**FORWARD-LOOKING STATEMENTS**

This Current Report on Form 8-K, including the exhibits being filed as part of this report, as well as other statements made by Delphi may contain forward-looking statements that reflect, when made, the Company's current views with respect to current events and financial performance. Such forward-looking statements are and will be, as the case may be, subject to many risks, uncertainties and factors relating to the Company's operations and business environment which may cause the actual results of the Company to be materially different from any future results, express or implied, by such forward-looking statements. In some cases, you can identify these statements by forward-looking words such as may, might, will, should, expects, plans, anticipates, believes, estimates, predicts, the negative of these terms and other comparable terminology. Factors that could cause actual results to differ materially from these forward-looking statements include, but are not limited to, the following: the ability of the Company to continue as a going concern; the ability of the Company to operate pursuant to the terms of the partial temporary accelerated payments agreement and Advance Agreement with General Motors Corporation ( GM ), its debtor-in-possession financing facility, and to obtain an extension of term or other amendments as necessary to maintain access to such Advance Agreement and facility; the Company's ability to obtain Court approval with respect to motions in the Chapter 11 cases prosecuted by it from time to time, including the ability of the Company to obtain Court approval of the interim Liquidity Support Agreement with GM and approval to further modify the Plan which was confirmed by the Court on January 25, 2008, to confirm such modified plan or any other subsequently filed plan of reorganization and to consummate such plan or other consensual resolution of Delphi's Chapter 11 cases; risks associated with third parties seeking and obtaining Court approval to terminate or shorten the exclusivity period for the Company to propose and confirm one or more plans of reorganization, for the appointment of a Chapter 11 trustee or to convert the cases to Chapter 7 cases; the ability of the Company to obtain and maintain normal terms with vendors and service providers; the Company's ability to maintain contracts that are critical to its operations; the potential adverse impact of the Chapter 11 cases on the Company's liquidity or results of operations; the ability of the Company to fund and execute its business plan as described in the proposed modifications to its Plan as filed with the Court and to do so in a timely manner; the ability of the Company to attract, motivate and/or retain key executives and associates; the ability of the Company to avoid or continue to operate during a strike, or partial work stoppage or slow down by any of its unionized employees or those of its principal customers and the ability of the Company to attract and retain customers. Additional factors that could affect future results are identified in the Company's Annual Report on Form 10-K for the year ended December 31, 2008 filed with the United States Securities and Exchange Commission, including the risk factors in Part I. Item 1A. Risk Factors, contained therein and in Part II. Item 1A. Risk Factors in the Quarterly Report on Form 10-Q for the quarter ended March 31, 2009. Delphi disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events and/or otherwise. Similarly, these and other factors, including the terms of any reorganization plan ultimately confirmed, can affect the value of the Company's various prepetition liabilities, common stock and/or other equity securities. It is possible that Delphi's common stock may have no value and claims relating to prepetition liabilities may receive no value.
