LETTER FROM THE CEO

Dear Shareholders,

[Photo of Robert J. Manning]

As a professional investor for more than 20 years, I've often been asked to name the single most important factor in investment success. My answer is always the same: diversification. At MFS we talk about applying a disciplined diversification(SM) strategy to a portfolio as a three step process: allocate among the major asset classes; diversify within each asset class; and rebalance regularly to avoid unnecessary risk.

Individual investors sometimes assume that the amount they're putting away is too small to allow for diversification. My response would be that a good investment plan, developed with the help of an investment professional, should provide a way to properly diversify your contributions.

Remember that the purpose of diversification is to own investments that historically have not moved in sync with each other - in the hope that, in any given period, underperforming holdings will be somewhat counteracted by other outperforming holdings. If none of your asset classes did badly in the past year or so, you're probably not properly diversified.

Americans today have more of their wealth tied up in the markets than in any previous period of our history, but we are not yet making the most of our opportunities. While neither asset allocation nor diversification can guarantee a profit or protect against a loss, I would voice the opinion that, to a large extent, a failure to have a plan, diversify contributions, and rebalance a portfolio annually has been behind many U.S. investors' failure to reach their long-term financial goals.

For more information on how to apply a disciplined diversification(SM) strategy to your portfolio, I would urge you to contact your own investment professional. You may also want to refer to information on the subject on our

* For purposes of this graphical presentation, the bond component includes both accrued interest amounts and the equivalent exposure from any derivative holdings, if applicable.

** Each security is assigned a rating from Moody's Investors Service. If not rated by Moody's, the rating will be that assigned by Standard & Poor's. Likewise, if not assigned a rating by Standard & Poor's, it will be based on the rating assigned by Fitch, Inc. For those portfolios that hold a security which is not rated by any of the three agencies, the security is considered Not Rated. Holdings in U.S. Treasuries and government agency mortgage-backed securities, if any, are included in a "AAA"-rating category. Percentages are based on the total market value of investments as of 4/30/05.

*** The average maturity shown is calculated using the final stated maturity on the portfolio's holdings without taking into account any holdings which have been pre-refunded to an earlier date or which have a mandatory put date prior to the stated maturity. The average life shown takes into account these earlier dates.

**** The Portfolio Average Credit Quality rating is based upon a market weighted average of portfolio holdings.

Percentages are based on net assets as of 4/30/05, unless otherwise noted.

The portfolio is actively managed, and current holdings may be different.

MANAGEMENT REVIEW

SUMMARY OF RESULTS

For the six months ended April 30, 2005, the MFS Special Value Trust provided a total return of 1.09%, at net asset value. In comparison, the trust's equity benchmark, the Russell 1000 Value Index (the Russell Index), returned 6.72% and its fixed income benchmark, the Lehman Brothers High Yield Index (the Lehman Index), returned 0.08%. The trust's investment objective is to maintain an annual distribution rate of 10% based on its average daily net asset value (NAV), while seeking opportunities for capital appreciation. The trust may invest its assets in securities issued or guaranteed by the U.S. government, its agencies, authorities and instrumentalities. As opportunities arise in the marketplace, the trust may invest its assets in securities that the trust

Edgar Filing: MFS SPECIAL VALUE TRUST - Form N-CSRS

believes represent uncommon value by having the potential for significant capital appreciation over a period of twelve months or longer.

MARKET ENVIRONMENT

Stocks experienced considerable volatility during the six months ended April 30, 2005. Investors endured another rise in oil prices, a volatile U.S. dollar, record U.S. budget and trade deficits, and war in Iraq. Fundamental economic factors, however, such as corporate spending and earnings, continued to improve around the globe. Over the course of the period, investors seemed to conclude that the global economic recovery, although modest, was still intact. However, in March and April, high oil prices and concerns about the credit quality of some major U.S. corporations chipped away at investor confidence. As a result, major U.S. stock indices finished the period lower.

The U.S. fixed-income market experienced a flattening of the yield curve during the six-month period. (A yield curve for bonds shows the relationship between yield and time to maturity; in a majority of market environments, longer-maturity bonds offer higher yields.) The U.S. Federal Reserve Board raised its target federal funds rate four times, continuing its steady drumbeat of quarter-point rate hikes that had begun on June 30, 2004. But while the Fed seemed committed to a course of gradually raising short-term rates, several factors caused long-term rates to stagnate or retreat.

Job growth, which had shot up in the spring of 2004, ebbed and flowed during the period; uncertainty about the employment situation helped to push down yields on longer-dated bonds. Another factor that held long-term rates down was overseas demand for U.S. Treasuries, especially from foreign central banks. However, moderate GDP growth and inflation concerns kept shorter-term interest rates moving up. For the period as a whole, the net effect was a substantial flattening of the yield curve as short-term rates rose significantly while long-term rates were generally flat to down.

In addition, performance in the corporate bond market slowed dramatically in the final months of the period as investors anticipated that General Motors, one of the largest issuers of corporate high-grade bonds, would see its debt downgraded to junk status.

DETRACTORS FROM PERFORMANCE

While the overall trust outperformed its fixed income benchmark, there were some negative factors which hurt relative performance. The trust's credit exposure to lower-rated "CCC" bonds also detracted, although this was partially offset by a positive contribution from "BB"-rated bonds. Relative detractors, at the security level, included Nortek Holdings, JSG Funding, and Charter Communications.

In the equity portion of the portfolio, stock selection and an overweighted position in the technology sector detracted from relative performance. Our positioning in telecommunications equipment provider Nortel Networks, which is not a constituent of the equity benchmark, the Russell 1000 Value Index, held back relative results.

Stock selection in the utilities and communications sector also hurt relative returns. Our holdings of poor-performing electric utility company Calpine, which is not in the index, and not holding strong-performing Texas-based utility company TXU detracted from relative results.

Our overweighted position in Southwest Airlines also dampened relative performance during the period. Stocks in other sectors that detracted from relative returns included our overweighted position in energy company BJ Services, which underperformed the benchmark, and not holding strong-

Edgar Filing: MFS SPECIAL VALUE TRUST - Form N-CSRS

performing Exxon Mobil, ConocoPhillips, Valero Energy, or tobacco company Altria Group.

CONTRIBUTORS TO PERFORMANCE

For the fixed income portion of the portfolio, security selection was the principal contributor to the portfolio's performance relative to the Lehman Index. Consumer products company Revlon, chemical company Rhodia, Continental Airlines, and mining company Doe Run Resources were among the trust's top individual contributors. Relative to the fixed income benchmark, our exposure to securities with higher yields also delivered strong results.

On the equity side, the sectors contributing most to returns relative to the equity benchmark, the Russell Index, were basic materials, financial services, and leisure. In basic materials, strong stock selection contributed to the trust's relative performance. Glass and plastic container company Owen-Illinois was the strongest contributor in the sector.

Our avoidance of the weak-performing financial services sector also boosted relative performance. Not owning index constituents JPMorgan Chase and American International Group, which both underperformed the broad benchmark, aided relative results.

Stock selection in the leisure sector also boosted relative returns. Our heavily weighted position in Comcast helped lift relative performance. Two strong-performing energy stocks, GlobalSantaFe and Cooper Cameron, were also among the top individual contributors for the period.

Stocks in other sectors that aided relative results included drug company Wyeth and Tenet Healthcare, owner and operator of hospitals and related health care services. Not holding telecom services provider Verizon Communications or IBM also contributed to the Trust's relative performance.

INDEX DEFINITIONS

Lehman Brothers High Yield Index - measures the universe of non-investment grade, fixed rate debt. Eurobonds and debt issues from countries designated as emerging markets (e.g., Argentina, Brazil, Venezuela, etc.) are excluded.

Russell 1000 Value Index - is constructed to provide a comprehensive barometer for the value securities in the large-cap segment of the U.S. equity universe. Companies in this index generally have lower price-to-book ratios and lower forecasted growth values.

It is not possible to invest directly in an index.

NOTES TO PERFORMANCE SUMMARY

The trust's shares may trade at a discount to net asset value. Shareholders do not have the right to cause the trust to repurchase their shares at net asset value. The trust's shares also may trade at a premium to their net asset value.

When trust shares trade at a premium, buyers pay more than the asset value underlying trust shares, and shares purchased at a premium would receive less than the amount paid for them in the event of the trust's liquidation. As a

Edgar Filing: MFS SPECIAL VALUE TRUST - Form N-CSRS

result, the total return that is calculated based on the net asset value and New York Stock Exchange price can be different.

The trust's monthly distributions may include a return of capital to shareholders. Distributions that are treated for federal income tax purposes as a return of capital will reduce each shareholder's basis in his or her shares and, to the extent the return of capital exceeds such basis, will be treated as gain to the shareholder from a sale of shares. Returns of shareholder capital have the effect of reducing the trust's assets and increasing the trust's expense ratio.

The trust's target annual distribution rate is calculated based on the trust's average daily net asset value, not a fixed share price, and the trust's dividend amount will fluctuate with changes in the trust's average daily net asset value.

From time to time the trust may receive proceeds from litigation settlements, without which performance would be lower.

KEY RISK CONSIDERATIONS

The portfolio may invest in derivative securities, which may include futures, options and swaps. These types of instruments can increase price fluctuation.

The portfolio invests in government guaranteed securities. These guarantees apply to the underlying securities only and not to the prices and yields of the portfolio.

The portfolio invests in high yield or lower-rated securities, which may provide greater returns but are subject to greater-than-average risk.

Because the portfolio invests in a limited number of companies a change in one security's value may have a more significant effect on the portfolio's value.

The trust limits investment in securities of foreign issuers which are not traded on a U.S. exchange (excluding American Depository Receipts) to 10% of its total assets. For purposes of determining this investment limitation, foreign securities traded in U.S. markets which are well established and liquid (such as Rule 144A and Yankee Bond markets) are considered as being equivalent to U.S. exchange-traded securities, and therefore are not subject to this 10% limitation.

These risks may increase share price volatility.

In accordance with Section 23(c) of the Investment Company Act of 1940, the trust hereby gives notice that it may from time to time repurchase shares of the trust in the open market at the option of the Board of Trustees and on such terms as the Trustees shall determine.

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

The trust offers a Dividend Reinvestment and Cash Purchase Plan that allows you to reinvest either all of the distributions paid by the trust or only the long-term capital gains. Purchases are made at the market price unless that price exceeds the net asset value (the shares are trading at a premium). If the shares are trading at a premium, purchases will be made at a discounted price of either the net asset value or 95% of the market price, whichever is greater. Twice each year you can also buy shares. Investments may be made in any amount over \$100 in January and July on the 15th of the month or shortly thereafter.

Edgar Filing: MFS SPECIAL VALUE TRUST - Form N-CSRS

If your shares are in the name of a brokerage firm, bank, or other nominee, you can ask the firm or nominee to participate in the plan on your behalf. If the nominee does not offer the plan, you may wish to request that your shares be re-registered in your own name so that you can participate.

There is no service charge to reinvest distributions, nor are there brokerage charges for shares issued directly by the trust. However, when shares are bought on the New York Stock Exchange or otherwise on the open market, each participant pays a pro rata share of the commissions. The automatic reinvestment of distributions does not relieve you of any income tax that may be payable (or required to be withheld) on the distributions.

To enroll in or withdraw from the plan, or if you have any questions, call 1-800-637-2304 any business day from 8 a.m. to 8 p.m. Eastern time. Please have available the name of the trust and your account and Social Security numbers. For certain types of registrations, such as corporate accounts, instructions must be submitted in writing. Please call for additional details. When you withdraw from the plan, you can receive the value of the reinvested shares in one of two ways: a check for the value of the full and fractional shares, or a certificate for the full shares and a check for the fractional shares.

 PORTFOLIO OF INVESTMENTS (unaudited) - 4/30/05

* Non-income producing security.

** Non-income producing security - in default.

^ All or a portion of this security is on loan.

^^ Interest only security for which the trust receives interest on notional principal (Par amount). Par amount shown is the notional principal and does not reflect the cost of the security.

(+) Payment-in-kind security.

SEC Rule 144A restriction.

+ The rate shown represents a current effective yield.

<The rate shown represents an annualized yield at time of purchase.

Edgar Filing: MFS SPECIAL VALUE TRUST - Form N-CSRS

(++) As of April 30, 2005, the trust held ten securities representing \$0 and 0% of net assets that were fair valued in accordance with the policies adopted by the Board of Trustees.

All amounts are stated in U.S. dollars unless otherwise indicated.

Abbreviations have been used throughout this report to indicate amounts shown in currencies other than the U.S. dollar. A list of abbreviations is shown below:

EUR = Euro
SEK = Swedish Krona

Abbreviations:

ADR = American Depository Receipt
FRN = Floating Rate Note. The interest rate is the rate in effect as of period end.

FINANCIAL STATEMENTS FINANCIAL HIGHLIGHTS

Edgar Filing: MFS SPECIAL VALUE TRUST - Form N-CSRS

The financial highlights table is intended to help you understand the trust's financial performance and the past 5 fiscal years (or, if shorter, the period of the trust's operation). Certain information is presented for a single trust share. The total returns in the table represent the rate by which an investment (or loss) on an investment in the trust (assuming reinvestment of all distributions) held for the entire period.

	SIX MONTHS ENDED 4/30/05 (UNAUDITED)	2004	2003	YEARS ENDED 1 2002

NET ASSETS AND
SUPPLEMENTAL DATA (S) :

Expenses##	1.44+	1.28	1.34	1.56
Net investment income (S) (S)	5.81+	5.82	6.75	8.39
Portfolio turnover	28	72	94	137
Net assets at end of period (000 Omitted)	\$65,845	\$67,939	\$65,195	\$49,622

(S) Effective June 7, 2004, the investment adviser has voluntarily agreed to reimburse the trust substantially all of Independent Chief Compliance Officer service fees paid to Tarantino LLC. by the trust, the net investment income per share and the ratios would have been:

Net investment income	\$0.30^	\$0.59^	\$--	\$--
-----------------------	---------	---------	------	------

RATIOS (%) (TO AVERAGE NET ASSETS) :

Expenses##	1.44+^	1.28^	--	--
Net investment income	5.81+^	5.82^	--	--

+ Annualized.

++ Not annualized.

Per share data are based on average shares outstanding.

Ratios do not reflect reductions from fees paid indirectly.

& From time to time the trust may receive proceeds from litigation settlements, without which

^ The reimbursement impact per share amount and ratios were less than \$0.01 and 0.01%, respectively

^^ The trust's net asset value and total return calculation include a non-recurring accrual related to an administrative proceeding regarding disclosure of brokerage allocation practices in connection with the Legal Proceedings and Transactions with Affiliates footnote. The non-recurring accrual had a material impact on the net asset value per share based on the shares outstanding on the date of the filing.

(S) (S) As required, effective November 1, 2001, the trust adopted the provisions of the AICPA Audit Requirements for Investment Companies and began amortizing premium and accreting discount on all debt securities. The net investment income per share for the year ended October 31, 2002 was to increase net investment income per share by \$0.02, decrease unrealized gains and losses per share by \$0.02, and increase the ratio of net investment income to net assets by 0.49%. Per share, ratios, and supplemental data for periods prior to November 1, 2001 have been presented in this change in presentation.

SEE NOTES TO FINANCIAL STATEMENTS

NOTES TO FINANCIAL STATEMENTS (unaudited)

(1) BUSINESS AND ORGANIZATION

MFS Special Value Trust (the trust) is a non-diversified trust that is organized as a Massachusetts business trust and is registered under the Investment Company Act of 1940, as amended, as a closed-end management investment company.

(2) SIGNIFICANT ACCOUNTING POLICIES

GENERAL - The preparation of financial statements in conformity with U.S.

Edgar Filing: MFS SPECIAL VALUE TRUST - Form N-CSRS

generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The trust can invest in foreign securities. Investments in foreign securities are vulnerable to the effects of changes in the relative values of the local currency and the U.S. dollar and to the effects of changes in each country's legal, political, and economic environment.

INVESTMENT VALUATIONS - Bonds and other fixed income securities (other than short-term obligations) in the trust's portfolio are valued at an evaluated bid price as reported by an independent pricing service, or to the extent a valuation is not reported by a pricing service, such securities are valued on the basis of quotes from brokers and dealers. Prices obtained from pricing services utilize both dealer-supplied valuations and electronic data processing techniques which take into account appropriate factors such as institutional-size trading in similar groups of securities, yield, quality, coupon rate, maturity, type of issue, trading characteristics and other market data without exclusive reliance upon quoted prices or exchange or over-the-counter prices, since such valuations are believed to reflect more accurately the fair value of such securities. Equity securities in the trust's portfolio for which market quotations are available are valued at the last sale or official closing price as reported by an independent pricing service on the primary market or exchange on which they are primarily traded, or at the last quoted bid price for securities in which there were no sales during the day. Equity securities traded over the counter are valued at the last sales price traded each day as reported by an independent pricing service, or to the extent there are no sales reported, such securities are valued on the basis of quotations obtained from brokers and dealers. Forward foreign currency contracts are valued using spot rates and forward points as reported by an independent pricing source. Short-term obligations with a remaining maturity in excess of 60 days will be valued upon dealer-supplied valuations. All other short-term obligations in the trust's portfolio are valued at amortized cost, which approximates market value as determined by the Board of Trustees. Money market mutual funds are valued at net asset value. Investment valuations, other assets, and liabilities initially expressed in foreign currencies are converted each business day into U.S. dollars based upon current exchange rates. When pricing service information or market quotations are not readily available, securities are priced at fair value as determined under the direction of the Board of Trustees. For example, significant events (such as movement in the U.S. securities market, or other regional and local developments) may occur between the time that foreign markets close (where the security is principally traded) and the time that the trust calculates its net asset value (generally, the close of the NYSE) that may impact the value of securities traded in these foreign markets. In these cases, the trust may utilize information from an external vendor or other sources to adjust closing market quotations of foreign equity securities to reflect what it believes to be the fair value of the securities as of the trust's valuation time. Because the frequency of significant events is not predictable, fair valuation of foreign equity securities may occur on a frequent basis.

REPURCHASE AGREEMENTS - The trust may enter into repurchase agreements with institutions that the trust's investment adviser has determined are creditworthy. Each repurchase agreement is recorded at cost. The trust requires that the securities collateral in a repurchase transaction be transferred to the custodian in a manner sufficient to enable the trust to obtain those securities in the event of a default under the repurchase agreement. The trust monitors, on a daily basis, the value of the collateral to ensure that its value, including accrued interest, is greater than amounts owed to the trust under each such repurchase agreement. The trust, along with other affiliated entities of Massachusetts Financial Services Company (MFS), may utilize a joint trading

Edgar Filing: MFS SPECIAL VALUE TRUST - Form N-CSRS

account for the purpose of entering into one or more repurchase agreements.

FOREIGN CURRENCY TRANSLATION - Purchases and sales of foreign investments, income, and expenses are converted into U.S. dollars based upon currency exchange rates prevailing on the respective dates of such transactions. Gains and losses attributable to foreign currency exchange rates on sales of securities are recorded for financial statement purposes as net realized gains and losses on investments. Gains and losses attributable to foreign exchange rate movements on income and expenses are recorded for financial statement purposes as foreign currency transaction gains and losses. That portion of both realized and unrealized gains and losses on investments that results from fluctuations in foreign currency exchange rates is not separately disclosed.

DEFERRED TRUSTEE COMPENSATION - Under a Deferred Compensation Plan (the Plan) independent Trustees may elect to defer receipt of all or a portion of their annual compensation. Deferred amounts are treated as though equivalent dollar amounts had been invested in shares of the trust or other MFS funds selected by the Trustee. Deferred amounts represent an unsecured obligation of the trust until distributed in accordance with the Plan. Included in accrued expenses and other liabilities, is \$9,900 of Deferred Trustees' Compensation.

SECURITY LOANS - State Street Bank and Trust Company ("State Street"), as lending agent, may loan the securities of the trust to certain qualified institutions (the "Borrowers") approved by the trust. The loans are collateralized at all times by cash and/or U.S. Treasury securities in an amount at least equal to the market value of the securities loaned. State Street provides the trust with indemnification against Borrower default. The trust bears the risk of loss with respect to the investment of cash collateral. On loans collateralized by cash, the cash collateral is invested in a money market fund or short-term securities. A portion of the income generated upon investment of the collateral is remitted to the Borrowers, and the remainder is allocated between the trust and the lending agent. On loans collateralized by U.S. Treasury securities, a fee is received from the Borrower, and is allocated between the trust and the lending agent. Income from securities lending is included in interest income on the Statement of Operations. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income.

FORWARD FOREIGN CURRENCY EXCHANGE CONTRACTS - The trust may enter into forward foreign currency exchange contracts for the purchase or sale of a specific foreign currency at a fixed price on a future date. Risks may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar. The trust may enter into forward foreign currency exchange contracts for hedging purposes as well as for non-hedging purposes. For hedging purposes, the trust may enter into contracts to deliver or receive foreign currency it will receive from or require for its normal investment activities. The trust may also use contracts in a manner intended to protect foreign currency-denominated securities from declines in value due to unfavorable exchange rate movements. For non-hedging purposes, the trust may enter into contracts with the intent of changing the relative exposure of the trust's portfolio of securities to different currencies to take advantage of anticipated changes. The forward foreign currency exchange contracts are adjusted by the daily exchange rate of the underlying currency and any gains or losses are recorded as unrealized until the contract settlement date. On contract settlement date, the gains or losses are recorded as realized gains or losses on foreign currency transactions.

INVESTMENT TRANSACTIONS AND INCOME - Investment transactions are recorded on the trade date. Interest income is recorded on the accrual basis. All premium and discount is amortized or accreted for financial statement purposes in accordance with U.S. generally accepted accounting principles. All discount is accreted for

Edgar Filing: MFS SPECIAL VALUE TRUST - Form N-CSRS

tax reporting purposes as required by federal income tax regulations. Dividends received in cash are recorded on the ex-dividend date. Dividend and interest payments received in additional securities are recorded on the ex-dividend or ex-interest date in an amount equal to the value of the security on such date. The trust may receive proceeds from litigation settlements involving its portfolio holdings. Any proceeds received are reflected in realized gain/loss in the statement of operations, or in unrealized gain/loss if the security is still held by the trust. Legal fees and other related expenses incurred to preserve and protect the value of a security owned are added to the cost of the security; other legal fees are expensed. Capital infusions made directly to the security issuer, which are generally non-recurring, incurred to protect or enhance the value of high-yield debt securities, are reported as additions to the cost basis of the security. Costs that are incurred to negotiate the terms or conditions of capital infusions or that are expected to result in a plan of reorganization are reported as realized losses. Ongoing costs incurred to protect or enhance an investment, or costs incurred to pursue other claims or legal actions, are expensed.

FEES PAID INDIRECTLY - The trust's custody fee is reduced according to an arrangement that measures the value of cash deposited with the custodian by the trust. During the six months ended April 30, 2005, the trust's custodian fees were reduced by \$15,741 under this arrangement. The trust has entered into a commission recapture agreement, under which certain brokers will credit the trust a portion of the commissions generated, to offset certain expenses of the trust. For the six months ended April 30, 2005, the trust's miscellaneous expenses were reduced by \$91 under this agreement. These amounts are shown as a reduction of total expenses on the Statement of Operations.

TAX MATTERS AND DISTRIBUTIONS - The trust's policy is to comply with the provisions of the Internal Revenue Code (the Code) applicable to regulated investment companies and to distribute to shareholders all of its net taxable income, including any net realized gain on investments. Accordingly, no provision for federal income or excise tax is provided.

Distributions to shareholders are recorded on the ex-dividend date. The trust pays monthly distributions based on an annual rate of 10% of the trust's average daily net asset value. As a result distributions may exceed actual earnings which may result in a return of capital. The trust distinguishes between distributions on a tax basis and a financial reporting basis and only distributions in excess of tax basis earnings and profits are reported in the financial statements as distributions from paid-in capital. No such designation had been made for the six months ended April 30, 2005. Differences in the recognition or classification of income between the financial statements and tax earnings and profits, which result in temporary over-distributions for financial statement purposes, are classified as distributions in excess of net investment income or net realized gains. Common types of book and tax differences that could occur include differences in accounting for foreign currency transactions, defaulted bonds and amortization and accretion on debt securities.

The tax character of distributions declared for the years ended October 31, 2004 and October 31, 2003 was as follows:

	10/31/04	10/31/03
Distributions declared from:		

Ordinary income	\$3,870,737	\$5,543,609

Long-term capital gain	--	66,073

Tax return of capital	2,877,470	--

Edgar Filing: MFS SPECIAL VALUE TRUST - Form N-CSRS

Total distributions declared	\$6,748,207	\$5,609,682
------------------------------	-------------	-------------

As of October 31, 2004, the components of distributable earnings (accumulated losses) on a tax basis were as follows:

Capital loss carryforward	\$ (322,473)
Unrealized depreciation	(4,476,050)
Other temporary differences	(509,128)

For federal income tax purposes, the capital loss carryforward may be applied against any net taxable realized gains of each succeeding year until the earlier of its utilization or expiration on October 31, 2012, (\$322,473).

(3) TRANSACTIONS WITH AFFILIATES

INVESTMENT ADVISER - The trust has an investment advisory agreement with Massachusetts Financial Services Company (MFS) to provide overall investment advisory and administrative services, and general office facilities.

The management fee is computed daily and paid monthly at an annual rate of 0.68% of the trust's average daily net assets and 3.40% of gross investment income. Management fees from net assets and gross investment income incurred for the six months ended April 30, 2005 were at an effective rate of 0.93% of average daily net assets on an annualized basis.

The trust pays compensation to its Independent Trustees in the form of a retainer, attendance fees, and additional compensation to Board and Committee chairpersons, and pays no compensation directly to its Trustees who are officers of the investment adviser, or to officers of the trust, all of whom receive remuneration for their services to the trust from MFS. Certain officers and Trustees of the trust are officers or directors of MFS and MFS Service Center, Inc. (MFSC). The trust has an unfunded, defined benefit plan for retired Independent Trustees and an unfunded retirement benefit deferral plan for current Independent Trustees. Included in Trustees' compensation is a net decrease of \$2,159 as a result of the change in the trust's unfunded retirement benefit deferral plan for certain current Independent Trustees and a pension expense of \$3,281 for retired Independent Trustees for the six months ended April 30, 2005.

This trust and certain other MFS funds (the "funds") have entered into a services agreement (the "Agreement") which provides for payment of fees by the funds to Tarantino LLC in return for the provision of services of an Independent Chief Compliance Officer (ICCO) for the funds. The ICCO is an officer of the funds and the sole member of Tarantino LLC. MFS has agreed to reimburse each of the funds for a proportional share of substantially all of the payments made by the funds to Tarantino LLC and also to provide office space and other administrative support and supplies to the ICCO. The funds can terminate the Agreement with Tarantino LLC at any time under the terms of the Agreement.

The trust's investment adviser, MFS, has been the subject of an administrative proceeding regarding disclosure of brokerage allocation practices in connection with fund sales, as described in the Legal Proceedings Footnote. On July 28, 2004, the trust accrued an estimate of the amount to be received pursuant to this matter in the amount of \$441, which did not have a material impact on the net asset value per share based on the shares outstanding on the day the proceeds were recorded. The proceeds were paid to the trust on February 16, 2005.

Edgar Filing: MFS SPECIAL VALUE TRUST - Form N-CSRS

ADMINISTRATOR - MFS provides certain financial, legal, shareholder communications, compliance, and other administrative services to certain funds for which MFS acts as investment adviser. Under an administrative services agreement between the funds and MFS, MFS is entitled to partial reimbursement of the costs MFS incurs to provide these services, subject to review and approval by the Board of Trustees. Each fund is allocated a portion of these administrative costs based on its size and relative average net assets. The trust paid MFS an administrative fee up to the following annual percentage rates of the trust's average daily net assets:

EFFECTIVE DATE	BEGINNING OF PERIOD THROUGH	3/01/05
First \$2 billion	0.01120%	0.01626%
Next \$2.5 billion	0.00832%	0.01206%
Next \$2.5 billion	0.00032%	0.00056%
In excess of \$7 billion	0.00000%	0.00000%

For the six months ended April 30, 2005, the trust paid MFS \$3,122 equivalent to 0.0091% of average daily net assets, to partially reimburse MFS for the costs of providing administrative services.

TRANSFER AGENT - Included in transfer agent and dividend disbursing costs is a fee paid to MFSC, a wholly owned subsidiary of MFS, for its services as registrar and dividend disbursing agent for the trust. The agreement provides that the trust will pay MFSC an account maintenance fee of no more than \$9.00 and a dividend services fee of \$0.75 per reinvestment. These fees amounted to \$7,412 for the six months ended April 30, 2005. Also included in transfer agent and dividend disbursing costs are out-of-pocket expenses, paid to MFSC, which amounted to \$9,274 for the six months ended April 30, 2005, as well as other expenses paid to unaffiliated vendors.

(4) PORTFOLIO SECURITIES

Purchases and sales of investments, other than U.S. government securities, purchased option transactions, and short-term obligations, aggregated \$18,943,333 and \$19,982,434, respectively.

The cost and unrealized appreciation and depreciation in the value of the investments owned by the trust, as computed on a federal income tax basis, are as follows:

Aggregate cost	\$75,528,908
Gross unrealized appreciation	\$5,052,043
Gross unrealized depreciation	(7,312,085)
Net unrealized appreciation (depreciation)	\$(2,260,042)

(5) SHARES OF BENEFICIAL INTEREST

The trust's Declaration of Trust permits the Trustees to issue an unlimited number of full and fractional shares of beneficial interest. The Trustees have authorized the repurchases by the trust of up to 10% annually of its own shares of beneficial interest. During the six months ended April 30, 2005, the

Edgar Filing: MFS SPECIAL VALUE TRUST - Form N-CSRS

trust did not repurchase any shares. Transactions in trust shares were as follows:

	Six months ended 4/30/05		Year ended 10/31/04	
	SHARES	AMOUNT	SHARES	AMOUNT
Shares issued to shareholders in reinvestment of distributions	29,351	\$323,080	61,069	\$645,801

(6) LINE OF CREDIT

The trust and other affiliated funds participate in a \$1 billion unsecured line of credit provided by a syndication of banks under a line of credit agreement. Borrowings may be made for temporary financing needs. Interest is charged to each fund, based on its borrowings, at a rate equal to the Federal Reserve funds rate plus 0.35%. In addition, a commitment fee, based on the average daily, unused portion of the line of credit, is allocated among the participating funds at the end of each calendar quarter. The commitment fee allocated to the trust for the six months ended April 30, 2005 was \$224, and is included in miscellaneous expense. The trust had no significant borrowings during the six months ended April 30, 2005.

(7) FINANCIAL INSTRUMENTS

The trust trades financial instruments with off-balance-sheet risk in the normal course of its investing activities in order to manage exposure to market risks such as interest rates and foreign currency exchange rates. These financial instruments include forward foreign currency exchange contracts. The notional or contractual amounts of these instruments represent the investment the trust has in particular classes of financial instruments and does not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered.

Forward Foreign Currency Exchange Contracts

----- SALES -----

SETTLEMENT DATE	CONTRACTS TO DELIVER/RECEIVE	IN EXCHANGE FOR	CONTRACTS AT VALUE	NET UNREALIZED APPRECIATION (DEPRECIATION)

		=====	=====	=====

At April 30, 2005, the trust had sufficient cash and/or securities to cover any commitments under these contracts.

(8) LEGAL PROCEEDINGS

Edgar Filing: MFS SPECIAL VALUE TRUST - Form N-CSRS

On March 31, 2004, MFS settled an administrative proceeding with the Securities and Exchange Commission ("SEC") regarding disclosure of brokerage allocation practices in connection with MFS fund sales (the term "MFS funds" means the open-end registered management investment companies sponsored by MFS). Under the terms of the settlement, in which MFS neither admitted nor denied any wrongdoing, MFS agreed to pay (one dollar) \$1.00 in disgorgement and \$50 million in penalty to certain MFS funds, pursuant to a plan developed by an independent distribution consultant. The brokerage allocation practices which were the subject of this proceeding were discontinued by MFS in November 2003. The agreement with the SEC is reflected in an order of the SEC. The SEC settlement order states that MFS failed to adequately disclose to the Boards of Trustees and to shareholders of the MFS funds the specifics of its preferred arrangements with certain brokerage firms selling MFS fund shares. The SEC settlement order states that MFS had in place policies designed to obtain best execution of all MFS fund trades. As part of the settlement, MFS retained an independent compliance consultant to review the completeness of its current policies and practices regarding disclosure to MFS fund trustees and to MFS fund shareholders of strategic alliances between MFS or its affiliates and broker-dealers and other financial intermediaries who support the sale of MFS fund shares. Pursuant to the SEC order, on July 28, 2004, MFS transferred these settlement amounts to the SEC, and those MFS funds entitled to these settlement amounts accrued an estimate of their pro rata portion of these amounts. The final distribution plan was approved by the SEC on January 21, 2005, and the affected MFS funds received the payment on February 16, 2005.

In addition, in February 2004, MFS reached agreement with the SEC, the New York Attorney General ("NYAG") and the Bureau of Securities Regulation of the State of New Hampshire ("NH") to settle administrative proceedings alleging false and misleading information in certain MFS open-end retail fund ("MFS retail funds") prospectuses regarding market timing and related matters (the "February Settlements"). These regulators alleged that prospectus language for certain MFS retail funds was false and misleading because, although the prospectuses for those funds in the regulators' view indicated that they prohibited market timing, MFS did not limit trading activity in 11 domestic large cap stock, high grade bond and money market retail funds. MFS' former Chief Executive Officer and former President also reached agreement with the SEC in which they agreed to, among other terms, monetary fines and temporary suspensions from association with any investment adviser or registered investment company. These individuals have resigned their positions with, and will not be returning to, MFS and the MFS funds. Under the terms of the February Settlements, MFS and the executives neither admit nor deny wrongdoing.

Under the terms of the February Settlements, a \$225 million pool has been established for distribution to shareholders in certain MFS retail funds, which has been funded by MFS and of which \$50 million is characterized as a penalty. This pool will be distributed in accordance with a methodology developed by an independent distribution consultant in consultation with MFS and the Board of Trustees of the MFS retail funds, and acceptable to the SEC. MFS has further agreed with NYAG to reduce its management fees in the aggregate amount of approximately \$25 million annually over the next five years, and not to increase certain management fees during this period. MFS has also paid an administrative fine to NH in the amount of \$1 million, which will be used for investor education purposes (NH retained \$250,000 and \$750,000 was contributed to the North American Securities Administrators Association's Investor Protection Trust). In addition, under the terms of the February Settlements, MFS is in the process of adopting certain governance changes and reviewing its policies and procedures.

Since December 2003, MFS, MFS Fund Distributors, Inc., MFS Service Center, Inc., MFS Corporation Retirement Committee, Sun Life Financial Inc., various MFS funds, certain current and/or former Trustees of these MFS funds, and certain

Edgar Filing: MFS SPECIAL VALUE TRUST - Form N-CSRS

officers of MFS have been named as defendants in multiple lawsuits filed in federal and state courts. The lawsuits variously have been commenced as class actions or individual actions on behalf of investors who purchased, held or redeemed shares of the MFS funds during specified periods, as ERISA actions by participants in certain retirement plan accounts on behalf of those accounts, or as derivative actions on behalf of the MFS funds. The lawsuits relating to market timing and related matters have been transferred to, and consolidated before, the United States District Court for the District of Maryland, as part of a multi-district litigation of market timing and related claims involving several other fund complexes (In re Mutual Funds Investment Litigation (Alger, Columbia, Janus, MFS, One Group, Putnam, Allianz Dresdner), No. 1:04-md-15863 (transfer began March 19, 2004)). The market timing cases related to the MFS complex are Riggs v. MFS et al., Case No. 04-cv-01162-JFM (direct), Hammerslough v. MFS et al., Case No. 04-md-01620 (derivative) and Anita Walker v. MFS et al., Case No. 1:04-CV-01758 (ERISA). The plaintiffs in these consolidated lawsuits generally seek injunctive relief including removal of the named Trustees, adviser and distributor, rescission of contracts and 12b-1 Plans, disgorgement of fees and profits, monetary damages, punitive damages, attorney's fees and costs and other equitable and declaratory relief. Two lawsuits alleging improper brokerage allocation practices and excessive compensation are pending in the United States District Court for the District of Massachusetts (Forsythe v. Sun Life Financial Inc., et al., No. 04cv10584 (GAO) (a consolidated action) and Marcus Dumond, et al. v. Massachusetts Financial Servs. Co., et al., No. 04cv11458 (GAO)). The plaintiffs in these lawsuits generally seek compensatory damages, punitive damages, recovery of fees, rescission of contracts, an accounting, restitution, declaratory relief, equitable and/or injunctive relief and attorney's fees and costs. The various lawsuits generally allege that some or all of the defendants (i) permitted or acquiesced in market timing and/or late trading in some of the MFS funds, inadequately disclosed MFS' internal policies concerning market timing and such matters (ii) received excessive compensation as fiduciaries to the MFS funds, or (iii) permitted or acquiesced in the improper use of fund assets by MFS to support the distribution of MFS fund shares and inadequately disclosed MFS' use of fund assets in this manner. The actions assert that some or all of the defendants violated the federal securities laws, including the Securities Act of 1933 and the Securities Exchange Act of 1934, the Investment Company Act of 1940 and the Investment Advisers Act of 1940, the Employee Retirement Income Security Act of 1974, as well as fiduciary duties and other violations of common law. Insofar as any of the actions is appropriately brought derivatively on behalf of any of the MFS funds, any recovery will inure to the benefit of the MFS funds. In February, March, and April 2005, the defendants filed separate motions to dismiss all claims of the various lawsuits. The parties continue to brief the issues for the courts and various hearing dates have been scheduled. Additional lawsuits based on similar allegations may be filed in the future.

Any potential resolution of these matters may include, but not be limited to, judgments or settlements for damages against MFS, the MFS funds, or any other named defendant. As noted above, as part of the regulatory settlements, MFS has established a restitution pool in the amount of \$225 million to compensate certain shareholders of certain MFS retail funds for damages that they allegedly sustained as a result of market timing or late trading in certain of the MFS retail funds, and distributed \$50 million to affected MFS funds to compensate those funds based upon the amount of brokerage commissions allocated in recognition of MFS fund sales. It is not clear whether these amounts will be sufficient to compensate shareholders for all of the damage they allegedly sustained, whether certain shareholders or putative class members may have additional claims to compensation, or whether the damages that may be awarded in any of the actions will exceed these amounts. In the event the MFS funds incur any losses, costs or expenses in connection with such lawsuits, the Boards of Trustees of the affected MFS funds may pursue claims on behalf of such funds against any party that may have liability to the funds in respect thereof.

Edgar Filing: MFS SPECIAL VALUE TRUST - Form N-CSRS

Review of these matters by the independent Trustees of the MFS funds and their counsel is continuing. There can be no assurance that these regulatory actions and lawsuits, or the adverse publicity associated with these developments, will not result in increased fund redemptions, reduced sales of fund shares, or other adverse consequences to the MFS funds.

While these developments relate to MFS and the MFS' open-end funds, there can be no assurance that these developments, or the adverse publicity associated with these developments, will not result in an increase to the market discount of the MFS closed-end fund shares or other adverse consequences.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees and Shareholders of the MFS Special Value Trust:

We have reviewed the accompanying statement of assets and liabilities of MFS Special Value Trust (the Fund), including the portfolio of investments, as of April 30, 2005, and the related statements of operations, changes in net assets, and financial highlights for the six-month period ended April 30, 2005. These interim financial statements are the responsibility of the Fund's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim financial statements for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the statement of changes in net assets for the year ended October 31, 2004, and financial highlights for each of the five years in the period ended October 31, 2004, and in our report dated December 10, 2004, we expressed an unqualified opinion on such statement of changes in net assets and financial highlights.

Note: The Board of Trustees approves procedures to repurchase shares annually. The notification to shareholders of the program is part of the semi-annual and annual reports sent to shareholders. These annual programs begin on March 1st of each year. The programs conform to the conditions of Rule 10b-18 of the securities Exchange Act of 1934 and limit the aggregate number of shares that may be purchased in each annual period (March 1 through the following February 28) to 10% of the Registrant's outstanding shares as of the first day of the plan year (March 1). The aggregate number of shares available for purchase for the March 1, 2005 plan year are 673,558.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There were no material changes to the procedures by which shareholders may send recommendations to the Board for nominees to the Registrant's Board since the Registrant last provided disclosure as to such procedures in response to the requirements of Item 7(d) (2) (ii) (G) of Schedule 14A.

ITEM 11. CONTROLS AND PROCEDURES.

- (a) Based upon their evaluation of the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Act) as conducted within 90 days of the filing date of this Form N-CSR, the registrant's principal financial officer and principal executive officer have concluded that those disclosure controls and procedures provide reasonable assurance that the material information required to be disclosed by the registrant on this

Edgar Filing: MFS SPECIAL VALUE TRUST - Form N-CSRS

report is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

- (b) There were no changes in the registrant's internal controls over financial reporting (as defined in Rule 30a-3(d) under the Act) that occurred during the second fiscal quarter covered by the report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

(a) File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Code of Ethics attached hereto.

(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2 under the Act (17 CFR 270.30a-2): Attached hereto.

(3) Any written solicitation to purchase securities under Rule 23c-1 under the Act sent or given during the period covered by the report by or on behalf of the Registrant to 10 or more persons. Not applicable.

(b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the Act (17 CFR 270.30a-2(b)), Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)) and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for the purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference: Attached hereto.
