Attendance**

The Company's Corporate Governance Guidelines provide that all directors are expected to attend all meetings of the Board and committees on which they serve and are also expected to attend the Annual Meeting of Shareholders. During 2007, the Board of Directors held four meetings. All of the directors attended at least 75% of the aggregate number of meetings of the Board of Directors and meetings of committees of the Board on which they served. All of the Company's directors were in attendance at the Company's 2007 Annual Meeting.

## **Board Committees**

As part of its duties, the Audit Committee assists in the oversight of (a) management's assessment of, and reporting on, the effectiveness of internal control over financial reporting, (b) the independent auditor's integrated audit, which includes expressing an opinion on the conformity of the Company's audited financial statements with United States generally accepted accounting principles and (c) the independent auditor's audit of the Company's internal control over financial reporting, which includes expressing an opinion on the effectiveness of the Company's internal control over financial reporting. The Audit Committee oversees the Company's accounting and financial reporting process and has the authority and responsibility for the appointment, retention and oversight of the Company's independent auditors, including pre-approval of all audit and non-audit services to be performed by the independent auditors. The Audit Committee annually reviews and approves the firm to be engaged as independent auditors for the Company for the next fiscal year, reviews with the independent auditors the plan and results of the audit engagement, reviews the scope and results of the Company's procedures for internal auditing and monitors the design and maintenance of the Company's internal accounting controls. The Committee independently retains a compensation consultant, Hewitt Associates, to assist the Committee in its deliberations regarding executive compensation. The mandate of the consultant is to serve the Company and work for the Committee in its review of executive compensation practices, including the competitiveness of pay levels, design issues, market trends and technical considerations. Hewitt Associates has assisted the Committee with the development of competitive market data and a related assessment of the Company's executive compensation levels, design of long-term incentive grants and reporting of executive compensation under the SEC's proxy disclosure rules. Our Chairman, President and Chief Executive Officer, with input from our Senior Vice President Human Resources and Hewitt Associates, recommends to the Committee base salary, target bonus levels, actual bonus payouts and long-term incentive grants for our senior executives. ## EXECUTIVE COMPENSATION

### COMPENSATION DISCUSSION AND ANALYSIS

In this section, we will give an overview and analysis of our executive compensation program and policies, the material compensation decisions we have made under those programs and policies, and the material factors that we considered in making those decisions. Later in this proxy statement under the heading "Additional Information Regarding Executive Compensation" you will find a series of tables containing specific information about the

compensation earned or paid in 2007 to the following individuals, whom we refer to as our named executive officers:

Thomas C. Gallagher, Chairman, President and Chief Executive Officer

Jerry W. Nix, Vice Chairman and Chief Financial Officer

Larry R. Samuelson, President U.S. Automotive Parts Group

Robert J. Susor, Executive Vice President

Paul D. Donahue, Executive Vice President

The discussion below is intended to help you understand the detailed information provided in those tables and put that information into context within our overall compensation program.

### Compensation Philosophy and Objectives

Our overall goal in compensating executive officers is to attract, retain and motivate key executives of superior ability who are critical to our future success. We believe that both short-term and long-term incentive compensation paid to executive officers should be directly aligned with our performance, and that compensation should be structured to ensure that a significant portion of executives' compensation opportunities is directly related to achievement of financial and operational goals and other factors that impact shareholder value.

Our compensation decisions with respect to executive officer salaries, annual incentives, and long-term incentive compensation opportunities are influenced by (a) the executive's level of responsibility and function within the Company, (b) the overall performance and profitability of the Company and (c) our assessment of the competitive marketplace, including other peer companies. Our philosophy is to focus on total direct compensation opportunities through a mix of base salary, annual cash bonus and long-term incentives, including stock-based awards.

We also believe that the best way to directly align the interests of our executives with the interests of our shareholders is to make sure that our executives acquire and retain a significant level of stock ownership throughout their tenure with us. Our compensation program pursues this objective in two ways: through our equity-based long-term incentive awards and our stock ownership guidelines for our senior executives, as described in more detail below.

### Overview of Executive Compensation Components

The Company's executive compensation program consists of several compensation elements, as described in the table below.

<b>Pay Element</b>	<b>What the Pay Element Rewards</b>	<b>Purpose of the Pay Element</b>
<b>Base Salary</b>	Core competence in the executive role relative to skills, experience and contributions to the Company	Provide fixed compensation based on competitive market practice
	Contributions toward the Company's achievement of specified pre-tax profit	Provides focus on meeting annual goals that lead to our long-term success
<b>Annual Cash Incentive</b>		Provides annual performance-based cash incentive compensation
		Motivates achievement of critical annual performance metrics

<b>Pay Element</b>	<b>What the Pay Element Rewards</b> <u>Stock Appreciation Rights (SARs):</u>	<b>Purpose of the Pay Element</b> The combination of SARs and PRSUs provides a blended long-term focus on:
<b>Long-Term Incentives</b>	Sustained stock price appreciation, thereby aligning executives' interests with those of shareholders	Sustained stock price performance
	Continued employment with the Company during a three-year vesting period	Achievement of pre-tax profitability targets Executive ownership of our stock
	<u>Performance Restricted Stock Units (PRSUs):</u> Sustained pre-tax profitability (determines the number of PRSUs that are earned) Focus on our stock price performance Continued employment with the Company during a four-year vesting period (five years including the performance year)	Executive retention in a challenging business environment and competitive labor market
	Our executive officers are eligible to participate in employee benefit plans available to our eligible employees, including both tax-qualified and nonqualified retirement plans.	The Tax Deferred Savings Plan provides a voluntary tax-deferred retirement savings vehicle for our executive officers. The Tax Deferred Savings Plan is described in more detail on page 27 of this proxy statement.
<b>Retirement Benefits</b>	The Tax Deferred Savings Plan is a nonqualified voluntary deferral program that allows our executive officers to defer and invest a portion of their annual bonus.	The SRP provides a tax-deferred retirement savings alternative for amounts exceeding IRS limitations on qualified programs, and makes total retirement benefits for our executive officers commensurate with those available to our other employees as a percentage of pay. The SRP is described in more detail on page 26 of this proxy statement.
	The Supplemental Retirement Plan (SRP) is a nonqualified, noncontributory restoration program. The SRP applies only to persons whose annual earnings are expected to be equal to or greater than the IRS Code limitations, and is intended to make those employees whole on amounts the executive would have been entitled to receive under the regular pension plan had that plan not been limited by the IRS Code.	
<b>Welfare Benefits</b>	Executives participate in employee benefit plans generally available to our	These benefits are part of our broad-based total compensation program.

employees, including medical, health, life insurance and disability plans.

Continuation of welfare benefits may occur as part of severance upon certain terminations of employment.

<b>Pay Element</b>	<b>What the Pay Element Rewards</b>	<b>Purpose of the Pay Element</b>
<b>Additional Benefits and Perquisites</b>	<p>CEO only: Board-mandated requirement that the corporate aircraft be used for personal travel.</p> <p>CEO only: Selected club memberships</p>	<p>The Board requires that our CEO use the corporate aircraft for personal travel to accommodate security, availability and efficiency concerns.</p> <p>Club memberships facilitate the CEO's role as a Company representative in the community.</p>
<b>Change in Control and Termination Benefits</b>	<p>We have change in control agreements with certain officers, including our named executive officers. The agreements provide severance benefits if an officer's employment is terminated within two years after a change in control.</p>	<p>Change in control arrangements are designed to retain executives and provide continuity of management in the event of an actual or threatened change in control. The change in control agreements are described in more detail on page 27 of this proxy statement.</p>

The use of these programs enables us to reinforce our pay for performance philosophy, as well as strengthen our ability to attract and retain highly qualified executives. We believe that this combination of programs provides an appropriate mix of fixed and variable pay, balances short-term operational performance with long-term shareholder value and encourages executive recruitment and retention.

**Determination of Appropriate Pay Levels**

*Pay Philosophy and Competitive Standing*

In general, we seek to provide competitive pay by targeting the 50th percentile relative to a peer group for total direct compensation opportunities, including salary, target annual bonus, and long-term incentives. To achieve the 50th percentile positioning for the annual cash compensation component, we provide somewhat conservative base salaries and higher-than-average target bonus opportunities, to focus less on fixed pay and more on performance-based opportunities. Targeted annual cash bonus opportunities are based on our budgeted annual pre-tax profit goals, and may fluctuate from year-to-year.

With the assistance of an independent compensation consultant, Hewitt Associates, we collect and analyze competitive market data every year. This data is referenced when targeting the 50th percentile positioning for annual cash compensation discussed above. Data sources include public company proxy statements, published compensation surveys, and a private total compensation database maintained by Hewitt Associates. We compare compensation paid to our named executive officers with compensation paid to executive officers in comparable positions at similar companies (our Comparison Group). The Comparison Group includes companies from three industry segments in which we compete: automotive parts, industrial parts and office products. The study group includes companies that make up the Dow Jones Auto Parts and Equipment Index (with respect to the automotive parts segment), Applied Industrial Technologies, Inc. and Kaman Corporation (with respect to the industrial parts segment), and United Stationers Inc. (with respect to the office products segment). Competitive data is adjusted based on the Company's and/or relevant business unit's revenue size using regression analysis. This adjustment allows for more accurate comparisons to be made. In addition, Hewitt Associates also provides us with competitive pay information for a separate reference group of companies consisting of both local and industry competitors (either at the corporate or subsidiary level). While this information is helpful in assessing our competitive position among similar companies in the marketplace, we do not use this information to benchmark our targeted pay at the desired range relative to our

peers.

Hewitt Associates provides competitive data that allows the Company to make decisions regarding the setting of total compensation opportunities for each named executive. The Company has not routinely called upon Hewitt Associates to assist in determining actual compensation amounts for executives, but believes that its relationship with Hewitt Associates enables the Company and its Compensation, Nominating and Governance Committee to make appropriate decisions regarding the setting of compensation amounts.

### ***2007 Base Salary***

Our base salary levels reflect a combination of factors, including competitive pay levels relative to peer groups discussed above, the executive's experience and tenure, our overall annual budget for both merit increases and pre-tax profit, the executive's individual performance and changes in responsibility. We review salary levels annually to recognize these factors. We do not target base salary at any particular percent of total compensation.

As noted above, our compensation philosophy targets base salaries that are somewhat below market for comparable positions. The base salaries of our named executive officers compared to competitive benchmarking reflect our conservative philosophy. Base salary increases for 2007 are consistent with marketplace data and practice, and consistent with pay increase budgets provided to our subsidiaries for 2007. Base salary increases granted to Messrs. Nix, Samuelson and Susor for 2007 ranged from 3.6 to 4.3 percent and were established after considering job performance, internal pay alignment and equity, and marketplace competitiveness. To ensure appropriate pay alignment with his peers and recognize the increased responsibilities of his new assignment, Mr. Donahue's base salary was increased by 6.1 percent as the result of his promotion to Executive Vice President at our Corporate office effective June 2007, after previously serving as President and Chief Operating Officer of our office products subsidiary S.P. Richards. Mr. Donahue's base pay had previously been increased by 4.1 percent on January 1, 2007. Mr. Gallagher's base pay for 2007 was increased by 4.4 percent after taking into account the above factors plus the fact that his base salary in 2006 was considerably below base salaries paid to peers at similar size companies.

### ***2007 Annual Incentive Plan***

Our Annual Incentive Plan (the "Annual Incentive Plan") provides our executive officers with an opportunity to earn annual cash bonuses based on our achievement of certain pre-established performance goals. As in setting base salaries, we consider a combination of factors in establishing the annual target bonus opportunities for our named executive officers. Budgeted pre-tax profit is the primary factor, as target bonus opportunities are adjusted annually when we set our pre-tax profit goals for the year. We do not target annual bonus opportunities at any particular percentage of total compensation.

As mentioned above, we set higher than average target bonus opportunities relative to our Comparison Group so that, when combined with conservative salary levels, the targeted annual cash compensation of our executive officers is near the 50th percentile relative to our Comparison Group based on competitive benchmarking by Hewitt Associates. Actual cash compensation levels may exceed the 50th percentile to the extent actual performance exceeds our annual performance goals.

For Messrs. Gallagher, Nix and Susor, we set annual bonus opportunities for 2007 based on achievement of performance goals relating to pre-tax profits of the Company, which we believe has a strong correlation with shareholder value. The profit goals for the Company are determined by aggregating profit goals for the Company's subsidiaries, which are each set based upon (i) prior year performance by store, branch, or distribution center; (ii) the overall economic outlook of the region served by a particular store, branch, or distribution center; and (iii) specific market conditions. We set the profit goals for 2007 bonus opportunities at levels that are intended to reflect improvements in performance over the prior fiscal year and better than average growth within our competitive industry.

Mr. Donahue's annual bonus opportunity for 2007 was based upon a minimum guarantee of \$425,000 due to his promotion to Executive Vice President effective June 2007, after previously serving as President and Chief Operating Officer of S.P. Richards. The bonus amount was determined by considering Mr. Donahue's bonus opportunity in his previous position compared to the duties and responsibilities of his new position, along with appropriate pay alignment with other executives in the Company.

Mr. Samuelson's annual bonus opportunity for 2007 was based on profit, sales, and inventory turnover goals relating to our Automotive Parts Group (APG) and UAP Inc. (UAP), weighted 50% for profit, 30% for sales, and 20% for inventory turnover. While our other named executive officers have duties and responsibilities relating to the overall company, Mr. Samuelson's efforts are more focused as President of APG and Vice Chairman and Chief Executive Officer of UAP. Therefore, we believe it is appropriate to base his bonus opportunities on performance goals relating to the results of APG and UAP.

Once performance goals have been set and approved, the Compensation, Nominating and Governance Committee then sets a range of bonus opportunities for each named executive officer based on achievement of such goals. Target bonus opportunities for 2007 were set as a percentage of each named executive officer's base salary, as follows: Mr. Gallagher, 172.81%; Mr. Nix, 116.67%; Mr. Samuelson, 95%; and Mr. Susor, 101.23%. Mr. Donahue's guarantee was 106.25% of base salary. These targets reflect the Company's philosophy of providing higher-than-average bonus opportunities relative to our Comparison Group.

The performance goals set for each executive officer, along with the base salary increase granted, allow the calculation of target bonus opportunities to occur. After the Company's profit goals are determined, total cash compensation targets are set to establish a correlation with the Company's profit and performance goals. Base salaries are then determined with increase amounts generally commensurate with increases granted to employees throughout the Company, as well as marketplace pay increase percentages. The executive's resultant base salary is then compared to their target total cash compensation. The difference between base salary and target total cash compensation is typically established as the executive's target bonus opportunity. This methodology directly reinforces the Company's pay-for-performance philosophy.

Actual bonus amounts for 2007 were determined based on relative achievement of the performance goals. Messrs. Gallagher, Nix and Susor were eligible to earn from 40% of their target bonus amount (if the Company achieved 85% of its pre-tax profits goal) to 150% of their target bonus amount (if the Company achieved 110% of its pre-tax profits goal). No bonus is earned if performance falls below 85% of the pre-tax profit goal. See the table below.

<b>Pre-Tax Profit as a % of Profit Goal</b>	<b>% of Target Bonus</b>
Below 85%	0%
85%	40%
100%	100%
110%	150%
Above 110%	150%

Straight-line interpolation is used between data points.

For Mr. Samuelson, the performance range varies based on the performance measure. The performance range for APG and UAP profit vs. quota was 85% to 120%, the range for APG and UAP sales vs. quota was 90% to 105%, and the range for APG and UAP inventory turnover vs. quota was 85% to 115%. The corresponding bonus opportunity as a percentage of target ranged from 15% to 150% for each performance measure, depending on the achievement level. No bonus is earned if performance falls below the minimum requirement for any performance measure. See the table below.

<b>Pre-Tax Profit as a % of Quota</b>	<b>% of Target Bonus x 50% (Pre-Tax Profit)</b>	<b>Sales as a % of Quota</b>	<b>% of Target Bonus x 30% (Sales)</b>	<b>Inventory Turnover as a % of Quota</b>	<b>% of Target Bonus x 20% (Inventory Turnover)</b>
Below 85%	0%	Below 90.0%	0.0%	Below 85%	0%
85%	15%	90.0%	15.0%	85%	15%
100%	100%	100.0%	100.0%	100%	100%

120%	150%	105.0%	150.0%	115%	150%
Above 120%	150%	Above 105.0%	150.0%	Above 115%	150%

Straight-line interpolation is used between data points.

The bonus formulas under the Annual Incentive Plan are applied strictly. The Committee does not exercise discretion to increase bonus payments for the named executive officers (although it could exercise discretion to reduce the actual bonus amounts).

For 2007, the Company's pre-tax profit was below the target level set for executive officer incentive bonuses, resulting in bonus payments equal to 92% of the target bonus opportunity for Messrs. Gallagher, Nix and Susor. APG and UAP achieved profit, sales and inventory turnover results below the target levels set for Mr. Samuelson's

incentive bonus, resulting in a bonus payment equal to 50% of Mr. Samuelson's target bonus opportunity. Mr. Donahue's guarantee, as previously mentioned, resulted in a bonus payment equal to 100% of the target opportunity.

For additional information about the Annual Incentive Plan, please refer to the "Grants of Plan-Based Awards" table, which shows the threshold, target and maximum bonus amounts payable under the plan for 2007, and the Summary Compensation Table, which shows the actual amount of bonuses paid under the plan to our named executive officers for 2007.

### ***2007 Long-Term Incentives***

During 2007, the Compensation, Nominating and Governance Committee approved long-term equity-based incentive compensation to our executive officers in the form of Stock Appreciation Rights (SARs) and Performance Restricted Stock Units (PRSUs). We believe these grants are effective for aligning executive performance and achievement with shareholder interests.

**SARs:** Each SAR represents the right to receive upon exercise an amount, payable in shares of common stock, equal to the excess, if any, of the fair market value of our common stock on the date of exercise over the base value of the grant. The SARs were granted with a base value equal to the closing stock price on the date the Committee approved the award. The SARs vest in equal annual installments on the first three anniversaries following the grant date and have a ten-year exercise period.

**PRSUs:** The PRSUs represent the right to earn and receive a number of shares of our common stock in the future, based on the level of the Company's 2007 pre-tax profit performance. If the Company achieves 100% or greater of its 2007 pre-tax profit goal, 100% of the PRSUs will be earned. If the Company achieves at least 95% of its 2007 pre-tax profit goal, 50% of the PRSUs will be earned. If the Company achieves less than 95% of its 2007 pre-tax profit goal, then no PRSUs will be earned. To the extent the PRSUs are earned, they are subject to a mandatory four-year vesting schedule (e.g., for PRSUs granted in 2007, shares of restricted stock will be earned in 2008 based on 2007 performance and will vest on December 31, 2011). Dividends declared after the restricted shares are earned are accrued and converted into additional shares of stock at the end of the vesting period.

The Committee continues to target a long-term incentive mix of 60% SAR value and 40% PRSU value. This approach is in line with the market practice of using more than one type of award to provide long-term incentives. The main objectives of the programs are to:

Provide pay-for-performance opportunities and reinforce a high performance culture;

Align interests of our executives with our shareholders;

Establish goals and standards that motivate our executive officers to enhance shareholder value; and

Be simple, straightforward, and transparent.

In general, the number of SARs and PRSUs awarded to our named executive officers is determined by targeting a value that is below the median value of long-term incentive compensation based on competitive market data provided by Hewitt Associates. Adjustments may be made to reflect job performance and address any internal equity issues that may exist. Determining long-term incentive awards in this manner assists us in achieving our target total compensation objectives and is consistent with our total compensation philosophy.

Grants to our named executive officers have historically been determined by considering the following factors:

Competitive market data, defined by the competitive award levels summarized in Hewitt's annual executive compensation study;

The officer's responsibility level;

The officer's specific function within the overall organizational structure;

The Company's profitability, including the impact of FAS 123R accounting on the cost of the programs; and

The number and amount of awards currently held by the executive officer (we continue to review this as part of our administration of stock ownership guidelines discussed below).

The number of SARs and PRSUs granted to our named executive officers in 2007 was the same as the number of awards granted in 2006, with the exception of Mr. Donahue, who received an increased number of both SARs and PRSUs in recognition of his promotion and Mr. Samuelson, who received 10% fewer SARs based upon overall APG and UAP performance in 2006. The Committee engages Hewitt Associates annually to review competitive long-term incentive grant levels, and we intend to continue to closely monitor our competitive position, program alternatives and the financial implications to the Company. Please refer to the Grants of Plan-Based Awards and Outstanding Equity Awards at Fiscal Year-End tables and the related footnotes for additional information about long-term stock awards.

### **Change in Control Arrangements**

The Company believes that severance protections, particularly in the context of a change in control transaction, can play a valuable role in attracting and retaining key executive officers. Accordingly, the Company has entered into change in control agreements with each of the named executive officers. Information regarding these agreements and the benefits they provide is included in the Post Termination Payments and Benefits section beginning on page 27 of this Proxy Statement.

The Compensation Committee evaluates the level of severance benefits to each such officer on a case-by-case basis, and in general, we consider these severance protections an important part of our executives' compensation and consistent with competitive practices.

We believe that the potential occurrence of a change in control transaction would create uncertainty regarding the continued employment of our executive officers. This uncertainty results from the fact that many change in control transactions result in significant organizational changes, particularly at the senior executive level. In order to encourage our senior executive officers to remain employed with the Company during an important time when their prospects for continued employment are often uncertain, we provide our executive officers with severance benefits if the executive's employment is terminated by the Company without cause or by the executive for good reason in connection with a change in control. Because we believe that a termination by the executive for good reason may be conceptually the same as a termination by the Company without cause, and because we believe that in the context of a change in control, potential acquirors would otherwise have an incentive to constructively terminate the executive's employment to avoid paying severance, we believe it is appropriate to provide severance benefits in these circumstances.

### **Factors Considered in Decisions to Materially Increase or Decrease Compensation**

Market data, individual performance, retention needs and internal pay equity have been the primary factors considered in decisions to adjust compensation materially. We do not target any particular weight for base salary, annual bonus and long-term incentive as a percent of total direct compensation. We tend to follow market practice in allocating between the various forms of compensation, but with greater emphasis on performance-based incentive bonus opportunities. We use an approximate 60/40 mix with regard to SAR and PRSU grant value, to balance retention and performance.

### **Timing of Compensation**

Base salary adjustments, annual incentive plan payments, and SAR/PRSU grants were made at the March 27, 2007 meeting of the Compensation, Nominating and Governance Committee. We do not coordinate the timing of equity

award grants with the release of material non-public information. The exercise price for SARs is established at the fair market value of the closing price of our stock on the date the Committee approves the grant.

**Stock Ownership Guidelines**

We have adopted stock ownership guidelines for the named executive officers identified above and for other key executives designated by the Compensation, Nominating and Governance Committee. The ownership

guidelines are reviewed at least annually by the Compensation, Nominating and Governance Committee, which also has the authority to evaluate whether exceptions should be made for any executive on whom the guidelines would impose a financial hardship. The current guidelines as determined by the Committee include: (i) CEO ownership equal to seven times prior year's salary; and (ii) other covered executives' ownership equal to one to three times prior year's salary.

The covered executives have a period of five years in which to satisfy the guidelines, either from the date of adoption of the policy in November 2006, or the date of appointment to a qualifying position, whichever is later. Shares counted toward this requirement will be based on shares beneficially owned by such executive (as beneficial ownership is defined by the SEC's rules and regulations) including PRSUs, but excluding unexercised options and measured against the average year-end stock price for the preceding three fiscal years. The guidelines also call for the covered executive to retain 50% of the net shares obtained through the exercise of options or when a restricted stock award vests for at least six months. The covered executives are encouraged to retain stock ownership per the guidelines for a period of six months following the date of retirement.

### **Impact of Accounting and Tax Treatments of Compensation**

The accounting and tax treatment of compensation generally has not been a factor in determining the amounts of compensation for our executive officers. However, the Committee and management have considered the accounting and tax impact of various program designs to balance the potential cost to the Company with the benefit/value to the executive.

With regard to Code Section 162(m), it is the Committee's intent to maximize deductibility of executive compensation while retaining some discretion needed to compensate executives in a manner commensurate with performance and the competitive landscape for executive talent. The Annual Incentive Plan has been approved by shareholders and is designed to qualify as performance-based to be fully deductible by the Company. The 2006 Long-Term Incentive Plan is approved by shareholders and permits the award of stock options, SARs and other performance-based equity awards that are fully deductible under Code Section 162(m).

With the adoption of FAS 123R, we do not expect accounting treatment of differing forms of equity awards to vary significantly and, therefore, accounting treatment is not expected to have a material effect on the selection of forms of equity compensation in the future.

### **Role of Executive Officers in Determining Compensation**

Our Chairman, President and Chief Executive Officer, with input from our Senior Vice President - Human Resources, recommends to the Committee base salary, target bonus levels, actual bonus payouts and long-term incentive grants for our senior officer group (other than himself). Mr. Gallagher makes these recommendations to the Committee based on data and analysis provided by our independent compensation consultant and qualitative judgments regarding individual performance. Mr. Gallagher is not involved with any aspect of determining his own compensation.

(1) Represents the proportionate amount of the total fair value of stock and option awards recognized by the Company as an expense in 2007 for financial accounting purposes, disregarding for this purpose the estimate of forfeitures related to service-based vesting conditions. The fair values of these awards and the amounts expensed in 2007 were determined in accordance with Financial Accounting Standards Board Statement of Financial Accounting Standards No. 123 (revised 2004) *Share-Based Payment* (FAS 123R). The awards for which expense is shown in this table include the awards described in the Grants of Plan-Based Awards table beginning on page 21 of this Proxy Statement, as well as awards granted in 2004, 2005 and 2006 for which we continued to recognize expense in 2007. The assumptions used in determining the grant date fair values of the option awards are set forth in the notes to the Company's consolidated financial statements, which are included in our Annual Report on Form 10-K for the year ended December 31, 2007 (with respect to option awards granted in 2007, 2006 and 2005) and in our Annual Report on Form 10-K for the year ended December 31, 2006 (with respect to option awards granted in 2004) each filed with the SEC.

(2) Reflects the value of cash incentive bonuses earned under our Annual Incentive Plan.

(3)

Reflects the increase during 2007 in actuarial present values of each executive officer's accumulated benefits under our Pension Plan and our Supplemental Retirement Plan, and with respect to Mr. Gallagher, our Original Deferred Compensation Plan.

- (4) Amounts reflected in this column include 401(k) matching contributions in the amount of \$2,700 for each named executive officer. The amount shown for Mr. Gallagher also includes his personal use of company aircraft (\$112,273), club membership dues (\$8,526) and tax gross-ups on his personal aircraft use (\$39,690). The incremental cost to the Company of the personal use of company aircraft is calculated based on the average variable operating costs to the Company. Variable operating costs include fuel costs, mileage, maintenance, crew travel expenses, catering and other miscellaneous variable costs. The total annual variable costs are divided by the annual number of miles the Company aircraft flew to derive an average variable cost per mile. This average variable cost per mile is then multiplied by the miles flown for personal use to derive the incremental cost. The fixed costs that do not change based on usage, such as pilot salaries, the lease costs of the company aircraft, hangar expense for the home hangar, and general taxes and insurance are excluded from the incremental cost calculation. When Company aircraft is being used for mixed business and personal use, only the incremental cost of the personal use is included, such as on-board catering or other charges attributable to an extra passenger traveling for personal reasons on an aircraft being primarily used for a business trip. The Board of Directors mandates that the Company's Chief Executive Officer use corporate aircraft for personal travel to accommodate security, availability and efficiency concerns.

- (5) On August 20, 2007, Mr. Donahue was named Executive Vice President by the Board of Directors. Previously, Mr. Donahue served as President and Chief Operating Officer of the Company's office products subsidiary, S.P. Richards.

- (1) Represents threshold, target and maximum payout levels under the Annual Incentive Plan for 2007 performance. The actual amount of incentive bonus earned by each named executive officer in 2006 and 2007 is reported under the Non-Equity Incentive Plan Compensation column in the Summary Compensation Table. Additional information regarding the design of the Annual Incentive Plan is included in the Compensation Discussion and Analysis beginning on page 11.

(2)

Represents threshold, target and maximum number of performance-based restricted stock units ( PRSUs ) to be earned on December 31, 2007 based on the Company's achievement of pre-tax profit goals. If the Company achieves 100% or greater of its 2007 pre-tax profit goal, 100% of the PRSUs will be earned. If the Company achieves at least 95% of its 2007 pre-tax profit goal, 50% of the PRSUs will be earned. If the Company achieves less than 95% of its 2007 pre-tax profit goal, then no PRSUs will be earned. Each PRSU that is earned represents a contingent right to receive one share of Company Common Stock in the future. PRSUs earned for the 2007 fiscal year will vest and be settled in shares of Common Stock on December 31, 2011 (or earlier upon a change in control of the Company) provided the executive is still employed by the Company, subject to earlier vesting in the event of (i) the executive's retirement from the Company or (ii) the executive's employment with the Company is terminated due to death or disability. Dividends paid on the Company's Common Stock after the PRSUs are earned will accrue with respect to the PRSUs and will convert into additional shares of stock at the end of the vesting period. Additional information regarding the PRSUs and the Company's long-term incentive program is included in the Compensation Discussion and Analysis beginning on page 11.

- (3) Each stock appreciation right ( SAR ) represents the right to receive from the Company upon exercise an amount, payable in shares of Common Stock, equal to the excess, if any, of the fair market value of one share of Common Stock on the date of exercise over the base value per share. The SARs were granted with a base value equal to the fair market value of the Company's Common Stock on the date of grant. The SARs vest in equal annual installments on each of the first three anniversaries of the grant date, subject to accelerated vesting upon a termination of employment due to death, disability or retirement more than one year after the date of grant of the SAR or upon a change in control of the Company. The SARs granted on March 27, 2007 will expire on March 27, 2017 or earlier upon termination of employment. Additional information regarding the SARs and the

Company's long-term incentive program is included in the Compensation Discussion and Analysis beginning on page 11.

- (4) Represents the grant date fair value of the award determined in accordance with FAS 123R. Grant date fair value for the PRSUs is based on the grant date fair value of the underlying shares. Grant date fair value for SARs is based on the Black-Scholes option pricing model for use in valuing executive stock options. The actual value, if any, that a named executive officer may realize upon exercise of SARs will depend on the excess of the stock price over the base value on the date of exercise, so there is no assurance that the value realized by a named executive officer will be at or near the value estimated by the Black-Scholes model. The assumptions used in determining the grant date fair values of these awards are set forth in the notes to the Company's consolidated financial statements, which are included in our Annual Report on Form 10-K for the year ended December 31, 2007 filed with the SEC.

The Pension Benefits table provides information regarding the number of years of credited service, the present value of accumulated benefits and any payments made during the last fiscal year with respect to The Genuine Parts Company Pension Plan (the Pension Plan), the Supplemental Retirement Plan (the SRP), and The Genuine Parts Company Original Deferred Compensation Plan (the ODCP).

The Pension Plan is a broad based, tax-qualified defined benefit pension plan, which provides a benefit upon retirement to eligible employees of the Company. In general, all employees except leased employees, independent contractors and certain collectively-bargained employees are eligible to participate. Benefits are based upon years of service with the Company and the average of the highest five years of earnings out of the last ten years. Earnings are generally based on total pay (generally W-2 compensation plus pre-tax salary deferrals), but do not include amounts of deferred compensation. The service amounts shown in the table above for the Pension Plan and the SRP represent actual years of service with the Company. No additional years of credited service have been granted to the named executive officers under the Pension Plan.

Several forms of benefit payments are available under the Pension Plan. The Pension Plan offers a life annuity option, 50%, 75%, and 100% joint and survivor options, and a 10-year certain and life annuity option. Minimum lump sum distributions of benefits are available if less than or equal to \$5,000. The payout option must be elected by the participant before benefit payments begin. Each option available under the Pension Plan is actuarially equivalent.

The pension benefit payable under the Pension Plan is the greater of two benefits. The first benefit is a percentage of the participant's average earnings on his normal retirement date (which is considered to be age 65 with at least five years of participation service), less 50% of his monthly Social Security benefit. The applicable percentage is based on years of credited service at normal retirement and increases by 0.5% per year of credited service from 40% at 15 years of service to 55% at 45 or more years of service. The second benefit is 30% of the

participant's average earnings. Only the second benefit is available to participants with less than 15 years of credited service at normal retirement. For such individuals, 30% of the participant's average earnings are multiplied by a fraction with the numerator equal to credited service at normal retirement (not to exceed 180 months) and the denominator equal to 180.

Early retirement benefit payments are available under the Pension Plan to participants upon attainment of age 55 and completion of 15 years of credited service. As of December 31, 2007, Messrs. Gallagher, Nix, Samuelson and Susor were eligible for early retirement benefits. A participant's full benefit under the Pension Plan is payable at age 65 with at least five years of participation service, which is considered normal retirement. Benefits are reduced by 6.0% for each year of payment before normal retirement for participants who earned at least 15 years of credited service under the Pension Plan. For participants with less than 15 years of credited service, termination benefits are calculated in the same manner as normal retirement benefits, except that the benefit is reduced by the ratio of credited service at termination to credited service at normal retirement date, determined as if the participant had continued in employment until his or her normal retirement. Participants are fully vested in benefits after seven years of service, with partial vesting after three years of service. Participants may earn up to two years of additional benefit service while disabled and receiving long term disability benefits from The Genuine Parts Company Long Term Disability Plan. A 50% survivor annuity is payable to a participant's spouse upon death prior to retirement. A surviving spouse may waive the 50% joint and survivor death benefit and elect instead to receive a benefit from The Genuine Parts Company Death Benefit Plan.

The SRP is a nonqualified defined benefit pension plan which covers pay and benefits above the qualified limits in the Pension Plan. In addition, pension benefits that would have been earned under the Pension Plan had compensation not been deferred are provided by the SRP. Otherwise, the provisions of the SRP are generally the same as those of the Pension Plan, except benefits are payable only for retirement, death or change in control. A participant who is eligible for early retirement under the Pension Plan and terminates employment due to a change in control will receive and immediate lump sum payment of any benefits due from the SRP. Benefits earned under the SRP are paid from Company assets, and are grossed-up for any FICA taxes due. Executives sign a joinder agreement to become participants in the SRP. The participant irrevocably elects his optional form of benefit payment upon joining this plan.

Amounts reported above as the actuarial present value of accumulated benefits under the Pension Plan and the SRP are computed using the interest and mortality assumptions that the Company applies to amounts reported in its financial statement disclosures, and are assumed to be payable at age 65. The interest rate assumption for 2007 is 6.50% for the Pension Plan and 6.25% for the SRP. The mortality table assumption for the Pension Plan is the RP 2000 Mortality Table, with a blue collar adjustment, and with mortality improvements projected to 2006 using Scale AA. The mortality table assumption for the SRP is the same except that no blue collar adjustment is applied. SRP benefits have been adjusted by 1.45% to account for estimated FICA tax gross-ups.

The ODCP is a nonqualified plan that provides an annuity benefit, funded partially by executive salary deferrals. Mr. Gallagher is the only named executive officer in this plan, and his annual salary deferrals total \$9,441 for these benefits. The retirement benefit is derived by converting the account balance at the retirement date to an annuity, using insurance company annuity tables applicable to individuals of similar age and risk categories. The annuity is then doubled to arrive at the retirement benefit amount. The retirement benefit is payable as a 10-year certain and life annuity at age 65 for normal retirement, or at age 55 with 15 years of service for early retirement. Mr. Gallagher is currently eligible for early retirement benefits under the ODCP. There is a minimum benefit guarantee of \$40,000 per year for normal retirement, and also a specified death and disability benefit of \$3,333 per month. These benefits are payable from Company assets. The service amount shown in the table represents the period during which Mr. Gallagher has been making salary deferrals for benefits provided by the ODCP. Amounts reported as the actuarial present value of accumulated benefits under the ODCP are computed based on insurance company estimates of benefit amounts payable at age 65 and the interest and mortality assumptions the Company uses for purposes of financial

statement disclosures of the SRP referred to above.

- (1) Reflects deferrals under the Company's Tax Deferred Savings Plan of incentive bonuses earned for 2006 and paid to the named executive officers in 2007. These amounts are not reported as 2007 compensation in the Summary Compensation Table.
- (2) Includes the following amounts of contributions to the Tax Deferred Savings Plan by the named executive officers that were previously reported as compensation to the named executive officers in the Company's Summary Compensation Table for previous years: Mr. Gallagher, \$100,000; Mr. Nix, \$254,934; Mr. Samuelson, \$0; Mr. Susor, \$74,356; Mr. Donahue, \$84,723.

The Genuine Parts Company Tax Deferred Savings Plan is a nonqualified deferred compensation plan pursuant to which the named executive officers may elect to defer up to 100% of their annual incentive bonus. Deferral elections are due by June 30 of each year, and are irrevocable. These deferral elections are for the bonus earned during that year, which would otherwise be payable in February of the following year. Deferrals are held for each participant in separate individual accounts in an irrevocable rabbi trust. Deferred amounts are credited with earnings or losses based on the rate of return of mutual funds selected by the executive, which the executive may change at any time. Payment begins on the first day of the seventh month following the executive's termination of service. The executive must also make an irrevocable election regarding payment terms, which may be either a lump sum, or installments of five (5), ten (10), or fifteen (15) years. Hardship withdrawals are available for unforeseeable emergency financial hardship situations. If a participant dies before receiving the full value of the deferral account balances, the designated beneficiary would receive the remainder of that benefit in the same payment form as originally specified (i.e., lump sum or installments). All accounts would be immediately distributed upon a change in control of the Company.

**POST TERMINATION PAYMENTS AND BENEFITS**

*Benefits to Named Executive Officers in the Event of a Change in Control.* The Company does not have employment agreements with any of its executive officers. The Company has entered into change in control agreements with certain executive officers, including the named executive officers. These agreements provide severance payments and benefits to the executive if his employment is terminated within two years after a change in control of the Company, if the change in control occurs during the term of the agreement. The change in control agreements have a three year term with automatic annual extensions unless either party gives notice of non-renewal.

Under each of the change in control agreements, if the executive is terminated by the Company without cause or the executive resigns for good reason (as such terms are defined in the agreement), he will receive a pro rata bonus for the year of termination, plus a lump sum severance payment equal to a multiple (three in the case of Messrs. Gallagher, Nix and Susor, and two in the case of Messrs. Donahue and Samuelson) of the executive's then-current annual salary and the average of the annual bonuses he received in the three years prior to the year of termination. In addition, the Company will continue to provide the executive with group health coverage for a period of 24 months.

If the executive's employment is terminated by the Company for cause or he resigns without good reason, the agreement will terminate without further obligation of the Company other than the payment of any accrued but unpaid salary or benefits. In the case of death, disability or retirement, the executive, or his estate, would be entitled

to payment of any accrued but unpaid salary or benefits, plus a pro rata bonus for the year in which the termination occurred.

The change in control agreements provide for a gross-up of applicable excise tax imposed under Section 4999 of the Internal Revenue Code, provided that amounts determined to be parachute payments exceed 110% of the amount that could be paid without triggering the excise tax. If the parachute payments are less than that threshold amount, the payments will be limited to the maximum amount that could be paid without triggering the excise tax.

*Summary of Termination Payments and Benefits.* The following tables summarize the value of the termination payments and benefits that our named executive officers would receive if they had terminated employment on December 31, 2007 under the circumstances shown. The tables exclude (i) amounts accrued through December 31, 2007 that would be paid in the normal course of continued employment, such as accrued but unpaid salary and earned annual bonus for 2007 and (ii) vested account balances under our Partnership Plan, which is a 401(k) plan that is generally available to all of our salaried employees.

Compensation payable to the Company's non-employee directors is evaluated and determined by the Company's full Board of Directors. Non-employee directors of the Company are paid \$8,750 per quarter in compensation for service as director, plus \$1,250 per board and committee meeting attended, except that the Chairmen of the Audit Committee and the Compensation, Nominating and Governance Committee are paid \$10,000 per quarter and \$1,250 per board and committee meeting attended. Non-employee directors may elect to defer the receipt of meeting and/or director fees in accordance with the terms of the Company's Directors' Deferred Compensation Plan. ### TRANSACTIONS WITH RELATED PERSONS

The Company recognizes that transactions between the Company and any of its directors or executives can present potential or actual conflicts of interest and create the appearance that Company decisions are based on considerations other than the best interests of the Company and its shareholders. Therefore, as a general matter and in accordance with the (1) the Code of Conduct and Ethics for Employees, Officers, Contract and/or Temporary Workers and Directors of Genuine Parts Company and (2) the Company's Code of Conduct and Ethics for Senior Financial Officers,

it is the Company's preference to avoid such transactions. Nevertheless, the Company recognizes that there are situations where such transactions may be in, or may not be inconsistent with, the best interests of the Company. Therefore, the Company has adopted a formal policy which requires the Company's Compensation, Nominating and Governance Committee to review and, if appropriate, to approve or ratify any such transactions. Pursuant to the policy, the Committee will review any transaction in which the Company is or will be a

participant and the amount involved exceeds \$120,000, and in which any of the Company's directors or executives had, has or will have a direct or indirect material interest. After its review the Committee will only approve or ratify those transactions that are in, or are not inconsistent with, the best interests of the Company and its shareholders, as the Committee determines in good faith.

## **PROPOSAL 2 RATIFICATION OF SELECTION OF INDEPENDENT AUDITORS**

The Audit Committee of the Board of Directors has selected Ernst & Young LLP as the Company's independent auditors for the current fiscal year ending December 31, 2008. The Audit Committee has also pre-approved the engagement of Ernst & Young LLP to provide federal, state and international tax return preparation, advisory and related services to the Company during 2008. Although ratification by the shareholders of the selection of Ernst & Young LLP as the Company's independent auditors is not required by law or by the Bylaws of the Company, the Audit Committee believes it is appropriate to seek shareholder ratification of this appointment in light of the critical role played by the independent auditors in auditing the Company's financial statements and the effectiveness of internal control over financial reporting. If this selection is not ratified at the Annual Meeting, the Audit Committee intends to reconsider its selection of independent auditors for the fiscal year ending December 31, 2008.

Ernst & Young LLP served as the Company's independent auditors for the fiscal year ended December 31, 2007. Representatives of that firm are expected to be present at the Annual Meeting and will have an opportunity to make a statement if they desire to do so and to respond to appropriate questions.

### **Audit and Non-Audit Fees**

*Audit Fees.* The aggregate fees billed by Ernst & Young LLP for professional services rendered for the audit of the Company's financial statements for 2006 and 2007, the auditor's report on the effectiveness of internal control over financial reporting as of December 31, 2006 and 2007 and for the reviews of the Company's financial statements included in the Company's quarterly reports on Form 10-Q filed with the SEC during 2006 and 2007 were approximately \$4.6 million and \$4.3 million, respectively.

*Audit Related Fees.* The aggregate fees billed by Ernst & Young LLP for 2006 and 2007 for assurance and related services that are reasonably related to the performance of the audit or review of the Company's financial statements and are not reported above under the caption "Audit Fees" were approximately \$72,000 and \$140,000, respectively. These services primarily related to the Company's benefit plans and audit consultations.

*Tax Fees.* The aggregate fees billed by Ernst & Young LLP for 2006 and 2007 for professional services rendered for tax compliance and tax advice for the Company were \$1.7 million and \$2.4 million, respectively.

*All Other Fees.* No fees were billed by Ernst & Young LLP for professional services rendered during 2006 and 2007 other than as stated above under the captions "Audit Fees," "Audit Related Fees" and "Tax Fees."

### **Audit Committee Pre-Approval Policy**

Under the Audit Committee's Charter and Pre-Approval Policy, the Audit Committee is required to approve in advance the terms of all audit services as well as all permissible audit related and non-audit services to be provided by the independent auditors. Unless a service to be provided by the independent auditors has received approval under the Pre-Approval Policy, it will require specific pre-approval by the Audit Committee. The Pre-Approval Policy is detailed as to the particular services to be provided, and the Audit Committee is to be informed about each service provided. Non-audit services may be approved by the Chairman of the Committee and reported to the full Audit

Committee at its next meeting but may not be approved by the Company's management. The term of any pre-approval is twelve months unless the Audit Committee specifically provides for a different period.

The Audit Committee will approve the annual audit engagement terms and fees prior to the commencement of any audit work other than that necessary for the independent auditor to prepare the proposed audit approach, scope and fee estimates. The Audit Committee also will approve changes in terms, conditions and fees resulting from

changes in audit scope, Company structure or other items, if any. In the event audit related or non-audit services that are pre-approved under the Pre-Approval Policy have an estimated cost in excess of certain dollar thresholds, these services require specific pre-approval by the Audit Committee or by the Chairman of the Audit Committee.

In determining the approval of services by the independent auditors, the Audit Committee or its Chairman evaluates each service to determine whether the performance of such service would (a) impair the auditor's independence; (b) create a mutual or conflicting interest between the auditor and the Company; (c) place the auditor in the position of auditing its own work; (d) result in the auditor acting as management or an employee of the Company; or (e) place the auditor in a position of being an advocate for the Company.

All of the services described above under the captions *Audit Fees*, *Audit Related Fees* and *Tax Fees* were approved by the Company's Audit Committee pursuant to legal requirements and the Company's Audit Committee Charter and Pre-Approval Policy.

### **Audit Committee Review**

The Audit Committee has reviewed the services rendered by Ernst & Young LLP during 2007 and has determined that the services rendered are compatible with maintaining the independence of Ernst & Young LLP as the Company's independent auditors.

**THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE RATIFICATION OF THE SELECTION OF ERNST & YOUNG LLP AS INDEPENDENT AUDITORS FOR THE FISCAL YEAR ENDING DECEMBER 31, 2008. PROXIES RECEIVED BY THE BOARD OF DIRECTORS WILL BE SO VOTED UNLESS SHAREHOLDERS SPECIFY IN THEIR PROXIES A CONTRARY CHOICE.**

### **AUDIT COMMITTEE REPORT**

The Audit Committee of the Board of Directors is comprised of five directors who are independent directors as defined under the NYSE corporate governance listing standards. The Audit Committee operates under a written charter adopted by the Board of Directors.

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. Management is responsible for the Company's financial statements and the financial reporting process, including implementing and maintaining effective internal control over financial reporting and for the assessment of, and reporting on, the effectiveness of internal control over financial reporting. The independent auditors are responsible for expressing an opinion on the conformity of those audited financial statements with accounting principles generally accepted in the United States and the effectiveness of the Company's internal control over financial reporting. In fulfilling its oversight responsibilities, the Audit Committee has reviewed and discussed with management and the independent auditors the Company's audited financial statements for the year ended December 31, 2007 and reports on the effectiveness of internal controls over financial reporting as of December 31, 2007 contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2007, including a discussion of the reasonableness of significant judgments and the clarity of disclosures in the financial statements. The Audit Committee also reviewed and discussed with management and the independent auditors the disclosures made in *Management's Discussion and Analysis of Financial Conditions and Results of Operations* included in the Company's 2007 Annual Report to Shareholders and its Annual Report on Form 10-K for the year ended December 31, 2007.

The Audit Committee has discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61, *Communication with Audit Committees*, as amended. In addition, the Audit Committee has discussed with the independent auditors the auditor's independence from the Company and its management,

including the matters in the written disclosures and the letter provided by the independent auditors to the Audit Committee as required by Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees*, and has considered the compatibility of non-audit services with the auditor's independence.

The Committee discussed with the Company's independent auditors the overall scope and plans for their integrated audit. The Committee meets with the independent auditors, with and without management present, to

discuss the results of their examinations, their evaluations of the Company's internal controls and the overall quality of the Company's financial reporting.

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors, and the Board has approved, that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2007 for filing with the SEC. The Audit Committee and the Board of Directors have also approved the selection of Ernst & Young LLP as the Company's independent auditors for the fiscal year ending December 31, 2008.

*This report shall not be deemed to be incorporated by reference by any general statement incorporating by reference this proxy statement into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, and shall not otherwise be deemed filed under such acts.*

#### **SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE**

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's directors and executive officers and persons who own more than ten percent of the Company's Common Stock to file with the SEC initial reports of ownership and reports of changes in ownership of Common Stock and other equity securities of the Company. Directors, executive officers and greater than ten percent shareholders are required by SEC regulation to furnish the Company copies of all Section 16(a) reports they file. To the Company's knowledge, based solely on a review of the copies of such reports furnished to the Company and written representations that no other reports were required, during 2007, all Section 16(a) filing requirements applicable to directors, executive officers and greater than ten percent beneficial owners were complied with by such persons.

#### **SOLICITATION OF PROXIES**

The cost of soliciting proxies will be borne by the Company. The Company has retained Georgeson Shareholder to assist in the solicitation of proxies for a fee of approximately \$9,000 and reimbursement of certain expenses. Officers and regular employees of the Company, at no additional compensation, may also assist in the solicitation. Solicitation may be by mail, telephone, Internet or personal contact.

#### **HOUSEHOLDING OF ANNUAL MEETING MATERIALS**

The SEC's rules permit us, with your permission, to send a single set of proxy statements and annual reports to any household at which two or more shareholders reside if we believe that they are members of the same family. Each shareholder will continue to receive a separate proxy card. This procedure, known as householding, reduces the volume of duplicate information you receive and helps to reduce our expenses. In order to take advantage of this opportunity, we have delivered only one proxy statement and annual report to multiple shareholders who share an address, unless we received contrary instructions from the affected shareholders prior to the mailing date. We will deliver a separate copy of the proxy statement or annual report, as requested, to any shareholder at a shared address to which a single copy of those documents was delivered. If you prefer to receive separate copies of a proxy statement or

annual report, either now or in the future, you can request a separate copy of the proxy statement or annual report by calling us at (770) 953-1700 or by writing to us at any time at the following address: Investor Relations, Genuine Parts Company, 2999 Circle 75 Parkway, Atlanta, Georgia 30339.

A majority of brokerage firms have instituted householding. If your family has multiple holdings in the Company, you may have received householding notification directly from your broker. Please contact your broker

directly if you have any questions, if you require additional copies of the proxy statement or annual report, if you are currently receiving multiple copies of the proxy statement and annual report and wish to receive only a single copy or if you wish to revoke your decision to household and thereby receive multiple statements and reports. These options are available to you at any time.

### **OTHER MATTERS**

Management does not know of any matters to be brought before the Annual Meeting other than those referred to above. If any matters which are not specifically set forth in the form of proxy and this proxy statement properly come before the Annual Meeting, the persons designated as proxies will vote thereon as recommended by the Board of Directors or, if the Board of Directors makes no recommendation, in accordance with their best judgment.

Whether or not you expect to be present at the Annual Meeting in person, please vote, sign, date and return the enclosed proxy card promptly in the enclosed business reply envelope. No postage is necessary if mailed in the United States. If you prefer, you can vote by telephone or Internet voting by following the instructions on the enclosed proxy card.

### **SHAREHOLDER PROPOSALS FOR 2009 ANNUAL MEETING**

Proposals of shareholders of the Company intended to be presented for consideration at the 2008 Annual Meeting of Shareholders of the Company must be received by the Company at its principal executive offices on or before November 1, 2008 in order to be included in the Company's proxy statement and form of proxy relating to the 2008 Annual Meeting of Shareholders. In addition, with respect to any shareholder proposal that is not submitted for inclusion in the proxy statement and form of proxy relating to the 2009 Annual Meeting of Shareholders but is instead sought to be presented directly to the shareholders at the 2009 Annual Meeting, management will be able to vote proxies in its discretion if either (i) the Company does not receive notice of the proposal before the close of business on January 15, 2009, or (ii) the Company receives notice of the proposal before the close of business on January 15, 2009 and advises shareholders in the proxy statement for the 2009 Annual Meeting about the nature of the proposal and how management intends to vote on the proposal, unless the shareholder notifies the Company by January 15, 2009 that it intends to deliver a proxy statement with respect to such proposal and thereafter takes the necessary steps to do so.
