As previously disclosed in Current Reports on Form 8-K furnished to the Securities and Exchange Commission, Terex Corporation ("Terex" or the "Company") has commenced a detailed examination in an effort to reconcile imbalances in certain of the Company's accounts. Based on the results of its review, the Company concluded that the financial statements of Terex for the years ended December 31, 2000, 2001, 2002 and 2003 need to be restated to correct certain errors. The Company's internal review activities have not yet been completed and the Company is currently working to complete its financial statements for the year ended December 31, 2004. In addition, the Company has not yet completed its assessment of effectiveness of internal control over financial reporting as of December 31, 2004, although, as previously disclosed in Current Reports on Form 8-K, the Company has determined that a material weakness existed in the Company's internal control over financial reporting which contributed to the occurrence of these errors. The Company believes that it is nearing completion of this process, and currently anticipates filing all appropriate documents, including applicable financial statements, for the year ended December 31, 2004 and prior periods with the SEC in the near future. Once these reports are filed, the Company will file its Quarterly Reports for the quarters ended March 31, 2005 and June 30, 2005 as soon thereafter as possible.
